- the Best of Feed!*

SPRATT'S "CRISP-BAKED" DOG FOODS

Mr. Breeder, you will be richly rewarded in healthier, more uniformly developed dogs that show better and command a better price, when you use Spratt's "Crisp-Baked" Dog Foods. For over eighty years Spratt's dietitians have worked to develop these superlative dry dog foods to help owners and breeders build finer lines and better kennels. Our foods are not a by-product, but the most natural and complete dog food obtainable, Spratt's is "Crisp-Baked". This special patented process provides the proper digestive stimulation and the eating exercise that is needed to build powerful, close-set teeth, sound bones and strong, plastic muscles. Spratt's Dog Meal, too, is excellent for breeders. It has been produced through many years of experience for which Spratt's are famous.

SPRATT'S REGULAR OVALS

Contain Spratt's famous Meat Fibrine. Wonderful for all dogs, especially the smaller breeds. Unrivalled as a regular diet.

SPRATT'S MIXED OVALS

An assortment of Standard Ovals, Cod Liver Ovals, Liver Ovals, Spice Ovals and Charcoal Ovals. A grand, healthful change.

SPRATT'S DOG BISCUITS

The world's standard dog food for 75 years. Appetizing aroma. Contain no artificial flavourings or preservatives of any kind.

SPRATT'S BONIO

A home size biscuit. Ideal for all breeds. High food value. Convenient in shape. Easy for dog to grasp. A favourite Spratt's product.

SPRATT'S WEETMEET No. 1

Ideal food for puppies six weeks to three months. Granulated. Contains Meat Fibrine, Wheatmeal Flour and pure Cod Liver Oil.

SPRATT'S WEETMEET No. 2

Made expressly for puppies three months onwards. Rich in all essentials for the development of sturdy limbs and thick, glossy coats.

Spratt's famous dog meal available in 50-lb. sacks

SPECIAL FREE OFFER to owners and breeders. Write for your sample of Spratt's Weetmeet #1 for puppies up to 3 months. You'll be pleased with the results. Don't forget to ask for a free copy of the new edition of Spratt's excellent booklet (100 pages) "Guide to Dog Management".

Our Cover

For our front cover illustration this month we are pleased to present the German Shepherd Dog "Ch. Shoes of De Grassi", bred and owned by Samuel Back, 159-165 De Grassi St., Toronto, Ontario. 'Shoes' completed his championship while still a Junior Puppy (8½ months of age). Last year he was four times Best Canadian-bred in Show and placed in the Working Group at 9 shows, an enviable record for a still quite young dog. 'Shoes' was Reserve Winners at the Westminster Kennel Club show held last year; and last January earned a five-point win at a show held at Miami, Florida. His sire is the well-known Am. Ch. "Valiant of Draham", who was awarded Best in Show at the German Shepherd Dog Club of Canada's specialty shows held at Toronto in 1949 and 1950. A three-generation pedigree of 'Shoes' includes the following: Ch. Nocture of Grettamarc C.D., Ch. Odin von Busecker Schloss, Ch. Kalea of Gretana, Ch. Orexon vom Liebestraum C.D., Ch. Gunnar of Briardale and Int. Ch. Lucky of Briarnole.

The Canadian National Live Stock Records

BREEDERS of pure-bred live stock in this country know only too well that an institution called the "Canadian National Live Stock Records" exists, but many have no doubt wondered how it came into existence, how it operates, what is its connection with the Canadian Kennel Club, and what is its primary function. In this and succeeding issues of our official magazine, we hope to acquaint our readers with pertinent facts about an institution whose value to the world of live stock is appreciated not only within our own country, but in other countries where live stock records are maintained.

There can be no denying that during the past decade Canada's growth as an industrial nation has been nothing short of phenomenal, but no one familiar with the economic development of our country since Confederation will deny that agriculture, in all its various forms, has been a leading factor in that development. That it has been so is due in large measure to legislation enacted by Parliament on the advice of successive federal governments, and as is generally known, much of the legislation concerning agriculture originates within our federal Department of Agriculture under the leadership of the Minister of Agriculture. In a later issue we shall describe how the Club operates under statutes administered by the Department, but our readers would no doubt be interested in how the Department played a leading role in the development of national live stock associations, and of the founding of the institution known as Canadian National Live Stock Records.

In the few years following Confederation there was founded in this country a number of live stock associations who proceeded to conduct books of record for the various species and breeds. The Canadian Kennel Club was founded at London, Ontario, in September 1888. At least two provincial governments were the "proprietors" of live stock records. Registration offices were maintained at various points in Canada, many being at Toronto. That was the situation that existed when the then federal Minister of Agriculture, the Hon. Sidney Fisher, introduced before Parliament "An Act Respecting the Incorporation of Live Stock Record Associations". This Act was passed and became law on June 14th, 1900, just 33 years after Confederation. The intent of this statute was two-fold. First, to provide the means by which a live stock association conducting a book of ancestry record could be incorporated under a special federal statute which would serve to add to the integrity and prestige of breed records; secondly, to "nationalize" the records of any breed or species to the extent that instead of two or more records involving the same breed or species, the records for each breed or species would be co-ordinated into a single book of record whose records and certificates would be recognized throughout the entire country. The advantages of such an arrangement hardly need defining.

Not content with having laid the basis for a system of live stock record-

ing second to none the world over, the Minister, still the Hon. Mr. Fisher, was responsible for a convention of delegates of live stock associations held in the Imperial Building, Ottawa, on April 19th, 1905. At that convention the Minister outlined a number of suggested principles upon which live stock recording associations could voluntarily co-operate by transferring their records to a common recording office through which all certificates could be issued, and of the ways and means by which the Department would assist such a worthy undertaking. The original Live Stock Pedigree Act of 1900 was amended in 1905 by the addition of a new section reading "And may provide for—(g) the exercise in conjunction with any other Association or Associations incorporated under this Act of any of its powers or functions through a common officer or officers to be appointed by such Associations." Most of the then existing breed records were transferred to Ottawa, and it was that voluntary "affiliation" of live stock recording associations in a common recording office that created the Canadian National Live Stock Records. At this time and with one exception, all live stock associations incorporated under the Live Stock Pedigree Act maintain their registration records at the Live Stock Records Office. So soundly were laid the principles upon which the free association of live stock associations in a common recording office was founded, that few changes have been made in the intervening 47 years, although the details of that continued association have naturally undergone some changes in an effort to place the affiliation on a firmer plane.

The Canadian Kennel Club was incorporated under the Live Stock Pedigree Act on April 15th, 1951, and immediately thereafter its registration records were transferred from Toronto to the Live Stock Records Office at Ottawa.

Successive Live Stock Pedigree Acts have since provided for the free affiliation of live stock associations, but perhaps that affiliation is best provided for by the Live Stock Pedigree Act which became law on December 10th, 1949. Sub-sections 1 and 2 of Section 13 of that Act read as follows:

"(1). Associations may, by executing articles of affiliation and having them registered as provided in this section, affiliate with each other for keeping live stock records, issuing certificates of registration and of transfer, and performing such other services on behalf of the affiliated associations as are authorized by the articles of affiliation.

"(2). The affiliation shall be known as the Canadian National Live Stock Records, and shall be the successor to the Canadian National Live Stock Records as constituted immediately prior to the commencement of this Act."

Sub-section 3 provides that the articles of affiliation shall be in a form prescribed by the Minister, and the members of The Canadian Kennel Club,

attending the Annual General Meeting of the Club in 1950, authorized the signing of the articles of affiliation by the authorized signing officers of the Club. Now it can be truly said that the articles of affiliation serve two main purposes. First, to describe the principles which apply to the free association of those associations maintaining their registration records at the Canadian National Live Stock Records office; and secondly, to provide the basis upon which the Live Stock Records office functions, just as our By-Laws do in the case of the operations of The Canadian Kennel Club.

Naturally, some means has to be provided for the election or appointment of those who will be responsible for conducting the affairs of the Canadian National Live Stock Records. Authority for such administration is provided in the articles of affiliation which states that each affiliated association shall have, according to the number of its members, a number of representatives to what is known as the Canadian National Live Stock Records Board. The maximum number of representatives which an association may have to that Board is five, the number to which The Canadian Kennel Club is presently entitled by reason of its total membership role. The Live Stock Records Board meets annually, usually in Toronto, about the end of March or early in April. At the Live Stock Records Board meeting, an election takes place for the election of what is known as the Record Committee, and it is the Record Committee which administers the affairs of the Canadian National Live Stock Records, just as does the Board of Directors in the case of The Canadian Kennel Club. The Committee consists of a total of seven, which includes the Chairman, Vice-Chairman and immediate Past Chairman. The Committee meets from time to time as occasion may require. The Secretary to the Committee and Director of the Canadian National Live Stock Records, the head employee of the Live Stock Records, is Mr. R. G. T. "Tom" Hitchman, who has been associated with the Live Stock Records office since it was founded in 1905. The entire staff of the Live Stock Records office, including the various registrars, is responsible to Mr. Hitchman, who, in turn, is responsible to the Record Committee for the proper functioning of the Records office under his direction.

The articles of affiliation already mentioned are identical for all associations affiliated and maintaining their records at the Live Stock Records office. No change may be made in the articles of affiliation without the approval of a least two-thirds of the affiliated associations.

In this brief review, we have sought to describe how the Live Stock Record office was founded and to describe its overall administration. In successive articles, we shall describe how each association pays for the work that it handled on its behalf by the Live Stock Records office, and of how the various items of business handled by the Records office are processed through that office.

THERE is no other animal which shows as much diversity in type as the dog. By selective breeding, breeds have been developed which vary in weights from one pound to upward of two hundred pounds. Some are with long, narrow skulls, others with the ends of their noses on a line with their eyes, some with long hair, some with none, and some without tails.

Some of the breeds which are developed for their large heads and small posterior quarters have problems in giving birth to their young, calling in many cases for Caesarian operation which, if it is done in time, is very successful and may be repeated numerous times upon a given individual. In the development of each breed which has come about by considerable inbreeding or close breeding, many of the lethal recessive factors have been eliminated; therefore, inbreeding can be carried on very extensively without detrimental results, provided intensive selection is maintained.

Once good individuals have occurred, it is advisable to do intensive inbreeding in order to maintain their desirable characteristics and to eliminate the individuals which carry the undesirable factors. This is best done by breeding the good son to his mother and then breeding that good daughter (if there is one) to her sire. Such procedure must always be associated with rigid culling and good selection.

The breeding of brother to sister is the most intensive of inbreeding procedure from which there is danger of loss of vitality. On the other hand, it may achieve the desired results, particularly if the individuals are from inbred individuals. There are, however, some cases of degeneration which are encountered and which must be recognized and eliminated. Perhaps the most common is infertility.

The greater the extent of inbreeding the more rigid must be the selection in order to eliminate lowered vitality and ability to produce living offspring of good conformation.

The mating of dogs is in a class of its own with regard to the domesticated animals, most of which have heat or oestral periods of short (1-6 days') duration, at three to four week intervals. On the other hand, the wild dog has but one period a year, with a gestation of a much shorter duration, namely nine weeks. The domesticated, home-contained dog usually has two oestral periods a year.

The kennel-confined dog usually has oestral periods at eight to ten month intervals. This is most likely to be the case if she has been bred at her first oestral period, whereas if not bred until the second period she may establish a six month oestral period. However, heat, light, and food will influence this greatly.

The mating of dogs is considerably different than the mating of other domesticated animals, because of the anatomical arrangement of the reproductive organs. The male dog is always

in an active stage bitch—the wild or domesticated at 10 day intervals, with but seasons. Her oes similar to that of most common dom she starts this per of blood from the This continues for days with a gradu red color, associat ment of the vulva take place until twelfth day after oestral period, at will show an incl male. the number of ova which the bitch gives off. Therefore, it is important that she be in excellent health at the time of mating. The development of the foeti from the ova thrown off by the ovaries is dependent upon their combining with the sperm cells of the male. As the dog does not have seminal vessels, it is necessary that his act of copulation be of longer duration than that of most other animals. This accounts for the glands of the penis being at the posterior end of the penis and the bitch having strongly developed erectile tissue in the vulva. This combination holds the two in contact for 15 to 30 minutes, during which time the semen is slowly ejaculated directly into the uterus, in amounts of 5 to 10 cc. Its rapid movement up the tubes accounts for the failures to prevent conception when douching has followed copulation.

The cells of the dog contain seventy-eight chromosomes. These carry all of the inheritance genes or factors of a given dog. The sex is determined at the time these two cells combine. The female cells contain seventy-six chromosomes and two X chromosomes, while the male cells contain the seventy-six and an X and Y chromosomes. These X and Y chromosomes are the ones which control the sex of each pup.

About every decade someone comes out with a plan for the control of sex by the use of acid or alkaline douches, as has been claimed. The above would indicate that in the long run the sexes should be about the same in number and are determined at the time that the male sperm meets with the ova.

Artificial impregnation can readily be carried out in the dog. However, the dilution fluids commonly used with bull semen will kill the dog sperm in a few minutes. Dog sperm can be maintained alive for 21 hours in its normal state; with dilutions in physiological solution it will survive for only 12 to 15 hours. It must be remembered that air mail time for shipping of semen must not exceed 15 to 20 hours.

Semen can be collected from the male dog by pressure just posterior to the glands-penis and by pulling downward against the glands-penis. This will cause erection and ejaculation of 5 to 10 cc. It may be taken up with a 10 cc. syringe connected with a rubber tube to a 5 to 10 cc. pipette at the dropping end. This will leave the seven-inch top end free. This end is then inserted in the container used to collect the semen. The semen is then drawn into the pipette. This end is then inserted into the vulva and passed through the cervix into the uterus, then the semen is slowly forced out of the pipette by the syringe.

This may be more easily accomplished with the use of a vaginal speculum but is quite simple without its use. This procedure must be carried out by a veterinarian or by two of them, in case the dog and bitch are in different localities.

INFECTIOUS DISEASES

By Dr. James A. Baker

ALTHOUGH work towards the control of infectious diseases in dogs has been accelerated in the last decade, still numerous problems demand attention, and there are probably some infectious agents still unrecognized. During the years following the application of the original Laidlaw-Dunkin method, or some of its various modifications for immunization against distemper, there has been a growing realization that full protection for the dog was not achieved and that sometimes varying nervous manifestations occurred, regardless of previous management or immunization procedures. Some workers postulated one or more viruses different from that of Carré virus in order to account for the diversity of signs, while others thought it was distemper virus alone but modified in its activity.

In reports on encephalitis in dogs under the term "hard pad disease," it was considered that a virus distinct from distemper had been isolated and that its activity explained the encephalitis. In somewhat the same approach, Verlinde isolated a distemper virus which he classified as Type B to distinguish it from Type A, the catarrhal form, but he considered it a variant. Gillespie, working at the Cornell Research Laboratory for Diseases of Dogs, in recent cross-immunization studies with virus from a dog with symptoms of hard pad, found that the virus seemed identical in every way with that of virus from classical distemper.

The majority of workers now believe that ordinarily the virus of distemper produces a catarrhal form of illness. Apparently some factor acts in connection with the virus itself and causes it to reach the brain cells. One suggestion has been the formation of some toxic substance in the intestinal tract. As shown by Gillespie's work, some such additional factor is required by the virus of distemper to produce encephalitis regularly.

Work in the Cornell Research Laboratory for Diseases of Dogs showed that the virus of infectious hepatitis and the virus of distemper can produce infection simultaneously. Full evaluation of the potentiality of this finding in relation to encephalitis has not yet been established.

Since the formulation by Laidlaw and Dunkin of a method whereby dogs can be immunized against distemper, several modifications have occurred.

Various reports from workers in this country and throughout the world have now established infectious hepatitis as a widespread and commonly occurring disease in our dog population. The high incidence of this disease is easily understood when it was discovered in studies conducted at the Cornell Laboratory that infection not only readily occurred by introducing virus into the dog's mouth, but that infected dogs eliminated virus in the urine for at least 200 days. Exposure possibilities are therefore enormous when consideration is given the amount of travelling performed by dogs. Fortunately, there is a serum available for this condition. This protection, however, is of short duration and must be repeated every three weeks during an exposure period. Until more durable methods of immunization are available, serum should prove of great help in preventing spread of the disease at dog shows and other places. Since infectious hepatitis virus can act simultaneously with distemper virus and produce more severe illness, it is imperative that all means of control be practiced.

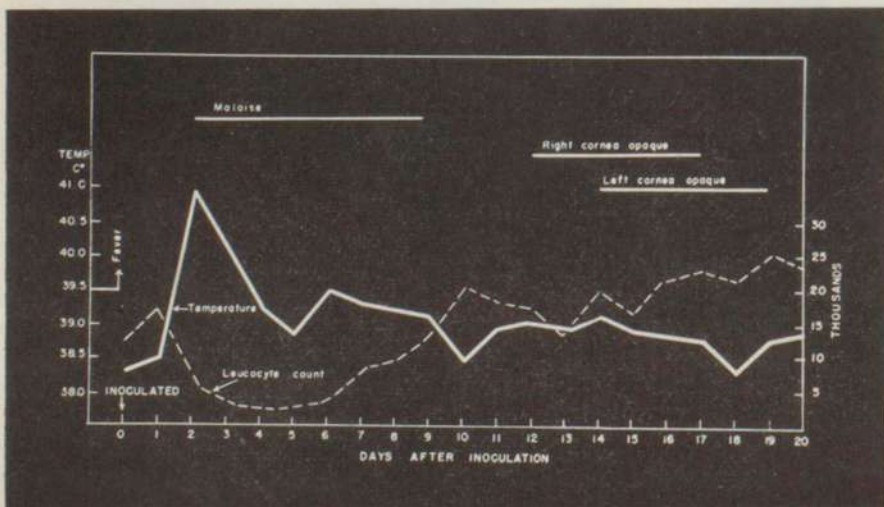

Our basic knowledge of rabies goes back to Pasteur's work in the early beginnings of bacteriology. Although one of the first diseases for which immunizing products were prepared, the products devised then and in the years that followed failed to provide complete satisfaction, largely because of lack of means for evaluating their

efficacy. The Habel mouse test restored some confidence in the immunizing procedure, but always the search went on for better products. In 1948, Koprowski and Cox reported on an avianized, modified, live virus vaccine which is gaining in the number of users as clinical trials continue.

It was not until 1942 that a diagnosis of toxoplasmosis in the United States was authenticated. In a few instances in dogs, puppies have died from toxoplasma infection in so short an interval after birth as to suggest that intra-placental infection of embryos occurs. It thus appears that careful studies in dogs showing symptoms of distemper might reveal more clinical infections. This work should be rewarding, since it was reported that when sulfonamide therapy was applied to mice experimentally infected with a strain that invariably produced death in 15 days, all recovered if treatment began 5 days after inoculation, while only half recovered if treatment began after 10 days.

Finding relatively large numbers of human infections in the Middle Western area of the United States gave impetus to an investigation of the comparative incidence of histoplasmosis in dogs and man. A recent report of infection in three human beings that came from silage dust may indicate that the source for both man and dogs is dust-borne infection.

Progress has been made, and is being made, on infectious diseases, which appears orderly and based on proven scientific concepts. No longer is the veterinarian willing to apply generalized treatment, but insists on an analytical scientific approach to the problem of diagnosis, prophylaxis and therapy. Also, there has grown a great sense of responsibility on the part of the manufacturers of food, medicines and biological products to provide only the best for dogs. Evidence of this can be found in the extensive research efforts now going on. While the progress made in the field of infectious diseases has great significance, it is only a small beginning in the light of the growing realization of what will be done to increase that store of knowledge and integrate it with the related fields of breeding, management, nutrition, non-infectious diseases, and parasites.

Features of illness shown by a dog with infectious hepatitis.

KENNEL NAMES

SO many of the things that we purchase and use in our every-day lives have been identified by trade or brand names that such names have become almost a part of our present-day language. Whether it be an automobile or some small item for household or personal use, the purchase has invariably been assisted by the purchaser's knowledge of the brands on the market, particularly those which have become popular through the quality of the product and by the manufacturer's extensive use of advertising media.

Breeders of dogs have quickly realized the value of "brand" names, and the use of a "kennel name" has become standard practice by those engaged in breeding dogs, whether for hobby or business purposes.

The adoption of a kennel name has definite advantages for advertising purposes, the use of attractive letterheads, and more particularly, when registering dogs, in identifying the kennel in which a dog was born.

Proprietary rights to a trade or brand name are jealously guarded by those having a definite interest in the benefits derived from their trade or brand name. Similarly, breeders of dogs are anxious to protect their kennel name. The By-Laws of the Canadian Kennel Club make it possible for a breeder to register his kennel name in the records of the Club, the registration being for the purpose of protecting that kennel name in connection with the registration of dogs in the records of the Club. For example, if "John Jones" registers a kennel name with The Canadian Kennel Club, then The Canadian Kennel Club undertakes to prohibit the use of that name by any other breeder (except for imported dogs whose registered names cannot be changed when such dogs are registered in the records of the Club), during the period when the registration of a kennel name is effective. The fee to register a kennel name is \$7.50 to a member of the Club, \$15.00 to a non-member. It is permissible for a person applying for membership to apply for registration of the kennel name at the same time, and if application for membership is approved, then the lower registration fee applies.

Application for registration of kennel name must be made on a form which is obtainable through the office of the Canadian National Live Stock Records or from the Secretary of the Club. In completing the application, it is suggested that the applicant give his first choice of a kennel name on the face of the application, and then on the reverse side of the application, give two or more alternative selections. This suggestion is made for the reason that if the applicant's first choice cannot be approved, then no undue delay may take place in granting another kennel name that will be satisfactory to the applicant. In selecting a kennel name, a proper name is advisable, the use of adjectives, colours or other descriptive words not being recommended. The applicant should also avoid the use of the name of the city, town or village in which he resides. The application when completed should be for-

warded with the fee direct to the Canadian National Live Stock Records, Ottawa, Ontario.

After the application has been checked against the list of kennel names already registered (at the Live Stock Records office), the application is forwarded to the Kennel Club office and in a following issue of DOGS IN CANADA, notice is given that the name has been applied for. It should be noted that applications received at the Kennel Club office after the tenth of the month preceding publication, cannot be listed in the next issue for the reason that the list must be turned over to the printer approximately three weeks before the magazine is mailed. Following publication, at least three weeks is permitted to lapse, during which time any person having registered a kennel name and recognizing in a name applied for, one which he or she feels is similar to his registered kennel name, may have the opportunity to submit an objection. Following the expiration of that three-week period, the application is referred to the next succeeding meeting of the Board of Directors, and the application is approved by the Board of Directors or approval is withheld for any reason which the Board deems advisable, usually because of similarity to a kennel name already registered. If the

name applied for is approved, a printed certificate is issued to the applicant, the certificate being suitable for framing.

Pending the Board's discussion on an application for registration of a kennel name, it is suggested that the applicant do not withhold the submission of applications of registration of individual dogs. Seldom has the Board occasion to withhold its approval of a kennel name applied for.

The fee mentioned above is not payable annually, and a registered kennel name remains registered in the Club's records so long as the person who registered the name remains a member of the Club. As a matter of fact, such registration is carried on for a period of five years after a person ceases to be a member or ceases to register dogs in the records of the Club, whichever shall last occur.

In applying for registration of a kennel name, it would be well to remember that the Club's By-Laws prohibit the registration of the name of a dog exceeding 30 letter spaces. If a kennel name is uncommonly long, then obviously the range of other names to which a kennel name is attached is materially reduced. Under the present By-Laws of the Club, kennel names registered after May 5th, 1951, may be used as a prefix only.

Coming Championship Shows

Unless otherwise indicated, shows are for all breeds.

Registration of Dogs Imported from the United States

DURING the course of a year, a considerable number of dogs are imported into Canada from the U.S.A. As a matter of fact, the Club's registration records indicate that in 1951, 202 dogs imported from the U.S.A. were registered in our records; in 1950, the number of dogs imported from the U.S.A. and registered in the records of the Club, totalled 275; in 1949, the total was 373; in 1948, 378, and in 1947, 501.

In view of the high number of registrations, it is considered proper to include in this issue of **DOGS IN CANADA**, information on procedures which residents of this country should follow when they are desirous of registering, in the records of the Club, dogs which they import from the U.S.A.

Under the Club's present rules of eligibility, a dog imported into Canada from the U.S.A. cannot be registered in the records of the Club until such time as the importer is in possession of an American Kennel Club certificate of registration showing his ownership of the dog which he has imported, or is about to import. Importers would be well advised, when negotiating for the purchase of a dog from a resident of the U.S.A., to insist, as a condition of sale, that an American Kennel Club certificate of registration showing transfer to the Canadian importer, be provided by the American exporter. Occasionally, the American exporter will provide the Canadian importer with an American Kennel Club certificate of registration showing the exporter's ownership on the face of the certificate and with completed application for transfer of ownership on the reverse side of the American Kennel Club certificate. In such instances, it is imperative that the American Kennel Club certificate be forwarded to the American Kennel Club along with the required transfer fee, in order that transfer of ownership to the name of the Canadian importer may be effected in the records of the American Kennel Club.

When in possession of the American Kennel Club certificate of registration showing his ownership, the Canadian importer should then complete a Canadian Kennel Club application for registration form taking, wherever possible, the required information from the American Kennel Club certificate. The following sections of the Canadian application should be completed: Breed, Sex, Name of Dog (which must be identical to that shown on the A.K.C. certificate—change of name not permissible), Colour or Colours, Date of Birth, Tattoo-markings or Nose-print numbers accompanying form, Name and Address of Breeder, Importer's name, address and date of importation, name of Sire and name of Dam. The form must be signed by the importer on the line below which appears the following words:

"If imported, importer sign here."

The signature of the American breeder or exporter is not required on the Canadian application for registration form. Imported dogs are subject to the same identification regulations as dogs born in Canada.

After the application for registration form has been completed and the dog has been identified either by tattoo markings or nose-prints, the application for registration form, the AKC certificate of registration (which will be returned to the importer), the registration fee and nose-print forms (if identified by nose-printing method), should be forwarded direct to the Canadian National Live Stock Records, Ottawa, Ont.

If the Canadian importer is in possession of an import certificate (issued by Canadian National Live Stock Records on receipt of above-mentioned items in the proper form), clearance of the dog through Canadian customs

without payment of duty will be facilitated. If the dog is cleared through the Canadian Customs and duty paid before the importer is in possession of an import certificate, then application for refund of duty may be made following receipt of import certificate. There is a time limit during which application for refund of duty may be made, therefore, early registration in the records of The Canadian Kennel Club, following importation of the dog, is urged.

Occasionally the importer of a dog finds it necessary to withhold applications for registration of litter and individual dogs, of which the imported dog is sire or dam, until registration, in Canada, of the imported dog is possible. It is quite permissible for the applications for registration of such litters and individual dogs to go forward with the application for registration of the imported dog.

Private Breeding and Identification Records

MAINTAINING a kennel of pure-bred dogs, whether large or small, involves the keeping of accurate and adequate records. This is essential to enable proper identification of each individual dog in the kennel and to guarantee correctness of all applications for registration.

There are a few who fail to understand the necessity for such records or whose records, such as they are, are not up-to-date or are incomplete. This often results in errors and confusion

in registration to say nothing of the more possible serious consequences resulting from possible investigation and prosecution.

The Live Stock Pedigree Act, a federal statute, requires that the By-laws of The Canadian Kennel Club include a by-law dealing with the keeping of private breeding records, the manner in which such records shall be kept, and authority to conduct an inspection, on behalf of the association, of private breeding records, of the adequacy of the system of identification prescribed by the association and of the manner in which such system of identification is being practiced.

Accordingly, the Club's By-laws require that each breeder shall keep a private record which shall contain full particulars of his breeding operations and identification of all dogs in his possession by reason of ownership, lease or agreement. These records shall be kept in the form as set forth in "Canadian Kennel Club Private Breeding Record" or in some other suitable form that will contain the same information.

Under circumstances cited in the Club's By-laws, the Board of Directors have the power to conduct an inspection, on behalf of the Club, of private breeding records, of the adequacy of the system of identification practiced and of the manner in which the system of identification is practiced. If an inspection should indicate that the private records and identification system as practiced are in such a state as to raise doubt as to the identity of any or all dogs in a kennel, the Board of Directors may suspend the certificate of registration of any number or all dogs standing in the name of the breeder.

A simple yet complete private breeding record book is made available by the Club at a nominal price of 50c. Orders for such books should be addressed to the Club at 667 Yonge Street, Toronto, Ontario. Payment must accompany the order.

DO NOT jeopardize your privileges by failing to keep such records in proper order at all times. Take pride in your personal records and you will find that they will afford a constant source of satisfaction to say nothing of their value in event of a dispute or investigation.

Notice

Persons submitting applications for membership, renewal of membership fees, applications for registration of litters, applications for registration of individual dogs, applications for transfer of ownership, applications for registration of leases, etc., should note that all of the foregoing items and fees relating thereto should be forwarded **DIRECT** to the Canadian National Live Stock Records, Ottawa, Ontario. The forwarding of such items direct to the Canadian Kennel Club, except when expressly requested to do so, only delays the handling of such items by the Records Office.

Applications for show or trial dates, applications for approval of selected judges, and orders for nose-printing supplies, private breeding record books, pedigree forms and other breeder's supplies should be forwarded direct to The Canadian Kennel Club, Incorporated, 667 Yonge Street, Toronto, Ontario, and not to the Canadian National Live Stock Records.

When forwarding membership or registration fees to the Live Stock Records office, please do not include remittances for payment of nose-printing or other breeder's supplies. Likewise, date fees or handler's license fees should not be included in remittances to the Live Stock Records Office.

SPOOCH fed Champions

CANINE COUNTRY CLUB

Derrybard Kennels

Lot 83, East St. Paul, Manitoba

MR. ELSWOOD BOLE,
Bole Feeds,
St. Boniface, Man.

CHAMPION BALLERINA OF DERRYBARD

Born July 5th, 1949.

Winners female, Greater Winnipeg Kennel Club May 2, 1950 — 5 points; Winners female, Greater Winnipeg Kennel Club May 3, 1950 — 5 points.

Best Novice female Minneapolis. Kennel Club, U.S.A., April 17, 1951; Winners female Greater Winnipeg Kennel Club July 18, 1951 — 4 points; Best of Breed 2nd in group Cocker Spaniel Specialty Show, June 20, 1951 — 3 points.

Two five point wins before she was ten months old and she finished for the championship with seventeen points. She is the first Boxer bred in Manitoba to finish her championship and is one of only four Boxer Champions owned in Manitoba. Her mother Champion Amber of Agamik, a group winner, is one of the four.

Ballerina was one of a test litter to determine for my satisfaction the merits of Spooch Dog Meal. Her mother was fed Spooch while in whelp, and Ballerina and her four sisters were fed Spooch to maturity. She is now the proud mother of five, four months old puppies sired by the greatest winning show dog of all times, all breeds, Champion Mazelaines Zazarac Brandy.

These puppies, who will enter the show ring this spring, represent the third generation in my kennel fed on Spooch.

(Signed) J. L. S. Anderson.

Boxer—Ch. Ballerina of Derrybard

Canadian Wins at New York

AS the reading columns for this closed, detailed reports of the awards at this year's Westminster Kennel Club show had not reached the Editor's desk, however, such informa-

tion as has come to hand suggests that again a number of Canadian exhibitors fared exceedingly well with their dogs.

For the seventh consecutive year, Best of Breed in Cairn Terriers went to the Cairdania Kennels of Mrs. G. W.

Hyslop, Brockville, Ontario, this year's win being made by Am. and Can. Ch. Kiltie's Foxglove of Cairndania. Best of Opposite Sex at the Gardens also went to a Cairndania-owned dog, Ch. Kindon Saucy Sue. Sue was bred by George P. Davies, York Mills, Ont., and was the Best of Breed winner at Westminster in 1949, 1950 and 1951. Other awards to Cairns competing at the Gardens were as follows: First in Junior Puppy Females Class, Mrs. Hyslop's Cairdania Adorable; First in Senior Puppy Females Class, Miss Celeste Hutton's Fox's Shar of Cairndania; Second in Senior Puppy Males Class, Mrs. Hyslop's Cairndania Simon; First in Bred by Exhibitor Males Class and Reserve Winners, Imp's Skippy of Cairdania.

At the Cairn Terrier Specialty show immediately preceding Westminster, Best of Breed went to Kiltie's Foxglove of Cairndania, with Best of Opposite Sex to Am. & Can. Kindon Saucy Sue. In the Stud Dog Stakes (6-9) first went to Rascal's Foxlore of Cairndania, owned by Mrs. Jean Ferrabee of Montreal. This dog was also Best Puppy in all the stakes. In the Stud Dog Stakes (12-18) first was Imp's Skippy of Cairndania. Imp's Skippy was best of all the stakes and was also awarded first in the Bred by Exhibitor Males Class. First in the Senior Puppy Females Class was Miss Hutton's Fox's Shar of Cairndania. First in Bred by Exhibitor Females Class was Kilmel's Holly of Cairndania. First in Open Females Class, Winners and Best of Winners to Fox's Brindie of Cairndania.

(Continued on page 14)

"QUARRYBRAE"

We have some Shetland puppies for sale. These pups are sired by **SPEED VALLEY TOMMY**; dam, **CH. QUARRYBRAE LITTLE MISS MUFFET**. Tommy was the top winning Sheltie at the Eastern Ontario Collie Club specialty show held on October 6th, 1951, taking Reserve Best in Show.

Also a litter from **CH. QUARRYBRAE LITTLE LAURIE**, sired by Tommy. These pups are being sold at attractive prices.

Also a few choice Collie pups for sale.

ENG. CH. CASFALA COPYRIGHT

Changes in Dog Show Rules (Continued from page 12)

Another important win of interest to Canada was that of Best of Breed to the Maltese, Ch. Brigid of Suirside, owned by Miss Mary M. Annand, of Toronto. Brigid, now two and one-half years old, was also First in Open Females, Winners and Best of Winners. We are informed that there were seventeen Maltese in competition including the only Maltese to win Best in Show in the United States, and the Best of Breed winner at the Gardens for the past three years. Brigid was born in Ireland, and was imported to Canada by Miss Annand in April, 1950.

Still another excellent win at Westminster was made by the Collie, Ch. Sovereign Dougie's Choice, who went up to Best of Winners. Bred by the late N. D. Clinton, Wellington, Ont., and now owned by Mrs. Ariel Sleeth, Kingston, Choice is a tri-color who won much applause with his soundness and showmanship. Dalmarnock Victoria, winner of the Bred by Exhibitors Class, was sired by Wm. Powell's imported dog, Beulahs Golden Victory.

Mrs. Dorothy F. Drury of Oakville, Ontario, has every reason to feel proud of her Boston Terrier, American and Canadian Champion SOVEREIGN'S ESCORT.

At the Boston Terrier Club of New York's specialty show immediately preceding Westminster, ESCORT was Best in Show with 100 Bostons entered, thirteen being entered for specials only. This award carried with it the Charles O'Connor Challenge Trophy, a sterling silver cup valued at \$2,000.00, which the winner holds for one year.

Dogs Crossing Border

THE Canadian Customs Regulations have been amended and it is NOT now necessary to post a bond or use Form B-18 when bringing dogs into Canada for participation in a Show under C.K.C. Rules.

All that is required is to have your dog or dogs included on Form E-29 which is obtained at the Port of Entry. No security is required.

There is no change in the rabies requirements.

Great satisfaction was expressed by many attending the Annual Meeting of The Canadian Kennel Club after Director Monaghan announced the result of the representations which our President, Mr. Farmer, and he had made to the appropriate departmental officers.

The announcement covered the entry of dogs by automobile. We are now happy to inform you that a further discussion has taken place with the result that henceforth the amendment will be interpreted to include all dogs brought or shipped into Canada, whether by motor vehicle, railway, boat or airplane, for participation in Shows under C.K.C. Rules. This is conditional, of course, on exportation under customs supervision within three months.

Arrangements have been made for suitable releases to the press in the United States and Show Secretaries are requested to include the amended information in Premium Lists.

Meetings of the Board of Directors

January 15th, 1952

2102. A meeting of the Board of Directors of The Canadian Kennel Club Inc. was held in the Club's offices, 667 Yonge St., Toronto, Ontario, on Tuesday, January 15th, 1952, commencing at 10:00 a.m. The Vice-President, J. J. Farmer, presided. Directors present were S. Back, G. Getty, W. H. MacKendrick, Mrs. Alva McColl and W. J. Monaghan.

Mr. Farmer extended a welcome to the new members of the Board and to those with previous experience on the Board. He introduced the Secretary, C.K.C. Representative, Managing Editor and the bookkeeper, and explained the duties of these members of the staff. Mr. Farmer explained the manner in which the minutes are prepared and of the steps taken in respect to publication of minutes in DOGS IN CANADA. He explained the procedure followed in respect to complaints and suggested that where disciplinary proceedings are taken and a penalty (such as suspension) is imposed, that the penalty should be for a stated period of time.

It was moved by Mrs. McColl, seconded by Mr. Getty: "THAT, we accept the Vice-President's opening remarks, and welcome him as Chairman of the first meeting of this Board". Motion carried.

It was agreed that should any member of the Board find that it is not possible to attend any particular meeting of the Board, that notice to that effect would be given to the Secretary as far as possible in advance of the meeting so that, if necessary, the meeting could be cancelled.

2103 (2078). MINUTES

The Secretary read the minutes of the meeting of the Board of Directors held on December 6th, 1951. Mrs. Ellen Brown, Director of the Club in 1951, was present, at the Chairman's

invitation, while the Board passed on the minutes of the last meeting of the 1951 Board.

Item No. 2086—Delete second resolution and sentence preceding it, and substitute the following:

"Mrs. McColl referred to four small amounts received and apparently incorrectly entered as 'accounts receivable' instead of being credited to subscriptions to DOGS IN CANADA. It was regularly moved by Mr. Biggar, seconded by Mr. Farmer: 'THAT, these four small credit accounts be transferred from accounts receivable to subscription.'"

Motion unanimously carried.

It was regularly moved by Mrs. McColl, seconded by Mr. MacKendrick:

"THAT, the minutes of the meeting of the Board of Directors held on December 6th, 1951, as corrected, be adopted."

Motion carried unanimously.

2104. PUBLICATION OF FINANCIAL STATEMENTS FOR 1951

Mr. Farmer pointed out that the financial statements for the past calendar year were expected from the auditors in the near future, and suggested that the Board consider the best and most economical means of publishing the statements and of making copies available for the members attending the annual general meeting.

Following discussion, it was regularly moved by Mr. Monaghan, seconded by Mr. MacKendrick:

"THAT, the financial statements for 1951 be printed (insert form) with sufficient copies for distribution at the annual general meeting and for insertion in the following issue of DOGS IN CANADA". Motion carried unanimously.

2105. MAGAZINES TO MEMBERS IN ARREARS

The Secretary and Editor sought an instruction with regard to the mailing of DOGS IN CANADA to those who were paid-up members in 1951, but who had not renewed their membership for 1952. Following discussion it was regularly moved by Mr. MacKendrick, seconded by Mr. Back:

"THAT, commencing with the March issue of DOGS IN CANADA, the official magazine be mailed only to paid-up members". Motion carried unanimously.

2106 (2090). ARRANGEMENTS FOR ANNUAL MEETINGS

Mr. Farmer pointed out that it had been the practice for some years past for the Board to meet on the day before the annual general meeting and to meet again on the day following the annual general meeting, and that it had been found that this arrangement resulted in exceedingly long meetings of the Board, a condition which he felt was not conducive to best results. He reported that he had therefore suggested to members of the Board in the other provinces that they arrange to be in Toronto on February 4th so that the Board could meet on February 4th, 5th and 7th, the annual meeting of the Board to commence on February 4th at 10:00 a.m.

Following discussion it was regularly moved by Mr. Monaghan, seconded by Mrs. McColl:

"THAT, we endorse the action of the Vice-President, and direct the Secretary to serve notice on all members of the Board of Directors that the annual meeting of the Board of Directors will commence at 10:00 a.m. on Monday, February 4th, 1952, reconvene on February 5th, and again on February 7th (if meeting following annual general meeting necessary)".

Motion carried unanimously.

—The Board recessed for lunch and later reconvened with the same members of the Board present.

In the discussion which followed it was noted that the By-laws now in effect require that not only must a person be a member and have paid his membership fee for the current year, but he also must have been a paid-up member six months before the annual general meeting in order to gain admittance to the meeting. It was agreed that the membership records maintained in the Club's office would provide a ready means of checking the eligibility of those seeking to enter the annual general meeting, and that the C.K.C. Representative would have the membership records at the general meeting for that purpose. The Board directed that specific announcement of the six months requirement be published in the February issue of DOGS IN CANADA.

2107 (2081). COMPLAINTS

Mr. Farmer referred to the Board's decision, at a previous meeting, to refer four complaints, with regard to alleged non-delivery of certificates of registration, to the Department of Agriculture "for such action as the Department of Agriculture sees fit". Mr. Farmer stated that following a discussion with the Secretary he had discussed the handling of these complaints with officials of the Department with the result that he now recommended to the Board that in forwarding the complaints to the Department that the Club clearly indicate the action that it wished taken. Following discussion it was regularly moved by Mr. Monaghan, seconded by Mrs. McColl:

"THAT, we request the Chief Registration Officer of the Department of Agriculture to take appropriate action under Section 17, sub-section 1 (e) of the Live Stock Pedigree Act, 1949, with respect to the four complaints referred to in Item No. 2081." Motion carried.

2108 (2096). OFFICE OF PRESIDENT

Vice-President Farmer reported that in view of the situation that existed with regard to the office of President following December 31st, 1951, he had, on January 1st, addressed a letter to all members of the Board requesting that each submit the name or names of any member or members that they would like to be considered for appointment to fill the vacancy in the office of President. He expressed the view that early action in respect to the appointment of President was highly desirable for the reasons that: (a) the newly appointed President be in a position to attend the Annual Meeting of the Board and the Annual General Meeting; (b) the new President should have ample opportunity, before the annual meetings, to study all matters requiring the attention of the Board at its annual meeting and all matters requiring the attention of the members at the annual general meeting and be in a position to suggest policies and procedures for the consideration of the Board and members. Mr. Farmer stated that all members of the Board had not specifically named one or more members for considera-

tion as possible appointment to fill the vacancy and asked whether any member of the Board present, who had not specifically named one or more members, would now care to do so.

After discussion it was agreed that communications received from members of the Board be now read.

Vice-President Farmer suggested that in tabulating votes expressed that the following be not considered as having expressed a specific preference in respect to the appointment of President: Mr. MacKendrick, Mr. Biggar, Mr. Back and Mrs. McColl.

In tabulating the first choices indicated by the foregoing expressions of opinion, it was agreed that the communications received indicated that six members of the Board favored the appointment of Mr. William H. Pym and three members of the Board favored the appointment of Mr. J. J. Farmer. It was also agreed that of the members of the Board who had indicated a second choice, two favored the appointment of Mr. Pym and two favored the appointment of Mr. Farmer.

The Secretary read a telegram received from Mr. William H. Pym reading as follows:

"DO NOT CONSIDER ME A CANDIDATE FOR THE OFFICE OF PRESIDENT."

Mrs. McColl stated that her reference to the Board following the usual procedure in filling vacancies on the Board meant that the Vice-President should be appointed to fill the office of President, and the office of Vice-President should be filled by moving up the member elected to the office of Second Vice-President. She pointed to the practice of Boards in the past when filling any vacancies for the office of a Director in the Province of Ontario, in that the Board appointed the member having received the next highest vote on the ballot. Mr. Monaghan stated that Section 4 of Article IX did not require the Board to fill the vacancy in that manner. Mr. Farmer stated that with Mr. Pym declining to accept an appointment, no member presently had received a majority vote of the Board.

Following discussion, the Secretary was directed to get in touch, by telephone, with Second Vice-President Williams and Directors Irving and Biggar and inform them of the tabulated votes received and to secure their views on the action that should be taken. The matter was left for further consideration later in the meeting.

2113 (2085). RECORDS OFFICE SERVICES AND COSTS ARTICLES OF AFFILIATION

Mr. Farmer briefly related the purpose of the meeting held at Ottawa on November 9th with regard to Records Office services and costs and suggested that this important matter be referred to the annual meeting of the Board. The matter was ordered held over for the full Board's consideration and action.

2114 (2087). STUD BOOKS

Mr. Farmer reported that information received indicated that the Department of Agriculture was making representations to the Bureau of Animal Industry at Washington with regard to acceptance of micro-film records in lieu of printed stud books, and that in the event micro-film records were not acceptable, early action on supplying the Bureau with the information in typewritten or printed form would appear to be necessary if continued duty-free entry of pure-bred dogs into the United States was to obtain.

It was agreed that this matter be placed on the agenda of the annual meeting of the Board, and in the meantime the Vice-President would endeavour to learn of the status of the representations being made to the Bureau.

2115 (2091). EXPENDITURES AND FINANCIAL MATTERS

The Secretary reported on the following expenditures made during December (other December expenditures previously approved):

| | |
|---|------------------|
| Salaries (additional) | \$ 4.00 |
| Identification refund | .75 |
| Show Accounts (refunds) | 36.25 |
| Addressograph Plates | 4.70 |
| Office Supplies | 288.24 |
| Bank Charges (exchange) | 6.76 |
| Insurance (fire—three years) | 283.50 |
| Interest on loan | 46.85 |
| Engraving Certificates | 52.65 |
| Telegraphs | 5.19 |
| Maintenance Costs | 6.00 |
| General Expense (re referendum ballots) | 56.20 |
| | \$ 731.09 |

The Secretary reported on the following known expenditures for the month of January:

| | |
|--|-------------------|
| Salaries (Toronto—CKC) | \$1,509.20 |
| Rent | 365.00 |
| Advances on Travelling Expenses (re annual meetings) | 1,050.30 |
| Postage on Members' Copies (January Issue) | 61.42 |
| General Expense | 11.65 |
| Office Supplies | 73.40 |
| Printing | 55.15 |
| | \$3,126.12 |

DOGS IN CANADA

| | |
|-------------------------------|-------------------|
| Salaries | \$ 368.00 |
| Rent | 35.00 |
| Editor's Car Allowance | 20.00 |
| Postage—January Issue | .51 |
| Engraving | 21.87 |
| Printing (Misc.) | 13.50 |
| Books Bought for Resale | 19.18 |
| Telegraphs | .55 |
| Printing January Issue | 848.99 |
| | \$1,327.60 |

It was regularly moved by Mr. MacKendrick, seconded by Mr. Getty:

"THAT, the expenditures reported by the Secretary be approved." Motion carried.

Mr. Farmer referred to the Board's earlier action on four small amounts transferred from "accounts receivable" to "subscriptions" (see item No. 2103), and suggested the setting up of a "suspense account" where such funds could be held pending distribution to the proper accounts.

It was regularly moved by Mr. Back, seconded by Mr. Getty: "THAT, funds received for unspecified purposes be temporarily placed in a 'suspense account', to be held there until distribution to proper accounts is possible; the bookkeeper to be accountable (by names and amounts) to the auditors for any balance in this account." Motion unanimously carried.

Mr. Monaghan referred to the resolution adopted at the last meeting of the Board with regard to signing officers and enquired whether any of the four (President, Vice-President, Second Vice-President and Secretary-Treasurer) are presently bonded by the Club. The Board was informed that the Secretary-Treasurer was the only one bonded by the Club. Mr. Monaghan suggested that the Board should require that at least one of the two persons signing cheques on behalf of the Club should be bonded. Following discussion it was agreed that both the President and Secretary-Treasurer should be bonded and that all cheques must be signed by either or both the President and Secretary-Treasurer.

It was regularly moved by Mr. Monaghan, seconded by Mr. MacKendrick (in the resolution which follows, The Canadian Kennel Club Inc. is referred to as "THE COMPANY"):

"THAT, A Bank account shall be kept at the Branch of the Bank of Montreal at Bloor and Bay Streets Branch, Toronto, Ontario, and elsewhere as the Directors may from time to time determine.

2. That the following regulations apply to all accounts kept with the Bank of Montreal at any branch: (a) The President and Secretary-Treasurer (OR, the President or Secretary-Treasurer AND Vice-President or Second Vice-President) shall have full power, for and in the name of the Company, to make arrangements or agreements with the Bank or its officers as to advances and loans, including overdrafts, to or for the Company, and to manage, transact and settle all manner of banking business whatsoever, and to adjust and settle accounts between the Company and the Bank at any Branch of the Bank where the Company may keep an account. (b) Any cheque, promissory note, bill of exchange or other negotiable instruments, or any bill of lading, warehouse receipt or security given under the Bank Act, or other law authorizing the giving of the same, made, drawn, accepted, endorsed or executed, in the name of the Company, and signed by, or if necessary or convenient sealed and attested on its behalf by the President and Secretary-Treasurer (OR, the President or Secretary-Treasurer AND Vice-President or Second Vice-President) shall be binding upon the Company. (c) That the President, Secretary-Treasurer, or either of them shall have the power to arrange, settle, balance and certify all books and accounts between the Company and the Bank and to receive all unpaid cheques and other vouchers, unpaid and accepted bills of exchange and other negotiable instruments, and any one of them may by writing, to be filed with the Bank, from time to time delegate this power to some other employee of the Company.

3. The signature of the President or Secretary-Treasurer upon any Bill of Exchange payable to said Bank purporting to be drawn by the Company, upon any customer thereof or upon any other person, shall be sufficient to bind the Company; and the endorsement upon any other person, shall be sufficient to bind the Company; and the endorsement upon any cheque or other negotiable instrument for deposit in said Bank to the credit of the said Company shall be binding on the Company, if signed by either the President or Secretary-Treasurer or stamped by a rubber stamp or other device, and every such signature and stamping are hereby ratified and it shall not so far as effects the responsibility of the Company be material in any case whether in fact the said signature shall have been made or stamp or other device affixed by a person duly authorized.

4. That a certified copy of this Resolution be handed to the Bank of Montreal for its guidance and information in the premises, and that the Company undertake that this Resolution shall be irrevocable until a Resolution abrogating the same shall have been passed, and a copy thereof, duly certified under the seal of the Company, delivered to the said Bank at each Branch where such account shall be kept."

Motion unanimously carried. It was regularly moved by Mr. Monaghan, seconded by Mr. MacKendrick:

"THAT, the terms of the resolution adopted at this meeting in respect of the Club's bank account with the Bank of Montreal shall apply also in respect of the Club's Bank account with the Imperial Bank of Canada at Ottawa."

Motion unanimously carried.

2116 (2092). APPLICATION FOR MEMBERSHIP

It was regularly moved by Mr. Back, seconded by Mr. Getty: "THAT, the applications for membership reported by the Secretary be approved."

Motion carried. It was agreed that pending the setting of a policy by the Board at its annual meeting, the Secretary is empowered to approve applications on behalf of the Board and return such approved applications to the Live Stock Records office in order to expedite the clearance of applications being held in abeyance pending approval of applications for membership.

2117 (2093). APPLICATIONS FOR KENNEL NAMES

The Secretary reported that applications for registration of the following kennel names had been received, notice of such applications had been published in the December issue of DOGS IN CANADA, and no objection had been received to any of these applications:

CRAIGENGOWER—W. M. McIlwraith, Charleswood, Man.

DEL MEYER—Mr. & Mrs. W. Cox, Roseland, Ont.

HER-DO—Mr. and Mrs. H. J. Lovejoy, Hamilton, Ont.

ISKA—Herbert A. Phelps, Richmond Hill, Ont.

WAG'N WOOF—Mrs. Percy G. Burns, Middleton, N.S.

It was regularly moved by Mr. Monaghan, seconded by Mrs. McColl:

"THAT, the applications for registration of kennel names reported by the Secretary be approved."

Motion carried. The Secretary reported that Reginald J. Thomas, Toronto, Ont., had applied for registration of the kennel name LYNNHAVEN.

that notice of such application had been published in the December issue and an objection had been received from Mrs. Dorothy R. Vaughan (kennel name VAUNHAVEN). In discussing Mrs. Vaughan's objection the Board agreed that there was sufficient difference between LYNNHAVEN AND VAUNHAVEN to justify approval of Mr. Thomas' application, and directed the Secretary to consider Mr. Thomas' application as one included in the list previously approved at this meeting.

2118 (2080). REGISTRATION COMMITTEE

The Secretary reported that it is customary for the Board, at its annual meeting, to appoint the Registration Committee, but advised that there were a number of files awaiting the attention of that Committee. Following discussion it was regularly moved by Mr. Monaghan, seconded by Mr. MacKendrick:

"THAT, the Vice-President, Mrs. McColl and Mr. Back be appointed the Registration Committee pro tem."

Motion carried.

2119 (2094). DATES, JUDGES, SHOW AND TRIAL MATTERS

The Secretary reported on the following applications for dates:

February 25th—Progressive Kennel Club of Canada (sanction show).

March 7th—Victoria City Kennel Club (ch. show).

March 7th—Greater Victoria Obedience Training Club (obedience trials in conjunction with Victoria City Kennel Club championship shows).

March 11th—Canine Breeders' & Exhibitors' Association of Canada (sanction show).

April 3rd—Scottish Terrier Club of Canada (specialty ch. show).

April 4th—Ottawa Kennel Club (two championship shows).

April 18th—Vancouver Island Dog Fanciers' Association (two championship shows).

April 25th—Moose Jaw Kennel Club (two ch. shows).

April 29th—Regina Kennel Club (two ch. shows).

May 2nd—Hub City Kennel Club of Saskatoon (two ch. shows—change from previously approved dates).

May 9th—Kent Kennel Club (ch. show).

June 1st—Drumheller Fish & Game Association (licensed trial for Retrievers and Irish Water Spaniels).

August 23rd—Central Canada Exhibition (ch. show).

September 20th—German Shepherd Dog Club of Canada (spec. ch. show).

It was regularly moved by Mrs. McColl, seconded by Mr. Back:

"THAT, the applications for show and trial dates reported by the Secretary be approved subject to the rules, regulations and conditions in effect at the time of each event, and conditional that: (a) each application complies with the applicable rules; and (b) the local provincial Director indicates approval for any application originating outside the province of Ontario."

Motion carried.

The Secretary reported that the Moose Jaw Kennel Club had enquired whether refund of date fees would be made in the event they were unable to obtain suitable building for their proposed shows. The Board agreed that if notice of cancellation of shows was received from the Moose Jaw Kennel Club before February 18th, date fees would be refunded.

The Secretary reported the following applications for approval of selected Judges:

CANADIAN NATIONAL SPORTSMEN'S SHOW—Ch. Show—

March 19th—20th:

(a) Mrs. Geraldine R. Dodge, Madison, N.J.—Beagles, Greyhounds, Whippets, Irish Wolfhounds, German Shepherd Dogs; Best in Show and other General Specials.

(b) Harry Lumb, Margate City, N.J.—All breeds in Group 4; Group 4.

(c) R. L. Patterson, Madison, N.J.—Griffons (WHP), All Pointers, Retrievers (Golden, Labrador), Setters (English, Irish), Spaniels (English Cocker, English Springer), Weimaraners; Afghan Hounds, Basenjis, Basset Hounds, Bloodhounds, Borzoi, Coonhounds, Deerhounds (Scottish), all Foxhounds, Harriers, Norwegian Elkhounds, Otter Hounds, Salukis; Group 3.

(d) Alva Rosenberg, Kew Gardens, L.I., N.Y. — Retrievers (Chesapeake Bay, Curly, Flat coated), Setters (Gordon), Nova Scotia Duck Toller Dogs, Rhodesian Ridgebacks, Tahltan Bear Dogs; all other Spaniels; all Dachshunds; all other breeds in Group 3; all breeds in Groups 5 and 6; Groups 1, 2, 5 and 6, and Obedience Trial.

CANADIAN NATIONAL SPORTSMEN'S SHOW—Ch. Show—

March 21st—22nd.

(a) Dr. J. E. Redden, East Longmeadow, Mass.—Griffons (WHP), Spaniels (American Cocker, Welsh Springer), all breeds in Group 2 except Afghan Hounds and Dachshunds; Boston Terriers; Group 2; Best in Show and other General Specials.

(b) William H. Pym, Vancouver, B.C.—Nova Scotia Duck Toller Dogs; Rhodesian Ridgebacks; Tahltan Bear Dogs; Afghan Hounds; Dachshunds; all breeds in Group 3 except Standard Schnauzers; all breeds in Group 5; all breeds in Group 6 except Boston Terriers; Group 3, 5 and 6.

(c) D. H. Tuck, Redding Ridge, Conn.—All other breeds in Group 1; Group 1.

(d) Thomas Keator, Hamburg, N.Y.—All breeds in Group 4; Std. Schnauzers; Group 4.

(e) Mrs. Mary Southcott, Cooksville, Ont.—Obedience Trial Classes.

COCKER SPANIEL CLUB OF CENTRAL ONTARIO —

Specialty Ch. show—April 11th.

(a) Dr. W. J. Westcott, Detroit, Mich.—All cocker Spaniels.

BARRIE KENNEL CLUB—Ch. Show—June 7th.

(a) Mrs. Marie Meyer Nolan, Milford, Ohio.—All breeds in Groups 1, 2 and 4; Groups 1, 2 and 4. Best in Show and other General Specials.

(b) Peter Smith, Long Branch, Ont.—All breeds in Group 3; Group 3.

(c) Mrs. Muriel Boughs, Toronto, Ont.—All breeds in Groups 5 and 6.

COLLIE & SHETLAND SHEEPDOG CLUB OF CANADA—

Sanction Show—Feb. 4th.

(a) H. S. Weller, Toronto, Ont.—All breeds in Group 3; Group 3.

(b) C. J. McGarry, Toronto, Ont.—All breeds in Groups 1 and 2; Groups 1 and 2.

(c) Reg. P. Sparkes, Toronto, Ont.—All other breeds and

groups; Best in Show and all General Specials.
ATLANTIC BEAGLE CLUB—Beagle Trial—April 22nd, 23rd—24th.

(a) Cliff Cottrell, Walpole, Mass.—All classes.

Mrs. McColl stated that before the Board approves judges for championship shows to be held after April 6th, the Board should know whether the members had by majority vote on referendum ballot, approved any of the proposed amendments with regard to judges, and enquired when the results of the referendum ballot would be made known. Mr. Farmer stated that as Vice-President, he had no power to direct that any particular action be taken with regard to the referendum ballot. Mr. Monaghan stated that the Club's By-laws provide that the report of the Election Commission on the balloting on proposed amendments shall be placed before the next following annual general meeting of the Club.

Following discussion it was regularly moved by Mr. Monaghan, seconded by Mr. MacKendrick:

"THAT, providing such applications comply with the existing rules, the applications for approval of selected judges submitted by the Canadian National Sportsmen's Show, the Collie & Shetland Sheepdog Club of Canada and the Atlantic Beagle Club be approved; and the applications for approval of selected judges submitted by the Cocker Spaniel Club of Ontario and the Barrie Kennel Club be approved conditional that the Dog Show Rules in effect on and after April 7th, 1952, are fully complied with."

Motion carried.

Mr. Farmer referred to "application for judge's license form" approved by the 1951 Board, and suggested that while the form approved by the Board had been set in type, it should not be printed until the present Board had approved the form or authorized any changes, depending on any amendments that may have been approved by majority vote on the referendum ballot. After discussion, it was regularly moved by Mrs. McColl, seconded by Mr. MacKendrick:

"THAT, a copy of application for judge's license form be supplied to each member of the Board in order that they may have time to study and amend the form of application also the machinery set up for judges licenses and fee should the amendments affecting this carry on the referendum ballot."

Motion carried.

The Secretary was directed to inform the Ottawa Kennel Club that their selection of Mr. Sparkes had been approved.

The Secretary read a letter from the Hub City Kennel Club of Saskatoon enquiring whether it would be permissible to use cards, on the back of rosettes, on which would be set out information required by the Dog Show Rules. Following discussion, the Board agreed that it could not authorize any type of ribbon or rosette contrary to the requirements of the Dog Show Rules.

The Secretary read a letter from Dr. T. W. Hawke, Show Superintendent of the Northumberland & Durham Kennel Club, with regard to the award of Best Canadian-bred in Show at its championship show held on August 4th, 1951. In the discussion which followed the Board noted that the Canadian-bred English Springer Spaniel which had placed second in the Sporting Group had not competed for the award of Best Canadian-bred in Show, and that the American Cocker Spaniel which had received that award had apparently been shown in the belief that the dog was eligible to compete because of the absence of the English Springer Spaniel. Following discussion, it was regularly moved by Mrs. McColl, seconded by Mr. Back:

"THAT, in view of the fact that the dog (American Cocker Spaniel CH. SON-O-JIM OF AYR) was allowed to compete in the absence of the English Springer Spaniel, that this award be allowed to stand, but the show-giving club be reprimanded for allowing an ineligible dog to compete for this award."

Motion carried.

2120 (2058). APPLICATIONS FOR HANDLERS' LICENSES

The Secretary reported that the following had submitted application for renewal of handler's licenses:

(1) Mrs. Pamela B. Mack, Dorval Station, Que.—All breeds.

(2) Robert J. Walgate, Buffalo, N.Y.—All breeds.

(3) Miss Shirley Stone, Detroit, Mich.—Brittany Spaniels and all breeds in Group 5.

(4) Daniel James, Stratford, Ont.—All breeds.

(5) Lee S. Wade, Cleveland, Ohio.—All breeds.

(6) Lorne Moore, Ottawa, Ont.—All breeds in Group 1.

Mr. Farmer suggested that before any new licenses are issued, or before there is any renewal of a license which covers additional breeds, the Professional Handlers' Association of Canada be asked for a recommendation.

2121 (2088). DOGS IN CANADA

Mrs. McColl referred to correspondence with Director Mrs. Margeson with regard to "Maritime Notes", and sought a ruling as to whether the Editor had the right to cut provincial notes to fit space available, and whether the Editor had the right to require that all notes submitted must bear the signature of the person responsible for such notes, and whether published notes should indicate the name of the author. Following discussion, it was regularly moved by Mr. Back, seconded by Mr. Monaghan:

"THAT, the Managing Editor has the right to cut the material to fit space in the magazine, and also to demand articles sent in be properly signed by the parties responsible thereto, and therefore the Editor be authorized to advise Mrs. Margeson of the Board's decision."

Motion carried.

2122 (2098). CHRISTMAS BONUSES

The Secretary read letters from the staff expressing appreciation to the Board for the Christmas bonuses authorized by the Board.

2123. FOXHOUND FIELD TRIAL RULES

Mr. Monaghan served notice that at the next meeting of the Board, he would propose:

"THAT, a special committee be appointed to draft rules for Foxhound Field Trials, the committee to meet with a representative group of Foxhound trial fanciers for full discussion, the committee to submit their report in time for discussion at the September meeting of the Board."

2124. (2065) MEMBERSHIP OF THOSE WITH OVERDUE ACCOUNTS

The Secretary reported that he had, as directed by the Board, consulted the Club's solicitors with regard to the right of the Board to refuse renewal of membership of any person having an overdue advertising account with DOGS IN CANADA. The Secretary read a letter from the Club's solicitors who expressed the opinion that "It is not open to the Directors to refuse renewal of membership fee or to impose a condition that membership cannot be renewed until the advertising account is paid."

No action was taken.

2125 (2108) OFFICE OF PRESIDENT

The Secretary reported on the following telephone conversations with Mr. Williams, Mr. Irving and Mr. Biggar:

1. Mr. Williams was of the opinion that appointment of President should be left for the consideration of the Board at its Annual Meeting, and that in the meantime, the Vice-President should carry on and exercise the powers of the President as provided in the Club's By-laws.

2. Mr. Irving expressed the view that with Mr. Pym declining the appointment, Mr. Farmer should be appointed President.

3. Mr. Biggar was of the opinion that appointment of President should be left for the consideration of the Board at its Annual Meeting, and that in the meantime, the Vice-President should carry on and exercise the powers of the President as provided in the Club's By-laws.

Mr. Back and Mr. Getty expressed the opinion that Mr. Farmer should be appointed as President. Mrs. McColl referred to her earlier suggestion that the past procedure be followed and that Mr. Farmer be moved up from the office of Vice-President to fill the office of President. Mr. Farmer left the meeting at this time and Mrs. McColl occupied the chair.

Following discussion, it was regularly moved by Mr. Monaghan, seconded by Mr. Getty:—

"THAT, a copy of all communications relative to the matter be sent to each member of the Board with a request that they vote 'Yes' or 'No' in respect to the appointment of Mr. J. J. Farmer as President of the Club."

Motion unanimously carried.

The Secretary was directed to ask that all members of the Board vote by return mail, the Board feeling that an early decision on this matter is imperative so that plans for the Annual Meetings could proceed.

2126. AGENDA FOR ANNUAL MEETING OF BOARD

Mrs. McColl suggested that each member of the Board be provided with an agenda of the annual meeting of the Board as soon as possible before the meeting. The Secretary stated that he would endeavour to provide the Board with as much information on important matters as far in advance of the meeting as possible.

2127. ADJOURNMENT

On Motion of Mr. Back, duly seconded and carried, this meeting of the Board adjourned at 9.05 P.M., to reconvene at the call of the Vice-President in the event the Vice-President felt that a further meeting of the Board was advisable before February 4th.

Results of Referendum Ballot

For the information of all those members interested in the results of the referendum ballot on proposed amendments, upon which balloting took place coincidental with the balloting of the election of Officers and Directors for 1952, there follows a summary of the results of the balloting on each proposed amendment. In each case, the number of the proposed ballot corresponding with the number published in the ballot is stated, along with a brief description of the subject of each proposed amendment.

It should be noted that no amendment to the By-Laws is effective unless or until approved by the Minister of Agriculture for Canada. When approved by the Minister of Agriculture, an amendment to the By-Laws is effective immediately. Announcement will be made in DOGS IN CANADA of any amendments to the By-Laws which receive Ministerial approval.

The By-Laws of the Club provide that amendments to dog show, field trial and obedience trial rules become effective sixty days after the annual general meeting, which was held on February 6th, 1952. Copies of the amendments to the rules, which come into effect on April 6th, 1952, will be available in the very near future to Clubs and individual persons desirous of obtaining full information regarding the amendments.

Certain of the approved amendments to the Dog Show Rules will not come into effect immediately on April 6th, but will come into effect on a date to be announced later. For example, the plans for the implementing of the new procedure on licensing or approval of judges must be made and the procedure set-up to carry out the terms of that amendment and of the amendment regarding payment of the judge's license fee. Until those plans are formulated and procedures placed into effect, the existing rules relating to approval of judges continues in effect. Further information in this connection will be published in a later edition of DOGS IN CANADA.

| Proposed Amendment Number | Subject of Amendment | Number of "YES" "NO" Votes Votes |
|---------------------------------|-------------------------|--|
|---------------------------------|-------------------------|--|

PROPOSED AMENDMENTS TO THE BY-LAWS

| | | | |
|----|---|-----|-----|
| 1. | Employees of the Club ineligible for membership, but may register, transfer, etc. at membership rates | 368 | 112 |
| 2. | Employees ineligible to nominate, be nominated, stand for election or be elected Officer or Director | 368 | 107 |
| 3. | Secretary-Treasurer and Managing Editor not removable except by majority affirmative vote of members on referendum ballot | 243 | 237 |

| | | | |
|-----|---|-----|-----|
| 4. | Separate detailed financial statements for subsidiary departments such as official organ and award recording departments | 380 | 79 |
| 5. | Club shall publish official organ | 370 | 112 |
| 6. | Change name "Staffordshire Bull Terrier" to "Staffordshire Bullterrier" | 174 | 146 |
| 7. | Change name "Staffordshire Terrier" to "American Bullterrier" | 73 | 246 |
| 8. | Combining "Bull Terriers (White)" and "Bull Terriers (Colored)" to "Bull Terriers" | 219 | 123 |
| 9. | Increasing registration, transfer and other fees | 217 | 302 |
| 10. | Board no power to amend fees or institute new fees | 378 | 104 |
| 11. | Secretary to acknowledge proposed amendments; delete provision for Board suggesting changes to proposers | 340 | 125 |
| 12. | Referendum ballot to show names of proposers of amendments | 376 | 91 |
| 13. | Delete By-Law re discussion of amendments at annual general meeting | 282 | 140 |
| 14. | Application for Ministerial approval of amendments to be made immediately following receipt of Election Commission's report on voting on amendments | 344 | 109 |
| 15. | Required resignation of Officer or Director no longer eligible to hold office by reason of amendment to By-laws | 375 | 94 |
| 16. | Sponsors of amendments to be notified of results of balloting on their proposed amendment | 202 | 159 |
| 17. | Correcting number of "Repeal" By-law | 249 | 47 |

PROPOSED AMENDMENTS TO THE DOG SHOW RULES

| | | | |
|-----|--|-----|-----|
| 18. | Combining "Bull Terriers (White)" and "Bull Terriers (Colored)" to "Bull Terriers" | 236 | 117 |
| 19. | Change name "Staffordshire Terrier" to "American Bullterrier" | 79 | 246 |
| 20. | Change name "Staffordshire Bull Terrier" to "Staffordshire Bullterrier" | 143 | 154 |
| 21. | Permissible to select Best Canadian-bred in each breed and/or group | 359 | 108 |

| | | | |
|-----|---|-----|----|
| 57. | Automatic adoption of AKC Obedience Trial Rules except for amendments approved by CKC members | 236 | 38 |
|-----|---|-----|----|

When a resident of Canada is taking a dog or dogs from Canada to the United States for show purposes, it will expedite his return to Canada if he obtains Form Y-38 from the Canadian Customs, completes it, and has it signed and stamped before departure.

He, of course, must be prepared to positively identify his dogs and must comply with the requirements concerning rabies.

Exports

THE number of registered dogs exported from Canada in 1951 represented a fair percentage of the dogs registered last year. Of 962 registered dogs exported, 943 went to the United States, two to South America, five to Mexico, seven to the British West Indies, two to Cuba, two to Spain and one to South Africa. If France was not represented in last year's list, it will appear in the 1952 list, for on January 16th Mr. and Mrs. DeForest Simmons, Highland Creek, Ont., shipped the three and one-half pound steel blue and tan Yorkshire Terrier "Billie My Boy of Highland" to Madame Martin-Montez who was vacationing at Biarritz. Billie's three-stage trip, entirely by air, was by way of New York and Paris.

Changes in Dog Show Rules

A NUMBER of important amendments to the Dog Show Rules of The Canadian Kennel Club come into effect on April 6th, 1952, and apply to shows to be held after that date. Show officials, judges, handlers, and exhibitors would be well advised to note these changes, some of which are as follows:

1. It is now permissible for a show-giving club to arrange for the selection of Best Canadian-bred in each breed and/or group in order to facilitate the subsequent selection of Best Canadian-bred in Show. The same applies to

Woof - Woof *

* A dog needs more than just a pat
To make his tail wag just like that.
He needs to feel the joy of health
To be his natural friendly self.

BOB MARTIN'S allow dog breeders to "put down" their dogs at show after show, always at the peak of condition. That's because BOB MARTIN'S provide a complete nutritional supplement of essential vitamins and minerals, to a formula evolved after extensive biochemical and veterinary research.

BOB MARTIN'S contain Vitamin D and calcium to ensure good bone and tooth structure, and to prevent rickets; Vitamins of the B group, a deficiency of which causes skin disorders, lassitude and loss of appetite; plus iron and other mineral elements to stimulate a rich, pure blood supply.

Give your dog BOB MARTIN'S daily. BOB MARTIN'S are back in Canada in popular powder form. Also available in handy tablets . . . from your druggist, department store or pet shop.

Best Canadian-bred Puppy. The rules do, however, require that where such selections are to be made, the show-giving club must clearly indicate in its premium list the procedure it proposes to follow.

2. Judges and exhibitors should carefully note the following additions to Chapter 8, JUDGES, of the Rules:

"SECTION 10. A judge shall not judge any dogs he has owned, conditioned, handled, sold, held under lease or boarded within one year prior to the date of the show at which he officiates as judge. This rule shall apply regardless of whether the judge benefited in any way from any of the aforementioned activities. It is the joint responsibility of the judge, and of the owner of the dog, to see that this rule is not violated. The Judge shall excuse the dog, entered in violation of this

rule, from the judging ring, and shall indicate in the judge's book why such action has been taken."

"SECTION 11. A judge shall not judge any dog, owned outright or jointly, by any person for whom he has handled a dog, whether for pay or not, within one year previous to the show at which he is to judge. Where a judge is aware that a violation of this rule is taking place he shall excuse a dog, entered in violation of this rule, from the judging ring and shall indicate in the judge's book why such action has been taken."

3. Professional handlers and exhibitors should note the following addition to Chapter 9, HANDLERS, of the Rules: "The Board of Directors shall have the power to cancel the wins earned at a show at which the dog was shown in the show ring by a person who, while

Care of the Female During and After Parturition

YOUNG bitches having their first litter of pups may become uneasy twelve or more hours before actual parturition begins. During this time they should be given a certain freedom—that is, a large pen, or better still, a room to move around in. Provide some newspaper or a clean sack which is often torn up and arranged as a bed. Novice owners often get alarmed during this period, as the female may make a great fuss—sometimes becoming quite hysterical. Watch her from time to time in order to ascertain when straining really begins. It is then advisable to make an examination of the vagina and os in order to be certain that events are proceeding normally. Give her plenty of time. There is no need to interfere so long as the pup remains in the uterus and straining is not severe. The periods of straining will come on gradually, being at first slight with perhaps half an hour or more between. As time goes on, straining will become more frequent with intervals of about ten minutes between spasms which may last perhaps a minute. At this stage look for the birth within half an hour. The straining should be well marked at this time and spasms will be frequent and severe. If after half an hour no pup is delivered, make another examination to find out for certain if the pup is being presented in a normal

manner. A large percentage of pups are presented breech first and will be delivered just as well as head presentations. If after several hours the straining is slight with long intervals between, examine, and if the os is open

(in which case the pup can be felt with the index finger), it may be deemed advisable to give an injection of pituitrin, 2 c.c. is about the correct dose for a 25-lb. bitch. Give this in two situations to avoid the possibility of absence formation. Fifteen minutes after the pituitrin is given marked straining should begin, and if the procedure is successful, birth should take place within half an hour or so. If this treatment fails, decide shortly whether a Caesarian operation is indicated. Be careful in the use of instruments on a living pup. It is often best to operate and so save all the pups alive.

As the pups are born remove them from the bitch, leaving her just one. Place the others on a warm pad until all are born. New-born pups will stand a lot of heat, and will keep quiet if quite warm. After all the pups are born, wash off the bitch and give her a dry bed. A sack tacked down to the floor is best. The pups are often restless for some twelve hours or so after which time they should settle down and be quiet. If, however, they persist in crying, place an electric pad under the sack as they may be cold. Sometimes the flow of milk does not begin for some hours in which case keep the pups warm and give the bitch plenty of liquid food. The pups require but little milk for the first hours of life. They must, however, be kept warm—that is the floor should be warm.

After parturition is over the bitch herself should settle down and stretch out so as to give the pups a chance to suckle the glands properly. If she

Hail! Hail! The Gang's All Here!

FOR YOUR PET ... BETTER GET
DR. BALLARD'S
 DOG & CAT FOODS

refuses to stretch out and persists in sitting up, it is often a sign of uterine irritation, perhaps a retained placenta. Examine for this and irrigate uterus to remove the retention. It is often well to place a clean sheet of newspaper under the bitch and to watch this for signs of discharge, which if green and offensive, is a sign of retained placenta. The discharge in a case of metritis is often profuse and blood-stained. Where irritation of the uterus is maintained, the bitch is restless and the pups suffer. Irrigate the uterus with plenty of warm normal saline solution every six hours until discharge ceases and temperature returns to normal.

Feed the bitch, for a few days, mostly on liquid food such as milk, raw eggs and a little meat, after which time she may be brought back to her regular ration. Feed a nursing female three times a day. Give plenty of food and increase the quantity, if required, as the flow of milk increases. Bitches should not fail when nursing pups if fed properly. Some individuals will fail in spite of careful feeding and attention.

Book Review

THE DOG IN ACTION—by McDowell Lyon, published by Orange Judd, New York

HERE, in the layman's language, is the story of the dog's anatomy and locomotion, so plainly and so interestingly told that all can understand and enjoy it.

What actually happens when a dog walks, trots, gallops! Why does one dog

place his feet in a certain way while another travels differently! This dog is tall and slim, that one short and plump—how does build affect movement! Are cow hocks and bowed forelegs right or wrong, and what is the fundamental truth about single tracking! What is the meaning of shoulder blades well laid back, and how does this angle influence the stride! Padding and pounding, what are they!

These things and hundreds more the author explains carefully, accurately, so that every owner may learn what makes his dog tick and ever afterward appreciate all the more the wondrous mechanism of our friend the dog.

Breeders will find this volume indispensable in the selection of their stock. Judges will find it helpful in the interpretation of standards as well as in the show-ring appraisals. Artists, too, may depend upon it as an infallible guide to dog stance and movement.

The research and experience necessary for the writing of such a book has entailed a labor of more than twenty-five years. Equally at home with horses and dogs, the author has enjoyed a lifetime of intimacy with both. He has been a jockey, a breeder, a newspaperman, a judge and reporter of field trials,

and obedience training addict and a devotee of Whippet racing.

Active participation in these related activities has given the author ample opportunity to test and apply at first hand the theories of locomotion as operative on all kinds of modern pure-bred dogs.

Book Review

THE BOXER—by John P. Wagner, published by Orange Judd, New York

FOR the man, woman or child who wants an all-round dog, the Boxer has no equal. No other dog is more individual in appearance, more keenly intelligent or sanely even-tempered. A vital dog, a great character, a magnificent friend. The author is a man who breathes optimism in every breath, who loves dogs above personal preference, and has made a study of the problems of successful breeding and management of Boxers for many years. He stands today, the greatest authority of the breed, and the information contained in the book is therefore reliable, definite, up-to-date and comprehensive. It will prove especially valuable to all breeders as a handy reference book whether they keep a single dog or keep many.

The value of the volume is enhanced by a remarkable lot of drawings and photographs, about 150 in number, assembled over a period of many years. Many of them are full page in size, including old and rare illustrations together with a large number of new pictures of famous modern dogs, bringing the illustrations down to the present period.

Provincial Notes and News

B.C. Mainland News

by Jean Fletcher

MISS Winnie Dorchester phoned to say her German Shepherd DOCTOR OF LONGWORTH has completed his American Championship which makes him an international champion now. DOCTOR OF LONGWORTH is also doing well at obedience trials. At his last American show, he was Best of Breed and Second in Group.

Congratulations also to Mrs. J. Roberts whose English Cocker (Black) INKY OF ABBOTSFORD went Best of Breed at the Golden Gate show in Frisco and repeated this win at Seattle.

Mrs. Bob Hatley, an old time Wire breeder, phoned to say Mary Pickford is now getting around on crutches since her fall which broke her hip and pelvis, and we hope she will soon be herself again. Bob Hatley is also progressing nicely after his accident last Fall.

Gladys Peers rang to say she had a phone call from Eileen McEckren telling about her nice wins in New York. At the Terrier Specialty Show held previous to the Garden's Show, CH. TAILTEAN PRINCESS JILL won the Bred by Exhibitor Class (10 entries), 2nd Open (25 in class) and Reserve Winners.

At the Garden's Show in New York, JILL was Winners bitch and Best Opposite Sex to Best of Breed. JILL is the dam of American Ch. Deed's Show Off.

We hear that Clyde & Purvis Ritchie are having a grand time at Palm Springs, California; also that Clyde is feeling her old self again.

Hope to have news next month of some Miniature Poodles being imported.

Maritime Notes

by G. G. Ryder

IT was my very great pleasure, in mid-January to receive news of Commander E. ST. J. Green, R.C.N. whom all my Maritime readers will remember from the time he resided in this province, and also when he was stationed here while serving with the Canadian Navy, as a most enthusiastic breeder and Club Member. During the latter part of his stay here, he became interested in Poodles, owning at different times, excellent specimens of both the Standard and the Miniature varieties. His dogs were always shown in perfect condition and put down to the last hair, for not only did he take care of the difficult job of trimming his Poodles, but he always handled them himself in the Show Ring. The Commander is now serving on the Staff of the Canadian Legation in Sweden at Stockholm, as Naval Attache. He tells us that he is fortunate enough to be able to run a small breeding kennel.

In 1949, Commander Green purchased from the well-known American breeder, Miss Ruelle Kelchner, a young Minia-

ture, "Hollycourt Pavot", a black bitch that he put through to her Championship in Canada, and also to some very good wins in the States, among them Winners Bitch at Westchester in 1950. Her owner very much regrets that he was compelled to leave Canada before he had a chance to finish her for her American Championship, for as I said before, he insists on preparing and showing his own Dogs. However, "Pavot" is now a Swedish as well as a Canadian Champion, having but little difficulty in overcoming all opposition in Sweden. I understand that, since going to Stockholm, she has had one litter, but unfortunately she lost all her puppies.

Commander Green gave me some most interesting facts about the "Dog Game" in Sweden, for instance, the Continental Rules seem to govern and sizes are different, Standards are over 45 c.m. (18 ins.), Mediums are 35 to 45 c.m. (14 to 18 ins.) and Miniatures are up to 35 c.m. (14 ins.), blacks, whites and browns are the only colours that are permitted, so silvers, blues and apricots and other shades, that at times are so very attractive, are barred. The profuse coats that we are used to are very rarely seen, instead the Poodles are trimmed right down with the hind-quarters shaven and the muzzles are adorned with mustaches, which detract from the beauty of the long foreface. Commander Green tells us that he has seen a number of excellent Pekes and Toy Spaniels but the Sporting Breeds predominate, and there are several that are known to us, among them, the Finnish Spitz, a charming yellow Dog built on small Elkhound lines, and also several breeds of Hound quite com-

EATON'S

For Show Needs . . . Visit

THE T. EATON CO. LIMITED

mon looking and light boned, also a breed of Trailing Hound that seems to have originated from a cross between a brown hound and a Dachshund. All the Non-sporting breeds are required to pass a character Test before attaining their Championship, the Test consists of walking at the side of the Handler, both on and off the lead, come when called, allow itself to be handled, and to show no sign of fear when a "Cap-pistol" is fired nearby or if the Judge shakes a handkerchief at it; her owner adds that "Pavot" passed these Tests without "Batting an eye" and it was very apparent that she considered that the man was quite mad. At the time of writing, Commander Green was contemplating flying to England to attend Cruft's Show and to visit some of the top Poodle Kennels, so I hope soon to have more news of this far distant Kennel.

I hear that Aubrey Cox, the owner of the "Armcrest" Kennels, Halifax, who has great regard for Black and Tans and of which variety he has bred several good ones, has recently imported from the Saint Andrea Kennels of Mr. and Mrs. Wise, of Vienna, Va., a very beautiful red bitch, "Jubilo Red Feather". This bitch was purchased in whelp to "Saint Andrea's Medicine Man", a proven sire of great promise. Aubrey is to be congratulated on his enterprise, and we wish him the best of luck with the resultant litter, may it contain that "all-conquering" Black and Tan that he is looking for.

Talking with the genial Edison MacNeill recently, I learned that their homebred Champion Penhorn's Son of Prophet, is still in the hands of that great Cocker Specialist, Clint Callaghan. This dog is to be campaigned for his American title, he has already two placings of Winners Dog under his belt. It is anticipated that he will be competing at Westminster, and his fortunes will be eagerly followed by his owners and many friends in the Maritimes.

Now, until next month, Cheerio and all the Best.

Saskatchewan News Notes

by Dr. H. L. Watson

THIS month's notes are written from Toronto—if they seem hurried, it is because they are written hurriedly and perhaps a little too close to the scene for proper perspective.

Your new Board had sat in continuous sessions for the best part of five

days and nights. Your new President is a young man—enthusiastic and eager as well as able. He has the support of the whole Board behind him. I think the signs for 1952 are hopeful. If you will read the annual financial report, you will see that we have made improvement there—slow but still improvement. This year will see many changes—we need changes, as do all organizations. We must be sure the changes come slowly and only after long and sincere consideration.

I have visited the offices of the Club and met the staff members. I have talked with as many breeders and members down here as I possibly could. I feel that these people down here appreciate what we are trying to do in Saskatchewan. They value our membership and they know we have a great contribution to make. They are ready to consider our viewpoint at all times. This is one of the most encouraging side-lights on the past week's operations.

Your new provincial Advisory Board is made up of Mr. Bill Semple and Mr. Jerry Storey of Regina, Mrs. Pat Randall of Saskatoon, Mr. R. G. Boughton of Moose Jaw and Dr. Rising-Moore of Prince Albert. You will notice that each of these members represents one of the centres in the Province in addition to representing a considerable number of years of experience and "know-how" in the dog game. I cannot impress upon you, each of you, too strongly the importance of this Board in the conduct of the affairs of C.K.C. members in Saskatchewan. Get behind your local representative on the Advisory Board—give him or her your ideas and suggestions, your thoughts and recommendations, and in that way, we can be sure we are all pulling together for the general welfare of our members in the Province.

Another big step forward is the decision, which I heartily endorsed, to have a couple of pages in DOGS IN CANADA reserved for the comments and opinions of the members. Don't forget to get your letters in well under the deadline date. This page is NOT for complaints which should be made formally in the usual way. This page is for the exchange of ideas between and among the members. It is up to all of us to see that it is a success. If there are no contributions to these pages, they will not be reserved for us indefinitely. If you have something new in theory of breeding—if you have a suggestion as to how we can improve our dog shows—if you think you can

Tops in Quality, Nothing but the Best, Wait and See

give the other members any light on any of the problems facing the dog breeder and owner today—get them in. It's YOUR page. Use it.

The Prince Albert Club have sent in a most encouraging report. They already have a membership of forty-five and are still growing. They are planning a Sanction Show and are making progress toward field and obedience work. Their club is making an all-out effort to make their meetings educational and of assistance to their members. This is a terrific campaign for any club let alone a newly-formed one. If you have any suggestions or helpful ideas, send them in to Mr. Goddard, Secretary. He'll be glad to hear from you.

The Regina Club with its membership still growing are branching out too. In January they had the Chief Nutritionist of Canada Packers come down from Winnipeg to address them. They report a good turnout and a splendid lecture. In the fading days of the month, they held the first of what they hope will be annual affairs. This took the form of a banquet specially to honour Harry Brown, retiring President, whose hard work and great patience saw the Regina Club through many dark days. The affair was voted an unqualified success and much credit and congratulations go to the Committee in charge.

The Moose Jaw Club in the face of many discouragements and a sadly depleted bank account are forging ahead with their plans to join the Spring Circuit. One of the most encouraging sights in the present picture is the unfailing enthusiasm and good will of the Moose Jaw Club. They have not as many members as they would like—but those they have really work. Let's have a membership campaign in Moose Jaw—this Club deserves better than it is getting. In the meantime, we welcome them back to the Spring Circuit with the Regina Club. Next year it looks like an all-prairie circuit.

Sorry—no news from Saskatoon this month. What happened Hub City—snowed under with show work?

I think I can return to Saskatchewan with a feeling of a job well done. I can report that your office work is being done with great efficiency and with all the speed possible. The show reports and point filing are remarkable as is all the work entrusted to the C.K.C. I feel that your affairs are in good hands, and I am glad to be able to so report to you. Let me urge you again to get your reports in to me in good time. And to get those letters in to DOGS IN CANADA. Read your copy of the minutes of the Board meetings and Annual meeting carefully. A great deal of invaluable information is contained there. Next month I shall have a couple of suggestions for you arising out of the Annual Meeting.

Manitoba Notes

by Suzanne Borse

ATEA was held at the home of Mrs. J. Low where friends gathered to present Mrs. Garry Herald with a variety of gifts and sincere good wishes for a new start in her new home. A very entertaining evening was enjoyed; delicious hot meat pies were served, a creation out of Mrs. Low's oven. The Herald's lost their all in a recent fire which burned their home to the ground, and this friendly gesture was very much appreciated.

Officers elected for the Cocker Club for '52: President, Mrs. Harry Baker; 1st Vice-President, Mr. A. Williams; 2nd Vice-President, Mr. J. Kissel; Secretary, Mrs. J. R. Crombie; Assistant Secretary, Mrs. G. Morrison; Treasurer, Mrs. L. Willing, Mrs. J. Kissel, Social Convener. A social evening was held at Mrs. Baker's home with a very nice turnout. They found this a very nice way to get acquainted with their new members.

Fort Garry Kennel Club's Officers for '52: President, Mr. Roy T. Borse; 1st Vice-President, Mr. Carl Tangstad; 2nd Vice-President, Mrs. J. Smith; Secretary-Treasurer, Mrs. J. Gove; Assistant Secretary, Miss Phyllis Allen—also Club Topics Editor. Executive Committee—Mrs. Roy Borse, Mrs. T. Eamens, Mrs. G. Clements, Miss Phyllis Allen, Mr. Bill Nixon, Mr. J. Valenti, Mr. W. Trevenen.

Officers elected for the Greater Winnipeg Ladies Kennel Club for 52: President, Mrs. Jean N. Hough; 1st Vice-President, Mrs. T. Eamens; 2nd Vice-President, Mrs. C. B. Simpson; Secretary, Mrs. J. F. Kerr; Treasurer, Mrs. Roberta M. Jopling. Mrs. Kerr reports that plans are well on the way for their all-breed championship shows, May 23-24th. Their choice of Judges: Mr. Arthur Wright of Vancouver and Mrs. Alva McColl, of Toronto.

Well folks, the Ladies Club are doing their part and should have your whole-hearted support. So start your grooming now and let's all get our dogs in there. Lets make it a big show!

A COURSE OF RADIOL

DOES A WORLD OF GOOD

Is your dog as fit as he can be? A course of massage with Radiol will brace the muscles and tendons, dispel stiffness and give tone to the body. Radiol is effective, too, for many canine ailments—swellings, inflammation, bruises, strains, sprains and soft enlargements. When used as a wash it makes an ideal after-exercise restorative. Available from chemists and stores.

BONE-RADIOL — For more persistent cases and for "knocked-up toe". Bone-Radiol is recommended. Details on request.

FOR TOP QUALITY, INVEST IN THE BEST

Club Notes and News

Windsor Kennel Club

by Harold Wellwood, Jr.

WELL, our meeting in royal quarters was sure short lived for the Hotel folks had us shoved back between just plain four walls for the February session of the club. We should like to compliment our President, Tom Nichols, on his thoughtfulness in opening the meeting with a moment of silent prayer in memory of our late King.

As we promised last month, we asked Agnes Napier to release the names of the judges here on Sunday, May 11th. Adam Strauss, the current rave among those who do their campaigning in the Sporting and Toy groups, will do all those breeds in these two groups. John P. Hackett, who rates among the top veteran judges, will do everything else in the show except the Hounds. Judge for this group has not yet been definitely booked, however, Andy Buchmann, obedience, completes what appears to be a highly pleasing list of judges.

Just being a rookie in this dog game, one hears many things concerning the ruggedness of the sport, but after checking on our request for correspondence with the Simpsons of this city, we are taking lightly the many "gripes" that are so freely handed out. Yes, the Simpsons received a few thoughtful letters for which we are grateful, however, though, we were greatly moved with emotion on learning that one well known Collie breeder, with a real touching display of generosity, upon hearing of Mr. Simpson's love of a blue merle, sent a lovely merle bitch along as his part in brightening up the life of a former and kindly competitor. We hesitate to mention this good benefactor's name for fear of any embarrassment, however, we can assure him that his gift is appreciated more than words can describe. We met this little female and after the way we took to each other, it would have been no trouble to have walked away with her ourselves. She nestled and cuddled in a way that would have put some of Hollywood's best actresses to shame.

The big news that the A. R. Butchers held out on us last month is that they recently imported from the States, SYLVAN PARKE'S EARLE, a two year old red brindle Boxer who they are soon planning on campaigning on the

Canadian Circuit. Earle is from the Tulgey Wood Canyonair and Mazelaine lines, and already a proven sire, we are told.

The fellow taking the most ribbing around town these days is Dick Mitting. At the Progressive Dog Club puppy match in Detroit the last Sunday in January, Dick found himself in the ring with his 11 months old sheltie HILMAR'S TINY TIM competing for Best in Breed, and when he looked up at the end of the leash of his competition, there smilingly stood his good wife with 8 months old HILMAR'S

COVER GIRL. When the judge picked his Best in Breed, Dick was still looking up, and the "boss" was still smiling, only more so.

Since this same show, we have with natural fatherly pride, been sticking our chest out over the hit our youngest daughter, three year old Judy, made with the Detroit photographers. Judy has an uncanny way with dogs for a three year old. No dog, regardless of how big or small, quiet or overly ambitious, holds her any fear. We must have walked through the jam packed building on the State Fair Grounds at least a half dozen times so she could pat the dogs. Of the record 350 pups there, we'll swear the only ones she missed were the little toys in their "suitcases". A barking Shepherd or Dane becomes putty in her hands. Just a couple of light strokes under the chin and you'd wager that the silence Judy brings about could only be accomplished with the use of a sledge hammer. She first caught the eye of a Detroit Times' photographer while she was softening up a Chow. However, to make a long story short, the photographers were getting a kick out of her, and the following Sunday, her picture appeared in the Detroit Times with her own little Tri-colour Collie, 5 months old, Lady.

It is with regret that we report that Mrs. Walter Taylor our Schipperke fancier still remains on the absentee list due to a serious operation late this past Fall, but on the other hand, are pleased to announce that Mr. and Mrs. Willard Gordon, Pekingese and Chihuahuas, are back in the fold after a few years absence during which Mrs. Gordon served as an unwelcomed guest on the sick list.

Alberta Kennel Club News

by Dorothy Somerville

THE Club's Annual Dinner Meeting was held on the 13th of Dec. Many members and friends braved the wintry blasts to attend and enjoy themselves. Elections were held, and Mrs. Ida Garfin was again elected President by acclamation. Mr. W. W. Pratt was elected Vice-President, Mr. Bert Forrest as Second Vice-President. To the Executive were elected. Mr. T. Thomas, Mrs. Frances Lang, Mr. Vic Grainier, Mr. W. Cooke and Mr. S. Somerville. Our good friend and hard worker Mrs. Marion Morris once more our Treasurer, and yours truly again as Secretary.

R. G. DUDLEY 92 Pinecrest Road, Toronto 9, Ontario

Moving pictures were then shown, and our thanks to the Field Trial Club in Calgary for the loan of the pictures they have taken in the past years. They were very interesting to see, especially to those whom have never seen or attended a Field Trial. I have attended one and hope to take in some more in the future.

Mrs. Margaret Fawcett presented on behalf of the members a gift of silver forks to our President, Mrs. Ida Garfin.

Congratulations are offered to Capt. R. V. Hyde our former Secretary, on the announcement of his engagement to Miss Doris Norum. We understand the wedding is to take place early in April.

Many friends of Bobbie Thomson were very pleased to receive cards from him and know that he is coming along fine.

Plans are starting to move for our Spring Shows which are to be held on May 5th and 6th. Mr. Jack Anderson who does such a wonderful job as Ring Steward is again taking over the job for our Club. Mr. Doug Marchant is again our Show Supt.

Edmonton, Regina and Saskatoon are all in on the Spring Circuit, our best wishes for successful shows go out to these Clubs.

Very glad to know that Agnes Hammond is now living much closer to us. We have been out to her new place just on the outskirts of town, and it will really be a lovely spot for her Dachshunds.

We in Alberta were very pleased to hear that Mr. W. W. Pratt is again our C.K.C. Director.

Many members have caught the Flu bug, let's hope that all will soon be rid of it. The weather is not only bad here but all over. But we would like to see a few more out at the meetings.

Sarnia Kennel Club

by Phyllis Rawlings

THE monthly meeting of the Sarnia Kennel Club met at the Corp's Hall, Front Street, on Friday, January 25th, 1952. President, Mrs. Kay Barge, was in the chair. Due to the inability of the engaged speaker to be present, Mr. Horace Hollands, Port Huron, well-known handler, graciously gave a talk on the Boxer, two of the members, Mr. Charles Fischer and Mrs. Jean Scattergood, supplying the dogs. There was a question and answer period which was very much enjoyed.

Very shortly, Miss Faubert of Sarnia, the young lady to whom the leader dog had been allotted by the Kennel Club,

will be leaving for the Leader Dog Training School at Rochester, Michigan, where she will undergo training prior to taking over the dog. The club is very proud to have been able to help this very deserving young woman.

We are planning a dinner shortly when we hope to obtain a speaker, preferably on Boston Terriers. It is the hope of the Club this year to be able to furnish a speaker well known to the dog fancy at each of its meetings or some form of entertainment.

Our Annual Show is to be held May 10th, 1952, in the Sarnia Arena. All our members are putting their shoulder to the wheel to make it a bigger and better one than our initial show last year.

(A dog is loved by old and young. He wags his tail and not his tongue.)

THE SCOTTISH TERRIER CLUB OF CANADA

The German Shepherd Dog Breeders' Association

by Mary Hart

ON Thursday, January 17th, our Club's Annual Dinner and Dance was held once again at the Orchard Park Tavern in Toronto. Unfortunately, our "Shepherd" friends from Buffalo were unable to attend this year, but we were happy to have as our guests, Mr. and Mrs. Bruce McRae of Toronto and Mr. Anthony Sacco and Mr. Angelo Carry of Niagara Falls. During the evening, the remark was passed that if more of the Dog Clubs held a "get-together" like this once a year, there would be less unpleasantness during the rest of the year's activities. It's an excellent suggestion for those Clubs who haven't, as yet, tried it.

Our February meeting was held at the home of our very new and very active members, Mr. and Mrs. Heinz Hirsching. Our Secretary read a most interesting letter from a medical student in Munich who owns and judges Shepherds in Germany. He hopes to come to Canada in the near future to continue his medical studies and wanted information about Shepherd activities, breeding, training, etc. in this country. He enclosed pictures of two beautiful specimens of our beloved breed.

We are very sorry to have to announce that due to unforeseen circumstances, immediate plans for our Championship Show which was to have been held on May 3rd, have been cancelled. We are, however, carrying on with our same plans, judges, etc., at some future date.

BRITAIN'S CENTURY-OLD AID TO FITNESS NOW HAS ITS PLACE IN CANADIAN KENNELS

Bright eye, moist nose, shining coat and even temper are the results of regular weekly BENBOW'S. The natural oils and vitamins in this famous mixture make a dog a joy to behold. Wise British owners have trusted Benbow's for over a century. Now it is in Canada. In bottles and capsules at your store.

BENBOW'S DOG MIXTURE

London Canine Association

by Mrs. Alberta P. Haslett

WE had a very nice meeting called by our President, Mr. Wm. Cooper, on January 16th, 1952, with a good turnout. Much discussion took place of a helpful nature.

At this time the Election of Officers for 1952 took place. Mr. Wm. Cooper and Mrs. Alberta P. Haslett, who so ably occupied the President's and Treasurer's Offices for two years, declined renominations, owing to pressure of private affairs.

The Officers elected are: President, Fred Hessel; Vice-President, Fred Hollands; Second Vice-President, Lloyd Arnold; Secretary, Mike Nielsen; Treasurer, Mrs. Chas. Dark; Sergeant at Arms, F. Baker; Auditors, E. B. Nickols and K. Beattie. Executive Committee: Mrs. Alberta P. Haslett, Mr. Wm. Johnston, Mr. Wm. Cooper, Mrs. Fred Chapell, Mr. E. B. Nickols and Mr. Robert Revell. Press representative, Mrs. Alberta P. Haslett. Western Fair Representative, Mr. Fred Hollands.

This was the largest turnout for some time, and in this new year, I hope to regale you with a preview of future projects, programs, entertainments, etc.

Toronto and York Spaniel Club

by Marion Craig

ON January 17th there was a large gathering of enthusiastic breeders and exhibitors of Sporting Spaniels held in the Donlands Memorial Hall. After some discussion, it was decided that a club be formed to be known as The Toronto and York Spaniel Club. This club was organized with the object of promoting the betterment of the Spaniel breeds. Mr. Art Burden acted as Chairman.

Rhodesian Ridgebacks

Enquiries about these unusual and strikingly handsome sporting dogs are invited.

Reserve a champion-sired puppy now. Ready at Easter.

Outspan Kennels Reg'd.

DR. and MRS. D. LOTT Duncan, B.C.

Plans are underway to run a Specialty Show in conjunction with the Guelph Kennel Club all breed show to be held on April 19th at Guelph. An outstanding American judge has been secured for this occasion, which should warrant a large entry.

The future plans of this club are to secure prominent speakers who are authorities on such topics as breeding and genetics, feeding and nutrition, diseases, showing, handling and conditioning of dogs. This, we feel, should be of great interest to the fancy.

Lucky Charm Kennels Reg.

37 Castle Drive Sydney, N.S.

The following were elected to office: Mr. Art Burden, Honorary President, Mr. C. V. Canham, President; Mr. R. J. Austen, Vice-President; Mrs. M. Craig, Secretary-Treasurer; Directors: Mr. Stan Jones, Mr. R. Polson, Mr. K. R. Pitchford, Mrs. F. Daveys.

The club met again on January 31st so that plans for the Specialty Show could proceed. At this meeting, Mrs. R. T. Lawrence was appointed Trophy Secretary, and in the short time that the club has been in operation, Mrs. Lawrence was able to announce that she had, up to the time of this note, gathered about 50 trophies, an indication of the spirit of our membership.

The membership of this new Club to date is 34, with more fanciers signifying their desire to become members. Anyone interested in this new Club should contact the writer, Mrs. Marion Craig, 17 Selwood Ave., Toronto 8. (Phone OX. 8798).

The Bulldog Club of Central Canada

by H. M. Gordon

THE first regular meeting of the Club in January proved that the Sourmug is still "Old Faithful" to a lot of people. Our Hosts, the Farrell's, were very gracious indeed, almost 100% of the membership enjoyed a splendid evening.

The February meeting starts our educational programme when Dr. J. E. Leesen of the Avenue Road Animal Clinic will talk on Breeding Problems. A series of talks along these lines as well as handling, showing, etc. is being arranged and it is hoped will prove a help to everyone. Anyone interested in the Club, please get in touch with the writer at 311 Brooke Avenue, Toronto.

Irish Setter Club of Canada

by Gertrude W. Drew

IF the enthusiastic gathering at the January meeting was a criterion of the interest of the members, then the Irish Setter Club of Canada should be headed for a second successful year.

Plans were approved for our annual bridge and euchre to be held in Robertson Hall on March 31st. The Social Committee are in charge and further details will be released later.

Our Program Chairman, Mr. Ionson, has some good speakers lined up for future entertainment as well as some interesting films on subjects dear to the heart of the dog lover. Our newer members should be sure to attend as this type of program is excellent education.

Amongst the several new applications for membership, we are pleased to note the name of Mrs. Cheever Porter of New York. Mrs. Porter is a long time fancier of Irish Setters and owned the famous Champion Rosecroft Premier, winner of many Best in Shows.

We who live in the high, dry spots are very fortunate, not only for ourselves but for our dogs. A letter from Mr. William Irons of Bowness, Alberta, tells of the distress and devastation left in the wake of one of the worst spring floods ever experienced along the Bow River. Mr. Irons' home and kennels were left intact, his location being elevated beyond the reach of the river's spring deluge.

Mr. Irons has been breeding Irish Setters for 30 years and goes in for dual purpose dogs. He bred the wonderful field dog "Golden Girl", and tells me she hunted for two guns for two days when something like sixty-four ducks and forty-two pheasants were brought down and Golden Girl retrieved them all.

He thinks the Irish Setter is unbeatable in the field and when once trained they do not need refresher courses. He states his best show specimens are equally good in the field.

An interesting letter from Mrs. J. E. Forster brings an invitation to the Club to have a picnic at "Broomhead" this

summer. Mrs. Forster also thinks it would be fun to have a members match the same day. Personally, I think this is a fine suggestion and I am sure the club will take advantage of it. Mrs. Forster's home is located at Milton and the one-hundred and three year old stone house overlooks picturesque Sixteen Mile Creek. Here is a treat in scenery alone.

Mr. Forster is presently attending handling classes while stationed at Ottawa. Mrs. Forster is eagerly anticipating Mollie's first litter for future champions.

Jack Thompson took a flying trip to Trinidad recently and reports "Plenty of Irish Setters down there."

A phone call from Mr. Harris Veitch of Baden informs us that he and Mrs. Veitch are joining the Club; and also that his Kilbride Joe CD, CDX is dead as the result of a car accident. Worse still, his beautiful female "TAFFY" wandered away sometime ago while heavy in whelp and has never been seen or heard of from that day to this.

The Svanefelt family will soon take up residence in Inniskillen, Ontario. This move from Richmond Hill is necessitated by a change in employment by Mr. Svanefelt. Although Inniskillen is about fifty miles from Toronto Mr. and Mrs. Svanefelt hope to be able to attend some of the meetings. "Kai's" sense of humour is always refreshing and appreciated.

Although it was not discussed at our last meeting, it is the consensus of opinion that we will be having a specialty show again this year. This item is on our February agenda for discussion when the time and place will be decided on.

Thank you for your news items which are so interesting and helpful. Next Meeting, February 25th.

has had its first meeting and has outlined a program for this year.

The big event will be the Field Trial for Retrievers and Irish Water Spaniels on May 24th and 25th, 1952. We hope to have a gathering of dogs from various parts of the country.

The aim of our Club is to promote and encourage the use of trained retrievers in the shooting of upland game and migratory birds from a conservation measure; also to hold field trials for the following purposes:

1. To demonstrate all aspects of the work that will be required of a retriever in the field;
2. To set a standard of retriever performance for field and water work;
3. To show the performance of the different breeds of retrievers;
4. To encourage and develop the best breeding stock;
5. To demonstrate how the owner should handle his dog.

All members of our Club must own a retriever breed of dog, or be directly interested in retriever dog work.

Boxer Club of Canada Notes

by John D. Marks

The BOXER CLUB OF CANADA's Specialty Show for 1952 will be held in conjunction with the Guelph "All Breed" Show in Guelph on April 19th. This will be a Saturday Show and consequently there should be a record-breaking entry.

We have been very fortunate in securing the services of one of North America's leading Boxer authorities, Dr. Lewis E. Daniels, of Birmingham, Michigan. Dr. Daniels has, for many

**The Labrador Retriever
Association of Ontario**

by R. C. Clarkson

OUR club held its Annual Meeting and dance at the Canadian Legion Hall, Woodbridge, Ont. on the 9th of January, 1952.

In spite of a freezing rain and slippery roads, we enjoyed an excellent turnout. Driving conditions were the cause of a few late arrivals who were greeted by a Square Dance going full steam under the able calling of Bob Blyth.

The dancing was broken off while we attended to the serious business of the Annual Meeting. The Financial Statement was read and adopted, followed by the election of officers and Advisory Committee for 1952. The following were elected: President: R. L. Blyth, 1st Vice-President: V. R. Vaughan, 2nd Vice-President: J. Eastwood, Secretary-Treasurer: R. C. Clarkson. Advisory Committee: Chairman — Wm. Sweeney, W. A. Price, G. V. Joyce, Mrs. Joan Vaughan, E. H. North.

Our President moved a vote of thanks to Howard Sale, who did such an excellent job as Secretary-Treasurer, and also to the executive for their support during the past year. The meeting was then adjourned and it lasted just long enough to let us catch our breath. Talk about Labradors having speed and style — they had nothing on the owners and guests who did their stuff to the hepped up music of Tom and Jack McQuestron and Roy Renwick, which lasted until 2 A.M.

Bill Sweeney deserves a pat on the back for the masterful job of organizing the social part of the night's activity.

To those members who were unable to attend, you really missed a lot of fun so make a special effort to be with us at our next meeting — we missed you!

Our first informal Field Trial for 1952 was held February 10th at the Nurseries of V. R. Vaughan, Agincourt, Ont., with great success.

The Novice class got under way at 1:40 p.m. with eleven entries — all Labradors. The first test was a marked single with a light wind blowing from left to right and the bird being thrown in sparse cover about 75 yds. out. All dogs were carried over to the Second Test which was a double retrieve and at the same distance. This was where the novices ran into trouble, and stres-

sed where the training had to be concentrated as five of the eleven dogs broke on the line.

The Open Stake started with an entry of eleven Labradors and one Golden. The first test was a double of 50 and 100 yds., a cross wind and light cover. Five dogs were taken out too for breaking and three for poor marking. The second test, six dogs competing, was an over and under 40 and 100 yds. Here we saw some remarkable marking and some very good nose work. In most cases the dogs went straight for the fall and returned fast. Two of the dogs overshot the far fall, picked up the scent and made very stylish retrieves.

Two dogs were scratched for poor marking. The third test — a blind retrieve at 125 yds. down — proved to be the top performance of the day. The spectators and handlers really got a thrill from the actions of the four dogs. The first dog, a Lab., was given a line and never deviated from it going right to the find and a fast return. This was a perfect performance and made it rather hard for the remaining three handlers. The second Lab. was given his line but cut slightly to the right, was stopped by the whistle and given one hand signal which sent him right to the bird. This was an excellent performance. The third dog, a Golden, did exactly the same thing only he was not handled, cutting to the right and then straight down field to the fall. It made one wonder whether the wind had shifted slightly — it was uncanny how he got the scent. The fourth dog was handled once after going to the right and then finished a very good retrieve. I would hate to have been in the judge's shoes for that test.

Although this was an informal trial with no prizes the competition was extremely keen and much credit goes to Dr. Arthur James for the quality of judging he turned in. To top a very successful day Mr. & Mrs. Vaughan invited spectators, children, handlers and everybody who participated in the event to partake of a delicious stew, coffee and sandwiches, which really thawed the frozen hands and feet after a chilly day in the field. We hope to do this often. Come on, you Labrador owners, and join us. Give your dog a little work and if you can't learn anything maybe you can teach something.

Don't forget our Specialty Show at the Sportsmen's Show in March.

(Continued from page 15)

gaining financially from the showing of such dog, was not licensed, at the time of the show, as a professional handler by The Canadian Kennel Club Inc."

4. The following addition to Chapter 14 of the Rules provides for veterinary inspection of dogs entering the show building the day before the show: "SECTION 6. When dogs are admitted to the show building before the day of the show, all such dogs must first pass veterinary inspection as provided in Section 1 of this Chapter. Announcement of the hours during which veterinary inspection will be available to dogs entering the show building before the day of the show must be given, such information to be included in the premium list or otherwise sent to exhibitors before the show." The show-giving club, of course, retains the right to decide whether it will permit dogs to enter its show building before the day of the show.

5. For some time past the Canadian Kennel Club has notified show-giving clubs of the order of breed judging which shall apply at their shows. It should now be noted that the order of judging given to a club shall also apply to the group judging. For example, if the Secretary of the Canadian Kennel Club notifies a show-giving club that the order of breed judging at its show commences with the breeds in Group 5, then Group 5 will be the first of the groups to be judged when group judging commences.

6. For some years past the Dog Show Rules have limited the "listing" of a dog to three shows held under CKC rules, except where permission for additional listings was given by the Club. That limitation has now been lifted and there will not be, after April 6th, any limitation on the number of shows at which a dog may be shown as a listed dog. The Canadian Kennel Club may, however, require proof that a listed dog is eligible for registration in the records of the Club, and if it is established to the satisfaction of the Board of Directors that such registration is not possible, then the Board has the power to order cancelled all wins made by the dog at shows held under

CKC rules. It should further be noted that the Dog Show Rules of the Club specifically provide that the championship status of a dog cannot be confirmed by the Club until the dog is registered individually in the records of the Club.

7. Exhibitors should note the following addition to Chapter 19 of the Rules: "SECTION 16. A dog shall not be handled, regardless of whether there is any remuneration, in the show ring by any person who has judged that dog, or any other dog owned by the same person, (or kennelled on that person's premises), within one year preceding the show."

New Beagle Club

BEAGLING in Ontario received further stimulus with the formation of a new club known as "The Niagara Peninsula Beagle Club", the organization of the new club having commenced with a meeting at Fenwick on February 3rd. The following have been elected officers of the new Club: Presi-

dent, Ben Jones; Vice-President, Emmet Karner; Secretary, R. H. Travers; Treasurer, Dave Nimmo; Directors, Jack Casson, Geo. Makinson and Tom Long. Two Beaglers of long standing — Fred Perrow of Hamilton and George Ironberg of Brantford — assisted in getting the new organization under way. The members lost no time in discussing plans for a spring derby sanction trial. Our best wishes to this addition to the Beagling fraternity.

Acceptable Nose-Prints

FOR the guidance of those who are employing the nose-print method of identification, there is reproduced hereunder an illustration of a good nose-print. Note that the "island" details stand out clearly, and the print is free from smudges. Of utmost importance is that any two prints submitted for a single dog be sufficiently alike that the Registrar at the Records office can readily see that the two prints were taken from the same dog.

Schauffelein

KENNELS

Miss Joey Wright, Dixie, Ont., has been breeding Dobermans for less than 5 years, but already her kennel name "Schauffelein" has impressed itself on those who follow the show results. Her Champion Trinkka von Edelwesen won more best of breed placings than any other Doberman in Canada in 1951, and Trinkka's son Champion Troll von Schauffelein finished his Championship requirements at 13 months.

Miss Wright has done two very smart things. She started with the best stock she could lay her hands on (including Champion Belshazzar of Jarwat, sire of Troll), and she matched that good breeding with top management and feeding.

PURINA DOG CHOW IS THEIR CHOICE

Like many other owners of kennels that are "going places", Miss Wright feeds Purina Dog Chow. "Wonderful feed," she says. "It keeps the dogs in excellent condition and in perfect coat."

That's one big reason why Dog Chow is the choice of so many dog fanciers. Another reason is palatability; and still another is economy. Ask your local Purina dealer, at his Store with the Checkerboard Sign, for the names of nearby Dog Chow feeders, and see for yourself!

Top—Ch. Trinkka von Edelwesen, top winning Doberman in Canada for 1951. Below—Miss Wright with two of her "stars" . . . right, Trinkka; left, Ch. Troll von Schauffelein, winner of a best of breed at 7½ months and a Champion at 13 months. His sire is a Champion as well.
