Shall bring us to our goal,  
But iron sacrifice  
Of body, will and soul"

—Kipling

● The goal we are struggling toward is a long way off. There will be no dawn of peace over this shattered, suffering world until all of us rouse ourselves to the task ahead, until every one of us accepts the necessity for "iron sacrifice".

All the dollars Canadians can spare are not yet in the fight.

Some are spending less, but many are not.

Many have not yet faced the need for sacrifice — for self-denial.

Fighters and workers are bearing hardships — feeling the pinch of fatigue—even risking life itself.

But we who are only putting up our dollars are not putting up enough.

Ours is the softest job of all, and yet we are slacking on it.

And somehow, many of us are not ashamed.

How about you?

Think of this tonight, before you sleep.

## PRESIDENT'S REPORT

**F**OLLOWING our precedent, started last year, of presenting this annual report to the members rather than to the Directors only and thus making the Canadian Kennel Club Inc. more completely a members' organization, I have a great deal of satisfaction in reporting one of the most successful years in the history of the Club.

Elsewhere in this issue will be found financial statements for the year ending December 31st, 1941. Viewed from every perspective, these statements reflect the determination of the Board of Directors to reduce the operating expenses of the Club as far as possible without impairing the usual services provided by the Club. A decrease in the total salary expenses naturally followed the decrease from five to three in the staff at the head office; and this decrease, together with reduced charges in other operating expenses, led to a reduction of \$3,792.17 in the total operating charges. This saving, plus the increase in our revenue, resulted in a net operating profit of \$1,937.25, as compared with a net operating loss of \$2,052.14 for 1940. In the final analysis it should be remembered that, notwithstanding all efforts of the Board, a financial loss would be inevitable if the members should fail to utilize the recording facilities of the Club; therefore the members themselves are to be congratulated for their co-operation and support in that direction throughout the past year.

The total paid membership for 1941 was 1,134, a decrease of 87 from 1940. While it is to be regretted that there should be a decrease at all, we should realize that, under present conditions, a reduction in the number of members is almost inevitable. Particularly is this so since the records indicate that approximately 15 per cent. of each year's membership is made up of "new" members. If 90 per cent. of our members in 1941 renew their membership this year there will almost certainly be an increase in our membership.

The total dogs registered for 1941 was 6,058, as compared with 5,245 in 1940, an important increase of 813. Transfers of ownership jumped from 5,483 in 1940 to 6,328, an increase of 845. Likewise there was an increase in litters registered, 3,023, as compared with 2,784 in 1940. As a result of these increases the number of transactions handled by the Live Stock Records on behalf of the Club increased. Because of a lower per transaction charge, however, 21.75c, as compared with 22.908c in 1940, our portion of expenses in maintaining the Live Stock Records office amounted to \$4,694.81, as compared with \$4,583.72 in 1940.

Throughout the past year your Board of Directors has had occasion to realize only too well the necessity of remedying the inadequate, ambiguous and contradictory provisions of our present Constitution. Any attempt to patch the present Constitution would be at best only a temporary stop-gap, therefore it was deemed advisable to have the Constitution redrafted in its entirety. This proposed Constitution has been reviewed by competent corporation counsel, has been published in the January issue of the official organ and will come before the members at

the Annual General Meeting for their consideration.

If it be true that the greatness of any institution is limited to the perfection of its foundation, then we should strive at all times to strengthen and perfect that foundation. Incorporation under the Live Stock Pedigree Act and our Constitution may well be likened to the cornerstone of a building, and both represent an all-important part of the basis of our organization. We now know that the federal Department of Agriculture does not contemplate a revision of the present Live Stock Pedigree Act until the present war is concluded. No one knows when that day will come, but that should not deter us from preparing for the day when it will be necessary to establish beyond question the status of our Club. In the preparation of the new Constitution we have endeavoured to implement to a degree the recommendations contained in the memorandum submitted by our Second Vice-President, Mr. W. H. Pym, and adopted by the members at the last general meeting.

One serious constitutional difficulty experienced during the past year settled around the quinquennial adjustment due to be made in 1941. In former years it has been the practice to employ, as a basis for this adjustment, the number of members and registrations per province for the year previous to the year in which the adjustment is made. When the number of members and registrations for each province in 1940 was determined for this purpose, it was found that Alberta and the Maritime Provinces were no longer entitled to representation. Had our Constitution made specifically clear that the registrations and memberships for the previous year (1940) were to be used as the basis for the calculation, your Board of Directors would have had no alternative but to abide by this provision, as regrettable as it may be to have two of our constituencies without representation. However, when this particular section of our Constitution was reviewed by competent corporation counsel, it was pointed out that the intent of the particular article was obscure, and the strictly legal interpretation was that the members in good standing at the time of the adjustment, together with the total number of registrations since the inception of the Club (1888), were required for the purpose of this adjustment. Obviously this was never intended and, even if it was, no breakdown of registrations by provinces is available prior to the year 1915, when the Club became incorporated under the Live Stock Pedigree Act. For the sake of information, the number of members in good standing at September 15th, 1941, together with the total registrations by provinces from 1915 to date were determined and, on this basis, it was found that Alberta, Saskatchewan and the Maritime Provinces would have no representation on the Board.

In endeavouring to secure an answer to this problem your Board decided that the number of members in good standing as of September 15th, 1941, together with the registrations from January 1st, 1941, to September 15th, 1941, would be employed. These figures indicated that the Maritime Provinces were no longer entitled to elect a Director. When this

result was known and the decision of the Board of Directors was characterized by our acting Honorary Solicitor as "one of practical necessity **not founded on legal procedure**", I had no hesitation in instructing the Secretary to arrange for the election of a Director to represent the Maritime Provinces pending legislation intended to remove the problem once and for all.

The writer believes that our proposed Constitution will prevent a repetition of this unfortunate circumstance. However, it must be remembered, and here I repeat myself, the Canadian Kennel Club is a national institution and every part of Canada, certainly a section as large as the Maritime Provinces, should have representation on the Board of Directors.

Unusual conditions require unusual decisions, and the writer's instruction to the Secretary was subsequently endorsed by the Board of Directors.

Early last year your Board of Directors appointed a committee to redraft the Dog Show Rules and Regulations. This committee, composed of Mr. William McDermont, as Chairman; Mrs. Ellen Brown and Mr. F. W. Walkerdine, submitted their report and it was reviewed by the Board at their meeting held on September 18th. The Rules and Regulations, as finally drafted, appeared in the December issue of the official organ and will come before the members at the Annual General meeting for their consideration. It is my pleasure to compliment this committee on the thoroughness with which they carried out a difficult assignment.

Shows are still the sales window for breeders and the recruiting station for new members, and it is gratifying to note that there has been no decrease in the number of dog shows during the past year in spite of the difficulty of obtaining suitable building accommodation. Our show programme is still, however, far from the saturation point, and I am convinced that the prosperity of the fancy will still improve with an increase in the number of shows. Accordingly, I would suggest that breed clubs give some thought to means of combining their show-giving activities with other breed clubs, thus providing more frequent shows of a higher standard. The lack of suitable buildings can be overcome by substituting outdoor shows, which have proven a remarkable success wherever they have been tried.

At the last annual general meeting the members, through an amendment to the Constitution, decided on a change of policy in respect to the official organ. Your Board of Directors since that time have attempted to carry out the change in the most economical and efficient way possible.

The financial statements indicate a small operating profit for the magazine during 1941, but to those who believe the policy should be continued because of this, the writer can only say that present indications are such that a continuance of the present status of the magazine could only be a great loss of prestige to the Club. Therefore, I would like the members to seriously consider the advisability of having the magazine published first and foremost as a dog magazine and secondly as the official organ. The adoption of the

newly proposed constitution would place the responsibility for the publication of the magazine directly on the Board of Directors. However, in order that the Board may be under no misapprehension as to your wishes, a specific instruction as to the future policy should be agreed on. Certainly if the remarks and criticisms heard by the writer in respect to the present status of the magazine are any criterion, it would appear that a change is not only advisable, but absolutely necessary if the magazine is not to lose its major value and become in the end a source of considerable expense to the Club.

Riverbend Farm - Benalto, Alta.

It is to be regretted that our predecessors did not make provisions for a retirement fund for the members of our staff. We feel that some such step should be taken and information will be placed before the Board of Directors at its annual meeting for their consideration with a view to remedying this important part of our relations with our employees.

Respectfully submitted,  
W. J. RISEWICK, President.

No "sick call" in my platoon!

—SAYS "OLD SARGE"

I LEARNED about worms early. Got 'em from my Mother. And they nearly got me—till the Boss cleared 'em out with Sergeant's Puppy Capsules.

My orders for pup recruits are: Puppy Capsules for protection. And for old-timers: Sergeant's SURE SHOT Capsules when the first symptoms show. "Blitz" worms quick—and you've got 'em licked!

Are you  
 using the  
**MODERN**  
**PULVEX** Worming Method?

Your dog can be infested by three different kinds of worms. Which do you worm? By using the **Pulvex Combination Treatment** you worm for all three types of worms . . . the modern and scientific way of worming.

One capsule will not do the trick. The Pulvex modern worming Method supplies two separate and distinct capsules . . . expelling the three types of worms . . . eliminating all guess work and uncertainty. Used by leading dog breeders throughout the world.

Don't just give your dog a worm capsule. Give him the best scientific treatment, with the Pulvex Worming method. Full Instructions in every package.

Gaines Contains Food Factors Known  
to Help Keep Dogs in Good Health

● Give your dogs a chance to enjoy the Vitamins A, B<sub>1</sub>, B<sub>2</sub>(G), D, E, Nicotinic Acid, Pantothenic Acid, and other protective food factors in Gaines Dog Food! You may find it will pay in every way. For in addition to helping dogs develop clear eyes, glossy coats, strong bones, firm muscles and plenty of pep, Gaines helps protect against all nutritional deficiency diseases!

## CHOICE OF THE U. S. ANTARCTIC EXPEDITION

For two years, Gaines was the mainstay of the diet fed all dogs of the U. S. Antarctic Expedition. And though the temperature often fell to 60° below zero in the South Pole regions, these dogs returned from Antarctica in good enough shape to go to work for the U. S. Army—where they continued to enjoy Gaines Food.

## OFTEN COSTS LESS TO FEED

Best of all, the benefits that Gaines offers dogs are truly economical! Indeed, Gaines often cuts feeding costs—even when it replaces foods that cost less to buy.

For overland transportation of vital supplies the Expedition depended on dog teams like this.

## TRY GAINES—AT OUR RISK

See for yourself what Gaines can do for you! Make this HALF-KENNEL TEST: Feed Gaines to HALF of your dogs for 30 days. See how effective and efficient it is. Keep track of its cost, too, to see how economical it is to feed. Unless you are completely satisfied with Gaines in every respect—and you're to be sole judge—Gaines will refund every cent you may have paid. Take advantage of this no-risk opportunity to compare Gaines with your present food. Order a 30-day test supply of Gaines today.

**SPRATT'S**

*good work never ceases...*

Most of us are not sorry to see the last of 1941; at least its passing has brought us a year nearer to Peace. It is times like these which provide the testing ground for friendships, and we are happy to say that the cordial relations always existing between Spratt's and the Breeder are now more firmly cemented than ever.

Spratt's have had their difficulties (particularly with restricted supplies of

raw material and embargo on export), but these have been greatly relieved by the warm understanding and helpful attitude shown by Breeders generally. Rest assured that Spratt's, for their part, are, as ever, mindful of your interests. Though present conditions narrow the scope of their activities in promoting these, you can be sure that when Peace returns, Spratt's will be able to supply your full demand for their noted Biscuits.
