## Fox Terriers,

Sired by "MEERSBROOK BRISTLES," "President," (by "M. Bristles"); "Vis a Vis" (by "Venio"); and "Aldon Quaestor," (by "Venio.") These Terriers are from three to nine months old. They have been bred and reared with the greatest care, and are all in the best of health and condition. The lot includes some very promising young wire bitches by "Aldon Quaestor," out of bitches representing the blood with which the latter has been so successful

The Puppies by "President"  
are eligible for Mr. Caldwell's \$100 Prize.

## WE WANT YOU ON THE LIST OF The DOG FANCIER

Published monthly at 50c. per year.

AN EPITOME OF DOGDOM.

The DOG FANCIER is a clean, well printed magazine devoted exclusively to man's friend and natural pet—the dog. It is a publication that every member of your family will delight to read and one that you can safely and cheerfully carry into the drawing room. Subscribe for it and contribute your mite toward extending a true knowledge of man's relation and duty to the dog. (Send us addresses of your friends who are interested and we will mail them specimen copies). Published by Eugene Glass, Battle Creek Mich., U. S. A.

#### PEDIGREES CANCELLED FOR INCORRECTNESS.

English Setters 4942, Nelson's Pride 5069, Lady Glenwood 5070 Hamilton, owner Henry Leavens, Boston, Mass., U.S.A.

## NOTES AND COMMENTS

Mrs. Geo. S. Thomas, Hamilton, Mass., has registered "Endcliffe" with the C.K.C. both as a prefix and as a kennel name.

Stock-Keeper reports that Mr. L. P. C. Astley has finally decided that his engagements will permit of his accepting the W. K. C.'s invitation to judge at New York in February.

Mr. Laurin reports that Tottina begins to show "signs" of her recent visit to Endcliffe Muddle. His Airedale bitch Tillie is soon due in season and will be bred to his young dog Rustic Rush who is so highly spoken of.

Mr. Percy Ward of Kamloops, B.C., has imported two Borzois from England, of good breeding, typical specimens. We hope for particulars for next issue.

Mr. A. P. Mutchmor, Ottawa, in sending us the names of a quartette of new subscribers to the Gazette informs us that the Ottawa Kennel Club is not by any means dead but is simply laying low just now. There appears to be no doubt but that a show can be arranged for next fall, to be held in connection with the Central Canada Exhibition.

We had a meeting of the Executive of the Montreal Canine Association on Thursday, 7th inst., and a lot of very important business was transacted. We decided upon falling in line with the Western shows, and the Secretary

was instructed to inquire from Mr. Jacobi what dates Toronto was thinking of claiming. Mr. J. A. Pitt was elected President of Bench Show Committee on which all of the eleven directors are acting, and, at a subsequent meeting we intend to add some of the Western gentlemen.

JOS. A. LAURIN.

What has happened our Collie men? They are particularly quiet just now. Mr. Reid supplied a third puppy winner at New York in Logan's Oscar, while he retained same position in "Canadian or Western" class. Logan's Apple Blossom was fourth in novice American bred bitches and fourth in "Canadian or Western" class.

At the same show Mr. Ford's Pug, Otterburn Dora, was first novice and second limit, while Mrs. Pitt's Blenheim Little Swell won three firsts in novice, open and winners.

Mr. Laurin reports the shares of the Montreal Canine Association have almost all been paid up and we have elected our officers which are: Hon. Presidents, Geo. H. Gooderham, Toronto, and G. M. Carnochan, Riverdale-on-Hudson, N.Y.; President, Jos. Reid; Vice-President, A. H. Hensey; 2nd Vice-President, D. Crawford; Treasurer, Jos. A. Laurin; Secretary, F. C. Saunders, Imperial Bldg., St. James St., Montreal. Board of Directors:—Jas. Lindsay, J. A. Pitt, Jos. Quinn, R. S. Kellie, Wm. Henry, Alex. Smith, S. P. Howard, John Cumming, A. H. Sims, Alex. Robertson and H. B. Hungerford.

We learn that a new regulation

is to be or just has been enforced by the express companies and that is that every dog shipped in a box must be securely chained inside the box or crate. What nonsense! We would advise the companies to compel dogs transmitted to their care to be confined in burglar proof safes with police guard attached, they might then arrive in safety at their destination. This is but further evidence that the companies care little for the interests of shippers and is proof that the drawer up of the regulation does not know what he is writing about. Imagine a three months old puppy crated and "securely chained" to the inside of his box!

Borzios at Philadelphia got rather turned round where Koudar won and Kyula was but reserve with two fair ones second and third. Kyula should have won, so the experts in the breed state.

A one day show will be held in Petrolea on Thursday, December 28th, in connection with the show of the Petrolea Poultry Association which is being held that week. The dogs go in before 9 a.m. and leave at 10 p.m. No money prizes are being offered and so no entry fee will be asked. The classification in all cases is dog or bitch, in puppy and open classes, and the following breeds are specified: Mastiffs, St. Bernards, smooth, St. Bernard, rough, Newfoundland, Great Danes, Russian Wolfhounds, Deerhounds, Greyhounds, Foxhounds, Pointers, English Setters, Irish Setters, Gordon Setters, Spaniels, Collies, Poodles, Bull Dogs, Bull Terriers, Boston Terriers, Irish Terriers, Skye Terriers,

Bedlington Terriers, Scottish Terriers, Welsh Terriers, Airedale Terriers, Black and Tan Terriers, Dachunds, Beagles, Fox Terriers, (smooth), Fox Terriers, (wire), Yorkshire Terriers, Pugs, Dalmatians, Miscellaneous (over 25 lbs.), Miscellaneous (under 25 lbs.).

## MONTREAL CANINE ASSOCIATION, LIMITED.

WHAT IS PROPOSED—A SHOW NEXT SPRING.

*Editor Gazette:*

As Secretary of the Montreal Canine Association I write to keep you informed of the doings of the Association. As you are doubtless aware we have been incorporated into a civil corporation with liability limited to the subscribed stock. This now amounts to about \$500 with good prospects of a speedy increase.

Everything promises success for the Association. The Executive have already had several meetings and have adopted a constitution and by-laws which will be submitted to the first general meeting for ratification, after which they will be printed and distributed. The Executive have also decided to have the Association's first grand show next spring so as to fall in with the Toronto and Hamilton shows. If you would notify me of the dates of these shows as soon as they are made known it will help us in making our arrangements. Yours very truly,

T. C. SAUNDERS,

Hon. Sec. M.C.A.

Montreal, Dec. 9, 1899.

[We shall be most happy to hear frequently from Mr. Saunders and to know matters progress favorably with the M.C.A.—Ed.]

## THE POMERANIAN.

**A** GREATLY increased interest is at present being displayed in the Pomeranian, especially in the United States, where many importations of high class dogs have been made. The "Pom" is most popular in England, and as a ladies' dog is unexcelled, being fairly hardy, sprightly, wise and "jolly."

The following is the standard and description drawn up by the club devoted to the breed:

"Appearance.—The Pomeranian in build and appearance should be a compact, short-coupled dog, well knit in frame. His head and face should be fox-like, with small erect ears that appear sensible to every sound. He should exhibit great intelligence in his expression, docility in his disposition, and activity and buoyancy in his deportment.

"Head.—Somewhat foxy in outline, or wedge-shaped, the skull being slightly flat (although in the Toy varieties the skull may be rather rounder), large in proportion to the muzzle, which should finish rather fine, and be free from lippiness. The teeth should be level, and on no account 'under-shot.' The head in its profile may exhibit a little 'stop,' which, however, must not be too pronounced, and the hair on head and face must be smooth or short-coated.

"Eyes.—Should be medium in size, rather oblique in shape, not set too wide apart, bright and dark in color, showing great intelligence and docility of temper.

"Ears.—Should be small, and carried perfectly erect or pricked, like those of a fox, and, like the head, should be covered with soft,

short hair. No plucking or trimming is allowable.

"Nose.—In black, black and tan, or white dogs the nose should be black; in the colored Pomeranians it may often be brown or liver colored, but in all cases the nose must be self, not parti-colored, and never white.

"Neck and Shoulders.—The neck, if anything, should be rather short, well set in, and lion-like, covered with a profuse mane and frill of long, straight, glossy hair, sweeping from the under jaw and covering the whole of the front part of the shoulders and chest as well as flowing on the top part of the shoulders. The shoulders must be tolerably clean and laid well back.

"Body.—The back must be short, and the body compact, being well ribbed up and the barrel well rounded. The chest must be fairly deep and not too wide.

"Legs.—The forelegs must be perfectly straight, of medium length, not such as would be termed either 'leggy' or 'low on leg,' but in due proportion in length and strength to a well-balanced frame, and the forelegs and thighs must be well feathered, the feet small and compact in shape.

"Tail.—The tail is a characteristic of the breed, and should be well twisted right up from the root tightly over the back, or lying flat on the back, slightly on either side, and profusely covered with long hair, spreading out and flowing over the back.

"Coat.—Properly speaking there should be two coats, an under and over coat, and the other a long, perfectly straight and glistening coat, covering the whole of the body, being very abundant round the neck and fore part of the shoul-

ders and chest, where it should form a frill of long, flowing hair, extending over the shoulders as previously described. The hind-quarters, like those of the collie, should be similarly clad with long hair or feathering from the top of the rump to the hocks. The hair on the tail must be, as previously described, profuse and flowing over the back.

"Color.—The following colors are admissible: White, black, blue, brown, black and tan, fawn, sable, red and parti-colors. The whites must be quite free from lemon or any color, and the blacks, blues, browns, black and tans, and reds free from white. A few white hairs in any of the self-colors shall not absolutely disqualify, but should carry great weight against a dog. In parti-colored dogs the colors should be evenly distributed on the body. Whole colored dogs with a white foot or feet, leg or legs, are decidedly objectionable, and should be discouraged, and cannot compete as whole colored specimens. In mixed classes, i.e., where whole colored and parti-colored Pomeranians compete together the preference should, if in other points they are equal, be given to the whole colored specimens.

"N.B.—Where classification by weight is made the following scale, the most suitable division, should be adopted by the Show Committees:

- "1. Not exceeding 8lb. (Toys.)
- "2. Exceeding 8lb.

"Where classification by color is made, the following should be adopted:

- "1. Black.
- "2. White.
- "3. Any color other than White or Black."

**SPANIEL SPARKLE.**

NOTE—We invite items of interest, news, etc., for this department.

MR. JEFFS says that "Mr. Charlesworth did well at New York, killing two birds with one stone, attending the dog show and enjoying his honeymoon at the same time. This is a great combination and the Spaniel Club members will, I am sure, all join in wishing Mr. Charlesworth all the success in the world."

The Spaniel Club members held a meeting last night and talked over the sweep stakes and challenge prizes and recommended to their executive officers what they desired in this particular branch of Spaniel Club work and which will be taken up at the next meeting of the Executive Committee which will be held at an early date.

Mr. George Dunn, Mr. Douglass and Bay View Kennels were all in the money at Philadelphia in the Cocker classes.

The Toronto members will hold a small parlor show in the sitting-room of the Strand Hotel, Adelaide Street W., Tuesday evening, January 9th, at 7.30 p.m., with the following classification:

## COCKERS.

- Class 1. Open, dog, black  
 " 2. Open, bitches, black.  
 " 3. Novice, dogs, black.  
 " 4. Novice, bitches, black.  
 " 5. Open, dogs, any other color.  
 " 6. Open, bitches, any other color.  
 " 7. Novice, bitches, any other color.  
 " 8. Novice, dogs, any other color.  
 " 10. Puppies, bitches, any color.  
 " 9. Puppies, dogs, any color.

## FIELD SPANIELS.

- " 11. Open, dogs, and bitches.  
 " 12. Puppies, dogs and bitches.

## CLUMBER SPANIELS.

- " 13. Open, dogs and bitches.

## IRISH WATER SPANIELS.

- " 14. Open, dogs and bitches.

It will be purely a ribbon show and no entry fee will be charged. Mr. Piper is Secretary and Superintendent of the show and Mr. Jeffs will officiate as judge.

The members also expressed a desire to take a run up to Hamilton some evening and help the boys under the mountain in a similar way. So it is sincerely hoped the members will do what they can to make these little gatherings the success they deserve. They help pave the way for greater enterprise. All information will be given on application to Mr. H. Piper, Inspector of Weights and Measures, Toronto.

Canadians were much in evidence at the Pet Dog Club's show at New York, Mr. Carson having a winner, Dan McCarthy, in Irish Water and Mr. Charlesworth's Royal Swell taking second in Clumbers.

In Cockers Mr. Charlesworth made several wins with Prince Rupert, Roy and others while Bay View Kennel's Bay View Robin and Bay View Beauty both won firsts. We are glad to see Mr. Miller's dogs so well up in the lists. The "old timers" Geo. Douglas and Geo. Dunn both supplied several winners.

Mr. Aug. Chausse, Montreal, has bought four nice Cockers from Mr. Fred Miller, and intends to build up a strong kennel of this breed in the east.

Red Mack, we are sorry to hear, has had a leg broken. We sympathize with Mr. Douglas as it hurts a good representative of our reds which cannot be easily replaced.

We are indebted to Mr. Jeffs for several of the "pars" in this page. His modesty does not permit him to allude to the fact that at the coming show in January he will make his debut as a judge. Mr. Jeffs, we feel sure, will receive a bumper and probably those adjacent to Toronto would not feel averse to spending an evening amongst the local Spaniel breeders. Come and bring a dog or two.

**TERRIER TALK.**

We invite items of news, correspondence, etc., for this department.

## THE AIREDALE TERRIER.

AIREDALE KENNELS, Montreal, have sent out a neat descriptive circular of this breed, from which we extract the following:

This is the largest breed of Terrier yet produced. It has been kept in some parts of England,

# THE NORFOLK KENNELS

---

the home of the famous

## FOX TERRIERS

Champion Norfolk Veracity and Champion Norfolk Victorious.

### **GREAT SALE** of Fox Terriers both wire and smooth.

We will now dispose of several grand stud dogs, winners and of champion blood, including Norfolk Speculator, Norfolk Tartar, Norfolk Tenacity etc., etc.

Also prize winning **Brood Bitches** and others good enough to win. **PUPPIES** that will grow into money, of the best blood procurable, both sexes, wire and smooth. All information gladly supplied.

Write us for catalogue with photos, full descriptive list, etc.

---

**Address 504 JARVIS STREET,  
TORONTO, CAN.**

mostly in the North, for the past fifty years, though only recently acknowledged as a distinct variety. In the early days of his existence he was known as the Bingley, or Waterside Terrier. The valley of the Aire (in Yorkshire) being the chief centre of his popularity, it was at last decided that he should be called the Airedale or Waterside Terrier.

Birmingham provided him with a class at the National Dog Show in 1883 under this title. The second name, however, was soon dropped, and in 1886 he was given a place in the Stud Book as the Airedale Terrier, by which name he is now universally known.

Of late years he has been most carefully bred, and a high-class Airedale is to-day as perfect a "terrier" as can be found. This was proved when at one of the Oldham shows Rustic Kitty beat several well-known prize-winning Black and Tan Terriers for the special prize given for the best Terrier, Black and Tan or Airedale, in the show. And, again, when in 1891 the Airedale Terriers divided the honor of winning the cup for the best team of Terriers at the Crystal Palace Show, beating Fox, Irish, Scotch and other old-established breeds of Terriers.

The Airedale has come rapidly to the fore of late years, and now, in England, after the Fox Terrier, which comes first in numbers, he certainly appears to divide favoritism with the Irish Terrier. He has his admirers in America and on the continent, and is especially a favorite in Holland and Germany. He owes his popularity to his adaptability to almost every kind of sport.

A capital water dog and retriever, he is a first-rate workman on

shore, and when hunting along the banks of a river there are few dogs that can equal him, for his close, wiry jacket enables him to withstand the effects of the wet; whilst, being such a big dog, he is more than a match for any sort of vermin he may fall across.

Rats they will destroy as quick as one can wink, being almost as rapid in their movements as a mongoose; they will hunt rabbits with the zeal of a fox-hound or beagle, tree a coon and kill him when he drops, and to muskrats, water rats and weasels they are sure death. No hole is too deep in the water for them to follow their quarry; for hours they will work indefatigably, and woe betide the object of their search when found. In England, in addition to being used on vermin, they are taught to retrieve ducks, geese and swans, and on account of their size and strength no sea is too rough for them when in pursuit of wounded wild fowl. They are also easily broken to gun for covert shooting, and will drive sheep and cattle better than Collies, and when a badger is to be "induced" to come out of his box, the Airedale either brings him out, or is a dead dog.

In point of disposition no dog could be possessed of more qualities that endear him to his owner. He is far from quarrelsome with other dogs, is inclined to shun them when at walk; yet, let another dog dispute his right to advance, he is up and at it in a moment. Then his opponent must look to himself, however big or strong he may be. The Airedale's jaw, of wonderful length and punishing power, soon does its work, and he will die ere he turns tail. At home he is docile in the extreme, fond of children, and a good guardian and

obedient to a wonderful degree, which, coupled with an intelligence almost human, make him a most enjoyable companion.

The Airedale, moreover, possesses another great recommendation in the eyes of many dog lovers, this being the possession of a very hardy constitution, which causes little trouble to his breeders during the earlier stages of his career; and in this respect he certainly compares favorably with many other varieties. He stands any climate and is now established in India and the northern parts of Europe.

Altogether, he is one of the most useful dogs living and has a personality all his own.

The following are the points laid down by the Airedale Terrier Club in 1892: Long flat head, narrowing slightly to the eye; deep and powerful jaw with tight lips; black nose; small, dark eyes, not prominent; level teeth; long shoulders, sloping well into back; deep chest, but not broad; strong and straight back; perfectly straight legs, plenty of bone; small, round feet; high set-on tail (docked); hard, wiry coat, black or badger grizzle on back; dark markings on each side of skull; head and legs tan; ears darker shade of tan. Size, dog 40 to 45 pounds; bitch, 35 to 40 pounds.

#### A NOTABLE RECORD AT TWO BIG SHOWS.

*Editor Gazette :*

I have just returned home from Philadelphia and New York. At the Philadelphia Dog Show I won the following: Norfolk Story, second puppy class. Norfolk Rarebit, who created quite a sensation on account of his wonderful legs

and feet, first novice and second limit; Norfolk Ruby, first puppy and novice; Norfolk Clorita, first limit and reserve winners; Champion Norfolk Handicraft, first open and first winners; Norfolk Tartar, second open; Norfolk Outcast, the eight months old bitch by Norfolk Roughcast, first puppy, first novice, second limit, second open and reserve winners. We also won the kennel prize for the best four; two silver cups, given by the American Fox Terrier Club. The home bred puppy stakes was won by Norfolk Tartar. Mr. Caldwell's silver cup for the best smooth brace, American bred, was won by Norfolk Clorita and Norfolk Ruby, and the President's cup presented by Mr. Newbold (value \$100.00), for the best bitch in the show of any breed was won by Champion Norfolk Handicraft.

At the American Pet Dog Club Show, which was held in the Metropolitan Opera House in New York, we won the following: Norfolk Story, second puppy and second novice; Norfolk Ruby, first puppy and first novice; Norfolk Clorita, first limit; and Champion Norfolk Handicraft, first open; Norfolk Tartar, third open; and Norfolk Outcast, first puppy, first novice, first limit and second open. We also won the kennel prize for the best four; four silver cups given by the American Fox Terrier Club; the 13th grand produce stakes was won by Norfolk Clorita. We also won a silver cup for the best brace of Fox Terriers, wire or smooth, under eighteen months of age with Norfolk Clorita and Norfolk Ruby. Yours truly,

GEO. H. GOODERHAM.

Toronto, Dec. 12, 1899.

[Heartiest congratulations, do it again].—Ed.

## THE CANADIAN FOX TERRIER CLUB.

*Editor Gazette :*

I beg to remind you that entries for the first division of the Produce Stakes to be competed for at the Toronto Fall Show in 1900 close on the 13th inst.

The Committee are trying to make this stake of great value and I will be pleased to send you entry blanks and receive any entries that you may make. Also entries for the Derby Stakes close January 1, 1900. FRED W. JACOBI, Sec.

Mrs. Bradley Dyne has sold the Scottish Terrier Daddles, C 4718 to another B.C. fancier, Mr. Cecil Ward of Kamloops.

Mr. J. E. Conlon offers his new purchase, The Druid, at stud at a very moderate fee indeed considering his breeding, quality and record. He should do particularly well on rather coarse bitches either wire or smooth.

Mr. H. Cyril Hill has an Airedale dog puppy by the English winner Waterside Nipper out of Mr. Laurin's Tillie Slowboy that big things are expected of if all goes well in the rearing

Norfolk Handicraft was at the front at the Pet Dog Show, beating amongst other good ones the crack, Warren Detail. Other dogs from this kennel were well into the money.

Wentworth Brant, Mark O'Rourke's good Bull Terrier was second at New York in limit class. Mr. Taylor's black and tan, Canadian Duchess, occupied a like position in the open, beating Perfecto.

Doctor Rudolph, a recent purchase of Mr. F. W. Reynolds, is a capital specimen and being by Imp Dalcook Dividend ex Belvoir Bramble, his blood should be in request.

Mr. Fraser has sold that good little Terrier, The Druid, to Mr. J. E. Conlon of Buffalo whose fancy used to lean to Dandie Dinmonts. We wrote highly of The Druid in report of Toronto Show and we hope he will continue his past record for his new owner.

Highland Fling, the Scottie bitch imported and shown successfully by Mr. Fraser and latterly Mr. Gillies has been disposed of to a U.S. breeder.

Miss Tuck, Mr. Reynolds' smooth bitch whelped on November 28th a nice litter of seven, of which four are dogs, to Norfolk Veracity. They are big plump puppies and at last accounts were doing well. The bitch was fed on raw meat three times a day for six weeks before the puppies were due.

The Norfolk Kennels have lots of good things left despite the fact that enquiries and sales have been numerous during the past month. "Blood will tell" as evinced by the long list of wins taken by this kennel at the late shows in New York and Philadelphia.

Owing to Mr. Rutherford's inability to fulfill his engagement to judge Fox Terriers at Philadelphia Mr. Carnochan obligingly withdrew his entries and entered the ring. His awards were well taken. The Norfolk Kennels had a big

string down, and won all along the line, Norfolk Handicraft especially doing all that was asked of her, including the special for the best bitch—any breed—in the show. Go Bang won the corresponding special in the dog classes, Sandor Von Im, the Dane, being the runner up.

## FIELD DOGS.

SETTERS, POINTERS, HOUNDS AND BEAGLES.

**A**N attractive photo of the English Setter bitch, Nell, owned by Mr. G. Sanderson of Halifax, N.S., will appear in next issue.

The English Stock Keeper says: "We are informed by Mr. Temple that he has sold a draft of Beagles to Mr. H. Peters, of Long Island, New York. They are Leyswood Daffodil (Lignum—Freshcombe Woodbine), 12 1-2 in., winner of two firsts at the Aquarium; Leyswood Dauntless (Rockwood—Beauty), 14in., second Aquarium; Leyswood Dalesman (Champion Reader—Leyswood Dainty), 14in., tricolor."

Mr. Taylor expresses his disappointment in the fact that of the very many Fox Hound advocates in Canada not one has replied to his suggestion in last Gazette that a club be formed for the furtherance of the breed. It is surprising how little interest is taken by the average dogman until coming on "show time" when all are on the qui vive.

If a Fox Hound club is to be formed Mr. Taylor wants to know at once who would be willing to

take part in the work. Write him direct or write the Gazette.

Terra Cotta Kennel Greyhounds Hattie M. and Dictator were first and second in the limit class at the Pet Dog Show but succumbed to Gems Beauty and Maid Marion in the open class.

## THE NEW BEAGLE STANDARD AND RUNNING RULES ADOPTED BY THE NATIONAL BEAGLE CLUB.

**W**HERE there are so many Beagles bred and used as in Canada it has always been a surprise to us that field trials for this useful little hound have not been inaugurated.

The following standard and running rules just passed by the committee of the National Club are complete and little fault can be found with them.

### STANDARD.

**Head**—The skull should be fairly long, slightly domed at occiput, with cranium broad and full.

**Ears**—Ears set on moderately low, long, reaching when drawn out, nearly, if not quite, to the end of the nose; fine in texture, fairly broad—with an almost entire absence of erectile power at their origin—setting close to the head with the forward edge slightly inturning to the cheek—rounded at tip.

**Eyes**—Eyes large, set well apart—soft and houndlike—expression gentle and pleading; of a brown or hazel color.

**Muzzle**—Muzzle of medium length—straight and square cut—the stop moderately defined.

**Jaws**—Level. Lips free from flaws; nostrils large and open.

**Defects**—A very flat skull, nar-

row across the top; excess of dome; eyes small, sharp and terrier like, or prominent and protruding; muzzle long, snipey or cut away decidedly below the eyes, or very short. Roman nosed or upturned, giving a dishface expression. Ears short, set on high or with a tendency to rise above the point of origin.

**Neck and Throat**—Neck rising free and light from the shoulders, strong in substance yet not loaded of medium length. The throat clean and free from folds of skin, a slight wrinkle below the angle of the jaw, however, may be allowable.

**Defects**—A thick, short, cloddy neck carried on a line with the top of the shoulders. Throat showing dewlap and folds of skin to a degree termed "throatiness."

**Shoulders and Chest**—Shoulders sloping, clean, muscular, not heavy or loaded—conveying the idea of freedom of action with activity and strength. Chest deep and broad, but not broad enough to interfere with the free play of the shoulders.

**Defects**—Straight, upright shoulders. Chest disproportionately wide or with lack of depth.

**Back, Loin and Ribs**—Back short, muscular and strong. Loin broad and slightly arched, and the ribs well sprung, giving abundance of lung room.

**Defects**—Very long or swayed or roached back. Flat, narrow loin. Flat ribs.

**Fore Legs**—Straight, with plenty of bone in proportion to size of the dog. Pasterns short and straight.

**Feet**—Close, round and firm. Pad full and hard.

**Defects**—Out at elbows. Knees

knuckled over forward, or bent backward.

Fore legs crooked or dachshund-like.

Feet long open or spreading.

Hips and Thighs.—Strong and well muscled, giving abundance of propelling power.

Stiffles strong and well let down.

Hocks firm, symmetrical and moderately bent.

Feet close and firm.

Defects.—Cow hocks or straight hocks.

Lack of muscle and propelling power.

Open feet.

Tail.—Set moderately high; carried gayly, but not turned forward over the back; with slight curve; short as compared with size of dog; with brush.

Defects.—A long tail. Teapot curve or inclined forward from the root. Rat tail with absense of brush.

Coat.—A close, hard, hound coat of medium length.

Defects.—A short thin coat or of a soft quality.

Height.—Height not to exceed 15 inches; measured across the back at the point of the withers, the dog standing in a natural position, with his feet well under him.

Color.—Any true hound color.

General appearance.—A miniature foxhound, solid and big for his inches, with the wear-and-tear look of the dog that can last in the chase and follow his quarry to the death.

#### RUNNING RULES.

##### MANAGEMENT.

Rule 1.—The Field Trials shall be managed by the Field Trial Committee.

The Committee shall appoint a Marshal to carry out their orders.

##### FIELD TRIAL COMMITTEE.

Rule 2.—The Field trial Committee shall have the power to interpret the running rules of the club and to decide all matters not provided for in them; to refuse any entry they think proper to exclude, and to take final action on any written objection to an entry; to suspend or debar from handling or entering dogs in any field trials of this Club any person who uses abusive language to the Judges or Officers of the Club; or who has been found to the satisfaction of the Field Trial Committee to have conducted himself improperly in any manner in connection with dogs, dog shows

or dog trials, or who is a defaulter for either stakes or forfeits in connection with either thereof, or for money due under an arrangement for division of winnings, or for penalties for infraction of rules, or for any payment required by a decision of the Club.

#### ENTRIES.

Rule 3. Sec. 1.—For all stakes the names pedigrees (so far as known), ages, colors and distinguishing marks of the dogs shall be detailed in writing to the Chairman of the Field Trial Committee at the time of making the entry. Any dog that shall be proven not to correspond with the entry, shall be disqualified, and all winnings and entry money shall be forfeited to the Club.

Sec. 2.—All dogs entered in any classes or stakes must be bona-fide property of the nominator at the time of making the entry.

Sec. 3.—The forfeit money must accompany every nomination.

Sec. 4.—Any objection to any entry must be made in writing and must be addressed to the Field Trial Committee.

Sec. 5.—Entries shall be mailed to the Field Trial Committee in sealed printed envelopes (mailed with entry blanks), endorsed Field Trial Entries. All entries so received to be acted upon at a meeting of the Field Trial Committee.

#### DRAWING AND ORDER OF RUNNING.

Rule 4. Sec. 1.—Dogs shall be drawn by lot. Each dog shall run in the first series as a brace with the dog drawn next in order, but if two dogs owned or handled by

the same person should come together in the first or subsequent series, the second dog so owned shall change place with the first dog not so owned or handled. This change shall be made in the order of running if possible. If not possible then in the reverse order of running. The running together of two such dogs may be permitted when a separation is impossible, but in no other case.

Sec. 2.—In classes for Packs, the Packs shall be drawn by lot, and shall be run separately.

Sec. 3.—The bye dog in any series shall run with a dog selected by the judges or alone as they may direct.

Sec. 4.—As soon as the drawing is completed, the Secretary of the Club shall post in a prominent place the order of running in the first series, together with the time and place of starting.

Rule 5.—After the running of the first series is finished, the judges shall announce which dogs they wish to see run again and order of running them. Discretion is given the judges to run the dogs as often and in what order they think best, until they are satisfied which are the best dogs.

#### INSTRUCTIONS TO JUDGES.

Rule 6.—The judges shall measure all dogs before the drawing takes place, and shall transfer to the proper class any dog found to be incorrectly entered. The decision of the judges shall be final.

Rule 7.—The judges shall appoint a spokesman from their number, and all orders or information upon any point concerning the heat shall be given by him in a

clear and impartial manner so that each handler may have full benefit thereof.

Rule 8.—Should there arise at any time during the running of a heat, questions bearing on the actual running of the dogs and not provided for in these rules, the judges are instructed to use their discretion, and so decide the matter as to give each dog equal opportunities.

Rule 9.—Each heat shall be conducted in the manner best calculated to give the competitors an opportunity to display the qualities under judgment.

Rule 10.—The judges shall give each brace in first series at least thirty (30) minutes, and shall order up the dogs as soon thereafter as they have determined which is the better; but if a dog persistently disobeys his handler, or is lost, the judges may order him up at the end of thirty minutes whether he has been seen on game or not.

Rule 11, Sec. 1.—Trailing game other than announced, if the judges deem the same excusable, shall not be considered a demerit.

Sec. 2.—The judges shall give the dog ample opportunity to discover whether he is on a true trail.

Sec. 3.—The number of times a dog finds shall not necessarily give him the preference, but the judges shall consider the quality of the performance rather than the frequency of the occurrence.

Rule 12.—In order to prevent handlers rushing or unduly exciting the dogs, discretion is given the judges to try each dog of a brace separately on game, the competing dog being kept under restraint.

Rule 13.—If competition is close the judges are requested to give

greater credit to the dog that is obedient to the commands of his handler. A dog will be expected to maintain an efficient range throughout a heat and to show hunting sense in his work. Hunting sense is shown by the desire to hunt for game, the selection of likely places to hunt in, the method of hunting the places, the industry in staying out at work, and the skill in handling and trailing the game after it is found.

Rule 14.—The judges are instructed not to place undue credit on speed, it being the desire of the Club that accuracy in trailing, voice, endurance, starting abilities, style and obedience be the principal points of merit, but nothing in the foregoing shall excuse a dog for pottering, or for failure to leave his handler in hunting his ground. Every dog will be expected to go on when ordered, to cover his ground thoroughly, to obey the commands of his handler, and to show a desire and ability to find game as well as to drive it.

Rule 15.—In the classes for packs, team work, not individual work, shall count. The dogs will be expected to hunt within easy distance of one another, to hark in quickly, and to drive at an even speed well packed.

Rule 16.—The judges shall call to order a handler for making any unnecessary noise, or for any disorderly conduct calculated to interfere in any way with an opponent's dog. In such cases an appeal should be made to the judges, but should the handler of the dog interfered with not ask for protection, it shall be the duty of the judges to call the offending party to order, and see that this rule is at all times strictly enforced.

Rule 17.—The judges may announce the winners any time after the second series; provided, the first and second prize winners have run together.

Rule 18.—The judges shall not divide the first prize.

Rule 19.—The judges shall withhold any or all prizes in any class if the dogs are found deficient in merit.

A reserve shall be awarded in each class if the judges consider a dog or bitch worthy of same.

#### INSTRUCTION TO HANDLERS.

Rule 20. Sec. 1.—Handlers while their dogs are down shall go together and keep within sight of the judges and each other when possible.

Sec. 2.—Each dog shall be required to hunt throughout a heat, unless ordered up by the judges. When so ordered up the dog shall be kept under restraint.

Rule 21. Sec. 1.—A person selected, when ordered by the judges, shall discharge one barrel of a gun over each dog or brace of dogs while driving. If the dog exhibits signs of gunshyness both barrels shall be discharged over him on the trial. If the dog is thus proved to be gunshy, he shall be debarred from competition in the trials.

Sec. 2.—Handlers must use blank cartridges, and guns must be carried empty.

Rule 22.—A handler may speak or whistle to his dog or work him in any way he may deem proper, if not contrary to the rules of this club, but he shall not make any unnecessary noise or interfere with an opponent's dog in any way.

Rule 23.—If any handler or owner annoys the judges after

having been ordered to desist, the judges may order his dog up and out of the stake, or may impose a fine not exceeding ten (10) dollars.

Rule 24.—Owners and handlers are allowed the privilege of asking the judges for information, or for an explanation that has a direct bearing upon any point at issue. Pending such questions the dogs shall not be under judgment.

Rule 25.—At the commencement of a heat the handlers in the next heat will be notified, and must keep together until their dogs are ordered down. Any dog absent more than twenty (20) minutes when called, shall be debarred at the discretion of the judges.

#### GENERAL RULES.

Rule 26. Sec. 1.—Dogs afflicted with any contagious disease shall not be permitted on the grounds.

Sec. 2.—Bitches in season shall not be permitted to compete except in classes open to bitches only.

Rule 27.—Castrated dogs and spayed bitches will be debarred from running in these trials, and any dog or bitch proven to have been so run shall forfeit to the club all prizes won and the owner or handler thereof shall be disqualified from further competition in any trial held under the auspices of the National Beagle Club of America.

Rule 28. Sec. 1.—No persons shall be allowed to accompany the judges except guides, the marshal and the handlers of the dogs. The judges may, however, allow others to accompany them as they see fit.

Sec. 2.—Persons authorized to

accompany the judges under these rules will not be allowed to converse with the judges on any subject while the dogs are under judgment.

Sec. 3.—The spectators will not be allowed nearer the judges than fifty (50) yards to the rear. The marshal and judges shall strictly enforce this rule.

Rule 29.—No dog can be withdrawn during the running of a heat except with the consent of the judges. Should a dog be withdrawn without such consent the owner or handler may be barred from further trials, and all prizes won by such owner or handler in the stake may be forfeited to the club. If any dog be withdrawn with the consent of the judges from a stake on the field, or at any time during the holding of the trial, its owner or deputy having authority shall notify, in writing, the secretary or one of the field Trial Committee. If the dog belongs to either or any of those officials, the notice must be handed to one of the others.

Rule 30.—No person shall make any remarks or give any information whatever calculated to affect the action of the handlers or result of the heat. Any person so offending shall be expelled from the grounds and points of merit shall not be allowed any dog whose handler acts upon information imparted by such person, or uses any unfair means whatever. A protest on this point must be made to the judges before the close of the heat, and their decision shall be final.

Rule 31.—An owner, his handler, or his deputy may hunt a dog but it must be one or the other;

and when dogs are down an owner must not interfere with his dog if he has deputed another person to handle and hunt him.

Rule 32.—No shooting shall be done by any person unless directed by the judges. When so done it shall be considered irregular shooting.

Rule 33.—All protests, when practicable, except as heretofore provided, must be made to the secretary of the club, or in case of his absence, to one of the Field Trial Committee, at or before midnight of the date of running the final heat.

#### TO OWNERS.

The club has these principles, which it desires to express, namely:

That each and every trial is simply a trial in the true sense of the word, and not a competition in which the number of points made by either dog will necessarily count in its favor. The club desires dogs to be shown to the best advantage, and assures the owners that each dog will be given a thorough test, both as to finding and hunting qualities, as the club wishes to have the best dogs placed at the front irrespective of the luck which is supposed to attend competitions of this nature.

#### NOTES FOR NOVICES.

**R**HEUMATISM again is very common amongst sporting dogs for the reason stated in a previous paragraph. It is best treated by systematic rubbing of the parts affected by some stimulating linament. Rheumatism properly so called usually affects the hindquarters. When it affects the forequarters it is known

as "kennel lameness." However this may be the dog should have as an internal medicine small doses of iodide of potassium—a drachm dissolved in a pint of water, the dose of which for a twenty pound dog would be about two teaspoonfuls, and more in proportion according to the size of the animal; to be given three times a day. Some aperient medicine is also desirable at the same time, and nothing much better could be given than an occasional compound rhubarb pill.

One other complaint is not by any means uncommon among sporting dogs, and that is jaundice. This is a complaint which may be brought on in a number of ways. It is often caused by the animal entering into cold water or it may be due to systematic over-feeding, which causes derangement of the liver, and yet again it may be due to a hearty meal after the dog has gone for a whole day without anything. The symptoms are too well known to need description. The yellow appearance of the eyes and lips point at once to liver complaint. The treatment consists in giving occasional doses of pills made with podophyllin and colocynth and in careful attention to diet, which should consist of very light food, such as mutton broth, gruel, etc., avoiding all indigestible solids and giving only light meals at frequent intervals.

Over-showing is one of the chief causes of illness at this time of the year, when shows are in full swing, and we are bound to say that in such cases our sympathies are more with the victim than with his owner. To be sent away from home for several days under even the

best of conditions is a trial to any animal, and in the case of a highly-strung nervous young dog especially it takes a good deal of getting over. A dog to be kept in show condition for a considerable time will need, moreover, a good dose of tonic treatment, which might be done without if the owner would be content to show him only now and again instead of rushing the dog about from Land's End to John o' Groats, as some dogs are which happen to be extra good specimens of their breed. Many of the best judges, fortunately, will pass over any dog that shows signs of being overshadowed—in fact the secret of success with many dog owners lies in the first-rate condition their dogs are always shown in.

Here is a good recipe for dogs when returning from a show or after any specially hard work. It makes an excellent pill for appetite, and, moreover, being a mild laxative, is just what a dog ought to have when he comes home. Take of:

Compound powder of colocynth—24 grains, sulphate of iron—12 grains, sulphate of quinine—12 grains, powdered liquorice root—48 grains, extract of gentian—sufficient to make into a suitable mass. Divide into 16 pills (or 32 of half the size if desired). Give one of the larger size to a dog of not more than twenty pounds every four or five hours until a distinctly aperient effect is produced. The smaller pills will answer for smaller dogs, and large dogs can have two or three of the pills according to circumstances. These pills are best prepared fresh as required.

It is usual when giving a vermifuge for the dog to be kept without food for some time—in most cases for twenty-four hours. From experiments we have made lately we have come to the conclusion that it is better not to starve a dog for so long a period as that. The better plan is simply to let the animal go without his supper one evening and then give the worm medicine (followed by an aperient) first thing in the morning. This is needful because if the stomach be full of food when medicine is given the effect is usually marred; whereas, on the other hand, if there be no food whatever the action of the medicine is rendered insufficient. A little sweet olive oil given in lieu of supper on the preceding night seems greatly to assist the action of a vermifuge. Another reason for not keeping a dog too long without food, we think, is that in many cases it produces too great exhaustion.

Many novices will appreciate a few lines upon the subject of how to determine the age of a dog. Fortunately, there is not the amount of roguery in the canine fancy as there is in the "horsey" circles, but now and again no doubt the amateur gets "bitten." To a certain extent the age can be determined by examining the teeth. A dog of mature age has forty-two teeth, and these are complete in number at the age of about eight months. This clearly indicates the age so far, but after that there is no method so certain, and a good deal of judgment is needed. As a rule the teeth of an old dog will be dark and lacking in the pearly look of a young animal's teeth—but even this must not be too

much relied upon, as cunning dog dealers take care to use a tooth brush freely if such be necessary, and, moreover, dogs' teeth vary a great deal, as ours do.

Generally speaking, the age of a dog can best be adjudged by a combination of appearances. Old dogs are quiet and stolid, whereas youth carries activity with it. Moreover, curious as it may sound, grey hairs will tell a tale in dogs as well as in our own case, for it is often noticeable that a dog has become grey in the face and about the ears. So we have several points to judge by, i.e., appearance of coat as regards greyness; general demeanor; condition of teeth. To these may be added the state of the claws, which in some breeds are curled round and often disposed to be sore and festering. Finally, we may suggest as good advice that the opinion of an expert be taken in any case of doubt. The novice should never purchase a dog at a show or upon any such sudden inspiration without being guided by a competent adviser.

No comfortable muzzle has yet been invented—nor is it likely to be, since every self-respecting dog has personal objections to being constantly faced by a cage arrangement, and will soon show his distaste by rubbing on the ground and pawing, with the result that he will very soon make raw sore

places. The buckle of the strap used to fasten the muzzle needs to be carefully arranged and padded to prevent this. Even though this and every other care be taken, in many cases the trouble results, and every owner of good dogs knows how difficult it is when once the hair has been destroyed to bring up appearances again to their original excellence.—Our Dogs.

## PUBLISHER'S NOTES

Mr. J. H. Cayford, Box 1168, Montreal is our Agent and Correspondent for the Province of Quebec. Any correspondence relating to subscriptions or advertising may be addressed to him.

If you send us the name of a new subscriber together with \$1.50 we will extend your own subscription for one year as well as send Gazette to the new name for one year. This makes it but 75 cents each. The only condition we make is that the name of the subscriber is a new one and not renewal.

## FOOTBALL.

There is much in December OUTING which appeals to college men and all who are interested in amateur sport. There are ten pages of football matter alone, comprising dates, scores, and a concise description of all the important games played in the East, Middle West, and South, finely illustrated. It is just this record matter which makes OUTING invaluable. It is in the handiest form for reference and can be found nowhere else.
