KENNEL & BENCH DIRECTORY

Containing Name and Address under heading of the breed. Published monthly in *Kennel and Bench*. \$2.00 per year for each breed. Payable strictly in advance.

ADVERTISEMENTS

The Advertisements should reach us not later than the 26th.

It appears as though the Canadian Kennel Club will be well represented at the front. Already Lieutenant-Colonel Nelles and Lieutenant Nordheimer of our Executive Committee have been ordered out, and H. St. Lawrence of our Manitoba Advisory Board and several others are to follow. We wish to have the names of any members of our club who are going forward, and should they at any time be able to communicate with us and would do so we would consider ourselves more than favored.

Our friends to the south are in the throes of argument on the cropping question. The proposed rule is as follows: "No dog born on or after Jan. 1, 1915, whose ears have been cropped shall be eligible for competition at shows held under these (A. K. C.) rules." We have long since expressed ourselves in favor of cropping, if humanely done, and do not intend to go over our arguments again. Still we cannot agree with the twist given to the matter by one of our contemporaries. We know the Humane Society in the U. S. have had this matter in hand for some time, in fact we believe some action was asked from the powers that be toward having a national measure passed prohibiting cropping, and no doubt this has been brought to the attention of the A. K. C. or some of its officers with the result of the above notice of motion. Therefore to try to make use of this notice of motion to cast suspicion that the idea was hatched abroad to injure American breeding of dogs, is far fetched and absurd. We doubt if a dozen people, outside of the U. S. have given the matter any thought. Then the cause is only weakened by the comparison of cropping with tail docking and earrounding. Dogs are not cropped until well grown, while tails are generally docked during the first three weeks of life, the process is over quickly and does not need any particular attention afterwards. We are not familiar with ear rounding but understand it is done for strong utility reasons, which point cannot be urged in favor of cropping. However, if passed, it will act as a temporary set back, especially in Boston Terriers, but we will soon adjust ourselves and our dogs to the changed conditions. It will mean that a definite type of ear will have to be bred for each breed affected. We consider it will be a distinct loss to the bench. No doubt we in Canada will have to follow in line.

The Roll of Honor of Shows to be held is as follows:

CANADIAN NATIONAL EXHIBITION.

NEW BRUNSWICK KENNEL CLUB.

OTTAWA KENNEL CLUB.

WESTERN FAIR ASSOCIATION. (LONDON).

THUNDER BAY KENNEL CLUB.

NANAIMO KENNEL CLUB.

TERMINAL CITY KENNEL CLUB.

VICTORIA KENNEL CLUB.

SHELburne.

WINNIPEG KENNEL CLUB.

An analysis of above gives us two shows in the second week of September, five in the third week, two in the fourth and one in October or ten in all inside of six weeks. And further analysis establishes our claim of covering Canada from coast to coast.

This also shows the confidence of the dog public of every class in this club. We have the three great exhibitions, the Dominion in Victoria, the C. N. E. of Toronto, the New Brunswick in St. John, also those in connection with the Fall Exhibitions of Port Arthur and Shelburne, and Nanaimo. Finally we have dog shows pure and simple in connection with the Winnipeg and Terminal City Kennel Clubs, the largest and most active kennel clubs in their respective districts, namely the centre and west of Canada.

We think the dog fanciers should put their thinking caps on. The above list should convince the most skeptical. While we are on the subject of these shows, we ask the dog public everywhere to support these shows to the utmost and wish to place special emphasis in this appeal to members of the Canadian Kennel Club. Particularly should very strong support be given to those who have had to bear the brunt of opposition, namely the clubs of British Columbia, and the Winnipeg and Thunder Bay Kennel Clubs.

Agreement between the Canadian Kennel Club (Inc.) and the Provincial Advisory Boards as Proposed by The Manitoba Advisory Board.

Memorandum of agreement entered into between the Canadian Kennel Club and Show-giving Kennel Clubs in the Province of Manitoba, Canada, regarding the government of kennel affairs in Manitoba:

1. That an Advisory Board be established in Manitoba.

2. That the Advisory Board have full powers to deal with protests, disqualifications, suspensions, etc. To receive and approve of premium lists and catalogues of clubs in Manitoba giving shows under C. K. C. rules. All powers subject to clause five (5) of this agreement.

3. That the Advisory Board be made up of seven (7) members of the C. K. C. in good standing, resident in Manitoba, and of a vice-president of the C. K. C. resident in Manitoba, the latter to be chairman of the board, and to have the casting vote in case of a tie.

4. That the members of the Advisory Board be elected annually on the third Wednesday of September of each year at a general meeting of C. K. C. members in good standing at the time of the meeting. Each club having held a show under Canadian Kennel Club rules during the previous twelve months shall be entitled to at least one representative on the Advisory Board; such a club, however, must consist of twenty members, paying an annual fee of not less than \$2.00, and have a printed constitution and by-laws, which must be submitted to the Advisory Board, along with a list of the officers of the club. The representative of such a club must be a member of the Canadian Kennel Club in good standing, and be elected at the annual meeting as one of the seven of the Advisory Board.

5. That the Advisory Board have the

practical management of kennel matters in Manitoba, subject to C. K. C. rules, i.e., that any question regarding kennel interests in Manitoba shall be submitted to the Advisory Board and dealt with by them subject to the approval of the executive of the C. K. C. in Toronto.

6. That the Advisory Board have power to grant dates for the holding of shows in Manitoba.

7. That the Advisory Board shall meet at least twice in each year and that notice of such meeting be given in writing to all members.

8. That a full report of the proceedings at all meetings of the Manitoba Advisory Board be sent immediately after each meeting to the C. K. C. at Toronto.

9. That nothing in this agreement shall be retroactive.

TWIN CITIES HAVE NEW KENNEL CLUB.

Local Dog Lovers Form Thunder Bay Kennel Club.

Twin Cities have now a kennel club. A meeting was held in the Fair Grounds attended by a large number of men interested in dogs, and the Thunder Bay Kennel Club was formed.

Under the auspices of the club the local dog men will have a chance of seeing, at the dog show, which will be held during the Fair, the finest dogs in the Dominion, and in addition will have a chance of matching, against all comers, their own dogs.

Officials Appointed.

The officers appointed at the meeting of the new club last night were: Hon. Presidents, Father Donovan, Col. J. A. Little, L. Walsh, Mayor Young, M. Cochrane and W. Bishop; president, George A. Houston; vice-president, P. E. Dunn; hon. solicitor, Hugh Keefer; secretary-treasurer, H. A. Ruttan; executive, A. Allan, G. Clarkson, G. W. Dunn, F. Clifton, A. Churcher, C. K. Carrington; hon. veterinary surgeon, Dr. R. M. Parkhurst, and superintendent of dog show, G. W. Dunn.

NEW CHAMPIONS.

Notes and News from England

In this country it is not customary to divide Dachshunds by weight, while in Germany there was a time when such a classification in the open classes brought about a very strong controversy. Nowadays, however, exhibitors in the Fatherland are so used to this division that where it does not obtain it creates much astonishment, and even adversely influences entries in such classes. For the last twelve years the division by weight in the classes for black and red Dachshunds has been a *conditio sine qua non*, while other color varieties have had to do without such a division, and in these varieties the division by color has been responsible for the weak competition in the other than black and red sections. Division by weight was introduced with a view to giving preference to the lighter dog. The latter could not compete on equal terms with the heavier Dachshunds; owners, therefore, of such dogs, feeling that their interests were being prejudiced, insisted on the classes being divided by weight, with the result that Dachshunds of lesser value won the same prizes as those whose value was greater.

Through this division by weight the real purpose of its promoters was attained, and the lighter-made Dachshunds were used for breeding purposes in the same manner as were the heavier ones. It is possible, therefore, that this is responsible for the fact that nowadays in Germany the middleweight Dachshund is so much in vogue. However that may be, it is quite certain that the division by weight has very considerably affected the general type of the breed. I can even say that the depth of the brisket, the length of the body, the bone, the head, and above all the quality have suffered considerably through the aforesaid process. In the circumstances it is not astonishing that in Germany one very often met with Dachshunds of light weight, whose ugly heads, big globular eyes, short snipy muzzles, stiff limbs, short, crooked backs, and poor legs and feet compare very unfavorably with the specimens of some years ago. Fortunately the growing tendency for everything that is small in the Dachshund at last opened the eyes of the German breeder, and to such a degree that he has again paid that due regard to type which is

in the highest sense desirable, and length of body, depth of brisket, and size of bone have improved, and to-day the Dachshund breeder in the Fatherland insists more and more upon the weight in his dogs.

To breed a typical Dachshund quite light in weight, and at the same time full of quality, is so very difficult that the breeder has necessarily to progress very slowly. Every attempt to precipitate matters results in the variety having to suffer severely for it. Nowadays the average weight of a typical male is between 15 and 17 lbs., that of a typical female, 11 to 14 lbs. It is probable that this weight average is the most natural; the male is about a quarter heavier than the bitch, and if the two are mated together in the above proportion, the progeny should remain of about the same weight. If, however, we go slowly downwards—if we mate an absolutely typical bitch of about 11 lbs. weight to a dog of 14 lbs. weight (which latter should otherwise perfectly suit that bitch)—the progeny would contain perhaps one male full of quality of 13 lbs. weight. In the same manner the progeny will gradually become lighter in weight if a bitch say of 14 lbs. weight be mated to a dog of 15 lbs. It could then perhaps serve the following purpose—the progeny will not differ much in size and quality, and, though being somewhat lighter in weight, will nevertheless remain first-class.

Nowadays, however, one mates a bitch of 16 lbs. weight to a dog of 7 lbs., and a bitch of 8 lbs. weight to the heaviest possible dog. If, in the litters thus produced, we get little cripples, the fault should be attributed to the parents—in any case to the sire. Indiscriminate mating, without due regard to the weight, makes it practically impossible for one to judge in advance of the size and type of the progeny. The most normal breeding stock gives in every litter small cripples and coarse giants. One could not even think that the harmony of the transmission has been entirely and the beauty has been partly sacrificed to the craze for diminutiveness.

The division by weight, which allotted the same limit to the dog as to the bitch (which, by the way, is totally wrong), can only hasten the bad re-

sults. The harmony of the aforesaid proportion of the weight is justified by the fact that nowadays the largest number of the best dogs weigh from 15 to 16 lbs., and of the best bitches 12 to 13 lbs. Generally speaking, the individual good dogs of light weight can favorably compete with the heavyweights, for their weight is always very near the limit. I do not think that Germany at the moment possesses a single first-class lightweight dog. It appears that Germany intends to reduce, or has already reduced by one pound the limit of weight. If this be true, the result will be that Dachshunds of average quality, which nowadays cannot win first prizes, will become champions in accordance with the rules of the German Teckel Club. Breeders, therefore, are encouraged to breed from average quality specimens, whereas slightly heavier dogs, and in reality better stud dogs, do not receive any encouragement, at least not through the medium of the award lists, which should be regarded as indicators to the breeder, if they are to have any practical value at all.

I think the following is an ideal classification for Dachshunds: 1 Open class, for all colors and weights, (a) for dogs, (b) for bitches; 2, limit class for (a) dogs, and for (b) bitches, of all colors and weights; 3, novice class for (a) dogs, and for (b) bitches, for all colors and weights; 4, junior class for (a) dogs, and for (b) bitches, for all colors and weights; 5, puppy class for (a) dogs, and for (b) bitches, for all colors and weights. Then there should be two color classes for each of the following colors: black, red, brown, dapple, and any other color, as well as two lightweight classes for all colors together. For the latter the maximum weight for dogs should be about 12 lbs., and for bitches about 10 lbs.

As the Dachshund, in your country, seems to be getting into great favor, and as I often judge the breed in England and have often had the opportunity of seeing the best specimens in their native country, Germany, and as I have imported many a good Dachshund into England for well-known fanciers, I propose, in my next article, to go in again into the very important question of weight in the Dachshund, as well as to describe the brindle variety, an unknown quantity in this country, but in evidence in the Fatherland.

At the last Richmond championship show, which took place on the 7th of July last, the splendid classes of Dachshunds were judged by a Frenchman, Monsieur Paul Mégnin, and he judged them very well, indeed. Of course, he could not satisfy everybody; this is an utter impossibility. Besides, it is the disappointed exhibitor who makes the shows run, for, if we had no disappointed exhibitors and all the judges were of the same opinion, there would be no shows and absolutely no attraction for exhibiting. G. HOROWITZ.

OAK LEAF DEAD.

This great Bulldog died in his kennels after a very short illness, on Aug. 7th. This will be a great loss to the Bulldogs everywhere, as Oak Leaf was a pillar at stud, and one of the backbones of the English fancy. It is also very interesting to note that the last bitch served by Oak Leaf was Birmingham Treasure, the property since last March of Mr. W. W. Laskey, of Fredericton, N.B. Mr. Laskey describes Birmingham Treasure as a brindle pied, weighing about 44 lbs. at present and likely to make into a 50-pound bitch, with good bone, well roached, short body, good set-on of tail, with good front and a grand head.

Mr. A. A. Lees, of Hamilton, was on a visit to Fredericton and saw this bitch soon after her arrival, and describes her as a regular dog-headed bitch, and this opinion was expressed before she had recovered from her ocean voyage. Mr. Laskey says she cleared a 4½-foot fence easily (a rather risky experiment for a bitch in whelp) which shows she is perfectly sound and healthy.

Mr. A. G. Sturgeon, the owner of Oak Leaf, writes of Birmingham Treasure as follows: "If looks and breeding go for anything in Bulldog breeding, then there is one thing certain—she will have some flyers. A more likely bitch to breed, a really good one, I have seldom had sent to my dogs." She is by Birmingham Lad (by Ch. Nuthurst Lad, out of a Nuthurst bitch) by Knighton Linnet (Ch. Yamamoto, out of a Carthusian Cerberus bitch). In this connection it is always a pleasant privilege to speak a good word for a fancier, and Mr. Laskey speaks in no moderate terms of the splendid treatment he received all round from the breeder of the bitch, Mr. R. V. Bremmell, of Birmingham, from whom he purchased her.

OUR MAIL BAG

Dr. Alfred Boulton,
Canadian Kennel Club,
744½ Yonge St., Toronto.

Dear Sir:—I have been waiting an opportunity to have an interview with you but, of late, have been confined to this office, owing to staff changes.

I should like to bring before your Committee the question of the cropping of dog's ears. You are probably aware that in England this practice was terminated years ago, as the result of a regulation of the English Kennel Club, barring the entry of cropped dogs into the show ring. I hope your Association will adopt a similar regulation.

The practice of cropping is unnecessary, senseless and cruel. It exists more as a craze for the artificial. Neither a Great Dane or a Bull Terrier, nor any other dog is improved in appearance by cropping, and veterinary surgeons agree that the practice is cruel. The extinction of cropping in England has been followed by breeding dogs with small ears and, so popular is the present system, that it would be impossible to get any support in England for a revival of the practice.

If you care, I have no objection to contributing an article on cropping, from the humanitarian point of view, to your Gazette. This might be one way of raising the whole question in practical form.

I shall be glad to hear from you on this matter, at your convenience,

Yours truly,

TORONTO HUMANE SOCIETY.

R. C. Craven,

Secretary.

Rochester, August 13th, 1914.

Dr. Alfred Boulton,
774½ Yonge St., Toronto, Ont.

Dear Dr. Boulton,—In June I received a letter from Mr. Orr, the manager of the Canadian National Exhibition, asking for specials for the Exhibition Show. One June 23rd I wrote him offering two of the Genesee Valley Kennel Club medals at that show. On receiving a premium list I find that these specials have not been listed, and on, by return mail, calling Mr. Jacobi's attention to this matter he tells me that the catalogue has gone to press, and that as he had no record of it the specials will have to be omitted.

As a number of the good fellows in Canada joined our club when over here, they may wonder at no specials being

offered for them to win. We just wish to put ourselves straight with the Canadian fanciers over an error which is up to the Exhibition officials entirely. Will you make some note of this in your paper?

Very Sincerely yours,

ARTHUR B. PROCTOR,
Chairman Bench Show Committee.

South Vancouver, August 11th, 1914.
Dr. Alfred Boulton,

774½ Yonge St., Toronto, Ont.

Dear Sir,—I received the championship cup which was won with my English Top Spaniel bitch, Redwood Glory, in good order, and had no trouble with the customs in getting it.

I am greatly pleased with the cup, and it pays for the time and trouble preparing dogs for the shows, especially under C. K. C. rules. Thanking the C. K. C. for the cup.

Sincerely yours,

H. P. DUMBRELL.

Vancouver, June 27th, 1914.

Dr. Boulton,

Secretary C. K. C.,

774½ Yonge St., Toronto, Ont.

Dear Sir,—I have to thank you for yours of June 12th re Dooley (14547), and to acknowledge receipt of championship cup, which makes a fine showing.

I had no difficulty at the customs, thanks to your letter.

Very truly yours,

J. S. RAINIER.

35 Boston Ave., Toronto.

Dr. A. Boulton,

Secy. Canadian Kennel Club,

Dear Sir,—I feel I must write and thank you for the championship cup won by my Wee Chinese, and which arrived in good condition, and I had no trouble with the Customs Department.

I may say that the cup is far beyond expectations and needless to say we are all highly delighted with it.

Wishing the club every success,

I remain, yours, etc.,

WM. MARR.

Sept. 1, 1914.

Dr. Boulton,

Sec. Canadian Kennel Club.

Dear Sir,—It is impossible for anyone to speak too highly of the championship cup I received from the C. K. C. and of the general treatment of the members of the club.

MRS. S. A. DELANEY.

CLUB MEETINGS

WINNIPEG KENNEL CLUB.

A largely attended enthusiastic meeting was held on Thursday evening by the Winnipeg Kennel Club, for the purpose of appointing committees for the various offices at the forthcoming October show; when the following gentlemen were nominated, first named on the different committees to act as convener in such: ::

Judge, Mr. James Mortimer; Superintendent, Mr. J. Milner; Veterinary Surgeon, Dr. Rombough; Sec-Treas., Mr. S. C. Taylor; Asst., Mr. A. L. Boucher.

Ring stewards—Messrs. St. Lawrence, Hogg, Leslie, McColl, Bayley, Morris, Warren, Binnie, St. John and Village.

Bench Committee—Mrs. Campbell and Miss Elmes pres. and secy., respectively of Fort Garry Toy Dog Club; Messrs. Warren, Barlett, Leslie, Binnie, Ross, Hector, Village, Vien, Belcher, T. Milner, Ogilvie and Ayre.

Special Prize Committee—Mrs. Campbell, Miss Elmes, Messrs. McColl, Lyday, Warren, Smith, Crewe, Morris, Dr. Kenny, Belcher, Ogilvie, Leslie, Hogg, Aver.

Advertising—Messrs. Leslie, Warren, Village, T. Milner, and Trautman.

Printing Committee—Messrs. S. C. Taylor, A. L. Boucher, M. D. Morris.

Classification—Messrs. St. Lawrence, J. Milner, A. F. Picard.

The benching of Toy dogs will be left in the capable hands of a committee from the Ladies' Toy Dog Club.

Another feature which will please the exhibitors, is that every dog will be thoroughly inspected by the veterinary surgeon, not after they have been benched, but before, thereby insuring against any infectious disease spreading the show.

An advance sale of tickets will be made at the rate of twenty-five cents each or three for fifty cents.

TOY DOG CLUB EXECUTIVE MEETING.

A meeting of the executive of the Toy Dog Club of Canada was held in the Canadian Kennel Club rooms on Monday evening, Aug. 10th.

The president occupied the chair, and other members present were Mrs. Herd, Mrs. Howarth, and Messrs. J. A. Campbell, P. S. Herd and Wm. Marr.

The minutes of the previous meeting were read and adopted.

Considerable important business was dealt with during the evening. The secretary announced that through poor health and business she would be unable to continue in that office for longer than the present term.

It was decided that the office of secretary-treasurer be divided in future, both of these to be held by members residing in the city of Toronto.

It was decided to order buttons for the club, to be given to members in good standing, and thus avoid confusion when judging for Toy dog specials.

Messrs. Herd and Marr were appointed a committee (with full power to act) to meet the committee of the new Pomeranian Club, with a view if possible of having the two clubs come together.

The president, Mrs. Carruthers, gave the club a bond for a cup for competition by members of the club. The bond was a very substantial one and the cup will be purchased when won according to conditions.

The matter of the London Dog Show specials was brought up and it was decided that Mrs. Weldon and Mr. Marr be awarded the specials, which were omitted from the marked catalogue.

Many suggestions were made for the advancement of the club, and as it is desired to add as many members as possible during the year, a list of specials will be put up at the various shows held under C. K. C. rules, which should appeal to those having a Toy dog of any description.

TOY DOG CLUB NOMINATION MEETING.

The Annual Nomination of the Toy Dog Club of Canada was held in the C. K. C. rooms on Saturday, August 22nd., the President, Mrs Carruthers occupying the chair.

The minutes of the previous meeting were approved.

Mr. Herd reported that the Committee had been unable to come to any arrangement with the Pomeranian Club, in regard to the two bodies coming together.

The following nominations took place:

Hon. President, John G. Kent, Esq., Toronto; Hon. Vice-President, Miss Elmes, Winnipeg; President, Mrs. Jas. Carruthers, Toronto; 1st. Vice-President, Mrs. F. Gruenwald, Montreal;

2nd. Vice-President, Mrs. J. B. O. Kemp, Toronto; 3rd. Vice-President, Mrs. Walter Rigby, Winnipeg; Provincial Vice-President for Ontario, Mrs. J. H. Howarth, Grimsby; Provincial Vice-President for Quebec, Mrs. Wm. Steggall, Montreal; Provincial Vice-President for Manitoba, Mrs. A. B. Campbell, Winnipeg; Provincial Vice-President for Alberta, Mr. Herbert Baker, Calgary; Secretary, Mr. Jack Webb, Toronto; Treasurer, Mr. A. H. Howarth, Toronto; Hon. Solicitor, Mr. G. F. McFarland, Toronto; Hon. Veterinarian, Dr. J. A. Campbell, Toronto.

Executive Committee,—Mrs. P. S. Herd, Mrs. J. W. Weldon and Messrs. J. McNaughton, Wm. Marr, T. W. Edwards, F. C. Hunt, P. S. Herd, Wm. McIntyre, J. H. Kenyon, Wm. Balfour.

Representative in U. S. A., Mrs. C. E. Lamouree, Rochester, N. Y.

It is proposed that four patrons be elected at the Annual Meeting; also that two Advisory Boards be appointed, one for the Eastern Provinces, with Headquarters in Montreal, and one for the West, with Headquarters in Winnipeg.

The Annual Meeting will be held on Tuesday, Sept. 8th., 1914, at 8 p.m., in the Board Room, Administration Building, Exhibition Building, Exhibition Park, Toronto.

POMERANIAN CLUB OF CANADA.

The above club held their Third Annual Meeting, August 19, 1914, in the Club Room, 206 Queen Street E. Business enrolling members and election of officers for the year.

The meeting was well attended, and the following ladies and gentlemen were elected in office:

Chairman, Mr. G. Briggs; Secretary, Mr. G. E. Ward; Treasurer, H. Hirst.

Executive Committee, Mrs. Foster, Messrs. F. Barraclough, G. Ward, J. Webb, F. McNaughton, McMillan.

Several good specials were offered, to be competed for by members only at the Canadian National Exhibition, and anyone wishing to become a member may do so by sending in their name and subscription of two dollars to Sec. G. E. Ward, 161 Salmon Ave., Toronto.

THE CROPPING OF DOGS

EFFORT TO ABOLISH THE PRACTICE IN CANADA.

By R. C. Craven, Secretary of The Toronto Humane Society.

It is in the nature of a coincidence that the Toronto Humane Society has inaugurated a campaign against cropping almost simultaneously with the agitation in the States.

The subject is one which must be treated with due regard for the best interests of the dog itself. If there is any suffering it is the dog which suffers; if any advantage it is the dog which benefits.

The attitude I take is that cropping is a useless, senseless, cruel practice, a silly whim of fashion in her most foolish mood. It is a practice in which dog-owners stand in the same category with the women who wear murderous millinery. All cropping is needless and cruel, but varying degrees of cruelty accompany it according to the conditions under which it is prepared.

Where cropping is performed under the most favorable conditions—by a veterinary surgeon using anesthetics—there is suffering to the animal. It takes from two to three weeks for the wounds to heal up, and during that time the dog certainly suffers. In many cases, however, the operation is performed without anesthetics. The dog is muzzled and tied down, and a man without an atom of veterinary knowledge gets to work with a pair of shears, cutting off a bit here, then a bit there, until the result just satisfies what he regards as his best taste. What is aimed at is what the owner regards as "style."

Every doggie man who knows anything at all knows that cropping is frequently performed under sickening conditions. There are no regulations governing the conditions under which the operation may be performed. Probably it was the knowledge of the barbarous conditions often prevailing which brought about the abolition of cropping in England. And who in England has been one penny the worse as the result of the action taken by the Kennel Club of Great Britain? No one. From the show standpoint cropping is faking, and to exhibit a cropped dog is to exhibit a faked and mutilated dog. Cropping is in the same category as

docking horses' tails. For years docking was the fashion in horse craft. It was part of the craze for the artificial, but while it prevailed most horsemen insisted on having docked horses. Now the man who advocates docking is no class where real horsemen come in. The horse's right to his tail is fully established.

One must not forget that the lap of the ear plays a certain part in the general welfare of the dog. It is a protection for the ear itself, and especially in cold weather has a definite value to the dog itself.

Cropping also creates an element of uncertainty in the show ring. What appeals to one man as style may not be just the thing which appeals to some particular judge. The fairest thing is to show the animal without artificial touches.

If short and small ears are desirable why not achieve this end by breeding for small ears. Small ears can be got in just the same way as small heads or broad skulls. It is but a matter of time and selection. Breeding for show has changed the stamp of dogs generally during the last forty years. Who could compare the Fox Terrier, the Collie or the English Bulldog with the representatives of those breeds of forty years ago. The abolition of cropping will not make it possible to produce a head exactly like a head with cropped ears, but it will give us natural rather than faked animals. Personally I have knowledge of Great Danes as a breeder. The difference in Great Danes is that whereas the cropped Great Dane has a bolder, fiercer expression, the natural specimen is altogether kindlier and nobler in appearance. Even if this were not the case I would prefer to keep the animal as he came into the world than have him distorted and disguised by a pair of shears. For I would rather have the honest dog than the faked creature. I think cropping is as unjustifiable as painting spots on a Dalmatian, or tattooing the shaven back of a poodle.

I appeal to dog-owners to stop this foolish craze for the artificial. I appeal to the Canadian Kennel Club to discontinue a practice which is cruel and which does not benefit the dog. In these days when so many dogs are imported from the Old Country it is to

the advantage of breeders here to have one standard, one recognised type, and that type which obtains in England. There is not the slightest doubt that the days of cropping are practically over in Canada. Humane Societies all over the country are educating public opinion against it. In time there will be a force strong enough to prohibit it. But, as a doggie man, I would far rather this movement came from the ranks of the doggie men themselves. How much better is it to have reform brought about by good taste, commonsense and the exercise of justice within than to have it forced upon us by right-minded people from without.

Cropping must and will certainly cease.

SIR E. SHACKLETON'S DOGS FOR TRANS-ANTARCTIC EXPEDITION.

Sir Ernest Shackleton's dogs, which arrived in London from Canada on Tuesday, July 14th, had a very short quarantine experience, for on August 1st they were shipped on the Trans-Antarctic expedition vessel, the "Endurance," from West India docks for Buenos Aires. They are described as big-hearted, lovable creatures, happy dogs that know not their fate, but as the Canadian teamster, who accompanied them from Winnipeg, remarked to a reporter on their arrival, "They just fight like blazes when they get together, unless they are in teams of five in which they work."

Sleighting and hauling fish is their chief use in Canada, and each is capable of drawing a load of at least one hundred pounds. They can travel 40 miles a day, if necessary.

In their native homes in the Northwest Territory and along the shores of the Hudson Bay, where half their ancestry was composed of wolves, they have lived mainly on fish, but now that they are at Spratt's Quarantine Kennels, at Beddington, biscuits are substituted, and the remarkable manner in which they flourished during the recent spell of hot weather while being used to intense cold, speaks well for the change of diet. These half-savage team-dogs had never tasted a biscuit until they started on the voyage from Montreal to London, but they consumed two thousand pounds of Spratt's "Meat Fibrine" dog cakes by the time they arrived and are now confirmed biscuit eaters. That they should have taken so readily to their new food is

indeed most fortunate, for much more depends on this than one would imagine. The late Captain Scott admitted that his failure to reach the Pole on his 1901 expedition in the "Discovery" was due to the fact that he substituted stockfish for biscuits as food for the dogs which accompanied him on his final dash. In his report appear the following remarks: "It would be unprofitable, as well as dismal, to give a close history of the further career of our wretched dog team. They failed us almost immediately after we had formed such high hopes of travelling a long distance. The failure was certainly due to the stockfish."

There is, however, no fear of anything of this sort happening in connection with the Trans-Antarctic expedition, for Sir Ernest Shackleton has made ample provision for feeding his dogs on biscuits, the supply on board the "Endurance" being sufficient to last throughout the expedition.

The dogs answer promptly to their names—Blackey, Collar, Noble, Captain, Nero, Colonel, Chimo, etc.

Of the ninety-nine, who ages range from one to six years, eighty are unusually large, the remainder being younger and somewhat smaller. In many of them the features of the St. Bernard, Newfoundland and German Wolfhound are very pronounced, but they are all half-breeds. "Fox" is a very pretty dog, if not the prettiest of the pack. A remarkably clever and well-trained animal, he is one of the team-leaders, although but a year old. "Light," an all-grey dog of the prairie wolf type, is another of the team-leaders. He is the champion of them all, the best worker and the fiercest fighter.—The Kennel Gazette.

The 18th Regiment, of Portage la Prairie, Man., have purchased as a mascot from J. J. Kirkland, the 4-months-old Bulldog, Pilot Me," as a Bulldog is the insignia of the regiment. His collar is marked "A" Squadron, 18th Mounted Rifles, Portage la Prairie."

The Manitoba Advisory Board have replaced the names of two disqualified members by those of Dr. R. W. Kenny and Mr. Henry St. Lawrence. The board now consists of Messrs. John Milner (chairman), Archibald Smith (secretary), W. J. Harvey, Tom Milner, Dr. R. W. Kenny and Henry St. Lawrence.

WINNIPEG SHOW.

Arrangements for the Winnipeg Kennel Club Bench Show, October 13th to 16th, are proceeding in a most satisfactory manner, and the number of promises of support from both East and West are exceeding the expectations of the most optimistic.

Our membership is increasing at a wonderful rate and we can now boast of covering territory from Saskatchewan to New Mexico, the last mentioned addition to our ranks being Dr. R. Fred Pettit, of Albuquerque, a gentleman who proved his sterling sportsmanship last February by shipping a Collie from New Mexico to the Western Canada Kennel Club show at Winnipeg, but unfortunately she was not shown upon arrival, being reported as out of condition. This must have been a great disappointment to her owner, as I have been told by men who know a Collie, that she was fit to win. All true fanciers will join with me in wishing her owner better success in the future, as sportsmanship of the kind displayed by Dr. Pettit is certainly deserving of it.

Returning to the subject of our coming show, it was unanimously decided at a special meeting held on Thursday (27th inst.) that whatever surplus we have at our show, over and above actual expenses will be given to the Patriotic War Fund, and we sincerely hope that all fanciers will assist us in building up a handsome surplus to be applied for the relief of needy families of men who have bravely volunteered for active service in defence of the noble traditions of our great Empire.

Yours sincerely,

S. C. TAYLOR,

Secy.-Treas., Winnipeg Kennel Club.

The services of Midland Romulus are in demand. Communications have been received from as far west as the Pacific coast. One grand bitch in particular, Qu'Appelle Pagan, owned by Dr. Twiddle, of Kenton, was bred to him last month.

The Cocker Spaniel Club of Canada are offering for competition among their members three bronze medals at Shelburne Show, in novice, limit and open classes, any color and sex.

MENDELIAN THEORY OF BREEDING.

By J. Sidney Turner
(The Kennel Encyclopædia)

The Mendelian theory, the central doctrines of which are: (1) Segregation of units and (2) independent inheritance of characters, appears, at first sight, to be one that is comparatively easy to understand. It is not a light task to convey to those unversed in the scientific terminology of biology and cytology a very clear definition of Mendel's law. The theory, however, is so fascinating that anyone, who once embarks on the study of the various phases of heredity which are thereby disclosed, will be led on to further and further contemplation of the mysteries which it unfolds.

Although it was some forty years ago that the Austrian Augustinian monk, Gregor Mendel (1822-1884) published his suggestive paper in the Journal of the Brunn Scientific Society for 1865, it was not till the year 1900 that the full importance and wide applicability of the principles of heredity therein enunciated were re-discovered and appreciated by such eminent scientists as De Vries, Correns and Tschermak abroad, and Professor Bateson, of Cambridge, in this country.

Since this time a very large number of those engaged in scientific research have been making experiments on plants and animals to ascertain the truth or otherwise of Mendel's theory, and to see what assistance can be afforded to students of heredity by the facts which have been established. These experiments afford much food for reflection, not only to the practical breeder and hybridist, but to the agriculturist, social reformer, and the physician; because it has been found that, not only normal characters, but abnormal and diseased conditions are sometimes inherited in certain definite ways by plants and animals.

"There is little doubt that a knowledge of Mendel's principles must be of value in the study of disease, for when once Mendelian analysis has established the operation of the law, and the nature of the characters concerned, we are in a position to predict, always the probable, sometimes the inevitable, result of a given mating. When a brachydactylous (short-fingered) man marries a normal woman we are certain that there is an even chance of any child being born diseased or

normal. When two normal people with night-blind parents and grandparents marry, we may predict with confidence that none of their children will inherit the disease." (R. C. Punnett; Mendelism in Relation to Disease. Proc. Roy. Soc. Medicine, March, 1908). Sir Shirley F. Murphy said in discussion which followed: "Mendel's law seemed to be established for certain characteristics and within limits." . . . "The theory had arrived experimentally at the stage of being of considerable importance to the agriculturist, and even if it did not go beyond that it would have served its purpose." Speaking of immunity to disease in wheat, Mr. Punnett (loc. cit.) said that "From the point of view of medicine the following was one of the most important experiments ever made. Mr. Biffen of Cambridge, crossed a wheat immune to the attacks of yellow rust (*Puccinia glumarum*) with another wheat highly susceptible to such attacks. The hybrids were all severely attacked, and Mr. Biffen experienced some difficulty in saving them sufficient seed to get a reasonably large crop the following year. Having grown these on, he found that in this generation came rusted and rust-free plants. Though growing all among and brought into the closest contact with their diseased brethren, these rust-free plants showed no sign of contamination. On counting the F2 generation it was found that out of 2,132 plants, 523, approximately one-quarter, were immune; and such immune plants gave rise to immune offspring only. Susceptibility and resistance to disease in wheat are a pair of characters obeying the Mendelian law of inheritance, and consequently brought completely within the scope of human control." R. H. Lock (1907; p. 268) says: "Upon this fact depends the enormous importance of Mendel's law in the breeding of new and useful types of animals and plants. When it is remembered that in wheat, for example, resistance and non-resistance to the attacks of disease, earliness and lateness of ripening, good and bad milling quality are all pairs of Mendelian allelomorphs, and that it is now quite possible to take a different example of these qualities from each of three different strains, and to combine them together in a single new variety with perfect certainty in four generations, it does not require much imagination to foresee that every

department of the animal and plant breeding industries must sooner or later benefit enormously from Mendel's discovery." If we could get similar results in regard to distemper in dogs what a gain it would be.

The trite saying that "like begets like" is only half a truth, and, in view of modern thought, has to be modified into "like tends to beget like." The idea that breeders have held and acted upon in past ages was, roughly speaking, that half the characters were inherited from sire, and half from the dam. If by the word "characters" we mean the outward and visible characters and the invisible attributes, such as constitution, energy, brain-power, etc., this is not true; but, if we mean the unit characters which may be outwardly expressed and the inward characters, which, though invisible, may be evident to our perception, plus those unit characters, which may be neither expressed nor evident, but dormant, it is in great degree a truth, qualified only by the process of maturation of the germ cells.*

Parents are the transmitters of characters which they themselves have inherited from their immediate or remote ancestors, but which were never expressed nor evident in their own organization.

*Maturation occurs in all male and female germ cells—spermatozoa and ova—before fertilization takes place. It is a process whereby the cell loses one-half of its "chromosomes" (bearers of the germ plasm of heredity). It is not known whether this reduction is "selective" or fortuitous. "Variation" could have but little chance of occurrence unless the composition of the germ cells varied, or that the maturation process was fortuitous. "Amphimixis" (bi-parentalism) and "Germinal Selection" (Weismann), or the struggle between the elements of the germ-plasm, assist, but seem hardly capable of producing a result, such as is seen in a multiple birth of puppies, where the dominance of the father may be seen in some and that of the mother in others, whilst others show a blended inheritance. It is only when both lines of ancestry have great degrees of purity, and are also very similar in characters, that "family likeness" in the offspring can be predicted; otherwise variations are bound to occur. Human twins of same sex, if developed from the same ovum, are true twins and alike ab initio, but, if developed from different ova, they, although of same sex, may be quite unlike. A boy and girl are never developed from one ovum and are never true twins. Even the old saying—"as like as two peas in a pod" has been proved by Mendelian experiment to be an "inexactitude."

(To be continued).

REGISTRATIONS

WE PARTICULARLY REQUEST THAT EACH READER LOOK OVER THE REGISTRATIONS OF SUCH BREEDS AS THEY ARE FAMILIAR WITH AND NOTIFY US AT ONCE OF ANY ERRORS.

AIREDALE TERRIER.

Dog.

BINGOMAR (15021)—H. B. Somerville, Toronto, owner. P. Bawden, Ridgetown, Ont., breeder. Black back, tan quarters. August 20th, 1913. Sire, Caerphilly Performer; Easby Marvel (Elsmere Marvel-Easby Princess) Queen (Midland Royal-Graigwen Pride) Dam, Caerphilly Betty; Briar Nut (Staffo-Ferryhill Flyer) Duchess Uno (Tintern Desire-Duchess Vera).

DUFFERIN CRACK (14898)—James C. McGee, Toronto, owner. Walter M. Berwick, Shelburne, Ont., breeder. Black and tan. May 20th, 1914. Sire, Dalmahoy King; Lochryan Lad (Tintern Desire-Ellerslie Vista) Whimbloom (Master Freeman-Rambling Kitty). Dam, Nellie W.; Benty W. (Endcliffe Crack-Lorina) Rose Tinner (Marshall Tinner-Monitress).

DUFFERIN TANGO (14940)—S. A. Baker, Whitby, Ont., owner. Walter M. Berwick, Shelburne, Ont., breeder. Black and tan. Jan. 10th, 1914. Sire, Almonte Dick; Game Cock Mixer (Culmington Chief-Symetry Beauty) Game Cock Juns (Game Cock Dazzler-Colne Lucky Mistress). Dam, Nettle Top; Freeman Terror (Crompton Marvel-Red Cap Music) Culmington Nettle (Crompton Performer-Bush Lass).

ETTRICK MARVEL (15045)—Archibald Smith, Winnipeg, Man., owner. P. Ross, Winnipeg, Man., breeder. Black and tan. May 26th, 1913. Sire, Clipstone First Shot; Clipstone Voucher (Commodore of Clipstone-Clipstone Dame) Clipstone Betty (York the Hay Maker-Clipstone Sunbeam). Dam, Woodstock Lustre; Woodhall Bobs (Tintern Desire-Golden Lass) Busy body Vic (Freeman Terror-Culmington Nettle).

JACK CANUCK (14949) — L. A. Fitzgerald, Toronto, owner. J. J. Vaughan, Toronto, breeder. Black and tan. Dec. 28th, 1913. Sire, Midland Terror; Midland Royal (Clonmel Chilperic-Clonmel Royal) Madam Briar (Master Briar-Meg). Dam, Lady; Crompton Oorang (Crompton Marvel-Abbey Princess) Saintly Lady (Brownhill Marquis-Mill End Gipsy).

KILLARNEY PRINCE (14945)—J. Witton, N. Vancouver, B.C., owner. N. McConnell, N. Vancouver, B.C., breeder. Black and tan. Sept. 29th, 1913. Sire, Bradford Prince (12328). Dam, Killarney Queen (12578).

MOORSIDE BONSOR (14911) — F. Wood, Toronto, owner and breeder. Black and tan. June 28th, 1913. Sire, Buster Briar; Tintern Tecumseh (Tin-

tern Desire-Tintern Blossom) Fort Gypsy (Midland Royal-Nell). Dam, Moorside Nell; Leading Stoker Tim (Lance Corporal Smyth-Clonmel Britannia) Rockley Rarebit (Crompton Oorang-Rockley Belvoireen).

OAKDENE DUKE (14901)—W. M. Stewart, Victoria, B.C., owner. Mrs. A. L. Brownlie, Victoria, B.C., breeder. Black and tan. May 8th, 1914. Sire, Capilano Chinook (13986). Dam, Kil-larney Xmas Gift (12340).

OAKDENE PRINCE (14900)—W. M. Stewart, Victoria, B.C., owner. Mrs. A. L. Brownlie, Victoria, B.C., breeder. Black and tan. May 8th, 1914. Sire, Capilano Chinook (13986). Dam, Kil-larney Xmas Gift (12340).

ROCKLEY MILITANT MAN (14992)—Sid. Perkins, Toronto, owner. Mr. Gill, England, breeder. Black and tan. Sept. 23rd., 1913. Sire, Monsall Crack; Primrose Regent (Primrose Rebound-Primrose Research) Primrose Jewel (Stretton Masterpiece-Lady Lofty). Dam, Carlton Beauty; Midland Royal (Master Royal-Madam Briar) Midland Marvin (Midland Royal-Bearwood Beauty).

ROUGHAM CLONMEL MASTER MAGNIFICENT (15041)—Henry L. Cocksedge, Whonnoek, B. C., owner. Holland Buckley, England, breeder. Black and tan markings. April 10th., 1913. Sire, Dargle Declare; Tintern Desire (Crompton Oorang-Witton Lady) Dargle Madge (Stockfield President-Avenue Queen). Dam, Clonmel Lally; Clonmel Rough and Ready (Elruge Monarch-Clonmel Measure) Brosna Bacchante (Tintern Desire-Stockfield Daisy).

RUGGED IRON DUKE (15013)—E. G. Bingham, Orangeville, Ont., owner and breeder. March 3rd., 1914. Black and tan. Sire, Clonmel Master Crack (13303). Dam, Rugged Beauty; Graystone Growler (Colne The Tyke-Colne Blue Belle) Bonnie Vic (Caerphilly Marvel-Grizzley Arriet).

SOUDAN PRINCE (15027)—Alfred Gould, London, Ont., owner. P. L. Savage, St. Charles, Ill., breeder. Black and tan. Sept. 30th., 1912. Sire, Soudan Swiviller; Elruge Monarch (Master Royal-Clonmel Reseda) Gaelic Beauty (Dany Craig King-Morgan's Nell). Dam, Soudan Success; Rockferry Jack (Wombwell Rattler-Fascination) Briar Queen (Bouncing-Briar Ethel).

Bitch.

BAUGHELL COMMAND (15040)—Mrs. Henry L. Cocksedge, Whonnoek, B.C., owner. Anna F. Trevin, New Jersey, breeder. Black and tan markings. Jan. 2nd., 1915. Sire, King Oorang; Rockley Oorang (Crompton Oorang-Rockley Visa) Coronation Brilliant (Watlands Marvel-Whinfield Melody). Dam, Niuri Gladdy; Prince York (Crompton Oorang-Daisy Marvel) The Marchioness (Clonmel Monarch-Dumbarton Vixen).

BOTHWELL PEGGY (14817)—Harry Clayton, Toronto. Bothwell Proctor, breeder. Black and tan. May 17th., 1912. Sire, Soudan Swiveller; Elruge Monarch (Master Royal-Clonmel Reseda) Garlic Beauty (Dany Craig King-

Morgan Nell). Dam, Kenmare Sorceress; Resemblance (Midland Royal-Dumbarton Bracelet) Queen Oorang (Crompton Oorang-Hillside Duchess).

COLNE CHERRY GIRL (14847)—Jos. A. Laurin, Montreal, Que., owner and breeder. Black and tan. Feb. 14, 1914. Sire, Colne Renown; Midland Royal (Colne Master Royal-Madam Briar) Witton Princess (Crompton Oorang-Witton Lady). Dam, Colne Lady Erie; Colne Ballochmyle (Crompton Legacy-Nell) Colne Royal Donsie (Colne Master Royal-Colne Mistress Briar).

COLNE NAUGHTY NELL (14848)—Jos. A. Laurin, Montreal, Que., owner and breeder. Feb., 1914. Black and tan. Sire, Colne Renown; Midland Royal (Colne Master Royal-Madam Briar) Witton Princess (Crompton Oorang-Witton Lady). Dam, Colne Lady Erie; Colne Ballochmyle (Crompton Legacy-Nell) Colne Royal Donsie (Colne Master Royal-Colne Mistress Briar).

CREW SO TWILIGHT (14813)—Lawder & Russell, London Junction, Ont., owner. J. H. Leeming, England, breeder. Black and tan. May 1st., 1912. Sire, Flornell Oorang; Rockley Oorang (Crompton Oorang-Rockley Vista) Horsefield Thistle (Rock King-Horsefield Nettle). Dam, Glamora Princess; Dandy Craig King (Dandy Craig Prince-Dandy Craig Queen) Blackburn Lass (Crompton Marvel-Rose).

DUFFERIN BESS (14970)—Gilbert Bretz, Shelburne, Ont., owner. Walter M. Berwick, Shelburne, Ont., breeder. Black and tan. Nov. 20th., 1913. Sire, Dalmahoy King (13491). Dam, Betty Marvel (13492).

DUFFERIN DIDO (15006)—Gordon Higbee, Ridgeville, Ont., owner. Walter M. Berwick, Shelburne, Ont., breeder. Black and tan. Nov. 20th., 1913. Sire, Dalmahoy King (13491). Dam, Betty Marvel (13492).

ETTRICK QUEEN (15046)—Archibald Smith, Winnipeg, Man. owner and breeder. Black and tan. April 27th., 1914. Sire, Clipstone First Shot; Clipstone Voucher (Commodore of Clipstone-Clipstone Dame) Clipstone Betty (York the Hay Maker-Clipstone Sunbeam). Dam, Etterick Judy; Clumington Tyrant (Springbank Radium-Lady Hasty) Acton Judy (Brookfield Sultan-Rixton Kitty).

LAKEVIEW PEGGY (14883)—Claud Faux, Barrie, Ont., owner. Sid Perkins, Toronto, breeder. Black and tan. March 5th., 1914. Sire, Rockley Ranger (14188). Dam, Rockley Prescription (13905).

LAKEVIEW RADIANCE (15015)—S. Black, Toronto, owner and breeder. Grizzle and tan. June 9th., 1912. Sire, Walnut Cracker; Auckland Luckystone; (Crompton Oorang-Rockley Belvoireen) Walnut Queen (Crystal Royal-Silver Nell). Dam, Lakeview Sunray; Fontmel Chief (Crompton Oorang-Woodman Sceptre) Sweet Briar (Littleton Viking-Clipstone Dame).

LANCASHIRE LASS (15026)—Mrs. J. Wright, London, Ont., owner. James Byrne, Joliet, Ill., breeder. Black, tan

Mills, Toronto, owner and breeder. Brindle and white. Dec. 2nd., 1912. Sire, Royal Albert (12471). Dam, Woodcote Merry Girl; Woodcote Diplomacy-Nelly Neil) Sumerton Hope (Woodcote Hermit-Bully Boy's Daughter).

SAPPHO (14965)—Neil Munn, Toronto, owner. Mr. Fairthorne, Toronto, breeder. Dark brindle. Feb. 7th., 1914. Sire, Ch. Cheetham Squire (12307). Dam, Dufferin Girl; Moston Marshall (13927). Dam, Woodley Queen (Golden Star-Woodley Betta).

SUNNY MORN (14927)—Jas. E. Giles, Toronto, owner. A. Rostance, 12th., 1914. Sire, Capilano Brindle. Sept. (13986). Dam, Jean McGregor (14068).

OAKDENE JESS (14902)—Miss Brown, N. Vancouver, B.C., owner. Mrs. A. L. Brownlie, Victoria, B.C., breeder. May 8th., 1914. Black and tan. Sire, Capilano Chinook (13986). Dam, Kil-larney Xmas Gift (12340).

OAKVILLE GYPSY (14829)—C. S. Furness, Toronto, owner. Alex. Williamson, Gladstone, Mich., breeder. Black and red. Aug. 8th., 1913. Sire, Bentz W.; Endcliffe Crack (Watlands Duke-Watlands Princess) Lorna (Marshall Tinner-Culbertson Jewell). Dam, Midge; Waterside Bruce (Testator-Waterside Gypsy) Claybreek Midge (The New King-Broadlands Bell Nell).

ROCKLEY GYPSY (15016)—P. R. Hilborn, Preston, Ont., owner. S. Perkins, Toronto, breeder. June, 1913. Grizzle and tan. Sire, Clonmel Master Crack (13303). Dam, Llangollen Nelly (13302).

ROCKLEY MILITANT MAID (14993)—Sid. Perkins, Toronto, owner and breeder. Black and tan. March 5th., 1914. Sire, Rockley Ranger (14188). Dam, Rockley Prescription (13905).

ROCKLEY MILITARY MAID (14995)—Sid. Perkins, Toronto, owner and breeder. Black and tan. Dec. 25th., 1913. Sire, Birchcliffe Nailer (13674). Dam, Walnut Coquette (13458).

ROCKLEY PARAGON (14994)—Sid. Perkins, Toronto, owner. Mr. Gill, England, breeder. Black and tan. Sept. 23rd., 1913. Sire, Monsall Crack; Primrose Regent (Primrose Rebound-Primrose Research) Primrose Jewel (Stretton Masterpiece-Lady Lofty). Dam, Carlton Beauty; Midland Royal (Master Royal-Madam Briar) Midland Royal-Bearwood Beauty).

SILVER BIRCH FALKA (14825)—Harry Clayton, Toronto, John Edmunson, England, breeder. Black and tan. Sire, Primrose Rebound; Primrose Royalist (Midland Royal-Primrose Darkie) Primrose Marguerette (Bollington of Clipstone). Dam, Thistlebottom Kitty; Astonishment (Brounhill Pluto-Nancy) Young Belle (Master Stormer-Belle).

WOODLANDS BESS (14857)—S. S. Naylor, Port Arthur, Ont., owner and breeder. Black and tan. April 17th., 1913. Sire, Thunder Bay (12724). Dam, Woodlands Gipsy (14858).

WOODLANDS GYPSY (14858)—S. S. Naylor, Port Arthur, Ont., owner and breeder. Iron grey and tan. April 11, 1911. Sire, Oakroyd Terror; Freeman

normal. When two normal people with night-blind parents and grandparents marry, we may predict with confidence that none of their children will inherit the disease." (R. C. Punnett; Mendelism in Relation to Disease. Proc. Roy. Soc. Medicine, March, 1908). Sir Shirley F. Murphy said in discussion which followed: "Mendel's law seemed to be established for certain characteristics and within limits." . . . "The theory had arrived experimentally at the stage of being of considerable importance to the . . .

KENNEL NEWS AND NOTES FROM WINNIPEG.

Sportsmen throughout the Dominion will have to raise their hats to A. W. Riedle, of the Edelweiss Brewery, who has lately been crossing his breeds in an endeavor to obtain an ideal sporting dog, and as a finishing touch to his study has succeeded in importing direct from the Dumfriesshire Otter Hunt Club in Scotland, a brace of perfect specimens of the Otterhound, the first and only of their class in Canada. The general opinion upon the dogs' arrival in Winnipeg was that they were German Sheep Dogs, even dog fanciers passed their comments like this, which goes to prove the rare specimen Mr. Riede has obtained. They stand about twenty-five inches high, and without their shaggy rough coats, would bear a strong resemblance to the Bloodhound, in fact, a strong trait of this can be found in their doggedness when on game, and this, coupled with the quickness of the Terrier, and the retriever's instinct, serves to make them the best all round sporting dog bred. Water has no terrors for them, as has been proved when under such after the otter.

The dog "Trueman" is by Tom Boy out of Doreen, black and tan in color and was born May 28, 1913. He is a massive built dog with long hanging

ears, intellectual head, and with an eye sunk almost out of sight.

The bitch "Delta" is also by Tom Boy out of Damsel. She is grey and white, also massively built, and though standing the long journey a little better than the dog, is looking at present the more handsome of the two, but in a short time, and in condition, it would be hard to pick the better.

All the more credit is due Mr. Riedle for the importation of this specie owing to the fact that he has brought them to this country for no other reason than sport alone, and not to make money from the breeding of them. They will be before the public for inspection at the forthcoming Winnipeg Kennel Club Show, and should prove a big attraction, worth going a long way to see.

Mr. Riedle has also a nice black curly retriever bitch, which he intends benching and this entry ought to take a lot of beating.

Geo. Gerrard, of 194 Gwendoline St., is pinning his faith to a couple of very nice Collies he has, a dog Napoleon, by J. Milner's well known Ch. Corona Commander out of Lady Brum, eight months old, and a bitch, Lenora by the same sire, and out of Corona Daisy, five months old. Big entries and all as are expected in the Collie class, those two should make a big hit out in holding their own at the October Show.

Smooth Terrier fanciers will learn with regret of the death by poisoning of that great little dog Madison Mascot, but Messrs. Village and St. John have some consolation in the fact that he is the sire of a nice litter of puppies, born August 4 and doing fine.

Mr. Belcher, of River Avenue, is busy shining up his two entries of Field Spaniels for the show. These are St. Ebony and Lady Ebony, the latter being a full sister to the famous Ch. Carnfield Queen and commented upon by critics as being the best specimen of this type ever benched.

P. Ross, of Cobourg Ave., has shipped his young imported Airedale bitch to Toronto for next month's show. He is very reticent as to his chances of winning with her there, but it is to be hoped she will earn her spurs at this her first Canadian show.

Trafford Kitty Karnation, the Bull bitch recently imported by H. St. Lawrence, will make her debut on the Canadian show bench at Toronto Exhibition

next month. This bitch has already done some good winning in England, having won at such shows as Birmingham, Manchester, Liverpool, etc., and we hope that she will also maintain Winnipeg's honor as a canine centre.

Tom Milner, the Collie man, prophesies the largest number of exhibits in the Collie class, combined with the highest standard of dogs ever seen in Western Canada, and will give the east too, a hard run for it, for that matter. This certainly looks healthy as to the popularity with which shows under Canadian Kennel Club rules are held.

Mr. W. Barlett, 490 Banning Street, has a very stylish young sable and white Collie by Corona Commander out of Lady Brum, and at present Corona Cyclone, as he is named, looks like being among the ribbons in October.

A meeting of the classification Committee of the Winnipeg Kennel Club was held at the Industrial Bureau. The Committee comprised of Messrs. A. F. Picard, J. Milner and H. St. Lawrence, spent the evening in thoroughly arranging the classes. Several very important additions will be recommended in Irish Wolfhounds, Bloodhounds, Greyhounds, Irish Water Spaniels, Clumbers, Toy Poodles, Yorkshire Terriers, Toy Spaniels and Pekingese. A class was also added for Chows and Otterhounds, and probably a special class will be added for Spitz. will also be a miscellaneous, a selling class, and a children's miscellaneous class, which should also prove very popular as the dogs must be owned and shown by the children themselves. Several other important items in connection with prize list and order of judging will be recommended.

On the same evening a well-attended meeting was held of the benching committee when plans for benching the large numbers of dogs was fully gone into. This occupied the whole evening and arrangements were completed as to lumber, etc. required. It was also proposed that the club should build its own benching, and thereby have it for permanent use, and this found popular favor with the meeting.

"Dinky Hooker," C. K. C. S.B. 12884, is the property of Mr. S. C. Taylor. This Boston Terrier was mentioned as having beaten Mr. Ellsworth's Lord Fi Fi, which ought to have been Ch. Ellsworth Lord Fi Fi.

Mr. McColl, of the Border Kennels has some nice Clumber Cpaniel puppies about twelve months old, coming on fast which are expected to make a great name for themselves in the near future.

He intends having four or five exhibits at the October Show including that Grand dog Ch. Rivington Ronald acknowledged to be the finest Clumber ever imported.

Mr. Sauerwald of Carlow Ave, intends taking very strongly to the Collie fancy, and in future his kennels will be known as "The Meteor Kennels," he has at present one or two handsome puppies which will be heard from at the forthcoming show.

Mr. W. F. Gorth, Manitoba Cocker Kennels, is sending two exhibits to the Toronto show, "Ch. Manitoba Swift," and "Manitoba Darling." The first named needs no further mention, his record itself is sufficient, and it will be surprising if Manitoba Darling does not get among the ribbons there, too. He will have about a dozen at the October show, and as he has the largest breeding winners in the west to his credit, he will no doubt be out to uphold his honor.

Messrs. Village and St. John, it is pleasing to learn, will be back in the limelight stronger than ever, seeing the forthcoming show is to be held under Canadian Kennel Club rules, this means that Fox Terrier fanciers better get busy, and hold their own. Ch. Arrabella, and Madison Magnet will again be shown. Magnet has already cleaned up twice out of three times shown, and I am sure the smooth hair class will again welcome their inclusion. They expect a litter of puppies soon by Madison Mascot out of Madison Acclamation.

Mr. Hogg will again be seen in the ring in October with Lady Minto, that nice young sable which made such a nice showing in February. At present she is a little out of condition, but ought to be in good shape by the time of the show.

Owing to the future trouble in transportation which is likely to arise through the present condition of the country it is very doubtful if Mr. J. Milner will be able to carry out his intentions of going to Toronto in charge of the Winnipeg dogs and at the time

OUR FRONT PAGE ILLUSTRATION

THE WINNING AIREDALE TERRIER DOG

WATLANDS MARKSMAN

(K.C.B.S. 248S)-(C.K.C.S.B. 14814)

The property of Lawder & Russell, London Junction.

The photograph which we reproduce on our front page this month is that of the well-known show and stud Airedale, Watlands Marksman, a dog that has won over 40 1sts, 17 2nds, two 3rd prizes, and five times special for best exhibit in the show at twelve shows, under twelve different judges, thus making the prizes awarded to him more meritorious, as all are at good

shows, including the National Championship Show, Birmingham.

It would be superfluous to describe Marksman, beyond stating that he is one of the very best Airedales ever benched, and perhaps the hardest-coated dog of his breed before the public. It is not only as a show dog that Marksman excels, but as a sire he will prove to have few, if any, equals.

of writing has practically decided, rather than have the dogs kept overdue for a day or so in the train, it will be better not to undertake the journey.

The Winnipeg Kennel Club as well as assuming gigantic proportions in the city, seems to have spread the infection as far as Portage la Prairie as it can now lay claim to members from that quarter.

Mr. Warren has a chocolate Pomeranian that he intends pinning his faith to at the October show, and it certainly looks good too.

SHORT BARKS.

S. C. Taylor writes: "I have been so busy in connection with the coming show that I forgot to inform you last month that my Airedale bitch, Elmwood Illustrious, presented me with a litter of seven on July 13th, sired by Midland Romulus. For intense type and beautiful color they would be very hard to beat, and taking into consideration the fact of it being her first litter, and that she was bred to Mr. Ross' dog a few days after his arrival from England, it speaks volumes for his sterling qualities as a sire.

Mr. LeBaron Wilson's Wire Fox Terrier bitch, Northern Rose, whelped 9 puppies, 5 male and 4 female, on July 17th, sired by Ch. Hawes Broom.

Robert B Laskey and Laurence MacLaren have been appointed assistants to the secretary-treasurer of the New Brunswick Kennel Club during the coming show, Sept. 8-9-10.

The St. John Airedale bitch, Roekley Memoir, is showing heavy in whelp to Rosecroft Red Feather, which dog won best Airedale in show at Newport on August 6th.

The N. B. K. C. are offering a small silver cup for the best in each breed with three or more dogs present at their show to be held in St. John in September.

Mrs. Wyndham's Rodney Brenda is showing heavy in whelp to Ch. Charlemagne of Never Never Land.

Mrs. A. H. McConnell, of the Madrona Kennels, Gordon Head, Victoria, B.C., reports a fine litter of Wires by Madrona Driver, out of Madrona Spoons.

The 20th Century Kennels

Owned by MR. J. PERKINS, Toronto

From Airedales to Bulldogs, from Bulldogs to Fox Terriers are some of the jumps taken by the popular owner of this establishment. In each and every breed, which are handled from time to time, prominent winners are brought out, champions are made, and in some cases the latter even claim their birth place in the kennels, showing the universal success of these kennels no matter what they undertake. Among the Airedales at first brought out by these kennels was Rockley Belvoireen who in turn bred Rockley Ranger, Ch. Auckland Luckystone and Auckland Spruceness. Then came the dam of Tintern Royalist who bred Tintern Tecumseh. In Bulldogs Layham Pride was the foundation, being imported. She soon annexed the title of "Champion" taking winners prize at the Toronto Exhibition two years in succession. She

CHEETHAM'S DAUGHTER

bred Cheetham Countess, Cheetham's Daughter and Titterstone, all of them frequent and well known winners. In fact, probably the best litter ever bred in America, and the well known heavy-weight stud dog Worsley Dreadnaught, probably the shortest bodied heavyweight in Canada is now in these kennels. "Hawes Broom" introduced the Wire Haired Fox Terriers into this kennel. His meteoric career of 1913 being still fresh in our memory. "Leeds Waltz Dream" is the latest purchase in this breed, being bred by Alf. Delmont, and successfully shown on the other side of the line. She commenced her career at New York this year, and in a very short period many firsts and winners fell to her share. She will make her bow to the Canadian ranks at the Exhibition.

LEEDS WALTZ DREAM

CH. HAWES BROOM

SHORT BARKS.

The Knockmore Kennels of Mr. J. Y. Ormsby, of Toronto, have a litter of four West Highland White Terriers, whelped June 16th, by Dunvegan Skeoch, the wellknown sire in Scotland, out of the imported bitch, Dumyura Daisy.

In addition, these kennels have two puppies, both bitches, by the famous Ch. Ensay, a winner at Glasgow, Ayr, Edinburgh, Birmingham, Manchester, and challenge certificate Ladies' Kennel Association, London, out of Dolly, she by Dunvegan Skeoch.

The quality of Airedales being imported into our Northwest is improving wonderfully. Among others a recent importation is Caerphilly Sunshine, a daughter of our Caerphilly Betty, by Caerphilly Actor, and as she is coming out in whelp to Caerphilly Performer, there should be some storming puppies. She is described as one of the best bitches that ever left England.

Mr. William Morris has just imported from England a Scottish bitch by Abertay Bombadier, he by Ch. Kippock Dugold. Her dam is by the great Ch. Chevalier.

Princess Patricia, Mr. McFarland's well-known Bull Terrier bitch, has whelped five puppies to Inferno King.

Mr. W. E. Harkness, of St. Bernard fame, reports a litter of twelve puppies, 7 bitches and 5 dogs, out of Dolly Grey II., by Alta the King.

From the official list of members for 1914, published in August "Kennel and Bench," was omitted the names of R. Fred Pettit, Albuquerque, New Mexico, and James R. Flemming, Vancouver, B. C.

Mr. W. Evans, of Caerphilly, has just shipped to Canada that good bitch, Gowerton Heroine, a winner at Cruft's, Botanical Gardens, Taunton, and West-super-Mare Shows. She is in whelp to Ch. Caerphilly Performer. The purchaser is Mr. P. Bawden, of Caerphilly Kennels, Ont.—Our Dogs.

Mr. J. K. McCombs, of Oshawa, Ont., reports a fine litter of eight pups by

Cheetham Squire. They are now about eight weeks old and are doing fine.

We wish to correct the error in our last month's issue in the kennel names, which should read as follows: Drumclaph Kennels, Ville Ste. Pierre, Que. Dumbarton Kennels, W. J. E. Newton, and L. K. Hickey, Ottawa.

Mr. Chard has bought a rough coated Collie, Langford Statesman, from Mr. Holmes, of Langley, England. Langford Statesman is a winner of two first and two second prizes the only time he was ever exhibited.

At last we have landed our good friend, the genial President of the Canadian Kennel Club, Mr. John G. Kent back into the dog game. He has purchased Master Butcher, a Greyhound sixteen months old, and described by some of the best judges in England to be the best dog there, and capable of beating St. Blaze when fully matured. He is a twenty-eight inch dog at the shoulders with a perfect head, long neck, well placed shoulders, big ribs, good arch and loin, nicely turned stifles, well let down in hock and pasterns, great depth of brisket, perfect front, the best of feet, teeming with quality and good tail carriage. He will be a great addition to all our shows. He was purchased through Mr. Bert Swann, who will have care of him. He comes from the Greyhound centre of England, namely Cornwall, noted for its long tails for a century, and as his name indicates is by the famous Butcher Boy. He has only been shown four times at Helston, Penzance, Royal Cornwall and Redruth, winning five firsts, three seconds and a shoal of specials.

Mr. R. H. Morris is dipping into a new breed and is adding the Bloodhound "Boreas," to his kennels. He is an eighteen months old black and tan, winner of the first puppy at Portsmouth and first puppy and special novice at Gainsboro Hound Show. His sire is Ch. Old Ship Tryon. It is interesting to know that Boreas is trained to track.

The additional judges for Shelburne Show will be for Terriers, Mr. James W. Bain; for Boston Terriers, Mr. Fred Williams and for Bulldogs Mr. Bert Preston all of Toronto.

The additional specials for Shelburne are, for English Bulldogs \$3.00 for first

and \$2.00 for second, donated by Mr. John Best M.P. for Dufferin. The Bulldog Breeders' Association of Canada also offered their regular specials.

The Madrona Kennels of Gordon Head, Victoria, B.C., report a nice litter of Wire Haired Terriers, six dogs, all of which look very promising. They are out of Miss Circuit (Ch. Short Circuit-Denham Baccante) by Receipt of Paignton (Barrington Banker-Nettle of Paignton).

Mr. Jas. D. Strachan was so well pleased with the square deal he got when he purchased Weston All Quality from the Weston Collie Kennels, Winnipeg, that he has been "nibbling" after another good one, and succeeded in getting a real nice sable and white bitch in Weston Adoration, full of quality and Collie character, which when in full bloom will trouble the best. Adoration is by Weston Master Sample out of Weston Admiration. Adoration will be mated to Weston Emperor before leaving for Toronto.

Mr. Chas. L. Mewburn's Airedale Terrier bitch, Danby Graceful whelped a strapping strong litter of ten, five of each sex, by Mr. Jas. W. Bain's well known, imported winner, Ch. Birchcliffe Oorang.

Mr. Chas. L. Mewburn, of Hamilton, had the misfortune to lose his good Wire Haired Terrier bitch, Lynnfield Jessica, through being kicked by a horse.

Dr. C. Y. Ford, who was in England when war was declared immediately volunteered and was appointed a first lieutenant in the Royal Army Medical Corps. He is already with the expeditionary forces in France.

Dr. Ford's good Collie bitch "Otterburn Blonde Beauty" has whelped eight healthy puppies by Ch. Knocklayde King Hector (formerly Weardale Lord) and his bitch Otterburn Fashion Plate has been bred to Parbold Picaroon.

A very persistent rumor is about that we are to lose Ch. Birchcliffe Oorang. If this is correct it is a serious loss to the breeders of Toronto, and many will regret that they did not use him. Toronto's loss will be Regina's gain.

WINNIPEG KENNEL CLUB BENCH SHOW

Under Canadian Kennel Club Rules.

OCTOBER 13th TO 16th, 1914

NEW YORK

MEXBORO PAT AT STUD

England's latest sensational Irish Terrier, winner at the classic features only.

Fee for the next ten bitches, \$20.00, after which his fee will be \$25.00 prepaid.

Pat, now at the age of seventeen months, has won over sixty-five firsts and specials, including reserve winners at New York, where he beat out eight of the best dogs in America, and the nominations of America's leading kennels.

Pat is a young, vigorous dog with Mile End Muddler for a grand sire, Breda Muddler for a great-grandsire, Breda Mixer for a great-great-grandsire, and Bolton Wood's Mixer for a great-great-great-grandsire, and is a son of the International champion, Crow Hill Shamus.

Without solicitation Mr. F. M. Jowett said: "Pat is undoubtedly a great stud proposition." A rich, red, hard coat, great head, bone, front and racy outline which cannot fail to be transmitted to his progeny.

YEAR BEGINS SEPT. 1ST.

To DR. A. BOULTBEE, Sec'y-Treas., CANADIAN KENNEL CLUB, (Incorporated)

774½ Yonge St., TORONTO

Please propose my name as a member of the Canadian Kennel Club, with all
 privileges, and find fee enclosed (\$3.00) for first year, which includes 50c. for annual
 subscription to "Kennel and Bench."

Name.....

Address.....

Nominated by.....

NOTE.—The Secretary will gladly send any further particulars desired.

It is distinctly understood that members' names remain on the Club's roll until definite notice to remove
 same is received by the Secretary. The Stud Book and "Kennel and Bench" are sent only to those whose
 fees for the current year are paid, but back numbers are retained and will be sent when arrears, if any,
 are paid.

Representatives to C. N. E., Toronto:
 J. W. BAIN. W. P. FRASER.
 Pacific Coast Advisory Board.
 Chairman:

ALBERT GREENWOOD.....Jubilee, B.C.

Why you should become a Member of the Canadian Kennel Club (Incorporated)

1. The Canadian Kennel Club is Canada's National Kennel organization, and stands for all that is honest and fair in dogdom.
2. It exists to protect Canadian dogs and their owners.
3. The annual fee is nominal, the privileges many. (See below.)

SCALE OF FEES AND PRIVILEGES OF MEMBERSHIP.

1. Annual membership fee \$3.00 (payable in advance).
2. Cost of registration \$1.00 each. One free each year to each member.
3. Cost of listing 25c for each show.
4. Fee for seal of pedigree, 25c.
5. Copy of pedigree to members, 25c, to non-members, 50c.
6. Transfer of registration, 25c.
7. Registration of prefix, affix and kennel name \$3.00. Annual renewal of same, 50c.
8. Transfer of prefix, affix and kennel name \$3.00.
9. Duplicate of certificate, 25c.
10. A fee \$1.00 to cover average cost is charged for the investigation of each complaint not arising out of misconduct at shows, held under C.K.C. rules. No charge is made to members.

ADDITIONAL PRIVILEGES.

In addition to the privileges noted above, membership includes a copy of "Kennel and Bench" each month.

Members get the Annual Stud Book, containing all registrations and wins for the year, FREE.

The Canadian Kennel Club offers at each show held under its rules, handsome silver and bronze medals for which NONE BUT MEMBERS MAY COMPETE.

A handsome silver cup is awarded each dog attaining championship honors, where registered and WHEN OWNED BY A MEMBER.

Full information gladly sent on reference to

DR. ALFRED BOULTBEE, Sec'y-Treas.,
 TORONTO, ONT.

C. K. C. Rules, of proper size, and with all changes, may be had from the Club at \$6.00 per 1,000. To avoid error it is desirable that they be used.

Judges' Books also supplied at following prices, free by mail: 30 pages, paper cover, 15c; 60 pages, board cover, 25c. Samples free.

Dogs and All About Them

ROBERT LEIGHTON

Owners of dogs, whether breeders or not, will need no other guide than Mr. Leighton's work. They will learn from it all about the various breeds known in Great Britain, and if they wish to know whether their dogs are likely to become prize-winners, they can compare their animals' points with the show points set forth fully in this book. All details of breeding, management, and treatment of common ailments are enumerated.

Trophies Worth While

While true sportsmanship insists that the prize be an entirely secondary consideration, in fairness to the prospective winner it should be really worth while.

Our Medals, Cups, Shields, etc., are of a quality that will bring pride to the winner and reflect credit on the donor. Yet, they are most reasonably priced. As we supply the medals for the Canadian Kennel Club, you may feel safe in entrusting your orders to us.

We will be very glad to give special quotations, or submit original designs for anything of this kind that you may have in mind.
