

Staffordshire Bull Terrier

General Appearance

The Staffordshire Bull Terrier is a smooth-coated dog. He should be of great strength for his size, and although muscular, should be active and agile.

Temperament

From the past history of the Staffordshire Bull Terrier, the modern dog draws his character of indomitable courage, high intelligence, and tenacity. This, coupled with his affection for his friends, and children in particular; his off-duty quietness and trustworthy stability, makes him the foremost all-purpose dog.

Size

Weight: Dogs, 28 - 38 lbs (13-17 kg)
Bitches, 24-33-1/2 lb. (11-15 kg).

Height (at shoulder): 14-16 inches (36-41 cm), these heights being related to the weights.

Coat and Colour

Coat smooth, short and close to the skin. Colour red, fawn, white, black or blue, or any of these colours with white. Any shade of brindle, or any shade of brindle with white. Black and tan or liver colour not to be encouraged.

Head

Short, deep through, broad **skull**, very pronounced cheek muscles, distinct stop, short foreface, black nose. The **mouth** should be level, i.e., the incisors of the bottom jaw should fit closely inside the incisors of the top jaw, and the lips should be tight and clean. **Eyes**: dark preferable but may bear some relation to coat colour. Round, of medium size, and set to look straight ahead. **Ears** rose or half-pricked and not large.

Neck

Muscular, rather short, clean in outline and gradually widening towards the shoulders.

Forequarters

Legs straight and well boned, set rather wide apart, without looseness at the shoulders, and showing no weakness at the pasterns, from which point the feet turn out a little.

Body

The body should be close-coupled, with a level topline, wide front, deep brisket, well-sprung ribs and rather light in the loins.

Hindquarters

Should be well muscled, hocks let down with stifles well bent. Legs should be parallel when viewed from behind. The feet should be well padded, strong and of medium size.

Tail

Should be of medium length, low set, tapering to a point and carried rather low. It should not curl much and may be likened to an old-fashioned pump handle.

Faults

To be penalized in accordance with the severity of the fault: Light eyes or pink eye rims. Tail too long or badly curled. Non-conformation to the limits of weight or height. Full drop and prick ears. Undershot or overshot mouths. The following faults should debar a dog from winning any prize: Pink (Dudley) nose. Badly undershot or overshot mouth. Badly undershot—where the lower jaw protrudes to such an extent that the incisors of the lower jaw do not touch those of the upper jaw. Badly overshot—where the upper jaw protrudes to such an extent that the incisors of the upper jaw do not touch those of the lower jaw.

Welsh Terrier

Size

The height at shoulder to be 15 inches (38 cm) for dogs, bitches proportionately less. Twenty lbs. (9 kg) shall be considered a fair average weight in working condition, but this may vary 1 lb. (.5 kg) or so either way.

Coat and Colour

The coat should be wiry, hard, very close and abundant. The colour should be black and tan, or black grizzle and tan, free from black pencilling on toes.

Head

The **skull** should be flat, and rather wider between the ears than the Wirehaired Fox Terrier. Stop not too defined, fair length from stop to end of nose, the latter being of a black colour. The **jaw** should be powerful, clean-cut, rather deep, and more punishing - giving the head a more masculine appearance than that usually seen on a Fox Terrier. The **eyes** should be small, not being too deeply set in or protruding out of skull, of a dark hazel colour, expressive and indicating abundant pluck. The **ears** should be V-shaped, small, not too thin, set on fairly high, carried forward and close to the cheek.

Neck

The neck should be of moderate length and thickness, slightly arched and sloping gracefully into the shoulders.

Forequarters

The shoulders should be long, sloping, and well set back. The legs should be straight and muscular, possessing fair amount of bone, with upright and powerful pasterns. The feet should be small, round, and cat-like.

Body

The back should be short, and well ribbed up, good depth, moderate width of chest, and the loin strong.

Hindquarters

The hindquarters should be strong, thighs muscular and of good length, with the hocks moderately straight, well let down, and fair amount of bone.

Tail

The stern should be set on moderately high, but not too gaily carried.

Disqualifications

1. Nose white, cherry, or spotted to a considerable extent with either of these colours.
2. Ears prick, tulip, or rose.
3. Undershot jaw or pig jawed mouth.
4. Black below hocks or white to a considerable extent.
