

CKC Versatility Program

Effective: January 1, 2022

Statement of Purpose

The purpose of the CKC Versatility Program is to encourage interdisciplinary participation by dogs of anybreed, and to recognize the continuing achievements and successes throughout the life of an individual dog.

Versatility Title Application Requirements

- All titles included on any Versatility Title Application must already be on record with the CKC,
- Completed application forms will be verified by CKC staff using the dog's online information,
- Accuracy of an application form is the responsibility of the individual making the application,
- A first application for a Versatility Title may be made at any level for which the dog is qualified; a lower level title is not a prerequisite
- An application for a Versatility Title may be submitted only by an individual currently named as the registered owner of the dog for which the application is made.
- No fee is required for a Versatility Title application submitted by a person who is a CKC member in good standing.
- An Application for a Versatility Title made by an individual who is currently not a CKC member in good standing will require payment of the non-member participation fee as per the CKC Fee Schedule.

The requirements shown below for each Versatility Title indicate the **minimum** required to attain a given Versatility Title. A higher level title may always be substituted as long as the variety of categories is maintained. A title may also be used again as part of a later application for a higher Versatility Title.

Please see the following pages for information regarding the “Levels” of all titles recognized by the CKC.
