
Toy Fox Terrier

General Appearance

The Toy Fox Terrier is truly a Toy and a Terrier and both have influenced his personality and character. As a Terrier, the TFT possesses keen intelligence, courage and animation. As a Toy he is diminutive, and devoted with an endless abiding love for his master. The Toy Fox Terrier is a well-balanced Toy dog of athletic appearance displaying grace and agility in equal measure with strength and stamina. His lithe muscular body has a smooth elegant outline, which conveys the impression of effortless movement and endless endurance. He is naturally well groomed, proud, animated and alert. Characteristic traits are his elegant head; his short, glossy and predominantly white coat coupled with predominantly solid head and his short high-set tail.

Temperament

The Toy Fox Terrier is intelligent, alert and friendly, and completely loyal to their owners and protective of them. He learns new tasks quickly, is eager to please, and adapts to almost any situation. The Toy Fox Terrier, like other terriers, is self-possessed, spirited, determined and not easily intimidated. He is a highly animated toy dog that is comical, entertaining and playful all his life. Any individuals lacking good terrier attitude and personality are to be faulted.

Size

8.5-11.5 inches (22-29 cm), 9-11 inches (23-28 cm) preferred, 8.5-11.5 inches (22-29 cm) acceptable. Proportion: the Toy Fox Terrier is square in proportion, with height being approximately equal to length with height measured from withers to ground and length measured from point of shoulder to buttocks. Slightly longer in bitches acceptable. Substance: bone must be strong, but not excessive and always in proportion to size. Overall balance is important.

Coat & Colour

Coat: The coat is short, satiny, shiny, fine in texture and smooth to the touch. It is slightly longer at the ruff, uniformly covering the body.

Colour:

Tri-color: predominantly black head with sharply defined tan markings on cheeks, lips and eye dots. Body is over fifty- percent white with or without black body spots.

White, Chocolate and Tan: predominantly chocolate head with sharply defined tan markings on cheeks, lips and eye dots. Body is over fifty-percent white with or without chocolate body spots.

White and Tan: predominantly tan head. Body is over fifty percent white with or without tan body spots.

White and Black: predominantly black head. Body is over fifty- percent white with or without black body spots. Color should be rich and clear. Blazes are acceptable, but may not touch the eyes or the ears. Clear white is preferred but a small amount of ticking is not to be penalized.

Body spots on black headed tri-colors must be black. Body spots on chocolate headed tri-colors must be chocolate. Both with or without a slight fringe of tan alongside any body spots near the chest and under the tail as seen in normal bi-colour patterning.

Head

The head is elegant, balanced and expressive with no indication of coarseness. Expression: is intelligent, alert, eager and full of interest. Eyes: clear, bright and dark, including eye rims, with the exception of chocolates whose eye rims should be self-colored. The eyes are full, round and somewhat prominent, yet never bulging with a soft intelligent expression. They are set well apart, not slanted, and fit well together into the sockets. Ears: the ears are erect, pointed, inverted V-shaped, set high and close together, but never touching. The size is in proportion to the head and body. Skull: is moderate in width, slightly rounded and softly wedge shaped. Medium stop, somewhat sloping. When viewed from the front, the head widens gradually from the nose to the base of the ears. The distance from the nose to the stop is equal to the distance from the stop to the occipital. The cheeks are flat and muscular, with the area below the eyes well filled in. Muzzle: strong rather than fine, in proportion to the head as a whole and parallel to the top of the skull. Nose: black only with the exception of self-colored in chocolate dogs. Lips: are small and tight fitting. Bite: a full complement of strong white

teeth meeting in a scissors bite is preferred. Loss of teeth should not be faulted as long as the bite can be determined as correct.

Neck

The neck is carried proudly erect, well set on, slightly arched, gracefully curved, clean, muscular and free from throatiness. It is proportioned to the head and body and widens gradually blending smoothly into the shoulders. The length of the neck is approximately the same as that of the head.

Forequarters

Forequarters are well angulated. The shoulder is firmly set and has adequate muscle, but is not overdeveloped. The shoulders are sloping and well laid back, blending smoothly from neck to back. The forechest is well developed. The elbows are close and perpendicular to the body. The legs are parallel and straight to the pasterns, which are strong and straight while remaining flexible. Feet are small and oval, pointing forward turning neither in nor out. Toes are strong, well arched and closely knit with deep pads.

Body

The topline is level when standing and gaiting. The body is balanced and tapers slightly from the ribs to flank with length approximately equal to height; females may be slightly longer. The chest is deep and muscular with well sprung ribs. Depth of chest extends to the point of elbow. The back is straight, level and muscular. Short and strong in loin with moderate tuck-up to denote grace and elegance. The croup is level with the topline and well rounded.

Hindquarters

Hindquarters are well angulated, strong, muscular and free from droop or crouch. The upper and lower thighs are strong, well muscled and of good length. The stifles are clearly defined and well angulated. Hock joints are well let down and firm. The rear pasterns are straight. The legs are parallel from the rear and turn neither in nor out.

Tail

The tail is set high, held erect and in proportion to the size of the dog. Docked to the 3rd or 4th joint.

Gait

Movement is smooth and flowing, with the legs moving nearly parallel and in a line at a walk or slow trot. The topline should remain straight and head and tail carriage erect while gaiting. Movement is balanced and coordinated with good reach and strong drive.

Faults

- Apple head.
- Hackney gait.
- Color: other than ticking, that extends below the elbow or the hock.

Disqualification

- Any dog under 8.5 inches (22 cm) or over 11.5 inches (29 cm).
- Ears not erect on any dog over six months of age.
- Dudley nose.
- Undershot, wry mouth, overshot more than 1/8 inch.
- A blaze extending into the eyes or ears.
- Any color combination not stated above. Any dog whose head is more than fifty-percent white. Any dog whose head and body spots are of different colors.
