

WORKING CERTIFICATE TEST RULES & REGULATIONS

Effective January 1, 2023

CANADIAN KENNEL CLUB®

CLUB CANIN CANADIEN^{MD}

PURPOSE

The primary objective of the WC, WCI and WCX tests is to encourage the development and use of those natural abilities for which retrievers were originally bred. The tests provide a means to help determine future breeding stock, encourage retriever owners to develop their dogs' natural abilities, and to have retrievers become more proficient as hunting partners. The tests are non-competitive and those dogs that pass the tests to the satisfaction of the judges will be recorded as having basic work ability.

2 GENERAL RULES & REGULATIONS

2.1 Eligibility of Clubs to Hold Working Certificate Tests

- 2.1.1 Only CKC recognized clubs or associations in good standing with the CKC are eligible to apply for and hold a working certificate test.
- 2.1.2 Any club that has not run a WC test under CKC rules within 3 years is required to run a sanctioned test.
- 2.1.3 A club may hold working certificate tests only in which all eligible breeds may participate.

- 2.2.1 A club or association applying to hold a working certificate test must make application on forms provided by the CKC. The Event Date Application must be submitted so as to be received not less than 180 days prior to the date of the proposed tests. The CKC will notify the club whether or not approval has been granted. If the date is granted

and the club fails to hold its tests on the date approved, an administrative fee as set by the Board will be assessed against the club, unless the CKC waives this fee on the grounds that the club had no alternative but to postpone or cancel.

- 2.2.2 The Event Secretary must be a regular member in good standing with the CKC.
- 2.2.3 The CKC shall have the authority to grant or withhold approval of an application for test dates. In the event approval is withheld, the test-giving club shall have no claim against the CKC.
- 2.2.4 Permission may be granted to hold simultaneous WC events, less than 402 km (250 miles) apart, at the discretion of the CKC and after consultation with the clubs involved.

2.3 Postponement, Cancellation or Combining Event

- 2.3.1 If a date is granted and the club fails to hold its tests on the date approved, an administrative fee as set by the Board will be assessed against the club, unless:
 - (a) The weather is unsuitable for holding the tests, in which case, the Working Certificate Test Committee may suspend indefinitely or postpone any test up to 3 days. Notice of such suspension or postponement shall be forwarded immediately to the CKC. Postponement beyond 3 days must have the approval of the CKC.
 - (b) Because of circumstances beyond its control, a club finds that the entry on the closing date is less than 8 dogs, in which case, the club may at its option cancel the tests, without penalty, subject to the approval of the CKC, and provided that such information is included in the premium list. All entrants are to be notified immediately.

qualifications of a person seeking to establish eligibility to judge one or more tests. It may prescribe regulations by which a person may be removed from the list of persons eligible for approval to judge at a working certificate test.

- 3.1.4 If the CKC is not prepared to approve a person selected as a judge, or is not prepared to approve the entire assignment for which a person has been selected as a judge, the club must, within 2 weeks thereafter, select and submit to the CKC, the name(s) of an alternate person to judge the test or tests for assignments not previously approved by the CKC.
- 3.1.5 If it is necessary to obtain a substitute judge, the test committee shall attempt to obtain one of equal qualification and the CKC must be notified of the change and the reasons. Any entrant may withdraw his entries when advised of the substitute judge provided it is done in writing before the running of the first test. The entrant shall receive a refund of entry fees.
- 3.1.6 Once a panel of judges has been approved by the CKC, no change will be permitted except when necessary (i.e. due to death or illness) and with CKC permission. - 3.3.2 Judges shall have the authority to expel from the test any dog which does not obey its handler and any handler who interferes willfully with another handler or his dog. No dog shall be given a pass in a working certificate test unless the dog has completed all tests in that working certificate test, except a test which has been discontinued.

 - (c) Name of breed
 - (d) Sex of dog
 - (e) Date and place of birth
 - (f) Name of sire and dam
 - (g) Name of breeder
 - (h) Stake entered
 - (i) Name of owner (name of lessee shall be given instead of the name of the registered owner if the dog is being held under lease)
 - (j) Complete address of owner or lessee
 - (k) Name of handler if the dog is not to be handled by the owner or member of his immediate family and
 - (l) Signature of owner, lessee or authorized agent

-
- 6.2.2 Owners or agents are responsible for errors or omissions in completing the entry form, regardless of who makes the error.
 - 6.2.3 All entries shall be made on official CKC entry forms.
 - 6.2.4 In the case of entries transmitted by facsimile, the entry form must be signed by the owner or agent before judging starts.

6.3 Entry Fees

- 6.3.1 A club may not accept an entry fee other than that which is published in the premium list or entry form or in any way discriminate between entrants.
- 6.3.2 The entry of a dog at a working certificate test held under these rules must be accompanied by the entry fee.
- 6.3.3 Tendering of a dishonoured cheque or credit card in payment of entry fees shall be considered non-payment of entry fees, and is an offence punishable by disciplinary action and cancellation of awards.
- 6.3.4 Non-compliance with this section of these rules shall be considered an offence punishable by disciplinary action and cancellation of awards.

6.4 Moving Up

- 6.4.1 A dog that is individually registered in the records of the CKC or has an ERN or a PEN and has completed the requirements for a WC or WCI in accordance with the provisions of these rules may, after closing date and time of entries for a test, be transferred from the WC to the WCI, or from the WCI to the WCX, provided the request for transfer is submitted by the owner, handler or agent to the test secretary in writing prior to the commencement of the test.
- 6.4.2 The test secretary shall amend the marked catalogue to be sent to the CKC accordingly, and shall attach the request to the appropriate entry form which is to be sent to the CKC.
- 6.4.3 If it is established by the CKC that a dog transferred to WCI or WCX has not completed the requirements for WC before moving to WCI or a dog has not completed the requirements in WCI before moving to WCX, then all passing ribbons and/or

awards earned by the dog incorrectly entered shall be forfeited and cancelled by the CKC and the owner may be subject to disciplinary action.

- 6.4.4 In order for a dog to be eligible to move up, the dog must be individually registered in the CKC or have an Event Registration Number (ERN) or Performance Event Number (PEN) before entries close. The addition of a registration number, ERN or PEN after close of entries does not make the dog eligible and will result in referral to the Discipline Committee.

6.5 Health

- 6.5.1 A dog may not be entered at a test if it has any communicable disease.

- 6.5.2 Dogs entered in a test must have current immunization status.

- 6.5.3 No dog may be brought onto the grounds or premises of a test if it:

- (a) is known to have distemper, parvovirus, kennel cough or other communicable disease
- (90-05-19) (b) has recovered from distemper, parvovirus kennel cough or other communicable disease within the last 30 days.
- (90-05-19) (c) has been housed within 30 days prior to the tests on premises on which there existed distemper, parvovirus, kennel cough or other communicable disease.

- 6.5.4 Where it is found that these rules have been contravened, the dog in question shall be removed from the test grounds and the owner/handler will be subject to disciplinary action.

6.6 Cancellations

- 6.6.1 If a dog has been entered in any test for which it is ineligible, all ribbons won by that dog in that test shall be cancelled by the CKC when the results of the working certificate tests are checked by the CKC from the judge's book.

- 6.6.2 If the pass of a dog is cancelled by the CKC, the entrant of the dog shall return all ribbons for such passes to the secretary of the test giving club within 10 days of receipt of notice from the CKC of said cancellation.

6.7 End of Test

6.7.1 The Working Certificate Test Secretary shall, within 21 days of the completion of an approved working certificate test, forward to The Canadian Kennel Club the official catalogue/running list, marked with the passes in all tests, and absentees noted.

6.7.2 The club must also forward to The Canadian Kennel Club an unmarked official catalogue/running list and all entry forms of all dogs that passed.

6.7.3 The test-giving club is responsible for the collection of all listing fees and the submission of the fees to The Canadian Kennel Club so as to be received not more than 21 days after the closing of the test. The test-giving club shall forward the following to The Canadian Kennel Club:

(01-05-18) (a) The signed certification over the signatures of any one of the following: president, vice-president, secretary or other authorized signing officer, as to the number of dogs with a Temporary Competition Number (TCN) entered in its test, and the total number of dogs entered in competition in its test.

(b) A remittance which shall include all listing fees, and recording fees as set by the Board of Directors for each and every dog entered in its tests. In the event that The Canadian Kennel Club establishes that the remittance fails to completely cover the fees as set forth above, an administrative fee as set by the Board shall apply.

6.7.4 An administrative fee as set by the Board will be imposed for each day's delay in the returns reaching the CKC.

6.8 Disqualification & Reinstatement (19-03-16)

6.8.1 Any dog disqualified for biting or viciousness shall automatically be disqualified in any other event in any other discipline until such time as the dog is officially reinstated.

6.8.2 (19-03-16) At his discretion, a judge shall have the authority to excuse or disqualify a dog which menaces, threatens, attempts to bite or bites the judge, another person, or another dog in the field. When a dog is twice excused on this account, it shall have the status of a disqualified dog.

-
- 6.8.3 At his discretion, a judge shall have the authority to permanently disqualify a dog which bites the judge or another person in the field. Dogs disqualified under this provision will not be eligible for reinstatement. The decision to permanently disqualify a dog must be clearly indicated on the Judge's Disqualification Form.
(19-03-16)
- 6.8.4 Once a dog has been disqualified for any reason at a Working Certificate Test, it may not be entered until the dog has been reinstated by the CKC. All awards earned by a dog in violation of this section will be cancelled by the CKC and the owner of the dog is subject to disciplinary action. A dog disqualified under section 6.8.3 is not eligible for reinstatement.
(19-03-16)
- 6.8.5 Any dog that is disqualified under section 6.8.3 shall automatically be disqualified from entering in any other CKC event in any other discipline until such time as the dog is officially reinstated, if the dog is eligible for reinstatement.
(19-03-16)
- 6.8.6 Reinstatement
(19-03-16)
- (a) The owner of a dog which has been disqualified at an event held under these rules may, after 30 days from the date of said disqualification, apply in writing to the CKC for reinstatement of the dog, unless the dog is ineligible for reinstatement as per Section 6.8.3. The request for reinstatement must be accompanied by a deposit as set by the Board.

7 UNSPORTSMANLIKE CONDUCT

- 7.1 It shall be deemed unsportsmanlike conduct if a person during the running of or in connection with an event abuses or harasses a judge, test official or any other person present in any capacity at an event.
- 7.2 Any handler who displays unsportsmanlike conduct or who is seen to kick, strike or otherwise roughly manhandle a dog while on the grounds of a working certificate test at any time during the holding of the event, may be expelled from the test by the Working Certificate Test Committee.
- 7.3 The judges shall also have the authority to expel a handler from a test if they observe unsportsmanlike conduct on the part of the handler or see the handler
-

kicking, striking or otherwise roughly manhandling a dog while the event is in progress. It will be the duty of the judge to report promptly to the Working Certificate Test Committee the expulsion of a handler.

- 7.4 The Working Certificate Test Committee shall investigate, at once, any instance of alleged unsportsmanlike conduct on the part of any handler, or any report that a handler has been observed kicking, striking or otherwise roughly manhandling a dog. If the Working Certificate Test Committee, after investigation, determines that a handler is in violation of this section, and that the incident, if proven, would constitute conduct prejudicial to the sport or the CKC, it shall exercise its authority in accordance with the Complaints section of these rules.
- 7.5 The test secretary shall submit to the CKC a complete report of any hearing action taken under this section within 21 days.

8 WORKING CERTIFICATE TITLES

8.1 Working Certificate (WC)

- 8.1.1 The CKC shall permit the use of the letters WC signifying Working Certificate to be used after the name of each dog that has met the requirements for the title as hereinafter provided:
- (a) The dog must receive one passing ribbon at a WC test held under these rules.
 - (62-03-19) (b) The dog must be individually registered in the CKC records or have an Event Registration Number (ERN) or Performance Event Number (PEN). The registration number or ERN or PEN must be shown on the entry form

8.2 Working Certificate Intermediate (WCI)

- 8.2.1 The CKC shall permit the use of the letters WCI signifying Working Certificate Intermediate to be used after the name of each dog that has met the requirements for the title as hereinafter provided:
- (a) The dog must receive one passing ribbon at a WCI test held under these rules.

-
- (63-03-19) (b) The dog must be individually registered in the CKC records or have an Event Registration Number; (ERN) or Performance Event Number (PEN) the registration number or ERN or PEN must be shown on the entry form

8.3 Working Certificate Excellent (WCX)

8.3.1 The CKC shall permit the use of the letter WCX signifying Working Certificate Excellent to be used after the name of each dog that has met the requirements for the title as hereinafter provided:

- (a) The dog must receive one passing ribbon at a WCX test held under these rules.

- (64-03-19) (b) The dog must be individually registered in the CKC records or have an Event Registration Number (ERN) or Performance Event Number (PEN); the registration number or ERN or PEN must be shown on the entry form

9 TEST REQUIREMENTS

9.1 The Working Certificate Test

9.1.1 The Working Certificate test shall be for all eligible breeds 6 months of age or older on the day of the test who have not received confirmation of the title of WC from the CKC on or before the closing date for entries. The tests for WC shall be:

- (a) Back to back singles on land
(b) Back to back singles in water

9.1.2 The requirements of the WC are designed to test a dog's natural abilities such as marking ability, memory of fall, intelligence, desire, style, perseverance, nose and courage.

9.1.3 A dog need not be totally steady and may come to line on lead. The dog may be held in heel position by lead, collar or hand. Dogs shall not wear any type of collar while retrieving during the test. The dog must bring the bird across the line and should deliver to hand. The dog should show no evidence of gun-shyness or hard mouth. The dog should show desire and willingness to work in all weather conditions.

-
- 9.1.4 Back to back singles on land should have an angle of not less than 90 degrees between the falls, be in light to moderate cover and be approximately 45.7 to 68.5 meters (50 to 75 yards) in length. The length will vary as to the type of cover and terrain. The birds should land in cover so that they are not conspicuous from the line.
- 9.1.5 The back to back singles on water may be run from separate lines. If the test is run from one line, the angle shall not be less than 90 degrees between the falls and shall be run from the edge of the water. If the test is run from 2 separate lines, the retrieves shall be consecutive back to back singles and the 2 lines at the edge of the water shall not be more than 6.1 meters (20 feet) apart. Birds should be in swimming water from 22.9 to 36.6 meters (25 to 40 yards) away depending on the cover of the water. Birds should land in open water or at the edge of reeds but should not be hidden. Tests should be set-up so as not to encourage shore running. Decoys are not to be used.
- 9.1.6 A dog running the WC test must not be handled, as marking ability, style and desire are of primary importance. The dog should return to the handler as directly as possible, and can be given whistle, voice, and hand encouragement to return. Speed is not essential, but the dog should not disturb too much cover on the way to the falls.
- 9.1.7 All gunners and throwers should be visible to the dog and should not move after the birds are thrown. Gunners and throwers should stand in close proximity to one another if separate gunner and throwers are used. The bird pail must be kept covered. Guns and blank ammunitions are to be used.

9.2 The Working Certificate Intermediate Test

- 9.2.1 The Working Certificate Intermediate test shall be for all eligible breeds who have earned the title of WC. In the case of a limited entry test, dogs that have obtained their titles will be entered only after dogs working toward their titles have been entered. The tests for the WCI shall be:
- (a) Land double
 - (b) Honour on the land test
 - (c) Water double

-
- 9.2.2 The WCI tests are designed to continue to test the dog's natural abilities and to show that he can be a useful partner on a hunt.
- 9.2.3 Dogs running in the WCI should be reliable and steady, under control, show desire and willingness to work and be able to use their noses. The dog must deliver to hand, and shall come to the line off lead. Dogs and handlers are under judgement from the time they leave the holding blind, throughout the test, and until they are behind the judges after the test. The holding blind shall be placed within 22.9 meters (25 yards) of the judges.
- 9.2.4 Land Double - the angle between the falls shall be not less than 90 degrees. The birds will land in cover and not be conspicuous from the line. The falls shall be approximately 68.6 meters (75 yards) long in moderate to moderately heavy cover.
- 9.2.5 Honour - the dog shall honour on the land test. The honouring dog will be required to sit and stay until the working dog has made the area of the fall, or should have made the area of the fall, for the first bird he is to retrieve. Handlers may not intimidate, or interfere with either dog during the honour. Handlers are not to block their dogs' views of the falls. In the event of a delay in judging, the judges may permit the honouring dog to be relaxed in sight of the judges until the test is ready to resume.
- 9.2.6 Water Double - the angle between the falls shall not be less than 90 degrees. The birds will land with a definite and visible splash 36.6 to 45.7 meters (40 to 50 yards) from the line. One bird shall land in cover. Decoys are to be used, singly anchored and centrally located between the 2 marks and visible from the line.
- 9.2.7 WCI dogs are not required to handle on a mark. Marking ability, style and desire are of primary importance. Dogs should return directly to the handler on whistle command or no command. Verbal commands must be kept to a minimum and used only if absolutely necessary when the dog is within about 4.6 meters (15 feet) of the line, not when he is out in the field. Gunners and throwers shall not move after the birds are thrown. Bird pails are to be kept covered. Guns and blank ammunition are to be used.
-

9.3 The Working Certificate Excellent Test

- 9.3.1 The Working Certificate Excellent test shall be for all eligible breeds who have earned the title of WCI. In the case of a limited entry test, dogs that have obtained their titles will be entered only after dogs working towards their titles have been entered. The tests for the WCX shall be:
- (a) Walk-up test with a land double or land/water double
 - (b) Honour on the walk-up
 - (c) Water double
 - (d) Land blind
 - (e) Water blind
- 9.3.2 WCX dogs are not required to handle on a mark. Marking ability, style and desire are of primary importance. Dogs should return directly to the handler on whistle command or no command. Verbal commands are discouraged when the dog is in the field. Gunners and throwers shall not move after the birds are thrown. Bird pails are to be kept covered. Guns and blank ammunition are to be used.
- 9.3.3 The WCX dog should be a steady, reliable worker that would be an asset to have along on a hunt. Dogs and handlers are under judgement from the time they leave the holding blind, throughout the test, and until they are behind the judges after the test. The holding blind shall be placed within 22.9 meters (25 yards) of the judges. The dog shall be off lead at all times while under judgement. The dog must deliver to hand, show desire and willingness to work, be able to use his nose, and follow directions when necessary. The dog must not disturb too much cover either on the way to or from the falls.
- 9.3.4 Walk-up - the test shall include a walk-up for both the working dog and honouring dog which shall be about 13.7 metres (15 yards) to a maximum of 22.9 metres (25 yards) in length, depending on the cover and terrain. Both dogs shall stop when the first gun is fired at which time both handlers may quietly tell and/or whistle their dogs to sit and stay.
- 9.3.5 The honouring dog must honour until the working dog has picked up its first mark, or should have picked up its first mark. The first bird thrown shall be about 91.4 meters (100 yards) and the second bird about 45.7 meters (50 yards) away in moderate to heavy cover. There shall not be less than

a 45-degree angle between falls and they should be visible to both dogs. Handlers are not to block their dog's view of the falls. The thrower shall stay in position until the birds have been retrieved. Both handlers shall carry unloaded guns or replicas during this test. The dogs shall honour after they have run the mark. The walk-up test, if the grounds permit it and the judges choose to, can be to one bird in the water and one bird on land. The bird in water should be the shorter bird thrown about 45.7 meters (50 yards) from the line.

- 9.3.6 Water Double - shall have falls up to 45.7 meters (50 yards) in length in swimming/wading water with natural cover in the water. The falls shall be in light cover and the dogs shall be able to see the splash of the ducks as they land. Effort should be made to prevent the ducks from drifting too far from the edge of the water, but shore running and acute water angle entries should be avoided if possible. The angle between falls should be about 90 degrees. Several decoys, singly anchored, should be in front of the line but not in a direct line to either fall. The handler shall point an unloaded gun or replica toward the mark and a designated gunner shall discharge a gun within 1.8 meters (6 feet) of the handler for one (1) mark.
- 9.3.7 Land Blind - shall be about 45.7 meters (50 yards) to a maximum of 68.5 meters (75 yards) in length, depending on the cover and terrain, and should have some sort of natural obstacle such as a ditch, small hedgerow, or lying water about 4.6 meters (15 feet) in front of the line. A shot will be discharged at the line by the designated gunner when the dog is on line, and before it is sent. Cover should be moderate, and if possible, open flat terrain should be avoided when setting up this test.
- 9.3.8 Water Blind - shall be a maximum of 45.7 meters (50 yards) in length. The running line shall be no more than 4.6 meters (15 feet) back from the water's edge and it must be a direct not an angle entry. There shall be no gunfire, no diversion or blind planter in sight. Decoys, if used must be singly anchored at least 3 meters (10 feet) off the direct line to the blind and not closer than 3 meters (10 feet) to either the shore or the blind.

10 REGULATIONS FOR PERFORMANCE & JUDGING

10.1 Guidelines

- 10.1.1 Members of the test giving club, officers and test committee may run their dogs in the tests so long as neither they nor a member of their immediate family is a judge at the test.
- 10.1.2 In working certificate tests, gunners, throwers or handlers shall not wear distinctively white or light clothing at any time but handlers may wear handling jackets for the blinds in WCX.
- 10.1.3 In the tests, dogs worked by the same person or belonging to the same owner shall be separated when possible.
- 10.1.4 Dogs may be run out of the order in which they are drawn:
- (a) When in the opinion of the judges or the Working Certificate Test Committee it will result in a reasonable and desirable saving of time in conducting the test
 - (b) When in the opinion of the judges it will avoid unfairness or prejudice to any participating dog resulting from an event which has occurred in a particular test
- 10.1.5 It is essential that all spectators in the gallery be kept far enough from the line so as to enable the working dog to clearly discern his handler and nothing shall be done to distract a dog's attention from its work. A handler has the right to appeal to the judges if the gallery is interfering with the dogs' work in any way and the judges at their discretion may, if they believe the dog has been interfered with, give him another test.
- 10.1.6 No training will be allowed on the test grounds within 24 hours of the start of the test. A bumper thrown by the handler for the purpose of a warm-up shall not be considered training.
- 10.1.7 All use of firearms at these tests must comply with Federal/Provincial regulations. Safe handling of firearms by any person concerned with the test on the test grounds is mandatory.
-

-
- 10.1.8 In all tests all dogs shall be kept where they can see neither the falls of another dog nor see another dog work in any series.
- 10.1.9 All dogs must be kept where they cannot see blind retrieves planted, and where they cannot see another dog working on a blind retrieve in any series. Members of the Working Certificate Test Committee should report violations of this section to the marshal. Violation of this section should be penalized by elimination of the dog and the handler from the testing.
- 10.1.10 The right to run a dog cannot be transferred except when the handler has been dismissed from the test or when approved by the Working Certificate Test Committee.

10.2 Inspection of Test Grounds

- 10.2.1 It is very important that judges inspect the test grounds with representatives of the Working Certificate Test Committee in advance of the start of the test, and seek their counsel regarding any peculiarities of the grounds not readily apparent. At that time, the judges should select and determine the nature of each test and its location, preferably for the entire testing. Also, the test-giving club must provide an efficient organization to conduct the mechanics of the test. This will do much to reduce to a minimum the delays in starting tests providing, of course, that the judges have previously planned and have instructed the Working Certificate Test Committee about the location of the next series and the requirements for birds, guns, gunners, boats, decoys, and the like.

10.3 Before Judging Begins

- 10.3.1 On marked retrieves, a dog should be able to see a bird in the air and as it falls, since marking can be evaluated only when it has seen the falls. Many factors contribute to a dog's ability to see and mark the direction and depth of fall of marks: for instance, the background against which the bird is visualized in flight and the light conditions, as well as the height to which the birds are thrown, and the angle of the throw in relation to the retrieving line. Care should be taken that gun stations and the arc of the throw are not obscured by shadows from treelines or such.

Extreme angle back throws, and angle in throws should be avoided as they lack a distinct arc for the dog to visualize. As much as possible the throw should be close to a 90-degree angle relative to the line.

10.3.2 Before each test or series is started, the judges must reach certain decisions between themselves about various details and should consistently comply with these procedures:

- (a) When signaling for birds to be thrown it is recommended that each set of gunners be signaled separately. This creates more uniform timing between the falls and also prevents additional birds being thrown if a fall is unsatisfactory to the judges. The signaling judge should be careful that neither his signaling or his shadow distracts either dog.
- (b) A verbal command and/or signal to the handler to send his dog is proper, but it is not proper to call the dog's name, or the handler's name, for this purpose.
- (c) Each judge should be at liberty to say "no bird" and independently, if, in his opinion, any fall or any situation that develops makes for a relatively unfair test for the dog under judgement. Under such conditions the dog should be picked-up immediately and tested later on a new set of birds after waiting behind the line until several other dogs have been tested.
- (d) Judges should watch the dog being tested and try to determine whether he apparently saw and marked each fall. It is proper and right to give him another set of birds if he is unable to see the birds and mark the falls through no fault of his own, but due to poor flight of the bird, unusual light conditions, striking changes in the background, or any other occurrence which makes for directly different conditions from those under which previously tested dogs had been run in that series. On the other hand, the dog should not be given a new set of birds when failure to mark was of his own doing, either through lack of attention, or because his attention was frozen on another set of gunners or a previous fall.
- (e) When on line, if working dogs creep forward or jump before being sent, short of breaking, the judges should agree whether they are to be brought to heel before being sent to retrieve.

If so, handlers should be informed of this requirement, in advance, and the manner in which they will be advised on-line of its application. Also, care should be exercised so that this is enforced in such a manner that it does not become grossly unfair for honouring dogs.

- (f) The judges should agree in advance about the degrees they will consider a controlled break in contrast to one which will eliminate the dog. They should be in agreement about the severity of the penalties to assess for various degrees of controlled breaks.
- (g) Judges should keep sufficiently detailed notes on each dog's performance so as to enable them to recall it completely, or at least its outstanding features. Each fault should be noted including those that are minor. Although the latter may not require that a dog be penalized at that time, repetitions of that fault, or commission of various other faults in succeeding series, may cause a total of faults to assume serious proportions.

10.4 Instructions to Handlers

- 10.4.1 Instructions to the handler can be given as he comes to line regarding the position he is to take, the nature of the test, and any special instructions about the desired method of completing it. If special instructions are to be given, great care must be exercised so that each handler receives the same instructions. This can be accomplished by summoning all handlers to the line before the series is started, and then announcing those special instructions to the group once and for all. If it is not possible to assemble all handlers for such a single announcement, the special instructions can be written and given to the marshal, who in turn should show them to each handler before he goes on line. Whatever method the judges decide to adopt, they should be certain that all handlers receive identical instructions.

10.5 Procedures On Line

- 10.5.1 Changing tests after a series has been started is undesirable and should be avoided if at all possible. One way of avoiding such unsatisfactory tests, or of avoiding unforeseen and unpredictable situations is the practice of running a test dog at the start of every series. Where possible, a test dog should be used in all tests. A test dog is used by many judges under

conditions when they may entertain doubts about the exact way in which the test may actually go. Some believe that the use of a test dog really saves time and on occasion, it may save embarrassment for judges.

- 10.5.2 If a dog is to be picked-up and eliminated for a faulty performance, instructions to that effect should be given by the judge who is calling the numbers, however, the decision to eliminate must be the consensus of all the judges.
- 10.5.3 Every bird retrieved and delivered to the handler should be inspected by one of the judges. Failure to inspect retrieved birds must be catalogued as carelessness and as an undesirable practice. It is unfair to all dogs that are being tested, not only in respect to the question of hard-mouth, but more particularly since it may furnish the explanation for a slow pick-up or some other oddity in a dog's performance. Any unusual condition of a bird should be brought to the attention of all the judges. If the same birds are to be used again those that are damaged should be set aside and not used again.
- 10.5.4 Dogs shall be penalized if they are noisily or frequently restrained by their handlers while on line. The degree of the penalty should correspond to the extent and frequency of repetition of the infraction. Although it is not required, it is a considerate gesture by judges, if they are in agreement, to notify handlers when their methods of restraint are incurring penalties for their dogs.

10.6 Marshals and Gunners

- 10.6.1 The marshal, in addition to his other duties, should call the dogs to line and announce to the judges the number of the dogs about to be tested. He should call back to line any dog that was picked-up and is to be re-tested at a later time. The length of time a dog shall be allowed to wait behind a line before the re-testing shall be by pre-arrangement with the judges. The handler should be told when he is to run again at the time the dog is picked-up. The marshal shall also obtain the call backs for the next series from the judges, and announce them. Instructions given to the marshal should be by agreement of the judges.
- 10.6.2 Instructions given to the gunners should be by agreement of the judges, though the instructions may vary from series to series. The gunners should remain quiet and not move their position after their

bird is down. Gunners should volunteer information to the judges only:

- (a) If the dog is returning with a bird other than one that had been meant for him.
- (b) If there is a significant change in the cover, which may not be apparent to the judges.
- (c) If a bird has sunk.

10.6.3 The following sections shall apply to gunners and throwers:

- (a) Gunners and throwers shall be positioned in close proximity in the field, except in the WCX when one gunner is required on line for the water double.
- (b) Gunners and throwers must be easily seen and totally visible to the dogs when they are working the bird being retrieved. In WC, the second set of gunners may sit down or retire while the other bird is being thrown. In WCI and WCX tests, gunners may sit down, but not change position after they have fired/thrown.
- (c) Gunners and throwers may not wear distinctively white shirts, jackets, or coveralls. Ordinary clothing is acceptable, camouflage is not a requirement.
- (d) Throwers must keep the bird pail covered while the dog is working.
- (e) Gunners are required to discharge their firearms prior to the bird being thrown; no duck calls are to be used.
- (f) Mechanical bird throwers may be used.

10.7 **Evaluating Dog Work**

10.7.1 No handler shall:

- (a) Carry any exposed training equipment, (except whistles) or use any other equipment or threatening gestures in such a manner that they may be an aid or threat in steadying or controlling a dog
- (b) Hold or intentionally touch a dog while under judgment except as specifically provided for in these rules.

Any violation of these provisions is sufficient grounds to justify elimination from the stake. It is a considerate gesture if the judges notify a handler if a method of restraint might incur a penalty.

-
- 10.7.2 Steadiness, to the extent of defining what constitutes a break, is clearly presented in these rules. (90-03-16) However, dogs on the line sometimes make various types of movements when game is in the air. Such movements may be interpreted as efforts by the dog to improve his view of the fall, and some occur through sheer excitement. Some dogs creep forward from the line as birds are thrown. If the handler makes no effort to stop or restrain the dog, other than as provided for in section 10.7.6, a judge should not interpret this as a deliberate intent to retrieve, since nothing was done to stop the dog. On the other hand, if the handler does make an effort to stop his dog, a judge should assume that the handler believed the dog intended to retrieve and should deal with such infractions accordingly.
- 10.7.3 Attention is displayed even as a dog comes on line. His eagerness and general attitude when coming on line, his alertness in locating the gunners, in acceding to his handler's commands, and his zeal for the hunt are highly desirable traits. Conversely, lack of attention and lack of interest should be penalized. Well mannered, experienced dogs should not mistakenly be penalized for lack of excitement or enthusiasm.
- 10.7.4 Ability to mark does not necessarily imply pinpointing the fall. A dog that misses the fall on the first cast but recognizes the depth of the area of the fall, stays on it, then quickly and systematically hunts it out, has done both a credible and an intelligent job of marking.
- 10.7.5 Delivery of the bird should be made to the handler directly upon return from the retrieve. It should be given up willingly. A dog should not drop the bird before delivering it and should not freeze or be unwilling to give it up. He should not jump after the bird once the handler has taken it from him. Penalties for faulty delivery may range from minor for an isolated minor offence to elimination from the test, either for a severe freeze or because of repeated moderate infractions.
- 10.7.6 Recast occurs when a dog makes a start towards a marked fall, but stops within a short distance of the line (the distance usually limited to 15 feet or 4.5 m should be agreed upon between the judges) and returns or is recalled to the handler. The dog is then sent to retrieve again. This is most often attributed to confusion on the part of the dog as to whether it was sent to retrieve the first time. It is not considered a recast when a dog goes to the area of the fall, fails to
-

find the bird and returns (or is recalled) to the handler.

- 10.7.7 In the WCI and the WCX test it is desirable that the handlers of both the working dog and the honour dog remain silent from the time the first shot is fired until the dog is released by the judge but the handler may very quietly give an occasional command without incurring a penalty.
- 10.7.8 Style is apparent in every movement of a dog and throughout his entire performance at tests; for example, by the gaiety of his manner in approaching the line, by his alertness on line, by his eagerness and speed on retrieves, by his water entry, by his pick-up of birds, and by his return with them.
- 10.7.9 Style makes for a pleasing performance. In all test levels in respect to style, a desired performance includes an alert and obedient attitude, a fast determined departure both on land and into water, an aggressive search for the fall, a prompt pick-up and a reasonably fast return. Dogs may be credited for outstanding and brilliant exhibitions of style or they may be penalized for deficiencies in style, the severity of the penalty ranging from minor demerit to elimination from the test in extreme cases.
- 10.7.10 Response to direction is all-important in handling tests or whenever a dog must be brought back to the area of a fall when he mismarked. In such response to direction a dog should take the original line given to him by his handler and continue on it until he either makes the find or until stopped by the handler and given a new line. He should then continue in this new direction until he finds the bird or is given further direction from his handler.
- 10.7.11 Justification of faults for penalties include the following:
- (a) Not taking the line originally given by the handler
 - (b) Not continuing on that line for a considerable distance
 - (c) Stopping voluntarily (i.e. popping-up and looking back for directions)
 - (d) Failure to stop promptly and look to the handler when signaled
 - (e) Failure to take new direction (i.e. a new cast when given)

-
- (f) Failure to continue in that new direction for a considerable distance
 - (67-03-19) (g) A dog that is out of sight for an unreasonable period of time should be considered out of control
 - (67-03-19) (h) On a mark or a blind a dog that is allowed to hunt extensively after handling has begun should be considered out of control

The seriousness of the penalty for any or all of the foregoing faults varies with the seriousness of the infraction, whether that infraction was repeated and how often, and whether there was a combination of various infractions.

- 10.7.12 Before assessing a severe penalty because of a dog's failure to stop promptly at the whistle, judges should determine whether the wind, the cover, or the distance seriously interfered with the dog's ability to hear his handler. One whistle refusal or cast refusal may be due to scent refusal and should not be penalized severely if this is the case. In general, the performance in the test should be considered in its entirety. Failure to take and hold a direction may be considered a minor fault, if offset by several other very good responses. A considerable penalty should be imposed for repeated, willful disobedience of the handler's orders and less penalty when, after taking the proper direction, the dog does not continue on it as far as the handler desired. Stopping voluntarily may be considered a minor fault but frequent repetition may covert such popping into the category of serious faults.
- 10.7.13 Most retrievers have a good nose and as a rule they have numerous opportunities to demonstrate this all-important quality at every test. Usually it is something in a dog's work which suggests that he lacks a good nose and attracts the judges' attention. Such suspicion should be recorded, so that it can be verified or eliminated by his performance in subsequent tests. On the other hand, scenting conditions are so mysterious and are so little understood (although obviously affected by so many factors such as: type of cover, wind, frost, rain, location of fall, acidity of soil and apparently many other conditions), that extreme caution must be exercised before a dog is charged with a poor nose and penalized accordingly.
- 10.7.14 Courage is a trait which cannot be tested at every working certificate test. It may be displayed by a willingness to face, and without hesitation enter, rough cover, cold or rough water, ice, mud, or oth-

er similar conditions which make the going rather tough, and of doing it repeatedly. The facilities of test grounds, or the weather do not often supply the proper situation for a series where the dog's courage is tested. Because the facilities or weather necessary for such a test are often limited, such tests should usually come late in a testing, unless there are reasonable grounds for assumption that all dogs will receive comparable tests. When such tests can be arranged, they are frequently of great value to the judges in evaluating their relative merits in this highly desirable trait which all retrievers should possess.

10.7.15 Perseverance is shown by a dog's determination to search for and find the bird he has been sent to retrieve and to complete the task systematically, aggressively and without faltering. A lack of perseverance may become apparent when: a dog returns to the handler voluntarily in a slow, lackadaisical, disinterested manner; the dog pops-up or looks back at his handler for directions on a marked fall before he has hunted for a considerable time or, when the dog switches or blinks a bird (i.e. fails to pick it up and actually leaves it after marking the find). Most of these are serious faults and should be judged accordingly.

10.7.16 The Classification of Faults section of these rules states that a dog should be eliminated for hard-mouth or badly damaged game, but, before doing so all judges should inspect the bird and be satisfied that the dog alone was responsible for the damage. Hard-mouth is one of the most severely penalized faults in a retriever. Furthermore, once a dog has been charged with this fault, he carries that stigma for life. Therefore, hard-mouth should only become the judges' verdict when there is undeniable proof of it. Torn skin or flesh, alone, is not sufficient evidence, in almost all cases, to constitute such proof, since damage of that type may be caused in a variety of ways such as sharp sticks and stones in the cover. Dogs can unintentionally damage birds when making retrieves from heavy cover as well as by their fast positive pick-up. Furthermore, at certain times of the year, birds are particularly susceptible to such damage. On the other hand, crushed bone structure usually can be accepted as trustworthy and sufficient evidence of hard-mouth. This is the only evidence offering such proof in the absence of a particular obvious, flagrant and unjustified violation of tearing of flesh.

10.7.17 Other faults are frequently confused with hard-mouth, although, in reality, they are entirely separate

and distinct from it. In addition, however, the dog may actually be hard-mouthed. Freezing in particular, falls into this category. A hard-mouthed dog may have a gentle delivery and certainly, a sticky delivery does not imply hard-mouth. Rolling a bird or mouthing it while making the retrieve may be erroneously associated with hard-mouth in the opinion of some, even though the bird is not damaged. If such mouthing is a fault at all then it is one of only minor importance.

- 10.7.18 Judges should remember that a dog is either found to have a hard-mouth or not and if he has a hard-mouth he must be disqualified from the test. Other various types of inconclusive evidence should merely be recorded in the judges' notes, pending the manner in which birds are handled in subsequent series. While it is not required, it is a considerate gesture on the part of the judges to keep separate any bird for which they are disqualifying a dog for hard-mouth and show it to the handler of the dog at a later time.

11 CLASSIFICATION OF FAULTS

11.1 Serious Faults

- 11.1.1 Any one of the following is sufficient to fail a dog and are considered serious faults:

11.2 Moderate Faults

11.2.1 Repetition of a moderate fault, or a combination of several of these faults, may convert the total infraction into a serious fault. Some infractions may be so slight as to warrant their consideration only as a minor fault. Usually 2 moderate faults should eliminate a dog from the test. The following are considered to be moderate faults:

- (a) Failure to make the area of a fall requiring that the dog be handled to it
- (b) Leaving the area of a fall
- (c) Hunting in a slow, disinterested manner
- (d) Not stopping for direction after 2 or 3 whistles

which he should have heard, in WCX

- (k) Moderate whining of short duration
- (l) Reluctance to give up bird in WCI or WCX

(92-03-16) (m) Recast on a marked retrieve in WCI

11.3 Minor Faults

11.3.1 While these faults may be so light as to only require a notation on the judge's sheet, several or repeated minor infractions or a combination of these minor infractions may convert into a moderate or even serious fault. The following are considered to be minor faults:

- (a) Lack of attention
- (b) Poor line manners (such as heeling poorly, not immediately taking and staying in the position designated, dropping a bird at delivery, jumping after a bird, not remaining quietly on line after delivery)
- (c) Slow pick-up of a bird
- (d) Dropping birds
- (e) Sloppy bird handling
- (f) Unsteadiness, including creeping on line in WCI or WCX.
- (g) Failure to take handler's direction
- (h) Occasional failure to hold the line given or directions given, in WCX
- (i) Slight reluctance to give up a bird in WC
- (j) Returning by way of land in a water mark, or marking a detour on return from a land mark
- (k) Leg-lifting, particularly on the way to a fall

-
- (l) Failure to deliver to hand in WC
(93-03-16) (m) Recast on a marked retrieve in WC
-

12 PROTESTS

12.1 A protest against a dog may be made by an entrant/
(21-03-16) handler, any member of the CKC, or a member of the club or association holding the event test in the following manner:

- (a) A protest should be lodged with the Event Superintendent before the closing of the event and must be in writing, on a form provided by the CKC (or facsimile thereof). A hearing shall be held prior to the departure of all parties. No protest will be entertained unless accompanied by a deposit. This deposit shall be returned if the protest is sustained. If the protest is not sustained, the deposit will be forwarded to the CKC with the Event Committee's report.
- (21-03-16) (b) If the protest cannot be filed at the event because of circumstances requiring medical and/or veterinary attention, or if the dog has been removed from the grounds, or if the owner and the dog leave the grounds immediately following the incident, the protest may be submitted directly to the CKC within 10 days of the event. All such protests shall constitute complaints under the CKC's By-laws and the provisions of same shall apply.
- (21-03-16) (c) If the Protest is filed directly to the CKC, reasons should be provided as to why the Protest could not be filed with the Event Superintendent.

12.2 Where the Working Certificate Test Committee consists of more than 5 persons, the president of the test-giving club shall name 5 members of the Working Certificate Test Committee to act on any protest received by the test-giving club.

12.3 Written copies of all decisions on protests must be forwarded immediately to the Discipline Committee of the CKC. The Discipline Committee may take such action as it deems fit in connection with such protest, provided no appeal is submitted to the CKC within 10 days of the date on which the decision of the Working Certificate Test Committee was rendered. Such action may include barring the dog

from future CKC approved events, imposition of an administrative fee, and/or cancellation of awards. The fact that the Working Certificate Test Committee did not sustain a protest in no way inhibits the right of the Discipline Committee to take such action as it deems advisable.

- 12.4 An appeal to the Discipline Committee of the CKC from a decision of the Working Certificate Test Committee where a dog has been protested must be forwarded to the CKC within 10 days of the date on which the decision was rendered, together with a deposit.
- 12.5 If a test-giving club fails to hear a protest as prescribed above, or in the opinion of the Discipline Committee improperly handles a protest, the Discipline Committee shall have the authority to take such action as it deems fit and necessary, and it may at the same time take disciplinary action against the officials of the test-giving club concerned.

13 COMPLAINTS

- 13.1 A complaint against a person regarding a violation of the rules and regulations related to working certificate tests must be in writing, on a form issued by the CKC (or facsimile thereof), and must be accompanied by a deposit. - 13.2 A complaint should be lodged with the Working Certificate Test Committee Chair of the test-giving club no later than 15 minutes after the completion of judging of the test, or should the complainant choose to do so, a complaint may be submitted directly to the CKC within 10 days of the test. All such complaints shall constitute complaints under the CKC By-laws and the provisions of same shall apply.

- 13.5 Where the Working Certificate Test Committee consists of more than 5 persons, the president of the test-giving club shall name 5 members to form a Working Certificate Test Committee to act on complaints received by the test-giving club.
- 13.6 When a complaint is received against a judge by the test-giving club, the club will hold a hearing while all parties are still in attendance. The report and all statements given by all parties will be forwarded to the Discipline Committee along with the deposit from the complainant. The Working Certificate Test Committee will not render a decision but will collect all pertinent information.

Disciplinary action will be taken against a test-giving club which fails to properly deal with complaints as provided in these
-

rules and regulations.

-

summary action.

- 14.7 It shall be the duty and obligation of the event-giving club to see that a judge, club official, volunteer, or any participant at an event held under these rules, is not subject to indignities. The Working Certificate Test Committee Chair shall promptly report to the CKC any infringement of this regulation, and the CKC shall have the authority to take such action as it deems fit on receipt of a report indicating that this has occurred. A copy of this regulation shall be prominently placed in every premium list and catalogue.

15 PROCEDURE FOR CONDUCTING A WORKING CERTIFICATE TEST COMMITTEE HEARING

-

to relate only the substance of the complaint as set out on the Official Complaint form.

- 15.7 The chair is to ask the defendant whether he wishes to admit or deny the complaint as it has been read or stated.

If the complainant has brought witnesses, such witnesses may then give evidence individually. Each witness may be questioned by the defendant or any member of the Committee. Each witness is to leave the hearing after evidence has been given.
- 15.9 Upon completion of the evidence given by the complainant and any witness appearing on his behalf, the defendant may then give evidence and may then be questioned by the complainant or any member of the Committee. If the defendant has brought witnesses, such witnesses may then give evidence individually. Each witness may be questioned by the complainant or any member of the Committee.
- 15.10 The chair may then call any other witness which the Committee considers appropriate to the proper hearing of the complaint.
- 15.11 The complainant may then have the opportunity of summing up the complaint and the evidence presented in support thereof. The defendant shall have the opportunity of summing up his defense and any evidence presented in support of his defense.
