CKC PARTICIPATES IN FINAL STAGES OF BC CONSULTATIONS RE: PROPOSED STANDARDS OF CARE FOR BREEDERS AND SELLERS OF DOGS AND CATS

Since April 2016, CKC has been in talks with the BC government regarding the development of new animal welfare laws that will assist the BC SPCA in monitoring and taking action against irresponsible breeders. CKC members were also invited to participate in a BC government survey regarding dog and cat breeding to ensure their interests were well represented. [The BC Consultation Summary Report](#) revealed high CKC member engagement and spoke volumes about the dedication and commitment of our member breeders.

Prior to the introduction of [Bill 7 - 2017: Prevention of Cruelty to Animals Amendment Act](#) in March 2017 and throughout the consultation process, CKC has raised concerns about a BC government-proposed licensing or registration system. We have stressed that licensing and registration regulations would provide an unnecessary burden to CKC members in terms of cost, duplication and an extra layer of governance, as CKC members must already adhere to the [CKC Code of Practice](#) and [Code of Ethics](#) in order to retain membership. We also note that the CKC regulatory process has established very clear procedures with regard to enforcement and compliance to CKC by-laws and policies.

Earlier this month, CKC participated in the final round of consultations, with the submission of a consultation document regarding the Proposed Standards of Care for Breeders and Sellers/Brokers of Dogs and Cats in BC.

CKC reminded the BC government that most of our member breeders are hobby breeders and do not sell to pet stores or any third party retailer. We have made it clear that CKC cannot support regulations that do not include clearly defined terms for “Puppy Mill”, “Seller” and “Commercial Breeder”, resulting in all breeders being categorized as the same, whether they are responsible or not.

CKC has reiterated its expertise as a national representative of CKC member breeders and exerts that exemptions be made for CKC member breeders in good standing from any licensing or registration requirements in BC. We also recommend that the BC government adopt the CKC Codes and policies instead of developing and maintaining separate regulations.

BC government staff are now working on a summary of all consultations and proposed regulations will be submitted to the Ministry of Agriculture for approval shortly. The Ministry is looking to implement regulations by end of summer or early fall 2018. Please watch for an update on our website as more information becomes available.

BACK ON TRACK AND THE CANADIAN KENNEL CLUB ANNOUNCE THRILLING NEW PARTNERSHIP

The exclusive multi-year collaboration between the market leader for therapeutic functional fabric and Canada's primary registry body for purebred dogs promises many online and offline benefits for CKC members and their four-legged charges.

Toronto, May 7, 2018 – In what might be described as a “paws across the water” collaboration, Back on Track®, distributor of the therapeutic functional fabric line Welltex® and the Canadian Kennel Club, the primary registry body for purebred dogs in Canada, today announce a multi-faceted, exclusive multi-year partnership destined to benefit both dogs and their two-legged stewards.

The partnership between Back on Track and the Canadian Kennel Club (CKC) pivots on several exciting key points, namely: Back on Track will serve as a sponsor of CKC's esteemed Top Dogs Program, awarded annually to Canada's top dogs who accumulate points throughout the year at CKC-sanctioned events. As well, Back on Track will be the exclusive therapeutic supplier of wearable human and dog products to CKC, which will be available in CKC's online store.

And there's more. Back on Track, in partnership with a leading Canadian veterinarian, will present a series of blogs with advice and information on sport-dog injuries and leading-edge rehabilitation strategies published on CKC's blog, The Dish. This valuable content will support CKC's 19,000 members and all Canadian dog owners as they pursue their passion for participating in dog sports. Stay tuned for additional benefits exclusively for CKC members.

“We are thrilled to have Back on Track on board as a sponsor of CKC's Top Dogs Program,” says Lance Novak, CKC's Executive Director. “Their generosity and support gives CKC the ability to grow our programs like Top Dogs that are so significant to our members.”

Back on Track — first on the market and continually at the forefront of therapeutic fabric technology assisting dogs, horses, and humans with a wide selection of outstanding products like

leg wraps, braces, blankets, and mats — is delighted to align with the esteemed CKC, which registers some 50,000 puppies per year while sanctioning 3,000 events at 600 breed and performance clubs.

“Back on Track is excited to partner with Canada’s oldest and most renowned dog organization to bring its non-invasive pain management wearable technologies to the thousands of CKC members and their dogs across Canada,” says Tobi Simms, CEO of Back on Track Canada. “Moreover, we are eager to be able to assist in providing educational support for sport dog injury recovery through the Back on Track Sport Dog Blog series on the CKC website.”

About Back on Track®

Back on Track® sells therapeutic human, horse and dog products that are specifically designed to positively impact chronic pain and athletic pain symptoms using a functional fabric called Welltex®. Established in Sweden in 2000 by a medical doctor, Welltex® is the fusion of bio-ceramic minerals with fabric thread that has the ability to absorb *near*-infrared energy waves of the body (the body’s heat signature) and release back into the body *far*-infrared energy waves. The latter are emitted back into the tissue to a depth of several centimetres, resulting in vaso-dilation which increases blood circulation and oxygen delivery on a cellular level. The result is a non-invasive pain management tool which may help relieve muscle tension and strengthen the body’s own ability to reduce inflammation, manage pain, and heal injuries. Whether in the form of a soothing dog blanket for performance canines, an agility-enhancing leg wrap for competitive dogs or a supportive knee brace for humans, Back on Track® products perceptibly combat pain and boost strength and dexterity... whatever the species. Thousands of users worldwide testify to the power of Welltex® which was first on the market and remains at the forefront of therapeutic fabric technology with a wide selection of products. Visit botcanada.com.

For more information about Back on Track, please contact Eric Alper Public Relations, Eric@ThatEricAlper.com, 647-971-3742.

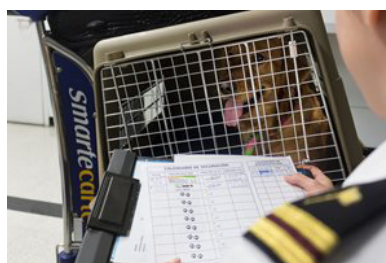

CKC JUDGES OBSERVATION PROGRAM

Further to the Event Officiating Committee communication requesting volunteers for the new Conformation Judges Observation Program, we are pleased to announce that Area Coordinators have been selected. This new program was developed in an effort to maintain the integrity and high standards expected of CKC Conformation Judges. It will ensure consistency for conformation judges as well as exhibitors. There are Seven (7) Area Coordinators as well as observers in each of these areas. There is specific criteria identified in the policy to apply for these positions: an All- Breed judge, or a CKC

licensed judge with 3 or more groups, or CKC members with 10 years of breeding and exhibiting experience as well as 5 years’ experience either as a show chair, show superintendent, show secretary or ring steward at conformation shows. Following is the list of Area Coordinators and the areas that they represent:

Atlantic (Zones 1 & 2)	David Kelland
Quebec & Eastern Ontario (Zones 3 & 5)	Barbara Heal
Ontario North (Zone 4)	Anna Hewson
Central & Western Ontario (Zones 6 & 7)	Pamela Bruce
Manitoba & Saskatchewan (Zones 8 & 9)	Thomas Alexander
Alberta (Zone 10)	Terry Carter
British Columbia (Zones 11 & 12)	Grant Townsend

REMINDER RE: CHANGES TO APPLICATION PROCESS TO IMPORT DOGS UNIMMUNIZED AGAINST RABIES INTO THE U.S.

As you may know, under limited circumstances, the U.S. Centres for Disease Control and Prevention (CDC) *may* issue a permit for a dog that has not received a

rabies vaccination, to allow dogs into the United States when requested in advance and when specific criteria are met.

For those who may not be aware, the CDC announced changes to the application process to bring a dog that is unimmunized against rabies into the U.S. effective August 18, 2017.

Under these changes:

- Dog owners or dog owner’s agents must apply online for a Permit to Import a Dog Inadequately Immunized against Rabies at least 10 business days before arriving into the United States with an unimmunized dog through this online system.
- Permit applications to import an unimmunized dog are no longer available at the port of entry and no permits will be issued at the port of entry.
- Unimmunized dogs arriving at a port of entry without an approved permit will be denied entry into the United States and re-exported to the country of origin at the owner’s expense.
- If a permit application is denied, applicants may submit an appeal for further review by CDC.

Rules that remain unchanged:

- Unimmunized dog permits are only given to US residents (or dog owner/dog owner’s agent with a valid US address) and visitors staying 30 days or more in the United States.

NOTICE BOARD

It takes 30 days for a dog to be fully immunized. CDC will not issue an unimmunized dog permit for a temporary visit less than 30 days.

- This permit will include a **confinement agreement**, which is a legal document stating you will confine your dog in the United States until your dog is fully immunized against rabies.

How to Apply

Apply online at <https://www.cdc.gov/importation/> for a Permit to Import a Dog unimmunized against Rabies. <https://www.cdc.gov/importation/pdf/Unimmunized-Dog-Permit-Application.pdf>.

Application Instructions for an Unimmunized Dog Permit can be accessed here: <https://www.cdc.gov/importation/bringing-an-animal-into-the-united-states/Unimmunized-Dog-Permit-instructions.html>

Unimmunized Dog Permit Approval

CDC will review a permit application within 3–5 business days of receiving the application. If the application is approved, CDC will email the permit to the dog's owner. Only one permit per dog, per trip. You must provide a printed copy of your permit to a US Customs and Border Protection officer and your dogs will be inspected to confirm they are healthy and that the documentation reflects the age and look of the dog.

Standard Rabies Vaccination Requirements

Aside from the limited exceptions mentioned above, CDC regulations require that dogs must be fully immunized against rabies before being imported into the U.S. from a country where rabies is present. These requirements apply equally to all dogs, including puppies and service animals. The rabies vaccination must be administered no earlier than 12 weeks of age of the dog and at least 30 days before arrival at a U.S. port of entry. Therefore, the youngest that a puppy may be imported to the U.S. is 4 months of age. All dogs must be accompanied by a current, valid rabies vaccination certificate.

Dogs that have never been vaccinated against rabies must be vaccinated at least 30 days before arrival. Adult dogs older than 15 months of age that previously received a rabies vaccination given no earlier than 3 months of age and that has since expired may be imported immediately after booster vaccination, without the need to wait 30 days.

Other Regulations

Please note that owners/agents must also comply with regulations from both the US Department of Agriculture and your destination state. [See ASPHIS' Pet Travel site](#).

To avoid disappointment at the border, breeders that transport dogs to the US are encouraged to confirm all importation rules and regulations prior to finalizing a contract with puppy buyers.

For questions about this notice or CDC's import regulations view <https://www.cdc.gov/importation/bringing-an-animal-into-the-united-states/dogs.html>. If you have additional questions, please contact CDC's Importation and Animal Contact Team at CDCAnimalImports@cdc.gov.

IT4YOU UPDATE: INTRODUCING PAY-AS-YOU-GO PURCHASING

As you likely know, CKC is moving forward with a completely revamped computer system, known as IT4YOU, which will offer members a much more enhanced user experience with tools that make doing business with CKC much simpler and faster. The new system will be pay-as-you-go, which requires a credit card, Visa Debit or cheque. It's fully secure and offers immediate turnaround for credit card and Visa Debit purchases, while those paying by cheque will have their applications held pending receipt of payment.

Beginning July 1, 2018, all orders must be paid up front and member credit will no longer be available. In order to ensure a smooth transition with the new system, we are requesting that members who have an amount owing, please settle their account before July 1, 2018.

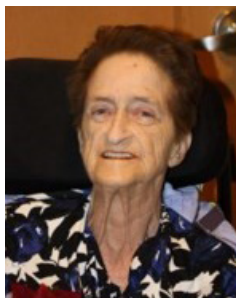

For any members who have a credit balance on their account, there are three options:

- Request that the credit be transferred to the new system (credit must exceed \$10).
- Donate the credit balance to CKC Foundation, for which a tax receipt will be provided (for donations of \$20 or more).
- Request a refund be mailed to you.

Members who have a credit balance should contact Membership Services before June 1, 2018 to inform us of their decision. Please contact Membership Services at 416-675-5511 or 1-855-364-7252 (toll-free) or email at information@ckc.ca

The new IT4YOU pay-as-you-go system will help CKC streamline and shorten the processing cycles and shift focus and resources to better grow our membership and secure the future of the dog fancy in Canada.

CKC REMEMBERS DOREEN NEVRAUMONT

We at the Canadian Kennel Club are deeply saddened by the recent passing of Doreen Nevraumont.

As a CKC member for 48 years, Doreen gave back to the Club, serving as a CKC Board Director for Manitoba from 1985 – 1999. Doreen was also a past Chair of the

CKC Conformation Council and the CKC Breed Standards Committee.

A passionate breeder, Doreen raised and showed Smooth Fox Terriers for approximately 35 years under the prefix “WishBone” and was very much involved in the former Smooth Fox Terrier Club of Canada.

Doreen was also a pioneer of the Red River Terrier Association, joining in 1969, and throughout her time was president for four terms and secretary at other times. No matter her position, Doreen was essential to the smooth running of the Annual specialty. The Red River Terrier Association remembers Doreen as a wonderful mentor and a great “terrier-woman”.

Doreen was an incredible advocate as reflected in her work as a member of The Standing Committee on Agriculture in 1996, when she helped design Manitoba’s Animal Care Act. She was also a contributor to the University of Saskatchewan’s Companion Animal Health Fund and founded the canine tattoo registry in Manitoba for lost and stolen dogs.

Doreen’s tremendous contributions to the CKC and the purebred world will always be remembered and she will be missed terribly. Our thoughts are with Doreen’s family and friends at this difficult time.

MILESTONES

We regret to announce the passing of the following members. The Canadian Kennel Club wishes to extend condolences to family and friends.

- Wendy L Kelly of Lower Sackville, Nova Scotia
- Karen Jansen of Abbotsford, British Columbia
- Janet (Jenny) Stewart of Port Alberni, British Columbia
- Margaret L Steeves of Dawson Settlement, New Brunswick
- Jean Cheze of Meadow Lake, Saskatchewan
- W. Jan Volney of Edmonton, Alberta

KENNEL NAMES

The following applications for registration of kennel names have been received by The Canadian Kennel Club. Any objections must be in writing and submitted so as to be received by the Registration Division, Canadian Kennel Club, 200 Ronson Dr, Suite 400, Etobicoke, Ontario M9W 5Z9, on or before **July 31, 2018**. Only objections from breeders with registered kennel names will be considered.

CANADIAN KENNEL CLUB MISSION STATEMENT

Who We Are

The Canadian Kennel Club is a national, member-based, non-profit organization, incorporated under the Animal Pedigree Act of Canada. It provides registry services for all officially recognized breeds of purebred dogs and provides governance for all CKC approved shows, trials and events. Finally, the CKC is a communication organization informing all people interested in dogs.

Mission

The Canadian Kennel Club will service its membership and the community at large by giving support, understanding, help and guidance in all their canine-related endeavors. CKC will work so that members will be proud of their affiliation. The Club will recognize, promote, and publicize the actions of responsible breeders and owners.

Vision

The Canadian Kennel Club, with its members, will be a dynamic service organization, a recognized authority for purebred dogs, and an advocate for all dogs.

Values

The Canadian Kennel Club will embrace integrity, openness, honesty and compassion in its dealings with all of its members and customers.

AN INFORMATION SUPPLEMENT FROM THE CKC

KENNEL AND BENCH
