SHERLEY'S TABLETS FOR FITS*

A certain cure for fits. A medicine that every dog owner should keep at hand, as one never knows when it may be required. Price 50c.

SHERLEY'S CHEMICAL FOOD TABLETS

A splendid tonic medicine for growing puppies, especially if not thriving or weak as the result of worms. These tablets are wonderful bone formers, and are a sure preventive of rickets. Price 50c.

For other of our Medicines consult "Hints to Dog Owners"

*Items marked * are equally suitable for cats and kittens*

SHERLEY'S "SKINCURE"*

A non-poisonous specific for the cure of all forms of mange, eczema, ringworm, and other skin diseases in dogs or cats. Cures mange for certain in a week. Price 75c.

SHERLEY'S "SHAMPOO"

The Shampoo cleanses the skin, removes dandruff, stimulates the growth of hair, and gives the coat a healthy, glossy appearance. It prevents eczema, and destroys fleas and other insects. Price 75c.

SHERLEY'S DRY SHAMPOO

(A spirituous liquid for Washing Dogs without water).

Invaluable for delicate dogs and those inclined to rheumatism, and for all dogs in cold weather. Specially suitable for washing Show Terriers on whom a hard coat is wanted. Price \$1.00.

SHERLEY'S TONIC AND CONDITION POWDERS*

These powders are tasteless and will create an appetite and get a dog into condition better than any other medicine. They are most valuable, also, for dogs who feed well, but yet never carry any flesh. May be given with perfect safety to the smallest and most delicate pet dogs. Price 50c.

SHERLEY'S CONDITION AND NERVECURE TABLETS

(Not for Toy Dogs or Puppies)

Invaluable for getting dogs into condition for show; also in all cases of chronic skin disease, like eczema; a cure for paralysis, and a great help in cases of chorea. A very valuable medicine for stud dogs. Price 50c.

SHERLEY'S CANKER LOTION*

A very soothing and quick-curing remedy for this painful disease of the ear. Price 75c.

For very severe or chronic cases SHERLEY'S CANKER POWDER should be used. Price 50c.

SHERLEY'S ANTI-DIARRHOEA POWDERS*

(For Diarrhoea and Dysentery)

A safe and effectual remedy, free from opium. May be given to the smallest and most delicate dog. A valuable remedy, also, for sickness. Price 50c.

"LACTOL"

A substitute for the milk of a bitch; a wonderful food for weaning and rearing puppies, fox cubs or kittens, and for feeding invalid dogs. Puppies reared on it thrive remarkably, and do not suffer from indigestion, vomiting, diarrhoea, rickets, etc., as when given cow's milk or other foods. Puppies love Lactol.

In Tins, Price 75c. and \$2.00

MEETING OF THE BOARD OF DIRECTORS, CANADIAN KENNEL CLUB, INC.

The regular monthly meeting of the Board of Directors of the Canadian Kennel Club, Inc., was held at the offices of the club, 25 Melinda Street, Toronto, on Thursday afternoon, May 20th, 1926, at 2.30 o'clock. The president, Lt.-Col. G. F. McFarland, in the chair. Directors present were: Brig.-Gen. C. M. Nelles, and Messrs. J. W. Bruce, Reg. P. Sparkes, V. G. Perry and N. K. Swire. (Lt.-Col. J. N. MacRae arrived late, having experienced trouble with his auto on the road to the meeting).

The secretary advised the directors that Capt. W. S. Smith (London), was still confined to his home, and that he had written expressing his regrets at being unable to attend the meeting.

The secretary reported having heard from Dr. George Hilton, the Veterinary Director-General, regarding the Rabies' situation, and was advised to publish Dr. Hilton's letter for the information of the members. The letter follows:

"Ottawa, May 14th, 1926.

Dear Mr. Strachan:—

I beg to acknowledge the receipt of your letter of the 13th instant, in which you advise me that the Board of Directors of the Canadian Kennel Club will meet on Thursday, May 20th.

In reply to your request for a report with regard to the Rabies' situation, I would say that there has been very little change. We are confirming cases of Rabies at regular intervals and are experiencing difficulty in enforcing the muzzling and detention order. Many owners turn dogs loose without muzzles, and, as you will readily understand, it is not possible to have a multitude of inspectors in order that every case of this kind can be promptly taken care of. Many prosecutions have been instituted and unless owners will obey the law in this respect we may still be confronted with a very widespread outbreak of this disease. It has fortunately, as far as I am aware, not extend-

ed beyond the present infected territory, which is as follows:

(a) The townships of Alleyn, Ca-wood, Aldfield, and Onslow, in the County of Pontiac; (b) All that portion of the County of Hull lying south of the townships of Wright, Northfield and Blake; (c) The County of Papi-neau; (d) The City and Island of Mon-treal.

2. In the Province of Ontario, the counties of Carleton, Russell, Gren-ville, Dundas, Lanark and Leeds.

(Sgd.) GEORGE HILTON,
Veterinary Director-General."

The secretary reported that he had been advised by Mrs. H. L. Jordan, Saskatoon, to the effect that she had secured the registration of "Idylwild Choke Cherry" from Mr. J. C. Fletcher, and it was agreed, that the mat-ter had been adjusted to the satisfac-tion of the Board.

The report of the British Columbia Provincial Committee as submitted by the Committee Chairman, Mr. Alex. McCloy, Victoria, was read as follows:

British Columbia Provincial Committee."

"At a regularly convened meeting of above Board held in Vancouver 1st May, the charge made by Mrs. E. A. Dunn against Mr. T. Cruickshank, of using obscene language, acting in an unseemly and unsportsmanlike manner was investigated. Mr. Cruickshank ap-peared and thoroughly and openly ad-mitted his fault, tendering the fullest apology. The Board then discussed the matter fully and came to the unani-mous decision that he (1) apologize in writing to Mrs. Dunn; (2) apologize in writing to the Vancouver Kennel Club. The matter of suspension was discuss-ed and it was the feeling of the Board that this being the first case of the kind coming before the Board, that a rep-ri-mand would be sufficient. The Board wish it to be clearly understood that any case of a like nature or of inea-

briety at future shows coming before them will be severely dealt with.

(Sgd.) Alec. McCloy (chairman).

" T. E. Sleeth, V.S. (Director).

" Neil Kelso.

" Gerald L. Stock.

" Albert Greenwood."

It was regularly moved, seconded and carried: "That the report of the British Columbia Provincial Committee be received and its recommendation adopted:

"That he (Mr. T. Cruickshank) (1) apologize in writing to Mrs. E. A. Dunn; (2) apologize in writing to the Vancouver Kennel Club."

The expense vouchers in connection with the investigation being on the table, they were ordered to be paid.

"That, the report be laid on the table and a copy of it be forwarded to each

director, and in the meantime the committee secure information regarding possible applicants, the committee to be asked to make a further report at next meeting if possible."

The secretary reported that he had asked for tenders for the printing of Kennel and Bench and that he had five tenders on file. These were carefully gone over, and it was regularly moved, seconded and carried:

"That, the secretary request the firms tendering to furnish a dummy to show the paper stock, color, printing and general make-up."

This being the business coming before the meeting, it was moved,

"That the meeting adjourn."

RADIUM OF DARA AN INTERNATIONAL CHAMPION.

Mrs. D. Beland, Montreal, advises Kennel and Bench that the handsome little Orange Pomeranian that she imported from England during May, 1923, and picked up eleven championship points at Canadian Shows in short order thereafter, has just finished his International Championship for his new owner, Mrs. E. M. Hollenbeck, at Chicago show. This is indeed good news, and the importer and present owner have our sincere congratulations.

We notice, too, that Bojota Sheila and Bojota Firebug, two Pomeranians sired by Twilight of Pomona, have won their American championships for Miss Hydon, New York. These last two celebrities are "grandchildren" of Ch. Stormlight of Dora, emphasizing the care that Mrs. Beland takes in her importing and breeding operations in connection with her kennel.

CANCELLATIONS.

WESTERN ONTARIO KENNEL ASSOCIATION, PORT STANLEY SECTION.

Cocker Spaniel, "Nig," Novice bitches, ineligible, as no breeder or place of birth is given, placing "Gypsy," 2nd. No reserve.

Cocker spaniel, Limit dogs (particolor), "Dough Boy," ineligible, as it has already completed four prize wins in the limit class at the Western Fair Association in 1923.

Collie, Novice bitches, "Broadway Rose," ineligible, as it has already won a first prize in the novice class at the London Canine Association Show, in 1914, placing, "Countess Flossie," 1st, and "Standard's Jean Strongheart," 2nd.

THE CANADIAN FANCY

By WALTER H. REEVES, Belleville, Ont.

INT. CHAMPION
AVONDALE
MARVEL OF
E. Chevrier,
Winnipeg, Man.,
Owner.

I N my wanderings across Canada, after the late war, I was at a loss to understand the reason why, with such mineral wealth practically untouched, Canada, apparently, was not going ahead like the United States! Having always been more or less interested in developing gold and oil fields, I became more interested in Canada's undeveloped fields, and after careful investigation, obtained several options and took them across to England, thinking that I would find little trouble in obtaining the necessary capital.

But I soon found out that British investors were shy of sending capital to Canada, the main reason being that these rich fields had not been sufficiently brought to the notice of the English investor.

This is a day of publicity and advertising, and no matter how good your dogs may be, if they are not brought before the dog-loving public by the medium of your club's official organ, *Kennel and Bench*, and also by exhibiting them at the best shows, you are certainly going to find difficulty in finding a market for your surplus stock.

Dogs to-day in England are a national industry, and I can see no possible reason why they should not prove to be one of Canada's greatest assets. We have undoubtedly the breeders and the stock to produce, and we have a ready-made wealthy market at our doorsteps. Automobiles have been the means of really changing the home life; on the American Continent a few years ago everyone was moving to the cities, to-day it is found possible to enjoy the country during several months in the year, and everywhere I go in the United States I find the suburbs being developed and the business man making his home somewhere in the country.

This change means a far larger field for the sale of dogs. Almost the first thing purchased is a dog to act as a guard and companion.

The average American, when he decides to purchase a dog, also decides to buy a well-bred one, and therefore Canada needs more men like J. F. Strachan, J. Cassina and E. Chevrier, who will not be content with just exhibiting at the Canadian shows, but will take their teams across the border and try conclusions at the most important shows there.

It has occurred to me that a committee should be formed for the purpose of seeing that Canada is worthily represented at what promises to be the greatest show ever held on the American Continent, the American Kennel Club's first dog show, which is to be held in con-

junction with the Sesqui-centennial Exposition at Philadelphia, the end of September. Why should we not approach the American Kennel Club and try and make arrangements for a Canadian section? This is an age of publicity and advertising, and what better way could the Canadian breeder find to bring his dogs to the notice of the American dog-loving public than to be represented at the Sesqui-centennial Exposition? Canada can get together a wonderful team of dogs, and we have several excellent handlers, such as Geo. Kynoch and Bert Swann, who would be willing to take and handle dogs for any exhibitor who could not make the trip himself.

In nearly every known breed, Canada can make an excellent showing, and in bulldogs and springer spaniels we lead the world. We therefore should not let this unique opportunity go by of bringing our Canadian bred dogs to the notice of what is to-day the best market in the world for high-class dogs—the United States.

We have four months to get our team ready, and I would suggest that a committee be formed and reliable delegates appointed to canvass entries for the Canadian exhibit. I hope this suggestion for a Canadian exhibit at the Sesqui-centennial meets with the approval of our popular President, Lieut.-Col. G. F. McFarland. If he would consent to act as chairman of the committee for the Canadian exhibit, Canada, I know, would be well represented at what is going to be the most important show on the American Continent, and there are just grounds for thinking it may prove to be the largest dog show ever held.

The most popular of our shooting dogs to-day is generally admitted to be the springer spaniel. Everywhere I go I find big entries of springer spaniels, and what is still more pleasing, the judging ring is thronged with a crowd of interested shooting men, who are unanimous in their praise of the working abilities of this old-time spaniel which has come so rapidly to the front during the last few years.

Springer breeders and exhibitors seem to be somewhat at a loss to know what type to favor. We see exhibited dogs that, the merest novice can see, have been produced with the aid of the English setter; others that closely approach the old-time monstrosity—the long and low field spaniel, which was simply useless in the shooting field, and also what is usually acknowledged the correct type and the type which, I believe, will keep the springer popular with both exhibitors and shooting men. This type is worthily represented by Mr. E. Chevrier's beautiful bitch, International Champion Marvel of Avondale.

I was talking with a number of men at Portland, Oregon, a few weeks ago who were interested in springers, and suggested that a club should be formed and a standard of points published. A sign of the enthusiasm of the springer men is shown by the fact that already steps are being taken to form a club and that a proposed standard has been sent to me for suggestions. As I know this will be interesting to many, I am publishing the proposed standard in my monthly article.

Proposed English Springer Standard.

Foreface. Nostrils well developed; soft, liver color, or black, according to the color of coat; muzzle deep, with plenty of upper lip and flew; jaws good length, straight and fairly square, and neither under or overshot; nicely chiselled below eyes.

Skull. Rising from foreface without a pronounced stop; fairly long and lean, of medium breadth; from the stop, a groove continues backwards to the front of the sagittal crest; two slightly rounded halves above the eyes; eyebrows and temples well developed; not thick in cheeks; occiput not domed, but top of occipital bone not projected too far back.

Eyes. Medium size, hazel, dark brown or nearly black, harmonizing with the color of coat, not prominent or sunken nor showing hard.

Neck. Long, strong and muscular, slightly arched, clean in throat.

Brisket. Not so wide as to interfere with the free action of the forelegs, but well developed, and nicely rounded in front of the chest and between the upper arms.

Shoulders. The blades wide and strong, and powerful upper arms muscular without being loaded.

Body (Including size and symmetry). Height of dog at shoulder, 18 to 20 inches; bitch, 17 to 19 inches. Not more length from top of shoulders to anatomical root of stern, should practically equal height; weight of dog, 40 to 55 lbs.; bitch, 35 to 50 lbs.; strong back, with walls of chest fairly deep, and moderately sprung ribs; strong loins; arch over loins and hip joints; belly nicely curved from chest to flank, but not in any way "tucked up."

Hips. Well rounded and powerful.

Thighs. Broad, well developed and muscular.

Legs. Forelegs—Elbows well let down, set straight, free action from the shoulder; movement straight; firm on feet, forearm straight in the same degree of size to toes, with strong, slightly flattened bone and muscle; wrist, sometimes called knee, straight and almost flat; pasterns short and strong; free, strong and compact; wavy or settery feathering down to pasterns moderate. Hindlegs—From hip to hock, sinewy; hock to heel, short and strong; stifles and hocks moderately bent and not inclined either in or out; firm on feet; feathering down to hocks moderate; too profuse feathering objectionable.

Stern. Not docked more than half, feathered; carried low when dog is quiet; may be gaily carried with lively movement when dog is excited, but not carried above level of back.

Coat. On head and front of legs, short and fine; on other parts, wavy or flat; medium length, sufficiently dense to be weather-proof, water-proof and thorn-proof; a nice fringe of wavy or settery hair on throat, brisket, chest and belly.

Color. Liver and white, black and white, blue roan and tan; any other color except red and white.

General Appearance. An active, well-balanced sporting dog built for endurance.

I think everyone interested in springer spaniels will agree that no one has done so much to popularize the breed on the American Continent as Mr. E. Chevrier. Living as he does in Winnipeg, an ideal shooting centre, Mr. Chevrier could hardly be otherwise than interested in shooting dogs. His father and grandfather were both well-known breeders of shooting dogs; therefore it will be understood that Mr. Chevrier very early in life became acquainted with sporting dogs. His first shooting dogs were pointers and setters and retrievers, but the vast number of game lost caused the owner and founder of the Avondale Kennels to pause and think whether he could not obtain a shooting dog that would serve as a dual-purpose dog.

With this object in view, and hearing such excellent accounts of the working and retrieving abilities of the springer spaniels, Mr. Chevrier decided to import a brace from England. They arrived and in due course were taken out into the field, and the untiring work and splendid ability shown by

them to find and retrieve their game on the first day's shooting convinced Mr. Chevrier that at last he had secured the ideal shooting dog for the sportsman on the American Continent.

The owner of the Avondales was so enthusiastic in his endeavor to own the premier kennel of springers on this side that he practically "cornered" the market, and it is

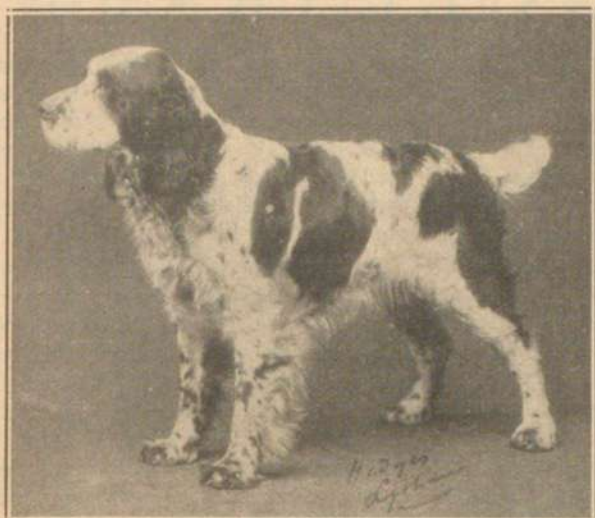

PRINCE OF AVONDALE, who is equally at home in the water as he is on land.

due to him more than any other man in Canada or America that this beautiful and useful type of spaniel has not only been brought so thoroughly to the notice of those interested in the breeding of high-class dogs, but also to the notice of the American sportsman. During the last four years Mr. Chevrier has imported from England close on three hundred prominent winners, included amongst them being the following celebrities: Dual Champion Flint of Avondale, Flush of Avondale, Ch. Dan of Avondale, Ch. Colinette, Ch. Springbok of Ware, Ch. Boghurst Rover, Ch. Laverstoke Powder Horn, Ch. Pierrepont Lass, Prince of Avondale, Rag of Avondale, Samson of Leam, Drag of the Cairnies, Blox of Leam, Pierrepont Prince, Messenger Boy, Little Merle, Ch. Little Colla, Ch. Laverstoke Powder Puff, Ch. Matford Patty Flight of Blockley, Downtown Bob, Bang of Avondale, Laverstoke Painter, etc., etc.

Mr. E. Chevrier has not only been instrumental in getting classes provided for springers at shows, but he has, with the aid of the springer field trials, interested the man who is looking for a dual-purpose shooting dog.

In spite of the vast amounts Mr. Chevrier has spent in importing springers from England, he must feel that he has been more than recompensed by the fact that he has succeeded in breeding what many judges consider the

CHAMPION L'ILE MESSENGER BOY

best Springer Spaniel yet seen, namely, International Champion Marvel of Avondale, to whom I had the pleasure of awarding at the St. Paul show last year the special for best dog or bitch in the show. This was the first time a Springer had gained this coveted position. Since this show, Marvel has repeated the win on several occasions, the last one, I believe, being the Portland show where I again placed her to the front when competing against a great entry of high quality exhibits.

Denver show, notwithstanding the fact that it has been experiencing somewhat of a slump on account of several bank failures, gained the largest entry they have ever had at their twentieth annual show. Over a hundred shepherd dogs were exhibited, the Jubilee Farms gaining winners on dogs with the aid of Held von Graustein and gaining the special for best Shepherd with Ch. Etzel Von Der Ettersburgh, the best of an extremely nice group of bitches being Mrs. Tilley's Gerta Von Der Koehelburg. Boston Terriers secured the second largest entry, a pleasing feature in this section being that the two winners, Kingsway Kennels' Hollis Handsome Pat and Mr. Guy Grimes' Lady Mina both completed their wins, which entitled them henceforth to have the coveted title of champion before their names. Fox and Airedale Terriers were alike good in quality and numbers; bulldogs were numerous but the majority of the exhibits were wanting in head properties. Collies, a capital entry of nice quality exhibits, an imported dog, Laund Law, somewhat easily gaining the special. Mr. R. Dougherty's beautiful team of Old English Sheepdogs caused quite a deal of interest, as did the nice entry of Pekingese exhibited by the Tien Hia Kennels. One of the exhibits from this famous kennel, Sim Dak of Chinatown, qualified by his win here as an international champion, and also gained the special for best exhibit in the show. Mr. Christopher Casack, the President, is very well known in St. Bernard and Bulldog circles, and also is well known for the quality of his stud of polo ponies. He takes a lively interest in improving dogs around Denver, and it was mainly due to his suggestion that any breeders of Bulldogs, who are not able to afford the outlay of sending their bitches to reliable sires, can have the stud fee and expenses advanced by the local club. The club takes one puppy for the fee and expenses. This is certainly a method that might be followed by several of our local societies. In all my show experience I have never met with a more capable ring steward than Mrs. Lloyd Wilkins, the wife of the secretary, Mr. Wilkins, who filled a

very difficult position with both credit to herself and the club.

Immediately after awarding the specials at Denver, I started for Port Jervis, N.Y., where the Bulldog Club show was being held. The name of the show, the Port Jervis County Club, was ideal. Mr. and Mrs. Hammond very hospitably entertained one hundred and seventy members and friends at lunch. The dogs were comfortably benched under a large marquee and the show arrangements were in the capable hands of the Foley organization. The entry was in advance of any Bulldog entry obtained for some years and the all round quality of the exhibits was really excellent. I was sorry not to find any of our good Canadian dogs competing. Mrs. Geo. Hammond had quite a sequence of successes in dogs, gaining Winners dogs with her remarkably good home-bred puppy, Sparrow Bush Captain Kid, and also gaining the special for best Bulldog with Ch. Sparrow Bush Sir Don. The Drewstone Kennels had a very easy win in bitches with Moston Gaby, certainly one of the best of her sex now being exhibited and a credit to her popular breeder, Mr. W. Drew. The judging was quickly over, but the very handsome array of beautiful trophies took up considerable time to award. However, thanks to Mr. Foley's excellent arrangements, and the capital assistance I received from my steward, my judging book was handed in before 5 o'clock, exhibitors and spectators alike thanking Mr. and Mrs. Geo. Hammond for their enjoyable day's outing.

FLINT OF AVANDALE

A notice has been sent to all authorized judges of the American Sealyham Terrier Club, that at the general meeting, held at New York, the following resolution was adopted: "Inasmuch as the Sealyham is a working Terrier, scars from honorable wounds shall not be considered a detriment or fault in the judging ring."

[In this article our able contributor, Mr. Walter H. Reeves, offers a very commendable suggestion indeed. It is a known fact that there are many Canadian fanciers looking forward to the American Kennel Club's show at Philadelphia, on September 30th, October 1st and 2nd, in conjunction with the Sesqui-Centennial Exposition, and it would be a splendid thing for Canada if we were able to have a Canadian section at this great show. We have the handlers and we have the dogs, our people have the desire, and all that remains to be done is to organize and to concentrate our efforts. Mr. Reeves has specifically named our worthy President, Lt.-Col. G. F. McFarland, and in doing so made the finest choice possible, and now we await the Colonel's acceptance of the pleasant responsibility.—Ed.]

NEW BRUNSWICK KENNEL CLUB SHOW

(Specially reviewed for Kennel and Bench).

By ROBERT B. LASKAY.

The Second Annual Spring Show of the N.B.K.C. was held in St. John, N.B., May 7 and 8. The venue same as last year is a delightful building, Pythian Castle, centrally located with the dogs nicely accommodated in the ball room on the club's recently purchased all new Spratt benching. This with good lighting, and all other conveniences, gave comfort to the exhibitor as well as exhibits. The new show committee, under the able chairmanship of Mr. Francis Kerr, who was most capably assisted by his show secretary, Mr. F. A. Linton, deserved all praise for this splendid spring annual. Mr. Charles C. Sullivan, of St. John, an ardent all-round fancier, judged all breeds with a fearless confidence quite his own which was commendable.

The classification was cut down considerably with puppy and novice classes mixed sex, leaving the open classes divided for Winners. Only a few of the so-called popular breeds gave much competition. English Setters, Airedale and Irish Terriers' entries were small indeed. Several real good puppies came out here and gave an excellent account of themselves, including a most typical Collie, Belgravia Squire. Brownie, a puppy pointer of refined type that topped a good entry; Petit Marchale, a very promising Frenchie. These won specials and awards in Variety classes.

This was a ribbon-show, with the exception of a few regular open variety classes—yet a well worth-while affair, though we exhibitors do miss a catalogue, always a ready reference and record of the show.

The breeds as follows: Newfoundland, one, and a good one, in bone, size, coat and color—Ch. Native Rover, owner, Theodore E. Rising. English Setters had a refined blue belton bitch, K. Wilson's Ridgeway Treasure, topping a small entry for Best of Breed and Winners, alone in her sex. She scores over the winning dog, Mr. Nixon's Glen May Fly in eye, shoulders and action. Reserve Winners dog, Mrs. Robert Smith's Salop, Jr., a blue belton dog not ready for showing. He is a long way off from the same owner's namesake, Wyoming Valley Salop, shown here some years ago. Irish Setters, always a popular entry with us, had a few new faces. Puppy Dogs and Bitches, Mayo Macushla,

owner, B. M. Montgomery, and Mayo Doreen, owner, R. J. Shaw; both very young, but of right conformation and color. Novice, Dogs and Bitches, had W. J. Magee's Teddy Connemara first, a heavy set, red fellow, good body, color, coat, legs and feet but fails in hock, neck and shoulders, maturity placing him ahead of Mr. Montgomery's Mayo Peggy and Mayo Doreen. Open, Dogs, were a mixed lot with Miss K. Craft's Brownie first, Mr. H. McLeod's Larry Boy second, and B. M. Montgomery's Mayo Dennis third. Brownie's best recommendation was skull and clean shoulders. He fails in coat, color and action. L. Boy looked best on general lines, a big raky sort, shown thin, but rather good type and color. Mayo Dennis hardly holding his own by far the best back of his shoulders of the three named.

The Winners, Bitch, had it easy in her sex and awarded Best of Breed—James Latimer's Irish Mollie, a well put up, big bodied bitch with a long head, quite good in front, eye, coat and color.

Borzoi, or Ruisan Wolfhound, had four entered and Best of Breed won the supreme honor for Best in Show. One dog, Karol, owner, M. B. Zwicker, Halifax, N.S., first and Winners, alone in his sex.

Open, Bitches, first and Winners, the same owners, Felise of Haywra (Imp.), is a small brindle marked hound, built on nice lines, second, Mr. Zwicker's Zia of Pinecrest, third, Mr. McDonald's Liska Berzva.

Mr. Zwicker was welcomed to his first N.B.K.C. show and strongly supported with a few of Halifax's best dogs, two that were good enough for several specials, including his Felise of Haywra, awarded Best in Show. Sometimes too much importance is made re size in various breeds; and while 27 inches for height may be quoted for these lovely hounds, some of the best Borzoi bitches benched twenty years ago in England were about four inches higher, built in proportion with excellence of type. I refer to the Duchess of Newcastle's Ch. Tatiana, that stood 30½ inches at the shoulder, with head 12 inches long, and carried lots of coat; also Mrs. Borman, England, her very noted and beautifully headed Miss Plostrl, 31 inches high with 11½ inches length of head. These heads were not all foreface, but eyes placed midway between occiput and tip of nose—a proper balanced head. The same owner had Ch. Kieff, 33 inches high, one of the

best ever benched and an excellent sire. Astute breeders don't keep the smaller ones in a litter for size, but usually for the extra promise of type and blood lines. This may apply to any breed and so we have the small ones with us.

Pointers had a good entry with some promising puppies to carry on. Puppy, Dogs and Bitches, first, Brownie, owner, R. Higgins. This one looks a bit feminine, but the judge's choice for Best of Breed; second, Boots, owner, Dr. A. S. Chesley, a handsome marked liver and white, excelling in character, body, legs and feet, better in eye and maturity than Winners dog.

Winners, Bitches, P. N. Woodly's Princess Gnorah, a liver and white good type, is getting on and lacked condition.

One Beagle, Earl Latimer's Shot Over, first and Winners dog; a good marked typical hound. One Springer Spaniel, Col. W. G. Breman, Halifax, N.S., was the owner of the quite good liver parti-bitch, Constance of Ware, imported. Cocker Spaniels were only four, two puppies in their class; first, Tom Killen's Beau, a solid liver, rather small, with C. Christie, Jr.'s Laddie, a black dog. Novice, Dog and Bitches, had John Scott's Bill, a very useful parti first and Geo. Cox's Sport second, a black that fails in eye and quality, third, a red parti dog of Stewart Hunter's of too long coat. Open, Dogs, parti color, Wm. H. Bryden's Sir Namgis II, first, a profuse coated low, compact black and white, with a fine head, lovely eyes and finish of face, with a big rib and quarters; second, John Scott's Bill, fails a bit in head and light behind, but is sound fore and aft, Sparkie outclassed here. Parti Bitches, Open class, John Scott's Misty Mist, a safe first and Winners; second and reserve, Alston Sally, a new youngster with a lovely face and type, but a pocket cocker, as Freeman Lloyd would say. Solid color, Open, Dogs, black, Alston Ebony, low and long, but first and Winners. Open, Bitches (solid color), Mr. Bedford's Bessie, only fair; Best of Breed, Wm. Bryden's Sir Namgis II, parti-colored dog.

Alsatian Shepherds are coming along here and for the first time home-bred puppies were benched. Puppy, Dogs and Bitches, W. H. Murray's wolf-grey bitch, Liberone, was rightly first, a bright, keen, alert puppy, built on nice lines; second, same owner's Shemite, on similar lines, but not so

THE BERGHOLTZ KENNELS

ALPHA V. KRONE (C.K.C.S.B. 43677)

Alpha v. Krone

This wonderfully bred dog is now placed at stud. The breeding offered to the fancy is the very best obtainable. Sired by the noted Ch. Cito v. Ischeland, out of a female by Int. Ch. Erich v. Grafenwerth, he is a double-cross of the noted Ch. Alex v. Westfalenheim and a wonderful combination of the Fuerstenburg, Dusterbrook, Herkulsparck, Kriminalpolizei and Riedekenburg strains. Alpha has the conformation of the real Shepherd type. Perfect front and rear angulation, nice long body, wonderful gait, depth of chest, with perfect ear carriage. As a show specimen he has proved himself to be one of the best; although only 20 months of age, he has already annexed half of the coveted championship. In breeding to Alpha you are getting the best blood-lines obtainable. He is a young, vigorous Stud and a proven sire of quality puppies. His picture shows his beautiful outline and his marvelous gait must be seen to be appreciated.

good. Novice, Dogs and Bitches, had L. B. Holly's Arkus Von Pfingstburg first, a neat sized wolf-grey, fairly good in head, ears, front and quarters; could do with more loin for angulation. Arkus V. P. was Winners and Best of Breed; second and Reserve Winners, J. S. Holly's Police Von Ricker, rather plain. Winners, Bitches, the good puppy, Liberone, with the Misses R. and J. Kitchen's Ma Jo, Reserve.

English Bulldogs, first in Puppy and Novice classes, John Day's Lady Falls-worth, a white one, just fair, rather plain in face. Open, Dogs and Winners, Mugsy, a solid brindle heavy weight, plain in stop, another only fair. But the owner—fair in more ways than one!—the new president of the N.B.K.C., and a good fellow. Reserve Winners dog, Dr. F. Boyaner's Guardsman, a pied heavyweight, long in body and foreface. Winners, Bitches, Mrs. Ora Doherty's Cleverdon Sensation, one of Canada's best bitches, a very compact, solid brindle, big flat skull, eye and ears good, nice lay back, deep, short face, low and wide in front; big rib, short back, with well bent hocks and tail set low. Best of Breed by a wide margin.

French Bulldogs, a small but good entry. Puppy, Dogs and Bitches, Miss

R. Ingraham's rich brindle, Petit Marchale, quite good in head, eye, ear and body, should furnish up well. He also got first Novice and Winners dog. Second and Reserve, C. R. Nelson's Poincare, fails in ear and expression. Open and Winners, Bitches, had a real good one in W. G. Smith's (Halifax, N.S.) Frenchie. She excels in head, wide, short face, nice body, front and short tail. Rightly placed Best of Breed.

Bull Terriers, two, one of each sex, with Dan Doyle's good bodied bitch, Deaconess, Best of Breed. The dog, puppy, Skipper, only fair, owner, F. H. Deering. Collies, only three, with a most promising puppy Best of Breed and good enough for second best in

show. This was a smart looking puppy hardly eight months old but well made up for size. Belgravia Squire, bred and owned by Mat. T. Morris, St. John, is sired by his well-bred Ormskirk Colonel, out of that excellent imported bitch, Belhaven Beauteous Princess. B. Squire shows length of head, very clean skull, nice eyes, well placed and carried ears; quite good in body, moves well and set off with a full brush and swirl. With maturity plus full double coat, this dog can hold his own with any of them. First, Open and Winners, Bitches, G. C. Robertson's Nan.

Airedales were a small entry for this breed here, with only two outstanding dogs as winners. First, Open Dogs and Winners, C. A. Christie's Rockwood Ranger, a correct sized dog, very good color, tan, and dark saddle, sound in legs and feet, quite fit and showing well, Reserve Winners and second Open. First, Puppy, R. Preston, Jr.'s Prince George. Winners, Bitches, and Best of Breed, J. J. Merryfield's very smart Silver Birch Lady Like, well named, she being rather refined and ladylike. S. B. Lady Like could carry more coat to advantage, but scored over R. Ranger in set on of stern and back.

PORT STANLEY SHOW POSTPONED.

The Western Ontario Kennel Association has found it expedient to cancel their show date, i.e., July 1st, 1926, for the present. The club's interest in the comfort and convenience of exhibitors being the reason for the postponement. The heat of July and the lack of circuit attraction were considered and postponement agreed upon. The show will no doubt materialize later on in the season.

VICTORIA CITY KENNEL CLUB SHOW

For twenty-one years this Western club has been piling up a record of consistency that has become the pride of the fancy at Victoria. And this year has produced further lustre to the record. Not only was the regular entry sustained, but the quality was greatly enhanced as may be gathered from the award columns.

At this show as at Toronto Kennel Club Show, the Canadian Kennel Club Trophy was won by an entry from the United States, only on this occasion it was the Boston Terrier of Mr. J. S. Playfair, a sportsman well-known in Boston circles on both sides of the international boundary, and if he keeps coming over to the land of the Maple Leaf often enough, the first thing he knows he will be kennelling a few Bostons with the coveted "International Champion" before their names. The dog to win the highest honor at Victoria was "Playfair Let's Go," having been furnished with a list of the various "Best of Breeds," we will add this "cream of the show" to the dish of awards that will appear hereunder.

The judges were three in number, and the Toy section was in the able hands of Mrs. Olsen, the balance of the show being handled by Messrs. T. P. McConnell, Victoria, and Archie Hogg, New Westminster. And in passing we are pleased to note Mr. Hogg again in harness, and trust that this is only the beginning of a renewed interest in dogdom as far as he is concerned.

Mr. F. Smith, the club's president, and Mr. J. Bryant, secretary, were supported by Major H. D. Niven, vice-president, and a working executive had the satisfaction of having the show well judged and their exhibitors satisfied. Following are the awards:

London Canine Association Spring Show

The 1926 Spring Show of this old-time association was again greatly handicapped through its being obliged to seek its shelter out at the Exhibition grounds, away from any possible gate that the old Forest City affords. This seems to be a shame when it is remembered the tremendous amount of effort, to say nothing of the cost of putting on an all-breed show. We could always hope to see the London Club meet with a better response to their annual spring appeal for support.

There were elements of good and bad luck around in abundance. Of the former variety, Mr. V. G. Perry, the club's past president, had the lion's share. In a nearby hospital a little mother and "their" big son were getting ready to come home to "daddy," and it was clearly evident that the hard-working Vint had his thoughts divided between the home ties and the old dog show. The trio are at home together now and Vint is as proud as the proverbial peacock—as well he might be.

The president, Mr. C. S. Webber, was the recipient of the hand-out by Miss-fortune. Taking home the Glenarden string of Bulldogs on the first night of the show, and on reaching the kennels the dogs naturally were restless, but Mr. Webber is no lightweight, and even a heavyweight Bulldog knows when the "boss" is on the other end of the lead. Somehow—and it is difficult to explain—the spring attachment of the snap end of a heavy bench chain slipped through the fleshy part of the hand near the thumb, and coming through, snapped again—a terrible predicament and a strange one—Miss Webber, making an anvil of a sledge hammer head, cut three-eighths of an inch of cold steel through with a hammer and chisel. Mr. Webber brought the chain to the grounds, and between the exhibits, the cub chain and the bandaged hand, the strange incident explained itself more eloquently than any explanation of words. Fortunately the chain was new, and we sincerely hope that no infection develops.

One of the pleasures of the show was the presence of our old friend, Mr. Dan Thody, of Detroit. Perhaps there is no exhibitor of the old school so well known all over Canada as Mr. Thody. Many a time his string of dogs has made the difference between failure and success at many shows. He was looking the same old Dan, a trifle bent and a little grey, perhaps, but still a real old-time dog fancier. Come to Canada again, old friend. Over here we keep a warm place in our hearts for the old-timers.

The first day saw the Boston Terrier judge, Mr. Harry Waldron, Detroit (an old Toronto boy), off to a good start inside the building, whilst Lt.-Col. J. N. MacRae, Galt, judged a nice entry of Alsations outside, where he had ample opportunities to study the critical essentials of the breed, as he so well knows how to do. Mr. W. F. Livesey, Madison, N.J., the all-rounder, then took the show over and held to his task until the last dog had been judged and the last special had been awarded.

The members of the club had quite evidently been practicing the painters' craft, as the benching was resplendent in a nice fresh coat of battleship grey. The stalls were generously stuffed with straw, and the dogs seemed to appreciate the thoughtfulness of the show committee on their behalf.

Champion Springbok of Ware

"The Ideal of the Breed"

A WORLD'S RECORD!

was established by our superb home-bred bitch, Int. Ch. Marvel of Avandale, when she won the Grand Championship at the big Seattle, Portland and Vancouver shows! She won the three Grand Championships in the space of seven days! And no other kennel of Springers has ever won the Grand Championship of seven different shows in the period of ten months! Remark that Ch. Imp. L'Le Messenger Boy is the latest champion to appear, sired by our Dual Ch. Flint of Avandale. What more proof is required of the excellence of our Springers?

PUTTING YOUR MONEY INTO ONE of our bred Brood Matrons is better than banking it! Litters of five to ten puppies are the average. We guarantee each bitch to be in whelp or will replace her. Considering quality, the prices of \$150.00 to \$300.00 (delivered) are very low. Trained ones, \$275.00 to \$500.00. Order one or a brace today and build up a nice kennel at a small investment! Choice individuals are now bred to Dual Ch. Flint of Avandale, Ch. Springbok of Ware, Triple Int. Ch. Boghurst Rover, Int. Ch. Laverstoke Powder-Horn, Field Trial Ch. Dan of Avandale, Prince of Avandale, Samson of Leam, Ch. L'Le Messenger Boy, and Imp. Pierpoint Prince.

PUPPIES OF ALL AGES

From 6 weeks to 8 months old. Priced at \$65.00 to \$200.00 delivered. All colors. Every one farm-reared and as healthy as can be. Buy one now, train it during your spare time and enjoy shooting over it this autumn.

BEAUTIFULLY TRAINED SPRINGERS

Our new lists, issued May 1st, show many wonderfully trained youngsters, priced at especially low figures. Ready for delivery June, July, August. Fine workers and retrievers and far superior to the imported Springers, because ours are acclimatized, have been worked always on American game, and are well trained for duck shooting, which the imported dogs know nothing about! Give us your orders. We will give you different service than that offered by kennels situated thousands of miles across the sea! The best Springers in the world are here, so why go elsewhere?

Note.—See our Eastern Canada representative, Mr. E. J. Marsh, office, 525 King St. West, Toronto, Ont., phone ADelaide 3031; house address, 125 Raglan Ave., phone HILLcrest 3254. Deferred payments where necessary. New lists May 1st. No duty on our dogs. Room left for some local agents.

OUR FRONTISPIECE.

It is many months since a Pomeranian adorned our front cover, and we have much pleasure in introducing the perky little double American champion, Glen Rose Flashaway (C.K.C.S.B. 41715), the property of Mr. Joseph Greenwood, of Beamsville, Ont. Glen Rose Flashaway is a double cross of the noted Wood View Honeydew and is all Pom. Strange to say this little chunk of Pom loveliness was a slow starter in Canada, but the start, if slow, has surely been steady, so much so that the little wolf sable will soon be sporting International Champion to his name. Seldom has a high-class Canadian-bred Pomeranian been given such a continued innings at the very best shows on both sides of the international boundary as Mr. Greenwood has given Glen Rose Flashaway. Twice an American champion, and best of breed at the Golden Jubilee show of the Westminster Kennel Club, at Madison Gardens last February are circumstances of sufficient eloquence to stamp the dog as an exceptionally fine specimen. At Toronto Kennel Club show, Mr. Geo. S. Thomas gave the Beamsville wonder the highest breed award, and at London the other day, Mr. Livesey placed him to the very top of the ladder, an honor seldom won by a dog of the Toy breeds.

Only the scarcity of shows can delay the Canadian championship, as the little Yankee champ is in splendid bloom and ready to take on all comers at the present time.

Notes from the American Side

By CHARLES G. HOPTON.

THE outlook for a successful summer circuit is particularly good, though many regret that the usual enjoyable annual outing of the Long Island Kennel Club will not take place as heretofore at Mineola. One recalls the splendid shows this Club used to give at Brighton Beach. It was here in 1905 that the memorable walking match for Bulldogs, led by owners, took place with about thirty starters, the conditions being that all dogs must be typical, this was done to prevent any extremely leggy dogs to compete, the idea was to emphasize the importance of sound, rolling gait in the Bulldog, as quite a few of the then winners were almost "cripples." About that time the writer was going strong, having won several open handicaps, on both sides of the Atlantic, and was duly handicapped, being put at scratch with the cloddy Ch. Rodney King in the leash. At the sound of pistol several had got away and were indulging in a free for all, bumping each other and some cantering. However, Rodney King made the most of his chances and we just beat John F. Collins, he being one of those to get a generous start at the tape. As we said before, they were most enjoyable with the real sporting spirit prevailing, alas, what a change to the modern rush affairs where the majority arrive late and want to get away early.

Rumor has it that the Long Island Kennel Club's annual show will be held during the fall at one of the best Armories in Brooklyn. It is pleasing to state that the usual open air show of the Nassau County Kennel Club will be held on Long Island, and while the change from the popular Belmont Park Track may be disappointing to some, the later date in June and the very getatable venue, the Fair Grounds at Mineola, should attract a record entry as the Show Committee, which comprises many of the most prominent local sportsmen, including Messrs. Tyler Morse, Theodore Offerman, Samuel Milbank, Robert Sedgwick and others of like calibre, with a splendid list of thoroughly experienced judges, among them being Mrs. Harry L. Sears, for Pekingese; Wm. E. Chetwin, Bulldogs; Grover C. Rauch, gundogs; Miss Marie Leary, of Cosalta fame, Shepherds, and others who are thoroughly in touch with their subject, make up a very representative list that commands respect.

There were quite a few surprises at the annual event of the Philadelphia Kennel Club when premier honors, that is, Best in Show, went to the well known international winning Collie, Ch. Laund Lero of Bellhaven, who had rather an easy task in the regular classes, but had to go some to head the keenly contested Working group, as the Shepherd bitch, Irma, and the Doberman Pinscher,

Ch. Prinz Favoriet von Koningstad, which it may be recalled won for Best of all breeds at the Atlantic City show, were in tip top form. However, superb condition and clever handling got him through to finally beat a topping lot for the Show Championship.

The most interesting group was the Terrier, for one found many noted champions well up in the running with the Irish Terrier, Ch. Blarney Better'n Begorra, a popular favorite, for he was in rare form and had the advantage of "Billy" Livesey's clever handling which, may be recalled stood him in good stead at the recent Toronto show. It was a nip and tuck race with the final placings as follows: First, Crackley Sensational, an exceptionally good headed wire Fox Terrier, not at his best, being short of coat on the

body and did not make the best of his chances, then came the very evenly balanced Bedlington, Ch. Highland-Queen of Firenze, possibly the best seen here since that ardent sportsman, Major J. J. Cawthra of Toronto brought down his marvellous team to New York. It was deeply regretted that the Major was not at Philadelphia to see the remarkable entry shown by the Firenze kennel, as all were of the right type and size, albeit somewhat overdone in head trimming but in rare muscular condition and reflected much credit on the astute George Ward. Next in order was the Irish Terrier, Blarney Better'n Begorra, with several very smart breeds among the also-rans. This was the best Terrier group we have seen since New York and well judged by Theodore Offerman, who is much in evidence nowadays, and rightly so for he is one of the few that really is qualified to do the all-round work.

The protest in Boston Terriers that brought about the disqualification of the winning dog, Lyon's Gold Top, a very "blocky" and well marked son of

Woodward Captain, aroused much discussion, especially so when it was rumored that "the Committee had ordered some clippings of hair to be taken from the dog," a disfigurement that would take weeks to rectify. In such a case all one had to do was to get a piece of clean white muslin, saturate same with alcohol, or in this wretched Volstead age, ammonia, and well rub the dog, then one could thoroughly determine the far fetched question of being dyed. It is somewhat like the pot calling the kettle black for nearly every winning Boston is "artificially treated," that is its appearance enhanced by the use of talcum, magnesia or some such white stuff, then a touching up with grease paint, or pencil to intensify the markings, but one can hardly believe such an expert as Ramsey would resort to dye, especially when the dog is such a clearly marked one. For the sake of this delightful breed, it is sincerely hoped that the charge will be proved ground-

Mrs. Murray Brooks with one of her very promising "Tien Hia" home-bred prospects by the Int. Ch. winner "Remus of Ashcroft." Note the rare flatness of skull and low, heavily boned front of the puppy, which reminds one of his famous forebear, "Ch. Phantom of Ashcroft."

less, but what recompense does the owner have for the slur and clipping of hair? Such a drastic protest should be accompanied by at least \$25 so that in the event of it being proved wrong the one lodging same should be made to pay forfeit, if this is not done then one's dogs are apt to be protested on absurd charges.

It was in Bulldogs, however, where there was a regular "shindy" as recent awards were turned about with the Int. winner, Hefty Argo beaten by dogs who were really not worthy of such distinction. The entry that greeted Dr. J. Webb Vaughn was quite the best since Baltimore (where a topping entry greeted Alfred Delmont, who awarded Best of Breed to Alaunt's Dubble and Winners bitches to Fernstone Sylvia), who were both shown at Phila. to be beaten by a very impressive debutant in Fernstone Chummy, a cloddy white with brindle patch by Ivan Tegg, shown by George Hargreaves, who shows his dogs in the best form and allows them to display their type and rolling gait by having them on a loose leash. The winner is all Bulldog in make and shape with the right

type of head, plenty of length from eye to ear, and good turn-up. He might have had a wee bit more width of underjaw, while in shoulders, lowness to ground, quarters and tail is all right. One however, could not endorse the placing of Hefty Grandson of Mike, a very sound brindle pied, long enough in body and on the leg, with a coarse, gayly carried tail, over the very massive and typical all white Rhylsdale White Marquis, and Hefty Argo, both were in rare

form and might have been left in the final to compete with Fernstone Chummy. Fernstone Sylvia, looking very fit, was easily best bitch, but there were several that might have beaten the Novice winner, Cinda-Susan, for the Reserve in Winners, among them who excelled in all head points and body lines were Croisdire Morovian Countess, Lady Conshohocken, the winning puppy, Croisadore-Annah May, and the somewhat exaggerated Roxton Maggie, who is especially good in all head points. A much improved dog was Hefty Brigadier, who won the Limit over 45 and finally finished Reserve in Winners to Fernstone Chummy.

The Sporting group was keenly contested with quite a few wagers made that the local champion, the famous Greyhound, Rosemont Liskeard Fortunatas would win. He was not quite at his best, showing the effects of his great tussle the week before at Pittsburg where he won the Trophy for Best in Show. However, after a lengthy try-out, he finally won with the Irish setter, Londonderry Ambition, in remarkable form and a favorite owing to his

beautiful type, rich color and splendid ring manners, a very close second and Cocker Spaniel, Sand Spring Sweet Marie, third. The latter had beaten an exceptional entry which comprised such famous champions as Midkiff Miracle Man, Sand Spring Storm Cloud, Superman, and a host of others, who were of the real Sporting Spaniel type, that is, around 25 lbs. in weight with just enough height at the withers to give them the free action so essential in this bright and truly Sporting breed.

Quite the most impressive record ever made by a Toy breed has recently been established by the noted English winning Pekingese, Ch. Sun-Dah of Chinatown, who certainly has proven to be a veritable Multum in Parvo. One recalls the truly great Phantom of Ashcroft, who put up such a remarkable fight for Best of all Breeds at the Westminster on four different occasions, and won the Gold Trophy at Morristown for best in show against many famous champions. But for marked consistency, the record made by Sun-Dah of Chinatown, is unique, for he went right through to his championship without defeat,

five times was Best of all Toys, and on four occasions was adjudged Best in Show. His last win at Denver under Walter S. Reeves, where he went right through to Show Champion giving him the coveted title. It may be recalled that the owner, Mrs. Murray Brooks, whose famous "Tien Hia" kennels at San Antonio, Texas, owns the finest collection of the quaint Pekingese extant, cabled over what was said to be the largest price

The well-known International Ch. Collie "Laund Lero of Bellhaven," Best in Show at Philadelphia. Owner, Mrs. Florence Ilch.

ever paid for any Toy in hopes that Sun-Dah of Chinatown would arrive in time for the New York show. In this, however, she was disappointed, but the subsequent remarkable wins of Best at New Orleans, Fort Worth, San Antonio, Denver, etc., repeats the splendid record established last year by her other importation, the noted Ch. Remus of Ashcroft, who is making a great reputation as a sire. As one might expect from such a sincere sports-woman as Mrs. Murray Brooks, who also has a string of famous Arab saddle horses, it is in breeding home-bred champions that the real thrill is gained. Up to date there are four that have annexed the title with an unusually fine lot of prospects for the summer shows that bid fair to follow in the footsteps of the now world-famed Ch. Sun-Dah of Chinatown, an international winner of renown.

While not on a par with former Club shows of the Bulldog Club of America, when we usually had one hundred competing, the recent event held at Port Jervis had some quality for Walter Reeves, who awarded Best in Show to the local home-bred champion, Sparrow Bush Sir Don; the

The \$50 Prize Letter written by P. C. Peck, of Peck's Kennels, Lawler, Ia.

FIRST PRIZE LETTER

March 20, 1926.

Battle Creek Dog Food Co.,
Battle Creek, Mich.

Dear Sirs: Enclosed find two photos of a litter of 12 Springer Spaniel pups whelped Jan. 24, 1926. The first was taken the day I began using your dog food, when I had no knowledge of the contest. The second was taken eight days later, after reading your contest announcement. The kodak was placed at the same distance for both pictures. The gain is plainly shown. The litter weighed 8 pounds when whelped, 59½ pounds at 6 weeks, and 81½ pounds 8 days later. Of that 8 days your food was used the last 6 and a gain made of 2¼ pounds. The results were a distinct surprise.

I have used several other dog foods, but yours has given the best results yet obtained. I will never raise another litter without a supply of Miller's Food on hand.—Very truly yours, P. C. PECK.

We Are Giving Free This Year \$1,200.00

PUPS MAKE RAPID PICK-UP
EATING MILLER'S A-1 FOODS!

Miller's A-1 Dog Foods scored heavily as pup builders when the 12 Springer Spaniel pups of P. C. Peck, of Peck's Kennels, at Lawler, Ia., gained 22¼ pounds in an 8-day period, giving Mr. Peck inspiration to write the \$50 prize letter on dog feeding.

"I have used several other dog foods, but yours has given the best results yet obtained," Mr. Peck declares. Miller's A-1 Products repeatedly have shown their superiority as feeders. Your pups, too, can benefit by eating them.

The Battle Creek Dog Food Company will award \$1,200 in cash for letters of not over 200 words each about the results of the regular use of prepared dog foods—\$100 in 6 prizes each month. Good photographs increase value of letters. Join the contest! You, too, may win.

On page 43 of our May issue we used a picture of the Pekingese Bumble Bee of Badminton, but underneath we used the words, "Mrs. M. Mitchell's Beau Fang of Badminton." Of course, to have been correct we should have said "Mrs. M. Mitchell's Bumble Bee of Badminton." The error arose through our believing that the cut was that of Beau Fang of Badminton, and being so sure of ourselves we overlooked taking the precaution to make enquiries. However, the picture of Beau Fang of Badminton appears in Mrs. Mitchell's advertisement, and our readers are asked to place all blame arising out of the error where it rightly belongs, and that is with "Ye Editor" himself.

AS WE WERE JUST SAYING

FOR SPECIALS ONLY.

When we reported the Vancouver Kennel Club Spring Show, we took occasion to write the following:

"Best opposite sex was won by Mr. Gerald L. Stock's imported 'Ch. Chong Yung Shi.' This specimen was entered for 'Specials Only,' and apparently no ring steward was able to induce Mr. Stock that in order to compete for the specials he would have to appear in the regular classes. We regret to notice this evil at the shows on the Coast, a dog entered 'Not for Competition,' or 'For Specials Only,' or 'For Exhibition Only.' Any dog so entered is governed by dog show rule 21, which is extremely explicit and reads: 'Dogs may be entered for exhibition or for specials only if so stated on the entry blank, but dogs entered in this manner must be entered in one of the following classes, in which they shall not compete.' The idea of en-

tering a dog "For Specials Only," and then competing in the regular and Winners class is a practice that is foreign to our dog show rules and should be discountenanced as such by every exhibitor.

Unfortunately it has been claimed that the foregoing has been interpreted in such a way as to cast a reflection on Mr. Gerald L. Stock. Nothing could be further from our intention, and we take this opportunity of assuring Dr. T. R. R. Hoggan, the president of the Vancouver Kennel Club, and also Mr. Gerald L. Stock himself that no reflection of any kind on the club itself, or on any individual attending the show in question was meant. An explanation will clear the air, perhaps, and here it is.

A short time ago we had occasion to officially complain of certain dogs that had been entered "For Specials Only," but which had actually com-

peted in the regular classes and had been awarded Winners. From the officially marked catalogue sent to headquarters we noticed this circumstance and it seemed to stand right out from all the other awards. Fearing it was a printer's error or a secretary's oversight, we sent for the entry forms. When these came to hand they showed quite distinctly the intention of the exhibitor, i.e., to enter under our dog show rule No. 21. "Dogs may be entered for exhibition or 'For Specials Only,' if so stated on the entry blank, but dogs entered in this manner must be entered in one of the following classes in which they shall not compete—Puppy, Canadian-bred, Novice, Limit, Open.

The rule being so perfectly clear, no misunderstandings were necessary, so we were obliged to bring the matter to the notice of the erring exhibitor who had helped himself to the

"For Specials Only," and the Winner's prize at one and the same time, an unpardonable procedure even if the exhibitor had been a novice. In this case the novice plea could not possibly be advanced, and on being pushed a trifle the offending exhibitor said, "Well, I was in the ring for 'Specials Only,' and the ring steward insisted on me competing in the regular class so that I might qualify for the 'Specials.'"

With this matter still fresh in our minds, we took the opportunity of setting forth as an example Mr. Gerald L. Stock being in the ring precisely under the foregoing conditions, and we said that "no ring steward was able to induce Mr. Stock that in order to compete for the Specials he would have to appear in the regular classes." He didn't, and he was awarded the special for "Best opposite sex," just the same, which served to show the hollowness of the other exhibitor's argument, and we took the

opportunity of bringing the circumstance home to him very definitely in this way. We have nothing but praise for Mr. Stock and so exoneration from anything is entirely out of the question. There is nothing to be exonerated from.

This gives us a unique opportunity to say a word on "General Specials." It may not be thoroughly understood that here the competition is restricted to dogs that have won first prize in their respective winners' classes, and further, in cases where a special prize has already been awarded for the best of the breed, there need be no further consideration given, as in such cases only the winners of the best of breed specials will be allowed to compete for General Specials.

Always compete as per your entry made and handed to the show secretary if for class competition and all that can come your way legitimately, compete for just that. If you enter for "Exhibition Only," keep your dog

out of the competition. If you enter for "Specials Only," keep your dog out of the ring until the class competition is over. Remember that you have absolutely no right to be in the ring until then, and when specials are called, step in and take your rightful place.

And, as we said last month, "No ring steward was able to induce Mr. Stock that in order to compete for the 'Specials' he would have to appear in the regular classes"—Mr. Stock knew better and acted accordingly.

CANADIAN HEADQUARTERS for SPRATT'S

We carry the largest and most complete stock in Canada of Spratt's Dog Remedies, Foods and Accessories

SPRATT'S FOOD FOR DOGS

"THE BACKBONE OF THE CANINE RACE"

The dog constitution needs a dog diet. Table scraps—toothsome and tasty though they may be—are not only totally unsuitable for the physical requirements of the dog, but are more often than not a direct cause of unfitness. For sixty years SPRATT'S have made dogs and their requirements the subject of continual observation and research; and to-day for every dog, old or young, healthy or sick, there is a Spratt's Food guaranteed to suit exactly his requirements.

BELOW WE LIST AND DESCRIBE SOME OF SPRATT'S FOODS AND REMEDIES REGULARLY STOCKED

SPRATT'S FOOD FOR DOGS

Spratt's Meat-Fibrine Dog Cakes—Used by leading breeders and at shows throughout the world; should preferably be given dry, not soaked, as their being gnawed compels a copious flow of saliva in the dog's mouth, which, being mixed with the food before it enters the stomach, materially assists digestion. These cakes keep the dog's teeth and gums in fine condition.

Spratt's Ovals—The Pocket Dog Biscuit—A small Meat-Fibrine Dog Biscuit,

suitable as staple diet for small dogs and toys, and to be carried in the pocket as an occasional snack when on a ramble with the dog.

Spratt's Fibo—A unique dog food containing, in addition to Spratt's world-famous Meat-Fibrine, pure yolk of egg; is very tasty, and for shy or dainty feeders offers an excellent method of bringing them on to a rational dog diet; a very nutritious meal for delicate dogs and puppies.

SPRATT'S FOOD FOR PUPS

Spratt's Meat-Fibrine Puppy Biscuits—A complete and perfect food for puppies from weaning time onwards, and for small breeds as the regular food instead of Spratt's larger Dog Cakes.

Spratt's Pepsinated Puppy Meal—For Delicate Puppies—Should be used instead of Spratt's Plain Puppy Meal for puppies with weak digestion; is extremely assimilative and will make most unpromising youngsters thrive.

SPRATT'S DOG REMEDIES AND TOILET REQUISITES

Spratt's Alternative Cooling Powders—For heated blood and general slight indisposition. Two sizes.

Spratt's Chemical Food—A valuable tonic; can be given in water or mixed with the dog's food. Various sizes.

Spratt's Cough Pills—Give quick relief of coughs and colds.

Spratt's Choreia Pills—A fine remedy for Choreia, St. Vitus Dance, and nervous disorders in dogs.

Spratt's Chronic Skin Disease Remedy—Should be given in all obstinate cases of Mange, Eczema, etc.

Spratt's Diarrhoea Cure—An effective check for Diarrhoea and looseness resulting from internal irritation.

Spratt's Disinfectant—An extremely cheap yet effective sterilizing agent, for kennels, poultry houses, piggeries, etc.

Spratt's Distemper Pills—The best known remedy for this great canine scourge.

Spratt's Distemper Powders—Prepared in this form for those who find it difficult to give the dog pills.

Spratt's Ear Canker Lotion—Makes treatment of canker simple; soothing and easy to apply.

Spratt's Eczema Lotion—Should be given in all cases of skin disease arising from internal blood condition or from parasites.

Spratt's Eye Lotion—For all eye affections in the dog; valuable also for poultry.

Spratt's Jaundice Pills—A specific for Jaundice or "Yellows" in the dog.

Spratt's Locurium—An oil dressing for quickly healing cuts, wounds and bruises; effective with all animals, and good for human use. Three sizes.

Spratt's Mange Lotion—A powerful penetrative and extremely effective. Destroys Lice, Fleas, Tick, etc.

Spratt's Purgine Tablets—A safe but powerful aperient medicine. Two sizes.

Spratt's Rheumatism and Sprain Ointment—Economical to apply.

Spratt's Rheumatism Pills—For Rheumatism, Lumbago, and Chest-founder or Kennel Lameness.

Spratt's Tonic and Condition Pills—For treating debility and for preparing dogs for Exhibition. Two sizes.

Spratt's Rissicol—Castor Oil in Powder form.

Spratt's Vermifuge for Puppies—A safe treatment for worms in young dogs; entirely a vegetable preparation.

Spratt's Worm Powders—A combination of the finest anthelmintics, and most effective.

Spratt's Worm Pills—A certain expellant.

Spratt's No. 1 Dog Soap—Prepared especially for coat and skin condition; used all over the world by exhibitors in preparing their dogs for show; prevents scurf, mange, and other parasitic affections.

Spratt's No. 2 Dog Soap—While beneficial to coat and skin, the No. 2 quality has incorporated powerful insecticide properties; absolutely eradicates lice, fleas, tick, and all parasites. Entirely harmless.

Spratt's "Fomo"—A liquid shampoo; slightly wet the dog's coat and sprinkle on a few drops of "Fomo" and instantaneous thick lather results; largely used by exhibitors.

Spratt's Dry Cleaning Powder—Preferred by a large number of dog owners for the winter cleaning of their dogs; needs just to be rubbed in and brushed out of the coat.

Spratt's Special Canister Brushes—For use with Spratt's Dry Cleaning Powder. The powder is placed in a small canister attached to the brush and perforations near the bristles allow it to shake out into the coat as the brushing is done.

MASON BOULEVARD, YORK MILLS

Fort Garry Kennel Club Show

The Spring Show of Fort Garry Kennel Club was unfortunate enough to run into disagreeable weather conditions. In fact the closing day was rebuffed with a baby snowstorm. However, that is the worst there is to chronicle regarding the fixture. True, the entry was a trifle down and the show dropped one point from last year, but that was not considered serious. 224 were benched and that is quite a nice benching of dogs for a city situated as Winnipeg is.

The judge was none other than Mr. Chris Shuttleworth, of California, and Chris is one of those reliably steady fellows who weigh in the balance anything worth while which may come before him, and his work on this occasion was well received by the exhibitors generally. Mr. Shuttleworth found his best in show, all breeds, in the lovely Springer, Ch. Marvel of Avandale, and this celebrity of Canadian dogdom won for her sporting master, Mr. E. Chevrier, Winnipeg, the Manitoba cup, the Fort Garry trophy. This trophy has been in competition since 1920, and was a "three wins by same exhibitor" arrangement, and Mr. Chevrier's Ch. Springbok of Ware won legs on it at the Fort Garry Kennel Club shows of

"A WINNING TEAM"

From left to right: Geo. Kynoch, C.K.C. Director; C. Shuttleworth, Judge; Thos. P. Murray, and C. Robson, President.

1922-1923. It is interesting to note, too, that the trophy was sent to Fort Garry Kennel Club in 1920 by our late beloved president, Mr. Joseph Russell. "The Harmony Cup" was also awarded to Ch. Marvel of Avandale.

Mr. F. E. Trautman, the president of Fort Garry Kennel Club, had the co-operation of a substantial show execu-

tive, and Fort Garry's special secretary, Mr. F. W. Walkerdene, who makes a success of anything he lays his hands to, or knows the reason why. He had twelve pages of special prizes in his catalogue, and if the exhibitors did not require a barrow to take home their cash winnings, some of them would require a waggon to take home their share of the general offerings.

The award columns which follow will show the quality of the exhibits and how Mr. Shuttleworth sorted the dogs out. The awards:

CORRESPONDENCE INVITED

The Romanoff Russian Wolfhound Kennels, Regd.
MR. & MRS. A. PATERSON 239 Market St. BRANTFORD, Ont., Canada

THE SECRETARY-TREASURER GOES WEST

On Friday, 25th of June, if all goes well in the meantime, I, James D. Strachan, the secretary-treasurer of the Canadian Kennel Club, Incorporated, will leave Toronto for a visitation with the Canadian Kennel Club members and the dog fanciers generally in Western Canada. My visit will simply mean a friendly visit and nothing more, and for this purpose I have agreed with myself that every hour of my time, whilst away, will be available to those who may wish to visit me, or to be visited by me, and so I will appreciate the privilege of having an opportunity to meet in person every Western fancier. It will make no difference whether a man owns one dog or a thousand dogs, or whether a man owns \$10.00 worth of dog or a \$1,000,000 worth. If he wants to talk thing over in person with the secretary, it will be made quite easy for such a person to do so. It has, for a long time, been one of the secretary's ideals, the meeting in person of every dog fancier in the Dominion. In Eastern Canada I know almost every fancier by their first names and I hope to add every Western dog lover to this unique collection of personal friends. Don't be bashful about meeting me, as I am coming for that very purpose.

Monday and Tuesday, June 28th and 29th, are dates set aside for the Winni-

peg folks. Thursday, Friday and Saturday, July 1st, 2nd and 3rd, Moose Jaw fanciers will take their visit with their show. Alberta Kennel Club on July 7th, 8th and 9th, and the Calgary fanciers have arranged their judging schedule so that it will be possible for their judges and exhibitors to view the great stampede, the feature event of the exhibition. Edmonton on July 14th, 15th and 16th, will be this traveller's resting place. That is to say, if the

Edmonton fellows allow their visitors to indulge in the luxury of resting. Saskatoon on July 21st, 22nd and 23rd, and Regina on July 27th, 28th and 29th. That makes thirty-three clear days in the provinces of Manitoba, Saskatchewan and Alberta, and surely a good solid foundation for a better future understanding and a closer personal contact can be built up in that time.

Look for my C.K.C. badge and do not wait for any introduction. Just introduce yourself, for I will be waiting and glad to meet every dog lover in the cities that I shall be passing through.

Vancouver Exhibition on August 5th, 6th and 7th will furnish the opportunity that has long been waited for, and the fanciers there will kindly arrange to make close and continued contact. British Columbia province is geographically our furthest removed province, and it is particularly desired that a good, lasting understanding be made whilst I am in British Columbia.

Our Canadian Kennel Club, Inc., trophies for Best Dog in Show, all breeds, will be won at all these shows, and I will particularly want to congratulate each winner individually. A short visit to Victoria will see the schedule written off, and then it will be a matter of "Home, James" for "yours truly."

POINTERS AND SETTERS

Their Origin, Breeding, Rearing and Training

By MAJOR HARDING COX (Eng.)

(Courtesy of Game & Gun)

IN my previous article I dealt with the selection of stock by purchase. I propose now to offer a few hints as to breeding pointers and setters for personal use in the field. I think that most real dog-lovers and good sportsmen will agree that the pleasure of turning out a first-rate and thoroughly staunch dog, or winning a challenge certificate at a show or field trial is doubled if such is of our own breeding. The same applies to the winning of an important race. An A1 dog or racehorse always can be bought—at a price; but generally it takes knowledge of eugenics and long experience to breed either; although luck may play a strong suit (especially as regards what is known as "novices' luck") in the game.

I am a great believer in breed in tail female—no matter with what stock one is dealing. The benefit derived from this practice is especially marked where blood stock, hounds, greyhounds and gundogs are concerned; but it also holds good in the case of terriers, non-sporting dogs and even "toys." The reason why this is so is obvious.

With very few exceptions, every stallion and every stud dog is sufficiently well bred and has, respectively, in some way or other, distinguished itself on the turf, on the show bench, or in the field, as the case may be; whereas, some people seem to think that any bitch that is fairly recognizable as a member of its breed is "good enough to breed from."

This is a fatal fallacy! None but the very best of the sex is good enough where really high class progeny are desired. If you are lucky enough to possess a strain bred through winner producing bitches, in tail female—you may count upon a very high average of quality of both sexes and, in the case of bloodstock—upon good winners, always provided that the said classes have been properly fostered during pregnancy, and their offspring carefully tended and cherished.

This brings me to the question of in-breeding and inter-breeding—two very different propositions. In-breeding, if extensively indulged in, is likely to produce disastrous results. By "in-breeding" I mean the incestuous mating of near relatives, such as brother and sister, father and daughter, or son and mother; although even these may be resorted to in order to stamp some desirable attribute upon the issue; but a second in-breeding, undoubtedly, is fraught with danger to the physique and constitution of the offspring.

In-breeding, where both potential parents are subject to the same environment is always dangerous; but if they have been reared on different soil and with different environments, the undesirable features of the experiment are far less likely to occur. In fact, in such case, very close in-breeding can be resorted to without risking the evil results which generally follow where a closely-related dog and bitch born and reared in the same vicinity have been mated.

Inter-breeding is another matter altogether, and is the keynote of the eugenists' overture. Breeders of blood stock have elaborated what is known as "The Figure System", the basis of which is the combination of certain strains, which are required to be symmetrically represented in the four quarterings of every perfect pedigree. In the case of greyhounds the success of this theory has been amply demonstrated. Almost

Mr. Isaac Sharpe's Working Stylish Touchstone.

every Waterloo Cup winner of repute can show a quadrilateral combination, springing from Greentick, Mister-ton, Herschel, and Jester, all of whom were descended, more or less remotely from Contange.

If you examine the pedigree of a high-grade Derby or Waterloo Cup winner, you will be sure to find a line in tail female, each unit of which is, or was, herself a winner producer.

Therefore, I say unto all who would start breeding pointers or setters, or both, purchase bitches of the highest

merit, both as regards their physique and their natural working qualities. Then, if these are mated with any of the leading stud dogs of the day, whose blood will provide an eugenic blending, you need not fear the result. You will have "the goods", and it will be up to you only to see that the best is made of the material. But from the time the bitch is covered she must be carefully watched, fed and housed.

Taking it for granted that she was healthy, hard and fit when visiting her temporary mate (no diseased or unfit bitch should be bred from), it will be necessary to see to it that she is properly prepared for the maternal duties to come.

My friend, Mrs. Sothern, lately wrote in *The Dog World* a very informative article on "Preparing Cockers for Show." What she so pertinently insists upon as regards these beautiful little spaniels (incidentally, she owes practically all her great success in breeding the very highest class stock to adhering closely to doing so in tail female on the lines which I have described) may well be adopted by those who seek to breed pointers or setters (or, for the matter of fact, any sort of gun dog) for work or show. So excellent and practical is this keen sports-woman's treatise that I venture to quote its most salient passages:

"After the mating, continue to keep your bitch hard and fit. On no account let her get fat. No starchy, fattening food, but certainly, at least, half a pound of freshly-minced raw beef daily with a teaspoonful of virol (a dessert spoonful for pointer or setter bitch) in it, and a teaspoonful of lime water in her other meal. Plenty of walking on hard roads. Personally, I have found that a soft, flabby bitch produces soft lethargic puppies, which either die at birth or prove unsatisfactory."

The writer goes on to say that, visiting another kennel she saw a bitch (suckling puppies) scratching herself violently, and was told it was "only lice"! As Mrs. Sothern wisely remarks: "How can a mother be at rest and keep her puppies warm if she is restless and tormented?" Therefore, my friends, see that your bitch is not infected with these pests. She is sure to pass them on to her progeny. These cannot possibly thrive when so afflicted.

When the bitch has whelped see that she is left undisturbed. Under no circumstances should anyone be allowed near her and the pups except yourself, or the one attendant who has her in charge. For the first week she should have light lactial food only; such as are given to small children or invalids will be suitable. After that she may be indulged with broth or Bovril for another day or so, when she will be sufficiently advanced in convalescence to admit of a return to the raw meat and biscuit diet.

Retracing our steps a bit, let us consider arrangements for the bitch's "lying-in". It is as well to allow her free liberty during the latter weeks of pregnancy, with access to her kennel always open. Needless to say, her quarters should not be raised more than six inches from the ground so that she can "take up position" without undue exertion. I am not in favor of straw, but if it is used it should be oaten and not wheaten. I much prefer shavings or wood-wool, covered over with a coarse blanket, which must be renewed at least three times a week. Whether the floor of the kennel is concrete, brick or wood, it should be sprinkled with pine sawdust, which every day must be swept clean out and a fresh layer provided. To impose clean sawdust upon that already fouled is an abomination.

I have already told how the mother should be tended and treated when she has been safely delivered. It only remains to be said, in this connection, that should any

difficulty in parturition occur, the veterinary surgeon should be called in, unless the owner or attendant happens to possess exact obstetric knowledge and experience. As a rule, Dame Nature plays her part to perfection, and if your bitch is left in her charge, there is very little danger of serious complications.

Now, let us presume that the whelps have been safely ushered into the world and have waxed strong enough to toddle about under the watchful eye of their dam. It now behooves us to see that they are afforded the chance of developing into sound, straight-limbed, strong-boned and symmetrical specimens of their race.

When they begin to lap and to feed "on their own", care must be taken that they do not drag their food on to the sawdust, otherwise they will consume a dangerous quantity of the substance. This is almost sure to cause violent purging or if not internal inflammation and even peritonitis. The bench must now be level with the ground. It does young whelps no good to be scrambling up and down; the strain is too much for their tender, undeveloped joints and muscles.

Let me quote Mrs. Sothern again:—

"How many pups have been ruined by climbing into their nest box, or by scratching on wire netting? Do not pick up your puppies under their front legs, so pushing their shoulders out."

And again:—

"Before the puppies are three weeks of age start trying to make them lap." (Personally, I am of opinion that no attempt of this sort should be made until at least four weeks after birth. But the "proof of the pudding is in the eating," and Mrs. Sothern has proved up to the hilt that her system has more than "made good." After all, "nothing succeeds like success," and she has achieved in full measure her wonderful strain of black cockers).

"When they (the puppies) can just stand, teach them to lap from a raised dish. I have stands so made that, at four weeks, the little creatures have to stretch up to lap. Crouching down to a dish on the floor puts their shoulders out (this is not literally speaking of course—H. C.); whilst straining up keeps their legs straight and teaches them to stand well on their toes, as they should do at a show."

I am in hearty agreement with the writer on these important points, and I am proud to think that a good deal of the useful knowledge which she undoubtedly possesses, was in the first instance acquired through hints which my own long experience enabled me to offer.

The weaning of puppies should be gradual, and the food provided should be graded from that which most nearly resembles pure milk; through cereals, and on to a carnivorous diet, which should not commence until they (the puppies) are fully ten weeks old, and even then it must not be exclusively so!

It may happen, of course, that the lacteal glands of the dam cease from functioning, when the puppies should yet be suckling. In such case, they must be either weaned at once or transferred to a foster mother. And here I may interpolate that I am in favor of employing such adventitious aid wherever the bitch has a large litter. Five whelps at most—and preferably four—are quite sufficient for any bitch to suckle. Whenever possible, I had a foster mother ready for emergencies.

For setters and pointers, the deputy-dam should be approximately of the size of the bitch whom she relieves. Any healthy one, with a good milk supply, that has already proved herself a tender and long-suffering matron, can be pressed into the service; but in any case, the two bitches

who "divide the honors" should have been mated about the same time. If you put whelps of, say, three weeks old, on to a strange foster-mother, whose own offspring were, say, considerably older, when taken from her, you will be "asking for trouble" as the saying goes. Nor is it advisable to use, for the purpose, a young bitch whose first litter it is. Choose rather a staid and solid matron, who knows from former experiences what is expected of her.

Another trouble which may make quick and untimely weaning necessary occurs when the whelps scratch and bite their unfortunate dam's teats so ruthlessly that at last the poor bitch throws up her job, and refuses to allow her too aggressive bantlings to draw further sustenance from her excoriated mammae.

But it is marvelous what bitches will stand in this connection, before revolting or even protesting. Such is the strength of the maternal afflatus as endowed by "The Uncaused Cause of Causation" alias Nature. When once it has been decided to wean the pups, action should be drastic. As soon as they have arrived at the point where they are able to assimilate the normal diet of the kennel, they should not be allowed to pester their dam, as they are prone to do, long after they should be entirely self-supporting.

It is a mistake to bring up a litter of puppies in the same kennel. They should be separated, and not more than a brace quartered together. But by far the best plan is to send the young pointers and setters "out to walk" when they are between seven and nine weeks of age.

However well found, furnished, equipped and managed a kennel of sporting (or for the matter of that, any other) dogs may be, puppies reared in the place of their birth seldom thrive. The difficulty is to find really reliable "walkers" who possess even the most elementary knowledge of cynology, or the common usages of the really efficient kennel man. When once the right man or woman is found "make a note on't," and to him or her send the pick of your bunch year after year. I need hardly say

that choice of locality must favor lonely country dwellers as "walkers" of your young stock.

Danger lurks in villages, especially those which are intersected by motor roads; whilst town billets are anathema, and if patronized, are almost certain to lead to disaster.

Some knowledgeable sportsmen hold that the training of a young pointer or setter should commence at from 3½ to 4 months after birth. For my own part, I opine that even the most elementary lessons should not begin until your puppy is at least five months of age. Anyhow, it will be necessary to have your intended pupil back in kennel a week or two before any attempt is made to teach the youngster its preliminary promenade toward an eventual win at a field trial, or, at least, a commendable performance on moor, mount or marsh.

Moreover, it is essential that the puppies, returning from their respective "walks" would be thoroughly overhauled and vigilantly watched, lest peradventure some dread form of that which for want of a more accurately descriptive word we term distemper should manifest itself, or in case mange or eczema should be discovered.

As a preliminary prophylactic, sulphur, castor oil or Epsom salts should be administered all round. Temperatures should be taken by a clinical thermometer inserted in the vent, and retained there for three minutes. If the quicksilver shows any degree over 101 F. (the normal temperature of the canine race) a febrifuge of 8 grs. of asperin (or genasprin) and 1¼ grs. quinine should be given at night, the puppy segregated, wrapped in thermogene around the neck and chest and ribs, and kept in an even temperature of, say 60 deg. F. If it refuses food do not attempt to force it to do so but if it retains an appetite feed it on "slops"; but on no solid food whatever. Probably 24 hours will see it lively and apparently as well as ever; whereas, but for the treatment meted out, as described, it very likely would have developed well marked symptoms of virulent, so-called "distemper".

SAMSON BULLDOG KENNELS NEWS

May 20th.

Mr. Campobasso of Barre, Vermont, reports a litter of grand puppies (5 males and 2 females) by **HAZELWOOD SAMSON**. He is so pleased with them that he brought another good bitch to Montreal to be bred to the same dog. While in Montreal he bought **British Samson**, a grand six-months-old pup by **HAZELWOOD SAMSON**.

Mr. McDonald's Rose, by **HAZELWOOD SAMSON**, was bred to **Moston Grabber** last week.

A very nice Hefty Monarch bitch, owned by Mrs. Paul Malovitz, was also bred to **MOSTON GRABBER**.

My bitch **Rose of Rosemount** was bred to **HAZELWOOD SAMSON** last week. She is Irish Challenger breeding, and is for sale. A wonderful mother, and her previous litter was all males.

My **Hazelwood Samson** bitch **DOLLY** was bred to **Moston Grabber** this week.

Received phone message to-day that Mr. Norton of Victoria St., Montreal, has been presented with a litter of ten pups by **HAZELWOOD SAMSON**.

Mrs. Thompson of Victoria St., Montreal, reports her bitch showing heavy in whelp to **HAZELWOOD SAMSON**. This is a litter sister to Mr. Norton's bitch.

Mr. McDonald's young bitch **Rosemount Bess** was bred to **HAZELWOOD SAMSON** to-day.

Send for Stud Cards and Photos of my two great Studs, **HAZELWOOD SAMSON**, by Hefty Monarch (the one and only Sammy), and **MOSTON GRABBER**, by Ch. Yamamoto Challenger.

THE FORWARD STEP

IN our last issue there appeared an article under the caption, "The Forward Step." The article was really to advise the members of the Canadian Kennel Club that the President's promise to the members attending the annual meeting was about to be fulfilled. The writer had hoped to be able to illustrate the article when it appeared, but contracts cannot be made to-day, and deliveries made the day following, and so we were obliged to go to press without being able to show our members what the President's promise looked like in the finished article, but we are pleased to take this opportunity of showing—what we are pleased to name

The Canadian Kennel Club, Inc., Trophy.

and we hope that those of our members and all supporters of the bench shows held under Canadian Kennel Club rules and regulations will like it sufficiently well to cultivate a desire to win it.

The trophy illustrated was selected from many patterns submitted by the most important firms of silversmiths in Toronto, and its beautiful lines appealed to the Board of Directors; besides, quality more than quantity was a deciding factor in the selection, and it will be found in actual practice that this trophy will always look well and wear well. The contract calls for lacquering after engraving, and this arrangement means a most satisfying finished product.

Strange to say, the Trophy illustrated is the first one to be shipped and it goes to that likeable sportsman, Mr. John G. Bates of New York City, a man who has done a magnificent service to the Irish Terrier breed in the United States, his dog Ch. Better'n Begorra having been placed best dog in show all breeds at the Toronto Kennel Club Show, held at Toronto on Good Friday and Saturday, Mr. George Steadman Thomas being the judge.

We congratulate Mr. Bates and hope that our Trophy will prove to be an incentive for him to patronize our shows regularly in the future. We will have something to say regarding other winners in early issue, but, in the meantime, we are looking forward to our own cup furnishing an incentive to all show-giving clubs to endeavor to make their shows more popular with the fancy, so that larger entries may be drawn, which in turn will make the championship points a stronger attraction. Perhaps a show-giving club that can only furnish a one point showing will be disappointed when they receive the A (size 1) cup, and that is just where we want the additional energy to manifest itself, so that the larger cups

B to E (sizes 2 to 5) will be more eagerly sought for. On the other hand, the show-giving club that can qualify for the larger sized cups will have every good reason to maintain the size of the entries for their shows.

Successful all-breed shows are not developed from the amount of trophies that are offered, but rather, the essentials that count for most are the qualities of known good show management, first-class judges, good show buildings, and, perhaps,

after all these things comes the premium list. There are many, no doubt, that would change this order of things over somewhat; some would possibly reverse the entire order, making the premium list the prime factor, but in actual show practice our arrangement fairly represents the magnet that draws the larger entries, and, no doubt, the Canadian Kennel Club Trophies will lend much strength to the premium list, and thereby help to make the least of the essentials as strong as the greatest.

At London Canine Association Spring Show, Judge M. W. F. Livesey awarded the C.K.C. trophy to Mr. Joseph Greenwood's popular Pomeranian, Glen Rose Flashaway, and Mr. Greenwood will hardly be satisfied with the grade B trophy (size 2), and will eagerly await the opportunity to try again at some of the larger shows.

Kennel and Bench will always

be pleased to show its readers good pictures of the splendid dogs that may be judged the best of all breeds at shows where C.K.C. trophies are offered, and for that purpose we now ask for the co-operation of the fortunate winners in making this very desirable feature possible.

This arrangement is international in its scope, as no strings are attached to the trophies. If the best dog is a Chihuahua or a St. Bernard, if it is owned by a white man or a black man, it will not make a particle of difference, as the Cup is for "the best dog in the show" and the dog so honored meets every condition required. Already two of our trophies have been won by American fanciers, and as we go to press we learn that Mr. J. F. Playfair of Portland, Oregon, is the lucky winner of the Canadian Kennel Club Trophy, which was offered by the Victoria Kennel Club Show, May 14 and 15. At present there are a round dozen cups being engraved, and these will be delivered to the winners as soon as possible.

From now on it is our intention to have the Trophies sent to the show-giving clubs in good time, so that they may take their place in any displays that the clubs may wish to make in giving publicity to their shows.
