SPRATTS PATENT

BY SPECIAL APPOINTMENT.

TRADE MARK

BY SPECIAL
APPOINTMENT.

SPRATTS PATENT (AMERICA), LIMITED

PATENT MEAT FIBRINE VEGETABLE

DOG CAKES

(WITH BEETROOT).

MR. H. R. T. COFFIN, Glens Falls, N.Y., writes 7th July, 1887:

"The continued use of your dog cakes has proved very satisfactory to me in feeding all of my kennel-dogs, both large and small, old and young, and they are thriving on the use of it to the exclusion of all other food. I shall and do take pleasure in recommending Spratts' Patent Dog Cakes."

Mr. Jas. Mortimer says of our Patent Cod Liver Oil Meat Fibrine Dog Cakes, with Beetroot

SPRATTS PATENT (AMERICA) LIMITED.

Westminster Kennel Club, Babylon, L.I., October 6th, 1887.

GENTLEMEN,—I think it proper to state that I attribute the excellent condition of our pointers, and particularly of Bang-Bang (always a most difficult dog to get right), to the fact that six weeks prior to the Waverly, N.J. show I fed them almost entirely on your Cod Liver Oil cakes. I have also found the cakes invaluable for puppies recovering from distemper and other complaints of a debilitating nature. Send 500 pounds some time next week.

JAMES MORTIMER, Superintendent.

Especially valuable for preparing BAD FEEDERS for EXHIBITION. In cases of DISTEMPER, ECZEMA and other diseases, they are especially valuable, and are a most successful food for DELICATE and DAINTY FEEDING DOGS. The abundance of natural phosphates they contain insures their being a perfect food for young, growing puppies, particularly of a large breed, such as St. Bernards.

Celebrated Mange Cure sold in bottles, gallon and Half Gallon Jars.

"The Common Sense of Dog Doctoring." Price 25c., or post free, 28c.

Spratts Patent Limited Dog Medicines.

Dog Soap. Is entirely Free from Poison, and most effective in the destruction of Lice, Fleas and Ticks, and in keeping the skin free from scurf.

Small Pamphlet on Canine Diseases, post free. Address—

Spratts Patent, 142 Inspector St., Montreal, Que.

HAMILTON DATES FOR 1893.

Hamilton, 27th May, 1892.

In consequence of the clash of dates imminent between the Hamilton and Rochester Kennel Clubs, I now claim the week preceding the Toronto show as the date during which the Hamilton Kennel Club's show will be held in 1893.

Yours truly,

A. D. STEWART.

CANADIAN KENNEL CLUB.

THE following letters relate to the business transacted at the meeting of the Executive held May 6th,

and I think it well to lay the contents before the members of the Club without delay.

H. B. DONOVAN,
Secretary.

Toronto, May 14th, 1892.

H. B. Donovan, Esq.,
Sec'y Can. Kennel Club,
Toronto.

DEAR SIR,—I have the honor to acknowledge the receipt of resolution passed by your Club, and the first part of the resolution certainly will be attended to, namely, the appointment of a Superintendent to look after the exhibits sent by the various Kennel Clubs of Ontario. Second clause, relating to the appointment of Mr. A. D. Stewart will certainly receive that consideration due to it, coming as it does from so important a body as the Canadian Kennel Club. I have no doubt that even in that particular, the wishes of the Club will meet with the approval of myself and the Advisory Board.

Yours truly,

N. AWREY.

Ont. Com. to W. C. Exposition.

Ottawa, May 31st, 1892.

H. B. Donovan, Esq., Toronto, Ont.,

DEAR SIR,—Your letter of May 13th, which was acknowledged by my secretary has been submitted to me on my return from the Maritime Provinces.

Arrangements have been made with the Provincial Governments of Ontario and Quebec for these Provinces to undertake the collecting of exhibits in all departments of stock, including poultry and dogs. The arrangement with the Provinces is substantially as follows: The Dominion Government will pay for the cost of transportation and feed of the animals while on exhibition, but the Provinces undertake to provide the necessary caretakers, who will have charge of these animals, and the cost of their bringing together at some central point of shipment.

I cannot, as yet, say whether or not the Minister will think it necessary to appoint any supervisor of this work. The only question which is likely to arise, and which would require the exercise of any authority would be in regard to the apportionment of space. This is entirely in my hands, and as I shall be on the spot there will be no difficulty in settling any problems of that sort without the aid of any special commissioner for the purpose.

I would suggest that you consult with the Commissioner for Ontario, Mr. Awrey, on this point and ascertain what the Provincial authorities propose to do.

Yours very truly,

WM. SAUNDERS,
Executive Commissioner.

New York, May 21, 1892.
 Mr. H. B. Donovan,
 Sec'y C.K.C.,
 58½ Victoria St.,
 Toronto, Can.

DEAR SIR,—I beg to advise you that at the meeting of the A.K.C. held on the 19th inst. it was resolved to sustain and recognize the disqualification of F. H. F. Mercer.

Yours truly,
 A. P. VREDENBURGH,
 Secretary.

NOTES AND COMMENTS

THE MONTREAL EXPOSITION COMMITTEE

MUST have wondered what inflammation of the lungs had to do with their bench show as printed in the notice of this show on page 56 of last month's GAZETTE. The last two lines should have been added to the paragraph following, relating to the death of Mr. Keating's Bob. Intelligent (??) printer; irate Editor, gun, weeping widow, orphans, inquest, no flowers.

FOX TERRIER CLUB FOR CANADA.

We are glad to learn from Mr. Stewart that the proposed Fox Terrier Club for Canada is meeting with unqualified approval and support. Why not call a

meeting of those interested and set the ball rolling? Invite correspondence to be read at meeting and acted upon.

BY THE Stock-Keeper

we notice that Mr. T. J. Ballantine, Peoria, Ill., is importing the Pug bitch, Bradford Nellie (Little Tim—Darkie.) She has won over a dozen prizes and is in whelp to King of Diamonds. She sailed in the Helvetia on the 21st of May so is probably ere now in her new home.

THE CLUMBER SPANIEL DOG,

Friar Bob was shipped on the same vessel to the order of Mr. J. T. Little, Brookline, Mass.

ANOTHER GONE.

Last month we had to chronicle the demise of one of our winning Field Spaniels, another has now gone and by the same sire, Bob Obo, thanks to the poisoner. We allude to Rideau Rab, a frequent winner and owned by Mr. C. E. Fenton of Essex Centre.

CHAMPION MEMNON DEAD.

That pillar of Greyhounddom, Ch. Memnon has gone the way of all flesh. He was a winner of 65 prizes in the field and on the bench and was at one time owned by Mr. R. Junor, Toronto, who, we believe, disposed of him to Mr. C. H. Mason. At the time of his death he was the property of the Hornell Harmony Kennels.

TORONTO KENNEL CLUB.

After a great deal of hard work a committee from this club, Messrs. J. G. Mitchener, H. J. Hill and J. C. Morgan, have succeeded in having the unjust tax of \$5 on bitches, removed. The fee will in future be, for kennels, \$10, bitches, \$2, dogs \$1. The \$10 fee of course includes all dogs in the kennel

and is a boon to the large breeders. All dogs must be pure-bred and registered with the C. K. C. otherwise the old tax of \$5 on bitches will be collected.

AT A RECENT MEETING

of the club it was decided to add a corresponding secretary to the list of officers whose principal duty shall be to procure papers on interesting subjects from authorities in various parts of the country to be read at the meetings. The Industrial Bench Show committee have been asked to recognize one or more delegates from the club.

WORLD'S FAIR.

In answer to several enquiries we may state that entries will be received as late as May 20th, 1893, but, of course, it is inadvisable to leave off doing so till the last moment.

DR. JOHN SPENCE, V. S.,

Bowmanville, is importing a Fox Terrier bitch, in whelp, from England.

MR. C. H. SMITH, ST. STEPHEN, N. B., has added another grand Sky Terrier bitch to his kennel in Prairie Flower, E. 30,022. She is royally bred being by Ch. Old Burgundy, out of Lowland Maid. She was bred by Mr. J. Kidd Jr., Scotland, and has won 2nd and 3rd Cuffs show, 1891, 4th Glasgow, 3rd Edinburgh, 1890. This bitch is in whelp to Port, and we hope her new owner will have more "luck" with her litter than he had with the progeny of her predecessor.

M. A. J. GROVES, TORONTO,

has purchased the rough-coated St. Bernard dog, Lord Dalhousie, (Burns—Bess) the sire of his Premier, second in the puppy class at the recent Toronto

local show. Mr. Geo. Hastings, of Deer Park, offered Mr. Groves \$350.00 for this puppy just after the show, but the offer was not accepted.

MR. A. J. JEFFREY, STRATFORD, ONT., has gone in for Skye Terriers as well as one or two other breeds, having purchased from Mr. C. H. Smith, St. Stephen, N. B., Toodles (dog) winner 2nd London, Ont., 1890, and H. C. Boston, 1890, and Gamp II., (bitch) winner 3rd at Boston, 1890. These are both from imported stock and should boom Skyes in the West. We understand Mr. Jeffrey will soon place Toodles in the stud.

TORONTO BENCH SHOW JUDGES.

The following are the Judges for the next Toronto Bench Show and the classes they will take:

Mr. C. H. Mason, New York, Spaniels of all kinds including Toy Spaniels, Greyhounds and Wolfhounds.

Mr. John Davidson, Monroe, Mich., Pointers, all Setters, Collies, Foxhounds, Beagles, Harriers, Whippets, Dachshunds and Retrievers.

Mr. F. C. Wheeler, Cincinnati, (formerly of London, Ont.,) Fox, Bull, Irish and Bedlington Terriers, and Italian Greyhounds.

Mr. Jas. Mortimer, New York, Mastiffs, Bloodhounds, St. Bernards, Newfoundlands, Great Danes, Deerhounds, Bulldogs, Boston, Scotch, Dandie Dinmont, Skye, black and tan, and Yorkshire Terriers, Poodles, Pugs and Miscellaneous classes.

MR. W. B. PALMER, WOODSTOCK, has disposed of his kennel of Cocker, including Red Roland, to Mr. A. Laidlaw, only reserving one or two bitches.

DR. W. H. DRUMMOND, MONTREAL, writes us that his brace of Irish Terriers, Commissariat and Cora came

safely to hand and please him greatly. They arrived in excellent condition. On the same boat were a Newfoundland and a Retriever but we have failed to learn to whom consigned.

IN MONTREAL

we learn a kennel club is in progress of organization, several prominent breeders seeing the necessity of such a body.

KINGSTON DATES.

The London Club not being able to come to any arrangement with the Western Fair has abandoned the idea of holding a show this year, so Kingston has now claimed these dates September 19th to 22nd.

OTTAWA BENCH SHOW.

We are able to give the classification this month. Two open classes of \$7 and \$3 are given for Mastiffs, St. Bernards, Foxhounds, Bull Terriers, Skye Terriers and Toy Spaniels; one open class of same money for Newfoundlands, Deerhounds, Harriers, Irish Water Spaniels, Bulldogs, Bedlington Terriers, Poodles, Spitz and Dachshunds; one challenge class of \$5 and two open classes of \$7 and \$3 in Greyhounds, Great Danes, Pointers, English Setters, Gordon Setters, Irish Setters, Clumber Spaniels, Field Spaniels, Collies, Irish Terriers, black and tan Terriers, Yorkshires and Pugs. Cockers have one challenge class of \$5, two open classes, for black two open classes, for other than black and two novice classes. Fox Terriers have one challenge class of \$5, two open classes and one novice class of \$7 and \$3. The entry fee is \$1.50 and entries close September 17th.

THE WORLD'S FAIR.

Forest & Stream says:

The A. K. C. has received from the World's Fair managers copies of the entry blank for

the World's Fair show next year. With each application for entry the exhibitor must furnish a certificate from the secretary of the A. K. C. or C. K. C. showing that the dog has been registered in the proper stud book. The stud number must be given in the certificate. Exhibitors of dogs outside of America must furnish satisfactory proof that such dogs are recorded or are eligible to record in some recognized stud book. The entry fee is \$1.50 for each dog, to cover cost of feed and benching of the dog. If the dog offered for entry is not exhibited his money will be refunded. Entries close May 20th, and the show is to be held June 12th to 17th, 1893. Spratts Co. will, we understand, bench and feed. It was at first intended that no entry fee should be charged and every dog forage for itself, as it were, but on Secretary Vredenburg representing the hardships on the dogs and the confusion such an arrangement would entail, Mr. Buchanan wisely determined to charge a fee for maintenance, etc. From what we gather it is not at all probable that Mr. Goodrich will be the superintendent, as announced some time since. The general choice seems to be Mr. Mortimer and certainly he is about the only man properly qualified for the position, but he fears the red tape that would bind his efforts and wisely objects, unless he could be given full power, and that would be the only way the show could be successfully run.

As the Dominion Government had agreed to pay all charges for feed and attendance we presume some alteration in the arrangements will have to be made. Possibly the entry fees might be paid on proper explanation of the matter to the Dominion Commissioner. The secretary of the C. K. C. has written Prof. Saunders regarding it.

SPANIEL CLUB JUDGES.

At an executive meeting of the club held June 7th the following gentlemen were elected as recognized judges: Messrs. A. C. Wilmerding, E. M. Oldham, C. H. Mason, J. Otis Fellows, J. F. Kirk, J. Watson, A. Laidlaw, Geo. Bell, J. Mortimer and J. Luckwell. They were elected in the order named and it will be seen that out of the ten, Canada is honored with no less than four.

MR. W. H. MIDDLETON, OTTAWA,
Mr. F. H. F. Mercer's partner, following out the purport of C. K. C. Rule xxx. which reads "The partners in the kennel will be deemed equally culpable in the case of fraud perpetrated in the kennel name" has placed his resignation in the hands of the Ottawa Bench Show Committee of which committee he was a member. The matter has been referred to the C. K. C. Mr. Middleton had no personal knowledge of the matter entailing Mr. Mercer's disqualification.

"HOW TO KEEP A DOG IN THE CITY."

As showing the popularity of this little work of Prof. Wesley Mills in the United States we may state the first edition of 600 went off so fast that the publishers were compelled to issue a second edition of 1500. This does not include the 2,000 printed in Canada.

MR. F. H. F. MERCER,

is certainly a most unfortunate man. A few days ago in New York he was badly injured by a surface car and is again under the doctor's care. It is too bad, but as the old saw says "It is a long lane which has no turning," and surely the "turning" must now be reached.

TORONTO BENCH SHOW.

A big list of special prizes is coming in. The Spaniel Club will offer a cup, value \$100 for best Cocker, American bred to be won four times; do. for best Field Spaniel; the Geo. H. Whitehead trophy, value \$25 for best cocker stud dog with 2 of his get to be won four times; \$10 cash for best kennel Cockers and \$10 cash for best kennel Field Spaniels. The Collie Club donates a \$20 silver medal for best American bred Collie under 2 years and bronze medal for best in

novice class. The Industrial Exhibition add a special of \$10 cash for best Collie in the show. The Greyhound Club will offer 3 medals. Several other specialty clubs will probably support the show.

A SWEEPSTAKE

will be got up in several breeds for dogs whelped on and after January 1st, 1891, Canadian and U. S. bred who have never won a money prize, with a \$2 entrance fee, 40% to 1st, 30% to 2nd, 20% to 3rd and 10% to 4th.

ADDITIONS.

Several additions have been made including a challenge class of \$5 and silver medal for Poodles, classes for Retrievers, Japanese Spaniels, Italian Greyhounds, &c.

MR. STEWART, WRITES,

"The 'Breeder's Show' and the 'Fox Terrier Club' ideas have evidently caught on, and from the replies I have already had it looks as if we can float both during the fall without trouble." Hear! hear! say we.

THE American Stock-Keeper

commenting on the recent dog license by-law framed by the Toronto Municipal Council says:

The committee appointed by the Toronto Kennel Club to secure a reduction in dog license fees have been successful and hereafter the charge will be, kennels \$10, bitches \$2, dogs \$1. It should be understood, however, that the above applies exclusively to thoroughbred dogs, a fact which greatly enhances the value of a dog that is bred right. The action of the city fathers of Toronto is to be commended and the committee who did the work leading up to this result are to be congratulated on the success which attended their efforts. Generally speaking the mongrel has many advantages which by right belong to the thoroughbred and when the time, study and expense attending the breeding of thoroughbred specimens is taken into consideration,

the thoroughbred should not be handicapped by being placed on a level with a dog whose production is a question of pure chance. Nine accidents out of ten in the canine world may be attributed to the mongrel. Whenever possible, therefore, let the dispensing of favors and all encouragement be given to the dog whose ancestry give him a prior claim. Bench shows are of great value in this respect for they are instrumental in discriminating between thoroughbreds and mongrels. It costs no more to feed one than the other, unless the latter be allowed to exercise his natural taste and act as assistant scavenger for the neighborhood. The symmetry, beauty and desirable points which may be obtained in the thoroughbred appeal so strongly to every true lover of man's best friend, that he should be given every possible advantage. If, therefore, our laws can be so constructed as to encourage in every possible way the breeding of high-class pedigreed dogs and discourage the breeding of mongrels; not only the dog men but the community at large will be greatly benefitted thereby. We commend the action of the Toronto City Government to the authorities in all other cities and towns and hope the idea will be followed throughout America.

THE British Fancier

of June 3rd, says: "Mr. James Mortimer, the great American canine impressario, it is expected ere this appears in print, will have arrived in the 'mither country' by the Inman S. S. City of Chicago for the purpose of paying a visit to the Kennel Club Show. We welcome you, Mr. Mortimer, and may you enjoy your sojourn among your British brethren, whom we are sure, will, one and all, be pleased to meet you."

KINGSTON KENNEL CLUB.

Editor Gazette:—

KINDLY claim in the CANADIAN KENNEL GAZETTE the following dates for our kennel club: from 19th to 22nd September.

Yours truly,

H. C. BATES, Sec'y.

BARKLETS.

A FEW dog fanciers seem to think postal cards were invented for their especial use and benefit. It matters little to them which branch of the business may form the subject of enquiry for the time being, or whether the silent language to be conveyed is that which good taste would suggest as suitable for such a public medium, this cheap and nasty piece of pasteboard is made to do duty just the same. If such mis-sives were treated with the silent contempt they deserve, it might have the effect of inaugurating a much needed reform, and tend to lessen the use of this pest of modern correspondence.

I don't think Mr. Mercer should feel elated to learn that his devoted friend is "not in the least disgusted or indignant" with him for the part he played in the "Newcastle" affair. Judging from the tone of his letter Mr. Mercer is disgusted with himself, and the fact that he wore "sackcloth and ashes" for months is touching in the extreme, and would I feel sure have procured him absolution in the near future, had it not been for the indiscretion of his friend. Surely Mr. Wade ought to know that partizan contributions to the kennel press serve but to delay the objects they are intended to promote. A true friend of Mr. Mercer's, if acquainted with all the facts which led to his disqualification by the C. K. C. would have been content to let "sleeping dogs lie." It was Hood, I think, who said that "some are ever ready to gild men whom they can no longer bleach." The twaddle that has recently appeared in one or two of our sporting papers would lead one to believe that this propensity in human nature is in no danger of becoming extinct.

It may not be out of place for me to remind Show Secretaries that the rules

of the C.K.C. do not admit of changes being made in the classification after a list has been printed and distributed, so that it behooves those interested to try and avoid omissions that might cause regret later on. Also bear in mind that in publishing the list of recognized shows it must be revised so as to include all shows held by members of the C.K.C., or shows to be given by them previous to the closing of the entries of the show to be held. The question as to whether a show becomes a recognized show as soon as held, or only when added to the schedule appearing in the prize list, is one which may require a definite ruling by the Club ere the next circuit has been completed. I have in my mind's eye a dog that made a second or third appearance in the novice classes of the last Canadian circuit, although a successful winner the first time exhibited. When I attempted to reprove the fortunate owner for his seeming lack of respect for our national bench show rules, he at once placed *hors-de-combat* by pointing out that the show at which his dog had won was not included in the list of recognized shows for that year, as they appeared in the catalogue. This was taking advantage of an error or omission on the part of the Secretary, but no one cares to go to Court with a doubtful case, so I allowed the matter to drop. It is the duty of secretaries to carefully guard the rights of exhibitors by becoming thoroughly acquainted with the requirements of Kennel Club rules.

To read Mr. Stewart's letter on "Things Canadian," one would almost suppose that *importing* and *breeding* were antagonistic branches of cynology, whereas they are correlative and reciprocal. The experienced breeder finds it useful at times to strengthen his kennel by the introduction of new blood. This he may obtain near home

or he may have to import; it matters little where he finds it, so long as he gets it. A stud dog or brood bitch of superior quality and breeding is added to his stock. The next year shows a marked improvement as the result of his investment. Not only has he received a benefit, but the fancy at large has shared in his enterprise. This new blood is soon disseminated over the greater part of the country, and a general improvement in the breed is observed. Does the man who accomplishes all this deserve to be told that he "is simply a buyer and nothing more"? No, brother S., the successful breeders of to-day are those who are ever ready to "open their purse strings and buy dogs which others have bred." If there were no buyers I am inclined to believe that some of us would soon find the fancy less fascinating than it now is.

"Thank heaven some few breeds as yet have escaped the specialist clubs and the fancy, hence they exist in all their pristine vigor," says a well-known English writer in a recent issue of the *Stock-Keeper*. This is strong, if not convincing language, and would furnish a text for a chapter on a most interesting subject. To admit that which the language implies, would be to deny that dogs have improved, and few, it seems to me, could successfully maintain such a premise. Specialist clubs have done much to popularize some breeds that would have languished or perhaps died of neglect, had they been left to individual effort. This has been accomplished chiefly by generous offers of special prizes at the leading shows, or such of them as could be persuaded to accept the club's judge, etc., in exchange for the prizes and patronage. The fact that these specials are usually confined to members, does not tend to make specialist clubs popular with those who are outside the combine,

and the charge that "for a body of men to make a pool and in the course of the year spread it out again amongst themselves in the guise of medals, cups, or dollars, is better business for the members of the club than the breed," is often heard. It is a question whether it would pay the breeders of Canada to encourage a division of canine interests by the formation of specialist clubs, which at the most must prove of doubtful utility.

* * *

The paragraph which appeared in these notes a couple of months since, reciting the law with respect to the tax on dogs has evidently borne fruit in the city in which this paper is published, for I see it announced that a by-law has been prepared dealing with the question in accordance with the Ontario Statute. The tax on mongrel bitches will remain as formerly, viz: \$5 per annum. This should have a salutary effect in diminishing the number of curs that infest Toronto (as well as other cities), more especially as an unlimited number of pure breed registered dogs or bitches may be kept on payment of a tax of \$10. This ought to go a long way towards solving the dog nuisance. Toronto fanciers owe much to the GAZETTE for calling attention to a matter of such moment to themselves, as the illegal tax which has heretofore been collected must have borne heavily on all those who keep thoroughbreds, whether for pleasure or profit.

BARKUS.

HAMILTON NOTES.

MR. William McDonald is in hard luck just now, having just met with some smashing losses from which he will not soon recover. Last week he lost an entire litter of fine Cocker puppies by Red Roland, out of his own Gipse

Queen, and narrowly escaped losing his bitch into the bargain.

This was hard enough to bear, but nothing to that which followed, for two days ago his young dog Red Jacko died in a fit, and now Billy is disconsolate.

By the death of Red Jacko the Canadian kennel world loses a most promising puppy, and it was even money that he would have made a high mark for himself during the coming fall circuit of bench shows. It is not more than a month since Mr. McDonald refused \$150 for the youngster, and he wishes now that the cold cash was in his pocket.

Mr. A. D. Stewart has changed the name of his Fox terrier kennel here from "Bonaily" to "Silverhill," and in this connection has claimed the prefix "Silver" which he will in future use regularly when naming his young stock.

The famous Irish Terrier, Rugby Norah, purchased by Mr. Andrew Murdoch, of this city, from Mrs. Carthew, of Garrels Hall, Hertfordshire, England, arrived here safely on the Queen's birthday in good condition. The bitch is a splendid specimen, and Mr. Murdoch is delighted with his new "dare devil." She is now in whelp to Ben IV, and after her maternal duties are at an end she will be shown through the Canadian fall circuit of bench shows.

Dr. Mole has scored another triumph in his treatment of a Bull Terrier sent to him lately for repairs. The unfortunate animal was suffering from the worst attack of mange and eczema that could possibly be imagined. The entire body was covered from head to foot with running sores and scabs and there was not a single hair left upon the surface of the dog's anatomy. The

genial Vet. shuddered perceptibly as he entered upon his task, but in less than a fortnight not a scab or sore was to be seen; the hair is growing in rapidly, and the Doctor swears that in another month the dog's own father won't know him.

Mr. H. P. Breay has just purchased from Dr. Nicolai of Detroit, a fine Great Dane bitch, which he intends to breed when in season to the well-known Favor. As Mr. Breay has already a kennel of St. Bernards, his latest purchase shows that he is fond of "big uns," and his friends are beginning to think that he contemplates starting an "Uncle Tom's Cabin" show in the near future.

Owing to the iron moulders lock-out which has been in progress here for some months, two well-known local dog breeders in the persons of James Rollason and Martin O'Neil have been obliged to leave the city to look for work in the States. These gentlemen were both enthusiastic breeders, each inclining to the Cocker Spaniel. They were scrupulously honest and upright in all their ways, and untiring in their efforts to promote the welfare of the fancy generally. It is to be hoped that both of them will soon be back in Hamilton, and meantime their many friends will wish them all success.

THE SILVER SAINT.

AN ANNUAL SHOW OF CANADIAN BREEDERS.

Editor Gazette:—

THE suggestion of Mr. A. D. Stewart to have an annual show exclusively for Canadian bred dogs seems to me an excellent one. We do not give enough credit now to

the breeder, nor encourage sufficiently a careful study of that most important interest of the kennel world. I long ago pointed out and have again and again repeated it, that we must to get good results pay more attention to breeding, and it will often be necessary to spend a good deal on sending our bitches out of the country to the best dogs available, in doing which, by the way, the customs regulations on both sides of the line are a great hindrance. Let us get ours abolished, if possible, at all events. By a united and vigorous push, it could, I believe, be done.

There should also be no tax on pure bred dogs kept under proper restrictions as to running at large, etc.

A show for dogs bred in Canada, the prizes being always withheld when the merit was not considerable, would serve a good purpose, in fact the very best.

Such an exhibition might, like that of the Ontario Poultry Association, be held in different cities in rotation. I am not sure that it is wise to concentrate everything in Toronto.

The demand for high class dogs in Canada is still not very great—not as great as it should be—and such a show would greatly increase this demand. It would, no doubt, become a large market for stock, and the best advertisement a breeder could have. Perhaps midwinter would be the best time for such a show, say shortly before the great event of the year, the New York show. Details, especially all that relates to the health of the show would be of great moment, lest the show be a focus for the generation and spread of disease.

Let us have a breeders show next winter on an exclusively Canadian basis.

Yours truly,
MOUNT ROYAL.

"SELF RESPECT" (?)

Editor Gazette:—

I DO not propose to defend Mr. C. H. Mason. That would be impertinent in me, he being fully competent for the task; nor is it any more my business to advise the Toronto people what they should do in selection of judges than it is "Self Respect's" (?) The Toronto folks have had shows for a considerable while, and I never heard that they were lacking in either intelligence or character and I conclude that they can attend to their own affairs without suggestions from spiteful advisers.

It is, however, a matter of public duty to correct vicious mis-statements, and the publication of open falsehoods and malign inferences, is to the injury of all dog lovers.

"Self Respect" says that Mr. Mason is no longer employed as judge in the United States, because of his spiteful writings of other judges, etc., etc. This is absolutely untrue. If inferential on this writer's part, the falsehood is still criminal, in his complete failure to inform himself on the facts. Mr. Mason is boycotted because he offended a very wealthy dog owner some years since, and this owner publicly stated in the columns of *Turf, Field and Farm* that he would never exhibit where Mr. Mason judged any breed. That public declarations were not the only means used in enforcing this boycott is most strongly inferred from the notorious fact that shows engaging Mr. Mason have been importuned to displace him. Mr. A. W. Smith of Buffalo publicly stated this sometime since, with the significant remark that their show treated these teasings with contempt and that it was the common belief of his club that they gained in entries by so doing. I do not know, but I believe that "Self Respect" (?) can have Mr. Smith's statement sub-

stantiated as far as their experience goes, if he will enquire of the Toronto people.

It is a positive falsehood that the English *Stock-Keeper* has *always spoken contemptuously* of the American kennel world; so utterly false that no "sophistications" or moonshine nonsense can possibly justify such a falsehood. (Mr. *Stock-Keeper*, this is so silly a falsehood that you needn't deal with it seriously, every one of your American readers know it's complete falsity.) "Self Respect" (?) is by no means "our American kennel world." That "Nut Cracker" has villified even a majority of prominent doggy men here, is another "conspicuous inexactness;" "Self Respect" is no majority.

It is not worth while to discuss the character of Mr. Mason's report in *Stock-Keeper* of the New York show, any interested in the question had better write to International News Co 83 Duane St. New York for copies of The *Stock-Keeper* of March 11th 18th 25th. Everybody who knows anything of New York show should know that the large attendance is due to a society fad, and the daily press of New York have often stated this. I have been around dog shows very much longer than "Self Respect" (?), and I am positive that no other judge ever officiated here whose judgments raised such indignant howls and storms of disapproval as Mr. Tracy's unless it may be the other "J M T" and Mr. Mason expressly disavowed reflections of Mr. Tracy's personal character. That "(?)" should say that it is untrue or incredible that there are men who can never become judges of dogs, simply shows that he is in this category. This fact is axiomatic.

That idea of the insult to all Canada is too utterly ridiculous for consideration, it is simply immense.

Finally, permit me again to disavow any such impertinence as an attempt

to advise or influence the Toronto directory, and again to say that my only object is to show up the utter silliness of the falsehoods "(?)" perpetrates. If any writer has a grudge against anybody, let him out with it, fight as bitterly as he pleases, call as many hard names as suits him, but let him stick somewhere near the truth.

Yours truly,

W. WADE.

THE REPLIES OF MESSRS. MERCER AND WADE.

Editor Gazette:—

THE best reply to the remarks of these correspondents is the verdicts of the Ottawa Committee and the Canadian Kennel Club. These bodies seem to share my "little peculiarities" and see things almost as most unbiased people would. Of course one may call a lie, a forgery, or a fraud an "indiscretion," but such is an abuse of language. There could have been no "prejudging" in this case. There can only be prejudging when all the facts are not yet known; but in this instance they were long known to the public and had already been acted on by the Ottawa Committee prior to the appearance of my letter. Briefly the facts are these: Mr. Mercer obtained and retained a prize at the Ottawa show by misrepresentation; by means of a false entry. This was either fraud or forgery or both, and no amount of writing will make it a mere "indiscretion." My letter simply gave expression to what many people felt, especially after Mr. Mercer wrote on the subject and made his charges against Mr. Little, which were trumped up, because they were made, according to the author's own confession, with no good

motive, without sufficient investigation as to their truth, with no reason by previous conduct for believing that Mr. Little had acted fraudulently, and because they proved on investigation by the A.K.C. to be baseless. I leave the readers of this paper to judge whether I am accustomed to advance my views in an *ex cathedra* fashion, dogmatically and without reasons. As to the compliments my assailants pay me—the best answer is—silence.

Yours truly,

MOUNT ROYAL.

STIFLE JOINT LAMENESS.

NOTHING more serious can happen to a big dog than to badly sprain or otherwise injure the stifle joint; it is far worse than a broken leg, for that, in most cases, can be cured, and the dog is sound and well in the course of a couple of months; but a severe sprain of the ligaments or an inflammatory condition set up in consequence of a blow to this weak and most complicated of joints is a very serious matter, for under the best circumstances the limb never again regains its full strength, though in many cases the dog may sufficiently recover in course of time to be able to walk sound for a short distance, but any unusual exertion at once makes the weakness of the part apparent, which is still more noticeable after a rest following a run.

Many of the cases do not terminate so favorably, but as the result of the accident the dog often becomes a confirmed cripple, being permanently lame.

Of late years this form of lameness has seemingly become a very frequent occurrence; this, to a certain extent, is perhaps to be accounted for by the increase in numbers of large dogs bred

and kept. Then, again, I do not think dogs, especially those of the larger breeds, are as strong as they used to be, partly from want of exercise and partly from the modern mania of making dogs as fat as bullocks. This fattening process is commenced as soon as puppies are weaned, and, as a consequence the legs often give way; at any rate they become weak from the great weight of the body, and are, therefore, much more liable to sprains and strains.

All dogs are liable to injure the stifle as people are to injure the knee, which is the corresponding joint, but no doubt the big ones, as St. Bernards, Mastiffs, and Great Danes, are more liable to this form of accident and consequent lameness, than smaller dogs. Toy Terriers and Pet Spaniels, &c., are very apt to dislocate the patella, which is the small bone situated in front of the stifle joint. In little dogs, with weak hind legs, this bone has a tendency to slip inwards, which makes the dog extremely bandy. This is not not a serious matter if taken in hand early, as the dislocation can be easily reduced and kept in its place for a time with an adhesive bandage.

Returning to the subject of this paper, Stifle Joint Lameness, it is astonishing how easily this part may be injured, for anything that causes a sudden twist of the leg, as the dog slipping upon some greasy ground when galloping, or being knocked over by another when playing, or getting the foot fixed and struggling to get it free, or a blow to the part may so injure the joint that inflammation is soon set up, and how it will terminate it is very difficult for some time to tell.

The Symptoms.—The lameness in most cases comes on quite suddenly, and is very acute, the dog scarcely being able to put the foot to the ground, in fact it is often carried for some time;

the joint is tender to the touch, but not to that extent one would expect from the extent of the lameness, but this is accounted for by the inflammation being at first deep seated and thus protected from pressure by the external bony material, and this being the case also accounts for the seat of lameness at first being often overlooked by owners of dogs. When the limb is extended, however, which is best done by lying the patient on his side, with the lame leg uppermost, and then taking firm hold of the stifle with one hand, and with the other drawing the foot forward, unmistakeable pain is induced, showing clearly the injured parts. The position of the lame leg when the dog is standing at rest is also very indicative of stifle lameness. It is as follows: the leg is placed behind the sound one, the toe just resting on the ground, and as the result of the constant pain, the dog keeps just raising the foot from the ground. In course of time the joint becomes generally enlarged; this is particularly noticeable on the inside, where an oval, hard swelling forms, due to expansion of the heads of the bones. The joint also becomes very stiff, and movement now causes a good deal of pain, and, as the result of the limb being kept constantly at rest, it becomes much wasted; in fact, to about half the size of its fellows, and the continued pain, too, lowers the dog constitution, and there is a general loss of condition. In course of time, perhaps months in some cases, as the inflammation subsides, the dog is just able to put the foot to the ground when he walks, but the back is arched and locomotion is evidently difficult, and when at rest the toes only just touch the ground. The foot, as during the acute stage, is still being frequently raised, which makes the dog appear fidgetty, and the weak leg is still kept behind the sound one, which position seems to give the

dog the utmost ease.

Later, about eight or nine months after the accident, the dog commences to walk fairly well, but any extra exertion always increases the lameness, however, in the course of another four or five months, if everything goes on satisfactorily, the dog is able to take a fair amount of exercise, but never regains that freedom in movement which he had before the accident happened, but the leg is carried as if the joint were stiff, which it is; the limb is more flexed than the sound one, and the parts remain thick, hard, and enlarged, especially on the inside of the joint.

Some dogs with upright legs, as previously stated, are predisposed to this form of lameness; and, in such cases it often happens that, when one stifle has been seriously injured, and in consequence of all the weight of the body being thrown on the other limb, the corresponding joint of that leg also becomes similarly affected, and the animal then, as can be imagined, is a dreadful cripple; he is only able to rise from the ground with the greatest difficulty, and, when up, stands with back arched and evidently afraid to move. When locomotion is attempted the dog goes, as it were, all in heap, with back up and the legs carried forwards as stiff as if they were wood,

In these cases it is often supposed that the back is injured, and I have frequently seen a blister applied to the loins, the supposed seat of the mischief; but a careful examination of the legs should always prevent such a mistake.

Treatment.—If the injury is recognised directly the dog goes lame, and energetic treatment be at once adopted, the case may sometimes be cut short, and, without the joint is very severely injured indeed, the dog may by the end of a month be sound; but, as is often the way, the injury is treated lightly at first, and the dog allowed to move

about on the damaged leg, the owner thinking it only a slight sprain, as a result the case is aggravated and, perhaps prolonged for months.

Directly a dog has injured the stifle joint he should be placed in a quiet, closed kennel without any bench, where he can neither see nor hear other dogs, the object being to keep the dog at perfect rest. From this kennel he should never be removed until all the inflammation has subsided.

A free dose of purgative medicine should be at once given, and repeated in three or four days. The diet at first must be light. The local treatment should at first consist of hot fomentations with poppy-head tea, made in the following manner:—about six poppy-heads should be crushed and soaked in a gallon of boiling water for half-an-hour and then strained and applied with a swab of flannel, which should be dipped in the fluid, then well squeezed, and applied around the joints. To keep it hot a roll of dry flannel should be put over the wet one.

"One of the secrets of success in dog-training lies in making the animal attached to its teacher. Make a friend and companion of the young dog, treat him so that he would rather be with you and doing what you bid than fooling about by himself, and his education becomes comparatively easy. Every lesson should be made perfectly clear to the pupil, and no punishment should be inflicted until the trainer is certain that the dog understands what is wanted of him, but refuses to perform the task. Every prompt obedience to orders should be rewarded by a kindly pat on the head, the meaning of which the dog understands.—*Outing for June.*

A POINTER TO THOSE WHO DON'T ADVERTISE.

Friend Donovan,—Just let me say that I think fully three-fourths of my sales are made through the KENNEL GAZETTE. My Pug Punch is doing his share of the Pug breeding, having had three matrons since my card appeared. Wishing you and the GAZETTE prosperity.

Yours truly,

JOHN J. BIGGS.

THE ATTENTION OF THE PUBLIC

Is attracted by any new feature in newspaper advertising, but it must be strikingly novel if the advertisement is read a second time.

The display advertisements of retail merchants are artfully worded and appeal strongly to the economical housekeeper. Flat irons at seven cents and a Monday bargain sale in ribbons open the pocket books of the modern Mrs. Toodles.

The real estate agent with town lots for sale in an earthly Paradise, ten miles from the Court House, furnishes free transportation, a brass band and a free luncheon for prospective home seekers.

The railway companies do their share of contributing to the support of newspaper proprietors. Their time tables, showing arrivals and departures of trains, are paid for in cash, or in tickets which will enable the editor and his best girl to ride on the trains.

One railway company will advertise that it is a "short line to Omaha." A competing line then positively states that it is "a shorter line to Omaha than any other," and now the Chicago, Milwaukee and St. Paul Railway insists that it is "the shortest line to Omaha, and proves it."

The Chicago, Milwaukee and St. Paul Railway Co. also says that it is the "best line to St. Paul and Minneapolis," with "electric lighted trains" and reading lamps in each berth so that one can read all night long if he has a book and don't want to sleep. It brags about the "finest dining cars in the world," with the best of meals served on imported china by the most expert and civil of colored waiters, at seventy-five cents, while the lines east of Chicago charge a whole dollar.

And—once more—the Chicago, Milwaukee and St. Paul Railway opens up a new through car line from Chicago to Denver, via Omaha and Lincoln, and it isn't long before the whole world says to itself that "shortest line to Omaha," that "best line to St. Paul and Minneapolis," and that "new route to Denver," must be the only first-class railroad in the western part of the United States, and what the whole world says must be true.

All Coupon Ticket Agents in the United States and Canada sell tickets via the Chicago, Milwaukee & St. Paul R'y.

For information concerning the line, time tables, etc., address A. J. Taylor, Canadian Passenger Agent, 4 Palmer House Block, Toronto, Ont 792.

The Dog in Health and in Disease.

INCLUDING HIS ORIGIN, HISTORY, VARIETIES, BREEDING, EDUCATION, AND GENERAL MANAGEMENT IN HEALTH, AND HIS TREATMENT IN DISEASE.

By WESLEY MILLS, M.A., M.D., D.V.S., Etc..

Professor of Physiology in the Faculty of Human Medicine and in the Faculty of Comparative Medicine and Veterinary Science of McGill University, Montreal; Lecturer on Cynology in the latter Faculty; author of Animal Physiology, Comparative Physiology, How to Keep a Dog in the City, etc. With Thirty-eight full-page Cuts, One Colored Plate, and numerous other Illustrations. 8vo, cloth. Price, \$2.25.

Published by D. APPLETON & CO., 1, 3 and 5 Bond Street, New York.

The author of this work has undertaken, in a clear, concise, untechnical way, to supply the large class of intelligent dog owners and breeders, and veterinarians, with the information necessary for the proper care, management, and treatment of the dog in health and disease. His well-known reputation as a writer and lecturer on human and veterinary physiology, his special study of canine diseases, and his long experience as a breeder of dogs, insure a thorough and correct handling of the subject.

UNSOLICITED OPINIONS OF THE PRESS AND INDIVIDUALS.

"Altogether the work is one of great use to the breeder and the veterinary student, and one that should find a place in every dog-man's kennel-shelf and library."—*Forest and Stream*.

"Very interesting and valuable."—*New York Times*.

"A practical protest against the treatment of dogs according to the light of the horse-doctor. The book is intended for all persons who breed, keep, or in any way take a special interest in the dog. . . . One half the book is devoted to the diseases of the dog. The symptoms and treatment are carefully given, and there is added a table of doses of the drugs found most efficacious. The volume is one to be cordially recommended."—*Philadelphia Inquirer*.

"It was the writer's aim to bring the book thoroughly up to date in all respects, and we think he has succeeded admirably. The illustrations are of famous dogs. The book contains over 400 pages, and the letter-press and mechanical work upon it are done in the very best style."—*The Fancier's Journal, Philadelphia*.

"Four hundred and seven pages are devoted exclusively to dogs. Thirty-eight full page cuts, one colored plate and numerous other illustrations, add much to its value. It is nicely printed on heavy paper, bound in cloth, and will prove of great value to the owner of one dog or a kennel, the student or the canine practitioner. The library of every one interested in the dog should contain a copy of this work."—*The American Stock-Keeper, Boston*.

"The numerous illustrations in the book have been drawn from various sources, special pains having been taken to furnish models for judging the various breeds of dogs in the full-page plates. The book is intended not only for students and specialists, but for all intelligent persons who breed, keep, or in any way take a special interest in the dog."—*Witness, Montreal, Can.*

"There is no predecessor to this book, not in the scope and purpose, or in the authoritative nature of its contents."—*Pittsburg Chronicle-Telegraph*.

"The best treatise on the subject that has appeared in this country."—*Washington, D.C., Republican*.

"The author is very conservative in recommending medicine or courses of treatment, and for this reason

his book will commend itself to the owners of valuable dogs."—*San Francisco Chronicle*.

"A book to be welcomed, not only by veterinary surgeons, but by every lover and student of the dog. The typographical work and illustrations are of a very high grade. Of course those who are called upon to treat sick canines will be most interested in that part which deals with the dog in disease, but we venture to predict that the classification of the several breeds, and the chapters on the psychic characteristics and the care of the dog, will gain for the book its greatest popularity."—*Chicago Interior*.

"The more a certain brilliant French woman saw of men the better she liked dogs—at least that is what she said. . . . But if she could have read Dr. Mills' book on the dog she would have found that dogs are not really much different from men after all—perhaps that is why she liked them. . . . Dr. Mills has certainly produced a delightful book and one which should have a hearty welcome in these dog-show days."—*N.Y. Tribune*.

"You have not only taught us how to treat dogs in health and disease, but you have given those who may ever aspire to writing a book on such a subject an excellent example of how to do it."—*Williamson Bryden, D.V.S., Boston, Examiner in Comparative Medicine and Veterinary Science, McGill University*.

"Your book proves a real treat on personal and it must find a place in the library of every man who loves the dog. It has only to be known to be appreciated. I have shown it to several friends, who agree with me that it is the only work of the kind up to the times."—*P. G. Kegan, Esq., Judge of Spaniels at the Montreal Bench Show of 1891*.

"I consider your book on the dog the best that has ever been gotten up."—*B. F. Lewis, Esq., Handler of Bench Show Dogs*.

"The book is cheap at the price, and I believe will have a large sale, as it covers the entire ground in a very able manner."—*Victor Haldeman, Editor Fancier's Journal, Philadelphia*.

"The work is quite unusually complete. Dr. Mills is evidently an authority on this subject, and his work will be of value to those who deal with dogs whether they are sick or not. The work abounds in fine cuts of

the different species of dogs, and contains a great deal of anatomical and detailed information concerning each species. No one who has a valuable dog can afford to be without this work."—*The Boston Herald*.

Extracts from Letters to the Author.

"The copy of your valuable new book I am enjoying extremely."—*Miss Anna H. Whitney, Bench Show Judge*.

"I consider your new book quite equal to anything of the kind I have ever seen, and a most valuable addition to any sportsman's library; indeed it is a library in itself by covering the ground so thoroughly."—*John Davidson, Esq., Bench Show and Field Trial Judge*.

"It is a good book, and I must congratulate you on it, carefully compiled and up to date; it should find a ready sale on sight. The illustrations are the best I ever saw in any dog book, bar none, and enhance the appearance very much."—*H. W. Lacy, Esq., Bench Show Judge, etc.*

"I have just finished your very admirable new work and hasten to congratulate you on giving to the public a book of such general excellence. I fully anticipated something very much beyond the ordinary before opening the cover, but was hardly prepared to find so much real, practical and useful, as well as scientific information contained in one volume."—*C. H. Corbett, Esq., Supt. Kingston Bench Show*.

"The work appears to be most interesting."—*A. D. Stewart, Esq., Hon. Sec'y, Hamilton Kennel Club*.

"The cuts are remarkably good and true. I am glad to see that you so decidedly insist that dog practice is not horse practice, or anything like it; young veterinarians cannot get to understand this fact too early. The classification is good, the remarks concerning prophylactic treatment excellent, and the drug table will be especially useful."—*Dr. Charles Lyman, Harvard Veterinary School, Boston*.

"I have never read a work on the same subject (and I have read nearly all the published works on dogs) that has given me so much pleasure as well as information, a thing not often combined in such works."—*J. S. Niven, M.D., the well-known Cynologist of London, Ont.*
