(3) Premium Lists and Judging Schedules must be provided to exhibitors and the CKC in accordance with the appropriate rules. Updates to Premium Lists and Judging Schedules must be provided to both **info@ckc.ca** and **canuckdogs@ckc.ca**. When in doubt, the appropriate committee, council or Zone Director will be consulted.

(10) Definition of Periods of Months After a Dog is Born

The date a dog reaches a specified number of months of age is calculated by:

(a) counting forward from the month of the dog’s recorded birth date the specified number of months, from the first month after the month of birth, and

(b) the dog will be the specified number of months of age on the day of the same number as the number of the date of birth, or if that month has no day with that number, the last day of that month.

(11) Cancellations and/or Withdrawals [Board Motion #21-09-17]

(a) During adverse and/or severe weather conditions, it is at the discretion of the event-giving club to cancel, curtail and/or postpone the judging of the event if the weather is severe enough to cause injury to the exhibitors and their dogs. No penalty shall be imposed by The Canadian Kennel Club if such condition has caused the cancellation or postponement of the event.

B. Exhibitors

(1) No person who is debarred, deprived, suspended, or expelled from The Canadian Kennel Club may participate in any Club event in any capacity other than as a spectator.

(2) Handicapped exhibitors are welcome to participate in any Canadian Kennel Club events.

C. Ring Stewards [Board Motion #22-06-18]

(1) Clubs should make every effort to use an experienced Ring Steward when using Conformation Permit Judges who are on their first assignment.

D. Entrant Eligibility

(1) New Listed Breeds [Board Motion #34-05-23]

(a) The “effective date” for all newly miscellaneous breeds to be allowed to participate in Canadian Kennel Club events shall be January 1 and July 1 of any given year. [Board Motion #94-03-22]

(b) When a miscellaneous breed is added to the Miscellaneous List between January 1 and June 30 of any given year, the newly miscellaneous breed shall be allowed to participate in all Canadian Kennel Club events effective January 1 of the following year; that being the effective date.

(c) When a listed breed is added to the Miscellaneous List between July 1 and December 31 of any given year, the newly miscellaneous breed shall be allowed to participate in all Canadian Kennel Club events effective July 1 of the following year; that being the effective date.

(2) Newly Recognized Breeds

(a) Following recognition of a miscellaneous breed, any Miscellaneous Certification Number which was previously issued by The Canadian Kennel Club when the breed was included in the Miscellaneous List, shall become null and void as of the date fixed by the Executive Director and cannot be used for entering events as of that date. The usual notice in the Club’s Official Publication, regarding the official recognition of the subject breed, shall carry with it a statement to this effect.

(3) Altered Dogs

(a) A dog on which an entropism operation has been performed is not eligible for entry in Conformation Shows held under The Canadian Kennel Club rules.

(4) Foreign Dogs [Board Motion #40-12-18]

(a) Foreign-born and foreign-owned dogs of CKC-recognized breeds which are registered in their country of birth, shall be allowed to enter all Canadian Kennel Club events on the basis of an event registration number (ERN) and in accordance with established policy.

(5) Reinstatement of a Disqualified Dog

(a) Examinations

(1) In a case where a dog is being examined for reinstatement purposes, the consensus of the Examining Committee must be unanimous.

(2) The inspectee shall be advised that the certificate of registration must accompany the animal to be examined, at the time of examination.

(3) If a dog is disqualified at a CKC event and fails to be reinstated, the disqualification will be considered permanent.

(4) If a dog is disqualified and reinstated but is disqualified at a subsequent event for the same reason, this second disqualification will be considered permanent, with no further opportunity for reinstatement.

(5) Puppies, from six (6) to twelve (12) months of age, who are disqualified because of height or weight, and fail to be reinstated, will be given the opportunity to apply for reinstatement a second time, after reaching one (1) year of age if the owner so wishes. If the dog fails to be reinstated this second time, then the disqualification will be considered permanent.

(b) The procedure for the reinstatement of a disqualified dog as outlined in **PROCEDURE ST001**.

(c) Obedience Reinstatement

These individuals shall as nearly as possible and practical, simulate the conditions under which the disqualifying offence took place.

(3) Recommendations for reinstatement must be unanimous among the examining panel and its recommendation shall be forwarded to Head Office.

E. Show and Trial Entries

(1) Late Submission of Entries

(a) There shall be no exceptions as to the receipt of late entries other than the regulations governing postal strikes (see “Regulations Governing Postal Strikes”).

(2) Dishonoured Cheques and/or Declined Credit Cards

Should a show-giving club receive a dishonoured cheque or declined credit card:

(a) The club holding the event under The Canadian Kennel Club rules must address a registered letter to the owner of the dog and the handler, if applicable, giving the owner of the dog thirty (30) days to reimburse the club the money owing.

(b) If, after the expiration of thirty (30) days, the club does not receive satisfactory payment of entry fees, then it may address a complaint to the Discipline Committee of The Canadian Kennel Club.

(c) The Discipline Committee will require:

(1) A photocopy of the registered letter to the owner of the dog.

(2) Canada Post verification of delivery.

(3) The original cheque and/or credit card authorization.

(d) Upon the above criteria being satisfied and at the discretion of the Committee, the matter may then proceed to a hearing of the Discipline Committee in accordance with The By-laws, Section 15.

(3) Regulations Governing Postal Strikes

In the event that there is a cessation of postal delivery services, the following policies shall apply:

(a) For the duration of the strike, a club will be permitted to accept telephone or electronic entries, conditional that the entry forms are signed at the event, and the entry fees collected before dogs are permitted in competition.

(b) If, however, the strike should end twelve (12) or more days prior to the published date of closing of entries, the acceptance of telephone and electronic entries is to cease immediately when the strike ends.

(c) If the strike ends twelve (12) or more days prior to the published closing date of entries, the regular closing date of entries must be complied with.

(d) If, however, the strike is still in force at the published closing date of entries or ends less than twelve (12) days before the published closing date, the club holding the event may accept entries up to the last moment by which it can still publish a Show Catalogue with all entries in their proper position in the catalogue.

(e) If an exhibitor should telephone a Show Secretary and enquire whether a mailed or electronically transmitted entry has been received by the show or trial-giving club and that entry has not been received, the Show or Trial Secretary should take all particulars over the phone to ensure inclusion of the entry in the Show Catalogue. If the entry and entry fees for the dog in question were not received by the Secretary by the time of the show then entry fees must be collected before the dog is permitted in competition on the understanding that if the club should receive the entry after the show, the cheque or money order in payment of entry fees will be returned to the exhibitor.

(f) A club holding a show or trial for which entries must close by a stipulated date in advance of the event may, in its Premium List or otherwise, announce points (other than the Show or Trial Secretary's address) at which mailed entries will be received by the show or trial-giving club. Similarly, it may announce other telephone numbers at which entries will be accepted by telephone.

(g) Every entry, whether received by mail, personal delivery, telephone, or electronic transmission, must be in its regular position in the Show Catalogue otherwise the entry of the dog into the show or trial is not to be permitted by the club holding the show or trial.

(h) If full mail service has not resumed at least a week before the show or trial, then the show or trial-giving club should use its discretion in deciding whether to place identification cards and judging schedules in the mail or to retain these for distribution to exhibitors as dogs are brought into the venue of the show or trial at its commencement.

(i) All of the foregoing policies will apply in the event there is a “rotating strike”, that is, a temporary cessation of postal services at one (1) or more points while postal services are provided at other points.

(j) All of the foregoing policies are designed to assist clubs holding shows and trials which may be adversely affected by a cessation in postal services, but no show or trial-giving club is obligated to pursue any of these temporary solutions to the problem if it chooses not to do so.

F. Approval To Hold Shows and Trials [Board Motion #50-02&03-26]

(1) Clubs shall be informed that while their area of operation may encompass a fairly large area, they will not necessarily be permitted to hold events in any location within this area.

(2) Events

(a) Clubs which are not officially recognized by The Canadian Kennel Club will not be allowed to hold any CKC approved events.

(b) The granting of recognition of a club will not necessarily mean that the club will be permitted to hold events under The Canadian Kennel Club rules.

(c) CKC-accredited clubs may not hold non-CKC approved Conformation Events. CKC-Recognized National Breed Clubs may hold one (1) NON CKC Unofficial Sieger Style Show annually. This must be with the approval of the CKC Office. Failure to comply will result in loss of CKC club accreditation. [Board Motions #34-12-12, #13-12-19]

(3) Sanctioned Events

(a) A club may hold a sanctioned event, with the approval of the local Zone Director(s), only if they have been officially recognized by The Canadian Kennel Club.

(4) Conformation Breed Boosters

(a) A club wishing to hold a Breed Booster must be officially recognized by The Canadian Kennel Club unless the club is a branch club, and then may, with the permission of the parent club, sponsor a Booster in the area defined by their name. A club will not be allowed to hold Breed Boosters outside the area of operation as defined in their application for recognition, nor by virtue of their name (as in the case of a branch club).

(5) Lotteries

(a) A club holding a show or trial under The Canadian Kennel Club rules is asked to note a ruling of the Board of Directors to the effect that approval by the Club of an application received from a club to hold a show or trial under The Canadian Kennel Club rules is granted on the distinct understanding that the club to which

such permission is granted will not conduct, or allow to be conducted, a lottery for a dog or dogs at their events.

(6) Outstanding Fees

(a) Dates for future events will not be approved if any administrative fees are outstanding. If dates have previously been approved, said dates will be cancelled until such time as any administrative fees have been paid.

(7) Applications

(a) An application to hold an event must be signed by an officer of the show/trial/test giving club who is authorized to sign on behalf of the club or the Event Secretary.

(8) Canadian Kennel Club Events

Under certain circumstances, the Board may approve the holding of a special Canadian Kennel Club event which would be administered independently of any current Canadian Kennel Club recognized event-holding club. Such approval shall be contingent upon the following conditions having been met:

(a) The Board shall grant approval to no more than two (2) such events in any given year.

(b) Prior to granting approval, the Board shall consider the impact that any such event would have on existing clubs and any previously approved events in the respective area of operation.

(c) The event shall not be sponsored by The Canadian Kennel Club, but rather, it would be sponsored by an independent group or body and all financial responsibility for such an event would fall upon that group or body.

(d) The Board, to the best of its ability, shall be comfortable in its knowledge that the proposed event is viable and that the group or body making application is capable of successfully administering the event.

(e) Current Canadian Kennel Club approved rules shall apply for any such event.

(f) The name and logo of The Canadian Kennel Club shall figure prominently in association with the event and shall be included in all advertising and promotion relating to the event.

(g) As part of the understanding with the sponsoring group or body, The Canadian Kennel Club shall be afforded booth space at any such event at no charge. The size and location of such space shall be determined prior to final approval being granted for the event.

G. Priority Rights / Priority Dates [Board Motion #59-09-23**]**

(1) A national specialty club will not sacrifice their priority dates if they elect to hold their National Specialty Show in another zone on dates other than their priority dates.

(2) Guidelines for Priority Date Application for clubs holding Canadian Kennel Club events are as follows:

(a) A club holding Canadian Kennel Club events may apply for a maximum of three (3) consecutive dates in each of five (5) priority date term.

(b) It is understood that any date which is not reserved as a priority date is considered an available date. The Canadian Kennel Club may grant approval to hold an event(s), on an available date, to any club that meets the requirements on a first-come-first-served basis.

(c) Clubs are permitted to apply for additional dates in the regular way.

(3) Conditions applying to an application for priority dates and to any approval given such application are as follows:

(a) The Canadian Kennel Club reserves the ultimate authority to approve or reject any application for priority dates.

(b) A recognized club may apply for priority dates following the completion of the club's first official Canadian Kennel Club event at which points or qualifying scores are awarded towards a title. Clubs may not apply for priority dates for events that the club has not officially held.

(c) The application must be accompanied by the required fee which is refundable if the application is not approved.

(d) An application for priority dates must specify the breed or breeds for each event type.

(e) The application, if approved, is subject to the provisions of The By-Laws, rules and regulations of The Canadian Kennel Club.

(f) The granting of priority dates for any show other than an All-Breed Show does not prohibit the granting of dates (priority or otherwise) to clubs wishing to hold events for any other breed or breeds.

(g) Approval of an application for priority dates does not convey an exclusive right to the date (or dates) for which priority dates are granted.

(h) Approval of an application for priority dates is without prejudice to any policies which the Board of Directors of The Canadian Kennel Club may see fit to adopt from time to time with regard to the granting of dates for competitive events to be held under the rules of the Club.

(i) The application must be signed by an official of the club or association authorized specifically to submit this application to The Canadian Kennel Club.

(j) While a club may be granted priority rights, that does not bind The Canadian Kennel Club to approval of applications for dates.

(k) Priority dates must be validated each year by the submission of an appropriate Event Date Application. The Event Date Application must be received at The Canadian Kennel Club Head Office in accordance with the appropriate rules.

(4) Granting of Available Priority Rights/Priority Dates

(a) Where priority dates become available, and an application is made by the club that held priority rights to those dates immediately before they became available, the priority dates shall be granted to that club.

(b) In all other circumstances, Head Office shall publicize the availability of priority dates that have become available and establish a period during which clubs interested in applying for those dates may do so. At the expiry of this period, the following procedure shall be followed:

(1) If only one application is received, the priority dates shall be granted to that applicant provided the applicant meets all other applicable requirements.

(2) (a) When two clubs holding a Conformation Show on the same date apply for an available date, priority will be given to the club that has been holding CKC events for the longest time. [Board Motion #29-12-15]

AND

(b) If more than one application is received from clubs having the same earliest accreditation date, a draw shall take place between these clubs and the winner of the draw shall be granted the priority dates. Applicant clubs shall be given an opportunity to send a representative to observe the draw.

(13) CKC Versatility Titles [Board motion #50-12-24, 25-03-25, #73-06-26]

The Versatility Title Program is open to dogs of any breed, recognizing previous or ongoing title achievements towards six (6) different Versatility titles as noted below:

- Versatility Novice (VN)
- Versatility Advanced (VA)
- Versatility Excellent (VE)

- Versatility Bronze (VB)
- Versatility Silver (VSI)
- Versatility Gold (VG)

This is a CKC title recognition program based on official CKC titles and non-CKC titles.

1. Versatility Title Application Requirements

   a) All titles included on any Versatility Title Application must already be on record with the CKC.
   b) A first application for a Versatility Title may be made at any level for which the dog is qualified; a lower level title is not a prerequisite.
   c) An application for a Versatility Title may be submitted only by an individual currently named as the registered owner of the dog for which the application is made.
   d) No fee is required for a Versatility Title application submitted by a person who is a CKC member in good standing.
   e) An Application for a Versatility Title made by an individual who is currently not a CKC member in good standing will require payment of the non-member participation fee as per the CKC Fee Schedule.

The Versatility Title Application, available online, must be completed and submitted to the CKC to be verified by CKC staff. Accuracy of an application form is the responsibility of the individual making the application.

The requirements shown below for each Versatility Title indicate the minimum required to attain a given Versatility Title. A higher-level title may always be substituted as long as the variety of categories is maintained. A title may also be used again as part of a later application for a higher Versatility Title.

R. Judges Guidelines

(1) General [Board Motion #16-03-24]

(a) The commencement and completion time of a judge's assignment shall be recorded on the front cover of the Judges Book.

(2) Conflicts of Interest

(a) No announcement may be made within the sight or hearing of an officiating judge at a show which will identify dogs or their owners or speak of their show records.

(b) It is considered most unethical for a judge to attend a show as a spectator in the same area where he is scheduled to officiate as a judge.

(c) A person officiating as a judge at an approved trial held under the rules of The Canadian Kennel Club shall not act in any other capacity at the show or trial. (Exception: in an emergency requiring a substitute judge where such person is eligible to judge according to the applicable rules).

(3) Contracts and Cancellations

(a) The Canadian Kennel Club will consider a signed letter by the club for the engagement of a judge to officiate at future shows or events as a legal and authorized engagement, and any attempts to break such a contract by the show-giving club without reasonable and just cause could lead to immediate cancellation of future events until such dispute is settled. The Canadian Kennel Club will not enter into any disputes over fees and/or payments of expenses.

(b) Written judging contracts must be honoured by all parties; failure to comply shall be considered a disciplinary offence.

(c) When an American judge cancels an engagement to judge in Canada for any reason, the judge will be treated in the same manner as a Canadian judge as noted in Section 3(b) above.

(d) Clubs, in consultation with the Canadian Kennel Club Representative, Advisor and/or the Zone Director, should make every effort to obtain an approved judge to fulfil an emergency assignment. If an approved judge is not available, and if the judging assignment is fulfilled by a judge on permit for any of the breeds within the assignment, the permit breeds judged will be credited to the permit judge in question. [Board Motion #13-09-18]

(e) A judge requiring accommodation for a disability must make it known to the club that such accommodation is required. [Board Motion #19-09-09]

(f) Clubs to insert the following into their contracts with the judge: “If you require accommodation for a disability, please make your accommodation known to the club in advance. Please contact X by (date) to ensure that we do our best to accommodate your needs.” [Board Motion #19-09-09]

(4) Membership Requirements for Judges

(a) Approved Judges

(1) All Canadian residents approved or appointed to judge at approved The Canadian Kennel Club events must be members of the Club.

(b) Reinstatement of Judging Privileges following lapsed Membership

(1) An administrative fee for each year of membership lapsed will be charged for reinstatement of judging privileges. Payment of said administrative fees shall only serve to reinstate the judge’s judging privileges and shall have no bearing on the membership file.

(5) Maintenance Fees for Judges [Board Motion #22-09-17]

(a) All judging assignments will be cancelled and no further approvals will be given until payment has been received for the judge’s annual maintenance fees as per the schedule of fees.

(b) The Canadian Kennel Club will provide Judges Pins and/or badge to judges who pay the maintenance fee and will make the pin and/or badge available to all other judges at cost.

(c) All The Canadian Kennel Club-approved Conformation Judges who have no outstanding maintenance fees shall receive a complete set of The Canadian Kennel Club Breed Standards initially which shall be updated immediately upon any standard being changed and the new standard being printed and available.

(6) Solicitation

(a) A judge shall not communicate directly or indirectly with any club or member of a club for the purpose of soliciting a judging assignment. Such communication includes, but is not limited to, the use of social media platforms such as Facebook, Twitter, blog platforms and text messaging for example. [Board Motion #38-09-20]

(b) For greater certainty, listing in canine publications and the use of business cards shall not constitute solicitation on the part of the judge.

S. Approval of Judges [Board Motions #29-03-11, #40-12-11]

(1) When an Event Date Application or Judging Panel Application is mailed to the CKC, and the deadline for receipt falls on a Saturday or Sunday, The Canadian Kennel Club office will consider that the application has complied with the deadline if it reaches the Club by Monday noon immediately following the Saturday or Sunday. [Board Motion #49-12-24]

(2) Conformation Events [Board Motion #41-12-11, #96-09-24]

(a) If a person has established eligibility to judge a group at the group level, eligibility will continue for all breeds in the group even though one or more breeds may be added to the group.

(b) Within a five (5) year period, every All-Breed Judge that has had a judging assignment will be observed. [Board Motion #18-09-18]

(c) Sweepstakes [Board Motion #42-12-11]

(1) Any person in good standing with The Canadian Kennel Club may be approved to judge Sweepstakes at Conformation Shows held under the Club's rules. All persons selected to judge a Sweepstake must be included in the list of proposed judges submitted to The Canadian Kennel Club, as required by The Canadian Kennel Club Conformation Show Rules.

(3) Trial Judges

(a) The current Retriever Field Trial Rules state that there must be at least two (2) judges used in each Stake; however, a maximum of three (3) judges shall be acceptable in any Stake.

(4) Tracking Test Judges

(a) An American Tracking Test Judge may only judge those tests in Canada for which eligibility has been established to judge through the American Kennel Club.

(5) Judging Panel Substitutions

(a) Once a panel of judges for a show has been approved by The Canadian Kennel Club, no change will be permitted except when necessary and in an overload situation.

(b) If there is no other recourse, the local Zone Director is authorized to grant approval for a change in judges. "No other recourse" shall mean in this case, that The Canadian Kennel Club Head Office staff could not be reached.

(c) When an approved judge for a trial arrives at the trial after judging has already commenced with a substitute judge, the substitute judge will continue to officiate for the balance of any class which he has commenced judging and the approved judge will only officiate for any other class or classes for which judging has not yet commenced.

T. Approval of Non-Resident Judges

(1) General

(a) A non-resident judge means a person whose primary residence is outside of Canada for a total of six (6) months during any calendar year.

(b) All non-resident judges must abide by The Canadian Kennel Club's rules, regulations, policies, procedures, breed standards, and Code of Ethics.

(c) The approval of a non-resident judge to judge at Canadian Kennel Club events is a privilege granted by The Canadian Kennel Club and therefore such privilege may be removed at any time for just cause. The judge will be notified by Head Office when such action is being considered and will be given the reason for such action.

(d) A judge must be capable of orally communicating with exhibitors/handlers so as to ensure that instructions during a competition can be understood.

(e) Should a non-resident judge not be able to read and/or understand either English or French languages, the event giving club must provide The Canadian Kennel Club with the assurance that all rules, regulations, policies and procedures and breed standards will be translated in writing, or communicated orally to the judge in the first language of the judge. There must be no question as to whether the judge fully understands how and what he is to judge at Canadian Kennel Club events.

(f) When a foreign judge is licensed by one or more kennel clubs, the license issued in any country will be recognized by The Canadian Kennel Club. However, if the foreign kennel club is recognized by The Canadian Kennel Club and a member of Federation Cynologique Internationale (FCI), it is acceptable to obtain verification of the judge's license when referred to the FCI Judges Directory. [Board Motion #81-05-19, #210-09-24]

(g) Members of the Armed Forces and/or the Diplomatic Corps who are transferred temporarily outside of their country of residence into Canada shall maintain their foreign residency status. The same shall apply for their spouses and children. In order for this policy to apply, judges must provide Head Office with satisfactory evidence of their status on an annual basis. [Board Motion #20-09-17]

(2) Requirements

(a) To judge at Canadian Kennel Club approved events, a non-resident judge must be licensed by and in good standing with a foreign kennel club that is recognized by The Canadian Kennel Club. Non-resident conformation judges must be licensed to award challenge certificates, championship points or their equivalent to those breeds being judged in Canada.

(b) A non-resident judge who is on a provisional, permit or apprenticeship basis is not eligible to judge those breeds, classes or stakes at Canadian Kennel Club events.

(c) A non-resident licensed conformation judge may be approved to judge a group at the group level provided that they are licensed to judge all of the breeds within the group, with the exception of up to three (3) breeds. [Board Motion #106-06-16]

(d) Non-resident licensed conformation judges may be allowed to judge breeds where fewer than thirty (30) individual entries were exhibited nationally in the previous year. [Board Motion #106-06-16]

(3) Observing Performance

(a) Non-resident conformation judges will have their performance observed throughout their first CKC judging assignment. Additional observation may be required when deemed necessary.

(4) Application for a Non-Resident Judge

(a) A club hiring a non-resident judge must apply in writing to The Canadian Kennel Club a minimum of six (6) months (AKC licensed judges four (4) months), prior to the date of the event. The request must indicate the judge's full name, address, licensing body, breeds, classes or stakes requested to judge.

(b) Upon receipt of a written request from a club, The Canadian Kennel Club will verify the judge's credentials with the judge's licensing authority.

(4) **Guidelines For Title Usage** [Board Motion #21-03-18, #48-12-24]

(a) Titles are awarded in progression, requiring pre-requisite titles be earned in order for the dog to move to the next level of competition. There are also some optional titles.

(b) When a dog earns subsequent titles, only the title of highest value remains as part of the dog's official name. For example, when a dog earns a CDX, the CD title (or the elective CDI title) no longer displays for the purposes of registration and title certificates.

(c) In disciplines with more than one type of competition stream or titles that can be earned concurrently, the highest in each type remains as part of the dog's official name.

(d) Numbered titles are permanent titles. The highest number remains as part of the dog's official name. For example, when a dog earns an RAE6 title, the RAE5 title no longer displays as part of the dog's official name.

(e) The progression of titles is listed in each event type rules and regulations. As policies and rules are being reviewed, amended and updated regularly, please check with the CKC office if you have questions about titles.

Policy Statement – Infectious Diseases [Board Motions #20-09-18, #89-05-19]

The Canadian Kennel Club Genetics and Medical Committee Reminds Breeders and Owners About the Risks of Infectious Diseases and the Baby Puppy Class

Infectious diseases are always a risk, and The Canadian Kennel Club Genetics & Medical Committee wishes to remind breeders and owners of the best practices for limiting the spread of infectious diseases, and the unique concerns for animals entered in the Baby Puppy Class.

The CKC Rules and Regulations for shows, trials and tests, with some exceptions, have explicit rules to minimize the transmission of communicable diseases.

> A dog may not be entered or exhibited at a show, trial or test if it has any communicable disease. Dogs entered in a show**,** trial or test must have current immunization status.
>
> No dog may be brought onto the grounds or premises of a show, trial or test if it:
>
> (a) is known to have distemper, parvovirus, kennel cough or other communicable disease;
>
> (b) has recovered from distemper, parvovirus, kennel cough or other communicable disease within the last 30 days;
>
> (c) has been housed within 30 days prior to the show**,** trial or test on premises on which there existed distemper, parvovirus, kennel cough or other communicable disease.
>
> 8.1.3 Where it is found that these rules have been contravened, the dog in question shall be removed from the show, trial or test premises/grounds and the exhibitor will be subject to disciplinary action.

Steps to Minimize the Spread of Infections

(1) All dogs should be up to date on their immunizations. Modern vaccines are generally quite safe and always safer than the risk of infections, especially parvovirus and distemper in unvaccinated animals. Ensure that your adult dogs have been vaccinated on a schedule recommended by your veterinarian.

(2) Exhibiting dogs under six months in the Baby Puppy Class is inherently risky. Maternal antibodies may interfere with vaccines and prevent an immune response sufficient to protect against disease. Maternal antibodies may persist up to 12 weeks. Puppies younger than 16-18 weeks should have received a booster shot 1-4 weeks before the show date. Participation in the Baby Puppy Class is at your discretion and in all cases, your baby puppy should have had multiple separate immunizations before participating.

(3) No unvaccinated puppies should ever be brought to a show, trial or test.

(4) Avoid unnecessary contact between your dogs and other dogs at the show, trial or test, and with other exhibitors, and show attendees.

(5) At home, try to minimize contact between dogs that have recently returned from a show, trial or test and your other dogs, and in particular unvaccinated puppies, for a period of two weeks to minimize transmission of infections.

(6) Do not bring a dog to a show if that dog, or any dog that your dog has come in contact with, has been ill within the last 30 days. Remember that infectious diseases can travel on clothing and be aware that you could be an agent of infection.

(7) At conformation shows or relevant trials or tests, to minimize the risk of transmission of infections between dogs, we recommend the handler/owner open the mouth of dogs in the show ring to show the bite rather than having the judge perform this task. You can discuss this directly with the judge.

(8) Anyone handling different dogs at conformation shows, trials or tests should wash their hands thoroughly for at least 30 seconds, scrubbing thoroughly with soap and warm water between handling different dogs and frequently throughout the day to minimize as far as possible transmission of infections. If proper hand-washing facilities are not accessible use an alcohol-containing hand sanitizer product.

(9) Clean areas that come in contact with animals frequently and thoroughly with an appropriate cleaner, particularly crates, bowls and other items brought to and from the show, trial or test premises. Dilute bleach or stabilized peroxide disinfectants are the most effective at killing all types of pathogens.

(10) Any dog that falls ill while at a show or trial may be removed by the show, trial or test authorities. We suggest that if a dog falls ill the owner/handler immediately remove the dog from the building and inform the authorities as well as owners of any other dogs that may have come into immediate contact with the sick dog.

(11) If your dog was exposed to any dog that was ill or later fell ill, quarantine the dog immediately for a minimum of two weeks and discuss with your veterinarian.

Again, we stress that no dog with a communicable disease may attend a CKC-sanctioned show, trial or test and any dog may be removed from the show, trial or test by the authorities on account of disease and be reported to the CKC.

Some more information on Canine Infectious Diseases

Distemper

Canine Distemper is caused by an RNA virus that infects the gastrointestinal and respiratory tracts, central nervous system, and conjunctival membranes of the eye. Symptoms include sneezing and coughing, often with eye or nose discharge, fever, vomiting, and diarrhea, and hardening of nose and footpads, hence the old name hardpad disease. Infection can result from inhalation of aerosols as well as direct contact with urine, blood, or discharges of infected animal. Secondary bacterial infections are a risk. Dogs of any age can become infected, but the risk is greatest for unprotected dogs under six months of age. Distemper immunity is provided by core vaccination and the virus is killed by most common cleaning agents.

Parvovirus

Canine Parvoviral Enteritis is a highly contagious disease of the digestive system. Symptoms typically include fetid, often bloody diarrhoea, fever, vomiting, loss of appetite and lethargy. Symptoms start 3-8 days after exposure and the virus is shed in the stool of infected dogs up to two weeks after infection. The virus may survive for months in the environment on items such as bowls, clothing or shoes, but typically infections result from contact with infected faecal material. Dogs of any age can become infected, but the risk is greatest for unprotected dogs under six months of age. Parvovirus is included in the core vaccinations. Parvovirus is resistant to most cleaning agents but bleach (diluted to 10-20% in water) or stabilized peroxide products, such as Virox/Accel/Virkon, can kill with a contact time of at least 10 minutes.

Kennel Cough

Kennel cough has a variety of causes: bacterial (*Bordetella bronchiseptica)*, viral (adenovirus and/or parainfluenza virus), and mycoplasma. These may act alone or in combination and infections with multiple causes tend to be the most severe. Vaccination against Bordetella may not be effective in preventing contraction of Kennel cough. Kennel cough infects the upper respiratory tract and symptoms are a persistent cough and sometimes a nasal discharge and sneezing. It is highly contagious and may be spread by inhalation of aerosols or direct contact. Puppies with immature immune systems and old dogs with weak immune systems are at greatest risk for developing pneumonia from kennel cough.

Canine Influenza Virus (CIV)

Canine Influenza is caused by two separate virus strains, the less common H3N8 CIV and H2N3 CIV, which was introduced into the USA in 2015 from Asia and first seen in Canada in 2017. Symptoms are the same as Kennel Cough: coughing, sneezing, and nasal discharge. Dogs of any age can be affected, particularly given that adult dogs in Canada have not acquired immunity to this recently introduced pathogen, although disease is more likely to be severe in young puppies and older dogs, as well as brachycephalic breeds. Secondary pneumonia is a risk factor. Infected dogs can start shedding the virus before the onset of symptoms and for up to 14 days afterwards. Transmission is through inhalation or contact with items such as clothing, bowls, shoes. CIV is killed by most common cleaning agents. A vaccine is available commercially. CIV vaccination is a non-core vaccine and should be evaluated on the risk of exposure and the risk of complications from infection.

Other infectious Diseases

Dogs travelling to areas of the world that have a variety of parasites or infectious viruses not common or not existing in Canada are at risk of contracting these exotic diseases. They may not be vaccinated against these pathogens and may lack acquired immunity of the local population. Dogs returning to Canada, traveling to Canada from exotic locals, or being imported by rescue organizations may bring exotic pathogens to Canada. Canadian veterinarians may not have access to diagnostic tools or laboratory tests to identify and treat pathogens not common to Canada, increasing the risk of severe disease in the dog.

Additional information on infectious diseases can be obtained by from the Canadian Veterinary Medical Association (CVMA), or by speaking with your veterinarian.
