## CKC ADDS NEW QUALIFYING SHOW FOR CRUFTS 2019

In collaboration with The Kennel Club, the CKC has added another avenue in which exhibitors can qualify their dogs for the world's largest benched dog show. The Renaissance Dog Association Show held in Chilliwack, B.C. has been designated as a qualifying show.

All group-placement winners (i.e., first, second, third and four in each group) at the Renaissance Dog Association show on Saturday, April 14, 2018, will be eligible to enter Crufts in 2019. The designation of a qualifying show is in addition to the system already in place: A dog may qualify for Crufts if it has placed within the Top 5 in its group according to the Dogs in Canada Top Show Dog point system, or has won Best of Breed, Best of Opposite, Select Dog, Select Bitch or Award of Merit at its Breed National Specialty, as agreed by the Canadian Kennel Club.

For more information on Crufts, the UK Pet Travel Scheme requirements and rules regarding competing with cropped or docked dogs, please visit [crufts.org.uk](http://crufts.org.uk).

## IT4YOU UPDATE: THE MEMBER DASHBOARD - YOU TOLD US WHICH FEATURES MATTER MOST

IT4YOU, the new CKC computer system, promises to provide valuable technology that will bring an improved online experience to our membership.

In the IT4YOU August update we discussed plans for a Member Dashboard, which serves as a landing page from which users can check the status of their documents and applications and access a variety of commonly used functions. Then, to determine how best to configure the dashboard, we created a survey and invited CKC members to rate the value of several proposed features.

Here are the results of the IT4YOU Dashboard Features Survey:

- **A list of your dogs with links to further details:** 90% rated this important or very important.
- **A list of applications and their status:** 76% rated this important or very important.
- **A list of recent invoices:** 72% rated this important or very important.
- **Quick links to common tasks:** 89% rated this important or very important.
- **Access to enhanced help:** 71% rated this important or very important.

- **CKC member news:** 67% rated this important or very important.
- **A top 10 event list and your dog's ranking:** 62% rated this important or very important.

The IT4YOU team would like to thank everyone who took the time to complete the survey. This data will help us focus on the areas that matter most to members and we will continue to request input throughout the project.

If you have questions or concerns, please get in touch with CKC by email at [information@ckc.ca](mailto:information@ckc.ca).

Also, a reminder to members that data clean-up is continuing and, as "data" is your Member information, you can help this process by reviewing and updating your Member Profile at <https://www.ckc.ca/ckcmemberlogin.aspx>.

## RECENT OBEDIENCE AND RALLY OBEDIENCE RULE AMENDMENTS

At the September 2017 Board Meeting, the Board approved a high profile amendment to the Obedience Trial and Rally Obedience Trial Rules and Regulations, Chapter 12 – Open Class that we wish to share pending approval of the official Minutes.

The Board supported two equal open streams, one of which includes out-of-sight stays and a new stream that includes changes of position and an in-sight sit-stay. The change of position exercise was modified to reduce the distance to 10 feet, the number of positions changes to four in total and allows command and/or signal. The second stream remains as current Open class. Both streams result in the same titles and qualify for high-in-trial.

## NEW CENTRAL HUB WITH CANDIDATE, ELECTION, REFERENDUM DETAILS AND MORE

How can I vote? Which candidate is running in my zone? What by-law amendments are being proposed? Which breeds are being considered for ROE?

The 2017 Election and Referendum hub brings you the answers to these questions and more and is available on the CKC website at [www.ckc.ca/en/vote](http://www.ckc.ca/en/vote). Features include:

### Ways to Vote

- Select **voting preferences** for online or paper communication, along with your preference for receiving campaign communications from candidates via **My Profile** to ensure you have your say, your way.

- **New this year:** Beginning November 1, 2017, members will be able to [login to the member website](#) using their membership number to access the link to vote via BigPulse's portal.

## 2017 Referendums

- Review the proposed by-law amendments, including the list of breeds considered for ROE.

## Candidates

- View the list of candidates currently in the running for the 2018-2020 Board of Directors.

## Rules of Eligibility (ROE) Update

- See how far we have come since the Ministry of Agriculture first approved an amendment to the By-laws in 2012 allowing CKC to move forward with establishing ROE for the 175 breeds currently recognized.

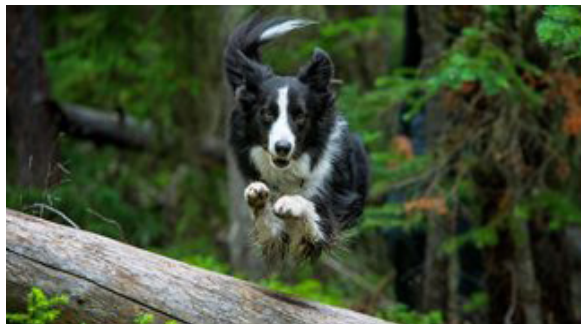

## FAQs for Election, Referendums and ROE

- Check out some of our most commonly asked questions. They might just save you a call!

Remember to login to the member site and update your member profile via [My Profile](#) before you vote and be sure to include your current email address in order to stay up-to-date on all 2017 CKC Election/Referendum updates.

For more help with updating your member profile, you may also contact Membership Services at [information@ckc.ca](mailto:information@ckc.ca) or by calling 416-674-3699 or 1-855-364-7252.

## - ADVERTORIAL -

### Feeding Performance Dogs

Top Dogs need a top performing diet. During training or working periods, working and performance dogs engage in intense physical activity that requires extra energy compared to adult dogs that are not as active. This article highlights the key dietary components of a canine athlete.

#### Sources of Energy

Fats and carbohydrates are the main sources of energy during exercise. The energy requirements for canine athletes varies with the duration, frequency and intensity of the exercise.

#### Fat

In addition to exercise intensity, dietary fat requirements are affected by the duration of exercise. The longer the canine athlete exercises, the more dietary fat it requires.

Maximal oxygen uptake ( $VO_2$  Max) = the highest quantity of oxygen that can be used by the body during exhaustive exercise.

A study of sled dogs showed that when the dietary fat increased from 15% to 60% of the calories, the  $VO_2$  Max increased by

almost 50%<sup>1</sup>. A high  $VO_2$  Max and maximal fat oxidation means better performance during the exercise.

#### Carbohydrates

Carbohydrates are broken down into sugars like glucose and are stored in the muscle and liver cells as glycogen. These stores provide energy for canine athletes during periods of increased intensity in exercise. Once glycogen stores are depleted, the body will shift to fat as an energy source. It is important to find a complete and balanced diet to help meet a hard-working dog's carbohydrate needs when it comes to exercise.

#### References

1. Reynolds A, Hoppeler H, Reinhar, G. et al. Sled dog endurance: a result of high fat diet or selective breeding? FASEB J 9:A996, 1995. 2. Reynolds A: Effect of diet on performance. In Proc Perform Dog Nutrition Symp, Fort Collins, 1995 Colorado State University.

### Additional Dietary Factors

#### Protein

Fat and carbohydrates aren't the only important components of a balanced diet for performance and working dogs. Increased protein in the canine athlete's daily diet supports healthy muscles and more efficient use of fat as an energy source.

Amino acids, the building blocks of protein, are used to build new muscles and repair damaged muscles. As tissue mass tends to increase with training, this increase must be supplied by extra protein in the diet. Increasing dietary protein has also been shown to decrease injuries<sup>2</sup>.

Amino acids are also used to make red blood cells which carry oxygen to the cells. An increased level of oxygen in muscle cells means there is an increased capacity of the muscles to use fat as an energy source. This allows for a more efficient use of fat during prolonged exercise and a delayed onset of fatigue. Endurance dogs should be fed a formula with high protein for best results. If protein is consumed in excess amounts, it can be used as an energy source so be sure to find a formula that is complete and balanced for your dog's needs.

#### Digestibility

Feeding working and performance dogs requires more than increasing the quantity of food in a canine's daily diet, especially where stomach capacity is a factor. A highly digestible diet provides the necessary calories more efficiently than a lower digestible diet, supporting canine athletes with the necessary energy sources in smaller volumes.

#### Water

Always provide adequate amounts of water for hard-working dogs. Small amounts of water should be offered throughout exercise to maintain hydration.

### Complete and Balanced: Performance Formulas

Feeding performance and working dogs for optimum performance during exercise requires a deep understanding of the canine athlete's needs both during exercise and for recuperation. Support your canine athlete with a complete and balanced formula, tuned specifically to the needs of the Top Dog in your life.

– Stacy Lynn Fernandes, Nutritional Communications Manager, Nestlé Purina Pet Care Canada.

# KENNEL NAMES

The following applications for registration of kennel names have been received by The Canadian Kennel Club. Any objections must be in writing and submitted so as to be received by the Registration Division, Canadian Kennel Club, 200 Ronson Dr, Suite 400, Etobicoke, Ontario M9W 5Z9, on or before **November 30, 2017**. Only objections from breeders with registered kennel names will be considered.

## APPLICATIONS FOR REGISTRATION OF KENNEL NAMES

FIRST CHOICE	SECOND CHOICE	THIRD CHOICE	FIRST CHOICE	SECOND CHOICE	THIRD CHOICE

## CANADIAN KENNEL CLUB MISSION STATEMENT

### Who We Are

The Canadian Kennel Club is a national, member-based, non-profit organization, incorporated under the Animal Pedigree Act of Canada. It provides registry services for all officially recognized breeds of purebred dogs and provides governance for all CKC approved shows, trials and events. Finally, the CKC is a communication organization informing all people interested in dogs.

### Mission

The Canadian Kennel Club will service its membership and the community at large by giving support, understanding, help and guidance in all their canine-related endeavors. CKC will work so that members will be proud of their affiliation. The Club will recognize, promote, and publicize the actions of responsible breeders and owners.

### Vision

The Canadian Kennel Club, with its members, will be a dynamic service organization, a recognized authority for purebred dogs, and an advocate for all dogs.

### Values

The Canadian Kennel Club will embrace integrity, openness, honesty and compassion in its dealings with all of its members and customers.
