## NOTES AND COMMENTS

IN the report of the Danbury show the *American Stock Keeper* says, alluding to Dachshunds: "The rough Venlo's Imp, was placed second to Young Phenomen. Granted she is a very fair Dachshund, but should she be considered seriously among the smooths where winners are concerned? La Poupee or Venlo's Challenge should have been reserve in this class. The decision is misleading." It appears to us that if a rough Dachshund is a Dachshund, and no one can say nay, then Imp was quite competent to compete and win here, where smooth is not specified. *Stock Keeper* does not say she should not win for lack of quality, but because of her coat.

Mr. Geo. R. Krehl, the well-known English dog owner, writer and judge, received a warm invitation to judge at New York in February, but home engagements compel him to decline.

Ingreham Rhoda, the Dachshund bitch brought over by Mr. Raper, is dead. She was second to La Poupee at Danbury.

Mr. H. Parker Thomas was in Toronto on October 26th to see the Canadian contingent off to the wars.

Mr. S. Britcher and Mr. J. H. Smith, of Montreal, have just purchased a Bull bitch by Champion Dimboola, from a well-known English breeder. She will be bred to Despard before being shipped to Canada.

Mr. Geo. H. Gooderham has been elected President of the Montreal Canine Association, Limited. Election of other officers was to take place in Montreal on Nov. 9th, but at this writing no further report has reached us.

Mr. Geo. H. Gooderham, the owner of the famed Norfolk Kennel of Fox Terriers, has left for a three weeks' visit to New York and Philadelphia, taking in the horse-show in the former city and then competing with the best in the land for all that may be put up in Fox Terriers.

The Sherwood Kennels have imported a red Dachshund bitch of rare quality from Mr. Froembling's kennel. She is extremely long with a good head, perfectly sound and active as a cat. It is the intention of Dr. Boulton, the active partner in the concern, to breed her to Robin Hood of Sherwood.

Mr. L. A. Klein is mourning the death of that grand red Dachshund, Venlo's Challenge that took everything in sight, under Dr. Mills, at Toronto. One of his litter sisters, Venlotta, is now in Germany, another is Mr. Donovan's Miss Phenomen that is at present nursing a litter by Venlo's Best Man. Challenge was a lovely type and in make up of body, legs and feet, he was almost perfect.

At the recent Danbury show the A. K. C. cancelled several wins for various reasons amongst which are, "entered with wrong pedigree,"

"class divided" wrongly, "registered but number omitted," "not listed," "old name and record omitted," etc.

It is evident that the very letter of the law will be enforced and errors, omissions, etc., will not save exhibitors from the penalties of cancellation.

At the regular meeting of the Gore Kennel Club, held in Green's Hall on Nov. 3rd, the reports of the recent show were submitted, showing a fair balance on the right side. Congratulatory remarks were made on the elevation of the kennel standard in Hamilton, the members being much gratified at the knowledge that they have accomplished much good along that line. The feature of the evening was the presentation of a gold locket, suitably engraved, and an engrossed address to Mr. Geo. H. Carley, Secretary of the Club and Superintendent of the late show. The presentation was made by President Jackson and Mr. F. Small read the address, Mr. Carley making a suitable reply.

Messrs. F. and A. Stuart, of Montreal, have just purchased a very promising St. Bernard bitch pup, six months old, from Mr. H. E. Pilgrim, of Michigan City. The sire is Mr. W. C. Freysmith's noted stud dog Aristocrat, Jr., a son of Ch. Aristocrat, and a grandson of Ch. Plinlimmon. Among the many good dogs sired by Aristocrat, Jr., may be noted, Ch. Autocrat and Ch. Sylvina. The dam is Mr. Pilgrim's bitch Abbess Watch, by Ch. Rex Watch. This dog was never defeated, beating Ch. Alton II., Ch. Melrose, Ch. Duke Wadworth, etc.

The pup is almost perfectly marked, but her strongest point is her massive head, deep muzzle and great bone.

They are also importing one from the Old Country which is expected here by the end of the month.

## THE VICTORIA SHOW.

UNDER C.K.C. RULES.

THE three days bench show of the Victoria Kennel Club which closed on the night of Saturday Sept. 30th, may pass into history as one of the most successful (outside of San Francisco) ever held on the Pacific Coast. Canadian Kennel Club rules prevailed. It is impossible to say too much in praise of the hard work done by Mr. E. Pfordner who discharged the laborious and very tiresome duties of Secretary and Superintendent in a manner rarely, if ever, equalled. He was at all times on hand, and if only the Victoria Kennel Club can be certain of his invaluable services in the same role, there may be no hesitation in at once beginning the arrangements for the anticipated show in the spring. Nor must the genial and ubiquitous President Mr. Geo. Jay be forgotten. His affable manner, energy and farsightedness, impressed everybody most favorably, especially the visitors from the American side of the border, chief amongst whom were Mr. C. G. Gandell, Mr. Julius Redelsheimer (President and Vice-President respectively of the Seattle Kennel Club) Mr. Oscar Jones, Mr. Geo. Tinto of Seattle, and Mr. L. Haaf of the Redwood Cocker Kennels, San Francisco.

One of the great difficulties against which the management had to contend was the usual one, of procuring a suitable building, the Philharmonic Hall being altogether too small. Had the crowd of visitors been as large as was expected, great inconvenience would have been experienced, but rain fell in torrents on Friday and part of Saturday, so a crush was avoided, but of course the gate receipts fell to about half of those in 1897. This was very unfortunate, but it is thought that the gross taking will at any rate be equal to the expenditure.

The entries totalled 211. The benching was of new lumber dressed (which will always be a useful club

asset) and the limited space was used to the best advantage. A special cook was engaged to look after the dogs' food, which consisted of boiled meat and vegetables, and soup and bread, and certainly the dogs relished it, better than the usual biscuit.

Dr. S. F. Tolmie and Dr. R. Hamilton acted as Veterinary Surgeons, and each dog had to submit to a very critical examination before being allowed in the building. Their honorary and valued services were much appreciated.

Mr. Headley Chapman (at one time the owner of the celebrated Plinlimmon) judged St. Bernards, Mastiffs and Newfoundlands, and had not much difficulty in placing the awards. The last two named classes had only one entry each, and they were liberally served with a second. St. Bernards while not very numerous showed off well, some out of the fourteen entries exhibiting much quality, especially Mrs. C. G. Saxe's "Princess Sherberazade," a bitch of fine size, very good hind quarters, good head and muzzle, nice coat and typical expression. Seattle Chief, the winner in open dogs has good size, poor coat, and might move better behind. Mr. E. Pferdner brought out a nice nine months old puppy, already scaling 160 lbs., and if he succeeds in keeping his legs has a future before him. Very little fault can be found with him, except as regards ears, which at present he carries thrown back.

Mr. H. T. Payne, editor of *Field Sports*, San Francisco, judged all other classes with consummate ability, his impartiality being beyond question. The keenest competition was in English Setters, there being a large number of entries, with not a poor one in the lot. Indeed Mr. Payne who as a connoisseur of the English Setter ranks "*facile princeps*," stated that at no show on the whole continent, could such a level lot be found, while those receiving v. h. c. (and they were many) were quite equal to those that would get

firsts and seconds in San Francisco.

Irish and Gordon Setters, and Pointers also made a good showing. In the latter class Lord Buster was rather badly treated with a third.

In Collies the competition was principally between the Kennels of Mr. Geo. Tinto of Seattle and Mr. T. B. McCabe of Victoria. Capital undoubtedly should have been placed over Ganges Fox, being better in head and legs and feet. The Collies as a rule were not in good coat.

Mr. H. E. Padmore of Vancouver, showed a rattling good bull dog in Jorrochs, he had no difficulty in beating Peter Jackson, who is under nine months, and looks like developing into a good one if he only gets wider in front.

Bull Terriers had two good ones in Bob and Larrie, but Mr. Payne very properly declined to judge the bitches as they were of the wrong color.

In Cockers most of the winning was done by the Redwood Cocker Kennels of San Francisco, who showed among others, Champion Havoc, Dufferin Pastime, Champion Colorado, and Champion Tootsie. Mr. J. W. Creighton of local fame, came in a good second, his dogs as a rule being a trifle snipy in muzzle, and coats having a slight suspicion of curl.

In Fox Terriers Aldon Artist captured the silver cup for best of either sex, and afterwards secured the special for the best Terrier any breed. He has very much improved since his appearance at New York and San Francisco, having filled up in loin—his weak place. To-day he would take a lot of beating anywhere, although he is on the large side. Aldon Radiance is too well known to need any description. Filey Beauty—not nine months old—quite properly won in all her classes, except open. She might be stronger in muzzle, and a shade longer in head, but in neck, shoulders, front, body, legs and feet she is excellent, and has capital hind quarters, and is brimful of character. Filey Flash,

her litter brother, is also a good one, and might have been placed reserve in winners. He is very much after the same style as Beauty, with better muzzle. Warren Sage, outside of being bitchy in head, is a capital sort.

Irish and Scotch Terriers must have been new to the judge, as it was inexcusable to put Dolly Day Dreams over Mixhit, who beats her at every point except coat. Perhaps the judge did not like his slightly dark shadings. He has capital head and ears, good legs and feet, fair coat, and shows lots of character, while the bitch is undershot and has a very poor head. In Scotch Terriers Dinah had certainly no business to be placed over Nipper, who has a capital head and coat, good body and perfect ears. He turns his feet out too much certainly, where Dinah scores, but she loses to him in head and coat. It is a very good thing that these two excellent varieties are being brought to the front, by such an enthusiastic fancier as Mrs. Bradley Dyne, and when her three new bitches arrive from England in whelp to the best of thier kind, there should be some future winners that will exercise a beneficial influence for future breeding.

Mr. J. Redelsheimer showed two very nice Bedlingtons. They might be better in coat.

The very handsome lot of silver cups and medals were publicly distributed to the successful contestants on the closing night of the show. (For awards see last issue).

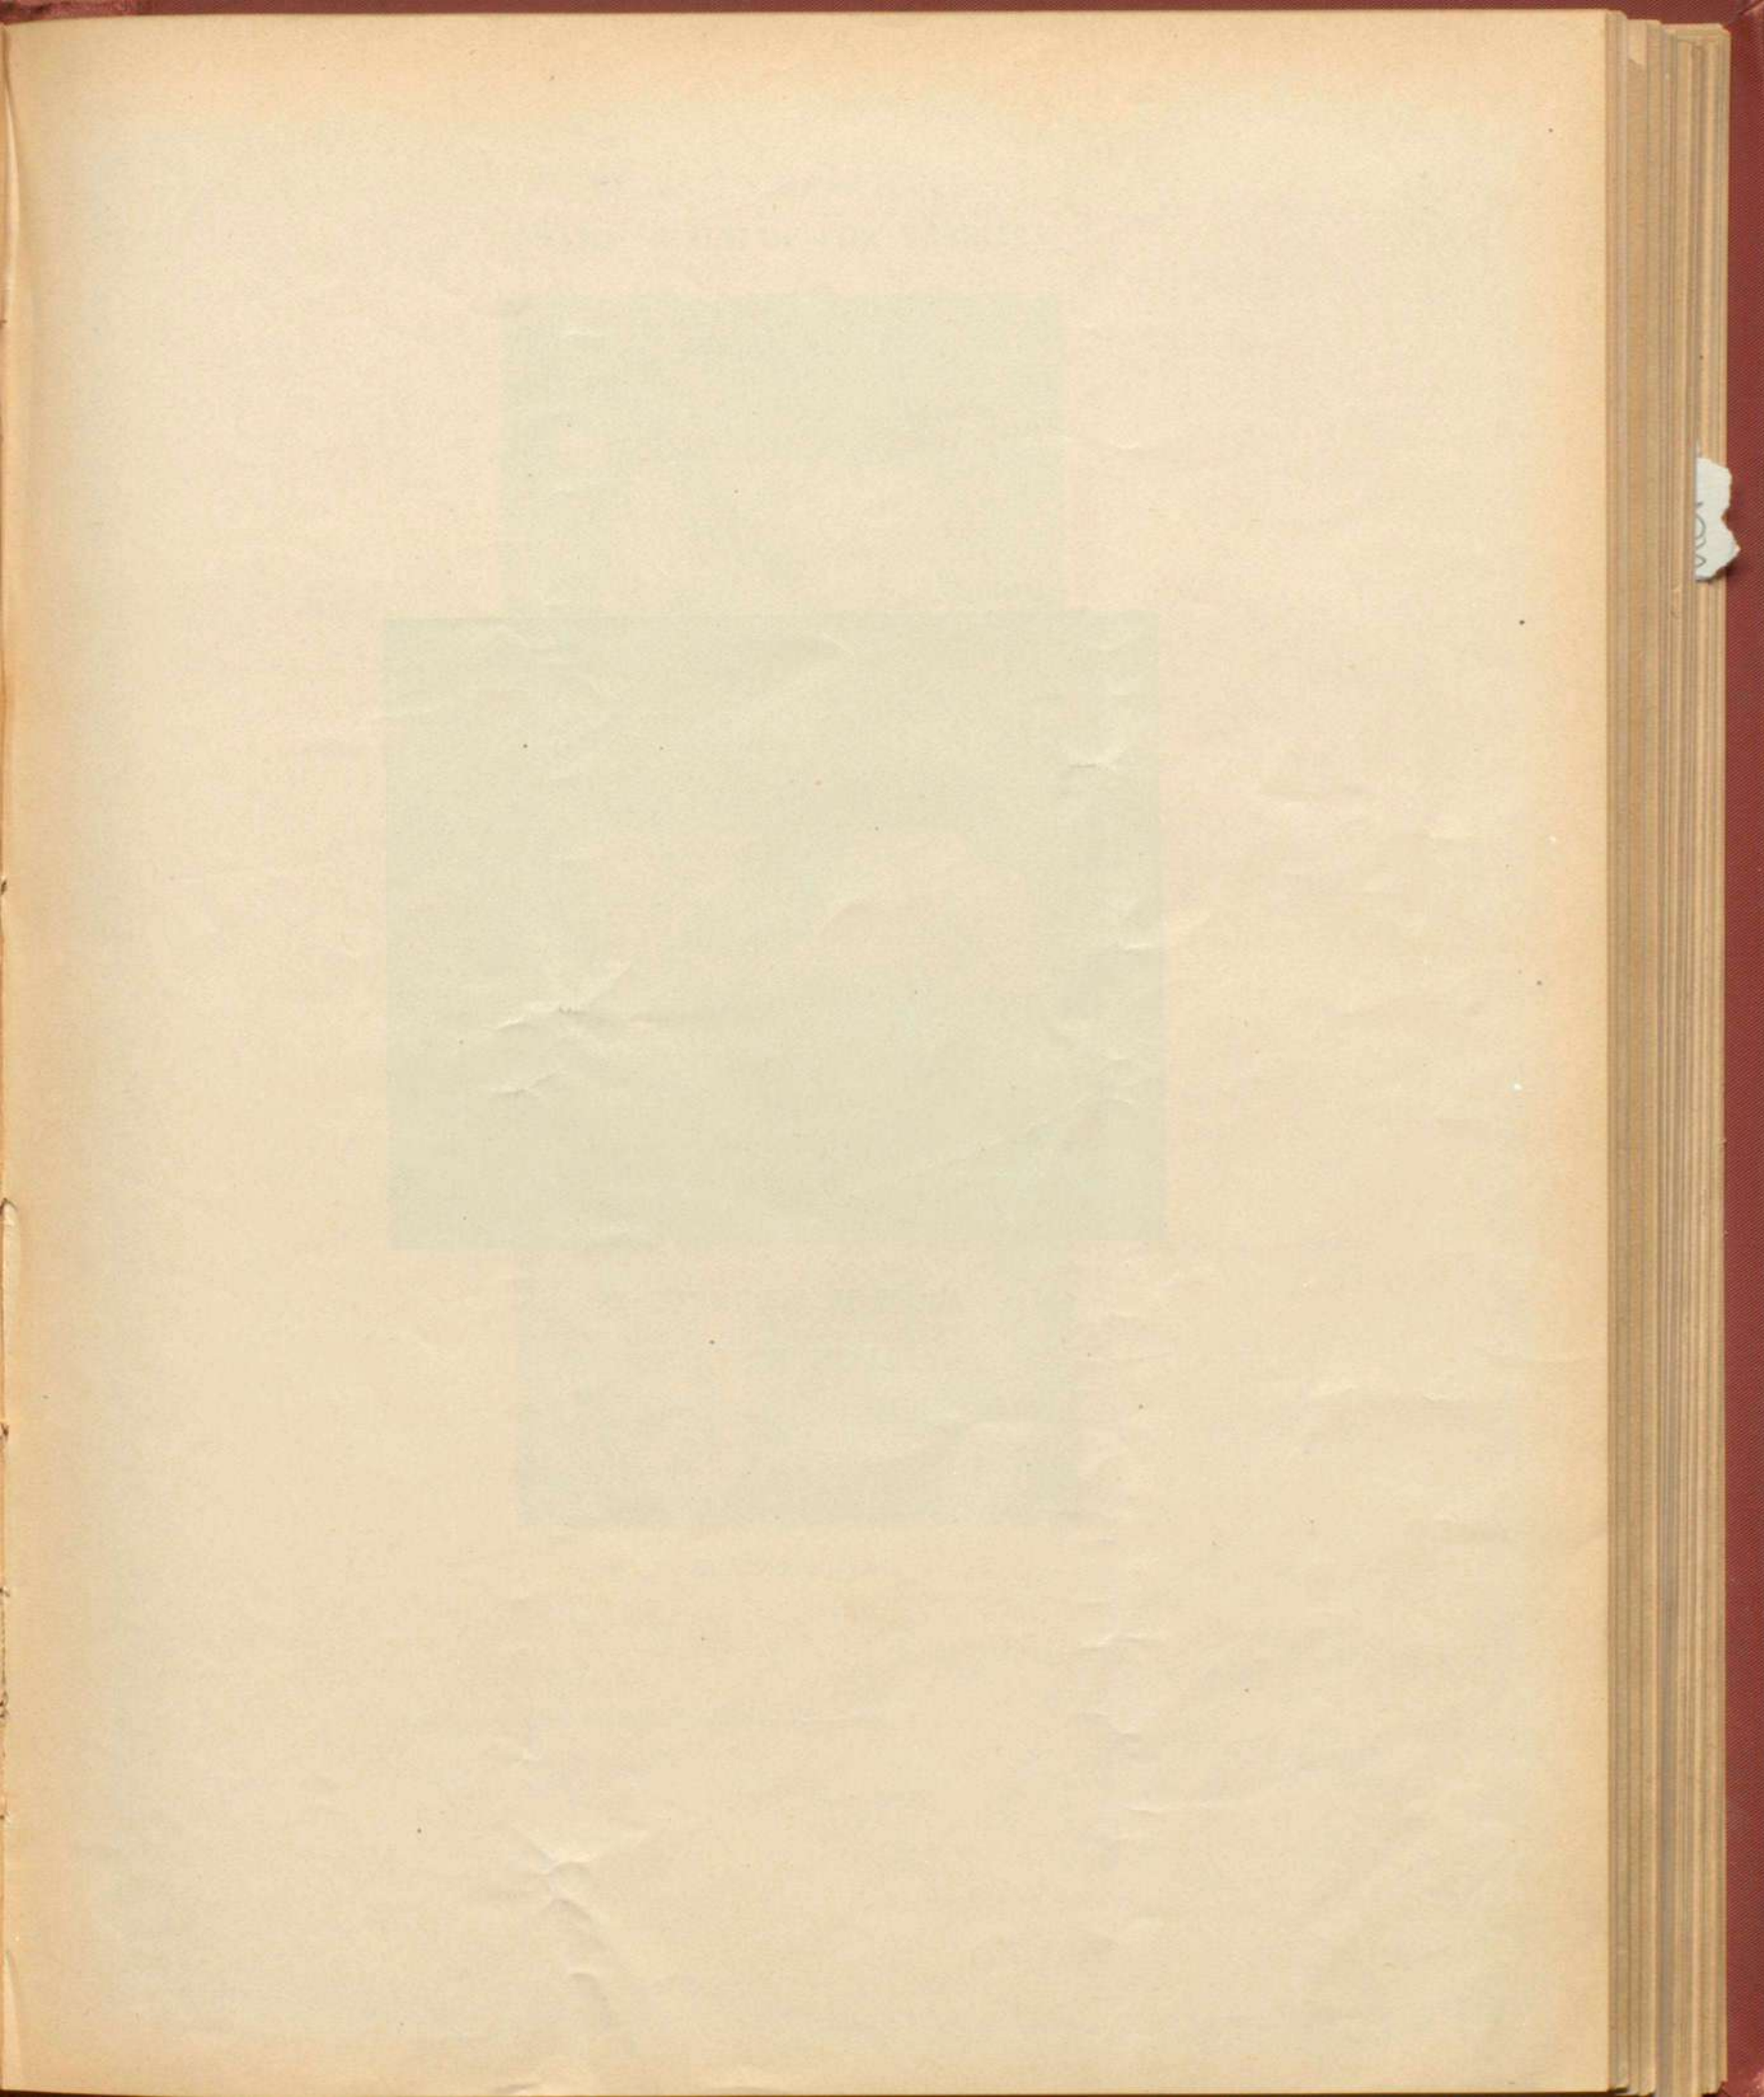

#### THE HAMILTON SUPERINTENDENT.

IN your report of Gore Kennel Club show, you give Mr. Tulk credit for being Superintendent of same which is a mistake on your part.

Mr. Carley was Supt. and Jas. Hughson assistant Supt. Kindly correct in your next GAZETTE and oblige.

## TERRIER TALK.

We invite items of news, correspondence, etc., for this department.

**N**EWMARKET Kennels report a nice litter of Bull Terriers by Champion Woodcote Wonder and Newmarket Nettle,—four dogs and five bitches.

Mr. Jeffs is offering some nice puppies for sale by the wire, Risk.

Mr. G. W. Price has sent us a nice photograph of his recent importation, Dalby a Despoiler dog.

Mr. Laurin has bred Imperial Totterina, his Jackanapes—Milton Droleen bitch, to the crack Endcliffe Muddle.

Bayview Kennels are offering a nice lot of Bull Terrier puppies by Bayview Bob that should go quickly as prices are moderate.

Veracity blood is not being used any too freely in Canada, and a dog that can produce a Victorious should be good enough for any kennel.

*Stock-Keeper* "whispers" that Mr. Jas. Llewellyn-Hughes has despatched a brace of Strangeways Fox Terriers to a gentleman in Montreal.

Mr. Kellie's Scottie bitch was shot a short time ago by some of Westmounts young bloods. This may be fun for the boys, but others may take a hand in.

Saanich (pronounced Sanitch) is the prefix registered by Mrs. Bradley Dyne for her kennel of terriers. It refers to the district in which the kennels are situated.

Airedale Kennels, Montreal, are making a specialty of this rough and ready customer, and those who want a fearless companion fit for any

work would do well to look into the merits of the Airedale.

Mr. Macdonald offers a lot of young stock for sale from some of the best sires of the day, including M. Bristles, President, Vis a Vis and Aldon Quæstor. Included are several nice wire bitches by the latter.

Mr. Jos. A. Laurin is on the right track in his breeding operations. His procedure is to procure the best bred bitches possible and breed them to the most suitable stud dogs irrespective of cost or ownership. By continuing in this methodical plan he is bound eventually to breed specimens of the highest type.

Mr. S. Britcher has just sold the well-known Bull Terrier bitch, Newmarket Syren, to H. J. Hoover, Newark, O. She will be shown in Philadelphia and New York this month in charge of Ben. Lewis.

He has also sold Newmarket Wonder to C. Y. Muenchinger, Newport, R.I., and Newmarket Beauty to T. T. Michaud, Duluth, Min.

Dr. J. S. Niven, who has just returned from a trip across the ocean, sends us a line about Irish Terriers that is of interest. He writes: "I saw several very nice Irish Terriers about the right size and well coated. I fancy in a few years the big, overgrown ones will be out of the market, as the breeders are trying to get them down under twenty-five pounds."

Mrs. Bradley Dyne's terriers, both Scottish and Irish, are now offered for use in the stud. Though far distant from Eastern doggy centres there must be many on the coast who will be glad to avail themselves of the services of such well bred animals.

The Scotties are Saanich Nipper, a champion Kilmarn dog, just imported, a black with grand head and

front, and Saanich Jim, a brindle, of Rascal and Kildee blood.

The Irishman is a grandson of Breda Mixer and is a winner in England of eight prizes.

Fulsome praise of Mr. Carnochan's grand brace of Terriers, Claude Duval and Champion Go Bang, would be something like "sweets to the sweet." Both dogs are so well known and have attained such an international reputation that little new can be said of them. Both the pictures we present are life-like and from actual photographs. Mr. Carnochan offers bitches for sale in whelp to both dogs for fifty dollars each, and of course Claude Duval and Go Bang remain at stud together with the other excellent dogs in this big kennel.

Aldon Ecstasy, like so many of the winning wires in this country, owns Aldon Quæstor as her sire. Her dam is Wellingboro Rapture, which Mr. Macdonald imported through Mr. Vicary from C. Bartle, of Wellingboro. Rapture's sire is Wellingboro Clinker, a son of the famous W. Teaser. Her dam, Nettle, is by Banker, the grandsire of Cauldwell Nailer, ex-Wallaston Thistle, own sister to Brittle. Ecstasy thus represents the very valuable combination of the best smooth blood—Venio and D'Orsay—with a strain of wire blood excellent in itself, and also from the fact that it is a complete outcross for Bristle's blood.

Ecstasy made her first appearance at the Toronto Show, in September, where she won first puppy and Canadian classes, second novice and limit and reserve open. She also won two C.F.T.C. and one A.F.T.C. specials.

I return per registered mail manuscripts of pedigrees of Irish, Scottish, black and tan, Airedale, Bull Terriers and Bull dogs. I went through them carefully and detected no flaws. The plan of overlooking the pedigrees is an excellent one. It must widen

the interest taken in different strains. For my own part I will keep a sharper lookout for the different breeds than ever I have done before. You will regret to learn that I have lost my Irish Terrier bitch Iris. She was one of the brightest and most attractive creatures of her breed that I have ever known. She was whelped in Dublin, Dec. 1st, 1897, and had for her sire the great dog Champion Breda Muddler. Shortly after she landed on this side she had a dispute with a bitch much larger and heavier than herself and came out of it more dead than alive. She was carefully nursed for months and got over it with nothing more than a contracted hind leg. If she is alive she will find her way back as she left six young pups behind her. It is likely she has fallen into the hands of the poison fiend.

I am yours faithfully,

THOS. GEOGHEGAN.

Hamilton, Oct. 28, '99.

The tempting announcement of the Norfolk Kennels should lead to a quick disposal of the good dogs this famous kennel has for sale. It is a case of "you pays your money and you takes your choice." A prize winning stud dog may be secured, an excellent brood bitch, or a puppy of either sex. The utmost satisfaction will be given and of course it is unnecessary to say that no qualms need be felt in sending funds. Buyers will get exactly what is described.

The three winning stud dogs, Norfolk Speculator, Tenacity and Tartar, are included in the draft and are offered for no other reason than that their room is needing for growing stock.

The draft of show terriers from Mr. Geo. H. Gooderham's Norfolk Kennels that visited the recent New England bench shows returned in charge of handler Charlie Lyndon, with a big string of victories to their credit. The list is:—

At Danbury, Conn.: Champion Norfolk Victorious, first open and

winners, and special for best American-bred, and special for best in show; Champion Norfolk Handicraft, second open; Norfolk Story, first puppy, third novice, third limit; Norfolk Clorita, first puppy, first novice, third limit; Norfolk Ruffian, first novice; Norfolk Tartar, second limit and second Home-bred Puppy Stakes.

At Providence, R.I.: Champion Norfolk Victorious, first open, first winners; Champion Norfolk Handicraft, first open, first winners; Norfolk Clorita, first novice, first limit; Norfolk Story, first novice, third limit; Norfolk Ruffian, first novice; Norfolk Tartar, third open. Victorious also won the specials for the best American-bred and for the best in the show, and the kennel prize for four.

It is worthy of note that every one in the list, with the exception only of Handicraft, was bred in the Norfolk Kennels, and this is what Canadian breeders should aim at. A home bred winner has an added value in the eye of every owner.

#### CANADIAN FOX TERRIER CLUB NOTES.

Yours respectfully,

FRED W. JACOBI,  
Sec. Treas.

#### A FEW GENERAL IMPRESSIONS OF TORONTO SHOW.

THE question ever to be asked is, Are we advancing? As compared with five years ago my impressions are briefly as follows:

While Mastiffs are few and weak, St. Bernards are of a better type than formerly, and some of the best are shown by Canadians. Great Danes are not as bad as they once were though still poor.

The exhibition of Fox Hounds is a record one not only for Canada but for America.

Beagles are of a much better type than formerly, but still not equal to the Foxhounds on the whole.

Pointers and Setters have, on the whole, declined both in numbers and quality.

The type of the Irish Setter is much improved especially in head. At last the domed skull has been reached.

Spaniels, especially Cockers, are nearer what nature demands in a dog to be used for hunting. But in some of the winners even there is a form of muzzle that is suggestive of the Setter or Field Spaniel rather than the Cocker. This is not in accordance with any standard present or past, and should be eradicated.

Collies have not improved as they should. More judicious breeding and more elimination is called for still.

Bull Terriers are doing fairly well, but there is still room for great improvement.

Irish Terriers are much nearer the general type and size to what they should be than a few years since.

Skyles have improved.

Dachshunds are better, being more even in quality and nearer to the correct type.

Fox Terriers are wonderfully good. It is as hard to find a poor one now as a good one a few years since. This breed is now in a condition that would be a credit to any country. Most of the winners are of a decidedly sound type. The breeders of this variety of dog deserve unlimited credit for their enterprise, study and perseverance.

In the other terriers and in the toy dogs Canada is still very weak.

The management of the show was excellent, and the superintendent obliging and courteous.

## OBJECTED TO ADDRESS.

Practical Joke caused the Dog Fancier to Change Front.

The following has so tickled Fred Miller's risible faculties that he thinks others should see it and so sends the clipping to Gazette.

A LaSalle Street man devotes some of his leisure time to tracing the lineage of well-bred dogs. He is certainly what would be called a "fancier," and as a student of dog genealogy he is said to be so well informed that if you give him a hair plucked from the back of a dog he can trace the family history of the animal back to the time when the two dogs trotted across the gangplank and took the places assigned to them in Noah's ark.

He is the owner of several valuable animals, and according to custom he has a name for his collection. He calls it the "Clover Island Kennels." The dogs are kept at a suburban town, but all mail relating to the kennels is delivered at the owner's home address. He is living at a fashionable and exclusive boarding-house in Hyde Park. His return envelopes were printed: "Mr. J. B. Black, Clover Island Kennels, ————Avenue, Chicago, Ill."

When the first of these letters arrived at the boarding-house the landlady boiled with indignation. She said that she would permit no one to speak of her home as a "kennel," and she insisted that her tenant discontinue the use of the envelopes. He tried to mollify her, and assured her that no one would get the impression that the "Clover Island Kennels" were at the address set down below.

He was wrong, however, as was proved by the postal card which arrived several days later. She took the landlady's privilege of reading the postal, which said that the writer wanted his pets put away for safe-keeping during his absence from town, so he would take the liberty of sending his four bulldogs, his Great Dane and his mastiff pup to the "kennels" on the following Monday. The landlady waited, with fire in her eye. The frightened boarder telegraphed the man not to send the dogs and promised to call in the envelopes. There was no danger, because the postal card was a joke put up by another boarder, but the joke resulted in the calling in of all the envelopes.—Chicago Record.

## SOME NICE THINGS SAID ABOUT THE C. K. C. MEDALS.

WE present this week illustrations of the new Canadian Kennel Club medals which are being made in England. They are handsome in design and will be of the value claimed for them.—*Turf, Field and Farm*.

The reproduction of the two sides of the new Canadian Kennel Club medals in this column, shows a very handsome piece of work, and quite appropriate to the object in view. These medals were made in England and the first batch arrived about the end of the Toronto show. Naturally they were much admired. It is the intention of the C. K. C. to offer these medals at different Canadian shows, thus encouraging a

spirit of emulation that is bound to do much for the dog in Canada. The club is not a wealthy organization but evidently it believes in returning to the breeders some portion of the financial goodwill extended by them to the club.—*American Stock-Keeper.*

We publish elsewhere engravings from photos of the silver and bronze medals offered at bench shows under Canadian Kennel Club rules. The design is very handsome, and the medal has been received with much favor.—*American Field.*

## SPANIEL SPARKLE.

NOTE—We invite items of interest, news, etc., for this department.

### WILLARD'S MEASUREMENTS.

IN reply to the request in last issue Mr. Farewell kindly supplies us with the following particulars regarding his grand dog, Willard:—

Tip of nose to point of occiput, 8 inches; tip of nose to eyes, 3½ inches; body (occiput) to set on of tail, 22 inches; head (in front of ears), 13¼ inches; neck, 14 inches; chest, 21¾ inches; arm, 6 inches; height at shoulder, 12½ inches; ears, tip to tip, 19 inches; weight, 25 pounds.

Mr. Jeffs reports a litter of five by Willard out of Lady of Quality. Three are reds and two blacks.

It is also on the tapis to send a strong contingent to New York to pick up what is going in the way of prizes.

Mr. Farewell promises us a photograph, for reproduction, of Willard in the near future. The dog will also be placed at stud.

The Canadian Sporting Spaniel Club propose holding a local meeting soon to prepare matter for the sweepstakes. This will likely be done before the advent of the new year.

## FIELD DOGS.

SETTERS, POINTERS, HOUNDS AND BEAGLES.

### TO FOXHOUND ADMIRERS.

HAVE often thought, while perusing the GAZETTE, in quest of doggy lore, Hound news in particular, why it is no one individual or the readers in general, Foxhound fanciers particularly have no information to impart in any shape or form, in reference to their own or their neighbor's Hound. Why is it? Surely they deserve recognition!

The Terriers, Collies, Spaniels, even the little Dachshunds, not omitting the larger breeds, all have their advocates or clubs, who manage to keep those breeds before the public, not only by words, but by actions.

Why should the grand old Foxhound, the only breed of dogs that trace their pedigree back for over one hundred years, be without active admirers?

We fanciers, know the Foxhound

is rapidly coming to the front in Canada. A visit to any of our dog shows will fully convince one as to the substantiation of this fact. I have reference here, to the quality, as well as numbers. Although we have the usual nondescript in hundreds, the general average of improvement is very marked. The Foxhounds of half a dozen years ago, with a few exceptions, would fare very badly with the present class of Hounds, both English and American, and speaking metaphorically, the nearer one breeds to the English Foxhound the nearer one is getting to the American Hound.

All this improvement has not come about of its own accord, time, trouble and a great deal of expense, has wrought the change.

It must be a great pleasure to those few individuals who have been, and are to-day, the mainstay of the breed, to feel a great deal is due to their efforts.

The general idea with a great many breeders who are not exhibitors, is to breed for head and long ears, and from this cause more particularly than any other, we have the nice Hound to look at but so awfully disappointing to the novice, after he has been induced by some enthusiastic fancier (of some other breed certainly), to exhibit it at the local dog show. Then of course he finds out the good qualities and more particularly the bad, which are so numerous to the judge, that the exhibitor usually comes to one of two conclusions, he either accepts the verdict graciously, feeling he has learned something from comparison, or he thinks that the judges are crazy, and don't know a Foxhound from a short eared Pointer.

I have been through the mill, and I might say right here, that with a few exceptions without a good standard, it is hard for almost the best of judges to give entire satisfaction, the same as in other breeds. However judges and judging are foreign to that which I wish to write about.

I had the pleasure of speaking to most of the Foxhound fanciers whom I met, exhibitors and non-exhibitors, at the Industrial exhibition show this September, re a Foxhound Club, and it seemed to all feasible and desirous if it could be got into working order. That's the trouble, the ball has to be started rolling, and it devolves on some one or a few to give it the impetus.

I think the fancy would be pleased to hear from Guelph, that is and has always been a good Hound town, headquarters of Mr. Jack Gibbs, an old and experienced breeder, also Mr. W. H. Williams, Pembroke; Mr. Wm. McEwan Jr., Hull, P. Q.; Mr. Patterson Jr., Barrie; Mr. Fred Habart, Toronto; or any other fancier. The villages, towns and cities of Canada, Ontario particularly, are full of Hound fanciers, what do you say for a Foxhound Club? Let's hear from you, gentlemen. I would like my friend Dr. Robinson's opinion. He has been very unfortunate, through circumstances over which he has had no control and he has had to part with all his Foxhounds, but I know his love for them remains the same, and it may be possible to see him surrounded with his favorites again.

I feel assured the genial editor of the GAZETTE will give us a corner in his interesting journal to air our views and by doing so, help further

the interests of the good old Foxhound.

HARRY TAYLOR.

Toronto.

There are so many who breed, use and show Foxhounds that Mr. Taylor's suggestion that a club be formed for the furtherance of the breed should meet with ready support. Of course we shall be only too glad to assist in any way.—Ed.

### ENGLISH SETTERS AT THE INDUSTRIAL.

HAVE been passing away the time looking through your comments on the late bench show at Toronto. If permitted I would mention in response that for over two score of years I have spent some of my time with gas tube in hand and a faithful companion of the canine race looking through the cover out in the open to see what they would yield to my liking, and here is where you cross my path when you give out that the English Setters were a poor lot.

I have for years adopted this kind of dog to my use, and thinking if I would get the right combination not the one Perie had a hand in at Napanee but of champions Paris and Lill, London and Nell, Canadian Jester, Dick Laverack &c., I would be in it, and as well as following my old pleasure, could go in for showing off. But here seems to be the mistake of a life-time, the "Snowflake on the River," the "Rainbow Evanescent amidst the Storm." When I presented my certificate of identification the employe told me to go elsewhere, I was in the way, yes, really in the way. Bull Dogs, Terriers, wire hair Ter-

riers, Fox Terriers, the greatest nuisances on earth, seem to be up, and there was no show for me to get to the great banquet. With an English Setter not worth mentioning, blood don't count in dogs just now.

The Indian said at the end of his speech, "I am done." What will I do now? Bid farewell to bench shows, go back to my gas pipe and companion, wander off to some retired spot. Yours &c.,

J. J. B.

This must certainly be "our day off" for we cannot for the life of us understand what our correspondent is driving at. He surely cannot compare the English Setter classes at the late show with those of six, eight or ten years ago. Blood lines, as blood lines only, are no use in the show ring, there are hundreds of champion bred dogs of all breeds that for show purposes are not worth a dollar a dozen. The judge is not supposed to know anything of the breeding of the dogs brought before him for competition, his awards are all made on bench show form and individual excellence and these points only.

Any discourtesy by the attendants should have been promptly reported to the Superintendent. It is bad policy to seek to advance one breed by decrying others and "J. J. B." alludes to a private supper, that should not be made a matter of public controversy.—ED.

Dr. F. G. Hutton of Welland has bought the Pointer bitch Daisy H., from Mr. W. C. Patterson of Lock-

port, N. Y., and has bred her to a good dog in St. Catharines. Daisy H. is by Duke Dashaway out of Nollie, is white liver and ticked and just one year old.

We are desirous of publishing several half tone engravings of Setters, Pointers and Hounds, and invite correspondence from owners, those having typical photographs particularly.

The Irish Setter bitch Red Bud Finglas, was stolen from her stall at Providence. Ben Lewis says the thief left the chain.

### NOTES FOR NOVICES.

NOW that the sporting season is in full swing it will perhaps be useful if we give some hints in this column upon the different troubles which are met with amongst field dogs. The averaged dog that is shot over does not by any means have an easy time. He not only has to run the risk of stray shots, but he is liable to a good many little injuries caused by thorns and other obstacles which will necessitate proper treatment unless the animal is to become incapacitated. Spaniels especially are liable to ear canker, which is caused often by thorns which penetrate the ear and set up inflammation. On arriving home at night the Spaniel should be carefully examined, and all foreign matter should be removed from his coat; if there is any sign of injury the place should be carefully washed with some antiseptic lotion and a

little suitable ointment be applied afterwards. This ear canker is not infrequently caused by the very cruel practice of pulling the Spaniel by the ears. We need hardly say that such treatment should be strongly discountenanced, as not only is it very painful to the victim, but apart from that it is likely to permanently destroy the dog's hearing, consequently he would be rendered useless for field purposes.

Lung troubles are very often caused by dogs being neglected after a wet day's work in the field. A dog should never be allowed to return home after a day's work in bad weather without being thoroughly dried and groomed before being sent to his kennel. This is especially the case in regard to asthma. The dog is allowed to turn in at the end of a soaking damp day without the least attention. What wonder then if he becomes a victim to asthma or to rheumatism or to some other complaint in consequence? A little time devoted at evening to the wants of the Spaniel will not only keep him free from asthma and other complaints, but will also improve his general appearance, which is reduced to roughness and raggedness by working in hedge bottoms.

The ordinary cough should not be neglected, as it is the most common precursor of asthma; and the dog who begins to cough should not be allowed to do field work until he has quite got rid of the complaint. If he be, it is quite certain that he will soon be incapacitated, and it is a wise economy, therefore, if the dog

be valuable, to deprive onself of his services for a short time, instead of running the risk of losing him altogether. A good mixture which will always relieve an ordinary cough in dogs can be made as follows:—Glycerine two parts, oxymel of squills four parts, paregoric elixir one part. To be well shaken. Dose (for a Spaniel), a small teaspoonful when required. Some dogs have a continual cough, which is more in the nature of a stomach cough, often left by distemper. This is best treated by giving stomachics such as rhubarb and ginger, and it must not be confounded with a cough caused by colds or lung disease.

An established case of asthma must be treated by placing the animal in a moist warm atmosphere, which is best managed by transferring him to a room where a bronchitis kettle can be kept steaming. A teaspoonful of strong carbolic acid should be put into the bronchitis kettle before it is set boiling. Medicine similar to the cough medicine named above can be given as often as necessary to afford relief; but we have more faith in the careful keeping up of the moisture than in any medicines. Should the dog appear very feverish (it would be evidenced by great thirst) a little "minderer spirit" should be obtained, a few drops of which in a little water will act beneficially, as will also a small quantity of the Homœopathic tincture of aconite. In some cases it may be well to resort to poultices on the front and sides of the chest, or in lieu of poulticing flannels dipped in hot water and sprinkled with a little turpentine may also prove service-

able. It may be as well to add that we are using the word "asthma" in a very broad sense; as a matter of fact it is more likely to be bronchitis in the case of a sporting dog—asthma being really a chronic form of bronchitis caused by oft-repeated attacks rather than by a sudden cold. However, the treatment both for asthma and bronchitis is similar, and we need not differentiate between them here.

### COLLIE CHAT.

**M**R. R. S. KELLIE reports that one of his Collie bitches was killed by being run over by the electric cars a few days ago. That makes three in two years, and as he thinks this is a little too much he intends to test the case in court.

Messrs. Bicknell and Whiting, of Buffalo and Darien, N.Y., have bought the imported Collie dog Tartan, winner of third at the late Toronto show. Three good bitches are inmates of this kennel and Tartan will be used as a mate for them.

Mr. Duncan, who is now, by the way, living in Norwich, was in Toronto on October 13th en route for Belleville and gave us an amusing account of his trials and tribulations in chase of his lost (stolen) Collie, which he eventually recovered. He also writes us.

Got trace of the Collie, Heatherbloom, Saturday night and she arrived home to-night, after a hot chase with a detective to London. She was stolen on the 10th August and shipped away from here only a week ago, being kept here for a reward. I found her about fifty miles west of London, and got the railway man who took her away on the train, who acknowledged he had her, but said she was given to him by a "little boy" who had her on a string. I shall trace the matter and find the "little boy" and prosecute him.

G. G. DUNCAN.

We hope for the good of the community the "little boy" has been found.—ED.
