Are you feeding Puppies?

Here are 3 Dog Foods favored by Successful Breeders

Master K-9 MEAL is excellent "starter" feed for young puppies. Numerous successful breeders feed Master Meal and recommend it. Made from a veterinarian's formula . . . Master Meal has the Proteins, Vitamins and Minerals that promote healthy growth. In 11/2 and 5 lb. Cartons-50 lb. bags.

Master K-9 PELLETS are Master Meal in a new form. Pellets can be fed dry or mixed with ground meat, broth or vegetables. They contain the same ingredients as Master Meal. In 2 and 5 lb. Cartons-50 lb. bags.

Master PUPPY KIBBLE is recommended for puppies to breeders who prefer a kibble food. Puppy Kibble is in small granules especially suited for puppies and small breeds. In 1 and 5 lb. Cartons-50 lb. bags.

Sold at Feed, Pet, Grocery, Drug and Department Stores

OUR COVER

Our cover this month depicts a beautiful specimen of one of the most popular breeds in the Non-Sporting Group, the Boston Terrier.

Champion Cosburn's Gallant Chum is a splendid young dog who has enjoyed outstanding prominence in the show ring. He attained his Canadian title at the early age of ten months in three successive shows at the C.N.E., 1948, going Best of Winners on each occasion and being unbeaten by any other male. He opened his campaign for his American title by recently going Winners at Westminster Kennel Club, Madison Square Gardens, New York, and followed this by going Best of Winners at Buffalo.

He is a Canadian Bred being a son of Ch. Visitor's Gallant Flash and a grandson of the late Ch. Regards Wee Model, his mother being a full sister of the celebrated Ch. Sylvan Glen's Lady Valentine.

He is owned by Mr. and Mrs. W. Gottschalk who also own, among other fine Bostons at the Cosburn Kennels another beautiful Champion, Cosburn's Golden Girl shortly to be bred to Gallant Chum. She attained her Championship at seventeen months of age and during her show career was placed First in two Non-Sporting Groups. Both these dogs were handled by Mr. Ted Ward of Clarkson and we look forward to seeing more outstanding Boston Terriers from Cosburn Kennels as their breeding programme develops.

THE IMPORTANCE OF THE DOG

By LILAH LYMBURNER

MUCH has been written about various individuals who are more or less important at any well organized and managed dog show, but it still remains for something to be said about that most important part of the show, the dogs themselves. Unless they are properly entered, present on the benches and ready to be shown at the proper time, all these other persons would not be the least bit important, for whatever may be said otherwise, the dog is (or should be) the important thing at any show. Show giving clubs should bear in mind that from the point of view of the dogs (and their owners) a successful show is one which affords the best possible conditions for a dog to be benched for ten or twelve hours; the best possible opportunity for showing his wares to the judges under whom he will pass, and some sort of atmosphere which will keep his master in a frame of mind which makes for good handling and showing when the time comes for that. Surely not unreasonable demands.

Dogs, like humans, are of separate individualities and should be treated with consideration. While there are those who sigh, "Oh, for a dog's life," there are probably many dogs which would exchange their hours in the show ring quite readily for an opportunity to just stay at home to romp about with others of their kind; dogs which wouldn't be scolded if they tore chunks of hair out of their ears on a barbed wire fence when they joyously chased the scent of a woodchuck or a rabbit; which didn't have to have their teeth looked at periodically to make sure that in their casting about for "some-thing to do" in their boredom they hadn't been chewing on something which injured one of those precious

molars. Even a cover girl will admit to being somewhat bored with just looking pretty all the time! We've heard it said by the kings of other sports that keeping in condition to stay in that top slot isn't quite the picnic that it might seem to those who see only the glamorous side of their lives.

On the other hand, there are those dogs, again, even as humans, which are extroverts and revel in being in the

limelight all the time. We have in mind a particular dog which can lie on the bench with the most supercilious air while in a mood of complete relaxation, but the moment he reaches the ring-side he is already in his stride, and for fire and sheer showing ability he can stack up against any movie idol to advantage. He seems to appreciate that he is a worthy specimen of his breed; that he has a reputation to uphold and that he also has the honor of his owner in his keeping for at least those brief moments when he is being passed on, not only by the judge, but by the ring-side as well.

Between the "born showman" and the dog which dislikes the confusion and bright lights which to some are as food and drink, we find those great numbers of dogs which have to be handled with much kindness mixed with firmness; which must be made to feel that everything is under control and that all will be well. To this type of dog an exhibitor owes a great deal, for more often than not that dog will give his heart and soul to win the coveted ribbon for his master, no matter what it may cost him, mentally.

It is a constant wonder to many exhibitors that there are those who can place their dogs on the bench and proceed on their way for the rest of the day without a thought for the dog's comfort. We have often seen the dog's "neighbors" in pity, take these dogs to the exercise ring, bring them back and provide a clean dish of water and a companionable word coupled with a gentle pat.

We often wonder if dogs' thoughts run somewhat as those of their owners. If they do, we imagine they must wonder if that Prissy Pompom who won last week will be here again this time, and whether the judge will like her better than he likes us;—"just look at that Rajah Rattail in his cage lined with velvet—just a show-off"—and we wonder if not a few vow to themselves that if just one more person comes along and says, "Mister, what kind of dog is that?" they will at least show their teeth at the inquirer if not actually make use of them to leave a lasting impression of their particular breed!

The wonder of it is, that this same dog will lift an enquiring nose every time someone comes along the aisle looking just slightly like his owner, or a sharp ear if a voice is heard above the babble which just remotely resembles that of his hero. More often than not, it is this same dog which will

go into the ring with the merriest tail a-wagging and pure adoration in his eyes, just to be near the person to whom he has given his heart.

Every dog brought to a show has a right to be prepared to look his very best; that is the least his master can do for him and probably, apart from his typiness, the most important thing toward this end is condition. It is silly to think that a dog can be made to look his best in two weeks' time if he has been neglected for weeks before. This is a process which continues over weeks and months and presents the exhibitor's greatest problem. Even as the prize-fighter, who must not only get into condition, the exhibitor has to find that happy medium which will KEEP his dog in show condition. We do not propose to go into this matter, since there are no hard and fast rules. Every dog requires individual work and attention, but it is safe to say that the dog must be groomed every day; he should be exercised regularly-a good long walk will not only do him good but will act as a conditioner for his master as well, providing the walk is taken at a good pace. A young dog should be taken where he will be in the midst of strange sights and smells as well as strange voices and people, and it will be a good idea to let him know there are other dogs as well as those with whom he has been on speaking terms, until that particular instance when he runs into a complete stranger of the four-footed variety. If he can be gay in facing all these new experiences, it is safe to hope that he will show well.

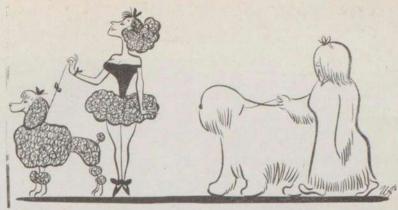

If the dog is one which likes being worked over, one need not worry overmuch about how soon he should begin preparing the dog for the ring, so long as he is certain that he is allowing sufficient time. On the other hand, if the dog becomes restless with working over him, the exhibitor would be wise to prepare the dog, as far as possible, well in advance of the hour for showing. The important thing is to bring the dog into the ring "properly dressed and in his right mind." One might even add that this also applies to the exhibitor,

for he owes it to his dog to enter the ring looking every bit as natty as the dog. While it is assumed the judge is not judging the handler, on the other hand, there is no prettier picture than a dog set down with every hair in place and the exhibitor looking equally as well turned out. To paraphrase the old adage, "clothes may not make the man or the dog, but it certainly helps to be well dressed!"

There are those who maintain that a dog should not be fed while on the bench, prior to being shown. It is certain that if food works with dogs as it does very often with humans, they will be more inclined to want to stretch out for a sleep after being fed, and sleepiness certainly is not conducive to a good performance, to say the least. Not a few exhibitors leave home very early in the morning, and in order to avoid car-sickness often dislike feeding before the trip. In this case, it would seem the right thing to find out what time the dog is to be shown and then gauge the feeding accordingly. We have often taken some good lean, chopped beef along. While it may not be filling, it does carry over until that time later on when a larger amount of food may be fed.

One might experiment also, with riding in a car. There is nothing more upsetting than to find that one has started to a first show with a dog that is car-sick the entire distance to the show. Neither dog nor owner are in any mood for "showing-off" when the time comes, and since there are things which can be done to ward off car-sickness which can do no harm whatsoever to the dog, it is wise to make sure of the dog's travelling abilities beforehand.

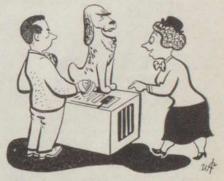

It might be wise to interject, here, that we are trying to point out that in the final analysis it is the dog who is of greatest importance at the shows, and anything done by the exhibitor or

wear one's hat in the ring, and a general air of tidiness is to be desired. We have attended at out-door shows where the sun was streaming down on the rings and men came into the ring in shirt sleeves still looking as if they had stepped out of the proverbial bandbox. What they may have looked like after thirty or forty minutes in the ring with their dogs under a broiling sun was another matter, but in the first instance they made a fine entrance with their dogs-an entrance which gave all the limelight to the dog and made the handler just the balance of a most effective picture.

We have often heard those who have presented a good performance before the public assure those who will listen, that they find it necessary to have complete rest for several hours before they go before their public. No such privilege is allowed dogs at shows. They are there to be looked at by all who care to see them, and rightly so. Which of us would mark that show as successful if no one but exhibitors were in attendance? But it would seem only humane to see to it that those who pass by, no matter how well-intentioned their behaviour, may not be allowed to pat and touch dogs on the benches. It is amazing how few persons pay attention to a warning placed

It is only fair to one's dog to go to the show completely equipped with all the tools necessary for grooming the dog for the ring-clean water, food and dishes, clean towels for washing and drying, if this should be necessary, and ALL the beauty aids which may be legitimately used. Just occasionally, one may find that something has been left at home in the hurry of getting away to the show and no one minds helping out in case of an emergency, but there is no one more heartily disliked at the shows than those persons who come relying completely on the good hearted (or unwise) individual who will hand out everything he owns, only to find that often none of it is returned and he must needs follow up the borrower in order to salvage his belongings.

Since a dog show is the one place where the public may see good dogs, it is only smart for exhibitors to present their dogs in the best possible manner with the thought of showing the public how much more to be desired a well bred dog is, over one of nondescript. heritage. It is especially important that he should be on hand at the bench when interested persons would like to discuss the possibilities of his breed. While doing this, he might well remember that to the novice, pedigrees mean little and to launch into a long dissertation on the qualities of this particular dog often scares a potential buyer away entirely. Honest information about the usefulness of the breed, his qualities as a family companion and assurance that purebred dogs are just as easy to raise and care for as one whose origin is unknown, may well pave the way to a most acceptable sale to a satisfied person. If the inquirer knows the breed and is looking for a particular strain, then he will want to

(Continued on page 31)

handler to attract attention to himself to the disparagement of his dog just is not to be done. Not that we have not seen it done, and women seem to be the worst offenders. Showing dogs is a sporting event, and just as one would not play golf in spool heels and an afternoon gown, neither does one go to that extreme at a dog show. We have seen exhibitors who looked as if they were imitating tragediennes from a Noel Coward piece, or were fugitives from the ballet of an opera. Men too, are offenders. It is not necessary to

at the back of the bench regarding the touching of the dog, and since this is true, it would behoove exhibitors to either stay with their dogs or see to it that they have someone keep a sharp eye on admirers. Admiration may be most acceptable to dogs and humans, but after a bit it begins to pall and who can blame a dog for wanting to "just be alone," even as you and I. Since he usually provides such good company for his owner, he probably finds it most comfortable—yes, even comforting—to enjoy his own company occasionally.

Exporting Dogs to Other Countries

FOR the benefit of our readers, the following is a brief summary of the regulations governing importations of dogs into Australia, Belgium, Denmark, East Africa, Eire, France, Holland, India, Norway, Singapore and the Federated Malaya States, Union of South Africa, Sweden, Switzerland, and the United States of America.

AUSTRALIA—Requirements: Health

AUSTRALIA—Requirements: Health certificate showing that the dog has not been in contact with infectious disease within 6 months. Dogs cannot enter Australia by air, and German Shepherds are prohibited unless special permission is given by the Commonwealth authorities. Quarantine period is up to 4 months.

period is up to 4 months.

BELGIUM—Requirements: Health certificate. Dogs are admitted duty free, and a transmission tax of 4½% of the certified value is levied.

DENMARK—Requirements: Health certificate and import license. Dogs are admitted duty free.

EAST AFRICA—Requirements: Veterinary surgeon's certificate and a certificate signed by the ship's officer that the dog has not landed at any port during the journey. If sent by air, then the pilot of the plane must sign the certificate. If such certificates are not forthcoming, 6 months' quarantine is imposed. The certificate from the veterinary surgeon must certify that the dog has come from an area free from infectious and contagious diseases. Dogs are admitted duty free. Import licenses are required.

EIRE—Requirements: Veterinary certificate of health; otherwise no restric-

FRANCE—Requirements: Veterinary certificate of health. A production tax of 12% and a transaction tax of 1% of the certified value. Import license required, and dogs are admitted free of

HOLLAND—Requirements: Veterinary certificate and a turnover tax of 3% of the tax paid value and a statistical due of 1/10th% ad valorem. Import license is required.

INDIA—Requirements: One pet dog not for sale allowed each person travelling into India. All other importations restricted.

NORWAY—Requirements: Import certificate and veterinary certificate stating that the dog is free from infectious disease and the district of origin has been free for the last 12 months from canine hysteria; also that the area has been free from foot and mouth disease for 12 months. A sales tax of 6½% of the net retail selling price is leviable.

leviable.

SINGAPORE AND THE FEDER-ATED MALAYA STATES—Requirements: Dogs are not allowed into this district from Canada without a previous written permission from the Directors of Veterinary Services. The quarantine period is for not less than 6 months.

of Veterinary Services. The quarantine period is for not less than 6 months.

UNION OF SOUTH AFRICA—Requirements: Import licenses are required, and a veterinary's certificate that the country from which the dog is shipped has been free from rabies for at least 12 months prior to shipment. The dog is again inspected prior to landing at the port.

SWEDEN—Requirements: Requires a blood test of the dog taken one week before its departure, and a second blood

DANNY'S MASTERPIECE OF TAILTEANN and TAILTEANN'S DANCING DAUGHTER

Kerry Blue Terriers, placed 1st in their classes at the recent Westminster Kennel Club Show. Bred and owned by Mrs. F. Yeigh McEachren, of Caulfield, B.C.

test is taken not earlier than one week after release from quarantine. While in quarantine, the dog is tested, and if it shows a positive reaction to leptospirae it is put to death without expense by the Swedish government, if the buyer and seller does not request that the dog be returned to the country of export. An import certificate is required to be paid by the owner. The dog cannot be injected against leptospirae during the period of quarantine or immediately after.

SWITZERLAND — Requirements: A veterinary certificate showing sound health and that the dog comes from a district free of foot and mouth disease. There are no quarantine restrictions.

UNITED STATES—Requirements: Unless a permit from your bank is secured, payment for dogs shipped to the United States must be in United States dollars. Once the negotiations for a sale have been completed, the Canadian exporter should immediately make application for registration and transfer of ownership (if already registered, application for transfer of ownership only) to the Canadian National Live Stock Records, Department of Agriculture, Ottawa, Ontario. Mark the word "Export" on the envelope carrying such vouchers and fees to the Live Stock Records Office. When so marked they will receive the immediate attention of the Registrar. At the same time, five copies of the export form B13 should be secured from an express agent or your bank, and all applicable sections of these forms completed. In the case of the gift of a dog, Item "I" on the B13 forms must be completed by the bank, acting on behalf of the Foreign Exchange Control Board.

When returning to the exporter the certificate of registration showing the American purchaser's ownership, the Live Stock Records Office will forward in duplicate three sets of forms, which should, if a Customs Broker is not engaged, be mailed immediately to the American importer. These forms, "Affi-

Encephalitis and the Hard Pad Disease in England

A T the 66th Annual Congress of the National Veterinary Medical Association, which opened at Southport on September 8, Dr. R. F. Montgomerie, the N.V.M.A.'s new president for 1948-1949, and his colleagues presented a paper on "Observations on Canine Encephalitis." This paper represents the joint work of Mr. A. B. MacIntyre, M.R.C.V.S.; Dr. D. J. Treven, B.Sc., M.B., B.S.; and Dr. R. F. Montgomerie, Ph.D., B.Sc., F.R.C.V.S.; all of the Wellcome Research Laboratories, in which Dr. Montgomerie is the Director of Veterinary Research.

The paper reviews briefly the various forms of true encephalitis (inflammation of the brain) which affect the dog, and also those other illnesses which give rise to symptoms suggestive of encephalitis.

"We are driven to the conclusion", state the authors, "that particularly in these days of difficulty in procuring proper food for dogs, impaired nutrition is an important factor in the causation of canine encephalitis. It may act either by preparing the way for the entry of a virus which does not normally attack nervous tissue or by creating a state in which minimum damage shows to maximum extent. Some such hypothesis, they say, is necessary to explain their observations, for the only virus infecting the dog which always attacks nervous tissue appears to be that of rabies.

Among the forms of encephalitis is that associated with the true distemper virus, which may occur towards the end of the acute phase of typical distemper, generally following pneumonia, but is more common some weeks after apparent recovery. Its appearance while symptoms of distemper are still in evidence is almost confined to cases in young puppies. There is severe destruction of the nerve cells in the brain.

Then there is another type of (true, inflammatory) encephalitis associated with a virus differing from that of distemper. This is the "new virus Disease" which has been causing such a high mortality among dog population of this country (England).

Reports that the authentic distemper preventatives had failed to protect, and that immunised dogs became affected with so-called nervous distemper, first focussed attention on this disease. Subsequent research work indicated that the cause of the trouble was a second virus—and not the Laidlaw-Dunkin virus of true distemper. In the autumn of 1946 Dr. Margaret Scheittin, of Zurich, described a hardening of the foot pads which she had seen in Switzerland and which was always followed by nervous symptoms. This remarkable characteristic of this form of encephalitis was soon confirmed in this country, and has come to be known as "hard pad disease".

This affects dogs of all ages from six days to nine years. There may be some nasal catarrh, but the discharge is thin and watery, and seldom like that which occurs in a typical case of distemper. Occasionally a subnormal temperature persists throughout the illness, but usually there is an intermittent

fever. Severe diarrhoea is common, and in Greyhounds dysentry. There is often fast shallow breathing suggestive of pneumonia which, however, is sel-dom present. The outstanding and relatively constant feature of the disease is the remarkable hardening of the foot pads. This varies in extent, but in marked cases, it results in a distinct tapping noise as the dog walks upon any firm surface. Symptoms of encephalitis usually appear at the same time as, or within a few days of, the hardening of the pads. Occasional convulsions with loss of consciousness, lasting only a few minutes, become more frequent and more lasting until the animal becomes comatose and dies. In some cases fits are often the first symptom observed, and after a succession of severe convulsions, the dog may be dead within one week. Microscopical examination reveals extensive inflammatory changes in the brain.

Research work is continuing. There are already indications that some other factor—in addition to the virus—is responsible for the disease.

Now we come to the HARD PAD DISEASE, which is apparently very prevalent in Great Britain, and according to the following statement made by Mrs. Phyllis Robson, in a recent issue of "Dog World", the English breeders believe this to be infectious.

"The star turn in entries were the Bull Terriers, judged by good-looking Mr. R. H. Oppenheimer. He had an enormous pair of high legged boots on, so I asked him if he was expecting it to snow, and he told me he wore them on account of "hard pad" and took them off before he entered his home so that there was no chance of carrying infection."

From "Our Dogs" we quote the following:

"HARD PAD CONFERENCE: Veterinarians from all over the country are meeting in London, England, to their experiences of the dreaded HARD PAD disease. One of the curious features of this trouble is that the mortality rate varies from district to district. One well-known veterinarian told me that in her area the deaths amount to about 15 per cent, yet a neighbouring veterinarian reports nearly 100 percent deaths. Some confusion has resulted from my inadvertent error in referring to the serum now being used to combat the disease as a vaccine. This was due to a misunderstanding between myself and my informant. The fact is that serum has been developed and is now in fairly good supply. It is, as I said, rather expensive, and as its protection lasts only three or four weeks it can only be used in special cases. except by those who have unlimited cash reserves.'

The latest information on the "Hard Pad" disease is that contained in the National Veterinary Medical Assoc. Report on March 4th, 1949.

Limited quantities of "Hard Pad" antiserum are now being produced at the Wellcome Laboratories, Beckenham, where the disease has been the subject of research for the past five years. "The serum will give a few weeks' protection against the disease," says Dr. Montgomerie, who is Director of Veterinary Research at Beckenham and president of the N.V.M.A., "but in the case of a dog already infected it has to be used very early if the illness is to be cut short."

Unfortunately, cases of "Hard Pad," which is prevalent now in many parts of the United Kingdom, are often well advanced before professional advice is sought. This is largely because the disease is an insidious one, and the dog may not appear seriously ill until the onset of nervous symptoms. In some ways "Hard Pad" is a misleading name because thickening and hardening of the pads are not seen in every case-a fact which adds to the difficulties of diagnosis. Diarrhoea is a frequent symptom in the early stages, and this often clears up, leaving the animal bright and cheerful, though with not quite such a good appetite as before. Congestion of the lung, with fast shallow breathing, is sometimes, but not always, present. The nose is usually excessively moist, with a "dewdrop" hanging from the nostrils although the temperature is usually above normal. Thickening and hardening of the pads and nostrils may occur while the dog still seems in good spirits, and the owner often finds it difficult to believe that the position is serious. Later, however, aimless wandering or stumbling round the room, whimpering and con-vulsions indicate that encephalitis (inflammation of the brain) has set in.

"Hard Pad" has been seen in puppies six days old, and in dogs turned nine years. It is a virus disease, and as such it is as difficult to deal with as influenza, infantile paralysis or the common cold, against which medical research workers have laboured for so long. Scientists at the Wellcome Laboratories, Beckenham, have shown that ferrets infected with the virus develop hard pads but not encephalitis. Dogs similarly infected have developed an intermittent fever lasting a fortnight, followed by complete recovery. Only rarely has the hard pad condition been reproduced and never the encephalitis. There is evidently some additional fac-tor—apart from the virus—necessary before encephalitis is set up, and research is now in progress to discover what this factor is.

As the breeders and exhibitors of purebred dogs in Canada are becoming greatly alarmed over the mysterious disease which has taken such a heavy toll in dogs, we have selected at random the latest reports as published in various papers. We would welcome comments from our readers as to their experiences with this disease.

Dr. W. Shute, noted Doberman Pinscher breeder, made the following remarks in an address to the Young Men's Canadian Club in Toronto: "The researches of three U.S. scientists, Hickman, Hove and Harris, have proved that human diets are from 10 to 90 percent deficient in vitamin E.

"All the vitamin E was taken out of our food 35 years ago, when the flour millers took it out of bread flour. They found the flour would not keep unless the vitamin was taken out, because it turns flour rancid, and thus prevents its storage.

He declared the vitamin is present in green vegetables, "but it is spoiled by either heating or storage. The result is that nearly all our food lacks this vitamin. In this climate, the chief source of vitamin E is in the wheat germ.'

In a recent article written by Mrs. Mary Fix, it was pointed out that "An English doctor recently made an ex-periment upon dogs. For four days, he fed a group of them nothing but bleached flour. At the end of that time, all had developed "canine hysteria". He put them back on a scientifically correct diet and all recovered."

Is it possible, then, that this disease is caused through improper diet? Is it possible, also, that the lack of proper vitamins and minerals is causing so much Mon Orchidism and Cript Orchidism in the males, and sterility in our bitches.

The following article written by the U.S. Vitamin Corporation, may be the answer to our problems.

THE nutrition of dogs corresponds THE nutrition of dogs corresponds very closely to that of other omnivorous animals and humans. While most breeds of dogs are omnivorous in their dietary habits, they are, as a rule, all carnivorous, being by nature meat eaters.

Domestication has, however, resulted in changes in the habits of dogs which are reflected in variations in their nutritional requirements. Living under artificial conditions, the dog is probably more subject to nutritional deficiency diseases than under natural conditions. These deficiencies, which are more often multiple than single, result in lowered vitality, decreased appetite, dull coat, impaired reproductive functions, decreased rate of growth in the young, and other signs of general ill health.

Due to the tremendous increase of interest in dogs and the increased popularity of breed and show dogs in the last decade, the nutritive require-ments of these animals are deserving of greater attention. While the energy requirements of most breeds of dogs have been fairly well established regarding the protein, fat and carbohydrate intake, considerable knowledge has also accumulated about the vitamin requirements of dogs. This is to a great extent due to the fact that the dog has been used as an experimental test animal by various investigators in nutrition.

According to these investigators, many of the ills suffered by domesticated and pedigreed dogs are primarily due to improper diet. While dogs thrive best on a protein diet of animal origin, it has been established that satisfactory dietary results can be obtained when part of the protein is substituted by energy-producing fats and carbohy-drates. However, the amounts of car-bohydrates and fats in relation to protein intake should be well-balanced not only for energy and heat requirements but also for their vitamin and mineral contribution to the animal's diet. Wide variation in protein, fat and carbohy-drate ratios markedly affect the vita-min and mineral balance of the animal's ration. At best, the vitamin and mineral intake of the average dog ration may in many cases be inadequate.

In addition to a well-balanced pro-

tein, fat and carbohydrate diet, dogs require an adequate intake of vitamins

FINGARD'S ODIN-SON

Great Dane owned by David Fingard, with the charming Miss Betty Corley.

In the March issue of DOGS IN CANADA, it was erroneously reported that this dog was a Champion. As its owner had stated that it was the first appearance of the dog in the show where he won the Working Group, it is obvious that he could not have completed his Championship in one show. The show in question was the National Bulldog Club of Canada Sanction Show held on February 8th in Toronto. DOGS IN CANADA regrets that its statement was incorrect and thus misleading, and trusts that no embarrassment was caused.

A, B₁, B₂(G), B₆, D, E, nicotinic acid and the various factors of the Vitamin B Complex; together with added essential minerals. Breed dogs, in particular, being as a rule kept confined, do not have the opportunity of foraging and obtaining their vitamins and minerals from natural sources such as animal food. Where the diet is known to be low in vitamins and minerals, supplementation of these important factors, balanced especially for dogs is essential for normal growth, optimum health and reproduction of breed dogs.

Processed Dog Foods May Be Inadequate in Vitamins and Minerals

In a preliminary survey conducted by the American Veterinary Medical Association, it has been reported that many processed dog foods have been found to be below the standard re-quired to meet all of the nutritive needs of the average dog. Many of these dog foods are known to be not only low in toods are known to be not only low in vitamin and mineral content but also improperly balanced with respect to these vital factors. It becomes necessary, therefore, to utilize a supplementary source of vitamins and minerals when the diet of the animal consists mainly of foods deficient in these factors. factors.

The vitamin requirements of the dog have been studied in detail by Cowgill, Elvehjem, Sebrell and other investigators in animal nutrition. As a result of these studies, the minimum vitamin requirements of most breeds of dogs have been fairly well established. It is now well recognized, however, that the question of vitamin deficiencies in dogs is definitely linked up with an inadequate supply of all of the vitamins rather than single vitamins, and to be efficient, the vitamin intake must be not only adequate in potencies but also properly balanced.

From the contributions of nutritional research known to date, the following biological functions can be attributed to the various vitamins definitely required in canine metabolism.

Vitamin A—(Anti-Xerophthalmic Vitamin)

Vitamin)

Fat-soluble. Occurs in fish liver oils and animal liver; also in green vegetables, chiefly as the pro-vitamin carotene. Biological Functions: Helps to promote growth. Aids the animal to resist infections of the mucous membranes of the nose, ears, throat and respiratory tract. Protects against night-blindness and xerophthalmia. Essential for normal reproduction, lactation and other glandular functions. Prolonged deficiency of vitamin A affects the muscular and nervous systems of dogs.

Estimated dally requirements per kilo

Estimated daily requirements per kilo of body weight of dogs: 70-80 International units. In young pups, requirements are considerably higher; 200-400 units per kilo* of body weight.

Vitamin B₁—(Thiamine Hydrochloride;. Anti-Neuritic or Anti-Beriberi Vitamin)

Vitamin)

Water-soluble; unstable to heat and alkaline media.

Occurs naturally in fair amounts in rice polish, yeasts, liver, lean pork, wheat germ and other grains.

Biological Functions: Helps to promote normal growth. Aids appetite, digestion and assimilation. Is utilized, in carbohydrate metabolism. Acts as co-enzyme in pyruvic acid metabolism. Protects against polyneuritis and certain other dysfunctions of nerve tissue resulting from a deciency of vitamin B₁. Required for normal reproduction and lactation.

Estimated daily requirements per kilo of body weight of dog: 2-3 International units.

Vitamin B2 (G)-(Riboflavin)

Slightly soluble in water; difficultly soluble in organic solvents.

Occurs naturally in liver, yeast, rice bran, wheat germ and whey of milk. Also in various fruits and vegetables.

*1 Kilo = 2.2 pounds.

Biological Functions: Essential in promoting normal growth and health of dogs. Essential in nerve tissues and cell respiration. Aids in maintaining health of the eyes, and in preventing formation of cataracts, keratitis. and possibly other eye conditions. Aids in prolonging active span of life.

of life.

Estimated daily requirements per kilo of body weight of dog: 25-30 micrograms.

Vitamin B₆—(Pyridoxine; Anti-Dermatitis Factor)

Dermatitis Factor)

Soluble in water as the hydrochloride.
Occurs more abundantly in certain grains as rice bran, wheat, and legumes. Not very abundant in animal products, except livers.

Biological Functions: Essential in promoting normal growth of dogs, and in maintaining healthy skin. Important in nerve and muscle control and in preventing certain types of anemia. Thought to be of importance in the production of the respiratory enzyme and for utilization of unsaturated fatty acids.

Estimated daily requirements per kilo of body weight of dog: 6-8 micrograms.

Nicotinic Acid—(Anti-Pellagra Vitamin; Anti-Black-Tongue Factor)
Water soluble; stable in acid media.
Occurs fairly well distributed in animal
products, yeast, rice bran and wheat

germ.

Biological Functions: Has specific activity in dogs, preventing disease synthesis (Continued on page 10)

Encephalitis in Dogs and Hard Pad Disease

(Continued from page 8)

(Continued from page 8)

drome known as "black-tongue". In dogs, essential in maintaining normal function of gastro-intestinal tract and skin.

Estimated daily requirements per kilo of body weight of dog: 0.2-0.5 mgm.

Vitamin B Complex Factors:

Including pantothenic acid, vitamins Ba, Ba, Ba, bottin, choline, Factor W, and several other lesser known factors.

Occurs naturally in varying amounts together with Vitamin B, and riboflavin in various types of grains, seeds, grasses, yeast and some animal products, particularly liver.

Biological Functions: Generally considered to have growth promoting properties for most animal species. Aids in promoting healthy skin and fur of most animals.

Estimated daily requirements for the dog have not been determined.

Vitamin D—(Fat-Soluble Vitamin; Sunshine Vitamin; Anti-Rachitic Vitamin) (Synthetic Vitamin D also known as "Viosterol" or "Calciferol")

Occurs naturally in five-livers and fishiver oils. Formed in skin of animals upon exposure to sunlight or artificial ultra-violet light.

Synthetically prepared from activatable sterols and sterol-containing materials by exposure to ultra-violet light.

Biological Functions: Essential in the utilization by the body of calcium and phosphorus, and to normal bone growth and dentition. Important in preventing rickets and in reproduction and in viability of young. Essential for normal body structure.

Estimated daily requirements per kilo of body weight for small or average size dogs: 1.5 to 2 International units where the diet contains optimum amounts of calcium and phosphorus.

For larger breed dogs the requirements are considerably higher, and may range as high as 20 to 25 International units per kilo of body weight.

Vitamin E—(Alpha-Tocopherol:
Anti-Sterility Vitamin)

Oll Soluble; unstable to oxidation.

Phosphorus—(Phosphate)
(Bone-Building Element)
Biological Functions: Essential for building of sound bones and teeth. Important in enzyme activation. Acts as a buffer in blood and tissues.
Suggested minimum dally requirement per kilo of body weight of dog: 40 mgms.
Occurs naturally in wheat germ oil and to a certain extent in certain other vegetable oils. Occurs rather widespread, but in limited amounts in natural foodstuffs.
Eiological Functions: Essential to fertility and reproduction in various animal species, including dogs. Essential in muscle and nerve coordination in preventing a certain type of paralysis and muscular dystrophy, and in promoting normal glandular functions.

Deficiency of vitamin E will often result in small litters and have incidence of failure of pups to survive.

The quantitative daily canine requirements have not been established.

MINERALS

The increasingly recognized importance of mineral metabolism in canine nutrition has been stimulated to a great extent by the increasing knowledge of vitamin requirements and their relations to mineral metabolism, particularly that of calcium and phosphorus. While some specific knowledge has become available regarding the proper calcium to phosphorus ratio required by dogs, the mineral requirements in general of these animals are usually calculated on the basis of the mineral requirements established for humans.

A deficient supply of calcium or phosphorus or a marked disproportion in the ratio of these elements in the diet of the growing animal results in poor development of bones and teeth and leads to the disease known as rickets.

The biological importance of the various essential mineral elements have been described at length by various investigators in human and animal nutrition and are given here in outline form. The minimum daily mineral requirements for dogs are those suggested by Arnold and Elvehjem.

Calcium—(Lime Salt)

Calcium—(Lime Salt)
(Bone-Building Element)
Biological Functions: Essential for building of normal bones and teeth. Important in blood coagulation and in lactation.

Suggested minimum dally requirement per kilogram of body weight of dog: 20

Potassium and Sodium—(Cell-Regulating Elements)

Biological Functions: Regulate osmotic pressure in cellular tissue and fluids. Aid in regulation of buffer action of blood and iron balance. Potassium promotes normal growth and muscle function. Sodium protects body against excessive dehydration. Suggested minimum dally requirement per kilo of body weight: Potassium—80 mgms; Sodium, as sodium chloride—300 mgms.

Iron—(Blood-Building Element)

mgms.

Iron—(Blood-Building Element)
Biological Functions: Essential in
formation of hemoglobin, in oxygen transfer, and in cell respiration. Aids in blood
cell development and prevention of nutritional anemia.

Suggested minimum dally requirement
per kilo of body weight of dog: 0.4 mgm.

Manganese—(Essential Trace Element)
Biological Functions: Essential for
normal growth and proper functioning of
the mammary glands and normal reproduction.

Biological Functions: Essential for the mammary glands and normal reproduction.

Suggested minimum daily requirement per kilo of body weight of dog: 0.04 mgm.

Magnesium—(Musele and Nerve-Building Element)

Blological Functions: Essential for nerve and muscle activity, and bone structure. Aids in growth promotion.

Suggested minimum daily requirement per kilo of body weight of dog: 10 mgms.

Copper—(Blood-Building Element)

Biological Functions: Essential for the formation of hemoglobin. Aids in tissue respiration and growth of red blood cells. Suggested minimum daily requirement per kilo of body weight of dog: 0.06 mgm.

Zinc—(Essential Trace Element)

Biological Functions: Aids in promotion of normal growth and tissue respiration. Interrelated with Insulin and vitamin Bideficiencies. Important in development of normal coat of hair.

Suggested minimum daily requirement per kilo of body weight of dog: 0.06 mgm.

Iodine—(Essential Trace Element)

Biological Functions: Essential in the growth and functions of the thyroid gland and its secretions. Important in regulation of metabolism.

Suggested minimum daily requirement per kilo of body weight of dog: 1 microgram.

Breeders Make No Mistake, Vitamins and Minerals are Necessary If You Wish to Breed Champions to Produce Champions.

The Photo here shows CHAM-PION FINGARD'S DUCHESS II and her puppies, two of which are Fingard's Jody, Winners and Best of Winners at Batavia, N.Y. and Best of Breed at the Canadian National Exhibition, and the latest sensation, Fingard's Odin Son, who at his first show (S) won the Working Group and Best puppy in Show all breeds. CHAMPION FINGARD'S DUCHESS II is out of Champion Fingard's Heide II, who has produced five champions to date including Champion Eaken's Jansen, Winners and Best of Breed at the Canadian National Exhibition 1948. Champion Fingard's Heide II is out of Fingard's Champion Wishart's Dulcie, who is also the producer of Champion Fingard's Honey, Champion Fingard's Odin, Champion Fingard's King and the latest sensation, Fingard's Count.

Read the following letter received from David Fingard, breeder of the famous FINGARD Great Danes.

"I wish to state that I have bred champions who have produced champions for many years. I believe that this success is due in no small measure to the recognition of the fact that dog, like man, must have essential vitamins and minerals. People often wonder why the bitch does not produce; why stud dogs are sterile - and the answer is elementary. Lack of essential vitamins and minerals is the cause of failures.

I have used PERVINAL since its inception. I recommend that every breeder obtain this most valuable combination of all the essential vitamins and minerals and success in your breeding programme will be inevitable.

NUTRITION

may make the difference in breeding champions

Supplementary minerals and vitamins, as available in PERNIVAL, may give that extra nutritional impetus which makes the difference between an average dog and a champion . . . the difference which means a . .

- full, glossy coat good digestion and elimination
- sound teeth and bones
- clean skin, clear eyes
- normal growth and reproductive function
- better nerve and muscular coordination are often the rewards of good nutrition in the dog, when impairment is due to prolonged nutri-tional deficiencies.

PERVINAL

may make the difference

PERVINAL concentrates all essential vitamins and minerals known to be necessary to canine health in one specially balanced-for-dogs, palatable syrup formula.

9 vitamins

10 minerals

Bottles of 10 oz., 19 oz., Quarts and Gallons. Write for sample and detailed literature.

PROVINCIAL NOTES

B.C. Mainland News

By Jean Fletcher

To ALL dog fanciers. We tainly grateful that Mrs. G. O. Alsen O ALL dog fanciers. We were cerchanged trains for her return to Vancouver. Fortunately, by taking an earlier train, Mrs. Alsen missed the accident, which wrecked the train from Toronto. It was grand to have Mrs. Alsen back with us again. Although tired, she seemed very happy and talked endlessly of her experiences while in Toronto. With only a few hours' notice, and with a heavy fall of snow, it was surprising how many of the fanciers gathered at our house to welcome Mrs. Alsen home. Some of them travelled miles without thought of getting home again, in order to show their enthusiasm. Jack and Helen Smyth came the farthest and certainly deserve a medal.

Upon Mr. "Vic." Williams' return from New York, the Bill Dawson's gave a party. This party is described in more detail in another section of the magazine. Topic of the evening, as far as "Vic." Williams was concerned, outside of the Annual Meeting, was about the wonderful grandson which he saw while visiting in Washington, D.C. "Vic." reports that his son, Bob, is doing well, there, and is "oh, so happy."

Some of our members seem to have had a run of bad luck, lately. Mrs.

Bob. Hatley fell and broke her leg, Bob Waters is laid up with a kneecap injury, Mr. Rose and Claude Foster, the latter seriously ill after an operation, are both hospitalized in the General Hospital, Clyde Ritchie is now in hospital after several months of illness, a visit to these members would be welcomed. Let them see you are really earnest when you say "Hurry up and get well soon." We need you for the next party, and for the many picnics we are planning for the summer. Mrs. Alsen wants to play "Bingo."

Want to get rid of that "doggy odour" quickly? Then light a little eau de cologne on a tin plate. The smell disappears like magic. Good for burnt foods, also, and ideal in the kennels.

The Jerry Viponds are building a super doghouse on their new place. W. H. Pym is off, once again, on a judging assignment to the Eastern parts of the United States. How he does get around.

Had a nice, newsy letter from Walter Ritchie of Penticton, B.C. who has some promising young cocker spaniels, grooming for the forthcoming shows.

Vancouver Gives a Party By Mrs. Dollie Wall

THE spacious lounge of the Horticultural Auditorium in Vancouver was the scene of a large gathering of Western fanciers who joined in the party given by Mr. and Mrs. Bill Dawson in honour of our Second Vice-President of the Canadian Kennel Club, Mr. "Vic." Williams and the British Columbia Director, Mrs. G. O. Alsen. It is a well-known fact that there is great talent among the Western members of the Canadian Kennel Club. The singing, during the evening, might well compare with that of the shows in New York City, and the quartet led by Oliver Krog gave some renditions which were really touching. On the dance floor, Bill Dawson gave a fine performance of the Scottish Jig, Highland Fling and Scottische, and Mrs. Rosalie Eckberg jitterbugged. Mrs. Alsen and Mr. Williams led off with the dance "Sir Roger De Coverley" which led to many of the old time dances being revived.

After a lovely buffet supper, Mr. Williams and Mrs. Alsen addressed the members and gave them a review of the Annual Meeting and the Directors' Meeting of the Canadian Kennel Club. With such co-operation between our Vice-President and our Director we really feel this year will go down in history as one of the most co-operative. Not only do we have great talent in both singing and dancing amongst our Western members, but also a first class football team. This team is now going into training for the Big League games. It is the sincere hope of members in Western Canada that we will be able to have parties on many occasions for there is no greater combination than business and pleasure to keep everyone

FIELD TRIALS IN NOVA SCOTIA

Vancouver Island Notes

By Gladys McGee

HELLO, Vancouver Island fanciers. Here is your column again. It is up to each and every one of you to make it so interesting that we can continue to keep it in the columns of DOGS IN CANADA.

The Victoria City Kennel Club held their annual Sanction Show in aid of the Victorian Order of Nurses, and in spite of the inclement weather Two hundred and five Dollars was realized for this excellent cause. Mrs. M. Bowden, of Victoria, judged the Terrier and Sporting Groups, and Mr. J. Caswell, the rest of the show.

Amongst the many newcomers to Vancouver Island, is none other than Mrs. M. Pickup, late of Weycroft-Wimbledon, London, England. Mrs. Pickup had one of the best-known kennels of German Shepherds in the Old Country, and she brought two of her finest dogs with her.

Mr. F. Dodsworth was re-elected President of the Victoria City Kennel Club at their Annual Meeting, and Mrs. F. Clark is again Secretary. This Club, the oldest in Victoria, simply re-elected the officers for last year, and plans are for a well run and well attended Sanction and Championship Show.

Mrs. G. O. Alsen, our newly-elected Director for British Columbia, of the Canadian Kennel Club, held a meeting before going to Toronto. Mr. Charles Butler, of Vancouver, was Chairman. We are very glad to welcome Mrs. Alsen and will give her all the support we possibly can.

Congratulations are in order to Mr. and Mrs. M. Lemon, of Langford, Vancouver Island, on the arrival of a little daughter.

It is rumoured that Nanaimo, B.C., is proposing to hold a Championship Show this summer. Wouldn't it be nice to meet such old friends as Miss L. Hickling, J. Galloway, C. Lonsdale and many others again. Perhaps Duncan will follow suit, then we can have a circuit again.

Buccleleuch K's are going back to their original love, the German Shepherd. Companion and Obedience training will be carried out, while the dogs will be entered for competition later.

Mrs. Hedley Peek, known to most of us as the lady of "Widbrook", has sold her home here and gone to live on the Mainland, Lulu Island. We shall miss her, but hope she will return to our shows.

Well now, folks, help me make this column interesting. Send me your news, the Editor your advertising, and put Vancouver Island back on the map.

Northern Saskatchewan News

By Bernice Brown

THE Ladies' Kennel Club of Saskatoon is in the throes of plans for their Annual Spring Dog Shows, which as usual, will take place on Good Friday

and Saturday, April 13 and 14. The Ladies' Kennel Club have always put on top notch shows and this year will be no exception. Plans are already in progress for the additional feature which makes our shows unique, and it will be well for dog lovers to make an effort to attend. We can assure you of entertainment in addition to keen competition for your dogs.

In the field of local news, M. J. and Mrs. Gagan have scored again with two of their Pekingese, Ch. Jai Tai Pan of Genghis Khan and Ch. Kung Chu of Genghis Khan. These two were sent to the Westminster Show in New York, and each captured First Prize in the Open Class, while Ch. Kung Chu went to Reserve Winners. Congratulations, Gagans, keep up the good work.

Max and Ethel Hoard provided a thrill recently when they demonstrated how five young German Shepherds could be trained to pull a toboggan. These youngsters, all from the same litter, are less than a year old, and they pulled a twelve foot toboggan literally all around the country. It was really quite an experience to watch them, and we hope the Hoards will continue with this kind of work.

Newcomers to the Saskatoon "Dog World' Group are Mr. and Mrs. F. W. Benson, who have moved to our fair city from Regina. The Bensons are breeders of Brittanies and Springers, and we are sure Regina's loss will be Saskatoon's gain. We hope they will be happy here.

AMERICAN CHAMPION Personality's I'm The Emperor"

Weight 14 lbs.

Presenting American Champion Personality's I'm the Emperor; a proven Sire. We are offering a dog that has a great show record as well as producing qualities. One who has made his championship in four specialty shows: Boston, Chicago, St. Louis and Philadelphia.

His breeding is unexcelled—He combines the blood lines of the greatest producing strains of Boston Terriers, sired by the great International Champion Emperor's Ace. Look at his pedigree, and be convinced. He is a dark seal, with even snow white markings, excellent head and expression, dark eyes, very compact body, with clean straight limbs, and a good tail.

THIS DOG IS NOW AT STUD IN WINNIPEG

Young stock sired by this dog are making impressive ring records the latest being PERSONALITY'S EMPEROR'S ACE Best Junior Puppy at the Boston Terrier Specialty Show in New York and at the Westminster Kennel Club Show at Madison Square Gardens, New York. "PERSONALITY'S ON PARADE" won Winners Bitches and Best of Winners for a five point win at the Portland, Oregon show recently.

RESERVATIONS TO APPROVED FEMALES ONLY

Do not hesitate; make reservations now, for this dog will make Boston Terrier History.

C. G. BIGGAR, 425 Gertrude Avenue

Winnipeg, Manitoba

Saskatchewan Notes

By Burnice Heaven

I'T is Heaven again (your Voice Crying in the Wilderness Reporter) with very little news for this month. Your letters and doggie doings are necessary if this column is to be—so how's about it, Saskatchewan?

Spring and the coming dog shows are approximately three tons of coal away and after the severe winter we've had all across Canada, I don't imagine anyone will be sorry. Even a lobster tan with all its pangs would be a most welcome relief right about now!

Mrs. B. E. Baumber, a Boston breeder whom many of us met at our dog show last year has recently joined the Regina Club. We do hope she will be able to attend our meetings often as the lectures and dog films featured each month are very interesting. Mr. Walter Pym, who has been given a Life Membership for past services to the Club, gave a lecture on the English Bulldog at our last meeting with a very much alive model displaying his charms for all and sundry.

Mr. Stanley Evans, an R.A.F. Fighter Pilot who took his training in this country, married a Canadian girl and liked Canada so well is back with us to stay. Another member of his family, "Windway's Whisper", a lovely Scotty, feminine gender out of Reimill Robert x Barbedell Anthene, made the trip over by Air Cargo in four days flat

all the way from Bridgend Glamorgan, Wales. This is somewhat speedier than that slow boat to China we hear so much about via the radio these days.

Our Treasurer and my good friend, Marjorie Barnard, who is a Field Trial enthusiast, contemplates on taking to the ring this year with her new liver and white Springer pup, "Canaline Benefactor". Best of luck, Marj, and may the old show fever take well enough to make you join the ranks of the bench addicts.

The Moose Jaw Kennel Club has come up with something rather novel in the way of boosting membership. Later on in the year at a banquet or social-do the person bringing in the most new members is to be presented with a registered puppy.

Manitoba News

By Suzanne Borse

A T THE Annual Meeting of the Fort Garry Kennel Club, Dr. J. L. S. Anderson, Veterinary Surgeon, was elected President for 1949, by acclamation; Mr. Roy T. Borse, 1st Vice-President, and Albert G. Lunny, 2nd Vice-President. Mrs. J. Gove was elected Secretary-Treasurer for the third consecutive year. That Mrs. Gove is a most efficient Secretary is borne out by the fact that the club has been so successful.

The Executive Committee elected is as follows: Mr. William McAuley, Mr. C. Biggar, Mr. G. Herald, Mrs. A. R. Caruso, Mr. Ross Cauldwell, Mr. John Low and Mrs. T. Eamens who is also Assistant Secretary of the Greater Winnipeg Kennel Club. Mrs. Eamens is also on the Provincial Committee (Manitoba) for the Canadian Kennel Club.

Mr. C. P. Montague Francis, of Rutledge, Manitoba, gave a very interesting and enlightening report on the Annual Meeting of the Canadian Kennel Club which he attended as official delegate of the Cocker Spaniel Specialty Club. This club will hold a meeting on April 19th when a movie film will be shown, and also a Cocker Spaniel will demonstrate his mathematical knowledge. A warm welcome is extended to all dog fanciers to attend this most interesting meeting.

The club welcomes Mr. Cliff Biggar back to Winnipeg from the Annual Meeting of the C.K.C. and Westminster Kennel Club Show in New York City. With Mr. Biggar was the great Boston Terrier, American Champion Personality's I'm the Emperor. Mr. Biggar purchased this little dog a year ago while attending the New York Show, but has only just brought him back to Winnipeg. He will watch with considerable interest his entry into the show ring at our Winnipeg shows, particularly in view of the fact that this dog made his Championship at the four Specialty Shows held in Boston, Mass., Chicago, Ill., St. Louis, Miss. and Philadelphia, Pa.

Notes from the Province of Ouebec

By Pamela B. Mack

IRST of all, I should like to thank everyone who made my first attendance as a C.K.C. Representative at the Annual Meeting so pleasant. Certainly the Annual Meeting should be attended by as many members as possible from the different provinces as it is such an excellent opportunity to straighten out any problems and get the general opinion of the members.

The news from this province this month is mainly to do with the coming spring shows and all the clubs are very busy. For any serious exhibitor there is a very nice round of shows coming up with well known judges and there should be good entries and plenty of points going to the lucky winners. To start off, the Ladies' Kennel Club is holding two one-day shows on April 30th and May 1st, in Montreal; also Obedience classes. The following weekend The Ottawa Kennel Club have two shows scheduled for May 6th and 7th, with the Hull and District Kennel Club following on Sunday, May 8th, with their first point show which looks from all the busy arrangements being made to be a certain and well deserved success to this active new club. In nine days it will be possible to take in five shows, which is very good going for this part of the world.

Word comes from G. M. Howard of Beaupre that the Quebec Kennel Club are planning their two spring shows for May 28th and May 29th. These are always very enjoyable and I am sure will draw a good entry. Also Mr. Howard tells me that in addition to their Scotties and cockers they have now acquired a Briard bitch, "Irhamonts Fantasie," reported to have been shown with success at Westminster and is approved by the Briard Fellowship, as Mr. Howard says "they are now in big dogs," and we all wish him luck with I believe the first Briard to be owned in these parts.

Hear Miss Steggall did very well with her Winna Pugs at Westminster taking puppy dog and bitch classes with Winna Captain Chris and Winna Fancy Nancy, also the Winners points in both sexes with Canadian Ch. Winna Dixie Belle and Ch. Winna Prince Charming. These last two dogs now only lack a few points to their International titles. At New Haven Mrs. Adams Talisker Skyes took best of breed with her home bred Ch. Bit O' Heaven and winners dog with Ch. Kirkby Lonago of Talisker. At Boston the Taliskers again took best of breed, this time Taliskers Wee Angus. also of course winners dog. Winners bitch and best of opposite sex went to another home bred Taliskers Silver Lady. Mrs. Adams says the dogs are staying on with Mrs. A. A. Niven who handled them so ably at these shows to compete in some more U.S. shows and we wish them the best of luck.

Hull and District Ouebec News

By Fred Blatch

WELL, here we are again with the news of the month from this end of the Province of Quebec. Things around here have really been humming lately in "Doggie" activities. The Ottawa Kennel Club held a very successful Sanction Show last week-end, at which one of Hull's leading breeders, Harold Derraugh, captured Best in Show, all breeds, with his beautiful Airedale Terrier, "Derry Jersey Joe."

Everybody interested in pure-bred dogs is looking forward to the forthcoming "Big doings in Dogdom"-Three big Championship Shows, May 6th, 7th and 8th-a real chance to complete a championship all in one week-end. Two in Ottawa, then just hop across the river to the most spacious building in these parts, the deSalaberry Armouries. Hull, Que., where, incidentally, the point rating changes to the advantage of the exhibitors in most all cases. So, take a tip from an old fool, watch the advertisements in "DOGS IN CAN-ADA", and make up your mind to take in these three shows - you won't regret it.

Newcomers to the dog game in Hull are Mr. E. E. (Frank) Ferris, who recently purchased a fine young Labrador

CLUB NOTES

The Cocker Spaniel Club of Central Ontario

By L. L. Broley

A ND now, folks, comes the big event of the year, the Seventh Annual Cocker Specialty Show being held by the Cocker Spaniel Club of Central Ontario, Inc. The club has been most fortunate in securing Good Friday, April 15th, and have secured the Rai Purdy Auditorium, Queen St. at Berti right down in the heart of Toronto, good transportation from every direction, plenty of parking space right nearby and the club officials and members promise to go all out to make your attendance a pleasant experience. A special invitation is extended to exhibitors in Western Canada and the Maritimes to attend this show and if you cannot come yourself, send your dog and it will be shown by one of several members selected who will do their best to put your dog down to his very best advantage. The help of all Cocker fanciers everywhere is asked in getting together to make this the greatest Cocker event to be held in Canada. We note from show reports that that good Cocker Ch. Stockdale Night Pilot took reserve winners at The Cocker Spaniel Club of the Mid-West Show held at Chicago, Ill. Cocker fanciers will remember this good young dog when he was handled with good success by Walter Martin at several of our shows in the East. He is owned by Mr. W. D. McAuley of Winnipeg and we understand that he will be seriously campaigned in the United States to complete his American championship.

Ottawa Kennel Club

By E. B. Reid

WITH a total entry of about 135 dogs the Ottawa Kennel Club's first 1949 sanction show held in late February, gave ample proof that the doggy interest in the nation's capital is still high. The show, which drew an attendance of about 600 to the Coliseum was run off with all the trimmings of a point show.

When the judging was finished Frank Ryan, owner of radio station CFRA in Ottawa handed the best in show prize to Harold Derragh of Hull, whose airedale was handled by the veteran, Fred Coleman.

With a heavy entry already assured, the directors of the Ottawa and Hull Kennel Clubs, at a joint meeting completed the plans for the three point shows, being held in Ottawa May 6 and May 7 and in Hull, May 8. Because of the interest already apparent in the shows the directors have issued a warning that it will be necessary to limit the entries to the first 350 applications from benched dogs.

Adding to the interest in the shows is the fact that the Canadian Travel Bureau, and the two cities of Ottawa and Hull have issued a special mailing to about 1,500 potential exhibitors inviting them to come to the shows and to see Canada's capital and the beauty spots in the Gatineau Hills and Rideau Lake districts.

Committees of both clubs have been working steadily and have lined up excellent premium lists and good cash prizes. Of importance to out-of-town exhibitors is the fact that arrangements can be made for accommodation for both exhibitors and dogs.

Assignment of judging duties has been made with Harry P. Saunders, of Calgary judging best in show Friday night, Walter Reeves, of Oakville, best in show Saturday and Louis Worden, of Jersey City, best in show Sunday. Other judging assignments will be found in the full page advertisement of the two clubs in this issue.

The German Shepherd Dog **Breeders Association**

By Beth Hendry

THE monthly meeting of the above Association was held on March 1st with a record attendance of members.

Great enthusiasm reigns regarding our forthcoming Specialty Show which will be held at Guelph on May 24th. Grant Mann, of Detroit, is to be our judge.

Our Obedience classes continue to gain in popularity-so much so that at the Monday evening training meets held at the Coliseum, Exhibition Park, we have found it necessary to divide them into three groups. Mrs. Spencer Weller and Mr. B. Hendry will instruct the Novice Companion Dog classes. The Companion Dog Excellent and the Utility Dog classes will be trained by Mr. George Taylor, our chief trainer. Mr. B. Cairns will take over the instructions for the Drill work. This Drill Team is shaping up into one of the finest precision teams of dogs on the North American continent. We are booked for most of the Summer Shows.

St. Patrick's Day, March 17th, marked the 2nd Anniversary of the founding of our Club, and to aid in a celebration, our member, Mr. Paul Firman, the well-known orchestra leader was Master of Ceremonies at a dance held at the Kimbourne Hall.

Looking back over the years, we find that our Club has made wonderful progress-not only in membership, but also activities. While 36 new members enrolled last year, we apparently will break that record, for already 11 have enrolled for 1949.

Our President, Mr. Spencer Weller, has been confined to bed with a very serious illness, but is now allowed up for a short time each day, so we hope that he will soon be with us again.

Once again, our Club extends a cordial invitation to all owners of German Shepherd dogs to join us in our Obedience training at the Coliseum, Exhibition Park, each Mor key evening at

MINUTES OF BOARD MEETINGS

1224. A special (annual) meeting of the Board of Directors of the Canadian Kennel Club Inc. was held in Private Dining Room No. 3, Royal York Hotel, Toronto, Ontario, on Wednesday, February 9th, 1949, commencing at 10.00 a.m. The President, W. J. Risewick, presided. Officers and Directors present included: Walter Brown, V. W. Williams, Mrs. G. O. Alsen, W. W. Pratt, Walter Riome, C. G. Biggar, Mrs. Pamela B. Mack, W. P. Moore, Paddy Boughs, G. P. Davies, Douglas Riedel, A. Roberts and Jack Thorndike, Jr.

Paddy Boughs, G. P. Davies. Douglas Riedel, A. Roberts and Jack Thorndike, Jr.

1225 (1200). IDENTIFICATION
SUBJECT: The President pointed out that one of the most important matters facing the Club at the present time is the difficulty now being experienced by fanciers in connection with the registration of their dogs, and he informed the Board that since the Club's Registrar in the Canadian National Live Stock Records office was available, it would perhaps be wise to suspend the regular order of business and ask Mr. Gundersen to report on developments in that regard as they are known to him.

RESOLUTION: It was regularly moved by Vice-President Brown. seconded by Second Vice-President Williams:

"THAT, we suspend the regular order of business and deal with this matter at this time." Motion carried.

DISCUSSION: Mr. Gundersen, being present, reviewed developments connected with the return to breeders of many applications for registration of individual dogs. He reported that some four or five hundred certificates, which have not received departmental approval, had been destroyed in order to preserve continuity of registration numbers, and he reported that approximately one hundred and fifty applications for registration were being held in abeyance pending clarification of the situation in respect to identification of dogs for which registration had been sought. Mr. Gundersen then left the meeting.

The Ontario members of the Board present at a meeting with Mr. MacVannel, Chief Registration Officer of the Department, held following the meeting of the Board of Directors held on January 24th, reviewed the discussions which took place at that meeting, and Director Thorndike pointed out that he gathered from Mr. MacVannel's remarks that the Department wished to obtain a clearer description of the colour markings on applications for registration wherever this was possible.

The President pointed out that Mr. MacVannel had been invited to attend the annual general meeting of the Club to be

ment wished to obtain a clearer description of the colour markings on applications for registration wherever this was possible.

The President pointed out that Mr. MacVannel had been invited to attend the annual general meeting of the Club to be held on February 10th, and suggested that further discussion be deferred until such time as Mr. MacVannel had addressed the members attending the annual general meeting.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Roberts:

"THAT, this matter be left over for further consideration at the meeting of the Board to be held on February 11th, and that Mr. MacVannel be invited to attend the meeting of the Board on that date." Motion carried.

1226. PRESIDENT'S MESSAGE TO

THE BOARD

SUBJECT: The President stated that since his election as President he had looked into all phases of the Club's operations with the result that he had prepared a message for the Board's information and consideration.

The Board so requesting, the President then read the following message:

(See March, 1949 issue of Dogs in Canada.)

RESOLUTION: With Vice-President Brown in the chair, it was regularly moved by Second Vice-President Williams, seconded by Director Riedel:

"THAT, the President's message be received; that he be thanked for the splendid manner in which he has made a number of recommendations; and that the message be read at the annual general meeting of the members to-morrow." Motion carried.

On motion by Vice-President Brown duly seconded and carried, this meeting of the Board adjourned at 12.15 p.m. to reconvene at 1.15 p.m..

This meeting reconvened at 1.15 p.m., with the President, W. J. Risewick pre-

1227. DELEGATION FROM PROFES-SIONAL HANDLERS' ASSOCIATION

REPORT: The President reported that a request had been received from the Professional Handlers' Association of Canada requesting permission to have two officers of the Association appear before the Board of Directors, and believing that the Board would be agreeable, he had directed the Secretary to grant the request. Mr. A. Burden, President of the Association, and Mrs. Lorna Jackson, Secretary of the Association, being available, were asked to enter the meeting.

SUBJECT Mr. Burden, speaking on behalf of the Professional Handlers' Association of Canada, referred to the present applications for handlers' licenses and particularly drew the attention of the Board to that section of the application which stated that "a letter of recommendation from the Professional Handlers' Association which stated that "a letter of recommendation from the Professional Handlers' Association which stated that as far as he was aware no applicant for a handlers' license had sought such a letter of recommendation from the Association was desirous of being consulted by the Canadian Kennel Club before a handler's license is issued. He indicated that the Canadian Kennel Club would not be bound by the Association of Canada after which he and Mrs. Jackson left the meeting.

The President and Director Boughs left the meeting at this stage to attend the

which he and Mrs. Jackson left the meeting.

The President and Director Boughs left the meeting at this stage to attend the funeral services of Mr. George Deller, a deceased member of the Club. Vice-President Brown took the chair.

RESOLUTION: Following further discussion it was regularly moved by Director Riedel, seconded by Director Roberts: "THAT, wherever possible the Professional Handlers' Association be contacted with regard to applications for handlers' licenses received by the Secretary." Motion carried.

1228 (1199). ADOPTION OF MINUTES

Motion carried.

1228 (1199). ADOPTION OF MINUTES
REPORT: The Secretary reported that
the minutes of the meeting of the Board
of Directors which commenced on
January 24th, 1949, were in the process
of being prepared.

RESOLUTION: It was regularly moved
by Director Biggar, seconded by Director
Riome:

"THAT, we defer the adoption of the minutes of the Board of Directors which commenced on January 24th, 1949." Motion carried.

minutes of the board's 24th, 1949."
Motion carried.

1229. LETTER FROM
MR. ALEC GOSTICK

SUBJECT: The Secretary read a letter
from Mr. Alec Gostick, St. Boniface,
Man., who referred to the possible confusion that might arise over his kennel
name. "Sportsmen's", and the name of
the show-giving club in Toronto, namely
the Sportsmen's Kennel Club.

DISCUSSION: Director Biggar referred
to the decision of the Board of Directors
some time ago when it declined to approve
of the application of the name of an
association, "Manitoba Kennel Club", for
registration of its club name in view of
an objection received from the recorded
owner of the kennel name "Manitoba".
It was pointed out that this matter had
come to the Board's attention by reason
of the fact that the Manitoba organization had applied for the registration of
its club name under the name "Manitoba
Kennel Club" but that the Sportsmen's
Kennel Club had not yet applied for registration of its club name under Article 26A
of the Constitution.

RESOLUTION: It was regularly moved
by Seconded by Director Pratt:

"THAT, the matter of reply to Mr.
Gostick's letter be left in the hands of
the Secretary for attention." Motion
carried.

1230 (1212), APPLICATIONS FOR MEMBERSHIP

dogs.

(b) Grant Mann, Detroit, Mich.—German Shepherd Dogs.

(c) R o b ert Shuttleworth, Blasdell, N.Y.—Obedience Trial Classes.

(6) OTTAWA KENNEL CLUB—May 6th and 7th.

HULL KENNEL CLUB—May 8th.
Each of the following judges to judge two groups at each of the three shows:

(a) Louis Worden, Jersey City, N.J.

(b) H. P. Saunders, Calgary, Alta.

(c) Walter H. Reeves, Oakville, Ont.

RESOLUTION: It was regularly moved by Director Riedel, seconded by Director Roberts:

RESOLUTION: It was regularly moved by Director Riedel, seconded by Director Roberts:

"THAT, the applications for approval of selected judges, as reported by the Secretary, be approved conditional that:
(1) Proper applications are received by the Secretary; (2) That proper applications are submitted by the individuals selected as judges." Motion carried.

REPORT: The following report was read by Director Mrs. Alsen, the report having to do with the allocation of show dates in British Columbia: "In accepting the office of Provincial Director for British Columbia, I come here with an open mind, free from any attachments which might sway my mind, and with a willingness to co-operate with my fellow Directors for the best interests of the Canadian Kennel Club.

With due modesty, may I say I have worked with Ager show recently for my control of the canadian Kennel Club.

Directors for the best interests of the Canadian Kennel Club.

With due modesty, may I say I have worked with dog show executives for over thirty years in Canada and I do not feel at all strange in facing our common problems with you.

On January 17th, I held a meeting of our Provincial Committee, and our Field Trial Representative, to which meeting our newly elected Second Vice-President was invited. The objects of this meeting were to explore the problems we may be called upon to deal with this year.

In an effort to gathering as much data as possible so that our Board of Directors would have an overall picture of our requirements and possibilities, a form letter was sent to the various show-giving clubs asking them to indicate the show dates they require for this season. In view of the great number of shows held in this province each year, it was suggested that each club be content with two licensed shows each year.

In years past one of our principal reasons for dissention has been the allocation of dog show dates in unlimited numbers as individual club projects rather than with regard to the entire number of shows to be held in our province during the year.

We have received a mixed reaction to

the year.

We have received a mixed reaction to this suggestion. It seems all of the clubs which operated last year will be active again. Also, it has been suggested that the cities of Nanaimo, and Duncan, B.C., would like to hold licensed shows this

coming summer. And another group in Vancouver have indicated their intention of holding a licensed show in Vancouver

Vancouver have indicated their intention of holding a licensed show in Vancouver this summer.

I believe all clubs should receive equal treatment and not be unnecessarily restricted. Yet I believe also that the Canadian Kennel Club would not be wrong if some attempt were made to improve the quality of our shows rather than be content with mere numbers of shows. One thing certain if a few clubs run four shows each, some one must fail. There is simply not the field to draw from to support them all. However, it is understood that the Board of Directors control the issuing of licenses, and the above is submitted merely for what it is worth.

On January 29th I held a meeting of our members in Victoria and on January 31st, a similar meeting was held for our Vancouver and vicinity members to give those members attending an opportunity to discuss the proposed amendment, etc. I have a record of the opinions expressed and will act upon them at the annual meeting. Mr. C. M. Butler, our Field Trial Representative, attended both the Victoria and Vancouver meetings and dealt with matters pertaining to his department. A number of new membership applications have resulted from these meetings.

Attached is a letter I received from meetings

meetings.

Attached is a letter I received from the International Kennel Club, and it has my support. In conclusion I would appreciate it if the above were records as part of the minutes of this meeting."

RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Biggar:

"THAT, Mrs. Alsen's report be received." Motion carried.

The President and Director Boughs returned to the meeting.

SUBJECT: The President referred to recommendations referred to in his mes-SUBJECT: The President referred to recommendations referred to in his message to the Board, made with a view to expediting the approval of applications for dates and selected judges. The President then suggested that each show or trial club he asked to send one copy of its application for date or dates and/or application for approval of selected judge or judges to the local provincial Director (for shows outside Ontario) and one copy to the Secretary; the Director could then forward the duplicate copy to the Secretary with a memo indicating his approval or disapproval of such application; if approved the Secretary could immediately issue a certificate of approval providing all provisions of the Dog Show Rules are complied with; the Board at its next regular meeting to endorse certificates of approval on dates and judges issued by the Secretary.

RESOLUTION: It was regularly moved by Director Biggar, seconded by Director Riome;

"That, the following procedures be fol-

Riome:

"That, the following procedures be followed in respect to applications for approval of date or dates and applications for approval of selected judge or judges:

or approval of selected judge or judges:

1. All such applications are to be in duplicate;

2. Show and trial clubs outside Ontario to be directed to forward one copy of each of these applications to the local Provincial Director, other copy to be forwarded to Secretary;

3. Provincial Director to then forward second copy to Secretary with memo indicating approval (or otherwise) of application:

indicating approval (or otherwise) of application;
Secretary to write Provincial Director if second copy not received from Director within one week of original copy reaching him;
Secretary empowered to approve dates and judges;
Secretary to refer to Board such applications as he feels should be dealt with by Board;
Board to endorse certificates of approval on dates and judges issued by Secretary on behalf of Board."
Motion carried.

1233 (1176). FIELD TRIAL RULES

Motion carried.

1233 (1176). FIELD TRIAL RULES
SUBJECT: Director Riome pointed out
that the agenda included a letter from
the Saskatoon Field Trial Club regarding
proposed amendments to the rules for the
pointing breeds and since the Field Trial
Representative for Saskatchewan was in
the city, he asked that the Board hear
Mr. Harry Dean's views regarding the
necessity of the amendments proposed by
the Saskatoon Field Trial Club.

DISCUSSION: It was agreed that Mr.
Dean should be heard and he entered the
meeting. Mr. Dean read the following
proposed amendments to the Field Trial
Rules for the pointing breeds:

1. That Section 3 of Chapter 9 (page 7 of the 1948 Field Trial Rules) be deleted in its entirety and the following substituted therefor:
SECTION 3. POINT RATING:
Puppy Stake (5 or more starters)—Winner—1 point
Derby Stake (5 or more starters)—Winner—2 points
Each of the All Age Stakes (8 or more starters)—
1st place—5 points
2nd place—2 points
3rd place—1 point
2. That a fourth section be added to Chapter 9 and to read as follows:
SECTION 4. DEFINITION OF STAKES:

ECTION 4, DEFINITION OF TAKES:
The Puppy Stake is open to dogs over 6 months and under 18 months at time of running.
The Derby Stake is open to dogs over 6 months and under 2½ years at time of running.
The Amateur All Age Stake is open to dogs of all ages (over 6 mos.) owned, trained, and handled by amateurs.
The Shooting Dog Stake is open to

amateurs.
The Shooting Dog Stake is open to dogs of all ages (over 6 mos.) and must be handled on foot.
The Open All Age Stake is open to dogs of all ages (over 6 mos.)
In each of the All Age Stakes, the dogs must be shot over while on game; gunshy dogs will be dispressioned the adoption of the All age stakes.

qualified.

He recommended the adoption of these changes for the reasons that:

(a) The present point ratings for stakes as set forth in Chapter 9, Section 3 of the Field Trial Rules), were identical to the American Rules when the number of entries in stakes was much higher than could be expected at a Canadian Field Trial for the pointing breeds:

Canadian Field Trial for the pointing breeds;
These high ratings made it extremely difficult for a pointing dog to earn a field trial championship in Canada;
While the rules for the Retrievers and Spaniels trials provided for definitions of the various stakes in Retriever and Spaniel Trials, no such definitions were included in the special chapter referred to trials for the pointing breeds.

breeds.
DISCUSSION: In discussing the recommended amendments it was agreed that:

(a) The amendments should be adopted except that:

(b) Amendments would not apply to

(a) The amendments should be adopted except that:

(a) The changes would not apply to Maritime field trials until the views of the Maritime field trial clubs were obtained by Director Moore, and that the reference to the elimination of gun-shy dogs was hardly necessary since these dogs are automatically eliminated from placement in the awards by the presiding judges.

RESOLUTION: It was regularly moved by S e c o n d Vice-President Brown:

"THAT, for trials for pointing breeds in all provinces except the Maritimes, Sections 3, Chapter 9, be deleted in its entirety and the amendments as proposed by the Saskatoon Field Trial Club and amended by the Board, be inserted in Chapter 9." Motion carried unanimously. SUBJECT: Director Mrs. Alsen referred to a letter which she received from C. M. Butler, Field Trial Representative for British Columbia, in which Mr. Butler recommended a number of amendments to the field trial rules for Retrievers and Irish Water Spaniels.

Mr. Butler's letter was read, also the following amendments which he proposed:

1. That the words "and in such stakes

the field trial rules for Retrievers and Irish Water Spaniels.

Mr. Butler's letter was read, also the following amendments which he proposed:

1. That the words "and in such stakes every competing Retriever and Irish Water Spaniel must be given a land test and a water test in the first series", be deleted from Section 5 of Chapter 10;

2. That the rules be amended by the addition of the following: "Any amendments to the rules and regulations for Retrievers and/or Irish Water Spaniels should only be submitted at the Annual General Meeting and that they be advertised in Dogs in Canada as is the procedure with all other amendments";

3. That the rules be amended by the addition of the following: "No new club be allowed to put on a trial for point rating until it has run two Sanction trials for Retrievers and/or Irish Water Spaniels."

4. That the rules be amended by the addition of the following: "No club be allowed to run two Open All-Age Stakes on consecutive days for Retrievers and/or Irish Water Spaniels."

5. That the rules be amended by the addition of the following: "After each Open All-Age Stake for Retrievers and/or Irish Water Spaniels a Sanction Trial must be run before another date is granted for further Open All-Age Stake."

DISCUSSION: In discussing proposal No. 2 the Board agreed that until such time as the Rules for Field Trials have been reasonably well established it would be advisable to continue the present practice of making it possible for the Board to amend such rules from time to time as conditions warranted or as Field Trial Clubs and Field Trial Representatives recommended.

RESOLUTION: It was regularly moved

recommended.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Fratt:

"THAT, the Board continue the policy of amending the Field Trial Rules from time to time as conditions warrant, but only after consulting the various Field Trial Clubs concerned with the Field Trial Rules governing their Trials." Motion carried.

on amending the Field Trial Rules from time to time as conditions warrant, but only after consulting the various Field Trial Clubs concerned with the Field Trial Rules governing their Trials." Motion carried.

DISCUSSION: In discussing the third proposed amendment the Board agreed that this was an unnecessary restriction on Field Trial Clubs and the proposed amendment should not be endorsed.

The Board agreed that the same conditions applied in connection with proposed amendments 4 and 5.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Second Vice-President Williams:

"THAAT, proposed amendment Number 1, as recommended by Mr. Butler, be endorsed and the Field Trial Rules for Retrievers and Irish Water Spaniels be amended accordingly." Motion carried. 1234 (1160). PROPOSED AMENDMENT TO CRIMINAL CODE

SUBJECT: The Secretary reported that last year's Board had given consideration to a printed letter which the B.C. Gun Dog Club Inc. had addressed to "Sportsmen and Game Conservation Clubs" seeking support of the following proposed addition to Section 542, Subsection (f) of the Criminal Code of Canada:

"Except that the shooting of such liberated birds shall be permissible for the purpose of conducting organized Field Trials, or the training of hunting dogs, providing such trials and training are under the supervision of the Game Department, or other Department administering the Game Laws of any province."

The Secretary further reported that he had been directed to advise the provincial Directors of the letter in question after which the matter was to be referred to this annual meeting of the Board for its consideration.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Second Vice-President Williams:

"That, we have no objection to the proposed changes in the Criminal Code and that the B.C. Gun Dog Club Inc. be notified that it has our support in effecting the proposed addition to Section 542, Subsection (f) of the Criminal Code of Canada."

We see the content of the pr

ment of an Office Manager." Motion carried.

1236 (1200). NEW LIVE STOCK
PEDIGREE ACT
SUBJECT: The Secretary read a letter from Mr. R. S. Hamer, Director of Production Services, Live Stock and Poultry Division of the Department of Agriculture, inviting the Club to send not more than two representatives to attend a meeting of other representatives of live stock associations and departmental, called for the purpose of discussing the provisions of a new Live Stock Pedigree Act drafted by the Department.
DISCUSSION: The President pointed out that since this meeting was called for February 8th and 9th, and since these dates conflicted with the current annual meetings, it had not been possible for the Club to send representatives, but that the Club would still have an opportunity of making its representations before the Bill reached the House.

ACTION: No action was taken at this time, the matter being deferred until the Club had an opportunity of studying the provisions of the Act.

1237 (1202). FINANCIAL MATTERS
SUBJECT: The President referred to his message to the Board where he indicated that in the interests of the Club's financial position, it would be necessary for the Board to take steps to prevent a financial loss on the Club's operations for 1949.

financial loss on the Club's operations for 1949.

DISCUSSION: In discussing this problem the Board agreed that it would be advisable to review the various parts of the financial statement for 1948, and determine where it would be necessary to effect economies totalling not less than \$12,000.00. The Board then dealt with the following parts of the financial statements:

the following parts of the financial statements:

REVENUE—MEMBERSHIP FEES
DISCUSSION: Second Vice-President
Williams pointed out that the revenue
from membership fees represented a
major portion of the Club's revenue and
every effort should be made to increase
the number of memberships. Director
Mrs. Alsen suggested a membership drive.
Director Riedel suggested that a circular
outline the advantages of membership
and Director Thorndike recommended that
show and trial clubs should be asked,
as a courtesy to the Club to distribute
these circulars with its premium lists.
RESOLUTION: It was regularly moved
by Director Biggar, seconded by Director
Thorndike:

"THAT, pamphlets be printed outlining
the benefits of membership; and show
and field trial clubs be asked to distribute
these circulars with premium lists, as a
courtesy to the Canadian Kennel Club."
Motion carried unanimously.

PUBLICATION OF OFFICIAL
BUSINESS

SUBJECT: Reference was made to the
President's suggestion that official business published in DOGS IN CANADA be
set in 6 pt. type with a view to decreasing
the cost of the publication of this matter.
It was pointed out that in some canine
publications all reading matter is set in
6 pt.

RESOLUTION: It was regularly moved
by Director Thorndike, seconded by Vice-

option of pt.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Vice-President Brown:

"THAT, all reading matter other than advertising published in DOGS IN CANADA be set in 6 point type." Motion carried.

"THAT, all reading matter other than advertising published in DOGS IN CANADA be set in 6 point type." Motion carried.

TRAVELLING EXPENSES

SUBJECT: In reviewing the Itemized list of travelling expenses for 1948, the Board noted the following expenses:

(1) C.K.C. Representative's travelling expenses for 1948-8.211.15.

(2) Directors' travelling expenses in attending shows in 1948-8211.15.

(3) Travelling expenses—Board meeting at Regina in August-8571.37.

DISCUSSION: Director Riedel suggested that in order to cut down on the C.K.C. Representative's travelling expenses, the C.K.C. Representative's travelling expenses, the case of the morning of the show rather than the day before as has been the policy since April, 1947. The suggestion was advanced that the services of the Representative be made available to show or trial clubs prepared to pay his travelling expenses, or share such expenses if a circuit of shows desired his assistance.

The Board so agreeing, the President, by telephone, discussed this point with the Club's solicitor who advised that, according to the contract with the C.K.C. Representative, it was the Board's privilege to decide what shows or trials (if any) the Representative should attend, but the contract called for the Canadian Kennel Club to pay the Representative's travelling expenses in attending shows or trials at the Club's direction.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Roberts:

"THAT, owing to our financial situation this Board finds itself unable to continue to send the C.K.C. Representative to shows and trials in 1949."

FOR THE RESOLUTION: Vice-President Brown, Second Vice-President Brown, Se

DISCUSSION: In reviewing the itemized list of salaries paid in 1948, the Board estimated that on the same basis

salaries for the Club and magazine staff would be less in 1949 by \$450.00.

would be less in 1949 by \$450.00.
PRIZES

DISCUSSION: The Board discussed several alternative arrangements which would enable the Club to continue to recognize major wins made by Canadian-bred dogs yet at lower cost to the Club. It was estimated that a saving of \$1.400.00 would be realized on the adoption of any of these arrangements but the final decision on the matter was deferred to Friday's meeting of the Board.

deferred to Friday's meeting of the Board.

PRINTING

DISCUSSION: The Board reviewed the itemized printing charges for 1948 and calculated that expenditures on printing forms, books, etc., for the current year would likely be less than in 1948 by approximately \$2,000.00.

GENERAL EXPENSE

DISCUSSION: The Board reviewed and discussed the itemized list of general expenses for 1948 and agreed that general expenses for 1949 would likely be less than the total for 1948 by some \$1,200.00.

STUD BOOK

DISCUSSION: The Board discussed the high cost of publishing the annual Stud Book as compared to the small revenue realized on its sale. Alternative methods of publishing the material were discussed and it was felt that a saving of approximately \$1,500.00 could be realized if the material was made available in some other acceptable form.

RESOLUTION: It was regularly moved by Director Roberts:

"THAT, in view of a new Live Stock Pedigree Act being introduced in the present session of Parliament, that we hold in abeyance the publication of a Stud Book for the year 1948." Motion carried.

ACTION: The Secretary was directed

ACTION: The Secretary was directed to instruct the Live Stock Records office to discontinue preparation of any copy for Volume 52.

The Board reviewed other expenditures for rent, audit and election fees, legal fees, honorariums and the publication of official business and felt that with economies in these accounts as well as in the other major items previously discussed, a saving of approximately \$12,000,00 could be effected with a view to preventing a loss on the Club's 1949 operations if the Club's revenue for the year was commensurate of that shown by the financial statements for 1947 in 1948.

1238. PROPOSED AMENDMENTS

(ANNUAL GENERAL MEETING)

DISCUSSION: It was suggested that the Board review the proposed amendments to come before the annual general meeting. The Secretary read each amendment and each was discussed briefly by the Board.

ACTION: No action was taken or

ordered.

1239 (1210 and 1232).

LETTER FROM MRS. LILLIAN MILLER
REPORT: The Secretary reported that
the Board had, at its January meeting,
ordered referred to this meeting, a letter
received from Mrs. Lillian Miller. Seattle,
regarding the Vancouver Island Dog
Fanciers' Association's continued refusal
to accept her entries.

The Secretary then read the following
letters:

ranciers Association's continued relusal
to accept her entries.

The Secretary then read the following
letters:

1. Mrs. Miller's letter of January 7th.
1949, in which Mrs. Miller stated that
her entries were being refused by the
Vancouver Island Dog Fanciers' Association, perhaps due to a letter written in April, 1945, which was signed
by a number of persons not all of
whom (apart from herself) had withdrawn their names from the said letter; and asked why, since she was
in good standing with both the
American Kennel Club and the Canadian Kennel Club, her entries were
being refused.

2. The Secretary read a letter from Mrs.
C. Bloomfield, Secretary of the Vancouver Island Dog Fanciers' Association, addressed to the Board of Directors on November 21st in which Mrs.
Bloomfield reported that Mrs. Miller's
entries were refused because of the
letter written in April, 1945.

3. A letter from the then Director, V.
W. Williams, dated November 27th,
1948, in which Mr. Williams expressed
the view that Mrs. Miller had been
unfairly dealt with, that Mrs. Miller's
entries be not condoned.

DISCUSSION: In discussing the matter
the Board agreed that while the show-

giving club had, as required by the Rules, reported their refusal of Mrs. Miller's entry, there was not sufficient justification for the continued refusal of Mrs. Miller's

for the continued refusal of Mrs. Miller's entries.

RESOLUTION. It was regularly moved by Vice-President Brown, seconded by Director Riedel;

"THAT, the applications of the Vancouver Island Dog Fanciers' Association, for permission to hold championship shows on May 27th and 28, 1949, be not approved." Motion carried unanimously. It was regularly moved by Vice-President Brown, seconded by Second Vice-President Williams:

"THAT, Mrs. Lilliam Miller be informed that we regret the inconvenience that she has experienced as a result of the refusal of her entries by the Vancouver Island Dog Fanciers' Association," Motion carried.

DAVID FINGARD VS C.K.C. ET AL
Report: So that the other members of
the Board would be familiar with this
case, particularly with regard to developments since the beginning of the current
year, the President reviewed in detail the
action that had been taken since the beginning of the year to obtain a settlement
of the litigation (see minutes of the meeting of the Board of Directors commencing
on January 24th, 1949).
RESOLUTION: After discussion it was
regularly moved by Second Vice-President
Williams, seconded by Director Pratt:
"THAT, this Board endorse the actions
of and thank the Ontario Board for the
able manner in which it has brought this
litigation to a final conclusion. Motion
carried.

1241 (1237), FINANCIAL MATTERS

litigation to a final conclusion. Motion carried.

1241 (1237). FINANCIAL MATTERS SUBJECT: The President reported that he had received communications from members of the Club which indicated concern over the possibility of there being an increase in registration and other fees, and suggested that in view of the Board's earlier discussions regarding economies it would be wise to make a statement regarding the matter in the next issue of the publication.

RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Roberts:

"THAT, the President's recommendation be endorsed, and a statement on behalf of the Board be published in the March issue of DOGS IN CANADA." Motion carried.

1242. ADJOURNMENT

1242. ADJOURNMENT
On motion by Second Vice-President
Williams, duly seconded and carried, this
meeting of the Board of Directors adjourned at 11:30 P.M.

PECIAL MEETING OF THE BOARD OF DIRECTORS—FEBRUARY

OF DIRECTORS—FEBRUARY

11TH, 1949

A special meeting of the Board of Directors of the Canadian Kennel Club Inc., was held in Private Dining Room No. 8, Royal York Hotel. Toronto, on Friday. February 11th, 1949, commencing at 2:30 P.M. The President, W. J. Risewick, presided. Officers and Directors present at the commencement of the meeting included: Walter Brown. V. W. Williams. Mrs. A. Alsen, W. W. Pratt, W. W. Riome, C. G. Biggar, Paddy Boughs, George P. Davies, Douglas Riedel. A. Roberts and W. P. Moore. The President reported that Director Mrs. Mack had found it necessary to return to Montreal and that Director Thorndike would be present shortly.

PUBLICATION OF STUD BOOK
SUBJECT: The Board reviewed its earlier discussion regarding the publication of the Stud Book having in mind economy measures decided upon for 1949. DISCUSSION: The Board discussed whether or not it was advisable to continue publication of the Stud Book in view of the high cost yet limited interest on the part of prospective purchasers of the Book, and it agreed that it would make no arrangements regarding the publication of a Stud Book for 1948, unfit he requirements of the new Live Stock Pedigree Act are known.

ACTION: The Secretary was directed to:

(a) Instruct the Live Stock Records of fice to discontinue the recovery incomments.

(a) Instruct the Live Stock Records of-fice to discontinue the preparation of copy for Volume 52; (b) Refer this matter back to the Board of Directors for consideration at its next meeting. Director J. Thorndike Jr., entered the neeting.

meeting.

1945 (1225). IDENTIFICATION

SUBJECT: The Board reviewed its earlier discussion regarding difficulties being experienced in the registration of dogs in the matter of identification.

DISCUSSION: The Board discussed the application for registrations presently being held on the Registrar's desk in the Records office. The Club's Registrar, being available, he was asked to enter the meeting. Mr. Gundersen stated that before leaving Ottawa to attend the annual meetings of the Club, he had left an instruction with his assistant to proceed with the applications in the regular way. It was however agreed that an instruction should go forward to the Canadian National Live Stock Records.

RESOLUTION: It was regularly moved by Second Vice - President Williams, seconded by Director Riome:

"THAT, the Canadian National Live Stock Records be instructed to process the applications for registration now being held in its office and certificates be sent to the Chief Registration Officer upon their completion." Motion carried.

DISCUSSION: The Board reviewed the Chief Registration Officer's remarks, made at the annual general meeting held the previous day, and the report brought in by the Committee which met with Mr. MacVannel and his associate, Mr. Steele, during supper hour.

DISCUSSION: The President referred to seeming dissatisfaction on the part of the Chief Registration Officer concerning alterations made in the office of the Canadian National Live Stock Records prior to the certificates being typed. Mr. Gundersen stated that in order to prevent confusion and errors in the typing department and in order to ensure uniformity, it was the practice to clarify the applications prior to their being turned over to the typing department, and that while the colours, markings and descriptions of the dogs had occasionally been altered for typing purposes, it had not been intimated to him by the Chief Registration Officer, that this practice was not favoured.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Director

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Direc-

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Director Riome:

"THAT, the Secretary be instructed to inform the Director of the Canadian National Live Stock Records that it is the Board's instruction that all certificates of registration are to be prepared in accordance with the applications submitted by the breeders, and such certificates, as soon as processed, are to be turned over to the Chief Registration Officer for his approval." Motion carried.

Second Vice-President Williams and Director Riedel voted against this resolution, although they expressed their approval of the resolution in principle.

DISCUSSION: The Board then discussed the advisability of acquainting the members with the necessity for properly completing applications for registration, particularly in respect to colour identification.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Director Mrs. Alsen:

"THAT, a notice be placed in the March issue of DOGS IN CANADA, explaining to the members of the Canadian Kennel Club that they must in future be explicit in setting forth colour markings on applications for registration of pure-bred dogs." Motion carried.

1246. ENTRY FORMS

SUBJECT: Director Thorndike referred

in setting forth colour markings on applications for registration of pure-bred dogs." Motion carried.

1246. ENTRY FORMS

SUBJECT: Director Thorndike referred to the present style of entry forms and stated that some exception was being taken to the necessity of requiring a club to send out four entry forms to exhibitors who would likely enter not more than one dog at a show.

DISCUSSION: The Board discussed whether or not any action could be taken to make it possible for a show-giving club to send out one or more entry forms according to the number of anticipated entries from the various potential exhibitors to whom entry forms and premium lists are mailed.

RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Thorndike:

"THAT, the matter be left in the hands of the Secretary with a view to presenting a report at the next meeting of the Board." Motion carried.

1247 (1181).

LETTER FROM W. W. ROONEY

SUBJECT: The Secretary referred to a communication received from Mr. W. W. Rooney requesting that his letter to the Club date June 14th, 1948, be published in full. The Secretary was directed to read the minutes of the meeting of the Board agreed that the letter had been fairly reported in the minutes. (See item No. 1043 in minutes of the meeting of the Board of Directors held on June 18th, 1948.)

RESOLUTION: It was regularly moved by Vice-President Rown seconded by item No. 1043 in minutes of the meeting of the Board of Directors held on June 18th, 1948.)

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Riedel:

"THAT, the letter from W. W. Rooney dated June 14th, 1948, be recognized as having been read and we regret that it was not printed in full in the minutes of the Board of Directors held on July 18th, 1948." Motion carried.

ACTION: No other action was ordered taken.

taken.

DISCUSSION: The Board reviewed discussion at the annual general meeting on the Club's present office and the possibility of subletting.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Second Vice-President Williams:

"THAT, the Direction from the Annual General Meeting be left over until we have been given more direction from the new Live Stock Pedigree Act." Motion carried.

1249 (1237). MATTERS CONCERNING DOGS IN CANADA

DOGS IN CANADA

SUBJECT: Reference was made to the President's remarks in his message to the Board to the effect that the allocation of revenue and expenditures to DOGS IN CANADA should be made early in the year so that the Editor would be in a position to know the financial position of the magazine from month to month.

DISCUSSION: The Board discussed the allocations in respect to the following expense accounts: Telephone, light, rent and telegraphs.

RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Mrs. Alsen:

"THAT, the Secretary arrange for a separate telephone line for DOGS IN CANADA and the magazine be charged for the regular charges of that line and allong distance telephone calls made for the magazine." Motion carried.

It was regularly moved by Second Vice-President Williams, seconded by Director Biggar:

"THAT, arrangements be made so that

It was regularly moved by Second VicePresident Williams, seconded by Director
Biggar:

"THAT, arrangements be made so that
the magazine can be correctly charged for
all telegraphic communications sent on
behalf of the magazine." Motion carried.
ACTION: The Secretary was directed
to charge the magazine with 10% of the
cost for light and 10% of the cost for rent.
SUBJECT: Director Roberts referred
to a charge of \$14.53 made in connection
with art work on the front cover of the
May, 1948 issue. He stated that he had
contracted for this cover with the former
Editor of DOGS IN CANADA, and that
at no time was it understood that any
extra charges would be made for art
work or engraving.

DISCUSSION: The Board discussed
whether or not it was proper for extra
charges to be made against a client taking
the front cover except when it is understood at the time that extra charges would
be made for art work, engraving or
colour work.

RESOLUTION: It was regularly moved

be made for art work, engraving or colour work.

RESOLUTION: It was regularly moved by Director Riedel, seconded by Vice-President Brown:

"THAT, since it appeared that the extra charges were not in accordance with the original contract made by Mr. Roberts with the former Editor, the amount be written off."

FOR THE RESOLUTION: Vice-President Brown, Second Vice-President Williams, Directors Riedel, Mrs. Alsen, Pratt and Thorndike,

AGAINST THE RESOLUTION: Directors Riome, Boughs, Moore and Davies, Motion carried.

250. APPOINTMENTS TRIAL REPRESENTATIVES AND PERSONNEL ON PROVINCIAL COMMITTEES SUBJECT: The Secretary pointed

UBJECT: The Secretary pointed out t vacancies existed in connection with following: No Field Trial Representative elected for the Province of Manitoba. No Provincial Committee elected for New Brunswick and Prince Edward

sland.

Island.
3) One vacancy on the Manitoba Provincial Committee.
4) One vacancy on the Saskatchewan Provincial Committee.
5) No Provincial Committee had been elected for British Columbia (Island).
RESOLUTION: It was regularly moved by Director Riems, seconded by Director Riems. Director Riome, seconded by Director

"THAT, Mrs. Lyla Semple be appointed to complete the personnel of the Sas-katchewan Provincial Committee." Motion

It was regularly moved by Director Riome, seconded by Director Riedel:
"THAT, Mr. Hugh Crozier be appointed as Field Trial Representative for the Province of Manitoba and that Mr. Reg. Poole be appointed to complete the personnel of the Manitoba Provincial Committee." Motion carried.

ACTION: Director Moore indicated that he would later submit his recommendations in respect to the personnel of the New Brunswick and Prince Edward Island Provincial Committees. Director Mrs. Alsen indicated that she would later submit her recommendations in respect to the B.C. (Island) Provincial Committee.

SUBJECT: Second Vice-President Williams referred to the action of the Board last year in appointing local advisers to Provincial Directors. In discussing whether or not to continue this policy the Board decided that it would be advisable to defer any action until the contents of the new Live Stock Pedigree Act are known." Motion carried unanimously. unanimously. SUBJECT:

unanimously.

SUBJECT: Second Vice-President Williams referred to the policy of allowing all members to vote in the election of Field Trial Representatives even though all the members of the Club are not interested in Field Trials.

ACTION: It was agreed that no action should or could be taken in view of the provisions of the Club's constitution.

1252. SELECTION OF CORRESPONDENTS FOR DOGS IN CANADA SUBJECT: Second Vice-President Williams referred to the former policy of the Board in appointing official correspondents for DOGS IN CANADA

ams referred to the former policy of ne Board in appointing official cor-espondents for DOGS IN CANADA and, or the guidance of Provincial Directors, sked whether or not this policy would

for the guidance of Provincial Directors, asked whether or not this policy would be continued.

DISCUSSION: In discussing the matter the Board agreed that it would be advisable to leave the matter of appointing correspondents entirely to the Editor's discretion, in the event the Provincial Director could not make an arrangement satisfactory to all concerned.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Second Vice-President Williams:

"THAT, the selection of Provincial Correspondents be left to the Managing Editor and falling the securing the appointment of such a person, she may consult the local Directors," Motion carried.

1253. ADJOURNMENT AND RECONVENING

On a motion by Director Thorndike, duly seconded and carried, this meeting of the Board adjourned at 5:50 p.m. to reconvene at 7:50 p.m. This meeting of the Board of Directors reconvened at 7:50 p.m. with the President, W. J. Risewick, in the chair. Officers and Directors present included: Walter Brown, V. W. Williams, Mrs. A. Alsen, W. W. Pratt, C. G. Biggar, Paddy Boughs, George P. Davies, Douglas Riedel, A. Roberts, W. P. Moore and J. Thorndike, Jr.

DISCUSSION: The Editor having en-

George P. Davies, Douglas Riedel, A. Roberts, W. P. Moore and J. Thorndike, Jr.

DISCUSSION: The Editor having entered the meeting at the Board's invitation, the President explained that it was the Board's desire to continue its earlier discussions regarding the magazine, in the presence of the Editor. so that the Editor's views could be obtained and the Dominion-wide Board could be informed of policies to be followed throughout the year. The following matters relating to the magazine were then discussed.

NEWS-STAND SALES

Director Riedel suggested that the magazine was now suitable for newsstand distribution and asked the Editor's opinion regarding the matter as well as the average cost to print per copy. The Editor stated that the average cost to print the magazine was approximately 35c per copy but the cost fluctuated according to the number of copies printed (i.e. approximately 17c per copy above 3,000 copies) and that while past figures indicated an overall loss on news-stand sales, nevertheless placing the magazine on the news-stands would be a great advantage to breeders advertising in the publication, particularly if placed in the larger hotels, railroad stations, department stores and other exclusive news-stands.

The President recommended that a

ment stores and other exclusive newsstands.

The President recommended that a three months trial be made by publishing an extra 500 copies per month for three months and have them distributed as suggested by the Editor. Director Biggar suggested that arrangements be made with show-giving clubs to have the magazine sold at championship shows, a portion of the proceeds to be retained by the show-giving clubs.

ACTION: It was agreed that it be recommended to the Editor that on a trial basis an extra 500 copies of the magazine be printed and distributed as suggested by the Editor.

ADVERTISING RATES

DISCUSSION: Reference was made to that section of the President's address to the Board wherein he referred to adver-

tising rates in the publication. The President asked whether the present advertising rates were comparative with publications of similar size and circulation and whether or not it is customary for other publications to have varying rates according to the classes of advertising published. The Editor stated that advertising rates were low and that arrangements had already been made to increase rates for advertising on the cover. It was agreed that the matter of increasing advertising rates for commercial advertisers and non-members of the club be left in the hands of the Editor for further consideration.

SIZE OF TYPE FOR READING

for further consideration.

SIZE OF TYPE FOR READING

MATERIAL

DISCUSSION: Reference was made to the Board's earlier resolution regarding publication of all reading material in six point type. The Editor stated that it would not be necessary to publish all reading material in eight point on nine but that the type size could be varied-according to the nature of the reading material published. The Editor stated that feature stories could be set seven point on eight with other articles of lesser importance set in six point.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Vice-President Brown:

mportance set in six point.

RESOLUTION: It was regularly moved by Director Thorndike, seconded by Vice-President Brown:

"THAT, we rescind the resolution adopted on February 9th calling for the publication of all reading material in six point type, and it be left to the Editor to determine the size of type to be used except that all official business be set in six point type." Motion carried.

ACTION: It was agreed that the magazine would be credited with the publication of official business (except official announcements), at printing costs.

SPECIAL ANNOUNCEMENTS

Discussion: The Board discussed the matter of charge to the Club for official announcements appearing in the publication. The President suggested that the magazine should be credited with these announcements at regular advertising rates according to the space occupied by such announcements.

EFSOLUTION: It was regularly moved.

rates according to the space occupied by such announcements,
RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Mrs. Alsen:
"THAT, the magazine be credited with the publication of official announcements, authorized by the Board of Directors, at regular advertising rates." Motion carried.

POSTAGE

DISCUSSION: Reference was made to the fact that while the majority of copies published went to members of the Club, no credit was made to the magazine for postage costs involved in the distribution of these copies. It was agreed that the magazine should be credited with these postage charges, the amount to be determined according to the statements received from the post office.

BREEDERS' REGISTER
So that all members of the Board would

mined according to the statements received from the post office.

BREEDERS' REGISTER

So that all members of the Board would be familiar with the reasons prompting increase in the charges for a column in the Breeders' Register, the Editor was asked to explain the reasons for the increase. The Editor pointed out that on the basis of the old rate the revenue realized from the Breeders' Register per page per month did not exceed \$35.00 yet the revenue realized on a single full page advertisement in an issue was \$45.00. Furthermore a single full page advertisement represented one transaction so far as it concerned the labour involved in the handling of the advertisement, book-keeping and invoicing, yet each card in the Breeders' Register represented a single transaction with resulting labour in handling, bookkeeping, etc. The Editor expressed the view that the Breeders' Register discouraged display advertising in the magazine with resultant financial loss in advertising revenue.

PUBLICATION OF MINUTES

The Board discussed whether or not it was advisable to continue publishing the minutes of Board meetings in the magazine soft the possibility that the magazine would again be placed on newstands. It was agreed that the minutes of Board meetings in the magazine should be printed separately but included with magazines going forward to members of the Club, this policy to commence with the March issue.

SIZE OF LAST TWO ISSUES

Director Biggar stated that the members segment to be attained.

with the March issue.

SIZE OF LAST TWO ISSUES

Director Biggar stated that the members seemed to be satisfied with the magazine published last year but there was some concern over the size of the January and February issues of the magazine. It was pointed out that the size of any issue is determined to some extent by the amount of advertising offi-

cial business (such as show reports, minutes, etc.), printed in the magazine. It was understood that usually the January and February issues did not equal the size of issues published during the balance of the year.

STAMPS AND TELEGRAPHIC CHARGES
On the Editor's suggestion it was agreed that the Editor should be provided with stamps so that an accurate calculation of postal charges against the magazine could be determined. It was also agreed that separate accounts for telegraphs should be established for the magazine so that the magazine could be charged for telegraphic communications for telegraphic services used by the magazine.

magazine.

BOOKKEEPER-STENOGRAPHER

The Editor asked the Board to consider the possibility of her employing a book-keeper-stenographer in place of a stenographer so that, as far as possible, book-keeping for the magazine could be divorced from the books of the Kennel Club proper. It was suggested that this might involve additional costs for auditing and after further discussion no action was taken.

PRINTING COSTS

was taken.

PRINTING COSTS

The President referred to the cost of printing the magazine in 1948, approximately \$15,000,00 as compared to approximately \$9,000,00 in 1947, and asked whether or not quotations had been obtained on the printing of the magazine. The Editor stated that prices for printing varied slightly between various printers, and the excellent service provided by the present printer had made it possible for each issue of the magazine to be malled on schedule.

SHOW AWARDS HALESTRATIONS

present printer had made it possible for each issue of the magazine to be mailed on schedule.

SHOW AWARDS ILLUSTRATIONS

The Editor was asked the costs involved in the publication of group illustrations showing group winners and winners of major awards. The Board was informed that usually each picture cost \$1.00, that the engraving of the full-page illustration cost approximately \$15.00, and the cost to print each page was approximately \$23.00. It was suggested that the Editor consider the possibility of asking the show-giving club to pay for the pictures and the engraving, the magazine to stand the cost of publishing such group illustrations.

PUBLICATION OF ADVERTISING

RATES

Second Vice-President Williams recommended that each issue of the magazine contain the schedule of advertising rates. The matter was left in the hands of the Editor for consideration.

GENERAL POLICY

The President recommended that since the Board had decided on the financial allocations to DOGS IN CANADA and the policy to be followed in respect to the publication of official business, the magazine should be the entire responsibility of the Editor, and her stewardship of the publication should be free from any interference on the part of the members of the Board, either individually or collectively.

RESOLUTION: It was regularly moved by Director Piezer and the costs in the passible property of the publication of the part of the members of the Director Piezer and the cost in possible property of the publication beautiful the property of the publication of the part of the members of the Director Piezer and the cost in the passible property of the publication beautiful the property of the publication beautiful the property of the publication of the part of the members of the Director Piezer and the cost to be passible property of the publication beautiful to the property of the publication to the part of the members of the publication the part of the members of the publication the part of the members of the publication the part of the pu

RESOLUTION: It was regularly moved by Director Biggar, seconded by Director Riedel:

Riedel:

"THAT, the President's recommendation in respect to the responsibility and authority of the Editor be endorsed."

Motion carried.

ACTION: The Secretary was directed to publish an announcement to this effect in the March issue of the magazine.

1255 (1230). APPLICATIONS FOR MEMBERSHIP

DISCUSSION: The President referred to his recommendation regarding the prompt approval of applications for membership.

BESOLUTION: It was regularly moved by Director Riedel, seconded by Director

RESOLUTION: It was regularly moved by Director Riedel, seconded by Director Roberts:

"THAT, with the exception of such applications as the Secretary feels should be considered by the Board, the Secretary be empowered to immediately approve applications for membership on the Board's behalf and report on such approved applications at the Board's next meeting." Motion carried.

DISCUSSION: Second Vice-President Williams recommended that a letter should be sent to new members of the Club and another type of letter to members renewing membership.

ACTION: The Secretary was directed to be governed by this suggestion which was endorsed by the Board.

1256 (1231). APPLICATIONS FOR HANDLERS' LICENSES

DISCUSSION: The President recommended that a procedure be set up so that the Secretary could act quickly on

applications for renewals of handlers'

Following discussion it was agreed

t:
Provide every member of the Board
with a list of 1948 licensed handlers
so that each member of the Board
can indicate the names of those to
whom renewals of licenses should be
issued in the event application is

made.
Send a copy of the same list to the
Professional Handlers' Association of
Canada and ascertain the names of
those to whom they believe renewals
of handlers' licenses should be issued
(if application for renewals sub-

(if application for reinfalling approved applications for renewals of handlers' licenses for those to whom neither a member of the Board or the Professional Handlers' Association of Canada has objected.

RESOLUTION: It was regularly moved by Director Riedel, seconded by Director apperts:

"THAT, the Secretary be empowered to act on applications for renewals of handlers' licenses as agreed on by the Board."

ACTION: The Secretary refer applications for renewals of handlers' licenses as agreed on by the Board."

Motion carried.

ACTION: The Secretary was directed to refer applications for new handlers' icenses to the Board, the local provincial Director to be consulted regarding applications from residents of Canada outside the province of Ontario.

REPORT: The Secretary reported that Mrs. Ivy Sisson, Islington, Ont., had applied for a license to handle Belgian Sheepdogs, Boxers, Doberman Pinschers, German Shepherd Dogs, St. Bernards, Samoyeds, all Toys and all Non-Sporting breeds except Poodles.

RESOLUTION: It was regularly moved by Director Boughs, seconded by Director Riedel:

Riedel:
"THAT, this application be approved and license granted if no objection is received from the Professional Handlers' Association of Canada." Motion carried. REPORT: The Secretary reported that Mr. William Oke, Arlington, Texas, had applied for renewal of his handlers' license.

applied license.

ACTION: The Secretary was directed to ascertain Mr. Ake's status as a pro-fessional handler with the American Ken-

nel Club.
DISCUSSION: The Board agreed that
the signatures of sponsors would not be
required on applications for renewal of
handlers' licenses.

required on applications for renewal of handlers' licenses.

1257 (1232). APPROVAL OF JUDGES SUBJECT: Reference was made to the President's suggestion regarding prompt approval of judges so as to expedite arrangements for shows and trials.

The President suggested that:

(1) The Secretary should be empowered to immediately approve, on the Board's behalf, lists of judges for shows and trials providing the requirements of the Dog Show Rules are observed except that he refer to the Board such lists as he feels should be dealt with by the Board.

(2) Secretary to inform Provincial Directors and Board of lists approved.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Pratt:

"THAT, applications for approval of selected judges be approved as recommended by the President." Motion carried.

Director Riedel and Thorndike voted

ried.

Director Riedel and Thorndike voted against this resolution.

1258 (1237 and 1218). C.K.C. PRIZES SUBJECT: The Board reviewed its earlier discussions regarding prizes to be offered by the Club during the current

ACTION: After discussion the Board agreed that a specially engraved certificate be provided the owners of dogs awarded Best in Show, Best Canadian Bred in Show or Best Canadian-bred Puppy in Show provided the winners of these awards are Canadian Bred and owned by members of the Canadian Kennel Club. The Secretary was directed to provide such certificates, each certificate to indicate the name of the breed, name of dog, registration number and name of breeder.

(1237). DUTIES OF C.K.C. REPRESENTATIVE

SUBJECT: The President referred to the Board's earlier decision regarding the work of the C.K.C. Representative, and suggested that since Mr. Loveridge would not be attending championship shows and field trials in his official capacity, con-sideration be given to assigning specific

duties connected with the work of the

duties connected with the work of the Toronto office.

DISCUSSION: The Board then discussed the terms of the contract with Mr. Loveridge wherein his duties as C.K.C. Representative had been dealt with, and also discussed the means by which Mr. Loveridge should be informed of the Board's resolution adopted on February 9th.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Roberts:

"THAT, the President inform the C.K.C. Representative of the resolution adopted by the Board of Directors on February 9th regarding the C.K.C. Representative's attendance at championship shows and field trials during 1949." Motion carried.

1262 (826). APPOINTMENT OF

Motion carried.

1262 (826). APPOINTMENT OF
SOLICITOR
SUBJECT: The Secretary reported that
it is customary for the Board of Directors
at its annual meeting to appoint the
Club's solicitor.
RESOLICITION: It was regularly moved
by Vice-President Brown, seconded by
Director Roberts:
"THAT, Mr. Frank Wilkinson, K.C., be
appointed the Club's Solicitor for 1949 on
the same terms as in effect in 1948."
Motion carried.

1948 (827). APPOINTMENT OF

1263 (827). APPOINTMENT OF
HONORARY VETERINARIANS
SUBJECT: The Secretary reported that
it is customary for the Board of Directors at its annual meeting to appoint the
Honorary Veterinarians for the current

rear,
RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Boughs:
"THAT, Dr. J. A. Campbell, Dr. Alan Secord, and Dr. W. J. Rumney be appointed Honorary Veterinarians of the Club for 1949." Motion carried.

1264 (828). APPOINTMENT OF REGISTRATION COMMITTEE
SUBJECT: The Secretary reported that it is customary for the Board of Directors at its annual meeting to appoint the Registration Committee for the year.
RESOLUTION: It was regularly moved by Second Vice-President Williams, seconded by Director Roberts:
"THAT, the President, Director George Davies, Director Jack Thorndike, Jr., be appointed the Registration Committee for 1949." Motion carried.

1949." Motion carried.
1265 (829). APPOINTMENT OF REPRESENTATIVES TO THE LIVE STOCK RECORDS BOARD
SUBJECT: The Secretary advised that notification had been received from the Canadian National Live Stock Records indicating that the Club was entitled to appoint five representatives to the Canadian National Live Stock Records Board for 1949.

appoint five representatives to the Canadian National Live Stock Records Board for 1949.

DISCUSSION: Reference was made to the new Live Stock Pedigree Act and proposed Articles of Affiliation, and the Board agreed that it would be wise to defer appointment of representatives to the Live Stock Records Board until such time as the contents of the new Act and Articles of Affiliation are known.

ACTION: The Secretary was directed to refer this matter to the Board of Directors at its next regular meeting for its consideration.

1266. LETTER FROM MRS. ETHEL

Directors at its next regular meeting for its consideration.

1266. LETTER FROM MRS. ETHEL

A. SHAW

SUBJECT: The President read letters addressed to him by Mrs. Ethel A. Shaw. Toronto, who complained of violations of the Dog Show Rules regarding the benching of dogs at championship shows. Mrs. Shaw referred to specific instances when no action was taken to bench dogs even though repeated complaints to the Show Superintendents had been made.

RESOLUTION: After discussion, it was regularly moved by Vice-President Brown, seconded by Director Roberts:

"THAT, the letters be received and Mrs. Shaw be informed that the Board will use its best endeavours to see that Show Superintendents carry out their duties in enforcing the rules relating to the benching of dogs at championship shows." Motion carried.

1267 (832). BOARD MEETINGS

DISCUSSION: The Board discussed the most suitable time and dates on which it would hold its regular monthly meetings.

RESOLUTION: It was regularly moved

meetings.

RESOLUTION: It was regularly moved by Vice-President Brown, seconded by Director Roberts:

"THAT, the regular monthly meetings of this Board be held on the third Wednesday of each month, commencing at 5:00 p.m." Motion carried.

DISCUSSION: The Board discussed the suggestion made at the annual general meeting regarding changes in the style of judges' books used at championship

ACTION: It was agreed that no action should be taken at this time because of the supply of judges' books on hand.
1269 (1237). TRAVELLING EXPENSES

DISCUSSION: The Board discussed the advisability of temporarily discontinuing the practice of paying travelling expenses of Directors attending championship

ACTION: It was agreed that as a measure of economy the practice would be discontinued for the current year.

be discontinued for the current year.

SUBJECT: The Secretary referred to travelling expense vouchers in connection with the current annual meetings and meeting of members held by provincial Directors before coming to Toronto.

RESOLUTION: It was regularly moved by Director Riedel, seconded by Director Roberts:

"THAT, the travelling expenses referred to by the Secretary be paid." Motion carried.

1270. MINUTES OF

ANNUAL GENERAL MEETING
SUBJECT: The Secretary asked for an
instruction regarding the preparation for
publication of the minutes of the annual
general meeting.
RESOLUTION: It was regularly moved
by Director Biggar, seconded by Director
Pratt.

Pratt:
"THAT, the members of the Board in
Ontario check the official minutes of the
annual general meeting to see that the
said minutes are properly edited for
publication." Motion carried.

1271 (1245). IDENTIFICATION
DISCUSSION: The Board reviewed its
earlier discussions and Mr. A. P. MacVannel's remarks at the annual general
meeting regarding the identification of
dogs for registration purposes. The President suggested that arrangements be
made for a delegation from the Club to
meet with the Minister of Agriculture,
and he referred to the fact that Mr.
William H. Pym of Vancouver (a member
of a committee which previously interviewed officials of the Department regarding identification) would be in Toronto
in the near future.

RESOLUTION: It was regularly moved

in the near future.

RESOLUTION: It was regularly moved by Director Williams, seconded by Director Roberts:

"THAT, the President, Mr. Wm. H. Pym, the Club's solicitor and the Secretary-Treasurer be considered a committee to meet with officials of the Department of Agriculture with a view to clarifying the situation regarding the identification of dogs." Motion carried.

of acgs. Motion carried.

1272. MINUTES OF BOARD MEETINGS
SUBJECT: Second Vice-President Williams suggested that it appeared to be
the opinion of many members that the
minutes of Board meetings are too brief
in that they do not convey sufficient information regarding the particular matters dealt with by the Board.

ters dealt with by the Board.

ACTION: The matter was left in the Secretary's hands.

1273 (1226). MONTHLY STATEMENTS SUBJECT: Reference was made to the President's suggestion that each month the Board be provided with information regarding the finances of the Club.

ACTION: The Secretary was directed to inform the Board that at each regular meeting of the revenue and expenditures for the preceding month, this information

to be included in the minutes of each meeting for the information of the members.

meeting for the information of the members.

1274. ADJOURNMENT

SUBJECT: Second Vice-President Williams stated that before the meeting adjourned he would like to express appreciation for the courtesles shown the Provincial Directors and himself during their attendance at the annual meetings and that such members of the Board appreciated the fine spirit of leadership that has been extended. He assured the Ontario Board that they could count on the hearty co-operation of their colleagues in the other provinces, but they, in turn, expected to be consulted on matters of importance requiring the attention of the entire Board. Director Moore stated that he endorsed Mr. Williams' remarks.

The President stated that any success enjoyed by the present Board during 1949 would come only if they worked together in harmony and progress. He assured the members of the Board residing outside Ontario that they would be kept fully conversant with all matters receiving the Board's attention.

On motion by Vice-President Brown, duly seconded and carried, this meeting of the Board adjourned at 11:40 p.m.

NOTICE

As a result of difficulties being experienced by members, since early December, 1948, in obtaining certificates of registration for dogs, a delegation from The Canadian Kennel Club met with officials of the Department of Agriculture on March 2nd. The discussion with Departmental officials revealed that, in the opinion of the Department of agriculture, identification means the ability to match a certificate of registration with the particular animal for which it was issued. It seems that the Department considers that the requirements of the Live Stock Pedigree Act, which calls for "a practical and effective system of identification", have precedence over the provisions of the Club's Constitution regarding identification. identification.

There is now being prepared a booklet which is intended to provide members and non-members of the Club with much useful information in respect to membership, registration, private breeding records, identification of dogs, etc., but in the meantime we are taking this opportunity of indicating to those registering dogs what they should do when completing that section of the application for registration calling for the colour or colours of the dog for which registration is desired.

If a dog is solid colour then the application should indicate that fact. For example if a dog is solid black and has no markings, then the application should state "solid black". The same applies to any other solid coloured dog.

DOGS OF MORE THAN ONE COLOUR

In the past it has been sufficient to state the colours of a parti-coloured dog without indicating the location of the colours. For example a sable and white Collie would, in the past, be registered as "sable and white". It is now, however, necessary for the location of the markings to be clearly indicated on the application for registration form. The following examples will furnish an indication of what is now required for registration purposes:

"Sable, white collar, white on chest, muzzle, front legs and tail tip, black spot on tail" (Collie); "Black, tan on lower jaw and over eyes, white ruff, throat, chest and feet shading into tan" (Collie); "Seal brindle, white blaze, muzzle, collar, chest, front toes and extending over left eye and ear" (Boston

It is suggested that the application for registration form clearly set out any features which would establish positive identification.

> N. F. BROWN, Secretary-Treasurer.

Members of the Canadian Kennel Club

As you will see on the reverse side of this page, members of the Canadian Kennel Club will continue to enjoy the lowest rate of advertising possible in a magazine of the quality of DOGS IN CANADA The continuance of this rate depends upon the support which our magazine receives in its advertising columns.

With a distinctive cover, and placement on newsstands, we feel that we are justified in saying that we offer you an outstanding advertising opportunity.

SPRING-TIME IS PUPPY TIME

and the demand for purebred puppies becomes noticeable in the spring when it is possible to train the dog more easily.

In our endeavour to supply interesting, educational and informative reading to the public, we are instituting many new features, such as the Forum on page 27 where discussions on the rules and regulations of Kennel Clubs will be held. The Question and Answer column can be made much more interesting, so communicate your thoughts and ideas to the Editor.

IN OUR ENDEAVOUR TO MAKE DOGS IN CANADA THE MAGAZINE YOU WANT IT TO BE WE NEED YOUR SUPPORT. LET US MAKE THE MAY ISSUE THE BEST OF THE YEAR.

Forms to assist you in the making up of your advertisement will be mailed on request.

The Home of Collie and Shetland Sheepdog Champions

The Collie and Shetland Sheep-Dog Club of Canada

By Mrs. Y. Tomlin

THE Collie and Shetland Sheep-dog Club of Canada is doing bigger and better things. By the time you read this, one Specialty Show will be over. While I'm here, I thank you, Collie and Sheltie folks, for your cooperation.

Plans are going ahead full speed for our next Specialty Show to be held in conjunction with The Guelph Kennel Club, on the 24th of May. This promises to be a real Show, and we hope to get a record entry of Collies and Shelties. The big event of the day will be the "Collie Puppy Sweepstakes" (see ad. this issue). Bring your 6-12 months' puppies out and swell the stake. You may be among the lucky winners!

Two of our members, George Getty and Joseph Edwards, took in the Westminster Show. Mr. Edwards' entry, Ch. Erith's Golden Prince, was unfortunately shot in the head shortly before the Show. We are pleased to learn he has recovered completely. Of the Collies, Mr. Getty says, "There were some good

ones and some poor ones, just as there are here. The Shelties seem to be more the 'Collie' type than here. There was a large entry of Shelties—95 or more—and 50 or more Collies. On the whole, Mrs. Gray did a fine job of judging."

Collie people will be interested to know that the Collie Standard is under discussion and we hope to have an open meeting in the near future where those interested will be able to air their views. Perhaps this will result in the much needed revision of the standard—but more about this later!

Again I remind you—bring you Collies and Shelties to Guelph on the 24th of May and enter your Collie puppies in the Sweepstakes—and Good Luck!

The Toy Dog Breeders Ass'n of Canada

By John Webb

A T a recent meeting of the Association the following officers were elected for the coming year: Past President, W. A. Harris; President, F. Arm-

strong; 1st Vice-President, George Robertson; 2nd Vice-President, Mrs. E. Barnes; Secretary - Treasurer, John Webb; Show Committee, Miss Faye Fox, George Robertson, John Webb; Trophy Committee, John Webb, Mrs. E. Peacock, Mrs. Sawyer.

Preparations are now well in hand for our Specialty Show being held in conjunction with the Sportsmen's Kennel Club Show during March.

Toy breeders will be interested to know that one of our Toy Spaniels, Beau Beau Brummel, is now a fullfledged actor, as he has been appearing on the stage at the Royal Alexandra Theatre, Toronto, in the play "The Ivy Green". This leads me to mention that English Toy Spaniels have been used more frequently, lately, in theatrical and movie productions. Mrs. Rylands, the lady from whom we recently purchased our Blenheim Toy Spaniel, informs me that one of her dogs was used in the two English movie films, namely, "The Queen of Spades" and "Bonnie Prince Charlie". "Forever Amber" was graced with about six Toy Spaniels. These dogs were from the kennels of Mrs. Homberg. I am also informed that when the play, "The Ivy

Green" opened with their premiere in London, Ontario, they had one of the Charlon Kennel dogs, a black and tan King Charles, Chico.

As I am a member of the English Shetland Sheepdog Club, I correspond quite frequently with some of the members, and ask information, also, about Toy Spaniels. One fact I have learned, is that the present King has asked the Toy Spaniel fanciers in England to revert back to the original name of the breed-King Charles Spaniels. As you are well aware, this is what they are called in the United States. In Canada they are known as black and tan. The Ruby Toy Spaniel carries its own colour name, Ruby. The Prince Charles is the black and white, and the Blenheim is white with reddish-chestnut markings, and is, of course, the strain developed by the Dukes of Marlborough, as evidenced by their

Barrie Kennel Club

A BOUT 35 people gathered for the Barrie Kennel Club Annual meeting and enjoyed a lovely chicken dinner at the swankie "Robindale Inn" and a grand time was had by all.

The Club is building its own benching for the coming show on May 14th, and with the plans now practically complete it promises to become Ontario's "Westminster".

We will have an unusually fine list of premiums to offer and 'points' gained at Barrie will be well earned for there will be REAL competition.

For Judges, with Louis Murr, Glenn Staines and Chris Teeter we have a combination equal to the very best.

The Barrie Arena is one of the very finest buildings for a dog show with every possible facility for the complete comfort of the exhibitor and the public.

Harry Morren was again elected as President with Geo. Fricke, Roy Black, Mrs. Beatty and Earl Cox as directors, with of course Mrs. G. M. Boynton as our efficient Sec'y.

Niagara Frontier Kennel Club Spring Show

By L. Lymburner

VIAGARA Frontier Kennel Club which for four years has held its all breed show at Port Colborne has a complete change of plans for this year. With the sponsorship of the Junior Chamber of Commerce, the club will hold a spring show on June 18th in the Armouries at St. Catharines. Situated just a stone's throw from the Queen Elizabeth Highway and only a few miles from the Rainbow Bridge at Niagara Falls, it provides an ideal spot for both Canadian and American exhibitors who for so long had told the club that they never COULD find Port Colborne without a navigator's assistance!

The building is ideal, and present plans would indicate that since this probably will be the last of the Ontario shows for the spring season, it will really wind the season up in a big way. St. Catharines is known as the "Garden City" and every effort is being made by the Chamber of Commerce to make this the type of show which will bear out the city's slogan. Two objectives are uppermost in the joint plans of the Chamber and Niagara Frontier Kennel Club. The former is anxious to bring visitors to the city of St. Catharines, one of the most flourishing in southern Ontario, and the Kennel Club, of course, is anxious to put on a show which will make exhibitors feel that they have had one of their finest experiences when they leave.

The list of judges will provide topranking talent from the United States. with every one of them having officiated at the biggest shows across the border and all coming with recommendations from Breed Clubs as well as Kennel Clubs for the excellence of their work. The show will again have the services of Robert Heussler of Buffalo, N. Y. as Chief Ring Steward and he will be assisted by other members of the Kennel Club of Buffalo, of which Mr. Heussler is president. The Premium List which has been in the making for several weeks, will offer exhibitors generous class cash as well as trophies of outstanding value.

The building which will house the show offers ideal facilities for setting up benching, and rings with ideal gaiting properties, will be adequate enough to satisfy the most critical exhibitor of large dogs. Plans have been made to place a marquee in a fenced-in area opening from the building proper, where the dressing of dogs and storing of crates will make for excellent conditions. The exercise rings will be placed in this same area. A seating plan with reserved seats for spectators is being made in the balcony, which will give complete view of the three rings to be set up in the centre of the floor space.

Arrangements are also being made to open a lunch room where weary exhibitors may sit at tables for a noonday lunch. This will be located off the balcony upstairs and promises a service not usually available.

June is an ideal time for a visit to the Niagara Peninsula, and the 18th might seem an excellent time to spend a weekend seeing the beauties of this part of Ontario and at the same time experience the hospitality of those behind the show "Held by Exhibitors for Exhibitors." A cordial welcome awaits dogs, their exhibitors and handlers and spectators at St. Catharines!

London Kennel Club

By B. Carpenter

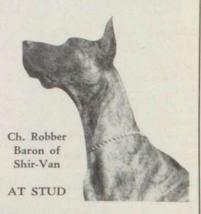

THE London Kennel Club held its annual election of officers at which time William Hammerton was voted unanimously as president, making this his second year as club president. Mr. Hammerton has proved his position, not only as president in the past year, but as a member his willingness to help and co-operate with everyone has given him the title of being one of the nicest persons we have had the pleasure of meeting.

Other officers elected for the year 1949 are: 1st Vice-Pres., Archie Steele; 2nd Vice-Pres., Fred Hammerton; Sec'y Treas., Phyllis Nevin; Asst. Sec'y, Edna Herbert; Show Supt., William Nevin; Asst. Show Supt., Jack Struthers. Directors: George Carpenter, Mrs. S. Taylor, Jack Struthers, Sam Taylor, Don Seabrook, Ralph Lane, Jean Struthers, Bill Nevin. Trophy Sec'y, Mrs. Kit Hammerton; Public Rel., Mrs. G. Carpenter; Entertainment, G. Carpenter, F. Hammerton.

The gayly decorated Highland Club was the setting Saturday evening for the 7th Annual dinner of the London Kennel Club. Receiving some 50 members and guests were president of the London Kennel Club, William Ham-merton, accompanied by Mrs. Hammerton.

Carnations provided the floral setting to the attractively decorated banquet tables. After an excellent dinner, Mr. Hammerton, as chairman, introduced

MRS. SHIRLEY KATKOV Sugar Loaf Rd., Port Colborne, Ont. as guest speakers Mayor Ray Dennis, accompanied by Mrs. Dennis; Hon. president, J. Bevin Hay and a past president, Capt. F. Miller, at which time tentative plans were made for the coming dog show on June 5th.

Mrs. Phyllis Nevin was presented with a gift on her appointment as secretary. Mrs. Nevin succeeds Mr. Lerch in this office.

A special welcome was given on behalf of the members by Mr. Hammerton to our new veterinarians in London — Dr. Martin, Dr. Boyce and Dr. and Mrs. Wilson. Mr. Hammerton also expressed his thanks to the club members for the support they have given him in the past year, saying that this year his desire is to have even more success.

Entertainment was supplied in the form of a sing-song by Mrs. Nevin, and dancing in the club room followed. The evening was concluded with every one singing "He's a Jolly Good Fellow" to our most deserving president, "Bill".

An American Exhibitor Visits Canada

By Mrs. M. C. Evashwick

"I have so thoroughly enjoyed the experience of putting my little Miniature Schnauzer bitch, Ch. Sorceress of Ledahof, through to a Canadian title, that I would like to pass along to the Schnauzer fancy in general, the fact that the procedure is remarkably simple, although I had been laboring under the general impression that such effort was just too complicated. But in reality it is most simple and this I would like to prove—with the idea that I would like to see more Miniature Schnauzers go to the Canadian shows.

"A letter to the advertised secretary of the shows, brought me entry blanks and complete instructions to: 1, (cover the entry fees, listing fees and recording fees with a postal money order); 2, obtain veterinarian's certificate of rabies injection and a veterinarian's certificate of good health; 3, make hotel reservation and reservations for mode of transportation.

"The first two were simple and the third was easily taken care of through the show secretary's office-while the item of transportation was really a matter of individual choosing. Traveling with the bitch in a hand-carried aluminum crate, permitted me to fly from Pittsburgh to Buffalo and then take a train from Buffalo to Toronto (dogs are not permitted on flights going on this route into Canada as planes are not constructed to permit domestic animal transportation). C u s t o m officials boarded the train and since I had all the required papers in order; I was able to leave the train with my dog and my baggage, all ready for the conquest of five shows on five consecutive days, on the grounds of the Exhibition in Toronto. At the close of the shows, my return to Pittsburgh was just as simple, except that my baggage and my dog were examined prior to boarding the train at Toronto, so I was not disturbed throughout my ride to Buffalo.

"Since my bitch needed two points to finish her Canadian title, you can understand why a two-day, two-show schedule in Quebec appealed to me a month later. And following the same procedure, I went back to Canada, to Quebec where the bitch finished her outstanding record, her final show bringing her to the top honors—a best in show under Thomas C. Wylie.

INT. CH. SORCERER OF LEDAHOF

Miniature Schnauzer which won Best in Show at Quebec Kennel Club, owned by Mrs. Marion C. Evashwick, Pittsburgh, Pa.

"The only requirement left undone was that I could not send my bitch's AKC Registration form to the Canadian Kennel Club for her Canadian registration, as I had to carry it with me, together with the two vet certificates to permit me to enter and leave Canada, to meet custom requirements. It is a matter of record, too, that the bitch's international title has been acquired while she is yet 12 months of age—finishing with a real flourish—a best in show at Quebec, Oct. 10.

"This script is of no value, if it does not include a remark giving full voice to the fine reception that awaits American exhibitors when seeking and working for a Canadian title. I have never been received, at any show, with the warm friendship exhibited to me at both the Toronto and Quebec shows. The entire show organization gives one the impression that they are ever at your service, no matter how small, while words cannot express my appreciation of the fine co-operation on the part of the exhibitors, fancy, and spectators. I knew no one at either area and was traveling alone with my dog, yet at all times I felt that I was among old friends, most willing to make me comfortable in all ways, and accepting my dog with the same wholehearted co-operation.

"My purpose in writing this is primarily to boost the Canadian shows, so that it may encourage the Miniature Schnauzer fancy in general to consider Canadian titles for their dogs, thus publicizing the breed in a land truly doggy and terrier-conscious, a land where the Miniature is comparatively unknown and where I have proved it can find a most excellent footing. I look forward to the time when I can again take in the Canadian shows with a youngster worthy of an international title."

BOOK REVIEW

CARE OF THE DOG. Judy Publishing Company, Chicago 16.

Appears in its fourth large edition, revised—a complete handy book for owners of big dogs, little dogs, good dogs and "just dogs."

It is written in entertaining style, looks at the world thru the dog's eye, includes expert scientific information in each statement, backed by the author's 26 years of active experience in the dog field. Capt. Will Judy is Editor of Dog World Magazine.

It presents in the 41 chapters plus addenda a thousand suggestions on practical advice and down-to-earth information for the average dog owner. A reference to the Table of Contents on page 7 verifies this.

The 73 illustrations delightfully informative or entertaining or both, add immeasurably to the value and enjoyment of the book. We are only sorry that the reader's dog also can not read the book and enjoy it with his master. We think he would place his unqualified paw of approval on the work.

KENNEL, Show and Field. By May Larson. Publisher Chas. Scribner's Sons, New York, U.S.A.

This book is a complete and exhaustive manual on the care, training and showing of dogs. Written by the wife of a well-known professional handler, it is the product of more than twenty years' experience with purebred dogs.

Kennel, Show and Field covers not only the life of the pure-bred dog and all the problems of its care and training, but also the competitive "Dog Game" as it involves the pure-pred and its owners. The complexities of dog shows are discussed from the standpoints of both exhibitor and show executive.

The preparations which must be made before a show, the different classes at a bench show, the requirements of different breeds of sporting dogs and hounds, selective breeding, field trials, the history of the American Kennel Club and the Professional Handlers' Association—these are but a few of the topics that Mrs. Larson discusses with a competence that derives from a solid knowledge of her field.

For both the professional handler and for the amateur, *Kennel*, *Show and Field* is a valuable, if not indispensable, handbook.

"Hope, Hope, Hope it's GRO-PUP"

Feed your dog as famous kennels do—feed nourishing Gro-Pup! This "smackin' good" food is easily digestible . . . has every vitamin and mineral dogs of all ages, sizes and breeds are known to require. Your grocer has Gro-Pup in two nourishing forms, cubes and meal. Both help keep your dog at his natural best.

TWO FORMS— BOTH THRIFTY!

Not 70% water like most canned dog foods. Gro-Pup is solid food. You add the water.

CUBES: Nourishing Gropup in crunchy bits.

MEAL: Same formula in popular Meal form.

It's Smackin' Good...it's GRO-PUP

DOGS IN BRITAIN. By Clifford Hubbard. Publishers in Canada The Macmillan Company of Canada Limited.

This book is intended for all those who are interested in the subject. whether they are engaged professionally in studying one of its various branches or have simply "given their heart to a dog to tear." It opens with an account of the origin and history of the dog, and goes on to describe the native breeds in Britain, the foreign breeds to be met with in this country. and the most notable of those peculiar to other parts of the world, including the wild dog. The work covers some 340 varieties, and detailed descriptions on a uniformed plan are given of the 170 that are most imoprtant. learning and experience have been devoted to matters of care and management, and in particular to the science of breeding. The conspicuous part that dogs have played in literature is brought out by quotations from famous works in verse and prose, and the history and place of the dog in art has not been forgotten. Altogether the wealth of information supplied in a concise and attractive form befits a fascinating organised pursuit which is at last attaining its rightful place in the scientific world.

There is a very full index as well as a glossary of technical terms, and the book contains two hundred and forty illustrations, eight of which are in colour by S. Tresilian, an artist of outstanding gifts in the portrayal of animals.

The Author

Clifford L. Hubbard is one of Britain's leading authorities on dogs, having had much practical experience with them. Under his own name and under the nom-de-plume Canis, he has been writing articles both for the general and the specialist press and books about dogs for seventeen years.

SHIR-VAN'S DUKE OF COLBORNE

Canadian bred Great Dane Winners and Best of Winners at Great Dane Club of Western New York Specialty Show. Shown with owner, Earl J. Hino, of Buffalo, N.Y.

MOONGATE SUZANNE

Labrador Retriever owned by Mr. A. C. Cowan of Toronto. This fast moving puppy is by Field Trial Champion Stilroven Super Speed, the 1947 winner of the Golden Specialty Field Trial and is one of the greatest working Goldens of all time. The handler shown here is Mr. H. V. P. Lewis, of the National Kennel Club, Toronto.

Hull & District, Quebec News

(Continued from page 15)

Retriever from Albert Schryer of Aylmer; and Mrs. W. J. Harrison, who has secured a dandy Afghan Hound pup from Mrs. Gene Lynch of "Skyridge" Kennel fame. We welcome these two new fanciers and wish them the best of luck!

America's leading Manchester Terrier breeders, Fred C. (Dad) McLean and his son Mac, of Hull, again made the trip to the Westminster Show this year, where Dad McLean captured Best of Breed with his Standard Manchester, "Willowdale Libby"; and Mac won Best Male with his Toy Manchester "Willowdale Little Ringmaster". Mac says the two of them had a very enjoyable time; and just to show his son that he didn't need an escort, Dad came home on his own while Mac returned by another route with the dogs. that's another way Dad McLean has of celebrating his 84th birthday; and no matter which way you look at it, you've got to hand the orchids to this grand old gentleman, "The King of the Manchesters."

The news has just been flashed to me that Hull & District Kennel Club's Show to be held on May 8th will be in aid of the Hull Rotary Club's "CRIP-PLED CHILDREN'S FUND." Another fine gesture on the part of this Kennel Club! After its last Sanction Show this Kennel Club donated \$315.56 to the same fund. Well done! Keep up the good work, Ladies and Gentlemen, you are going to make the Hull & Dis-

trict Kennel Club one of the most popular organizations in your community!

Exporting Dogs to Other Countries

(Continued from page 4

agent. Certain States in the United States require a certificate of health from a veterinarian. Phone your express agent, advise him of the State to which the dog is to be shipped and arrange for the health certificate if required.

Two invoice forms describing the dog to be shipped and its sale price will be required. Those not having proper invoice forms may secure them from the express agent. In the case of dogs sold for more than \$100 a certificate from an American consul will be required.

When the dog reaches the port of entry into the United States, the Canadian certificate of registration is taken up by the American Customs and forwarded by them to the Bureau of Animal Industry at Washington where it is held until applied for by the American importer. The B13 forms are taken up at the point of export from Canada and one copy is forwarded to the exporter's bank where it is held until the American funds, realized on the sale of the dog, are turned over to the bank, who, acting on behalf of the Foreign Exchange Control Board, will exchange such American dollars for Canadian funds.

Unless directed to do so by the purchaser, do not ship a dog until the certificate of registration showing the purchaser's ownership is available, otherwise, a refund of any duty paid will not likely be possible.

THE FORUM

In answer to the many enquiries regarding the entry of Canadian dogs at American shows, it is not necessary for a Canadian-owned dog that is registered with the Canadian National Live Stock Records to be registered with the American Kennel Club in order to compete at shows held under their rules. A Canadian registered dog may become an American champion without being registered with the American Kennel Club, but a championship certificate is not issued to any dog until it is registered with the American Kennel Club. After a Canadian-owned dog, that is not registered with the Canadian National Live Stock Records, is shown at an American Kennel Club show three times as a listed dog, the owner is requested to register the dog in Canada.

... DOTS AND DASHES - - -

Those interested in fox hunting and hunting and coursing with dogs will be happy to know that the Private Members' Bill to prevent the hunting of deer, badger and otter and the organized coursing of hares and rabbits in Great Britain was decisively rejected by a vote of 214-201 by the House of Commons in England on February 25th. So dogs will continue to be used in the sports as mentioned above without fear of reprisals.

From Ontario, California, there arrived a newspaper telling of the disaster which befell Mr. and Mrs. D. Ireland and Mr. and Mrs. H. Kerr, who recently moved there from Ontario, Canada. A cyclonic wind lifted the barn containing their German Shepherd dogs and deposited it on the top of the Kerr's brand new car, completely demolishing it. Some of the fear-stricken dogs clung to the barn as it sailed through the air. Three were injured, one so seriously that it had to be put to sleep.

Mrs. Kerr sold her fur coat before leaving Toronto, believing she was going to a land of sunshine and warmth. The coat was badly needed, as California enjoyed a real Canadian winter.

Our purebred dogs are certainly in the limelight. The King Charles Spaniels owned by Mr. and Mrs. J. Webb of Toronto, appeared on the stage in "The Ivy Green", a play at the Royal Alexandra Theatre, Toronto.

The inside front cover of the Chatelaine Magazine for March showed a beautiful English Setter being used as an advertising model for a well-known product. The dog was "Lucky Strike's Aristocrat", owned by Jack Thorndike, Jr., Toronto.

CHATEAU, BRIDGET and SONYA

German Shepherds owned by C. W. Radford, Gravenhurst, Ontario.

It was nice to hear from C. W. Radford, who is now living in Gravenhurst, Ontario. "C.W." as he was known for years in Toronto, was one of the prime movers in the Obedience Trial work. For many years his two German Shepherds, "Wolf" and "Baron", gave demonstrations of the intelligence of purebred dogs at schools and exhibitions throughout Ontario. They were instrumental in the collecting of thousands of dollars for charity. Although now confined to bed from injuries received in the first World War, Mr. Radford is still interested and maintains a few good Shepherds which are trained to be expert in aiding in police work and as sleigh dogs for the enjoyment of the children in Graven-

We would like to draw your attention to the article in this issue regarding encephalitis in dogs and the hard pad disease which is causing such a heavy loss in dogs in England. In the days of the silent movies, considerable publicity was given to the fact that trains did not wait for tardy arrivals. Today, it is an established fact that one must arrive at the station or airport with time to spare if one is to catch the train or plane.

It probably will be some time before the exhibitors of dogs will realize that when a stated hour is set for the accepting and benching of dogs at a dog show, tardy arrivals will not be allowed to enter the show. This fact became known rather disastrously for some of our Canadian exhibitors at the recent New York, Buffalo and Detroit shows, with the result that their expensive journey, broker's charges and entry fees were a complete loss. The latest time at which a dog may enter a show held under the American Kennel Club is 11.30 a.m. The door is definitely closed to all entries, irrespective of any reasons which might be given for being delayed. The same time is observed on the second day, if it is a two-day show.

The Canadian Kennel Club rules state that the latest hour for accepting dogs is 12 o'clock noon, after which time dogs are not to be permitted to enter the show. There is nothing in the rules of either country to prevent a dog from being benched before that stated hour, even though it has arrived too late for the breed judging and is marked absent in the judge's book.

In view of the fact that there is a listing fee and a recording fee charged for an unregistered dog, the exhibitor saves considerable money by registering his dog if it is at all possible.

VANCOUVER

CALGARY

TORONTO

A letter from Costa Rica, South America, requests information as to where dogs can be obtained to hunt deer

Another letter from Australia requests information on pure bred dogs as foundations for kennels in that country.

With dogs already sold to South Africa, Australia and China, the results of advertising in DOGS IN CANADA are most gratifying.

Overseas buyers of pedigree dogs from Britain are in evidence this year than ever before. Experts estimate that sales should total at least \$1,200,000. This compares with \$1,000,000 for last year. Nearly 600 dogs have already been sold and hundreds more approved by the Kennel Club for export. Prominent prize winners are selling as high as \$4,000. Wire fox terriers and Scottish terriers are the most sought-after

For the past sixty years the official organ of the Canadian Kennel Club has had the familiar sign of Spratt's Dog Foods on its advertising agenda, so it is with a feeling of regret that we say goodbye to our old and trusted friend, Spratt's Patent Limited of London, England. We would like to take this opportunity to thank

them for their loyal support through the years - particularly those years when they were unable to ship their dog foods to Canada because of war conditions.

We welcome, however, the new Spratt's Patent (Canada) Limited, a Canadian subsidiary, and one which will continue to support DOGS IN CANADA.

To offset shipping charges, and delay through circumstances beyond their control. Spratt's have now under construction a building of brick and steel in the district of East York, which is adjacent to the City of Toronto.

This factory will be equipped with a modern bakery plant capable of producing the high quality biscuit and kibbled foods for which the parent company is world-renowned. At an early date, a complete range of dog, cat, bird and fish foods and remedies will be produced in the Canadian factory, and as quickly as possible the range of appliances will be added.

Meantime, the company is continuing to support Show-giving Clubs in providing complete sets of stationery.

Mr. Elliott W. Langley of the Langley, Harris & Company Limited, 1 Niagara Street, Toronto 2B, Canada, will continue to assist the dog fanciers in every possible way.

The resumption of the Ottawa International Dog Derby, in February, has brought some interesting newspaper repercussions—first, as a result of youngsters in the Junior Derby putting everything from tiny Toys to huge mongrels into training and second, as a result of criticism of the Senior Derby by the Ottawa Journal. However, the Journal's criticism brought a fast reply from Mrs. E. M. Nansen, who was a competitor in the first Ottawa Derby in 1930. In a letter to the newspapers she writes, in part, "The first dog teams to enter the race were . . . long legged, thin coated with tender feet. When brought to the starting line they shivered with the cold and from fear of the driver. At the word 'go' the driver bellowed 'mush' and cracked a ten foot lash over their backs sending them off cowering and dragging in their collars".

Mrs. Nansen tells of the change brought about through dog derbies being held in the cities where dog lovers could see the conditions and then describes how much Leonard Seppala did for dog teams and dog racing generally. The development of teams of Siberian Huskies and Malamutes, as a result of Seppala's pioneering of these breeds for dog derby use, she adds, played a real part in the war, and many an air crew downed in Northern areas owed their lives to the fact that there were dog teams available to reach them and bring them out.

SPRATT'S PATENT (CANADA) Limited Distributors

Langley Harris & Company Ltd. 1 Niagara Street, Toronto 2B, Ont.

The Birmingham Dog Show, held for the first time since 1938, had an entry of 6.524 dogs. It was a two-day show with Smooth Dachshunds having the largest entry of 264. Best in Show was won by the Boxer, Orburn Kekeri, owned by Mrs. C. L. Hullock. The Boxer was shown with natural ears, which brings to our attention a new regulation passed by the Kennel Club in England stating: "The Kennel Club will refuse to accept for registration the progeny of a cropped dog bred in Great Britain." This bars the cropping of all dogs in Great Britain whether for breeding or

Members of The Canadian Kennel Club are reminded once again that back issues of the magazine "Dogs in Canada" for 1948 are available with the exception of the November issue. Members who did not renew their membership in time for the March issue may receive that copy by sending thirty-five cents to the office. The supply is limited and does not contain the eight page insert of the "Minutes of the Board of Directors Meeting".

In order to comply with the rules, copies of the current issue are sent only to those members whose fees have been paid by the end of the preceding month. Renewals after that date must pay for back copies. "Dogs in Canada" is now on sale at the magazine stands including "the T. Eaton Co." in Vancouver, Halifax, Montreal, and Toronto. The Canadian Pacific Railway newstands in Montreal and Toronto also have copies for sale. If the newsdealer in your locality would like to offer the magazine for sale we will send copies on receipt of request.

The May issue will feature "All Terriers" in addition to its regular columns. June will feature the "Toy Group" and the "Hound Group". We hope you like our new cover which was designed by Mr. Walter Ferrier of Montreal, Quebec. The colour will be standard and photographs for the front cover must be sent in advance in order to allow the artist the time to make it attractive. Members of the Canadian Kennel Club Inc., may reserve covers after the July issue at the regular rates plus cost of the engraving of their dog. The photo must be clear and in keeping with the quality of the magazine.

The Importance of the Dog

(Continued from page 3)

discuss your breeding with you and that will be the time to inform him as to the excellence of the dog's pedigree.

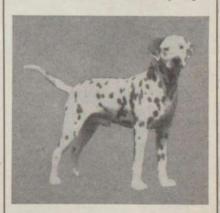

Altogether, it would seem that the exhibitor of a good dog owes a great deal to him. It is true that he requires a great deal of attention and working over, but in return he gives that priceless thing to his master, faithfulness in greatest measure. Add to that, willingness to do that required of him in the show-ring, prestige to his owner's kennel and visible proof that he knows his breed and how to produce good specimens of that breed. Add to that the fact that he has provided his owner with a hobby through which he has learned much, made fast friends, cultivated discrimination of a type to be desired and broadened his point of view. With all these things in mind, we would be bound to say that the good dogs brought to any show are by far the most important part of the show and it should move every exhibitor to see to it that he keeps this in mind when he sets out for each new day at another show.

Ouestions and Answers

Question: I wish to enter two dogs in one class but they will not gait properly for another person while 1 am in the ring. Will I be allowed to gait both dogs in the same class? Mrs. D. T. W.

Answer: The ring steward and the judge are in charge of the ring while judging is in progress. Their permission will be necessary for any change from the regular routine. The dog show rules require that every person exhibiting a dog must wear an arm band showing the catalogue number of the dog being exhibited. This then means that the arm band would necessarily have to be changed each time the dog changed handlers.

Question: I am interested in breeding Dachshunds, and as I have the interest of any breed at heart wish advice as to how old a Dachshund bitch should be before her first mating.

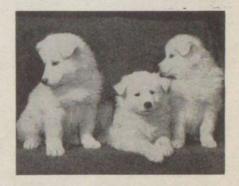

M.S., Toronto.

Answer: This is an open question and one which has held the attention of the breeders for some time. Some years ago an effort was made to refuse registrations to litters born to a bitch under a certain age. The breeders of certain types of dogs with "round skulls and narrow hindquarters" argued that if they did not breed the bitch when she first came in season whelping difficulties arose later on. However, a Dachshund is a natural breed and is not helped in any way by breeding the first time she comes in season. A growing bitch needs all her own strength. Might we have some comments from other breeders on this question?

PURINA DOG CHOW VISITS HOMES OF FINE DOGS

PURINA IS THEIR CHOICE

Top-flight kennel owners keep two major points in mind regarding feeding: on the one hand, economy; on the other, balanced and complete nutrition.

That's why you'll find so many of them, like Mr. Scarpa, feeding Dog Chow. They know that it's economical; and they know that it's tops for nutrition . . . backing up their fine breeding with the sound feeding that helps them get real results.

Well over 2,000 dogs in over 22 years of steady Purina research have contributed toward building the Dog Chow formula. So have the Purina chemical and biological laboratories. When you feed Dog Chow, you're not experimenting. The experimenting has all been done already.

Because it has such a reputation for quality, many people have the impression that Dog Chow must be expensive. Actually, both Checkers and Kibbled Meal are very reasonably priced; and if you buy in any substantial quantity the Purina Courtesy Card plan provides a substantial saving. Ask your Purina dealer, at his Store with the Checkerboard Sign. In Toronto and suburbs, Brookwood Products Reg'd.—L. L. Broley, 4066 Dundas St. W. — MUrray 5194.

Top—Ch. Malabar's Enchantress, one of many good ones owned (and bred) by S. W. Scarpa, Malabar Kennels, Point Fortune, Que. Twice Best in Show, 3 times Reserve Best in Show, 5 times Best Canadian Bred. Purina has been fed at Malabar for over 15 years—"and we have never changed to any other feed, as we always were so pleased," says Mr. Scarpa.

Below—Ch. Caress of Shawhaven, winner of the Dog World Diploma of Canine Distinction for having taken more Best in Shows during 1948 than any other canine in Canada. (At 13 shows she won 9 Best in Show, 10 Best Canadian Bred, 13 Best of Breed.) "Caress was raised on Purina. So was

her sire, Ch. Vivadora Easter Parade, sire of 15 champions to date. So were her dam, her grand-dam, her great-grand dam, her great grand-dam." . . . Malabar Kennels house prize winners in two breeds—"Malabar" wires (S. W. Ccarpa) and "Allison" boxers (E. A. Eaton).

RALSTON PURINA COMPANY

WOODSTOCK - TORONTO - MONTREAL

Feed him Gaines . . Nourish Every Inch

W HAT wonders you can perform for your dog by sound feeding! That means giving your dog Gaines - nourishing every inch of him.

When you feed Gaines, your dog's system receives the scientifically balanced mixture essential to his health. Biologists have proved that kenneltested Gaines is nutritionally complete - contains all the food elements dogs have craved since their earliest times.

Start feeding Gaines today! - 9 out of 10 dogs take to Gaines immediately - because it is 'natural' food.

GENERAL FOODS, LIMITED MONTREAL . TORONTO . WINNIPEG For appearance - fats as in 1 oz. butter.

For bones and teeth - minerals as in 13/4 lbs. cheese.

For vitality - iron as in 3/4 lb. beef liver.

Plus extra vitamins and key minerals.

. . . Saves you money too!

Gaines costs you less to feed than any other type of dog food - a 5-lb. bag makes 10 to 12 lbs. of ready-toeat food. Easy to feed - all you do is add water (soup, milk or gravy). Then, for variety, you can give him GAINES KRUNCHON, which is Gaines Meal compressed into crunchy bite-size pellets.

AINES

Wherever dog foods are sold 2-lb., 5-lb., and 25-lb. bags

Complete Meal for ALL Dogs
