NEW PURINA DOG CHOW

Light, Appetizing, Nutritious

Contains all 43 nutrients dogs need for strength, spirit and glossy coat.

Provides a better balanced daily diet than most humans get.

- Offers top nutrition when fed as directed. No soaking required.
- May be fed dry or moistened with water, milk or broth. Absorbs liquids instantly.
- Can be self-fed. Light, easily digested, it won't pack down
- in the feeder. Dogs seldom over-eat.
- Easy to store. No odor problem in the home.
- Excellent keeping qualities.
- Sold in 5 sizes: 50 lb., 25 lb., 10 lb., 5 lb. bags and 2 1/2 lb. box.

There is only one new Purina Dog Chow. Heat-treated under pressure, then exploded into crisp, appetizing nuggets of moist nourishment, it's literally bursting with flavor. Sold through Purina Feed Stores, groceries, supermarkets and wherever dog feedings are handled.

Saver
\$4.50
\$4.75

ON EVERY
300 POUNDS OF OF
PURINA DOG CHOW
OR PURINA DOG MEAL
(Offer good throughout 1961)

Purina's keen interest in the professional dog field has led to the development of the Purina Professional Courtesy Program. If you are a dog professional and buy your dog food in 25 lb. and 50 lb. bags, you may qualify to save \$4.50 on every 300 pounds of Purina dog food, no matter where you buy. Kennel owners, breeders, veterinarians, other professional dog owners and handlers are invited to join Purina's new money-saving Professional Courtesy Program. Just call or write:

COVER STORY

Spectacular recent Papillon arrival at Kennels of the Rouge is the Black-and-tan Eng. Ch. Ringlands Peter Piper (B C.C.S.), top-winning male Papillon in England in 1960, Best of Breed every time shown in 1960 except at Grifts, where after winning the dog C.C. he placed BOS to his kennel mate, Ringlands Carry On. Bred by Mrs. N. E. Marti-Staff, whose internationally known Ringlands Kennels have produced many noted Papillons, Ch. Peter Piper (whelped Nov. 1957) is by Ringlands (Gloster) Charlemagne out of the famous show and breed bitch, Eng. Ch. Ringlands Polly Finders. He is outstanding in quality and has the enormous heavily fringed butterfly ears, flowing coat, clear blaze and beautiful movement which are all so desirable in this breed. Since these attributes of coat, fringe and blaze are factors for which Mrs. Staff has successfully bred consistently, and he is a keen and proven stud, his influence on the breed in Canada and the United States, where breedings have already been planned, should prove a happy one.

Peter Piper arrived by jet just in time for the Papillon Club of America Specialty Show at Dallas, Texas, on March 26, where he took BW on a five-point bench (seven males) to Pulp of Carousel (the WD, BW and BOS of the 1960 Specialty who finished his title with four points to spare with this win, and to whom Ch. Joujou de la Rouge is shortly to be bred). At the International Kennel Club of Chicago, April 1961, Peter Piper took WD, BW and BOS, while our captivating Am. & Can. Ch. Joujou de la Rouge took BB.

Since her notable success at the 1960 Chicago Specialty when at 6½ months she took WB for five points (11 bitches), Joujou created a record for the breed by completing both her U.S. and Canadian titles at ten and 11½ months of age respectively. Her Canadian wins included 4th in Group at Montreal at 7½ months, and WB for four points at both the 1st and 2nd CNE shows, also BW, BB and Best Canadian bred Toy Puppy at the first of these. Bred by Mrs. Daniell-Jenkins, out of Printemps de la Rouge, Joujou is owned jointly by Mrs. D. J. and eight-year old Clifford Clark.

Joujou's sire, Hipi of Milton, is a young Belgian import representing the finest Belgian bloodlines, who has been steadily siring quality stock since his arrival here in 1959. Both Hipi and Ch. Peter Piper are at stud to approved bitches.

Kennels of the Rouge also feature Bullmastiffs and West Highland White Terriers, owning both home-bred and imported stock of winning quality. Visitors are welcome, preferably by appointment. The Kennels are situated on #2 Highway, one mile east of the Sheppard Ave. Cloverleaf of 401, and 17 miles east of Toronto. Enquiries to Atlantic 2-7934.

1961 WESTMINSTER BEST IN SHOW A PERVINAL-FED CHAMPION

1961 WESTMINSTER BEST IN SHOW

Toy Poodle Ch. Cappoquin Little Sister

Owner: Miss Florence A. Michelson, Fort Lauderdale, Fla.

Handler: Miss Anne Hone Rogers, Mahopac, N.Y.

6 of the last 7

BEST IN SHOW WINNERS AT WESTMINSTER have been fed PERVINAL

Again in 1961 a Pervinal-fed champion has won the top honors in dogdom. Owners, trainers and handlers of show dogs rely on exclusive PERVINAL to help keep their dogs in championship form. Today's new-formula PERVINAL contains all the vitamins-minerals-bioflavonoids-lipotropics now known to be beneficial for canine health. Give your dogs the benefits of this modern, tasty, economical nutritional concentrate.

FROM THE EDITOR

IT WOULD SEEM there is a continual battle to be done on behalf of dogs. In the past few weeks several instances have come to hand. In Aurora, Ont. and King Township the dogcatcher has been severely criticized for his methods of disposing of unclaimed dogs. The North York Humane Society claims, and it is reported the man admits, that he sells unclaimed dogs to laboratories for research purposes. Under the King by-law this man is bound to board dogs for five days before they are disposed of. He states that in cases where a dog has obviously been cared for he keeps it for a week and in many cases finds a home for it. In claiming that he knew of nothing in the Humane Society charter that prohibits the sale of animals to laboratories, he does not, in our minds absolve himself in any way. We do not know what laboratories are purchasing strays from this man, nor what treatment the dogs undergo in experiments. Suffice it to say that we are extremely opposed to this form of disposal of dogs and feel that the Humane Society is correct in taking this stand.

We are still haunted, as are many of our readers, by the horrors exposed in the article "These Things I Saw" (*Dogs, July 1960 and Popular Dogs*) and can only hope that such extremities are not practised in Canada. Readers will be interested to know that a recent letter from this courageous veterinarian student was postmarked Graceville, Queensland, Australia. She has had to travel 6,000 miles to complete her veterinary education. She writes "I do welcome the idea that our Canadian friends should be shocked at such a report and hope that something constructive will come of it. They forget that in Crown-ruled countries men no longer mutilate dogs' ears, horses' tails, etc. and that almost a century ago British law forbade the crimes against animals which are just a part of America's everyday medical protocol." If anyone wishes to correspond with Miss Margaret Nesselrod her address is 39 Bank Road, Graceville, Queensland, Australia. She's a long way from home and would undoubtedly be pleased to hear from well-wishers.

In the community of Odessa, Ont., the German Shepherd breed is a victim of what would appear to be unwarranted discrimination. The cost of a license for a German Shepherd has been jumped to the exorbitant price of \$10 for each male or spayed female Shepherd, \$20 for each additional male and spayed female; \$20 for each female and \$30 for each additional female. Compare this rate with that established for all other breeds: \$2.00 for each male or spayed female and \$3.00 for each female. Writing on behalf of the German Shepherd Dog Club of Canada (see *Letters*, this issue) Mrs. Pat Savink urges German Shepherd owners join in the fight to attempt to have this by-law rescinded. We would urge further that all German Shepherd clubs as organizations and individual members as well as owners of Shepherds write immediately to Reeve F. E. Huff, R.R.#2, Odessa, Ont. This one instance in itself is serious enough, but it might well be that other communities could take up the idea of discriminating against Shepherds.

Your publishers were invited, along with American dog magazine editors, to tour the Ralston Purina Research Laboratories and Dog Care Centre in St. Louis, Missouri and nearby Gray Summit. It was a pleasure to again observe, at first hand, the studies being made toward better nutrition and care of dogs as well as other domestic animals. Among current studies, apart from feeding: should your kennels be painted black or white to attract heat in winter and shedding of heat rays in summer? What is the actual difference? An article on this experiment will appear in the near future. It was stimulating to chat with such editors as Helen Rosemount II, editor, *Western Kennel World*, Alice Rosenthal, editor of *Dog World*, Marjorie Drucker, publisher of the *Collie and Shetland Sheepdog Review* and *Boxer Review*, Ab Sidewater of *Popular Dogs*, Henry P. Davis, sporting dogs editor, *Sports Afield* and the editors of several hunting dog magazines.

In Newmarket, Ont., a young man was fined \$100 for killing five dogs which had become entangled in his traplines. The man said the animals could not be released from his fox traps and tried to bite him when he approached. He claimed killing them was the most humane thing to do under these circumstances. Humane! Two were shot and three beaten to death with logs. The fine of \$100 is barely punishment to fit the crime. In Kelowna, B.C., A. E. Janes, whose Anwolek Kennels raises Doberman Pinschers for police work and show, discovered a neighbor, who persisted in shooting at his dogs from a distance of 15 feet with an air rifle, was the cause of his stock becoming frightened to the point of refusing to come out for exercise. The Alcor-Dictator strain are noted for their good disposition and bark only at the approach of a stranger. Mr. Janes' best puppy, Anwolek's Black Diamond, was discovered by a veterinarian to have eight wounds in his rear legs and underparts. Kelowna RCMP investigated, but "since I was alone the police were unwilling to prosecute without further witnesses," he writes.

In breeding...

where it is the aim of every breeder to produce the best, experience is invaluable. In the production of canine vaccines, too, where the aim is safety and reliability, there can be no substitute for experience.

No laboratory in the world has the length and breadth of experience of research into canine diseases as the Wellcome Research Laboratories. There, over thirty years ago, the first Laidlaw and Dunkin distemper prophylactics were produced—the first in the world to be issued on a commercial scale. From this beginning came 'Epivax', now relied upon throughout the world for its safe and efficient protection against the canine distemper complex.

If your puppies are unprotected, see your veterinary surgeon for advice about vaccination with 'Epivax'.

LETTERS

If you have any suggestions, any comments or constructive criticism to make concerning articles or other items contained in this magazine, or with regard to shows, your opinion of what is happening to various breeds with regard to size, colour, coat, etc., write a brief letter to the Editor. We must reserve the right, however, to edit same.

KNOWN, BUT NOT RECOGNIZED

... I think Mr. McKenna (*Dogs, March*) refers to the Jack Russell Terriers which have been bred for over 100 years.

I brought a pair back from the West of England last November, with a view to breeding. Also I spent a great deal of time in 'The Field' office looking up a series of controversial letters written on the Jack Russells. And 'The Times Bookshop' also advertised and were able to get me 'The Memoir of the Reverend Jack Russell' printed in 1878 and a second book 'The Memoir of the Reverend Jack Russell and his Out-of-Door Life'. Both books deal with hunting and speak of the breeding of the terrier by the reverend gentleman, who died in 1883 at the age of 88.

In speaking with the farmers and hunters, I found they were not concerned with the Jack Russell terriers being registered ... as they were used specifically for working. When at Oxford, Russell met a milkman with a terrier and secured it for his own. He called her Trump and she became the progenitress of that famous race of terriers.

Today the average height is 14 inches and under. The main part is white with black, tan or lemon markings on the ears, eyes and frequently a patch marks the root of the tail. Some are smooth coated and some rough, but in both cases it is thick, close and wiry ... and is calculated to protect the body from wet and cold.

These terriers have pedigrees, which have been strictly kept and I hope the first litter from this pair will be produced later this year.

MRS. I. C. SEARLE

Renfrew, Ont.

Several other readers have sent in clues as to the location of similar terriers which have been passed on to the inquirer.—Ed.

CHALLENGE TROPHY

On the evening of March 21 last, the Oakville & District Kennel Club hosted the Hamilton Kennel Club, Simcoe Kennel and Obedience Club and Burlington for the annual competition.

Read why this champion loves Milk-Bone

"For ze chewing,
magnifique!
A bone wizout
ze bone splintairs"

says

Ch. La Belle Mimi
of Normandy

Ah, Mimi, you're so right! Ask any dog. Milk-Bone's firm bone shape makes wonderful chewing, without a real bone's danger of splintering or upsetting the digestion. Besides providing pleasant and vital exercise for the teeth and gums, Milk-Bone gives a dog all the important nourishment found in milk, meat, bone-meal and vegetables.

Whatever else your dog eats, he needs Milk-Bone to satisfy his bone-hunger. Get Milk-Bone in the size that suits the size of your dog—regular or large.

SAFE, EASY EFFECTIVE

Dist. by

VIOBIN

(CANADA) LIMITED
St. Thomas, Ontario

Although the Burlington team are not quite ready to win the trophy we were all pleased and thought it quite fitting that a well-established club such as the Hamilton group be the ones to dethrone the past victors, the Oakville Club.

The contest was under the capable direction of Lt. Col. Drury, assisted by Mr. Kennedy, Miss King and Mr. MacCallum. I am certain all those in attendance both on teams and as "rooters" enjoyed the evening a great deal.

Personally I was a little surprised there were not more dog fanciers in attendance. An evening of this sort not only proves educational but affords the opportunity to socially acquaint oneself with others of common interest.

I would like to thank the Oakville Club and all those responsible for the evening and trust there will be more of its kind in the near future.

To Mr. MacCallum: Norwich, Conn., population 27,392—2½ more points for our team.

DOROTHEA ENGELS

Burlington, Ont.

A WORD IN TIME

... I found the article, "Dogs Entering Canada" (March) a most helpful reference. Am wondering if it is generally known that the parks in Quebec are provincial and not national and no dogs are allowed in them. This is not always clearly stated in tourist leaflets and people from other parts of Canada might not know this.

I must confess I came across this information quite by accident and it caused some rapid change of plans when I was travelling in the province.

P. REDDALL

Montreal, Que.

Many thanks to Reader Reddall for coming forward with this information not contained in the Dominion of Canada official release.—Ed.

TEMPEST IN THE TEA POT

... Mr. Ed Bolander has been looking in vain for a report on the National Retriever Trial.

You were disappointed to have received no word on one of Canada's greatest outdoor events.

Now I ask you, how would the leading magazines in the country make out if they waited to receive word on great events. A short letter from you addressed to any one of the Winnipeg people would have brought all the information you could use. Had the event been Canada's greatest show I'll bet my last Labrador you would have made sure you received the information.

No wonder some of your issues read like reports of afternoon teas.

We Field Trial followers need a magazine to report on our activities the way *Dogs in Canada* looks after the show people.

LYMAN TURNER

Magrath, Alta.

Field trial followers have the magazine they seek in "Dogs in Canada." But it is a rare time when reports of Trials are received, pictures even more rarely. Field Trial enthusiast Cowan last year was allotted space for a regular Field column and contacted various clubs for news. The scant response evinced a strong lack of interest. The Club Notes columns are open to sporting dog clubs as well as show and Obedience groups. How often do you see Club Notes from Field Trial clubs?

Perhaps Reader Turner does not know that regulations concerning the National make it clear that the host club, AND NO OTHER, be the provider of the report on

the trial each year. The "short letter" would not have been in order. However, coverage for the 1960 National was long ago arranged with the proper persons... Since some of Canada's "greatest shows" are held in the vicinity of Toronto, there is no problem in coverage as there is in some of the more distant events. "Dogs" would have thoroughly enjoyed personally covering the 1960 National had responsibilities not prevented.—Ed.

REAL TROUPERS

... May I, through your "Letters" extend my most sincere gratitude to all those exhibitors at the recent St. Catharines show who took the fact that the printer had failed to deliver the catalogues in their stride, and co-operated with us 100%.

Any praise I could give the ring stewards would not be high enough (try working a show without a catalogue). They did a magnificent job.

Three others I would like to mention and to whom I owe a debt of gratitude: Reuben Soloway, who waited at the airport from 8 a.m. until 11.30 p.m., for a parcel that did not arrive; Archie Wharlock, Ken-L-Ration representative, who still managed to find out the numbers and call the dogs over the PR system and still managed a big smile at the end of the day; last but certainly not least, J. W. (Mac) MacCallum who did a Trojan job in helping out all around. Thanks to you all.

EDNA I. JOEL

Show Secretary.

UNJUST TAXATION

... Recently it came to the attention of the German Shepherd Dog Club that amendment #180 to By-Law #127 in the Township of Ernestown permits the licensing of German Shepherd dogs only at an exorbitant cost to the owner. While all other breeds are licensed for \$2.00 for each male or spayed female and \$3.00 for each female, the fees for a German Shepherd are \$10.00 for each male or spayed female and \$20.00 for each additional male or spayed female and \$20.00 for each female and \$30.00 for each additional female.

It seems hard to believe that in this day of justice and equality for all there should be such discrimination shown one particular breed of dog. We have no knowledge of what circumstances could warrant such an amendment to be approved by Council and have asked that a full investigation and report be made available. We have requested the support of all our club members in bringing our disfavor of this by-law to the attention of the Council members and many have already written asking that this by-law be rescinded. We would appreciate it if all German Shepherd owners would join us in this fight against this injustice for if this condition is allowed to continue it will not be long before other Townships may attempt to make similar discriminations to our or to other breeds.

Address your letters to Mr. F. E. Huff, Reeve, R.R. #2, Odessa, Ont. Perhaps if enough pressure is brought to bear on those responsible for this by-law this situation will be reviewed and the by-law rescinded.

MRS. PAT. SAVINK

He knows what's best in Nutrition

Your veterinarian has a profound knowledge of Animal Nutrition. Years of study and practice have taught him the importance of a balanced diet. He knows which foods contain the essential nutrients your dog needs for good health. Such nutrients as Vitamin A and Vitamin E, for instance, to combat night blindness and skin disease. Broad practical experience, frequent consultation with fellow veterinarians, and familiarity with new developments in veterinary medicine make your veterinarian the person best qualified to prescribe your dog's diet.

Published in the interests of good animal husbandry
by Dr. Ballard's Animal Foods Limited

research assures you . . .

HEALTH & HAPPINESS FOR YOUR DOG OR CAT!

You benefit from the research that developed Sergeant's Flea & Tick Spray, for example—in a no-muss-no-fuss aerosol can. Just spray on to kill your pet's fleas, ticks and lice swiftly and effectively—keep them scratch-free, healthier. Research, too, has developed and continues to improve our Skip-Flea Powder which repels parasites, relieves fiery fungus itch. These and other famous Sergeant's products are designed by our skilled researchers to help your dog (or cat) stay happy and alert.

- FLEA & TICK SPRAY—kills fleas, ticks, lice
- SKIP-FLEA POWDER—stops scratching; kills parasites
- CAT FLEA POWDER—especially for cats; kills fleas, lice
- PINE OIL—fragrant general disinfectant; fights doggy odors
- SKIP-FLEA SHAMPOO—kills fleas, lice; excellent in hard water
- SKIP-FLEA SOAP—soothes skin, leaves coat soft, fluffy
- SERGEANT'S SURE SHOT—for large roundworms and hookworms
- PUPPY CAPSULES—for large roundworms and hookworms
- SERGEANT'S WORM-AWAY—for large roundworms; just add to food

Dates pending A.K.C. approval

Terrace of Blakeen was bred by Mme. E. Warney of Switzerland, selected as pick of litter by Mme. Reichenbach, Switzerland, sold to Miss Lane of Nunsoe Poodle Kennels, England, from whom he was purchased by the mother of Mrs. Sherman Hoyt, U.S.A., and was given to the owners of the Blakeen Poodle Kennels, Mr. and Mrs. Sherman Hoyt, Stamford, Connecticut in whose hands he did so much for the breed both as a sire and, as Mrs. Lyle writes, was the first of many Poodles to win Best-in-Show. Too often the name of the breeder is overlooked and more often omitted in write-ups of winners.

E. C. St. JOHN GREEN.

Bellhill Kennels,
Canning, N.S.

USE YOUR COCONUT!

. . . Have tried everything possible to keep playtoys, rubber balls and others last for my Dachshunds. Finally I had a coconut, dried out inside and was going to dispose of it, but realized this was the only thing I had not tried yet.

What a ball they have with it and when they tough it, it keeps rolling, not giving them a chance to be able to chew on it. Tops for puppies and grown dogs!

MINT SOETERS.

Miniam-Teckel Dachshunds,
Edmonton, Alta.

INVITATION EXTENDED

. . . I would like to extend a sincere invitation to all Samoyed and Keeshond breeders attending the Forest City KC show at the Lucan Arena, May 13, to visit our home and kennels that day.

Re "cheap" puppies, I find that other breeds, when sold as pets, sell at those prices. We have a continual market and feel that we are supplying puppies at a price people can afford and also enough for us to have something to show for our work. Our puppies are not from cheap inferior stock, but come from two of Canada's top kennels.

I guarantee mine when sold as breeding stock and would replace any that would measure up.

Thank you for your grand magazine.

MRS. EILEEN M. CURRIE

Brialin Kennels,
Lucan, Ont.

RECALLS FIRST SAM SPECIALTY

. . . In the Cover Story (March) by W. F. T. Freeman there is a mistake I would like to point out. He says 1958 saw the first Point Specialty ever held for Samoyeds in Canada. This is not so. In 1953 at the Ascot Kennel Club show held October 18 at the Royal Coliseum, Horse Palace Annex, the catalogue shows: "The Samoyed Club of Canada will consider the classes at this show their Specialty Show." There were 36 entries and Mrs. Elizabeth Hansen was the judge.

Also in 1956 The Canadian National Sportsmen's Show March 16 and 17, Anton B. Korbel judge. Catalogue states "The Samoyed Fanciers of Canada will consider the classes for Samoyeds at this show, as their Specialty Show". There were 42 Samoyeds entered.

Shep's Valley Kennels,
Wilton Grove, Ont.

BOOK REVIEWS

Care of the Dog, by Charles Leedham. S. J. Reginald Saunders and Co. Ltd. \$5.95.

Do you know what forms of first aid are required in the case of heat stroke, convulsions or poisoning? Can you properly care for puppies? Can you teach a dog basic good manners? These and dozens of other topics are treated in this basic and comprehensive guide. Interesting and informative, it is well enough written to make good leisure reading.

Poodles, by Clara Bowring. British Book Service. \$3.75

One of the most endearing works we have seen to date on the subject of Poodles, this book is a treasure to own, a pleasure to give. Miss Bowring is a well-known authority on breeding Poodles, has judged at Crufts and other major shows. She not only writes charmingly about the Poodle in lore and legend but deals practically with buying, feeding, training. Profusely illustrated with nearly 40 outstanding photographs.

The "How To" Series, by Evelyn Miller. S. J. Reginald Saunders and Co. Ltd. Cloth bound \$2.00. Paper, \$1.00

Added to this series are *How to Raise and Train a Golden Retriever*, *How to Raise and Train a Pug*. Written by Evelyn Miller and well illustrated in black and white and color.

Dog Obedience Training, by Milo Pearsall and Charles G. Leedham. S. J. Reginald Saunders and Co. Ltd. \$5.95

This book is designed for the owner who wants to train his dog for home obedience through the various coveted degrees. In addition to training, valuable tips are given on travelling with a dog, leaving a dog at home, shipping, and general dog psychology. Milo Pearsall, who is well-known in Canadian Obedience circles, has been judging Obedience Trials since 1945 and has run innumerable training classes. Charles Leedham has assisted the Pearsalls for a number of years and is an author as well.

Pet Chihuahua, by Tressa E. Thurmer. Ryerson Press. \$1.25
This popular basic guide has been expanded to 80 pages and contains 55 photographs and drawings. Excellent for children and to pass on to new Chihuahua owners.

Care of the Dog, by Charles Leedham. S. J. Reginald Saunders and Company Ltd. \$5.95.

This is a sound, all-round book, valuable to the owner or would-be owner of any breed. While much of the material is devoted to the basic welfare of the dog from birth to death it is packed with unusual information; the mechanism of a dog's hair, the mechanics of scratching, first aid and home nursing measures, what to do in an emergency before you can get the attention of a veterinarian. How to handle the special problems of the older dog. Do you know the latest on vaccination? How to feed a sick or injured dog? Do you know the facts and fallacies of sex and mating?

Mr. Leedham writes in a style that is engaging as well as informative; this is a book you will want to keep at hand for ready reference.

About the author: Charles Leedham has been a newscaster, radio interviewer, television producer, advertising copywriter and research supervisor. He is co-author of *Dog Obedience Training* as mentioned above, one of the most successful books on dogs yet published and which has been selected as a special Book-of-the-Month Club.

One Man and His Dog, by Anthony Richardson. Clarke, Irwin & Co. Ltd. \$3.50.

Exciting fiction — the story of Jan, a Czech refugee who joined the French Air Force in the war. As an air gunner, he was shot down over Germany. While hiding out in a farmhouse he found a motherless German Shepherd pup and immediately adopted it. This is the story of their adventures attempting to return to the French line — the first of incredible adventures Jan and Antis were to share over the next 13 years. Among them: being shot down over the sea, being rescued by an Italian convoy, only to be sunk by a British warship and once more rescued. This is a true story; Antis was the first non-British dog to win the Dicken Medal — the animal's V.C.

WHAT DO YOU THINK?

by AUDREY LANGFORD

CHAP. 2, SEC. 13 requires a dog to jump one and a half times its height at the withers, with six exceptions. The next paragraph gives the specifications for the high jump adjustable to a minimum of 12 inches.

I feel that there are more breeds competing in Obedience who should only be required to jump once their height at the withers. Perhaps these six exceptions were the competing breeds at the time this was written, but now there are others who carry great body weight for their comparatively short legs, such as the Basset. Why ask these breeds, whose original function does not require them to high jump, to attempt so terrific a feat? Should owners of these dogs be denied the sport of Obedience?

How high must a six-inch, or seven inch dog jump? Some say 12 inches. The original Standards were drawn up at a time when toy dogs did not enter Trials. There was a specified weight for the dumb-bell at that time, but when it was deemed unreasonable for some breeds to carry such a weight it was dropped from the Regulations. When this action was taken, they probably looked at the requirements for the exercise, but overlooked the specifications for building the jumps. Chap. 3, Sec. 11 states "No judge shall require any dog — to do anything — which is not required by these Regulations and Standards". I feel that the requirements as laid down for the exercise take precedence over the mere specifications for building the high jump and anyone who asks a minimum of 12 inches is wrong. A seven-inch dog jumping ten inches, is already performing more than a 30-inch dog is asked to do, and in taking the broad jump it does, in effect, a high jump as well as a distance jump.

I am firm in my belief that all too many handlers become anxious to enter the advanced classes, and with no consideration for their dogs, they jump them too high, too soon and too often. They will not take the time and patience to condition their dogs as an athlete would be conditioned. They will not train them to jump on turf which would cushion the landing, and only school them briefly on a hard surface. One perfect jump is not enough to satisfy their ego, the dog is asked to do it again, and again.

If the height that the dog is capable of jumping were the factor we are trying to establish, the exercise would be conducted similarly to the high jump at a track meet. The point is that the dog retrieved an article, over an obstacle which hid it from view, not how high the dog jumped. Many complaints about the jumping I feel should be laid at the door of the handlers, but for the sake of justice I think the heights should be thoroughly reviewed, and changed. What do you think?

Address your reply to *What Do You Think*, c/o Dogs in Canada.

DOGS IN CANADA, MAY, 1961

for JUNIORS ONLY

Send correspondence for this column to Junior Notes, Dogs in Canada, 1173 Bay St., Toronto 5.

Hub City Handlers

Thirteen junior handlers participated in the Hub City Kennel Club's annual parlor show March 28 with top honors in this event going to Tom Lewis, 12-year old son of Mr. and Mrs. Reg Lewis of Saskatoon.

Tom handled his father's Boxer, Mazelaine's Gallivanter, to win first place in the ten to 16 years of age division. The win marked Tom's first appearance in a show ring.

Two of the junior handlers, Tom Lewis and Marcia Hawes, daughter of Dr. and Mrs. E. G. Hawes of Saskatoon, captured group wins later in the evening's program. Marcia handled a Chihuahua owned by Miss Shirley Orr and Tom handled his family's Cairn Terrier.

Junior handlers participating in the show, which had an entry of some 60 dogs, included: ten to 16 years: Ann Neuert and her Boxer; Marcia Hawes, Dachshund; Tow Lewis, Boxer; Reg. Lewis, Jr., Cairn Terrier; Robin Grerar, Chihuahua; Greg Houston, Dachshund;

Bill Howell, Sheltie; Terri Miller, Sheltie. Nine years and under: Mark Houston, Dachshund; Kirk Houston, Dachshund; Vicki Houston, Dachshund; Robin Robinson, Welsh Terrier; Laurel Van Cleemput, Labrador Retriever.

Alberta KC Winners

Kenny Sale won the Children's Handling in the 6 to under 12 years group at the 94th All Breed Championship Dog Show held by the Alberta Kennel Club in February, in the Mewata Area, Calgary, Alta. Winner of the 12 to 16 competition was Gloria Gullacher.

Burlington & District K.C.

On March 4 there was no Kennel Club meeting because of a Sanction Show, and we are proud to say some of the winners belonged to this club.

On March 11 there was some trouble in securing the hall, so, that meeting was cancelled.

Our general meeting was held on

Continued on page 82

Smiling winners of the 1961 Sportsmen's Show Junior Handling competition held recently in Toronto are shown with their trophies: Left, Jane Duguid of Toronto who won Open D handling in Airedale; centre Frank Atwood of Sudbury, Ont. who took Open C with a Labrador Retriever and right, Marie Bourhis of Don Mills, Ont., who won Novice A and B handling a Boxer.

LANA VETERINARY DRUGS

Box 41 St. Thomas, Ontario
U.S.A.: Box 9, Oxford, Michigan

YOU WERE ASKING

Q. What is involved in sending a dog to the United States to live?

A. The cost of preparing papers (about eight sheets) is \$2.00. The dog must be inoculated against rabies one month before it is shipped and within one year. It is also necessary to have a health certificate issued by a recognized veterinarian two days before shipping.

Q. What is Eclampsia?

A. Various called "nursing fits", "milk fever" among other similar names, this illness is usually associated with the weeks following whelping. It can, however, occur during the week or two prior to delivery. The actual condition is due to the calcium drain made on the mother while the babies are growing inside her and later by the production of milk. If she does not have a sufficient amount of calcium in her system she will reach a certain low level and be prostrated by calcium deficiency shock or eclampsia. It is important to check the calcium requirements with your veterinarian.

Q. What should I use to wipe out the particles in my dog's eyes?

A. Use only a piece of clean tissue or cotton to wipe out this discharge. Unless you have specific instructions from your veterinarian, do not bathe your dog's eyes regularly with boric acid or any other solution.

Q. My dog occasionally rubs against fresh paint. Is turpentine safe to use as a remover? Will it burn his skin?

A. Turpentine can be used, but must be used carefully to prevent burning. Ether is much safer. Best of all is to spread on a soapy lather while the paint is wet.

Q. What causes an animal's unpleasant breath? Is there anything I can do for an occasional breath odor?

A. There are many contributing factors. A really bad one is a sign of something very wrong. Some breeds with a loose lower mouth are apt to develop a bad breath at times. Here the bacteria grows in the absence of air. This area should be cleaned out by your veterinarian if the smell is really bad. Unpleasant odor can be caused by a kidney disorder, especially in an older dog who is not exercising much.

Q. How often should the anal glands be squeezed? Is it sometimes an indication this needs doing when a dog drags his rear along the ground?

A. In a healthy dog the substance is usually expelled with the stool. Some Toy breeds and old dogs do not possess glands that function as well. The fact of a dog "dragging his bottom" could indicate need for attention to the anal glands, migration of tapeworm segments, eczema or soiling. When you take your dog in for a check-up or other treatment, the glands could be squeezed at the same time.

B.D.K.C. Activities

For the first time in Ontario Miss Blanche Saunders of Bedford, N.Y. will conduct an Obedience Clinic sponsored by the Burlington and District Kennel Club. The Clinic is to be held on the evening of June 10 commencing at 6 p.m. in the Burlington Arena, New St., Burlington. The B&DKC Double Obedience Trial will be held the following day, Sunday, June 11 in the Arena.

Everyone is invited to attend the Clinic. Charges will be nominal. For spectators only, admission is \$1; for handlers and dogs \$1.50. If you have any problems concerning obedience training of dogs, Miss Saunders will suggest ways of overcoming them.

For the convenience of German Shepherd Dog enthusiasts the German Shepherd Dog Club of Canada Puppy Match will be held in the Burlington Arena in conjunction with the Burlington and District Kennel Club Obedience Trial on Sunday, June 11. This year, in addition to the regular Obedience classes, the Double Trial will feature unofficial classes including Graduate Novice, Open and Utility and also Hodge-Podge. Judges will be: Trial Number 10, Mrs. Alex Casgrain, Montreal; Novice A, Novice B, Miss Blanche Saunders, Bedford, N.Y.; Open A, Open B and Utility. Trial Number 11: Mr. George Pugh, Xenia, Ohio; Novice A and Novice B; Mr. W. Lindner, Warren, Ohio; Open A, Open B and Utility.

All enquiries re the Clinic and/or Double Trial should be addressed to the Trial Secretary, Burlington and District Kennel Club, c/o Lankester Lodge, 2321 New St., Burlington, Ont.

RIVER RUN (WILLODA, MOIRABORO) — W. H. Peebles, R.R. #1, Foxboro, Ontario.
SNIPPENRUST—William Wessing, 739 Gratiot Avenue, Sarnia, Ontario.
TENEGAS—Mr. and Mrs. P. Sandor, #7 Highway, Box 39, S.S. 1E, Richmond Hill, Ontario.
ULWELL (THE-FLAME, WOODCREST) — Gerard Laflamme, 7072 Drolet Avenue, Montreal, Quebec.
WARREN-DALE (VALE PARK) — Hilda I. Murphy, Box 29, Sub. P.O. 1, Moose Jaw, Saskatchewan.
WESTACRES—Betty Carter, 2025 Westfield Drive, Port Credit, Ontario.

A HEALTHY DOG ALWAYS it can be done with ZEV

Left to right:
Ch. Banner of Spruce
Ch. Banshee, his dam
Blue Diamond of Spruce, his son.
All bred by the Spruce Kennels Reg'd., St. Sophie de Lacorne, P.Q., owned by Mrs. J. Detmold.

TWO CHAMPIONS and SON ALL CONDITIONED With

ZEV

ZEV is a scientific formula prepared in the Laboratories of W. K. Buckley Limited especially for the promotion of animal health.

How this amazing formula works:

1. Sharpens appetites.
2. Promotes better elimination.
3. ZEV is the one remedy that will expel all parasites from the intestinal tract without fasting or purging and will keep this all important organ free from these food and health robbers. Proper food plus ZEV assures you of fully nourished and healthy animals with increased vigor, bright eyes, glossy coat and a cool, moist nose.

For COUGHS, COLDS, DISTEMPER ZEV has no equal

Three of the many excerpts taken from letters of praise for ZEV from well known kennel owners:

1. After most exacting tests of ZEV on my own valuable dogs, I cannot recommend this remarkable remedy too highly. Mrs. Mary Matchett, Myia Kennels, Highland Creek, Ontario.
2. ZEV is everything you say it is for getting dogs to eat, gives shiny coats to puppies and old dogs never go dry. Mrs. M. Lex, Miree Kennels Reg'd., Long Branch, Ontario.
3. Have dogs shipped in from the South infested with tape and other worms—gave ZEV for 10 days — all dogs restored to health and no further sign of worms. I raise and sell an average of 60 Beagles a year — not a sick dog in 3 years thanks to ZEV. Chas. W. Beaudoin, Balsam Creek, via North Bay, Ontario.

ZEV is sold by most Drug and Pet Stores or direct from
W. K. Buckley Limited, Toronto
8 oz. \$1.50 - 1/2 gal. \$6.50 - 1 gal. \$12.00

SPORTSMEN'S SHOW WINNERS: THE

THE 1961 trio of Sportsmen's shows and the following day of Specialties held at Toronto March 15 to 18 proved one thing — more and more people are getting excited about purebred dogs.

People of all ages and income brackets poured past the ticket wickets to create the largest crowd ever attending the Sportsmen's Show dog events. Nearly 20,000 paid admission to watch their favorite breeds prance through exceptionally heavy competition, including outstanding American winners piloted by leading handlers.

Apart from the cold in the benching areas, which officials avow will never again have to be contended with under new plans, this was a cheerful show, big (a total of nearly 2,000 entered over the four days) and so full of interest that spectators barely knew whether they wanted most to spend the time at the ringside (and which ring?), at the ever-fascinating Obedience trials or the indoor Retriever Trials.

Best in Show March 15 was the debonair Miniature Poodle, Beaujeu Regal, owned by Bobby L. Crutchfield, Austin Texas. Best Canadian Bred dog in Show was the Kerry Blue, Ch. Tregoad's Vicky's Cappy, owned by Barbara J. Worcester of Little Falls, N.J. (both well-known in Canadian show circles) and bred by Mr. and Mrs. T. H. Betts of Richmond Hill, Ont. Best Canadian Bred Puppy in Show was the Smooth Standard Dachshund, Heidenheim's Black Falcon, owned and bred by Mr. and Mrs. W. E. Kieser, Arva, Ont.

BIS winner the second day was the showy Basset Hound, the Ring's Banshee, owned by Chris G. Teeter of Birmingham, Mich. Banshee was bred by Mary Lees and Robert Noerr and is a son of the famous Ch. Seifenjagenheim Lazybones. Best Canadian Bred in Show fell to the Great Dane, Ch. Trogalano's Bridey Murphy, owned by Mrs. Betty Hyslop

of Brockville. The Bulldog, Lakeland Invicta, owned and bred by Mrs. Thelma Blackburn, Pickering, Ont. was Best Canadian Bred Puppy in Show.

Bill Trainor handled the Collie, Stoneykirk Reflection, owned by Stoneykirk Kennels, Plymouth, N.H. to BIS position the third day. The well-known Beagle, Can. and Am. Ch. Beau-A-Black Bomber, owned and bred by Allan E. Beaumont, Toronto, was Best Canadian Bred in Show, while the Best Canadian Bred Puppy in Show was a Montreal Shetland Sheepdog owned by Mrs. F. H. Minge, Rosslynn's Ban Joe of Summit.

Rarely seen in Canada was a Smooth Collie entered by Mrs. Kay Anderson of Ashton, Ont. and bearing the name Ravensglen Peterblue Merilina. In actual entries in the three all-breed shows, Beagles and Labrador Retrievers led, followed by Miniature Poodles, Miniature Schnauzers and Shetland Sheepdogs.

In the limited breed shows the breeds leading by entries were Labrador Retrievers, who compiled the largest entry of any breed throughout all the shows (52), Boxers (51), Beagles (42), German Shepherds (38). A total of 718 entries were judged on Saturday in the Limited Breed show.

In the matter of limited breed shows, the question arose: Do the regular shows suffer in dwindling entries because of the specialties and boosters on the fourth day? It would appear so. Where Boxers entries averaged 18, for example, during the first three shows, the entry climbed to 51 in the Specialty. An average of three German Shepherds were shown March 15, 16 and 17 (which not only must disappoint a noteworthy judge but give the public an unfair opinion of the breed) yet 35 Shepherds were entered on the 18th. The Beagle entry almost doubled, and the Basset entry more than doubled.

photographs by Norton of Kent

LONG AND THE SHORT AND THE TALL

During the shows another point was posed: The dogs who have shown valiantly through the three days cannot help but be weary (and their handlers as well) on the fourth day. But they must compete against a much larger entry of dogs which have come into the show fresh and eager.

A hit of the show was the amiable Black Labrador, Can. Nat. Ch. (1960) FT Ch. Smudge's Pitch, owned by Mr. and Mrs. Clifford Hunt of Grimsby, Ont. On exhibition only, he guarded his display of trophies, as shown elsewhere on this page. The antique picture frame was given in admiration for his work. Another hit was the tiny Chihuahua who went in for the final judging the third night, looking big as a minute beside the Collie who took BIS.

The Samoyed Club of Canada display was a major attraction and undoubtedly greatly boosted spectator interest in the breed. The Irish Setter Club of Canada, noted for its excellent displays, again took the prize for bench display. Many individual exhibitors took time and effort to make their benches attractive, and were a credit to the show.

The Basset Hound, top left, Ch. The Ring's Banshee, moved cheerfully to BIS March 16 under Judge Elbert Vary, handled by Frank Hardy. Owned by Chris Teeter of Birmingham, Mich. Centre: Beaujeu Regal, Black Miniature Poodle, poses after taking BIS March 15 under Judge Haskell Schuffman. Handler was Jane Kamp. Bobby Crutchfield of Austin, Texas, is the owner. Right: The Collie, Ch. Stoneykirk Reflection moved smoothly to BIS with Handler William Trainor the final day, under Judge Virgil Johnson. Owner is Stoneykirk Kennels, Plymouth, N.H.

THE JAPANESE SPANIEL

by BEVERLEY HUNTINGTON ROGERS

NIPPON SAN KENNELS REG'D., KINGSTON, ONTARIO

OUTSTANDING PERSONALITY is the Japanese Spaniel's greatest attribute. Intelligent, understanding, generously warm-natured and consistently loyal, depending on love to develop fully, he then exhibits the incredibly varied facets of his unique personality. These small (ideally four to nine pound) dogs were for centuries selectively bred to be valued as the canine companions of the Japanese court. Today, almost a century after their introduction to our society, we are still struck by their aristocratic bearing and manner.

Each dog is an individual with enough strength of character to expect the special consideration due him. Our diminutive Ch. Nippon Toyo-No San will not be fenced in: we put her in a new run to test whether it is "dog proof." When she has found all the holes, she climbs the five-foot chain link fence, nimbly springs to the ground and walks away with a sniff of contempt. The fence will then hold any other dog we have. Four pound Nippon Bubitsu San is addicted to guarding and will lie with a crust of toast in the hall-way and spring with a throaty roar on any casual passer-by: even the vacuum cleaner.

In appearance they impress one as a showy dog. The full coat is long and silky with "sacred vulture feathered feet and chrysanthemum tails" carried closely over the back. Fine-boned, the long slim legs and tapered feet form a square with the straight short back and compact body. The head is large for the size of the dog with a broad skull rounded in front and usually bearing a white blaze — considered to be one of Buddha's 32 superior marks. The muzzle is very short, wide and well-cushioned

with large self-colored nostrils. The most outstanding feature of the head though, are the eyes; the large, lustrous, expressive dark eyes, set far apart. In color the dog may be either jet black and white or orange and white, never a mixture of the three colors.

The Japanese Spaniel is extremely hardy and vigorous, possessing a stamina quite out of keeping with his size. Unlike most short nosed dogs he is not prone to respiratory ailments and his long coat fits him for outdoor activity in our coldest Canadian winters. The silky coat is remarkable in its ability to shed dust and dirt, a fact which is equally appreciated by those prone to asthma and hay-fever, and those who are trying to keep the dog clean. Brushing with a clean bristle or soft polythene brush is usually all that is necessary to keep the dog white except in special instances. Unfailing goodnature and a lively desire to share every activity make him a favorite of children, while in the home he is appreciated for his desire for cleanliness and ease of house training, his adaptability and his general quiet. No yapper, the Jap has a warning bark but reserves it for special occasions and stray cats. The large eyes sometimes get bumped or scratched but usually heal promptly with cortisone-antibiotic drops applied under the supervision of a veterinarian.

No finicky eater, the Jap relishes his food. Once a day, a well-balanced kibbled type dog food made more interesting with left over vegetables and fresh meat, keeps the dog in top condition. Naturally fowl and fish bones should be avoided, as should any bone that can be splintered or ingested in sizable quantity, e.g. pork spare-rib bones.

Training a Japanese Spaniel is a joy. The dog's natural intelligence and inborn desire to please are like gifts adoringly placed at the complete disposal of the trainer. The most difficult part for a novice trainer is expressing to the dog, in terms the dog will understand, just what it is that is required. A puppy may be leash trained as soon as it is big enough to wear a collar or small harness, usually about three months old. By four or five months he enjoys jumping over one's hand to retrieve a small ball, sitting up to beg, and similar household tricks. Training for show usually starts at eight to nine months, not because he could not be trained earlier, but because of his appearance. When the puppy coat is lost there may often be an awkward age when the puppy reminds one of a gangling adolescent with too short trousers and sleeves. By the age of eight to nine months the mature coat is coming in heavily and one's show dreams can soar.

A word may be said here about the name of the Japanese Spaniel. Japanese he is, spaniel he is not. Long hair covers the short V-shaped ears blending into the distinct ruff. A fleeting look gives the impression of a long eared dog, particularly of the English Toy or King Charles Spaniel type which have flat faces too. In Japan they are called Chin dogs. Movements on this continent to change the name to Japanese Chin have often aroused agitation, approbation or consternation among Jap lovers, but nothing more concrete than flurries of letters has resulted. Perhaps it would be fitting to call them Japanese Chins, for the translation of Chin in English means "precious treasure, rare, strange".

Mrs. Jean Lyle

POODLE SPECIALTY CRITIQUE

I much appreciated the honor of being asked to judge the 4th annual Poodle Specialty of the Poodle Advancement Association in Toronto March 14. In all three varieties, my winners were truly beautiful dogs, magnificent specimens of the breed.

In Toys, there was evident here and there the common variety faults — the long-bodied, short-legged type; the steep-

shouldered one whose short neck carried the head forward on a level with the back; foreshortened heads with their accompanying faults; soft wispy coats. On the delightful side, in my top winners, Joli Omar de Gladville, owned by Claire Wurzler, Upper Montclair, N.J., which was Winners Male and Best Opposite, and Thornlea Silver Siren, owned by Mrs. George Dow, Whately, Mass., which I

placed Winners Female, Best of Winners, Best of Breed, and in the end, Best In Show. I found Poodles which were obviously the result of long years of skilled breeding, for they were excellent! Correct lay-back of shoulder resulted in short backs, long necks and correct proud head carriage; and excellent rear quarters resulted in sound, smooth, ground-covering gait. Each was a delight both in motion and in its natural unposed stance, with excellent profiles. Each had a lovely head and expression. My Best of Breed and BIS female handled herself proudly, gaily and soundly every second she was in the ring!

THE TOY MANCHESTER

by RUTH TURNER

CHATHAM FARM, R.D. #1, NEWTON, PA.

The miniature Black and Tan as the Toy Manchester is known in England from whence it came, has been a distinct breed for more than 150 years. His popularity waxes and wanes, but he remains in the upper ranks of the desirable breeds because of his intelligence and his size.

The Toy-Man answers the requirements of urban living today and varies in weight from a maximum of 12 pounds on down to no-minimum requirement. He is a duplicate of the Standard Manchester, a terrier bred from the Old English Terrier, with only one difference from his larger brother, erect ears. Cropping had been done to the original Manchester to prevent the rats from grabbing them.

The outlawing of cropping by the English took away the sharpness from the Standard but the diminutive terrier breeders were successful in breeding the small erect ear, that has become characteristic of the toy.

The distinctive black shiny, hard-haired coat requires no care. The Toy-Man, like his brother, has a long narrow head, tight lips, well filled-in cheeks and slashed-in eyes, straight strong-boned legs. He has cat-like feet with the legs well under him for speed and strength.

Kept in condition, he needs no grooming for the show ring except to trim his whiskers. His markings are characteristic of his name, a rich tan on the muzzle, tan kiss marks on the cheeks and over the eyes, and black "thumb prints" on the

tan front feet, with black penciling on the toes.

The Toy-Man breeders during the turn of the last century in pleasing the public for "tiny toys", developed an apple-headed, spindley-legged toy, some weighing less than three pounds. It was the popularity that "killed" the breed, particularly when the comic strip artists lampooned it.

Credit is due to Canadian and American breeders who by working backward against strong odds, have again developed the typical terrier in diminutive size. This was not done in several generations but took years of patient breeding, selecting and discarding the culls, until today, you see in the show ring, the gamey fresh tiny terrier ready to lick anything his size and larger.

The Toy must have terrier aggressiveness, and this endears him to men in spite of his size. His demand for human companionship is his value as a pet, and above all his intelligence as a guard is without parallel. I have known many of the little-ones who act as a second pair of ears, alerting their owners when the bells ring or of some impending action.

I myself have a house Toy that resorts to pushing the telephone off the hook as soon as I respond to answer it and sits behind me on the chair no matter how long I converse. I fully believe she enjoys the conversation as much as I do. She welcomes the visiting children, sits beside them on the chair and insists on sharing their snacks, but will tackle the largest adult dog, Standard or Toy, that ventures near the table.

The Toy is not a delicate little show piece, but stands the rigors of cold weather. I raise my puppies in the basement in a 55 to 60 degree temperature and keep the kennel at 50 degrees. They do not need sweaters or covers but once

accustomed to a covering it must be kept up until Spring.

The little dogs are utilitarian in that they were bred to hunt vermin and are wonderful mousers and ratters. Years ago the seven-pound dog was carried with the hounds to go into the ground hole after the fox and chase it for the terriers to kill.

This digging characteristic is the one fault, the nails must be kept clipped constantly, for in the natural state the dog kept them short by his digging but cannot on the soft rugs of today.

There are many of the little Manchester in the Obedience ring today outshining the many other larger breeds in their ability. I also have had numerous calls for the little ones several years ago when there was a rebirth of vaudeville because as one man put it, "the little dog learns, quickly and easily".

The gay little terriers can be taught to be quiet for apartment living. He is accused of being nervous but in this he is misunderstood; his actions are quick, he lives as fast as he can in the shortest time. He is reserved in temperament but is not a one-man type of dog. He is saucy and belligerent, ready to guard his premises with his life.

The short-non-shedding coat is vermin-free and the little dog's healthy attitude makes him a fine travelling companion. He is often taken along as a guard for women who must travel much alone. His size makes him acceptable in public lodging and he accepts his responsibility of guarding his owner's possessions.

Following the popularity wane in the 20's and 30's breeders went into the Standard lines for substance. We fell into the Toys, for as we kept breeding Standards we were told we would breed a "good small one" and we did. And it

Continued on page 81

Miniature Poodles were more mixed. Almost to a dog, heads, coats and condition were glorious. The top specimens had excellent body structure. However a small number had poor shoulder placement so that profiles and head carriage were disappointing. A greater number had poor rear quarters with movement stilted, choppy and inefficient, so that they were disappointing in motion. A few otherwise excellent dogs had heads too coarse for my taste. But Beaujeu Regal, (Miss Bobby L. Crutchfield, Austin, Texas) my Winners Dog, Best of Winners and Best of Breed, and Harmo Doll (Anna H. Mosher, Amherst, N.H.), my Winners Female and Best

Opposite, were beautiful. Unfortunately, many of the dogs I liked best, beautifully bred, appeared to have been poorly conditioned so far as muscles were concerned and did not move as I feel such a bright, active, strong breed should. I was disappointed that dogs so beautiful standing could not be equally pretty in motion.

Standard Poodles were extreme in type. On one hand we had stocky sound dogs moving well but lacking required elegance through short necks and coarse heads. On the other we had some flashy dogs lacking the strength of muzzle, forequarters and hindquarters, and the depth

of body, called for repeatedly in the Standard. A combination of these qualities is essential, though difficult to obtain. I was delighted with my Best of Breed, Gina Lollabrigita, (Bettina E. Kapp Narberth, Pa.) a lovely headed, elegant, yet sound and strong black female who to my mind is very much the epitome of the Standard. I had my greatest difficulty of the day deciding between her and the specials male, cream Ch. Tamhurst Falstaff, who is most impressive and upstanding, but in the end gave her Best of Breed for a slight

a look at to-day's

CHIHUAHUAS

by MAXWELL RIDDLE, noted dog journalist, breeder and long-time judge of both bench and hunting events, who points out that the Chihuahua may no longer be the smallest breed in the world.

Twenty years ago, the Chihuahua was a relatively rare breed of dog whose chief claims to distinction were that it was considered to be the world's smallest dog and to be the only breed which had a "hole in its head." So let's take a quick look at the Chihuahua today.

The Chihuahua is no longer one of the world's rare breeds. In the last five years it has been no worse than third in registrations in the United States and it has been among the first ten in registrations in Canada.

The number of registrations of a given breed give no indication of the total population of that breed, since in no country are the majority of eligible dogs registered. But they are an index to the popularity of that breed.

The gradual reduction in size of other toy breeds has meant that the Chihuahua may no longer be the smallest breed in the world. On the average, Chihuahuas may still be, but there are dogs of other toy breeds as small as some of the smallest Chihuahuas.

Chihuahuas still have "a hole in the head." Or the majority of them do. This is caused by the incomplete junction of the skull bones. In newly born human babies, this is called the "fontanel." The bones grow together within a few months. In most Chihuahuas, they never do.

In the Chihuahua breed books, this "hole in the head" is still erroneously called the "molera." There is no such Spanish word. We suppose that someday, the official Standard writers will get around to correcting this to "molera."

Twenty years ago, Chihuahuas were rather long in back and many of them were severely roached. Most of them were horribly unsound. Even then, shorter, more level backed dogs were beginning to appear. The longer backed ones then got the name of the "deer type."

The standard for the breed always has called for a dog slightly longer than tall and today's dogs usually live up to this point. The major improvements have been in top line and in soundness. Many Chihuahuas today are as sound as sport-

ing dogs, not only when posed but in movement.

A really startling improvement has been made in the past 20 years in the Longcoated variety. Early Longcoats, more often than not, just had a short rather ragged body coat and a fringe on the tail. Since they didn't have really short, smooth, fine coats, they had to be called Longcoats.

Today's Longcoats have plenty of hair on the body, and adequate tail plumes. As a result, they have been improving steadily in popularity. Also, while they lagged behind the other variety in improvement in soundness, the best of today's Longcoats yield nothing in this respect to the Smooths.

Breeds which have experienced the amazing population explosion, such as the Chihuahua has, have usually found an increase in serious mental problems, such as shyness. This is an almost inevitable result of breeding without regard to quality just to satisfy the puppy demand.

But nothing like this has happened to Chihuahuas. Probably one reason for this is that Chihuahuas have been bred mostly for house pets, in a more intimate sense than are other breeds, toys excepted. Thus, the majority of Chihuahuas have been bred for temperament first and other considerations after that.

Perhaps a second reason is that Chihuahuas have always been relatively expensive to buy. Those who could afford them were likely to breed carefully. But also, the Chihuahua's rise has been steady rather than spectacular. This has meant that the market demand could always be met without resorting to the mating of culls and fear biters.

Twenty years ago, Chihuahuas did not appear in shows in the numbers one would expect upon the basis of their registrations. They still do not. Undoubtedly the reason still is that Chihuahuas are bred and sold mainly to be house pets.

Yet in recent years, Chihuahuas have been climbing steadily in popularity as show dogs and Obedience competitors. American Kennel Club records for 1960 show that 3,544 Smoothcoats and 1,625

Longcoats competed in the U.S. shows. The total was sufficient to give them leadership in the Toy group.

Their 5,169 total placed them eighth among all breeds of U.S. show competitors, although they currently are second in registrations with more than 50,000 for 1960.

Chihuahua owners haven't discovered the fascination of the Obedience ring to an equal extent with the show ring. Thus, at 1960 U.S. shows, they gained only 30 Obedience titles. This placed them third in the Toy group, and 21st among all breeds.

Their record in Canada parallels that in the United States, although early writers said the Chihuahua could not live in that cold country.

To sum this up, the picture of the modern Chihuahua is something like this: A very small toy dog, which has achieved the soundness of sporting and working dogs; which has proved its ability to live in any climate; has demonstrated its intelligence and trainability; and which has an excellent disposition.

Chihuahua notes: The diminutive hitch-hiker pictured above was caught by a cameraman at a Toronto show. Picaro Dorado hails from the kennels of Mrs. Maureen Samuels, Mimico, Ont.

Three excellent books on the Chihuahua are available through *Dogs in Canada* Book Department: *This is the Chihuahua*, by Max Riddle (\$4.50); *The Chihuahua*, by breeder, journalist and exhibitor Russell E. Kauffman, (\$4.80) and *The Complete Chihuahua* by Denlinger (\$5.25).

First registered Chihuahua in the world was Midget, bred by H. Rayner of El Paso, Texas. Midget was whelped July 18, 1903, by Pluto out of Blanca. Registration took place in 1904.

First Chihuahua champion was Beppie, owned by Mrs. L. A. McLean of Hackensack, N.J. Beppie's sire was Bonito, a litter mate of Midget.

SHOW AND TRIAL RESULTS

The awards at shows and trials reported in this issue are in accordance with official returns received by the Canadian Kennel Club. As such the reports are subject to any necessary corrections, and to such cancellations as may be required by the applicable rules and regulations. Any correspondence regarding these published reports should be addressed to:

SHOW NO. 12-61

CANADIAN NATIONAL SPORTSMEN'S SHOW

Held at Toronto, Ontario on March 17th, 1961 with 327 dogs competing.

JUDGES

- Mr. V. D. Johnson, 12 Stevenson Ave., Savannah, Georgia - All breeds in Group 1; Best in Show & All General Specials.
 Mr. W. McDerment, M.B.E., 213 Davenport Rd., Toronto, Ont. - Groups 4 & 5.
 Mr. W. H. Reeves, 830 Meadow Wood Rd., Clarkson, Ont. - All breeds in Groups 4 & 5; Group 6.
 Mr. H. Schuffman, 1500 Broad St., New Castle, Indiana - All breeds in Group 3.
 Mr. E. E. Vary, Pennington Rd., Rt. 2, Sterling, Ill. - All breeds in Group 6; Groups 2 & 3.
 Mr. S. Whitmore, SS 1, Richmond Hill, Ont. - All breeds in Group 2; Group 1.

GENERAL SPECIALS

- BEST IN SHOW--
 Collie (Rough), Stoneykirk Reflection, Stoneykirk Kls.
 BEST CANADIAN BRED IN SHOW--
 Beagle, Can. & Am. Ch. Beau-A Black Bomber, A. E. Beaumont.
 BEST CANADIAN BRED PUPPY IN SHOW--
 Shetland Sheepdog, Rosslyn's Ban Joe of Summit, Mrs. F. H. Mingie.

GROUP AWARDS

- GROUP 1--SPORTING--
 1st, Spaniel (English Springer), Saillyn's Citation 2nd.
 2nd, Pointer, Bryant's Buckeye Chain D'Or.
 3rd, Setter (English), Zamitz Jumpin Jack.
 4th, Weimaraner, Ch. Sonny's Frober Wanderer (X).
 Y, Retriever (Labrador), Annwyn's Attwood Andy.
 GROUP 2--SPORTING HOUNDS--
 1st, Basset Hound, The Ring's Banshee.
 2nd, Beagle, Can. & Am. Ch. Beau-A Black Bomber (X).
 3rd, Greyhound, True Elegance of Mardormere
 4th, Norwegian Elkhound, Trygvie Vikingsson.
 Y, Beagle, Jacob's Julianna.
 GROUP 3--WORKING--
 1st, Collie (Rough), Stoneykirk Reflection.
 2nd, German Shepherd Dog, Ch. Minka of Hobby House.
 3rd, Old English Sheepdog, Blue Admiral of Box.
 4th, Boxer, Canyonair's Man on Fire.
 X, St. Bernard, Barry Du Grand St. Bernard 2nd.
 Y, Shetland Sheepdog, Rosslyn's Ban Joe of Summit.
 GROUP 4--TERRIERS--
 1st, Fox Terrier (Wire), Stoneygap Short Story.
 2nd, Kerry Blue Terrier, Ch. Tregoad's Vicky's Cappy (X).
 3rd, Scottish Terrier, Yankee Pride Blushing Squaw.
 4th, Schnauzer (Miniature), Ch. Handful's Blue Teal.
 Y, Schnauzer (Miniature), Beggora's Bit O'Boxerly.
 GROUP 5--TOYS--
 1st, Chihuahua (Short Coat), Ch. Valridge Carmel Cream Puff (X).
 2nd, Poodle (Toy), Joli Omar De Gladville.
 3rd, Maltese, Ch. Gina of Villa Malta.
 4th, Pug, Blaylocks Mar Ma Duke.
 Y, Poodle (Toy), Quarrybrae Little Brandy.
 GROUP 6--NON SPORTING--
 1st, Poodle (Miniature), Beaujeu Regal.
 2nd, Boston Terrier, Ch. Sovereign's Escort Bonnie.
 3rd, Poodle (Standard), Bel Tor Too Good To Be True.
 4th, Bulldog, Lakeland Invicta (X & Y).

BREED STANDARDS

ALASKAN MALAMUTE

GENERAL APPEARANCE AND CHARACTERISTICS

The Alaskan Malamute is a powerful and substantially built dog with deep chest and strong, compact body, not too short coupled, with a thick, coarse guard coat of sufficient length to protect a dense, woolly undercoat, from 1 to 2 inches in depth when dog is in full coat. Stands well over pads, and this stance gives the appearance of much activity, showing interest and curiosity. The head is broad, ears wedge shaped and erect when alerted. The muzzle is bulky with only slight diminishing in width and depth from root to nose, not pointed or long, but not stubby. The Malamute moves with a proud carriage, head erect and eyes alert. Face markings are a distinguishing feature. These consist of either cap over head and rest of face solid color, usually greyish white, or face marked with the appearance of a mask. Combinations of cap and mask are not unusual. The tail is plumed and carried over the back, not like a fox brush, or tightly curled, more like a plume waving.

Malamutes are of various colors, but are usually wolfish grey or black and white. Their feet are of the "snow shoe" type, tight and deep, with well-cushioned pads, giving a firm and compact appearance. Front legs are straight with big bone. Hind legs are broad and powerful, moderately bent at stifles, and without cowhocks. The back is straight, gently sloping from shoulders to hips. The loin should not be so short or tight as to interfere with easy tireless movement. Endurance and intelligence are shown in body and expression. The eyes have a "wolf-like" appearance by their position, but the expression is soft and indicates an affectionate disposition.

TEMPERAMENT

The Alaskan Malamute is an affectionate, friendly dog, not a 'one-man' dog. He is a loyal, devoted companion, playful on invitation, but generally impressive by his dignity after maturity.

HEAD

The head should indicate a high degree of intelligence, and is broad and powerful as compared with other "natural" breeds, but should be in proportion to the size of the dog so as not to make the dog appear clumsy or coarse.

SKULL

The skull should be broad between the ears, gradually narrowing to eyes, moderately rounded between ears, flattening on top as it approaches the eyes, rounding off to cheeks, which should be moderately flat. There should be a slight furrow between the eyes; the top line of skull and top line of the muzzle showing but little break downward from a straight line as they join.

MUZZLE

The muzzle should be large and bulky in proportion to size of skull, diminishing but little in width and depth from junction with skull to nose; lips close fitting; nose black; upper and lower jaws broad with large teeth, front teeth meeting with a scissors grip but never overshoot or undershot.

EYES

Brown, almond shaped, moderately large for this shape of eye, set obliquely in skull. Dark eyes preferred.

EARS

The ears should be of medium size, but small in proportion to head. The upper halves of the ears are triangular in shape, slightly rounded at tips, set wide apart on outside back edges of the skull with the lower part of the ear joining the skull on a line with the upper corner of the eye, giving the tips of the ears the appearance, when erect, of standing off from the skull. When erect, the ears point slightly forward, but when the dog is at work the ears are sometimes folded against the skull. High set ears are a fault.

NECK

The neck should be strong and moderately arched.

BODY

The chest should be strong and deep; body should be strong and compactly built but not short coupled. The back should be straight and gently sloping to the hips. The loins should be well muscled and not so short as to interfere with easy, rhythmic movement with powerful drive from the hindquarters. A long loin which weakens the back is also a fault. No excess weight.

SHOULDERS, LEGS AND FEET

Shoulders should be moderately sloping; forelegs heavily boned and muscled, straight to pasterns, which should be short and strong and almost vertical as viewed from the side. The feet should be large and compact, toes tight-fitting and well arched, pads thick and tough, toe nails short and strong. There should be a protective growth of hair between toes. Hind legs must be broad and powerfully muscled through thighs; stifles moderately bent, hock joints broad and strong, moderately bent and well let down. As viewed from behind, the hind legs should not appear bowed in bone, but stand and move true, in line with movement of the front legs, and not too close or too wide. The legs of the Malamute must indicate unusual strength and tremendous propelling power. Any indication of unsoundness in legs or feet, standing or moving, is to be considered a serious fault. Dewclaws on the hind legs are undesirable and should be removed shortly after pups are whelped.

NOTICE

In this special insert in "Dogs in Canada" there appears a number of breed standards adopted by The Canadian Kennel Club for breeds whose standards are not included in "The Complete Dog Book" (edition dated July 1, 1956), an official publication of The American Kennel Club. These standards are for the following breeds: Australian Terrier, Cavalier King Charles Spaniel, Drever, Pointer (German Wire-haired), Pudelpointer, Retriever (Nova Scotia Duck Tolling), Shih Tzu, Staffordshire Bull Terrier, and Vizsla.

In this special insert there is included those breed standards adopted by The Canadian Kennel Club where such are not identical to those included in "The Complete Dog Book" (edition dated July 1, 1956). Such standards are for the following breeds: Alaskan Malamute, Bouvier des Flandres, Bull Terrier (White), Bull Terrier (Colored), Griffon (Brussels), Papillon, Pointer, Puli, Rhodesian Ridgeback, Samoyed, Schipperke, Schnauzer (Miniature), Spaniel (English Springer).

Also included in this special insert are a number of changes adopted by The Canadian Kennel Club, from the breed standards included in "The Complete Dog Book" (edition dated July 1, 1956). Such changes in breed standards are for the following breeds: Basset Hound, Beagle, Belgian Sheepdog, Boston Terrier, Dachshund (all varieties of the Miniature), Dandie Dinmont Terrier, Pinschers (Miniature), Pomeranian, Poodle, Retriever (Chesapeake Bay), Retriever (Labrador), Spaniel (American Cocker), Spaniel (Cumber), Spaniel (English Toy), Spaniel (Field), Spaniel (Sussex).

Except for those complete breed standards, or changes in standards, included in this special insert, the standards recognized and adopted by The Canadian Kennel Club will be found in "The Complete Dog Book" (edition dated July 1, 1956), published by The American Kennel Club.

TAIL

Moderately set and following the line of the spine at the start, well-furred and carried over the back when not working, not tightly curled to rest on back, or short-furred and carried like a fox brush, a waving plume appearance, instead.

COAT

The Malamute should have a thick, coarse, guard coat, not long and soft. The undercoat is dense, from 1 to 2 inches in depth, oily and woolly. The coarse guard coat stands out, and there is a thick fur around the neck. The guard coat varies in length as does the undercoat, however, in general, the coat is moderately short to medium along the sides of the body with the length of the coat increasing somewhat around the shoulders and neck, down the back and over the rump, as well as in the breeching and plume. Malamutes usually have shorter and less dense coats when shed out during the summer months.

COLOR AND MARKINGS

The usual colors range from light grey through the intermediate shadings to black, always with white on underbodies, parts of legs, feet and part of mask markings. Markings should be either cap-like and/or mask-like on face. A white blaze on forehead and/or collar or spot on nape is attractive and acceptable, but broken color extending over the body in spots or uneven splashing is undesirable. One should distinguish between mantled dogs and splash-colored dogs. The only solid color allowable is the all-white.

SIZE

There is a natural range in size in the breed. The desirable freighting sizes are:

MALES: 25 inches at the shoulders - 85 pounds

FEMALES: 23 inches at the shoulders - 75 pounds

However, size consideration should not outweigh that of type, proportion and functional attributes, such as shoulders, chest, legs, feet and movement. When dogs are judged equal in type, proportion and functional attributes, the dog nearest the desirable freighting size is to be preferred.

IMPORTANT In judging Alaskan Malamutes their function as a sledge dog for heavy freighting must be given consideration above all else. The judge must bear in mind that this breed is designed primarily as the working sledge dog of the North for hauling heavy freight, and therefore, he should be a heavy-boned, powerfully built, compact dog with sound legs, good feet, deep chest, powerful shoulders, steady, balanced, tireless gait, and the other physical equipment necessary for the efficient performance of his job. He isn't intended as a racing sled dog designed to compete in speed trials with the smaller Northern breeds. The Malamute as a sledge dog for heavy freighting is designed for strength and endurance and any characteristic of the individual specimen, including temperament, which interferes with the accomplishment of this purpose are to be considered the most serious of faults. Faults under this provision would be splay-footedness, any indication of unsoundness or weakness in legs, cowhocks, bad pasterns, straight shoulders, lack of angulation, stiffed gait or any gait which isn't balanced, strong and steady; ranginess, shallowness, ponderousness, lightness of bone, poor over-all proportion and similar characteristics.

SCALE OF POINTS

General Appearance	20
Head	15
Body	20
Legs and Movement	20
Feet	10
Coat and Color	10
Tail	5

Total 100

AUSTRALIAN TERRIER

1. GENERAL APPEARANCE

Rather low set, compact, active, with good straight hair, the harder the better, coat about from two to two and a half inches long. Average weight about 10 or 11 lbs. Weight from 8 to 14 lbs. Average height about 10 ins. Height 8 to 12 ins.

2. HEAD

Long and flat, skull full between the eyes, with soft hair top knot, long powerful jaw. Customary mouth of a Terrier, i.e. the top teeth fitting closely over the lower. Nose black, eyes small, keen and dark colour.

3. EARS

Small, set high on skull, pricked or dropped towards the front, free from long hairs.

4. NECK

Inclined to be long in proportion to body, with decided frill of hair.

5. BODY

Rather long in proportion to height, well ribbed up. Reasonably narrow chest running from sloping shoulders, back straight, tail docked.

6. LEGS

Fore-legs: perfectly straight, well set under the body. Should not turn out at pasterns, slight feather to the knee, clean feet, black toe nails.

Hind-legs: good strong thigh, hock slightly bent. Feet small, well padded, with no tendency to spread.

7. COLOUR

First: Body blue or silver grey, legs tan (the richer the better), face tan below the ears, black nose, blue or silver top knot. Second: Clear sandy or red with soft top knot.

Objectionable: Black coat (except in puppies). Curly or woolly coat. Overshot or undershot. White markings on chest. White toe nails. Dudley or flesh coloured nose.

BASSET HOUND

CHANGE IN STANDARD

Delete the sentence appearing after the heading "Neck and Shoulders". In its place substitute the following:

"The neck is powerful, with heavy pendant dewlaps. The shoulders are muscular, sloping and well laid back."

BEAGLE

CHANGE IN STANDARD

Delete the paragraph in the present standard designated "Height", and substitute in its place the following Scale of Points:

VARIETIES - there shall be two varieties:

Thirteen Inch - which shall be for hounds not exceeding thirteen inches in height;

Fifteen Inch -- which shall be for hounds over thirteen but not exceeding fifteen inches in height.

Disqualification: Any hound measuring more than fifteen inches shall be disqualified.

BELGIAN SHEEPDOG

CHANGE IN STANDARD

The "Distinctive Characteristics" of the Groenendael have been amended to read as follows:

Long-haired COLOR

(a) Black. Some white hairs on the chest and hind feet are allowed. Long, smooth, straight and flat over the entire surface of the body, except on the head, the outside of the ears and the lower part of the legs, where it is short. The opening of the ear is protected by tufts of hair. The neck is adorned with long and abundant hair, like a collar. The back of the forearm is ornamented with a fringe of long hair from the elbow to the level of the knee. The hindquarters are trimmed with long, abundant hair forming what is known as the

breeches. The tail is heavily plumed.
(b) Fawn.
(c) Any other color.
Wavy or curly hair are faults.

CHANGE IN STANDARD

The "Distinctive Characteristics" of the Malinois have been amended to read as follows:

Short-haired COLOR

(a) Brindled fawn with black mask. Besides the general characteristics of the breed, this variety is recognized by the hair, which appears short over the entire body, notably on the head and lower part of the limbs; half-length elsewhere and more furred around the neck and tail. The back of the hind legs is fringed with long hair.
(b) Fawn.
(c) Any other color.
Defects: Hair too short. Harsh hairs scattered through the short hair. Coat too light.

BOSTON TERRIER

CHANGE IN STANDARD

A new section, replacing the present section under the heading "Ears", to read as follows:

"Ears - carried erect, either cropped to conform to the shape of the head, or natural bat, situated as near the corners of skull as possible".

BOUVIER DES FLANDRES

The Bouvier des Flandres is a rough-coated dog of notably rugged appearance as befitting an erstwhile cattle driver and farmers' helper of Flanders, and later an ambulance dog and messenger in World War I. He is a compact-bodied, powerfully built dog of upstanding carriage and alert, intelligent expression.

HEAD

The head is medium long, with the skull slightly longer than the muzzle.

SKULL

Almost flat on top, moderately wide between the ears, and sloping slightly toward the muzzle. The brow is noticeably arched over the eyes. The stop is shallow, and the under-eye fill-in good.

EARS

Rough-coated, set high on the head and cropped to a triangular contour. They stand erect and are carried straight up.

EYES

Neither protruding nor sunken, the eyes are set a trifle obliquely in the skull and not too far apart. They are of medium size and very nearly oval. Preferred color, a dark nut-brown. Black eyes, although not considered faulty, are less desirable as contributing to a somber expression. Light-colored eyes, and staring or wild expression are faulty.

MUZZLE

Wide, deep and well filled out, the width narrowing gradually towards the tip of the nose. Cheeks are clean or flat-sided, the jaws powerful, and the lips dry and tight-fitting. A narrow muzzle, suggestive of weakness, is faulty.

TEETH

Strong and white, with the canines set well apart, the teeth meet in a scissors bite.

NOSE

Black and well developed, the nostrils wide open. Across the top the contour is a trifle rounded as opposed to flat. Brown, pink and spotted noses are faulty.

NECK AND SHOULDERS

The neck is well rounded, slightly arched, and carried almost upright, its thickness gradually increasing as it fits gracefully into the shoulders. Clean and dry at the throat. The shoulders are long and sloping.

BODY AND TAIL

The brisket is deep, extending down at least to the point of the elbows, and of moderate width.

BACK

Short, strong and straight.

LOINS

Short, taut and slightly arched in top line, while the rump is broad and square rather than sloping. Ribs are deep and well sprung. As advantageous for breeding purposes, slightly greater length of loin is permissible in bitches.

TAIL

Set high, carried up, and docked to about 4 inches.

LEGS AND FEET

The leg bones, although only moderate in girth, are made to appear heavy because of their covering with thick, rough hair.

FORELEGS

Straight as viewed from the front or side, with elbows turned neither in nor out.

HINDLEGS

Hindquarters are firm and well muscled, with large, powerful hams. Legs are strong and sturdy, with hocks well let down and wide apart. They are slightly angulated at stifle and hock joints. Viewed from the back they are absolutely parallel.

FEET

Round, compact, with toes arched and close. The nails are black, the pads thick and tough.

COAT

Rough, tousled and unkempt in appearance, the coat is capable of withstanding the hardest work in the most inclement weather.

TOPCOAT

Harsh, rough and wiry, and so thick that when separated by the hand the skin is hardly visible.

UNDERCOAT

Fine and soft in texture, and thicker in winter. On the skull the hair is shorter and almost smooth. On the brows it is longer, thus forming eyebrows. Longer growth on muzzle and underjaw form mustache and beard. On the legs it is thick and rough, on the feet rather short. Soft silky or woolly topcoats are faulty.

COLOR

From fawn to black; pepper and salt, gray and brindle. A white star on the chest is allowed. Chocolate brown with white spots is faulty.

HEIGHT

Dogs from 23-1/2 inches to 27-1/2 inches; bitches a minimum of 22-3/4 inches.

SCALE OF POINTS

Coat	20

Symmetry, size and character	15

Total 100

BULL TERRIER (WHITE)

The Bull Terrier must be strongly built, muscular, symmetrical and active, with a keen determined and intelligent expression, full of fire but of sweet disposition and amenable to discipline.

HEAD

The head should be long, strong and deep right to the end of the muzzle, but not coarse. Full face it should be oval in outline and be filled completely up giving the impression of fullness with a surface devoid of hollows or indentations, i.e., egg shaped. In profile it should curve gently downwards from the top of the skull to the tip of the nose. The forehead should be flat across from ear to ear. The distance from the tip of the nose to the eyes should be perceptibly greater than that from the eyes to the top of the skull. The underjaw should be deep and well defined.

LIPS

The lips should be clean and tight.

TEETH

The teeth should meet in either a level or in a scissor bite. In the scissors bite the top teeth should fit in front of and closely against the lower teeth, and they should be sound, strong and perfectly regular.

EARS

The ears should be small, thin and placed close together. They should be capable of being held stiffly erect, when they should point upwards.

EYES

The eyes should be well sunken and as dark as possible, with a piercing glint and they should be small, triangular and obliquely placed; set near together and high up on the dog's head.

NOSE

The nose should be black, with well developed nostrils bent downwards at the tip.

NECK

The neck should be very muscular, long, arched and clean, tapering from the shoulders to the head and it should be free from loose skin.

CHEST

The chest should be broad when viewed from in front, and there should be great depth from withers to brisket, so that the latter is nearer the ground than the belly.

BODY

The body should be well rounded with marked spring of rib, the back should be short and strong. The back ribs deep. Slightly arched over the loin. The shoulders should be strong and muscular but without heaviness. The shoulder blades should be wide and flat and there should be a very pronounced backward slope from the bottom edge of the blade to the top edge. Behind the shoulders there should be no slackness or dip at the withers. The underline from the brisket to the belly should form a graceful upward curve.

LEGS

The legs should be big boned but not to the point of coarseness; the forelegs should be of moderate length, perfectly straight, and the dog must stand firmly upon them. The elbows must turn neither in nor out, and the pasterns should be strong and upright. The hindlegs should be parallel viewed from behind. The thighs very muscular with hocks well let down. Hind pasterns short and upright. The stifle joint should be well bent with a well developed second thigh.

FEET

The feet round and compact with well arched toes like a cat.

TAIL

The tail should be short, set on low, fine, and ideally should be carried horizontally. It should be thick where it joins the body, and should taper to a fine point.

COAT

The coat should be short, flat, harsh to the touch and with a fine gloss. The dog's skin should fit it tightly.

COLOR

The color should be pure white, though markings on the head are permissible. Any markings elsewhere on the coat shall disqualify.

MOVEMENT

The dog shall move smoothly, covering the ground with free, easy strides, fore and hindlegs should move parallel each to each when viewed from in front or behind. The forelegs reaching out well and the hindlegs moving smoothly at the hip and flexing well at the stifle and hock. The dog should move compactly and in one piece but with a typical jaunty air that suggests agility and power.

FAULTS

Any departure from the foregoing points shall be considered a fault, and the seriousness of the fault shall be in exact proportion to its degree, i.e. A very crooked front is a very bad fault; a rather crooked front is a rather bad fault; and a slightly crooked front is a slight fault.

BULL TERRIER (COLORED)

The Standard for the Colored Variety is the same as for the White except for the sub-head "Color" which reads:

COLOR

Any color other than white, or any color with white markings. Preferred color, brindle. A dog which is predominantly white shall be disqualified.

CAVALIER KING CHARLES SPANIEL

GENERAL APPEARANCE

An active, graceful, well-balanced dog. Absolutely fearless and sporting in character and very gay and free in action.

HEAD AND SKULL

Head almost flat between the ears, without dome. Stop shallow; length from base of stop to tip about 1-1/2 inches. Nostrils should be well developed and the pigment black. Muzzle well tapered to the point. Lips well covering, but not hound-like.

EYES

Large, dark and round, but not prominent. The eyes should be spaced well apart.

EARS

Long and set high, with plenty of feather.

MOUTH

Level.

NECK

Should be well set on.

FOREQUARTERS

Shoulders not too straight. Legs: moderate bone, straight.

BODY

Should be short-coupled with plenty of spring of rib. Back level. Chest moderate, leaving ample heart room.

HINDQUARTERS

Legs: moderate bone, straight.

FEET

Compact, well-cushioned and well feathered.

TAIL

The docking of tails is optional. The length of the tail should be in balance with the body.

COAT

Long, silky and free from curl. A slight wave is permissible. There should be plenty of feather.

COLOUR

Black and Tan - raven black with tan markings above eyes, on cheeks, inside ears, on chest and legs and underside of tail. Tan should be bright. Ruby - whole-coloured rich red. Blenheim - rich chestnut markings well broken-up on a pearly white ground. The markings should be evenly divided on the head, leaving room between the ears for the much valued lozenge mark or spot, a unique characteristic of this breed. Tri-colour - Black and white, well spaced and broken-up, with tan markings over the eyes, on cheeks, inside ears, inside legs and on underside of tail. Black and White permissible but not desirable.

WEIGHT AND SIZE

Weight: 10 to 18 lbs. A small well balanced dog well between these weights is desirable.

FAULTS

Light eyes. Undershot and crooked mouths and pig jaws. White marks on whole coloured specimens. Coarseness of type. Putty noses. Flesh marks. Nervousness.

DACHSHUNDS

CHANGE IN STANDARD

Confirming an earlier ruling of the Board concerning the maximum permissible height at shows for Miniature Dachshunds, the Board has ordered the following added to the standards for the three varieties of Miniature Dachshunds:

"A Miniature Dachshund over 9 lbs. is not eligible to compete at shows held under the Dog Show Rules of The Canadian Kennel Club. If, at such a show, a Miniature Dachshund is officially weighed and is found to exceed 9 lbs. said dog shall be declared absent and not permitted in competition at the show."

DANDIE DINMONT TERRIER

CHANGE IN STANDARD

Delete the first sentence in the paragraph headed "Weight", substituting in its place the following:

"The preferred weight from 18 to 24 pounds."

DREVER

TOTAL APPEARANCE

The Drever should be of somewhat less than medium size. Appearance from the side should be rectangular. It must be compact, of good stature, powerful with well-developed musculature, lithe and agile. It must be alert and self-possessed. External sexual characteristics should be well developed.

HEAD

The head should be relatively large. It should be longish, broadest between the ears, diminishing toward the snout with a slight supraorbital ridge. The snout should be well developed and snippy neither from above nor from the side view. The bridge of the nose should be straight or slightly convex. The tip of the nose should be well developed with wide nostrils. It is preferably black. The lower edge of the upper lip should overlap the edge of the lower jaw. The lower lip should fit tightly against the lower jaw. The bite should be powerful and the upper incisors fit firmly against the lowers.

EYES

The eyes should be clear and expressive. They must not protrude or be stary. They are preferably dark brown. The eye lids should be thin and fit closely over the eyes.

EARS

The ears should be of medium length and wide, bluntly rounded at the tips. They must be set neither especially high nor low. When at attention the forward edge of the ear should be against the head.

NECK

The neck should be long and powerful. It should flow gracefully and

smoothly into the trunk. The skin of the neck should be fairly loose though not so loose as to form pouches at the throat or chin.

TRUNK

The back should be straight or, from side view, slightly arched at the rear. It should be strong and slope gently from the withers to the sacral region. The hind quarters should flow evenly in to the slightly ascending line of the abdomen.

EXTREMITIES

The shoulders should be muscular with long, sloping shoulder blades, set well into the chest and back. The points of the shoulder blades must not extend up over the apophysis of the spine of the vertebrae of the withers. The front legs should be powerful and in front view, straight and parallel. The upper foreleg should be relatively long and broad and form a good angle with the shoulder blade. The meta carpus should be springy and form only a slight angle with the radius and ulna. From rear view the hind legs should be straight and parallel. There should be good bends at knee and back joints. The thighs should be muscular and broad from side view. The meta tarsus should be short and almost perpendicular. There should be no dewclaws. Both front and back paws should be firm with toes pointing forward and close together. The pads should be well developed and hard.

TAIL

The tail should be long and thick at the root. Preferably, it should be carried hanging, but when the dog is in motion it may be carried higher, though never over the back.

COAT

The coat should be complete. The hair should be close and straight. On the head, ears, lower legs, upper side of tail it should be relatively short; longer on the neck, back and back part of the thighs. It should be bristly on the underside of the tail, but not feathered.

COLOUR

All colours are permitted, but there must be some white visible from front sides and back. It should preferably appear on the front, including the neck, and at the tip of the tail and on the paws. The colour should be clean.

HEIGHT

The height of the dog at the withers should be 36cm, of the bitch, 34. The dogs height should not exceed 40 cm, nor be less than 32. The height of the bitch should not vary from a maximum of 38 cm and a minimum of 30.

GRIFFON (BRUSSELS)

GENERAL APPEARANCE

A toy dog, intelligent, alert, sturdy, with a thick-set short body, a smart carriage and set-up, attracting attention by an almost human expression.

HEAD

Skull: Large and round, with a domed forehead. Ears - small and set rather high on the head. May be shown cropped or natural. If natural they are carried semi-erect. Eyes - should be set well apart, very large, black, prominent, and well open. The eyelashes long and black. Eyelids edged with black. Nose - very black, extremely short, its tip being set back deeply between eyes so as to form a lay-back. The nostrils large, the stop deep. Lips - edged with black, not pendulous but well brought together, giving a clean finish to the mouth. Jaws - chin must be undershot, prominent, and large with an upward sweep. The incisors of the lower jaw should protrude over the upper incisors and the lower jaw should be rather broad. Neither teeth nor tongue should show when the mouth is closed. A wry mouth is serious fault.

BODY AND LEGS

Brisket should be broad and deep, ribs well sprung, back level and short. Neck - medium length, gracefully arched. Tail - set and held high, docked to about one third. Forelegs - of medium length, straight in bone, well muscled, set moderately wide apart and straight from the point of the shoulders as viewed from the front. Pasterns short and strong. Hind legs - set true, thighs strong and well muscled, stifles bent, hocks well let down, turning neither in nor out. Feet - round, small and compact, turned neither in nor out. Toes well arched. Black pads and toenails preferred.

COAT

There are two distinct types of coat - rough and smooth. The rough coat should be wiry and dense, the harder and more wiry the better. On no account should the dog look or feel woolly, and there should be no silky hair anywhere. The coat should not be so long as to give a shaggy appearance, but should still be distinctly different all over from the smooth coat. The head should be covered with wiry hair, slightly longer around the eyes, nose, cheeks, and chin, thus forming a fringe. The smooth coat is similar to that of the Boston Terrier or English Bulldog, with no trace of wire hair.

COLOR

In the rough-coated type, coat is either: 1. reddish brown, with a little black at the whiskers and chin allowable, or 2. black and reddish brown mixed, usually with black mask and whiskers, or, 3. black with uniform reddish brown markings, usually appearing under the chin, on the legs, over the eyebrows, around the edges of the ears and around the vent, or, 4. solid black.

The colors of the smooth-coated type are the same as those of the rough-coated type. Any white hairs in either the rough or smooth coat are a serious fault, except for "frost" on the black muzzle of a mature dog, which is natural.

WEIGHT

For the class of dogs and bitches of a small size, the weight should not exceed 7 pounds. For the class of dogs and bitches of a large size, that is weighing more than 7 pounds, the weight should not exceed 11 pounds for dogs and 12 pounds for bitches. Note: Type and quality are of greater importance than weight, and a smaller dog that is sturdy and well proportioned should not be penalized.

DISQUALIFICATIONS

Dudley or butterfly nose, white spot or blaze anywhere on coat, hanging tongue, jaw overshot.

PAPILLON

GENERAL APPEARANCE

The Papillon is a toy dog of fine-boned structure. It is gentle, intelligent, dainty, and of lively action. It is not a diminutive form of a breed. There is only one classification -- the toy.

HEAD

The head of the Papillon is well proportioned to the body. It may appear small because it is covered with short hair while the rest of the body is heavily coated. The skull should be of medium width and slightly rounded between the ears. A well-defined stop is formed where the muzzle joins the skull. The muzzle is shorter than the skull and is fine, it is abruptly thinner than the head, becoming more slender down to the nose.

NOSE

The nose of the Papillon is small and rounded, and is slightly flat on top. It should be black.

Disqualification: Pink nose, or one with pink spots.

EYES

The eyes of the Papillon are dark and expressive. The center of the eyes is on a line with the stop. The shape of the eye is round. Rim around the eyes should be black. Eyes must not bulge.

MOUTH

The jaws of the Papillon are well adjusted; the lips are tight and thin, and should be black. Teeth should meet in a scissors bite.

Fault: The jaw should not be overshot or undershot.

EARS

The ears of Papillons of either the erect or the drop type should be large and set on the sides of the head. The ears should be fringed.

(1) The erect type of ears is carried obliquely and moves like the spread wings of a butterfly. At rest or when relaxed, their position forms an angle of approximately 45 degrees to the head. The concha is largely open, and the inside is entirely visible and covered with silken hair. The ears should be of fine leather and of sufficient strength to maintain the opened-up position.

(2) The drop type of ears (known on the Continent as Phalene), is similar to the erect type, but the ears are carried drooping, and must be completely down.

Major fault: Ears partly down.

NECK

The neck of the Papillon is slender, and is lost in the collar.

BODY

The body of the Papillon must be slightly longer than high. The Papillon is not a cobby dog. The back is level. The chest is of medium depth and width. The ribs are arched. The loins are tucked up.

SHOULDERS

The shoulders of the Papillon should be flexible and well-angled, and are hidden by hair.

FORELEGS

The forelegs of the Papillon are fine and straight. It stands with front feet rather close together. The back of the forelegs is covered with abundant fringes, diminishing to the pastern; the front of the forelegs is covered with short hair.

HINDLEGS

The thighs are fairly muscular and well-angled. The hindlegs are slender and parallel when viewed from behind. They are covered to the hocks with abundant breeches (culottes); the hind pastern is covered with short smooth hair. The stifles are well-angled. The hocks are placed fairly high.

Fault: Cow hocks.

FEET

The feet of the Papillon are thin and elongated (harelike). The toes are close and arched. The hair on the feet is short, but fine tufts may appear between the toes and grow beyond them, forming a point.

TAIL

The tail of the Papillon is set high and carried well arched over the body. The plume on the tail usually hangs on the side of the body.

COAT

The Papillon's coat is short and smooth on the head, muzzle, front of legs, and back of legs from the hocks downward. The hair around the neck forms a collar. The hair on the neck, shoulders, and breast is abundant in comparison with that on the rest of the body. The back of the forelegs should be well fringed, the length of the fringes shortening down to the pastern. The tail is covered with a long abundant plume.

QUALITY OF COAT

The coat is profuse and shiny, and may be slightly wavy, but not curly. There is no undercoat. The hair on the back is flat. The coat is soft and comparatively fine, but has a resilient quality.

SIZE

The height of the Papillon at the withers should be 11 inches or under. The weight and height should be in good proportion.

Disqualification: 12 inches and over.

GAIT

The gait is free, quick, easy and graceful.

COLOR AND MARKINGS

Papillons are two-colored or tri-colored. The usual two-colors are white and black, white and sable, or white and some shade of red, varying from light tan to deep red. The color is usually in spots or patches thrown in relief against white, which predominates. The size, shape, and placement of the patches are without importance. The tri-colored Papillon is black and white with tan spots. The tan spots may appear over the eyes, on the cheeks, in the ears, and under the tail. The exact placement or omission of the tan spots is of no importance. The black appears in patches on white in the same manner as in the dog of two colors. A saddle is permissible. A blaze is desirable, but not essential. Among the allowable colors and markings, there is no preference.

Fault: A coat of solid color.

PINSCHER (MINIATURE)

CHANGE IN STANDARD

Delete the paragraph in the present standard headed "Size and Weight" replacing it with a new paragraph headed "SIZE", reading:

SIZE

Desired height 11 inches to 11-1/2 inches at the withers. A dog of either sex measuring under 10 inches or over 12-1/2 inches shall be disqualified.

POINTER

GENERAL APPEARANCE

The Pointer is bred primarily for sport afield; he should unmistakably look and act the part. The ideal specimen gives the immediate impression of compact power and agile grace; the head noble, proudly carried; the expression intelligent and alert; the muscular body bespeaking both staying power and dash. Here is an animal whose every movement shows him to be a wide-awake, hard driving hunting dog possessing stamina, courage, and the desire to go. And in his expression are the loyalty and devotion of a true friend of man.

TEMPERAMENT

The Pointer's even temperament and alert good sense make him a congenial companion both in the field and in the home. He should be dignified, yet showing at all times a responsive attitude.

HEAD

Skull long and proportionately wide, but indicating length rather than width. Slight furrow between the eyes, cheeks cleanly chiseled. A pronounced stop midway between nostrils and occiput. Muzzle long, in the same plane as the skull. Jaws ending level and square, with scissors or even bite. The flews clean. Nostrils large, spongy, widely open.

EARS

Set on at eye level. When hanging naturally, they should reach below the lower jaw, close to the head, with little or no folding. They should be somewhat pointed at the tip - never round - and soft and thin in leather.

EYES

Of medium size, rounded, pleasant in expression and the darker the better.

NECK

Long, dry, muscular and slightly arched, springing cleanly from the shoulders.

SHOULDERS

Long, thin, and sloping. The top of blades close together.

FRONT

Elbows well down, directly under the withers and truly parallel, so as to work just clear of the body. Forelegs straight and with oval bone. Knee-joint never to knuckle over. Pasterns of moderate length, perceptibly finer in bone than the leg, and slightly slanting. Chest, deep rather than wide, must not hinder free action of the forelegs. The breastbone bold without being unduly prominent. The ribs well sprung, descending as low as the elbow-point.

BACK

Strong and solid, with only a slight rise from croup to top of shoulders. Loin of moderate length, powerful and slightly arched. Croup falling only slightly to base of tail. Tuck-up should be apparent, but not exaggerated.

TAIL

Heavier at the root, gradually tapering to a fine point. Length no greater than to reach to the hock-joint. Carried straight, ideally on a level with the back.

HINDQUARTERS

Muscular and powerful, with great propelling leverage. Thighs long and well-developed. Stifles wide and well bent. The hocks clean and parallel. Decided angulation is the mark of power and endurance.

FEET

Oval, with long, closely-set, arched toes, well padded, and deep.

COAT

Short, dense, smooth with a sheen.

COLOR

Liver, lemon, black, orange; either in combination with white or solid-colored. A good Pointer cannot be a bad color. In the darker colors, the nose should be black or brown; in the lighter shades it may be lighter or flesh-colored.

GAIT

Smooth frictionless, with a powerful hindquarters drive. The head should be carried high, the nostrils wide, the tail moving from side to side rhythmically with the pace, giving the impression of a well-balanced, strongly-built hunting dog capable of top speed combined with great stamina.

BALANCE AND SIZE

Balance - over-all symmetry - is much more important in the Pointer than size. It is just as vital in a dog bred for field work as it is in an athlete or a race horse, and for the same reasons; it indicates muscular co-ordination, endurance, and an equilibrium of power. Whether large or small, a well put-together Pointer, "smooth all over", is to be preferred to an uneven one with contrasting good and bad points. Provided there is balance, considerable variation in size and weight is permissible.

FAULTS

General Appearance -- Lack of true Pointer type. Hound or terrier characteristics. Temperament -- timidity, unwilliness.
Head -- Blocky or apple head. Short or snipey muzzle or frog face. Bulging cheeks or pendulous flews. Lack of stop, down-face, Roman nose. Undershot or overshot. Small or dry nostrils.
Ears -- Low set, round, heavy, folded, leathery or hound ears.
Eyes -- Light, hard, almond, or staring eyes.
Neck -- Ewe neck. Throatiness. Short, thick neck.
Shoulders -- Loaded or bossy shoulders. Set wide apart at top. Straight shoulders, no slope.
Front -- Elbows turned either in or out. Forelegs knuckled over. Straight pasterns, terrier-front. Bone of forelegs coarse, fine, or round. Narrow chested, shallow, shelly, pigeon-breasted. Chest too wide, resulting in elbows out. Ribs too flat or too barrelled.
Back -- Roach or sway back. Unbalanced length of body. Cobbiness. Steep rise, or none at all, in top-line. Sagging or long, thin loin. Croup falling away too sharply.
Tail -- Rat tail. Set on too high or too low. Carried between the legs, or carried high, flag-pole tail.
Hindquarters -- Straight or narrow stifles. Cow hocks. Lack of angulation or straight in stifle. Any suggestion of weakness in hindquarters.
Feet -- Cat-foot. Thin or soft pads. Splayed feet. Flat toes.
Coat -- Long hair or curl. Soft or silky coat.
Color -- Weak or washed-out colors. Light or flesh-colored noses in a dark-colored dog. Butterfly nose.
Gait -- Crossing-over, sprawling or side-tracking. Stepping too high in front - the hackney gait.

POINTER (GERMAN WIRE-HAIRED)

The German Wirehaired Pointer is a dog that is essentially Pointer in type, of sturdy build, lively manner, and an intelligent, determined expression. In disposition the dog has been described as energetic, rather aloof but not unfriendly.

HEAD

The head is moderately long, the skull broad, the occipital bone not too prominent. The stop is medium, the muzzle fairly long with nasal bone straight and broad, the lips a trifle pendulous but close and bearded. The nose is dark brown with nostrils wide open, and the teeth are strong with scissors bite. The ears, rounded but not too broad, hang close to the sides of the head. Eyes are brown, medium in size, oval in contour, bright and clear and overhung with bushy eyebrows. Yellow eyes are not desirable. The neck is of medium length, slightly arched and devoid of dewlap, in fact, the skin throughout is notably tight to the body.

BODY AND TAIL

The body is a little longer than it is high, as ten is to nine, with the back short, straight and strong, the entire back line showing a perceptible slope down from withers to croup. The chest is deep and capacious, the ribs well sprung, loins taut and slender, the tuck-up apparent. Hips are broad, with croup nicely rounded and the tail docked, approximately 2/5ths of original length.

LEGS AND FEET

Forelegs are straight, with shoulders obliquely set and elbows close. The thighs are strong and muscular. The hind legs are moderately angulated at stifle and hock and as viewed from behind, parallel to each other. Round in outline, the feet are webbed, high arched with toes close, their pads thick and hard, and their nails strong and quite heavy. Leg bones are flat rather than round, and strong, but not so heavy or coarse as to militate against the dog's natural agility.

COAT

The coat is weather resisting and to some extent water repellent. The undercoat is dense enough in winter to insulate against the cold but so thin in summer as to be almost invisible. The distinctive outer coat is straight, harsh, wiry and rather flat-lying, from one and one half to two inches in length, it is long enough to protect against the punishment of rough cover but not so long as to hide the outline. On the lower legs it is shorter and between the toes of softer texture. On the skull it is naturally short and close fitting, while over the shoulders and around the tail it is very dense and heavy. The tail is nicely coated particularly on the underside, but devoid of feather. These dogs have bushy eyebrows of strong, straight hair and beards and whiskers of medium length.

A short smooth coat, a soft woolly coat or an excessively long coat is to be severely penalized.

COLOR

The coat is liver and white, usually either liver and white spotted, liver roan, liver and white spotted with ticking and roaning or sometimes solid liver. The nose is dark brown. The head is brown, sometimes with a white blaze, the ears brown.

Any black in the coat is to be severely penalized. Spotted and flesh colored noses are undesirable and are to be penalized.

SIZE

Height of males should be from 24 to 26 inches at the withers, bitches smaller but not under 22 inches.

POMERANIAN

CHANGE IN STANDARD

Delete the present paragraph under "Color" and in its place substitute the following:

COLOR

Twelve colors, or color combination are permissible and recognized namely, black brown, chocolate, beaver, red, orange, cream, orange-sable, wolf-sable, blue, white and parti-color. The beaver color is a dark beige. A parti-color dog is white with orange or black color distributed in even patches on the body, with white blaze on head desirable. Where whole colored and parti-colored Pomeranians compete together, the preference should, other points being equal, be given to the whole colored specimen. Sable-colored dogs must be shaded throughout as uniformly as possible, with no self-colored patches. In orange-sable, the

undercoat must be a light tan color with deeper orange guard hairs ending in black tipplings. In wolf-sable the undercoat is light gray with a deeper shade of steel gray guard hairs ending in black tipplings. A shaded muzzle on the sables is permissible, but a black mask on sables is a minor fault. Orange Pomeranians must be self-colored throughout with light shadings of the same tone (not white) on breechings permitted. A black mask on an orange Pomeranian is a major fault. White chest, white foot, or white leg on whole colored dogs are major faults. White hairs on black, brown, blue, or sable Pomeranians are objectionable. Tinges of lemon, or any other color, on white dogs are objectionable. The above colors, as described, are the only allowable colors or combination of colors for Pomeranians.

POODLE

CHANGE IN STANDARD

The Standard for the Poodle has been amended as follows:

(1) Section 14 has been amended to read as follows:

"14. Disqualifications

Parti-colors.

Unorthodox clip.

Any size over or under the limits specified in Section 15."

(2) Section 15 has been amended to read as follows:

"15. Size--The Standard Poodle is 15 inches or over at the withers. Any Poodle which is less than 15 inches in height shall be disqualified from competition as a Standard Poodle.

The Miniature Poodle is under 15 inches at the withers with a minimum height in excess of 10 inches. Any Poodle which is 15 inches or over or 10 inches or under at the withers shall be disqualified from competition as a Miniature Poodle.

The Toy Poodle is 10 inches or under at the withers. Any Poodle which is more than 10 inches at the withers shall be disqualified from competition as a Toy Poodle."

PUDELPONTER

GENERAL APPEARANCE

The overall picture should be that of an agile, versatile hunting dog with sufficient height, standing over plenty of ground. The dog should look powerful, taut with grace and nobility. His character should indicate enthusiasm for work, keenness, spark and strong nerves.

COAT

Dense and hard, rather tight to the body with fine woolly undercoat. Medium long. Faulty is long, soft, open hair that does not fit close to the body as well as short, mousy hair without beard.

COLOR

Dark liver to autumn leaves. Black only where dogs carry concentrated Pointer blood. Inconspicuous small white marks (chest and paws) are permitted.

HEAD

Long and wide, harmonically balanced muzzle and forehead. Well developed beard and eyebrows. Ears medium size, close to head, slightly turned forward, not fleshy or houndy, rather pointed than round and well covered with protecting hair.

EYES

Rather large, agile, dark amber, well closed eyelids. Open eyelids disqualify dogs for breeding purposes.

NECK

Medium long well muscled and arched.

CHEST

Wide, very deep, ribs rather barrel round.

BACK

Short, strong loins and croup wide with well developed muscles. Tail in line with croup not carried upwards.

FRONTQUARTERS

Shoulder close to the body, well covered with muscles. Shoulder and upper arm with plenty of angulation creating a long stride. Elbow located well back off brisket neither turned in nor outwards. Forearm straight, dry, clear lines and bones, well covered with hard protecting hair.

HINDQUARTERS

Upper and lower thigh well angulated, lower thigh long with backward slope toward hock joint. Bone from hock to pad absolutely straight.

PAWS

Round, closed, with hard pad. Hairs on and between paws not long.

TAIL

Rather thin, carried level, no feathering but covered with hard dense hair, docked like other versatile gun dog breeds.

PULI

GENERAL APPEARANCE AND CHARACTERISTICS

The Puli with his rich shaggy coat and his bear-like rocking pace has a striking appearance, which unmistakably shows the purpose for which he has been bred, the strenuous work herding the flock in all kinds of weather on the plains of Hungary; hence SOUNDNESS is of greatest importance and absolutely necessary for the proper fulfillment of his centuries-old task.

This breed has a certain aloofness which does not lend itself to immediate and indiscriminate friendship. He has a quiet temperament, though vigorous, sturdy and active. His faithfulness towards his master is proverbial. The Puli must not be timid, shrinking behind his master. Lack of confidence under any surroundings is not typical of good character. So, extreme timidity and nervous unbalance are a serious fault.

The striking Breed characteristic of the Puli is his unusual but typical coat of matted hair, the result of hundreds of years of natural development, and is adapted to outdoor living and extreme climates. There is nothing artificial in this coat, as nature made it grow like that and it is a sign of good hair quality. It is the unique and ancient style required for the IDEAL specimen of the Puli. The manner in which the coat grows is according to inheritance. We know of wide flat strands, narrower flat strands of different width and tied cords. As said before, the two different forms of matting depend on different inheritance, and can only be bred to perfection through strict breed selection. Puppies born with a fairly smooth-haired tufted coat seem to develop the flat strands, while puppies with a curly coat will develop tied cords. Earlier this thickly matted coat served a further essential purpose, which is also useful today. It protected the dog against serious bite-wounds in his fights with wild animals. The choking mass of hair prevented the teeth from reaching vital areas.

SIZE

Medium size -- Males: 16" to 18" Bitches: 14" to 16"

Variations of AN INCH above or below the standard heights are acceptable. GREATER variations must be considered a fault.

WEIGHT

Dogs of standard size in good condition average between 20 and 30 lbs. for both sexes, and sometimes up to 35 lbs.

HEAD

Short and fairly small. Completely covered with hair. Skull in proportion to the muzzle, not too broad. Stop, slight. Muzzle, not too pointed, and covered by long hair. Nose, blunt and NO other color than BLACK. Flews tight and no other color than BLACK. Fault: Black flews interspersed with light pigment. Serious Faults: Long narrow head; light-colored nose and flews. Disqualification: Flesh-colored nose and flews.

EARS

Pendant, not too close to head, fairly high set, V-shaped, medium-sized, covered with long hair, which makes them appear longer than they really are. Serious fault: "Dead" ear hound-like in appearance.

EYES

Medium sized and of dark-brown color; edges of eyelids black, bushy eyebrows cover the eyes completely. Serious faults: Protruding eyes - light-colored eyes and eyelids. Disqualification: Walleye.

TEETH

Strong developed and large for the size of the dog; level or scissors bite. Fault: Undershot or overshot jaw. A badly undershot or overshot mouth should be heavily penalized.

STRUCTURE

Although the frame is hidden beneath a mantle of hair, the general appearance should suggest a vigorous well-proportioned body.

NECK

Medium long and muscular, slightly arched, covered with long hair and running into clean-cut sloping shoulders with elbows set closely to the chest. Head erect.

CHEST

Fairly broad and deep, but not so wide as to interfere with free action of front legs, nor yet narrow. Ribs well sprung and deep. Faults: Too narrow or too barrel-shaped chest.

BODY

Back of medium length, straight and muscular. Rump slightly sloping towards the root of the tail; moderately broad loins, well tucked up. Body and legs should form about a quadrangle.

FORELEGS

Very straight; not high; well-boned and muscular. Viewed from any side the legs are like vertical columns. The upper leg joins the body closely without loose elbows. Covered all around with long hair. Dew-claws, if they occur, should be removed at birth.

HINDQUARTERS

Well developed; moderately broad through the stifle, which is well

bent and muscular; hocks well developed; covered all around with long hair. Dewclaws, if they occur, should be removed at birth.

FEET

Strong, round and compact with hard pads, well furnished with hair between the toes. Nails strong and black.

TAIL

Medium length, carried gay over back curling slightly to one side. Covered in its full length with long hair. Inborn stump-tails occur occasionally.

Faults: Ring, Sickel, or Whip Tail.

GAIT

The movement or action is the crucial test of conformation. The gait should be gay and bouncy; dog lifts feet well up. They are capable of great speed and show great stamina.

COAT

Felt-like, growing either in narrow or wide flat strands or round tied cords. The whole coat should give a uniform appearance. Hair should be of the same texture on all parts of the body and be of a natural-original solid structure. Definitely long all over the body. A combed-out or brushed-out coat is as undesirable as a neglected coat. A distinct tendency to mat is already noticeable in the puppy coat. The hair is growing in bunches. This matting becomes distinctly visible when the dog is about one and a half years old and it takes about three years to spread over all the body. The undercoat, which resembles wool, is soft and dense, grows out and tangles with the outer coat, which is of fairly coarse texture, not straight or silky and free of curls. Through this the strands or cords form naturally. The outer hair without the undercoat does not mat. Eliminating the undercoat causes the OPEN hair, especially if the outercoat is very poor in thickness. Such a coat is objectionable.

GOOD QUALITY OF COAT

Definitely a DOUBLE coat. Dense, dull, un-elastic hair with its continuous inclination to entanglement and shagginess.

FAULTY COATS

Silky and elastic hair. Complete lack of undercoat. Short and open hair.

COLOR

Black, reddish-black, grey-reddish-black, all shades of grey and occasional white. Though jet-black and white are accepted in the standard, they should not be encouraged, as those are not the typical colors for the Pull, but do occur occasionally in litters of black-to-black breeding. The colors "reddish-black" and grey-reddish-black are the most typical colors for the Pull and can be compared with a faded cloak which has been hung outside and through exposure to rain and sun displays different colors. The coloring of the Pull should appear as SOLID though the greys are mostly mixed with black and white hair, but still look either all dark, or all light grey. Pronounced shadings of, for instance, dark grey body running into light grey legs, are very undesirable. Disqualifications: Any other colors than above mentioned; particolours, etc.

Puppies are usually born jet-black, the desirable adult color not coming for some months.

Epilogue

Do not ignore good conformation but do not overlook such qualities as intelligence, dependability, nimbleness and vigilance.

RETRIEVER (CHESAPEAKE BAY)

CHANGE IN STANDARD

Under "General Disqualifications" delete the following words"

"Dewclaws, undershot, overshot or any deformity."

and substitute therefor the following words:

"Dewclaws on hindlegs, undershot, overshot or any deformity."

RETRIEVER (LABRADOR)

CHANGE IN STANDARD

A new section, replacing the present section under the heading "Color" to read as follows:

"The colors are black, yellow, or chocolate and are evaluated as follows:

(a) Blacks: All black, with a small white spot on chest permissible. Eyes to be of medium size, expressing intelligence and good temper, preferably brown or hazel, although black or yellow is permissible.

(b) Yellows: Yellows may vary in color from fox-red to light cream with variations in the shading of the coat on ears, the under-parts of the dog, or beneath the tail. A small white spot on chest is permissible. Eye coloring and expression should be the same as that of the blacks, with black or dark brown eye rims. The nose should also be black or dark brown, although "fading" to pink in winter weather is not serious. A "Dudley" nose, (Pink without pigmentation) should be penalized.

(c) Chocolates: Shades ranging from light sedge to chocolate. A small white spot on chest is permissible. Eyes to be light brown to clear yellow. Nose and eye rim pigmentation dark brown or liver colored. "Fading" to pink in winter weather not serious. "Dudley" nose should be penalized."

A new section replacing the present section under the heading "Movement", to read as follows:

"Movement should be free and effortless. The forelegs should be strong, straight and true, and correctly placed. Watching a dog move towards one, there should be no signs of elbows being out in front, but neatly held to the body with legs not too close together, but moving straight forward without pacing or weaving. Upon viewing the dog from the rear, one should get the impression that the hind legs, which should be well muscled and not cow-hocked, move as nearly parallel as possible, with hocks doing their full share of work and flexing well, thus giving the appearance of power and strength."

RETRIEVER (N. S. DUCK TOLLING)

GENERAL APPEARANCE:

The Nova Scotia Duck Tolling Retriever should be very muscular and heavy in bone, the head and neck should be carried slightly above a straight line with the back. When the dog is in action, the tail should be carried curled high up over hind quarters. Size is absolutely necessary. There is a half sad expression, until the dog is put to work, when that sad expression springs to inquisitiveness and the dog trembles with excitement, alertness and determination.

HEIGHT

The minimum height of an adult dog over eighteen months must be 20-1/2" - that of a bitch 18-1/2".

WEIGHT

The minimum weight of an adult dog over eighteen months should be 50 lbs., that of a bitch 35 lbs.

HEAD

Generally the head should resemble that of the Golden Retriever. The muzzle or foreface more desirable if broad. The skull should be flat and about 5" wide across base. The size of head varies but not necessarily depending upon the size of the dog. For the entire length from the tip of the nose to the back of the occiput, 9" is a good measurement. The length from the end of the nose to the point between the eyes should be about equal or preferably of greater length than from this point to the back of the occiput. The occiput peak is not prominent. The stop is concave and gradual.

(a) Lips. The lips should hang rather curved in front. Flesh color preferable.

(b) Underline. The underline of the head, i.e. profile, should run almost in a straight line from the corner of the lip to the corner of the jawbone. The underline of muzzle from tip of nose to back end of lip is a clean convex curve.

(c) Jaw. Lower jaw thin. Lower side teeth fit inside upper side teeth. Soft in mouth.

(d) Nose and nostrils. The bridge of the nose should be fairly wide about 1 to 1-1/2", and taper somewhat at tip. Nostrils are well open. Flesh color preferred, no objection to black.

(e) Ears. The ears are medium size set high and well back on the skull and carried very slightly erect with tips falling forward. They are well feathered at back of the fold. The tips are nicely rounded to conform to round muzzle, the hair at ear tips is short.

(f) Eyes. Golden brown to match coat. Flesh around eye flesh color. Eyes should be set well apart.

NECK

The neck should be of medium length, the junction between head and neck is not well defined, owing to long hair on neck and at throat.

SHOULDERS

The shoulders should be muscular and well sloped back, elbows well under the body.

FORELEGS AND FEET

The forelegs should be perfectly straight, and big in bone. The feet should be well hardened for rough work, toes well arched, strong curved nails, and most important, feet to have strong web.

Deep chest, belly fairly well drawn up.

BACK AND LOINS

The back and loins should be strong.

TAIL

The tail should be about 12-1/2 to 13 inches long and well feathered. Normally it is carried below the level of the back until the dog goes into action, when it should be arched up above the line of the back but not touching hindquarters.

HINDQUARTERS

The hindquarters should be muscular and good in appearance, square across top. The hock is not set too low turning neither out or in.

COAT

The hair is long, sleek and soft or silky, with a still softer undercoat. Coat at throat and ears extremely soft. These dogs retrieve from fresh and salt water during the coldest seasons, and therefore require the undercoat. Hair on face, legs, and tips of ears is short. The coat is straight except down center of back, where it is wavy. The coat does not curl. There is, however, a tendency sometimes in winter coats for the hair at the throat to have a long loose curl.

MOVEMENT

Quick speedy action - a headlong rush, regardless of obstacles.

MEETING OF THE BOARD OF DIRECTORS

FEBRUARY 7, 1961

(Continued from the April issue of "Dogs in Canada")

-----Mr. MacCallum in the Chair.

INTERNAL AND ADMINISTRATION

9 A 46. PROMOTION, PUBLICITY AND PUBLIC RELATIONS

SUBJECT: The reports, presented by Mr. Monaghan, Chairman of the Promotion, Publicity and Public Relations Committee, tabled earlier in the meeting, and the following resolution adopted at the Annual General Meeting:

"THAT, we indicate our confidence in our Directors and authorize them to proceed with promotion and publicity as they see fit."

MOTION #74-61

Moved by Mr. Monaghan, seconded by Mr. MacKendrick:
"THAT, the Committee's programme for publicity and public relations be authorized, with Key Publications being retained as counsel for the balance of the option period (two years) at \$1200.00 per annum."

DISCUSSION: During the discussion which followed:

- (1) Mr. Irving enquired how the Board could be expected to vote on the motion without knowledge of what the cost would be to implement the programme recommended by the Committee;
- (2) Mr. Monaghan stated that no expenditures and no commitments of a financial nature would be made by the Committee until specifically authorized by the Board;
- (3) Mr. Williams stated that the Board should first decide that it will continue with a programme of promotion and publicity before deciding on specific plans.

AMENDMENT TO MOTION #74-61

Moved by Mr. Williams, seconded by Mr. Gratton:
"THAT, we continue with a programme of promotion and publicity."

DISCUSSION: Mr. Monaghan expressed the opinion that the amendment was out of order. The Chair ruled otherwise. In discussing the amendment Mr. Monaghan expressed the view that if the amendment is defeated it would preclude a vote on the main motion. Mr. Anderson said that the Board is dealing with the report of a committee and defeat of the amendment would not have any bearing on the main motion.

The Chairman put the amendment with the following results:

IN FAVOUR OF THE AMENDMENT: Mr. Brown, Mr. Williams, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Southcott, Dr. Williams.
AGAINST THE AMENDMENT: Mr. Anderson, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan.

Amendment carried.

Mr. Monaghan tendered his resignation as Chairman of the Promotion, Publicity and Public Relations Committee, and delivered to the Secretary a letter (dated February 6th, 1961) addressed to him, as Chairman of the Committee, by Key Publications Ltd.

The letter, read by the Secretary, said (in part): "As our association with the Publicity Committee would seem to be the source of constant annoyance and dissension, we are of the opinion we must, for the good of your organization and the maintenance of goodwill presently enjoyed by 'Dogs in Canada' magazine, regrettably resign from our association with the Publicity Committee".

MOTION #75-61

Moved by Mrs. Mack, seconded by Mr. Williams:
"THAT, a new chairman of a Publicity Committee be appointed, the Chairman to select a committee to interview Key Publications Ltd. with a view to reconsideration of their letter."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mr. MacKendrick, Mr. Monaghan.

Motion carried.

The Chairman called for nominations for Chairman of the Committee referred to in motion #75-61. Dr. Williams, Mr. Monaghan, and Mr. Brown were nominated. Dr. Williams and Mr. Monaghan withdrew. Mr. Brown accepted the nomination, and the Chairman declared Mr. Brown appointed by acclamation.

DISCUSSION: A discussion followed on the advisability of the new Promotion, Publicity and Public Relations Committee bringing in a report at this meeting.

MOTION #76-61

Moved by Mr. Williams, seconded by Mr. Gratton:
"THAT, the Committee bring in a report and recommendation before this annual meeting adjourns."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

Motion carried.

9 A 31. BOARD MEETINGS

SUBJECT: The notice, given at the conclusion of the previous session, by Mr. Monaghan with regard to extending the duration of this session.

MOTION #77-61

Moved by Mr. Monaghan, seconded by Mrs. Gove:
"THAT, the Board sit an additional session to-night from 7:30 p.m. to 10:30 p.m."

AMENDMENT TO MOTION #77-61

Moved by Mr. Williams, seconded by Mr. Gratton:
"THAT, we prolong the afternoon session until 7:00 p.m. to-night and to-morrow."

FOR THE AMENDMENT: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Southcott, Dr. Williams.
AGAINST THE AMENDMENT: Mrs. Gove, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan.

Amendment carried.

-----After a recess (lunch) the meeting resumed with the President in the Chair.
As previously arranged, Mr. & Mrs. Bruce McRae and Mr. W.J. Martin entered the meeting.

11 D 34. CHAMPIONS AND CHAMPIONSHIP POINT RATINGS

REPORT: The President reported that Mr. McRae had sought and had been granted permission to appear before the Board, with Mrs. McRae and Mr. Martin, to make further representations on his claim that a female American Cocker Spaniel, when declared Best of Opposite Sex to Best of Variety, should be credited, when championship points are calculated, with having defeated any females of the same variety entered and competing for "Specials Only".

DISCUSSION: During the representations made by members of the delegation various sections of the Dog Show Rules were discussed.

-----The delegation left the meeting after being assured that the Board would consider the representations placed before it.

DISCUSSION: Following a further discussion it was agreed that:

- (1) the Dog Show Rules required clarification on the point raised by the delegation;
- (2) in the meantime the Board would make an interpretation.

MOTION #78-61

Moved by Mr. Dawson, seconded by Dr. Williams:
"THAT, Section 3 of Chapter 21 be interpreted that when, at a championship show, a dog is declared Best of Opposite Sex to Best of Variety, it will be credited, when championship points are calculated, with having defeated any dogs of the same sex and variety entered and competing for "Specials Only"."
Motion carried unanimously.

ACTION: The Secretary was directed to inform Mr. McRae of the procedure to be followed in amending the Dog Show Rules in order to eliminate the necessity for an interpretation by the Board, and in order that the Dog Show Rules will be quite clear as to the procedure to be followed in the calculation of championship points for American Cocker Spaniels.

-----Mr. MacCallum in the Chair.

REGISTRATION, STUD BOOKS AND RELATED MATTERS

7 R 27. DACHSHUNDS

SUBJECT: The following letters, read by the Secretary:

- (1) a letter, dated January 23rd, 1961, from the Deputy Minister of Agriculture, reporting that: "In the meantime our position is that, if an amendment to the By-laws is approved, it would be effective to cover registration of all puppies born and registered after the 31st of May, 1960.";
- (2) a letter, dated January 25th, 1961, addressed to the Board by Mr. Monaghan, who:
 - (a) reviewed previous decisions of the Board relating to the May and Kikstra litters;
 - (b) pointed out that a litter (#7091-59) had been registered, that three Standard Smooth Dachshunds out of said litter had been registered, but it is clear that the litter included at least two "long-haired or 'off-coated' ones";
 - (c) asked the following questions:
 - (i) Has the motion passed at the Board meeting on June 11, 1956, been rescinded? If so, what is the item or motion number?
 - (ii) According to Magill's Rules of Order a resolution must be rescinded before one of an opposing content is considered. If the June 11, 1956, motion has not been rescinded, how can it be held or said that the motion regarding the Eggenberger-Kikstra litter is in order? In other words, how can one legally maintain that the Board has two policies in regard to the registration of litters in which there are one or more "off-coated" puppies when the Rules of Order have not been followed?
 - (iii) Do you not agree that, until Ministerial approval is given to Proposed Amendment 27, litters containing one or more "off-coated" puppies are not eligible for registration and that any litter and individual registrations which have been processed should be cancelled and the certificates recalled?
 - (d) asked "that the Board take necessary action to maintain the policy of the Club.";

- (3) a letter, dated January 8th, 1961, from Mr. Stuart Roberts reporting on correspondence with the Deputy Minister of Agriculture and advising that he interpreted the Board's resolution (#280-60) to mean that Long-haired Dachshunds in his litter registered as #7091-59 would be eligible for registration as "Standard Long-haired Dachshunds";
- (4) a letter, dated January 31, 1961, from the Chief Registration Officer of the Department, reading as follows:

"I am given to understand that the referendum ballot regarding the registration of off-coated dachshunds has been favourable and no doubt the amendment will be submitted in due course for Ministerial approval. I thought, however, that in the meantime, and prior to your Annual Meeting, I would write regarding the work accomplished relative to the genetic symbols to be included on the litter application and the individual registration certificates of animals involved."

Mr. W. J. Monaghan and Dr. C. C. Hickman, Geneticist of this Department, have done considerable research on the matter, and a meeting was held in my office on December 28th, 1960, to formulate the symbols to be employed.

It was noted for record purposes that the inheritance of coat type in dachshunds is as follows:-

Long hair	-	k k w w
Wire hair	-	- - W -
Smooth or short	-	K - w w

Dr. Hickman recommended and I am prepared to approve, genetic designations as follows:-

1. In the case of one or more long-haired puppies in a litter from smooth parents -
 - (a) a small k shall be appended to the litter registration number;
 - (b) a small kk shall be appended to the registration number of each individual long-hair puppy.
2. In the case of one or more smooth puppies in a litter from wire parents -
 - (a) a small w shall be appended to the litter registration number;
 - (b) a small ww shall be appended to the registration number of each individual smooth puppy.

Mr. Monaghan has a comprehensive grasp of all the phases involved in the above proposal and would be in a position to supply additional information required.

In submitting the amendment for Ministerial approval, it is suggested that consideration be given to include the following wording -

(Add to the new Section 2(a) words similar to those which appear in the new Section 2(b) -

"and the litter registration number shall include a genetic designation, prescribed by the Board with the approval of the Minister, to indicate there was one (or more) puppy in the litter with a coat different from that of the sire and dam."

This latter would implement the decision reached at the meeting on December 28th, 1960."

REPORT: The Board was informed that:

- (1) Mrs. L. Kikstra, in a letter dated January 20, 1960, had indicated a desire that the Dachshund HABSPURG MINKE (one of a litter of Dachshunds registered as "Dachshunds (Wire-haired)" be registered according to its actual coat (Smooth);
- (2) in a letter received in September, 1960, Mr. Spicer had stated that he was aware of the consideration being given to problems in connection with the registration of Dachshunds, and had indicated that he desired clarification of the position of the Dachshund previously registered (and cancelled) as MARI LES HANSEL;
- (3) with a letter dated June 5, 1960, Mr. Stuart Roberts had submitted the applications for individual registration of the following dogs (described on the applications as "Standard Long-haired Dachshund"): CANIDAE'S CONQUISTADOR, CANIDAE'S CAPRICE, and CANIDAE'S COQUETTE, these dogs being out of a litter (registered #7091-59 consisting of 2 males and 5 females), born October 21, 1959, by the Standard Smooth Dachshund Can. & Am. Ch. CALYPSO OF GERA (429991) ex the Standard Smooth Dachshund HEIDENHEIM'S RHAPSODY (422213), the following dogs in the same litter having been registered as Standard Smooth Dachshunds: CANIDAE'S CARMEN V KEY (455564), CANIDAE'S CALLIOPE V KEY (462849), CANIDAE'S CARROUSELLE VON KEY (462850), CANIDAE'S CRUSADER VON KEY (462851);
- (4) with a letter dated August 7, 1960, Mrs. Margaret M. Kieser had submitted the application for individual registration of HEIDENHEIM'S GAY ADONIS, a Long-haired Dachshund out of the litter (registered as #5741-59 consisting of 2 males and 1 female) born July 5, 1959, by the Standard Smooth Dachshund Can. & Am. Ch. CALYPSO OF GERA (429991) ex the Standard Smooth Dachshund HEIDENHEIM'S NATIVE DANCER (411982), the following dogs in the same litter having been registered as Standard Smooth Dachshunds: HEIDENHEIM'S WANDERER (454171), HEIDENHEIM'S WILLOW (462196);
- (5) in a letter (read by the Secretary) dated January 21, 1961, Mr. Roberts had listed the wins, at American shows, of CANIDAE'S CAPRICE;
- (6) the Registration Committee had examined a Dachshund, registered as a Standard Wire-haired Dachshund, WEIMADACH'S WILLY (421507), and had agreed that the dog appeared to be a "Dachshund (Standard Smooth)".

DISCUSSION: A discussion followed with regard to the applications for individual registration submitted by Mr. Roberts and Mrs. Kieser.

MOTION #79-61

Moved by Mr. Irving, seconded by Mr. Brown:

"THAT, we approach the Minister and ask him to make an exception in these cases and no others."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mrs. Southcott, Dr. Williams.

AGAINST THE MOTION: Mr. Anderson, Mr. Blyth, Mr. MacKendrick.

ABSTAINED FROM VOTING: Mr. Monaghan (on the grounds that he had participated in the previous discussions with officials of the Department, that this had been thoroughly discussed, and the answer is as stated in the last letter from the Deputy Minister).

Motion carried.

DISCUSSION: A discussion followed with regard to the recommendations received from the Chief Registration Officer on the genetic designation of "off-coated" Dachshunds. Mr. Monaghan reported that in a further discussion with the Chief Registration Officer he had been informed that the symbols suggested did not include provision for a Long-haired Dachshund in a litter resulting from the mating of two Wire-haired Dachshunds, however appropriate symbols would be devised in the

event such a development did occur. During a discussion as to the best location of the genetic designations, it was agreed that it would be preferable for the designations to be added as a prefix to the registration number.

MOTION #80-61

Moved by Mr. Irving, seconded by Mrs. Mack:

"THAT, the genetic designations outlined in the Chief Registration Officer's letter of January 31, 1961, be approved, and it be suggested that the designations be appended as a prefix to the numerals."

FOR THE MOTION: Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. Brown, Mr. Gratton, Mr. MacKendrick.

Motion carried.

7 R 66. NEW BREEDS COMMITTEE

REPORT: Mr. Monaghan, Chairman of the New Breeds and Standards Committee, reported that:

- (1) an application for recognition of the Pudelpointer had been received, the applicant having submitted:
 - (a) four certificates of registration issued in Germany;
 - (b) a letter from the Verband für das Deutsche Hundewesen confirming that the breed is officially recognized in Germany;
 - (c) a translation of the German standard.
- (2) it was the recommendation of the Committee that the breed be recognized and placed in Group #1, and the standard as submitted be adopted.

MOTION #81-61

Moved by Mr. Monaghan, seconded by Mr. MacKendrick:

"THAT, the recommendation of the Committee be approved, and the standard be adopted."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

Motion carried.

REPORT: Mr. Monaghan, Chairman of the New Breeds and Standards Committee, reported that:

- (1) an application for recognition of the Akita Dog (a Japanese breed) had been received and considered by the Committee;
- (2) the certificate, for the Akita Dog imported to Canada, was not issued by a national organization in Japan;
- (3) although breeding of the Akita Dog is being carried on in the United States it is not a breed recognized by The American Kennel Club;
- (4) it was the recommendation of the Committee that the breed be not recognized at this time.

MOTION #82-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:

"THAT, the Committee's recommendation be approved."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

Motion carried.

REPORT: Mr. Monaghan, Chairman of the New Breeds and Standards Committee, reported that:

- (1) an application had been received for the official recognition of the Tibetan Terrier, the application having been accompanied by an export certificate issued by The Kennel Club (England) for a Tibetan Terrier imported into the United States by a resident of the United States who had subsequently disposed of the dog to the resident of Canada now seeking official recognition of the breed; because the dog in question had been imported to Canada from the United States, information as to the status of the breed with The American Kennel Club had been sought;
- (2) the breed is not recognized by The American Kennel Club;
- (3) it was the recommendation of the Committee that the matter be further investigated before the Board reaches a decision on the application received.

MOTION #83-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:

"THAT, the Committee's recommendation be approved."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

Motion carried.

REPORT: Mr. Monaghan, Chairman of the New Breeds and Standards Committee, reported that:

- (1) an application had been received for the official recognition of the Karelian Bear Dog;
- (2) because one of the certificates issued by the Finnish Kennel Club was for a dog born in the United States, information as to the status of the breed with The American Kennel Club had been sought;
- (3) the breed is not recognized by The American Kennel Club;
- (4) it was the recommendation of the Committee that the breed be not recognized.

MOTION #84-61

Moved by Mr. Monaghan, seconded by Mr. Irving:

"THAT, the recommendation of the Committee be approved."

FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

Motion carried.

REPORT: Mr. Monaghan, Chairman of the New Breeds and Standards Committee, reported that:

- (1) the Board had received and referred to the Committee an enquiry, from a member, as to whether the Club would be prepared to recognize the "Miniature German Shepherd Dog" as a breed if, through selective breeding, a breeder established a line of

- (2) miniature German Shepherd Dogs;
it was the recommendation of the Committee that the member enquiring be informed that the Board would not recognize the miniature German Shepherd Dog as a breed.

MOTION #85-61

Moved by Mr. Williams, seconded by Mr. Gratton:
"THAT, the Committee's recommendation be approved."
FOR THE MOTION: Mr. Brown, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
Motion carried.

COMPLAINTS, CHARGES AND PROTESTS

8 C 10. REPORTS OF COMPLAINTS COMMITTEE (SPECIFIC CASES)

REPORT: The Board considered the report of the Complaints Committee in respect of a number of complaints against a person who it was alleged had failed to provide certificates of registration for dogs said to have been sold as pure-bred.
ACTION: The Complaints Committee was authorized to set up an Advisory Committee, under Article XV (DISCIPLINE) of the Club's By-laws, for the purpose of investigating and reporting on these complaints.

REPORT: The Board received the reports of the Complaints Committee in respect of three complaints alleging failure on the part of three sellers to provide certificates of registration for dogs said to have been sold as pure-bred.
ACTION: The defendants in all three cases were deprived of the privileges of the Club, including the right to register and transfer dogs in the Club's records and to participate in shows and trials held under the Club's Rules, and the Registration Committee was authorized to issue certificates of registration to the purchasers where the required information was available for registration purposes.

REPORT: The Board received and confirmed a report of the poll of the national Board on the reinstatement of a member who had been previously suspended for failure to deliver a certificate of registration to the purchaser of a dog sold as pure-bred.

REPORT: The Board received and considered a report that a person who had sold a dog as pure-bred and who had failed to deliver a certificate of registration to the purchaser, had been charged in a Toronto court in that he "unlawfully did by a False Pretence, obtain money to the value of (selling price of dog) from (name of purchaser of dog) with intent to defraud, contrary to the Criminal Code." The Board noted that, although the Defendant in this case did produce a certificate of registration in court showing transfer to the purchaser, the Magistrate had registered a conviction on the charge, it having been established to his satisfaction that the dog had not been tattoo marked with the tattoo markings shown on the certificate of registration issued for it.
ACTION: The Board directed the further action that would be taken in this case.

REPORT: The Board received and considered a report with regard to a complaint that the seller of a dog had failed to provide the purchaser with a certificate of registration. During a discussion of this complaint it was suggested that prosecution proceedings under the Live Stock Pedigree Act should be instituted in this particular case.
ACTION: The Board, by resolution, gave the Complaints Committee power to prosecute such cases as it sees fit, at the expense of the Club.

REPORT: The Board received and considered a report received from the Department of Agriculture in respect of an alleged failure of a particular breeder to keep private breeding records, of an alleged irregularity in respect to an application for transfer of ownership, and of the alleged failure of this particular breeder to furnish a certificate of registration for a dog said to have been sold as pure-bred.
ACTION: The Complaints Committee was authorized to form an investigation committee to investigate this case.

REPORT: The Board received and considered a report of alleged irregularity in connection with four dogs sold as pure-bred and for which certificates of registration had been provided.
ACTION: The Board adopted the recommendation of the Complaints Committee that the Board appoint a committee to interview the Minister of Agriculture with a view to having this case investigated by the Royal Canadian Mounted Police.

REPORT: The Board received and considered a report of the Complaints Committee in respect of the alleged failure of an exhibitor at a show to pay the entry fees for a dog which he had entered at the show in question.
ACTION: The Board ordered cancelled the wins earned at that show by the dog in question.

INTERNAL AND ADMINISTRATION

9 A 22. REVISION OF LIVE STOCK PEDIGREE ACT

REPORT: Mr. Monaghan reported that it was the feeling of the Committee members that consideration of representations to the Department of Agriculture on revision of the Live Stock Pedigree Act would have to await the Board's final action on the work of another Committee (File #8 C 7).

9 A 31. MEETINGS OF THE BOARD

SUBJECT: Setting place and date of commencement of the next semi-annual meeting of the Board.

DISCUSSION: During the discussion which followed:

- (1) Mr. Little reported that Fredericton had been designated "City of the Year" for the Dominion, stated that two or more dog shows and perhaps a field trial would be held with many other events during the week of July 10th to July 16th inclusive, and extended an invitation to the Board to hold its semi-annual meeting at Fredericton during that week;
- (2) it was suggested that if the Board feels that it is justified this year in holding its semi-annual meeting outside Toronto consideration should be given to holding the meeting in a city other than the two (Winnipeg and Fredericton) at which semi-annual meetings had been held previously.

MOTION #99-61

Moved by Mr. MacKendrick, seconded by Mr. Anderson:
"THAT, the semi-annual meeting be held in Toronto."

AMENDMENT TO MOTION #99-61

Moved by Mr. Little, seconded by Mr. Gratton:
"THAT, the semi-annual meeting be held at Fredericton."
FOR THE AMENDMENT: Mr. Williams, Mr. Gratton, Mr. Little, Dr. Williams.
AGAINST THE AMENDMENT: Mr. MacCallum, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Irving, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott.
Amendment lost.

Motion #99-61 was put to a vote with the following results:

FOR THE MOTION: Mr. MacCallum, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Irving, Mrs. Mack, Mr. MacKendrick, Mrs. Southcott.
ABSTAINED FROM VOTING: Mr. Williams, Mr. Gratton, Mr. Little, Mr. Monaghan, Dr. Williams.
Motion carried.

ADJOURNMENT

At 7:00 p.m. the meeting adjourned to reconvene in the same place at 9:30 a.m. on Wednesday, February 7th, 1961.

FEBRUARY 8, 1961.

The annual meeting of the Board of Directors of The Canadian Kennel Club reconvened in the Club's offices, 667 Yonge Street, Toronto, Ontario, at 9:30 a.m. on Wednesday, February 8th, 1961, with the President, Walter Brown, in the Chair, and the following members of the Board present: J. W. MacCallum, V. W. Williams, J. C. Anderson, R. L. Blyth, Wm. Dawson, Mrs. J. Gove, H. M. Gratton, J. A. H. Irving, Robert Little, Mrs. Pamela B. Mack, W. H. MacKendrick, W. J. Monaghan, Mrs. M. Southcott, Dr. C. M. Robert Williams.

INTERNAL AND ADMINISTRATION

9 A 31. MEETINGS OF THE BOARD

DISCUSSION: The Board resumed its discussion of arrangements for its next semi-annual meeting.

MOTION #100-61

Moved by Mr. Monaghan, seconded by Mr. Irving:
"THAT, the semi-annual meeting be held commencing Monday, August 21st, 1961."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott.
AGAINST THE MOTION: Mr. Anderson, Mr. Gratton, Dr. Williams.
Motion carried.

DISCUSSION: The Board discussed the setting aside of a specific day in each month on which all regular meetings of the Board shall be held, if necessary.

MOTION #101-61

Moved by Mr. Monaghan, seconded by Mr. MacKendrick:
"THAT, the following be the dates on which regular meetings of the Board will be held, if necessary: Monday, April 17th; Tuesday, May 9th; Monday, June 5th; Tuesday, July 4th; Monday, September 11th; Tuesday, October 10th; Friday, November 10th; Friday, December 8th, 1961; on the understanding that during each meeting it will be decided whether or not a regular meeting in the next one or two months will be necessary; each meeting to commence at 10:00 a.m."
Motion carried unanimously.

INTERNAL AND ADMINISTRATION

9 A 13. OFFICE PREMISES

SUBJECT: The appointment, at a previous meeting of a Special Committee.

MOTION #103-61

Moved by Dr. Williams, seconded by Mr. Dawson:
"THAT, the Office Premises Committee report at the next meeting of the Board."
Motion carried unanimously.

9 A 14. REPORT OF EXECUTIVE MANAGER

REPORT: The Secretary, in his capacity as Executive Manager:

- (1) reported that following a recommendation which he had placed before the Board, at its previous annual meeting, an instruction had been forwarded to the Live Stock Records Office to discontinue forwarding to the Toronto office certain records and information, and stated that this had meant a reduction of approximately \$2400 in the Club's costs at Ottawa in 1960;
- (2) reported that the litter record section of the 1959 Litter Record & Stud Book (Volume #63) had been typed at the Club's Toronto office, and this had meant a reduction of approximately \$1200 in the costs of the Volume;
- (3) pointed out that in 1956 the total number of dogs entered in competition was 20,883 as compared with a total of 30,210 in 1960, an increase of approximately 50%, yet the implementation of a recommendation which he had placed before the 1960 annual meeting of the Board had reduced the labour involved in the recording of show awards and the elimination of the necessity of engaging additional help (temporary or otherwise) in the Shows & Trials Section, the estimated unit cost (per dog) in that Section having decreased from 79.52¢ in 1959 to 62.6¢ in 1960 (95.9¢ in 1952);
- (4) reported that during 1960 between 75,000 and 100,000 records in the Shows and Trials Section had been removed from the files, and these records would be microfilmed and then discarded;

- (5) reported that there had been twenty meetings of the combined Complaints, Kennel Names, and Registration Committees in 1960, and the work of these Committees had made it necessary to refer to the Board only those files and questions on which a Committee felt Board action was necessary or advisable;
- (6) reported that fidelity bonds are held only on the Secretary and the bookkeeper, and provided information about the cost to obtain a "blanket honesty bond" on the entire staff;
- (7) stated that no temporary help had been employed during 1960 (except for janitor service when the janitor was on vacation); instead members of the permanent staff had worked overtime to the extent considered necessary and were paid for their services; an arrangement he considered to be more satisfactory and economical.
- (8) stated that the Club's volume of business had been increasing steadily over the past few years, and while various steps had been taken to increase efficiency and eliminate the necessity of increasing the permanent staff, the extent to which it would be possible to carry on with the present staff would be determined largely by any new procedures which may be instituted, changes in the By-laws or rules which may require additional labour (administrative and clerical, and any new projects which may be undertaken);
- (9) outlined his recommendations with regard to the salaries of the other members of the staff.

DISCUSSION: A discussion followed on sections of the Executive Manager's report.

MOTION #104-61

Moved by Mr. Anderson, seconded by Mr. Williams:
"THAT, the Secretary be thanked for his report, and he be empowered to carry out his recommendations as he sees fit."

Motion carried unanimously.

-----The Secretary was excused from the meeting.

DISCUSSION: A discussion followed with regard to the salary of the Secretary-Treasurer.

MOTION #105-61

Moved by Mr. Anderson, seconded by Mr. Williams:
"THAT, the Secretary-Treasurer's salary be increased by \$500.00 per annum."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. MacKendrick.

Motion carried.

-----The Secretary returned to the meeting.

9 A 46. PROMOTION, PUBLICITY AND PUBLIC RELATIONS

REPORT: The Secretary reported that pursuant to the instruction given following the adoption of the amendment to motion #74-61 he had sought the opinion of the Club's solicitor and reported the solicitor's opinion.

REPORT: The President, in his capacity as Chairman of the Promotion, Publicity and Public Relations Committee:

- (1) pointed out that before the Committee may function effectively it would be necessary to interview Key Publications Ltd. as authorized by resolution #75-61;
- (2) recommended that further consideration of promotion, publicity, and public relations be deferred until the authorized interview has taken place and the Committee is in a position to submit a detailed report and recommendations to the Board.

MOTION #106-61

Moved by Mr. Little, seconded by Mr. Williams:
"THAT, we accept the Chairman's recommendation."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. MacKendrick.

Motion carried.

DISCUSSION: Mrs. Mack:

- (1) pointed to the specialty championship show, under the Club's Rules, held recently in conjunction with a sled dog race at Ste. Agathe des Monts, P. Q., and suggested that the interests of pure-bred dogs would be served if The Canadian Kennel Club offered a trophy or other form of recognition to the team of pure-bred dogs placing highest in a sled dog race;
 - (2) referred to the Secretary's attendance at the dinner held near Montreal by the Quebec & Eastern Ontario Beagle Association on October 29th, and suggested that the Board consider authorizing Directors to hold meetings, open to members of the Club and others interested in pure-bred dogs, at which an Officer of the Club or the Secretary may attend and speak on the Club's By-laws, rules, policies, and projects with a view to increasing knowledge about and interest in the Club and its activities.
- Mr. Gratton pointed out the "tremendous interest" in pure-bred dogs in Newfoundland and the holding of championship shows there since the Maritime Directors had been authorized to visit Newfoundland at the Club's expense.

Mr. Anderson expressed the view that, instead of holding the semi-annual meetings of the Board at various points, the interests of the Club and its members would be better served if arrangements were made for the Secretary-Treasurer to visit the various provinces periodically.

9 A 51. TWO YEAR TERM OF OFFICE OF BOARD

SUBJECT: A resolution, adopted at the Annual General Meeting on February 4th, to the effect that a questionnaire be included in the next referendum ballot with a view to determining whether the membership "want a term of office in excess of one year considered."

MOTION #108-61

Moved by Mr. Monaghan, seconded by Mr. Dawson:

"THAT, that question be included in the next referendum ballot."

Motion carried unanimously.

9 A 62. ANNUAL MEETINGS FOR 1962

SUBJECT: The setting of the date and place of the Club's next Annual General Meeting and the place and date of commencement of the next annual meeting of the Board.

MOTION #109-61

Moved by Mr. Irving, seconded by Mr. Anderson:

"THAT, the Annual General Meeting and the annual meeting of the Board be held in Montreal next year."

Motion carried unanimously.

MOTION #110-61

Moved by Mrs. Mack, seconded by Mr. Williams:

"THAT, the next Annual General Meeting be held on Sunday, February 4th, 1962, commencing at 12:30 p.m.; and the annual meeting of the Board commence on Saturday, February 3rd, 1962; a buffet supper to be served members attending the Annual General Meeting."

Motion carried unanimously.

-----After a luncheon recess the meeting resumed with the President in the Chair.

9 A 81. REFERENDUM BALLOTS

REPORT: The Secretary reported that application for Ministerial approval of the four proposed amendments (#25, #26, #27, and #28) to the By-laws, approved by majority vote on the 1960 referendum ballot, had been withheld until the national Board had an opportunity of considering:

- (1) further correspondence with the Deputy Minister of Agriculture with regard to the registration of "off-coated" Dachshunds (proposed amendment #27);
- (2) representations addressed to the Minister of Agriculture by The Ottawa Valley Beagle Club with regard to proposed amendment #25, The Ottawa Valley Beagle Club being of the opinion that reports of Field Trial Representatives should be made direct to the Board and not to the Chairman of an Advisory Council as provided in the amendment;
- (3) a letter, from The Ottawa Valley Beagle Club, seeking the Board's consideration of other aspects of amendment #25.

DISCUSSION: Following a discussion of the representations to the Minister and the Board by The Ottawa Valley Beagle Club it was agreed that when seeking Ministerial approval of amendment #25 the Secretary would:

- (1) provide the Minister with a copy of the letters received and considered by the Board;
- (2) inform the Minister that the representations submitted by The Ottawa Valley Beagle Club had been submitted to the Chairman of the Field Trial Council for study, report and recommendation;
- (3) inform the Minister that should he wish any clarification or additional information the Board would be prepared to appoint a Committee to meet with him.

MOTION #110-61

Moved by Mr. Monaghan, seconded by Mr. Irving:

"THAT, the matter of the representations of The Ottawa Valley Beagle Club be referred to the Chairman of the Field Trial Council for study, report and recommendation, and that in the meantime since the amendment has not received Ministerial approval that we carry on in 1961 as we had in 1960."

FOR THE MOTION: Mr. Anderson, Mr. Blyth, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Dawson, Mrs. Gove.

ABSENT (temporarily): Mr. MacCallum, Mr. Williams, Mr. Gratton, Mr. MacKendrick.

Motion carried.

SUBJECT: The discussion, at the Annual General Meeting, with regard to problems created by the fact that amendments to the various rules are effective on January 1st immediately following the report of the results of the voting, and the following resolution adopted at the Annual General Meeting:

"THAT, it is recommended that the Board handle this matter on the next referendum ballot."

MOTION #111-61

Moved by Mr. Monaghan, seconded by Mr. Blyth:

"THAT, the matter be referred to the semi-annual meeting."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. MacKendrick.

Motion carried.

SUBJECT: Proposed amendments #3 to #8 inclusive, published in the December (1960) issue of "Dogs in Canada" (pages 38H and 38I), put forward by order of the 1960 Board.

DISCUSSION: Mr. Irving stated that the action of the Annual General Meeting in referring these proposed amendments to the Amendments Committee without discussion deprived the Committee and the membership generally of the advantages of a discussion of the amendments at the Annual General Meeting. Reference was made to the criticisms advanced, in a letter from Mrs. Ruth Copeland, regarding the composition of Amendments Committees and the procedures followed with regard to proposed amendments. Mr. Monaghan expressed the view that more satisfactory results would follow if each Amendments Committee is appointed at the December meeting of the Board previous to the Annual General Meeting, pointing out the delays that sometimes follow when Directors fail to submit their recommendations, at the annual meeting of the Board, with regard to provincial representation on the various Amendments Committees. Mr. Irving stated that the outgoing Board has no right to make appointments for the succeeding year.

MOTION #112-61

Moved by Dr. Williams, seconded by Mr. Blyth:
"THAT, the 1962 Amendments Committee be appointed at the semi-annual meeting."

AMENDMENT TO MOTION #112-61

Moved by Mrs. Mack, seconded by Mr. Gratton:
"THAT, unless the provincial Director brings with him or her to the annual meeting the names of his or her recommended appointments to each Amendments Committee, the Board shall have the right to name them."
FOR THE AMENDMENT: Mr. MacCallum, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack.
AGAINST THE AMENDMENT: Mr. Anderson, Mr. Dawson, Mr. Monaghan, Dr. Williams.
ABSENT (temporarily): Mr. Williams, Mr. Blyth, Mrs. Gove, Mr. MacKendrick, Mrs. Southcott.
Amendment carried.

MOTION #113-61

Moved by Mr. Irving, seconded by Mr. Anderson:
"THAT, the Secretary place the Board's proposed amendments (#3 to #8 inclusive) on the next referendum ballot."
FOR THE MOTION: Mr. MacCallum, Mr. Anderson, Mr. Blyth, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mr. Monaghan, Dr. Williams.
ABSENT (temporarily): Mr. Williams, Mr. Dawson, Mrs. Mack, Mr. MacKendrick, Mrs. Southcott.
Motion carried.

9 A 86. APPOINTMENTS FOR 1961

SUBJECT: Appointment of Registration Committee, Kennel Names Committee, and Complaints Committee.

DISCUSSION: A discussion followed on the advisability of having the same personnel on all three Committees, and it was agreed that this practice, established in 1960, appeared to work very well.

MOTION #114-61

Moved by Mrs. Mack, seconded by Mr. Dawson:
"THAT, the President be appointed Chairman of the Complaints Committee, Chairman of the Kennel Names Committee, and Chairman of the Registration Committee."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: The Chairman called for nominations for the remaining positions on the Registration Committee, Kennel Names Committee, and Complaints Committee.

Mr. MacCallum, Mr. MacKendrick, and Dr. Williams were nominated.

MOTION #115-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:
"THAT, those nominated (Mr. J. W. MacCallum, Mr. W. H. MacKendrick, and Dr. C. M. R. Williams) be and are hereby appointed members of the Kennel Names Committee, the Complaints Committee, and the Registration Committee, any three of whom shall constitute a quorum."
FOR THE MOTION: Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott.
ABSTAINED FROM VOTING: Mr. MacCallum, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of Chairman of Obedience Council.

MOTION #116-61

Moved by Mrs. Mack, seconded by Mr. Irving:
"THAT, Mrs. Mary Southcott be and is hereby appointed Chairman of the Obedience Council."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Dr. Williams.
ABSTAINED FROM VOTING: Mrs. Southcott.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of Chairman of Field Trial Council.

MOTION #117-61

Moved by Mr. Irving, seconded by Mr. Little:
"THAT, Mr. Robert L. Blyth, be and is hereby appointed Chairman of the Field Trial Council."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mr. Blyth.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of Investments Committee.

MOTION #118-61

Moved by Mr. Irving, seconded by Mr. Dawson:
"THAT, the President, the Vice-President, and the Secretary-Treasurer be and are hereby appointed the Investments Committee."
FOR THE MOTION: Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mr. MacCallum.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of Chairman of Amendments Committee.

MOTION #119-61

Moved by Mr. Blyth, seconded by Mr. Anderson:

"THAT, Mr. W. J. Monaghan be and is hereby appointed Chairman of the Amendments Committee."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mr. Monaghan.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of the Club's solicitor.

MOTION #120-61

Moved by Mr. Irving, seconded by Mrs. Mack:
"THAT, Mr. Peter Wright, Q. C., be and is hereby appointed the Club's solicitor, at the same retaining fee."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of the Club's Honorary Veterinary-Surgeon.

MOTION #121-61

Moved by Dr. Williams, seconded by Mrs. Southcott:
"THAT, Dr. Alan Secord be and is hereby appointed the Club's Honorary Veterinary-Surgeon."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of the Club's two representatives on the Board of Directors of Apex Publishers & Publicity Ltd.

The President called for nominations.
The following were nominated: the President, Mr. Peter Wright, Q. C. (the Club's solicitor), Dr. C. M. R. Williams, and Mr. W. J. Monaghan.

The President declined the nomination.
A secret ballot was conducted. On being advised of the results of the balloting, the President declared Mr. Wright and Dr. Williams appointed the Club's representatives.

SUBJECT: Appointment of Committee responsible for the processing of the applications of those seeking to establish their eligibility, according to Section 2 of Chapter 7 of the Dog Show Rules, to judge at shows to be held under the Club's rules.

MOTION #122-61

Moved by Mr. Irving, seconded by Mrs. Mack:
"THAT, the President be appointed Chairman of the Committee on processing applications for approval to judge, and he be authorized to add to the Committee as he sees fit."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: Appointment of the following:

- (1) Field Trial Representatives;
- (2) Obedience Representatives;
- (3) Advisory Provincial Committees;
- (4) Amendments Committee (By-laws).

The Chairman asked for the recommendations of the Directors.

Mr. Anderson, Director for Alberta, recommended the following appointments:
Field Trial Representative (Retrievers): Mr. Frank Cockrill.
Field Trial Representative (Pointing Breeds): Miss T. R. Lowe.
Obedience Representative: Mr. George W. Frost.
Advisory Provincial Committee: Mr. J. Kilgannon, Mr. R. L. MacKillop, Mr. D. H. Miller, Miss T. R. Lowe, Mrs. Frances Lang.
Amendments Committee (By-laws): Mr. T. Quilley, Miss Agnes Hammond.

Mr. J. A. H. Irving, Director for British Columbia, recommended the following appointments:
Field Trial Representative (Retrievers): Mr. T. K. Coughlan.
Field Trial Representative (Pointing Breeds): Mr. K. J. Gibson.
Obedience Representative (Mainland): Mr. R. N. Rankine.
Obedience Representative (Island): Mr. D. B. Hudson.
Advisory Provincial Committee (Mainland): Mr. W. H. Pym, Chairman, Miss Joan M. Railton, Mr. O. Balshaw, Mr. J. S. Kingston, Mr. T. Wells.
Advisory Provincial Committee (Island): Mr. A. H. Dodds, Mrs. Margot Bowden, Major A. E. Smart, Mr. D. B. Hudson.
Amendments Committee (By-laws): Miss Joan M. Railton, Mr. J. S. Kingston.

Mrs. J. Gove, Director for Manitoba, recommended the following appointments:
Field Trial Representative (Retrievers): Mr. Glen Sutherland.
Obedience Representative: Mr. Gordon Ashcroft.
Advisory Provincial Committee: Mrs. Barbara Eamens, Mr. R. R. Nixon, Mr. Mark Gordon, Mr. Glen Sutherland, Mr. Lawrence Wach.
Amendments Committee (By-laws): Mr. A. F. Robins, Mrs. M. King.

Mr. Robert Little, Director for New Brunswick and Prince Edward Island, recommended the following appointments:
Field Trial Representative (Retrievers): Mr. Phillip MacCreedy.
Field Trial Representative (Pointing Breeds): Mr. H. O. Whitman.
Obedience Representative: Mr. Basil Hawkins.
Advisory Provincial Committee: Dr. A. E. McEwen, Mrs. T. H. McGuire, Mr. Gregory Collins, Mrs. Janet Glenn, Mr. Vic M. Martinson.
Amendments Committee (By-laws): Mr. F. Paul Delaney, Mr. Jerry G. Cavanaugh.

Mr. Harvey M. Gratton, Director for Nova Scotia and Newfoundland recommended the following appointments:
 Field Trial Representative (Retrievers): Mr. Lionel Kaufman.
 Field Trial Representative (Beagles): Mr. Robert McGlashan.
 Field Trial Representative (Pointing Breeds): Mr. M. H. Babcooke.
 Obedience Representative: Mrs. Yvonne Merrill.
 Advisory Provincial Committee: Mr. John J. Lemoine, Chairman,
 Mr. Harry Story, Mrs. Grace L. Rae, Mrs. Colleen Hague, Mr.
 James A. Meagher.
 Amendments Committee (By-laws): Mr. C. E. Wadden, Mr. Warren
 Anderson.

The Directors for Ontario recommended the following appointments:
 Field Trial Representative (Retrievers): Mr. Wm. H. Copeland.
 Field Trial Representative (Spaniels): Mr. George E. Tabner.
 Field Trial Representative (Beagles): Mr. Wm. E. Trevena.
 Field Trial Representative (Pointing Breeds): Mr. T. S. Riches.
 Field Trial Representative (Foxhounds): Brig. J. A. W. Bennett.
 Obedience Representative: Mr. E. D. Bonnyman.
 Amendments Committee (By-laws): Mrs. Ruth Copeland, Mrs. N. T.
 Smith.

Mrs. Pamela B. Mack, Director for the province of Quebec, recommended the following appointments:
 Field Trial Representative (Retrievers): Mr. R. S. S. Grier.
 Field Trial Representative (Beagles): Mr. Grant Smith.
 Field Trial Representative (Pointing Breeds): Mr. R. S. S. Grier.
 Field Trial Representative (Foxhounds): Mr. D. A. Wilson.
 Obedience Representative: Mrs. V. Sylvia Dempster.
 Advisory Provincial Committee: Dr. E. M. Trenouth, Mr. A. V. Collins,
 Mr. Nigel Aubrey-Jones, Mr. L. J. Lagimodiere, Mr. Roger
 Quezel.
 Amendments Committee (By-laws): Mrs. Leo Dery, Mr. H. Anthony
 Hodges.

Mr. Wm. Dawson, Director for Saskatchewan, recommended the following appointments:
 Field Trial Representative (Retrievers): Mr. Don Lardner.
 Field Trial Representative (Spaniels): Mr. Arthur Goddard.
 Field Trial Representative (Pointing Breeds): Mrs. Eileen M. Benson.
 Obedience Representative: Mrs. Hazel Rimmer.
 Advisory Provincial Committee: Mr. Harry Dean, Mrs. Joan Wilk, Mrs.
 Mary Miller, Mr. Wm. Semple, Mr. Frank R. Duckworth.
 Amendments Committee (By-laws): Mrs. Eleanor Pawson, Mrs. Betty
 Webster.

MOTION #123-61

Moved by Mr. Williams, seconded by Mr. MacCallum:
 "THAT, the recommendations of the Directors be approved,
 and the persons named be and are hereby appointed as
 recommended."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

9 A 87. ELECTION OF OFFICERS AND DIRECTORS

SUBJECT: Mr. Monaghan's suggestion that the Board consider appropriate amendments to the By-laws to clearly set forth what shall follow if a member dies:

- between the date his acceptance of a nomination is received by the Election Commission and the date on which the ballots are mailed to voting members; or
- between the date on which the ballots are mailed and the time balloting ceases.

MOTION #124-61

Moved by Mr. Irving, seconded by Mrs. Gove:
 "THAT, we set this over to the semi-annual meeting."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

MEMBERSHIP MATTERS

10 MM 2. APPLICATIONS FOR MEMBERSHIP

SUBJECT:

- an application for ordinary membership received from Mr. & Mrs. R. L. Fitzgerald whose address was shown on their application as being "Hq. 64th AD Box 1547, Stewart AFB, Newburgh, N. Y." (formerly an associate member residing at St. John's, Nfld.);
- an application for ordinary membership received from Miss Nancy Carroll whose address was shown on her application as being "New York Institute for the Education of the Blind, 999 Pelham Parkway, Bronx, New York 69, N. Y.", and a letter from Miss Carroll advising that through the school year (September to June) she worked as a teacher at the Institute. (Formerly an associate member residing at 3 Riverside Crescent, Toronto, Ont.).

MOTION #125-61

Moved by Mr. Monaghan, seconded by Mr. Blyth:
 "THAT, the Secretary inform the applicants that in view of the fact that they have taken up residence in the United States, they are eligible for membership as 'non-resident members'.
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

SUBJECT: The application for associate membership received from Dr. & Mrs. Brian Sorrell, Willowdale, Ont. and a letter from Dr. Sorrell explaining the answers given to questions #1 and #2 on the application.

MOTION #126-61

Moved by Mr. Gratton, seconded by Mr. Monaghan:
 "THAT, the Secretary write this gentleman seeking particulars as to actually what he does."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

SUBJECT: The application for ordinary membership submitted by Mrs. Roland Imeson, Wheatley, Ont. together with a letter explaining Mrs. Imeson's answer to question #4 on the application.

MOTION #127-61

Moved by Mr. Dawson, seconded by Mr. Williams:
 "THAT, the application for ordinary membership submitted by Mrs. Roland Imeson be approved."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

REPORT: Mrs. Mack reported that:

- Mrs. Joan V. Lagimodiere, Hudson Heights, P.Q. had been a paid-up associate member of the Club for the years 1958, 1959 and 1960, and was therefore eligible to apply for ordinary membership on January 1, 1961;
- the Canadian National Live Stock Records had advised Mrs. Lagimodiere that she was not eligible to apply for ordinary membership.

MOTION #130-61

Moved by Mrs. Mack, seconded by Mr. Little:
 "THAT, upon receipt of proper application for ordinary membership and the required fee, Mrs. Joan V. Lagimodiere be admitted to ordinary membership."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

ACTION: The Secretary was directed to instruct the Records Office to explain to Mrs. Lagimodiere the reason for its error.

REPORT: Mrs. Gove Reported that:

- the partnership of Mr. L. J. Shannon & Mrs. Mina E. F. Badger, Winnipeg, had been an associate member for the years 1958, 1959, and 1960, and therefore became eligible to apply for ordinary membership on January 1, 1961;
- Mr. Shannon was desirous of applying, in his own name only, for ordinary membership.

MOTION #131-61

Moved by Mr. Irving, seconded by Mrs. Gove:
 "THAT, should Mr. Shannon submit an application for individual ordinary membership it be approved, this to replace the present associate partnership membership."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr.
 Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott,
 Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

10 MM 5. LISTS OF MEMBERS

SUBJECT: The Secretary enquired whether it was the wish of the Board that each member of the Board be provided with a complete list of 1960 members, and an indication of those who, at the time of preparation of the list, had renewed their membership for 1961.

ACTION: The Secretary was instructed to continue this practice in 1961.

10 MM 6. MESSAGE TO MEMBERS

SUBJECT: The Secretary sought the Board's wishes with regard to the annual message which the President addressed to members.
 ACTION: The President was congratulated on the message which he had addressed to the membership in December (1960), and it was agreed that the practice would be continued in 1961.

10 MM 30. MISCELLANEOUS MEMBERSHIP QUESTIONS

SUBJECT: The Secretary sought rulings on the following questions:

- the fees payable by persons, not residents of Canada, who were admitted to membership prior to the amendments to the By-laws relating to associate membership and higher membership fees;
- the fees payable by persons, admitted to associate and/or ordinary membership, who take up residence in another country.

MOTION #132-61

Moved by Mr. Irving, seconded by Mr. Dawson:
 "THAT, the Canadian National Live Stock Records be instructed that non-resident members must pay the membership fees required by the By-laws."
 FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson,
 Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr.
 Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
 ABSENT (temporarily): Mr. MacKendrick.
 Motion carried.

SUBJECT: The Secretary sought a ruling on the following questions:

- May a partnership membership (associate or ordinary) be altered by the deletion of one or more of the partners included in the membership?
- May the authorized representative of a partnership transfer to himself any dog of which the partnership stands recorded as owner?

ACTION: It was agreed that:

- (1) a partnership membership may be altered by the deletion of one or more of the partners forming the membership provided that all partners signify, in writing, their approval of the deletion;
- (2) an authorized representative of a partnership may transfer to himself any dog of which the partnership stands recorded as owner except when:
 - (a) any partner can establish to the satisfaction of the Board that such transfer is a violation of an agreement between the persons forming the partnership; or
 - (b) a partner obtains a court order or injunction prohibiting the acceptance by the Club of such a transfer.

SUBJECT: Mrs. Mack suggested that the Board consider provision for "junior members" (under 18 years of age) each of whom would pay a \$3.00 annual membership fee, each of whom would receive "Dogs in Canada" while a junior member, but who would not be eligible to vote or be elected to office.

ACTION: No action was taken when it was agreed that an amendment to the By-laws would be necessary.

DOG SHOWS

11 D 1. JUDGES

REPORT: Dr. Williams, Chairman of the Committee appointed by resolution #9-61, reported that the Committee recommended that the Board alter the procedure, previously adopted by the Board regarding the processing of applications received from those wishing to establish their eligibility to judge one or more breeds as provided in Section 2 of Chapter 7 of the Dog Show Rules, as follows:

- (1) The Chairman of the Committee appointed to administer Chapter 7 prepare a qualifying written examination consisting of easily marked questions, such as TRUE or FALSE, YES or NO, or single word or phrase answers.
- (2) This written examination be supervised by a Director, or a member appointed by a Director, or a Notary Public, in outlying districts.
- (3) The written examination paper to be sent to the Secretary and the Chairman have it marked, and if the applicant achieves the required 75%, the Director be so informed, and then required to follow the procedure as recommended for oral examination.

MOTION #133-61

Moved by Mr. Anderson, seconded by Mr. Irving:

"THAT, the recommendation of the Committee Chairman be approved."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. MacKendrick.

Motion carried.

SUBJECT: Mr. Monaghan enquired whether, in the case of a person seeking to establish his eligibility for approval to judge all breeds in a group, the written and oral examinations must cover all breeds in the group, or may the written and oral examinations be confined to the "key breeds" in the group.

ACTION: It was agreed that Section 2 of Chapter 7 intended that both examinations must cover all breeds in the group.

DISCUSSION: The following questions were discussed:

- (1) Whether a person may be approved to judge a group at the group level if said person has established his eligibility to judge the "key breeds" at the breed level, but said person failed to obtain a passing mark on either (or both) his oral and written examinations on one or more of the remaining breeds in the group?
- (2) In the case of an applicant seeking to establish his eligibility to judge more than one group, what time must elapse between the written and oral examinations on each group?

ACTION: These questions were referred to the Committee appointed by resolution #9-61, the Committee to submit its recommendations to the Board.

SUBJECT: Letters from Mrs. M. J. Nattrass, Toronto, and Mr. P. Odenkirchen, Woodbridge, Ont., objecting to the omission of the Chow Chow from the list of "key breeds" in Group #6.

ACTION: This question was ordered referred to the Committee appointed by resolution #9-61, the Committee to submit its recommendations to the Board.

SUBJECT: (1) Standing resolutions providing that all four Maritime provinces shall be considered as one zone in connection with the approval of dates and judges; (2) the division, in 1960, of the four Maritime provinces into two electoral zones each represented by a Director; (3) the question of whether the standing resolutions in question should be amended to provide for two zones, corresponding to the electoral zones, for the purpose of approval of dates and judges.

DISCUSSION: During the discussion which followed Mr. Little and Mr. Gratton recommended that such a division be made on the understanding that the two Maritime Directors would work together with a view to avoiding conflict between dates of shows and trials and judging engagements of those selected to officiate as judges.

MOTION #134-61

Moved by Mr. Little, seconded by Mr. Gratton:

"THAT, the standing resolutions be changed amending "the Maritimes" into two zones: (a) New Brunswick and Prince Edward Island; (b) Nova Scotia and Newfoundland."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Monaghan.

ABSENT (temporarily): Mr. MacKendrick.

Motion carried.

SUBJECT: The Secretary:

- (1) reported that on occasion approval cannot be given to a person to judge an entire group at a show because that person has been approved to judge one or more of the rarer breeds at a show to be held within the time period within which two engagements to judge the same breed or breeds, at the breed level, is not permissible;
- (2) suggested that in such circumstances discretion be employed in implementing the standing resolutions regulating the frequency of judging engagements.

ACTION: It was agreed that the Secretary would use his discretion in these circumstances.

REPORT: A report that the Committee appointed in 1960 to administer Chapter 7 of the Dog Show Rules had ruled, subject to approval or otherwise by the national Board, that a resident of the United Kingdom is eligible to judge, at a championship show to be held under the Club's rules, only those breeds which said person is eligible to judge at a championship show to be held under the rules of the Kennel Club (England).

MOTION #135-61

Moved by Mr. Monaghan, seconded by Dr. Williams:

"THAT, the decision of the Committee be upheld and confirmed."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. MacKendrick.

Motion carried.

11 D 6. ENTRY FORMS

SUBJECT: Mr. Monaghan's proposals with regard to revision of the official entry form for championship shows held under the Club's rules.

MOTION #136-61

Moved by Mr. Monaghan, seconded by Mr. Dawson:

"THAT, this item be referred to the semi-annual meeting."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mrs. Gove, Mr. MacKendrick.

Motion carried.

11 D 10. JUDGES' CONFIDENTIAL CRITIQUES

SUBJECT:

- (1) The resolution (#360-60), reading as follows, adopted by the Board at its semi-annual meeting in 1960:

"THAT, a judge's critique, as recommended by the Committee, be required from each person judging at a championship show on and after January 1, 1961."

- (2) The resolution, reading as follows, adopted by a vote of 24 for, 2 against, at the Annual General Meeting held on February 4, 1961:

"THAT, this matter be given back to the Board for reconsideration and not be implemented this year."

DISCUSSION: The Board discussed the advisability of carrying out the programme which it had previously considered to be a forward step in our judging procedure, and noted the favourable reaction of several of the judges, approved to judge at one or more shows in 1960, to whom a memorandum on the subject had been addressed on December 23, 1960.

MOTION #137-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:

"THAT, motion #360-60 be made a standing resolution."

FOR THE MOTION: Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. MacCallum, Mr. MacKendrick.

Motion carried.

ACTION: The Secretary was instructed to implement resolution #360-60.

11 D 25. DATES

SUBJECT:

- (1) The resolution (#348-60), reading as follows, adopted by the Board at its semi-annual meeting in 1960:

"THAT, when a specialty club makes an application to hold a championship show, it shall only be granted permission to hold a specialty show for the breed or breeds for which it was organized to promote."

- (2) The amendment to Chapter 3, Section 3, of the Dog Show Rules, which provides that

"A specialty championship show shall be confined to the breed or breeds which the club or association, holding such a show, was organized to promote."

- (3) The applications of The Working Dog Association of B. C. to hold all-breed championship shows on September 5th-6th, 1961.

- (4) The question of what constitutes a "specialty club" for the purpose of implementing resolution #348-60 and the amendment to Chapter 3, Section 3 of the Dog Show Rules.

- (5) The question of whether an obedience club may hold a championship show (specialty or all-breed).

DISCUSSION: The following points were considered during the discussion which followed:

- (1) whether the name of a club or association is to be the basis of determining for what breed or breeds a club may hold a championship show, either specialty or all-breed;
- (2) whether, regardless of the name of a club or association, its constitution is to be the basis of determining for what breed or breeds a club may hold a championship show, either specialty or all-breed;
- (3) a letter which the Scottish Terrier Club of Canada had addressed to members of the Board;
- (4) whether judging may proceed beyond the breed level at other than all-breed championship shows.

MOTION #138-61

Moved by Mr. Monaghan, seconded by Mr. Blyth:

"THAT, subject to the solicitor's approval, a specialty club formed for the improvement of any one or more but not all breeds of dogs shall only be given approval to hold a show for the breed or breeds within the name of the club or association, and in the case of a club formed to promote a group the judging may proceed to group level."

AMENDMENT TO MOTION #138-61

An amendment, reading as follows, was moved by Mr. Irving, seconded by Mrs. Mack:

"THAT, we ask the Club's solicitor if a club is construed, under the motion made, as a specialty club or not if their constitution provides for holding a show for all breeds."

FOR THE AMENDMENT: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Dawson, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Dr. Williams.
ABSTAINED FROM VOTING: Mr. Blyth, Mr. Monaghan, Mrs. Southcott.
ABSENT (temporarily): Mrs. Gove, Mr. MacKendrick.
Amendment carried.

DISCUSSION: A discussion followed on whether it would be permissible for a combination of clubs to hold shows in such a way that dogs may earn more than two sets of championship points on a single day.

MOTION #139-61

Moved by Mr. Monaghan, seconded by Mr. Blyth:
"THAT, the Secretary be instructed that permission is not to be granted to a club or clubs to hold shows in such a way that any dog may earn more than two sets of championship points on the same day."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Blyth, Mrs. Gove, Mr. Gratton, Mr. Irving, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
AGAINST: Mr. Anderson, Mr. Dawson, Mr. Little.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

11 D 46. RIBBONS

REPORT: The Secretary reported that a difference of opinion appears to exist with regard to the proper use of the "Special prize" green ribbon (Chapter 5, Section 1 of the Dog Show Rules), and the proper ribbons for use in connection with unofficial classes.

MOTION #140-61

Moved by Mr. Williams, seconded by Mr. Irving:
"THAT, the word "Special" be interpreted to mean unofficial classes."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

ADJOURNMENT

At 7:00 p.m. this meeting adjourned to reconvene in the same place at 9:30 a.m. on Thursday, February 9th, 1961.

FEBRUARY 9, 1961.

The annual meeting of the Board of Directors of The Canadian Kennel Club reconvened in the Club's offices, 667 Yonge Street, Toronto, Ontario, at 9:30 a.m. on Thursday, February 9, 1961, with the President Walter Brown, in the Chair, and the following members of the Board present: J. W. MacCallum, V. W. Williams, J. C. Anderson, R. L. Blyth, Wm. Dawson, Mrs. J. Gove, H. M. Gratton, J. A. H. Irving, Robert Little, Mrs. Pamela B. Mack, W. H. MacKendrick, W. J. Monaghan, Mrs. M. Southcott, and Dr. C. M. Robert Williams.

A suggestion was made that the Board decide, at this time, when this meeting would adjourn in order that members of the Board may make their reservations for air or rail return to their homes.

MOTION #141-61

Moved by Mr. Irving, seconded by Mr. Williams:
"THAT, an hour be set at which this meeting will adjourn."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mr. MacKendrick, Mr. Monaghan.
AGAINST THE MOTION: Mr. Anderson, Mrs. Mack, Mrs. Southcott, Dr. Williams.
Motion carried.

ACTION: It was agreed that the decision as to time of adjournment would be made following the luncheon recess by which time the Board would be in a better position to assess the time likely to be required to transact the remaining business on the agenda.

ACTION: It was agreed that the following items be set over to the semi-annual meeting:

- 11 D 34 -- Champions and championship point ratings.
- 11 D 42 -- Junior showmanship competitions.
- 14 G 15 -- Fellowships.
- 14 G 19 -- Seeing eye dogs.

INTERNAL AND ADMINISTRATION

9 A 88. BUSINESS ARISING OUT OF ANNUAL GENERAL MEETING

SUBJECT: The report which Mrs. N. T. Smith submitted to the Annual General Meeting recommending that the Obedience Trial Regulations and Standards be revised by the addition to Chapter I of those sections of the Dog Show Rules considered to be applicable to licensed obedience trials, and the following resolution which had been adopted following a discussion of Mrs. Smith's report:

"THAT, the Board submit this as an emergency ballot in 1961."

MOTION #142-61

Moved by Mr. Monaghan, seconded by Mr. Williams:
"THAT, the Chairman of the Obedience Council be appointed Chairman of a Committee, with power to add, to bring in a proposed amendment at the semi-annual meeting."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Dr. Williams.
ABSTAINED FROM VOTING: Mrs. Southcott.
Motion carried.

SUBJECT: Reference was made to the courtesy of the Bell Telephone Co. who provided the film, equipment, and operator for the running of a film on genetics 'The Thread of Life', at the Club's annual general meeting.

MOTION #143-61

Moved by Dr. Williams, seconded by Mr. Dawson:
"THAT, a message of appreciation be extended to the Bell Telephone Co."
Motion carried unanimously.

SUBJECT: A suggestion, advanced at the Annual General Meeting, that a notice be included in each referendum ballot suggesting voting members refrain from voting on any proposed amendments of no concern or interest to them.

DISCUSSION: A discussion followed on whether it would be proper for the Board to insert such a notice in any referendum ballot.

MOTION #144-61

Moved by Mr. Williams, seconded by Mr. Irving:
"THAT, this be referred to the solicitor for opinion."
Motion carried unanimously.

DOG SHOWS

11 D 25. DATES

SUBJECT: The questions (previously stated) of:

- (1) what constitutes a "specialty club" for the purpose of implementing resolution #348-60 and the amendment to Chapter 3, Section 3 of the Dog Show Rules; and
- (2) whether an obedience club may hold a championship show (specialty or all-breed).

The Secretary read the letter which had been despatched to the Club's solicitor following the adoption of the amendment to motion #138-61.

MOTION #145-61

Moved by Mr. Monaghan, seconded by Mr. Williams:
"THAT, items 11 (a) and 11 (c) on the agenda be dealt with when the solicitor's opinion has been received and is considered."
Motion carried unanimously.

SUBJECT: The question of what action is to be taken when a club has submitted its application to hold a championship show as required by the Dog Show Rules, but fails to submit, before the deadline specified in the Dog Show Rules (Section 1 (a) of Chapter 8), its application for approval of selected judges.

MOTION #146-61

Moved by Mr. Anderson, seconded by Mrs. Mack:
"THAT, this matter be left at the discretion of the Secretary to consider each case on its merits; that the Secretary's ruling be final and not subject to appeal."
Motion carried unanimously.

SUBJECT: A letter from the Lakehead Kennel Club stating their reasons for objecting to another club's applications to hold championship shows, in the same area, within the six-weeks period preceding their championship shows to be held in July.

MOTION #147-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:
"THAT, the protest of the Lakehead Kennel Club be upheld."
FOR THE MOTION: Mr. MacCallum, Mr. Anderson, Mr. Blyth, Mrs. Gove, Mr. Gratton, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott.
AGAINST THE MOTION: Mr. Williams, Mr. Dawson, Mr. Irving, Dr. Williams.
ABSTAINED FROM VOTING: Mr. MacKendrick.
Motion carried.

SUBJECT: The Secretary:

- (1) reported that the present schedule of priority rights on show and trial dates ends on December 31st, 1962;
- (2) stated that clubs would be applying, in 1962, for dates in 1963;
- (3) recommended that the Board decide on policies which would apply and the procedure to be followed in dealing with applications for priority rights beyond the present schedule.

MOTION #148-61

Moved by Mr. Monaghan, seconded by Mr. Dawson:
"THAT, this item be placed on the agenda of the semi-annual meeting of the Board, and the Secretary place recommendations before the Board at that time."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mrs. Mack.
Motion carried.

SUBJECT: Mr. Irving enquired whether the Board intended that resolution #348-60 would apply to sanction shows.

ACTION: It was agreed that a club deemed to be a specialty club may hold all-breed sanction shows.

11 D 1. JUDGES

REPORT: The Secretary referred to the standing resolution regulating the frequency of the engagement of judges within a zone, and reported on applications received from the Canadian Save the Children's Fund (championship shows to be held June 14-15) and the Ontario County Kennel Club (championship show to be held July 1) where approval had been sought of persons not eligible according to the standing resolution in question.

MOTION #149-61

Moved by Dr. Williams, seconded by Mr. MacKendrick:
"THAT, we adhere to the standing resolution and no exception be made."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mrs. Mack.
Motion carried.

11 D 11. SANCTION SHOWS

SUBJECT: A proposal that the Club's very brief sanction show rules should be re-written with a view to providing clubs holding sanction shows and other entering dogs at or otherwise participating in such shows will have better guidance in the form of adequate rules.

MOTION #150-61

Moved by Mrs. Gove, seconded by Dr. Williams:
"THAT, a Committee be appointed to draft, for the Board's consideration, a set of rules to guide sanction shows."
Motion carried unanimously.

MOTION #151-61

Moved by Mrs. Mack, seconded by Mr. Gratton:
"THAT, Mrs. J. Gove be appointed Chairman of the Committee, with power to add to the Committee."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mrs. Gove.
Motion carried.

11 D 64. LITERATURE ON SHOWS

SUBJECT: A letter from the Hull & District Kennel Club suggesting the preparation of an official guide in the form of "procedure for show secretaries", the guide to indicate in chronological order the steps to be taken from earliest planning to final report on a show.

MOTION #152-61

Moved by Dr. Williams, seconded by Mr. Monaghan:
"THAT, a Committee be formed to prepare a pamphlet on show procedure; and Mr. MacCallum be appointed Chairman of the Committee with power to add."
FOR THE MOTION: Mr. Williams, Mr. Anderson, Mr. Blyth, Mrs. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSTAINED FROM VOTING: Mr. MacCallum.
Motion carried.

OBEEDIENCE TRIALS

12 OB 8. REPORT OF CHAIRMAN OF OBEEDIENCE COUNCIL

REPORT: The Secretary read the following report (dated January 28, 1961) submitted by Mrs. Mary Southcott, Chairman of the Obedience Council:

"As chairman of the Obedience Council, I have submitted regular reports at each meeting of the Board throughout 1960 which have appeared in the minutes, and therefore I do not feel it necessary to repeat anything contained in the previous reports. Also, several reports dealing with obedience matters which will come before the Board at its 1961 annual meeting have been submitted under separate cover and so will not be included in this particular report.

A letter of congratulations was sent to the Gateway City Obedience Training Club following a report from the Obedience Representative regarding two Trials held by this club on December 10th.

On January 9th, 1961, I sent out to each member of the Obedience Council a letter asking for opinions, comments and criticisms on three pertinent subjects. Replies were received from all Representatives whose views are as follows:

Mr. D. B. Hudson (B.C. Island) -- in complete agreement that minimum aggregate total number of dogs which an apprentice should be required to judge in each class before being approved as a judge should be 18 Novice, 9 Open, and 6 Utility.

Mr. R. Rankine (B.C. Mainland) -- in agreement. Suggests that the only other solution might be to require applicants in low entry areas to apprentice in at least 4 Trials under 4 different judges.

Mr. G. W. Frost (Alberta) -- Concurrence.
Mrs. Hazel Rimmer (Saskatchewan) -- Definitely in favour. Suggests that the wording "3 Trials" be altered to "at least 3 Trials" in order to make clear that if minimum aggregate total number of dogs was not sufficient in 3 Trials it would be necessary to continue apprenticing further required number had been judged. Also feels that apprentice judges should have obedience training experience in all classes for which they are applying to judge.

Mrs. Marion King (Manitoba) -- Concurrence. Feels that some sort of experience in obedience should be mandatory for applicants.
Mrs. Audrey Langford (Ontario) -- Agrees with recommended minimum, but feels that it is too low.

Miss Dorothy Budge (Quebec) -- In complete agreement.

Mrs. Gertrude Storey (New Brunswick & P.E.I.) -- Feels that the present requirement should remain, but is of the opinion that an applicant should have put a dog through the class for which he is applying to judge.

Mrs. Yvonne Merrill (Nova Scotia & Nfld.) -- Decidedly concurs with recommendation and feels that the same standard should be maintained across Canada regardless of the varying number of entries.

Having consideration for the replies received from the Obedience Council, I recommend that the minimum number of dogs which an apprentice is required to judge in each class before being approved as a judge should be an aggregate total of 18 Novice, 9 Open and 6 Utility, to be compiled in at least 3 obedience trials under at least 3 different officiating judges.

I would also ask the Board to give consideration to the requirement that a person wishing to become a judge of obedience must first have had some kind of experience in obedience before his application may be considered.

2. Re status of exhibitor in the case of an emergency judge:
All the Obedience Representatives were in complete agreement with the views expressed in my letter.
Mr. Frost commented that it should not be necessary for an exhibitor

to have to notify a Trial-giving Club that he has previously earned a "leg" under the emergency judge even when the emergency judge is sharing an assignment with the advertised judge.
Mrs. Langford pointed out an instance when an exception should be made regarding a dog which receives his first qualifying score under the emergency judge but is entered at another Trial (the entries for which closed prior to the date of the Trial at which said dog received his first "leg" under the emergency judge) where the "emergency" judge is to be the advertised judge.

In view of the opinions expressed by the Obedience Representatives, I recommend that: In a case where the emergency judge replaces the advertised judge for the entire Trial -- as necessitated on the day of the Trial or at a date too late to notify exhibitors of the change -- those dogs entered and shown who receive a qualifying score on that day for the second time under the emergency judge, should be considered as if shown under a different judge. This policy should also apply where the advertised judge is unable either to commence or complete his assignment and it is necessary to obtain an emergency judge for these portions of the Trial. HOWEVER, those dogs receiving a qualifying score for the first time under the emergency judge must be considered as having obtained one "leg" under that particular judge; EXCEPT that where a dog receives a qualifying score under the emergency judge for the first time, but is entered at a subsequent Trial under this same judge (the entries for which Trial closed prior to the date of the first-mentioned Trial), any qualifying scores earned at this second Trial should be counted as having been obtained under another judge.

I would further recommend that when it is necessary for an emergency judge to share an assignment with the advertised judge, arrangements should be made by the Trial-giving club if possible, to permit those exhibitors having previously received a qualifying score under the emergency judge to show their dogs under the advertised judge.

3. Recognized official and unofficial classes:

Mr. D. B. Hudson -- feels that unofficial classes are unnecessary, but if exhibitors wish them he would eliminate the Sub-Novice Class, Graduate Open and Graduate Utility Classes, and permit only the Graduate Novice Class and the Pot Luck Class. He is very enthusiastic about a Service Class if a good one can be planned. (Mr. Hudson also mentioned that on January 14th a meeting of 6 Vancouver Island obedience judges took place, primarily to plan a course of instruction for aspiring judges, and a refresher course for themselves, and therefore the opinions expressed in his letter represent an important section of the Island. He also feels that possibly suggestions for a Service Dog Class may be forthcoming from these people in due course).

Mr. R. Rankine -- Feels that the unofficial classes will no doubt hold an exhibitor's interest in obedience and boost entries, but that the clubs including these extra classes would have to limit entries or make definite arrangements in the schedule of judging to guarantee that the Trials would be concluded within a reasonable time and not burden the judges unreasonably. He is very much in favour of the Pot Luck Class and would like to see a degree above Utility.

Mr. G. W. Frost -- Not in favour of, and can see no reason for any unofficial classes (particularly the Graduate Utility) except the Pot Luck Class which he considers very sporting, and suggests that this particular class might also be in order for dogs with C, D, X, degrees. Also in favour of a Service Dog Class.

Mrs. Hazel Rimmer -- Does not feel that she is in a position at the present time to comment on this matter, but feels that there would seem to be some merit in the "extra" classes.

Mrs. Marion King -- Is of the opinion that generally speaking the unofficial classes are good, except for the Graduate Utility, and is particularly in favour of the Pot Luck Class. She commented on the exercises in the Sub-Novice, Graduate Novice and Graduate Open Classes and suggested that some changes be made and when finalized they should be circularized to all approved and apprentice judges. She also enclosed a copy of the Test C Open Championship Trials of the English Kennel Club which might be helpful in drawing up an advanced obedience class. A letter from Gordon Ashcroft was also enclosed in which he expressed several opinions.

Mrs. Audrey Langford -- Very much in favour of the Pot Luck Class. Sees no need for any sub or graduate class, although she does consider that they might be desirable in areas where entries are not high. She approves of a class above that of Utility, but does not feel that the exercises in the "Graduate Utility" as outlined to be sufficient for this class. Suggests that all Obedience Representatives be regularly provided with up-to-date lists of approved obedience judges.

Miss Dorothy Budge -- Seems to feel that the unofficial classes are acceptable, but makes suggestions for several changes in wording of specifications for certain exercises. She would like to see the Utility Class divided into "A" and "B" to give the new utility entry a better chance in the line-up.

Mrs. Gertrude Storey -- Feels that the "extra" classes should add interest for those in obedience.

Mrs. Yvonne Merrill -- Does not feel that she is sufficiently qualified as yet to express her opinions on this matter, but is in favour of the Pot Luck Class.

Having regard for the views expressed by the members of the Obedience Council, I recommend that at present the C.K.C. recognize as unofficial classes permitted at Obedience Trials not held in conjunction with all-breed Championship Shows, any or all of the following (as described, with several corrections and more detail): Graduate Novice, Graduate Open, Pot Luck, Brace and Team Classes.

Also, I would recommend that consideration be given to the establishment of a recognized official Service Dog Class at such time as suitable exercises are drawn up.

I further recommend that all obedience Representatives be regularly provided with up-to-date lists of approved obedience judges, a copy of the rules relating to substitute and emergency judges, and copies of the procedure relating to the processing of application to establish eligibility to judge one or more obedience classes. In addition, I would suggest that all obedience Representatives be supplied with up-to-date copies of standing resolutions pertaining to obedience.

Since Miss Dorothy Budge suggests that the Utility Class be divided into "A" and "B" classes, I feel that this matter should be discussed.

The clarification of regulations and standards for obedience trials is still

in progress and work still remains to be done of this subject. In view of the recently approved amendments, some changes are necessary, but as soon as all the data is compiled it will be sent to the Council members for consideration before being presented to the Board.

I have gathered together some statistics which I feel are of interest. In 1960 there were 166 Obedience Trials held in Canada (including 2 Tracking Trials), with a total entry of 3,045 dogs. Ontario held the largest number of Trials, with 39 separate events (including 1 Tracking Trial) involving 1,126 entries. British Columbia came second with 25 Obedience Trials in which a total of 975 dogs participated. Quebec held 9 Trials (including 1 Tracking Trial) with entries totalling 496 dogs. Saskatchewan held 7 Obedience Trials in which 62 dogs participated. Alberta had 12 Trials with an entry of 228 dogs. Manitoba held 5 Obedience Trials with 94 entries. Bermuda held 5 Obedience Trials with 34 entries. New Brunswick had 4 Trials with 30 entries. Only 2 Tracking Trials were held in Canada during 1960 -- 1 in Ontario with 8 entries, and the other in Quebec with 9 entries. B. C. had a Tracking Trial scheduled, but it was cancelled.

Although I do not feel that the figures I have on hand are complete (since several recent obedience applicants have not been approved to judge but are not yet included on the list), there are approximately 44 approved judges of obedience in Canada, the majority of which are eligible to judge all 3 classes. British Columbia has 16 judges, Alberta 6, Saskatchewan 3, Manitoba 3, Ontario 11, Quebec 3 and New Brunswick 2. Any judges which may be approved in Bermuda are not listed and so are not included in these figures. There are at the present only 6 approved judges of Tracking Trials in Canada (2 in B. C., 3 in Quebec, and 1 in Ontario) although several others have successfully passed their examinations and are in the process of apprenticing.

In view of the above statistics regarding the number of obedience trials and total entries, and the number of judges in various provinces, I wish to make the following recommendations which I feel are long past due:

1. That the Board direct that a proposed amendment to the Regulations and Standards for Obedience Trials be placed on the next referendum ballot which would require that in order to earn the titles of C. D., C. D. X., and U. D., a dog must receive 3 qualifying scores under 3 different judges in British Columbia. (Ch. 1, Sec. 14, Subsections 2(b), 4(b), 6(b)).
2. The Standing Resolution "A" (re Ch. 1, Sec. 5, Subsection 1, -- Judges) be changed to read "That, in the four zones, Ontario, Quebec, B. C. Island, and B. C. Mainland, obedience judges may not be approved to judge at an obedience trial when said judge officiated as a judge at any one of the four obedience trials held in the same zone immediately preceding the trial at which it is proposed he shall be approved to judge. In any other province a judge shall be allowed to judge twice within the five trial period. No judge can be appointed to judge the same classes at two consecutive trials in the same zone. Vancouver Island shall be considered a separate zone."

Recommendations from the Chairman's Standing Committee on recent applicants to judge obedience were sent to the Secretary under separate cover and so will be reported to the Board elsewhere on the agenda."

MOTION #153-61

Moved by Mrs. Southcott, seconded by Dr. Williams:
"THAT, the report (dated January 28th, 1961) of the Chairman of the Obedience Council be adopted."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

MOTION #154-61

Moved by Mr. Little, seconded by Mr. Dawson:
"THAT, the Chairman of the Obedience Council be thanked for her excellent work in preparing this report."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Dr. Williams.
ABSTAINED FROM VOTING: Mrs. Southcott.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT: The Secretary

- (1) pointed out that some years ago the Board had adopted, as a standing resolution, a definition of the word "trainer";
- (2) a number of Club members who did not agree with the Board's definition had arranged for the proper submission of proposed amendments to Chapter 1, Section 8, Subsection 1 (Novice Class A) and Subsection 4 (Open Class A) of the Obedience Trial Regulations; both proposed amendments had been included on the last referendum ballot, the first having been approved by majority vote, the second having been defeated by majority vote;
- (3) asked the Board for a ruling.

DISCUSSION: Mrs. Southcott recommended that the Board approve (and amend the standing resolution accordingly) the definition of "trainer" as included in the proposed amendment which had been approved on the referendum ballot.

MOTION #155-61

Moved by Mrs. Southcott, seconded by Mrs. Irving:
"THAT, the definition of 'trainer' as it appears in the new definition of the Novice A Class apply also to the Open A Class, and this resolution be included in the Book of Standing Resolutions."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

SUBJECT:

- (1) a request, addressed to Cpl. Hall, asking that he suggest a full set of rules for an effective tracking test, and additional information in the form of interpretation of the rules on tracking procedure as a guide to those holding or participating in tracking tests (resolution #383-60).

- (2) a report and accompanying material received from Cpl. Hall in response to the Board's request, a copy having been forwarded to members of the Board on January 10th;
- (3) a letter (dated January 24th - see Appendix "C") from Mrs. Southcott, Chairman of the Obedience Council.

MOTION #156-61

Moved by Mr. Anderson, seconded by Mr. Monaghan:
"THAT, we proceed on the recommendation of the Chairman of the Obedience Council."
FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. Monaghan, Mrs. Southcott, Dr. Williams.
ABSENT (temporarily): Mr. MacKendrick.
Motion carried.

MOTION #157-61

Moved by Mr. Anderson, seconded by Mr. Little:
"THAT, a message of appreciation be extended to Cpl. Hall."
Motion carried unanimously.

SUBJECT: It was pointed out that the Obedience Trial Regulations and Standards (unlike the Dog Show Rules) do not include a section stating what (and when) returns must be submitted to The Canadian Kennel Club following a licensed trial held under the Club's rules.

MOTION #158-61

Moved by Mr. Monaghan, seconded by Dr. Williams:
"THAT, this be referred to the Chairman of the Council."
Motion carried unanimously.

REPORT: The Secretary reported that when meeting with officials of The American Kennel Club at New York in January:

- (1) he had discussed the possibility of co-operation between the two clubs on the clarification of the Obedience Trial Regulations and Standards and had been informed that:
 - (a) an interior committee of the A. K. C. had almost completed its review of the Regulations and Standards, their work being primarily one of re-editing, clarification and inclusion of interpretations adopted by the A. K. C. over a period of years;
 - (b) a copy of their committee's work would be forwarded to The Canadian Kennel Club in the form of proposals;
 - (c) their committee would be willing to receive and consider any suggestions or comments which the Committee appointed by Mrs. Southcott may wish to forward to the A. K. C.
- (2) he had discussed the difficulty faced by residents of Canada wishing to enter tracking tests held in the United States under A. K. C. rules where it concerns obtaining, before an entry may be made, a certificate or other document certifying that the dog is considered to be ready for such a test, and reported that:
 - (a) the A. K. C. is considering a change in its present rule in this connection;
 - (b) a resident of Canada whose dog has earned its Tracking Test degree in Canada should write the A. K. C. seeking special dispensation in order to enter a dog in a tracking test under A. K. C. rules without the formality of obtaining the certification otherwise required by the Regulations.

FIELD TRIALS

13 FT 1. REPORT OF CHAIRMAN OF FIELD TRIAL COUNCIL

REPORT: The report, dated January 20, 1961, which Mr. Robert L. Blyth, Chairman of the Field Trial Council in 1960, submitted to the Board, the report reading as follows:

"Following out the custom of my previous reports to the Board, there follows statistical information with regard to the number of licensed trials held under the Club's rules for a number of years.

Licensed Trials	1938	1957	1958	1959	1960
Retrievers	3	33	38	42	47
Beagles	4	20	20	26	29
Spaniels	1	5	5	6	7
Pointing breeds	2	2	3	3	7
Foxhounds	0	3	1	1	1
Total	10	63	67	78	91

The 16% increase in the number of licensed trials over the previous year is, I feel, a significant indication that interest in the Sporting dogs from a working point of view, has increased.

As previously asked by the Board, I have communicated with the Field Trial Representatives for Retrievers on a letter received from the Weimaraner Club of Canada which asks that The Canadian Kennel Club take the necessary steps to allow Weimaraners to become eligible to enter and compete in Canadian Kennel Club licensed Retriever trials. It should be noted however, that the Weimaraner Club stated that it was not their desire, with all due respect to the Retriever fanciers, to have Weimaraners classed as Retrievers.

Chapter 9 of the present Field Trial Rules and Regulations includes the Weimaraner with Pointing breeds. A Retriever trial is obviously a trial for Retrievers, and if the Weimaraner fanciers do not desire to have their dogs classed as Retrievers, then I cannot understand on what grounds they could reasonably expect the Board to take any steps to permit the Weimaraner to enter Retriever field trials. I therefore recommend that the Board take no action in the matter, but advise the Weimaraner Club of Canada that the Field Trial Rules provide means by which those Rules may be amended and if they desire to have the Rules amended, then such of their members as have a right to submit a proposed amendment to The Canadian Kennel Club's Field Trial Rules and Regulations, may take such action as they deem appropriate.

As desired by the Board, I have communicated with the Field Trial Representatives on a letter received from the English Springer Spaniel Club of Canada with regard to the issuance of working certificates for English Springer Spaniels. I feel that the English Springer Spaniel Club of Canada should be complimented on advancing a plan apparently designed to make it possible for breeders of English Springer Spaniels to have available, records which would assist them in breeding dogs which would retain their natural hunting ability. I do not propose to

comment in detail on their plan, but would recommend to the Board that it consider taking steps which would make it possible, in due course, for the holding of tests at which Sporting dogs could be entered by their owners on a voluntary basis, with a view to those dogs meeting certain minimum requirements being awarded a working certificate and appropriate record being made on their individual records to show that such dogs have been awarded such certificates.

It is my recommendation that the Board of Directors authorize the Chairman of the Field Trial Council to appoint a committee, on which each type of field trial activity would have one or two representatives, with a view to such a committee drafting a basic plan which could, in due course, be turned over to each national Advisory Council for consideration and report back to the committee. The committee could place formal recommendations before the Board, and I visualize the possibility of specific rules being set up for each type of working test, including a statement of the purpose of the test, the manner in which such tests will be conducted under the Club's rules, the manner in which certificates would be issued, and the notations which would be made on the registration records for dogs successfully passing the test.

The Board has already been furnished with a copy of a report, dated December 15, 1960, addressed to the Secretary by Brigadier J. A. W. Bennett, Ontario Field Trial Representative for the Pointing breeds. I do not feel that I can add anything to the excellent report submitted by Brigadier Bennett. However, the Board I am sure, will be pleased to note that the number of licensed trials for Pointing breeds has shown a marked increase over that of the past few years.

The matter of official measurement of Beagles was ordered referred to the annual meeting of the Board, and I have not been asked to take this matter under advisement. I do however feel that we would be well advised to communicate with all of the Beagle clubs holding licensed Beagle trials under the Club's rules, seeking their recommendations as to an acceptable and practical plan for the official measurement of Beagles. I feel that any plan that might be adopted in this connection should be one which would receive their support and co-operation.

In conclusion, I should like to thank all those Field Trial Representatives who have co-operated during the past year, not only by attending trials, but also in correspondence with me in regard to matters referred to them for consideration."

MOTION #159-61

Moved by Mr. Blyth, seconded by Mr. Williams:
"THAT, the report of the Chairman of the Field Trial Council be adopted."

Motion carried unanimously.

MOTION #160-61

Moved by Mr. Dawson, seconded by Mr. Irving:
"THAT, the Chairman of the Field Trial Council be thanked for his excellent report."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
Motion carried.

13 FT 7. JUDGES

SUBJECT: The Secretary read a letter from Mr. Williams who:
(1) expressed the view that licensed field trials can be improved by "improving a judges' critique";
(2) suggested that in premium lists for field trials there be included the paragraph, previously approved by the Board and now Section 16 of Chapter 9 of the Dog Show Rules, relating to "indignities to judges".

MOTION #161-61

Moved by Mr. Williams, seconded by Mr. Blyth:
"THAT, a standing resolution be set up including the same provision re indignities to judges at obedience trials and field trials."

Motion carried unanimously.

ACTION: The Secretary was instructed to implement this motion by including the same notice, re "indignities to judges", in premium lists for field trials and obedience trials.

REPORT: The Secretary reported that, pursuant to resolution #503-60, the views of the Ontario Association of Beagle Clubs, the Quebec & Eastern Ontario Association of Beagle Clubs, and the Beagle Field Trial Representative for Nova Scotia & Newfoundland had been sought with regard to the establishment of a system of apprenticing and approval of judges for licensed Beagle field trials, and read letters received from the Quebec & Eastern Ontario Association of Beagle Clubs and Mr. Robert W. McGlashan, Beagle Field Trial Representative for Nova Scotia & Newfoundland.

DISCUSSION: The following points were discussed:

- (1) the advisability of referring the question to the Chairman of the Field Trial Council for development and later report to the Board;
- (2) arrangements for the tentative approval of Beagle field trial judges pending the establishment of a system of apprenticing and approval.

MOTION #162-61

Moved by Mr. Monaghan, seconded by Dr. Williams:
"THAT, the report be referred to the Chairman of the Field Trial Council for such action as he sees fit."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
Motion carried.

MOTION #163-61

Moved by Dr. Williams, seconded by Mr. Monaghan:
"THAT, this matter be referred to the Chairman of the Field Trial Council who is authorized to instruct approval of judges for Beagle field trials on a temporary and without prejudice basis until a system of qualifying Beagle field trial judges is in effect."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Dawson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
Motion carried.

REPORT: The Secretary reported that as instructed by the Board he communicated with Mr. John Hunt, 1960 Ontario Field Trial Representative for Beagles (Packs) and had sought a report and recommendation with regard to Mr. H. G. McConnell who had apprenticed at a number of Beagle field trials, and read a letter received from Mr. Hunt and the reports submitted by the judges under whom Mr. McConnell had apprenticed.

MOTION #164-61

Moved by Mr. Monaghan, seconded by Mrs. Mack:
"THAT, Mr. H. G. McConnell be added to the list of approved Beagle field trial judges."

Motion carried unanimously.

13 FT 9. OFFICIAL MEASURING OF BEAGLES

REPORT: The Secretary reported that at its meeting in December the Board had ordered (resolution #489-60) referred to this meeting for consideration the matter of the procedure to be followed in connection with the official measurement of Beagles.

MOTION #165-61

Moved by Mr. Monaghan, seconded by Mr. Anderson:
"THAT, the whole matter of official measurement of Beagles be referred to the Field Trial Council for consideration, report and recommendation."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
ABSENT (temporarily): Mr. Dawson.
Motion carried.

SUBJECT: Mr. Gratton reported that he had been asked for a ruling as to who is the proper person to hold a Beagle when it is measured at a Beagle field trial.

MOTION #167-61

Moved by Mr. Gratton, seconded by Mr. Little:
"THAT, the owner or his agent shall hold the dog when it is measured."

Motion carried unanimously.

SUBJECT: The Secretary:

- (1) enquired as to the appointment of official measurers to complete the roster of official measurers called for by the Field Trial Rules & Regulations;
- (2) sought instructions with regard to designating a particular person to officially measure a Beagle when required by the Field Trial Rules & Regulations.

MOTION #168-61

Moved by Mrs. Mack, seconded by Mr. MacKendrick:
"THAT, the Chairman of the Field Trial Council be authorized to appoint an official measurer when it is deemed necessary on individual cases."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
ABSENT (temporarily): Mr. Dawson.
Motion carried.

MOTION #169-61

Moved by Mr. Anderson, seconded by Mr. Little:
"THAT, the Chairman of the Field Trial Council be authorized to appoint official measurers where vacancies presently exist."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSTAINED FROM VOTING: Mr. Blyth.
ABSENT (temporarily): Mr. Dawson.
Motion carried.

SUBJECT: Mrs. Mack referred to the instructions previously distributed to official measurers with regard to using an official measuring standard in the possession of the local Director, and enquired whether it would be permissible for an official measurer to employ an acceptable measuring standard in the possession of the nearest Beagle field trial Club.

ACTION: It was agreed that this would be permissible.

13 FT 34. SPANIEL TRIALS

REPORT: A report was placed before the Board with regard to the proposals of the English Springer Spaniel Club of Canada with regard to the establishment of a system of issuance of 'Working certificates' for Spaniels, and comments received from Field Trial Representatives for Spaniels on this subject.

DISCUSSION: The Board discussed the recommendations, on this subject, as set forth in the report of the Field Trial Chairman (see Item 13 FT 1). ACTION: It was agreed that having adopted the Chairman's report (resolution #159-61), the Chairman would proceed to carry out his recommendation.

13 FT 35. RETRIEVER TRIALS

SUBJECT: The Secretary:

- (1) read the following part of the new amendment, effective January 1, 1961, to the Field Trial Rules and Regulations:
"No person shall be approved to judge any stake held for Retrievers and Irish Water Spaniels unless he has been approved by The Canadian Kennel Club to judge that stake within a five-year period prior to December 31st, 1960;"
- (2) enquired whether a person eligible, under the new amendment, to judge an Open All-Age Stake would be eligible to judge any other stake even though he may not have judged any other stake "within a five-year period prior to December 31st, 1960".

DISCUSSION: The Board discussed the advisability of interpreting the new rule to provide that a person eligible to judge a particular stake was eligible to judge a lesser stake.

MOTION #170-61

Moved by Mr. Blyth, seconded by Mr. Williams:

"THAT, any person eligible to judge an all-age stake is eligible to judge any stake and a person eligible to judge the Qualifying Stake is eligible to judge the Junior Stake."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Anderson, Mr. Blyth, Mrs. Gove, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. Dawson.

Motion carried.

SUBJECT: A letter from Mr. Wm. H. Copeland, Ontario Field Trial Representative for Retrievers, suggesting that the Board approve certain changes in the "Supplement to the Standard Procedure for Retriever Field Trials", said changes having been previously approved by The American Kennel Club.

DISCUSSION: The Board discussed the changes proposed and noted the authority to adopt such changes as provided in the "Supplement to the Standard Procedure for Retriever Field Trials" (amendment #5 on 1960 referendum ballot).

MOTION #171-61

Moved by Mr. Irving, seconded by Mr. MacKendrick:

"THAT, we accept the amendments as suggested."

FOR THE MOTION: Mr. MacCallum, Mr. Williams, Mr. Blyth, Mr. Gratton, Mr. Irving, Mr. Little, Mrs. Mack, Mr. MacKendrick, Mr. Monaghan, Mrs. Southcott, Dr. Williams.

ABSENT (temporarily): Mr. Anderson, Mr. Dawson, Mrs. Gove.

Motion carried.

(To be continued)

PROPOSED AMENDMENTS

PROPOSED AMENDMENTS TO THE BY-LAWS

PROPOSED AMENDMENT NO. 1

IT IS PROPOSED THAT:

Article XIII, COMMITTEES, REPRESENTATIVES AND APPOINTMENTS, Section 10 (Field Trial Representatives), be amended as follows: by adding at the end of the first paragraph the following: "The Province of British Columbia shall be divided into three areas - Mainland, Island, and Interior".

THIS AMENDMENT PROPOSED BY: J. A. H. Irving, Mrs. Elsie D. Murray, Mrs. D. Wall, George Kynoch, Wm. H. Pym, Robert Carswell.

PROPOSED AMENDMENT NO. 2

IT IS PROPOSED THAT:

Article XIII, COMMITTEES, REPRESENTATIVES AND APPOINTMENTS, Section 11 (Obedience Representatives), be amended by deleting after the words "obedience activity" in the third line of the first paragraph, the following words "The Board to consider recommendations from clubs holding obedience training classes and clubs holding obedience trials."

And in the list of zones in the same Section a new zone to be known as "British Columbia (Interior)" be inserted as item "c", and the remainder of the zones be re-lettered accordingly.

THIS AMENDMENT PROPOSED BY: J. A. H. Irving, Mrs. Elsie D. Murray, Mrs. D. Wall, George Kynoch, Wm. H. Pym, H. J. Head, Mrs. W. I. Maxwell.

PROPOSED AMENDMENT NO. 3

IT IS PROPOSED THAT:

Article XXX (Registration of Individual Dogs) of the By-laws be amended by the addition of a new subsection, reading as follows, to the present Section 4:

"(g) Subject only to the provisions of subsection (e) above, the Board shall have the power to prohibit the use of any name, for the purpose of registration of individual dogs in the Club's records if, in the opinion of the Board, such name infringes on the rights of any person, partnership or company whose kennel name has been registered by the Club, or where, in the opinion of the Board, such name is considered to be similar to a kennel name registered with any other national kennel club with whom this Club has working arrangements with regard to mutual protection of registered kennel names."

PROPOSED AMENDMENT NO. 4

IT IS PROPOSED THAT:

Article XXXVIII (AMENDMENTS) of the By-laws be amended as follows:

1. Section 5 (b): delete "June 10th" and substitute "May 31st".
2. Section 6 (1): delete "June 10th" and substitute "May 31st".
3. Section 6 (2): delete the words "and the Secretary shall, not later than July 5th, provide each member of the Amendments Committee with a copy of the views and suggested changes so submitted".
4. Section 7 (1): delete "July 31st" and substitute "July 15th".
5. Section 7 (2): delete "July 31st" and substitute "July 15th".
6. Section 7 (3): delete "August 20th" and substitute "August 5th".
7. Section 8: Delete "August 26th" and substitute "August 20th".

PROPOSED AMENDMENTS TO THE DOG SHOW RULES

PROPOSED AMENDMENT NO. 5

IT IS PROPOSED THAT:

Chapter 16, ENTRIES AND ENTRY FEES, Section 1, of the Dog Show Rules, be amended by the addition of a new paragraph reading as follows:

"The Board shall have the power to advise a person entering a dog at a show held under the Club's rules that he may no longer include in

the name of a dog any name which, in the opinion of the Board, infringes on the rights of any person, partnership or company whose kennel name has been registered by the Club, or where, in the opinion of the Board, such name is considered to be similar to a kennel name registered with any other national kennel club with whom the Club has working arrangements with regard to mutual protection of registered kennel name."

"If, where a person has been advised that he may no longer include a particular name in the name of a dog and said person continues to enter a dog at shows held under the Club's rules with such name included, then the Board shall have the power to cancel all awards, prizes, and championship points earned by said dog at shows held after the original advice was communicated to the owner of said dog."

PROPOSED AMENDMENT NO. 6

IT IS PROPOSED THAT:

Chapter 23, PROTESTS, Section 1 of the Dog Show Rules, be amended by the deletion of the words "a dog" in the first sentence.

PROPOSED AMENDMENTS TO THE OBEDIENCE TRIAL REGULATIONS AND STANDARDS

PROPOSED AMENDMENT NO. 7

IT IS PROPOSED THAT:

Chapter 1, Section 7 (ENTRIES), Subsection 2 of the Obedience Trial Regulations and Standards, be amended by the addition of a new paragraph reading as follows:

Same proposed addition as proposed amendment No. 5, except change "show" to "obedience trial" and "shows" to "obedience trials".

PROPOSED AMENDMENTS TO THE FIELD TRIAL RULES AND REGULATIONS

PROPOSED AMENDMENT NO. 8

IT IS PROPOSED THAT:

Chapter 7, ENTRIES AND ENTRY FEES, Section 1 of the Field Trial Rules and Regulations, be amended by the addition of a new paragraph reading as follows:

Same proposed addition as proposed amendment No. 5, except change "show" to "field trial" and "shows" to "field trials".

NOTICE

Sections 4 and 5 of Article XXXVIII (AMENDMENTS) of the By-laws of The Canadian Kennel Club read as follows:

4. (1) Each proposed amendment shall be placed on the agenda of the annual general meeting of the Club next following the date of publication. The ordinary members present may discuss at such meeting each proposed amendment, suggest and discuss changes in it and indicate by a majority of those voting whether or not they concur with the proposed amendment in its original form or in a changed form.
- (2) No changed form of a proposed amendment shall be considered as having received the concurrence of the annual general meeting unless a majority of those voting have voted in favour of such changed form.
- (3) Any proposed amendment may be withdrawn at any time before it is placed on the referendum ballot by the principal proposer duly authorized in writing by a majority of the proposers.
5. The Secretary shall, as soon as possible, after the annual general meeting:
 - (a) provide all the ordinary members of the Club with a resume of the discussion, the text of any suggested changes; and the numerical results of all votes cast at the meeting respecting the original form of the proposed amendment or any suggested changes thereto; and
 - (b) request all such ordinary members to submit, at their option, but not later than June 10th, written opinions with regard to the original proposed amendment, the suggested changes and any other relevant comments or suggestions they may wish to make."

When, at the Annual General Meeting held on February 4, 1961, the President called the item "Proposed Amendments", a motion, reading as follows, was immediately moved by Mr. H. N. J. Gardiner, seconded by Mr. Thomas Joel:

"THAT, the meeting refer the proposed amendments to the Amendments Committee without discussion."

Under the Rules of Order a motion to refer is not debatable, consequently the President put the motion with the following result: voting in favour of the motion, 16 members; voting against the motion, 11 members. The President declared the motion carried.

As it is not possible for the Secretary to comply with the requirements of Section 5 (a) of Article XXXVIII, the Chairman of the Amendments Committee has directed that the eight original proposed amendments be re-published, followed by a specific request that ordinary members should send in their views and comments for the consideration of the Amendments Committee prior to June 10, 1961.

This, therefore, is an invitation to ordinary members of the Club to submit, not later than June 10, 1961, written opinions with regard to Amendments #1 to #8 inclusive published on this page, and any other relevant comments or suggestions they may wish to make. All such letters should be addressed to the Secretary of The Canadian Kennel Club, 667 Yonge Street, Toronto 5, Ontario.

The dog is docile, very playful. In action, the head is carried almost straight out on a level with back, and the tail is always in motion.

COLOR

Red or fawn slightly lighter than that of an Irish Setter. Belly and underside of tail slightly lighter. No objection white blaze on forehead, chest, toes and tip of tail. Most toilers show white patch on chest and belly, and while this is not entirely objected to, it is more desirable to eliminate all white. White on shoulders and around ears or across back or flanks not permitted. Color throughout should be that of a red fox.

CHARACTERISTICS

Docile, non-roamer, exceptionally easy to train, born retriever on land or from water, cleanliness, timid, good guard dog, will fight as last resort, great swimmer, endurance, playful. The moment the slightest indication is given that retrieving is required, he sets himself for springy action.

RHODESIAN RIDGEBACK

1. The peculiarity of this breed is the ridge on the back, which is formed by the hair growing in the opposite direction to the rest of the coat. The ridge must be regarded as the escutcheon of the breed. The ridge should be clearly defined, tapering and symmetrical. It should start immediately behind the shoulders and continue up to a point between the prominence of the hips (hunch bones), and should contain two identical crowns opposite each other. The lower edges of the crown should not extend further down the ridge than one-third of the ridge.

2. In general appearance the Ridgeback should represent a strong muscular and active dog, symmetrical in outline, and capable of great endurance with a fair amount of speed.

3. The head should be of a fair length, and skull flat and rather broad between the ears and should be free from wrinkles when in repose. The stop should be reasonably well defined, and not in one straight line from the nose to the occiput bone, as required in a Bull Terrier.

4. The muzzle should be long, deep and powerful, jaws level and strong with well developed teeth, especially the canines or holders. The lips clean, closely fitting the jaws.

5. The eyes should be moderately well apart, and should be round, bright and sparkling, with intelligent expression, their colour harmonising with the colour of the nose.

6. The ears should be set rather high, of medium size, rather wide at the base, and tapering to a rounded point. They should be carried close to the head.

7. The nose should be black, or brown, in keeping with the colour of the eyes. No other coloured nose is permissible. A blacknose should be accompanied by dark eyes, a brown nose by amber eyes.

8. Neck and shoulders: The neck should be fairly strong and free from throatiness. The shoulders should be sloping, clean and muscular, denoting speed.

9. Body, back, chest and loins: The chest should not be too wide, but very deep and capacious; ribs moderately well sprung, never rounded like barrel hoops (which would indicate want of speed), the back powerful, and loins strong, muscular and slightly arched.

10. Legs and feet: The forelegs should be perfectly straight, strong and heavy in bone; elbows close to the body. The feet should be compact, with well arched toes, round, tough, elastic pads, protected by hair between the toes and pads. In the hind legs the muscles should be clean, well defined, and hocks well down.

11. The tail should be strong at the insertion, and generally tapering towards the end, free from coarseness. It should not be inserted too high or too low, and should be carried with a slight curve upwards, never curled.

12. The coat should be short and dense, sleek and glossy in appearance, but neither woolly or silky.

13. Colour: Light wheaten to red wheaten. A little white on the chest and toes permissible but excessive white here and on the belly and above paws is undesirable.

14. Size: A mature Ridgeback should be a handsome, upstanding dog; dogs should be of a height of 25 to 27 inches, and bitches 24 to 26 inches. Minimum bench standard: dogs 25 inches, bitches 24 inches.

Weight (desirable): dogs 75 pounds, bitches 65 pounds.

Tail	5
Size, symmetry, general appearance	20
TOTAL ..	100

SAMOYED

GENERAL APPEARANCE

The Samoyed being essentially a working dog, should present a picture of beauty, alertness and strength, with agility, dignity and grace. As his work lies in the cold climate, his coat should be heavy and weather resistant, and of good quality rather than quantity. The male carries more of a "ruff" than the female. He should not be long in the back as a weak back would make him practically useless for his legitimate work, but at the same time a close coupled body would also place him at a great disadvantage as a draft dog. Breeders should aim for the happy medium, a body not long but muscular, allowing liberty, with a deep chest and well sprung ribs, strong arched neck, straight front and especially strong loins. Males should be masculine in appearance and deportment without unwarranted aggressiveness; bitches feminine without weakness of structure or apparent softness of temperament. Bitches may be slightly longer in back than males. They should both give the appearance of being capable of great endurance but be free from coarseness. Because of the depth of chest required, the legs should be moderately long. A very short-legged dog is to be deprecated. Hindquarters should be particularly well developed, stifles well bent and any suggestion of unsound stifles or cowhocks severely penalized. General appearance should include movement and general conformation indicating balance and good substance.

GAIT

A Samoyed should gait with a good, well-balanced movement. He should move with an easy, agile stride that is well timed. The gait should be free with a good reach in the forequarters and a sound, driving power in the hindquarters. A choppy or stilted gait should be penalized.

COAT

The body should be well covered with a thick, close, soft and short undercoat, with harsh hair growing through it, forming the outer coat, which should stand straight away from the body and be quite free from curl. The legs should have good feathering.

HEAD

Powerful and wedge shaped with a broad, flat skull, muzzle of medium length, a tapering foreface, not too sharply defined. The stop should be not too abrupt -- nevertheless well defined. Ears should not be too long but rounded at the tips, set well apart and well covered inside with hair. Eyes dark, set well apart and deep with alert intelligent expression. Lips black, flews should not drop predominantly at corners of the mouth. Hair short and smooth before the ears. Nose and eye-rims black for preference, but may be brown. Strong jaws with level teeth.

BACK

Medium in length, broad and very muscular. Bitches may be slightly longer in back than males.

CHEST AND RIBS

Chest broad and deep. Ribs well sprung, giving plenty of heart and lung room.

HINDQUARTERS

Very muscular, stifles well let down, cowhocks or straight stifles should be severely penalized.

FORELEGS

Straight and muscular. Good bone. In or out at the elbow to be severely penalized.

FEET

Long, flattish and slightly spread out. Soles well padded with hair.

TAIL

Long and profuse, carried over the back when alert, sometimes dropped when at rest. A judge should see the tail over the back once when judging. A double hook should be penalized.

SIZE AND WEIGHT

Dogs 20" to 22" at the shoulder; bitches 18" to 20"; weight in proportion to size.

COLOR

Pure white, cream, biscuit, or white and biscuit.

DISPOSITION

Alert and intelligent and should show animation. Friendly, but conservative. Unprovoked aggressiveness to be severely penalized.

SCALE OF POINTS

Gait	15
General Appearance	10
Coat	10
Head	10
Back	10
Chest and Ribs	10
Hindquarters	10
Forelegs	10
Feet	10
Tail	5
Total	100

DISQUALIFICATIONS

Blue eyes. Dew claws on the hind legs. Any colour other than pure white, cream, biscuit or white and biscuit.

PENALTIES

Over or under allowed height. Cowhocks or straight stifles. In or out at the elbow. Choppy or stilted gait. Double hook in the tail. Unprovoked aggressiveness.

SCHIPPERKE

APPEARANCE AND GENERAL CHARACTERISTICS

Excellent and faithful little watchdog, suspicious of strangers. Active, agile, indefatigable, continually occupied with what is going on around him, careful of things that are given him to guard, very kind with children knows the ways of the household; always curious to know what is going on behind closed doors or about any object that has been moved, betraying his impressions by his sharp bark and upstanding ruff, seeking the company of horses, a hunter of moles and other vermin; can be used to hunt, a good rabbit dog.

COLOR

Any solid color other than white.

HEAD

Foxlike, fairly wide, narrowing at the eyes, seen in profile flat skull, tapering muzzle not too elongated nor too blunt, not too much stop.

NOSE

Small and black.

EYES

Very dark brown, small, oval rather than round, neither sunken nor prominent.

EXPRESSION

Should have a questioning expression; sharp and lively, not mean or wild.

EARS

Very erect, small, triangular, placed high, strong enough not to be capable of being lowered except in line with the body.

TEETH

Meeting evenly. A tight scissors bite is acceptable.

NECK

Strong and full, slightly arched, rather short.

SHOULDERS

Muscular and sloping.

CHEST

Broad and deep in brisket.

BODY

Short, thick-set and cobby. Broad behind the shoulders, seeming higher in front because of ruff. Back strong, short, straight and level or slightly sloping down toward rump. Ribs well sprung.

LOINS

Muscular and well drawn up from the brisket but not to such an extent as to cause a weak and leggy appearance of the hindquarters.

FORELEGS

Straight under body, with bone in proportion, but not coarse.

HINDQUARTERS

Somewhat lighter than the foreparts, but muscular, powerful, with rump well rounded, tail docked to no more than 1 inch in length.

FEET

Small, round, and tight (not splayed), nails straight, strong and short.

COAT

Abundant and slightly harsh to the touch, short on the ears and on the front of legs and on the hocks, fairly short on the body, but longer around neck beginning back of the ears, and forming a ruff and a cape; a jabot extending down between the front legs, also longer on rear where it forms a culotte the points turning inward. Undercoat dense and short on body, very dense around neck making ruff stand out. Culotte should be as long as the ruff.

WEIGHT

12 to 18 pounds.

FAULTS

Light eyes, large round prominent eyes, ears too long or too rounded, narrow head and elongated muzzle, too blunt muzzle, domed skull, smooth short coat with short ruff and culotte, lack of undercoat, curly or silky coat, body coat more than three (3) inches long, slightly overshot or undershot, sway-back. Bull Terrier shaped head, straight hocks. Straight stifles and shoulders, cow hocks, feet turning in or out, legs not straight when viewed from front. Lack of distinction between length of coat, ruff and culotte.

DISQUALIFICATIONS

Drop or semi-erect ears. Badly overshot or undershot. Dudley noses in colored specimens.

SCHNAUZER (MINIATURE)

GENERAL APPEARANCE

The Miniature Schnauzer is a robust, active dog of terrier type, resembling his larger cousin the Standard Schnauzer, in general appearance, and of an alert, active disposition. He is sturdily built, nearly square in proportion of body length to height, with plenty of bone, and without any suggestion of toyishness.

HEAD

Strong and rectangular, its width diminishing slightly from ears to eyes, and again to the tip of the nose. The forehead is unwrinkled. The skull is flat and fairly long. The foreface is parallel to the top skull, with a slight stop; and is at least as long as the top skull. The muzzle is strong in proportion to the skull; it ends in a moderately blunt manner, with thick whiskers which accentuate the rectangular shape of the head.

TEETH

The teeth meet in a scissors bite. That is, the upper front teeth overlap the lower front teeth in such a manner that the inner surface of the upper incisors barely touches the outer surface of the lower incisors when the mouth is closed.

EYES

Small, dark brown and deep-set. They are oval in appearance and keen in expression.

EARS

When cropped the ears are identical in shape and length, with pointed tips. They are in balance with the head and not exaggerated in length. They are set high on the skull and carried perpendicularly at the inner edges, with as little bell as possible along the outer edges. When uncropped the ears are small and v-shaped, folding close to the skull.

NECK

Strong and well arched, blending into the shoulders, and with the skin fitting tightly at the throat.

BODY

Short and deep, with the brisket extending at least to the elbows. Ribs are well sprung and deep, extending well back to a short loin. The underbody does not present a tucked-up appearance at the flank. The top line is straight; it declines slightly from the withers to the base of the tail. The over-all length from chest to stern bone equals the height at the withers.

FOREQUARTERS

The forequarters have flat, somewhat sloping shoulders and high withers. Forelegs are straight and parallel when viewed from all sides. They have strong pasterns and good bone. They are separated by a fairly deep brisket which precludes a pinched front. The elbows are close, and the ribs spread gradually from the first rib so as to allow space for the elbows to move close to the body.

HINDQUARTERS

The hindquarters have strong-muscled, slanting thighs; they are well bent at the stifles and straight from hock to so-called heel. There is sufficient angulation so that, in stance, the hocks extend beyond the tail. The hindquarters never appear overbuilt or higher than the shoulders.

FEET

Short and round (cat-feet) with thick, black pads. The toes are arched and compact.

ACTION

The trot is the gait at which movement is judged. The dog must gait in a straight line. Coming on, the forelegs are parallel, with the elbows

close to the body. The feet turn neither inward nor outward. Going away, the hind legs are parallel from the hocks down, and travel wide. Viewed from the side, the forelegs have a good reach, while the hind legs have a strong drive with good pick-up of hocks.

TAIL

Set high and carried erect. It is docked only long enough to be clearly visible over the top line of the body when the dog is in proper length of coat.

COAT

Double, with a hard, wiry outer coat and a close under coat. The body coat should be plucked. When in show condition, the proper length is not less than three-quarters of an inch except on neck, ears and skull. Furnishings are fairly thick but not silky.

SIZE

From 12 to 14 inches. Ideal size 13-1/2 inches. See disqualifications.

COLOR

The recognized colors are salt and pepper, black and silver, and solid black. The typical color is salt and pepper in shades of gray; tan shading is permissible. The salt and pepper mixture fades out to light gray or silver white in the eyebrows, whiskers, cheeks, under throat, across chest, under tail, leg furnishings, under body, and inside legs. The light under-body hair is not to rise higher on the sides of the body than the front elbows.

The black and silvers follow the same pattern, as the salt and peppers. The entire salt and pepper section must be black. Black is the only solid color allowed. It must be a true black with no gray hairs and no brown tinge except where the whiskers may have become discolored. A small white spot on the chest is permitted.

FAULTS

TYPE - Toyishness, raciness, or coarseness. STRUCTURE - Head coarse and cheeky. Chest too broad or shallow in brisket. Tail set low. Sway or roach back. Bowed or cowhocked hindquarters. Loose elbows. ACTION - Sidegating. Paddling in front, or high hackney knee action. Weak hind action. COAT - Too soft or too smooth and slick in appearance. TEMPERAMENT - Shyness or viciousness. BITE - Undershot or overshot jaw. Level bite. EYES - Light and/or large and prominent in appearance.

DISQUALIFICATIONS

Dogs or bitches under 12 inches or over 14 inches. Color solid white or white patches on the body.

SPANIEL (AMERICAN COCKER)

CHANGE IN STANDARD

The following is deleted from the standard as reported in The Complete Dog Book:

"Black and tans are shown under the variety classification of solid color other than black. The markings of black and tans should be definite. The black should be jet and the tan rich in shade. Tan pigmentation solely under the stern and on the underside of the ears does disqualify. The same penalties apply to white markings on black and tans as apply to solid colours."

The following is to be added to the standard:

"Black and tans shall have definite tan markings on a jet black body with clearly defined lines between the two colours. The nose shall be black and the eyes very dark. The markings shall be distinct and plainly visible. The shade of tan is not specified but the richer, or more vivid the colouring the better. The quantity and location of the tan markings are the essence of this description. The amount of tan is restricted to 10% or less, of the colour of the specimen and the markings shall be located as follows:

- a clear spot over each eye;
- on the sides of the muzzle, and must not extend up and over and join; on the cheeks and on the undersides of the ears;
- on all feet extending upward toward the knee and hock joint;
- under the tail and around the vent.

Tan on the chest is not essential; a solid tan chest is undesirable and shall be penalized. The same penalties and disqualifications apply to white markings on the Black and Tan as apply to solid colours. Tan pigmentation solely on the stern and the undersides of the ears disqualifies. Black hairs and pencilling on the tan markings do not penalize but when the tan is "brindled", it is NOT rich.

Black and Tans which do not qualify under this description shall be barred from competition.

NOTE: It should be noted that the following section of the standard, as it applies to all varieties, remains in effect.

"Weight - Not under 22 or over 28 pounds. Weights under or in excess of these limits shall be severely penalized. Puppies are exempt from the minimum limitation.

"There is to be no disqualification on the grounds of height."

SPANIEL (CLUMBER)

CHANGE IN STANDARD

Delete the two paragraphs under "Body and Quarters" and "Legs and Feet" and in their place substitute the following:

BODY

Long, low and well ribbed up. The chest is wide and deep, the back long, broad and level, with very slight arch over the loin.

LEGS AND FEET

Forelegs short, straight and very heavy in bone, elbows close. Hind legs only slightly less heavily boned than the forelegs. They are moderately angulated, with hocks well let down. Quarters well developed and muscular. No feather above the hocks, but thick hair on the back of the legs just above the feet. Feet large, compact and well filled with hair between the toes.

SPANIEL (ENGLISH SPRINGER)

GENERAL APPEARANCE AND TYPE - The English Springer Spaniel is a medium size sporting dog with a most compact body, and a docked tail. His coat is moderately long, glossy, usually liver and white or black and white, with feathering on his legs, ears, chest and brisket. His pendulous ears, soft gentle expression, sturdy build and friendly wagging tail proclaim him unmistakably a member of the ancient family of spaniels. He is above all a well proportioned dog, free from exaggeration, nicely balanced in every part. His carriage is proud and upstanding, body deep, legs strong and muscular with enough length to carry him with ease. His short level back, well developed thighs, good shoulders, excellent feet, suggest power, endurance, agility. Taken as a whole he looks the part of a dog that can go and keep going under difficult hunting conditions, and moreover he enjoys what he is doing. At his best he is endowed with style, symmetry, balance, enthusiasm and is every inch a sporting dog of distinct spaniel character, combining beauty and utility.

To be penalized: Those lacking true English Springer type in conformation, expression, or behavior.

TEMPERAMENT - The typical Springer is friendly, eager to please, quick to learn, willing to obey. In the show ring he should exhibit poise, attentiveness, tractability, and should permit himself to be examined by the judge without resentment or cringing.

To be penalized: Excessive timidity, with due allowance for puppies and novice exhibits. But no dog to receive a ribbon if he behaves in vicious manner toward handler or judge. Aggressiveness toward other dogs in the ring not to be construed as viciousness.

SIZE AND PROPORTION - The Springer is built to cover rough ground with ability and reasonable speed. He should be kept to medium size - neither too small nor too large and heavy to do the work for which he is intended. The ideal shoulder height for dogs is 20 inches; for bitches, 19 inches.

Length of topline (the distance from top of the shoulders to the root of the tail) should be approximately equal to the dog's shoulder height - never longer than his height - and not appreciably less. The dog too long in body, especially when long in loin, tires easily and lacks the compact outline characteristic of the breed. Equally undesirable is the dog too short in body for the length of his legs, a condition that destroys his balance and restricts the gait.

Weight is dependent on the dog's other dimensions: a 20 inch dog, well proportioned, in good condition should weigh about 49-55 pounds. The resulting appearance is a well knit, sturdy dog with good but not too heavy bone, in no way coarse or ponderous.

To be penalized: Over-heavy specimens, cloddy in build. Leggy individuals, too tall for their length and substance. Over-size or under-size specimens (those more than one inch under or over the breed ideal).

COLOR AND COAT - Color may be liver or black with white markings; liver and white (or black and white) with tan markings; blue or liver loan; or predominantly white with tan, black or liver markings.

On his ears, chest, legs and belly the Springer is nicely furnished with a fringe of feathering (of moderate heaviness). On his head, front or forelegs, and below hocks on front of hindlegs the hair is short and fine. The body coat is flat or wavy of medium length, sufficiently dense to be water-proof, weather-proof and thorn-proof. The texture, fine and the hair should have the clean, glossy, live appearance indicative of good health. It is legitimate to trim about head, feet, ears; to remove dead hair; to thin and shorten excess feathering particularly from the hocks to the feet and elsewhere as required to give a smart, clean appearance.

To be penalized: Rough curly coat. Over-trimming especially of the body coat. Any chopped, barbered or artificial effect. Excessive feathering that destroys the clean outline desirable in a sporting dog. Off colors such as lemon, red or orange not to place.

HEAD - The head is impressive without being heavy. Its beauty lies in a combination of strength and refinement. It is important that the size and proportion be in balance with the rest of the dog. Viewed in profile the head should appear approximately the same length as the neck and should blend with the body in substance. The skull (upper head) to be of medium length, fairly broad, flat on top, slightly rounded at the sides and back. The occiput bone inconspicuous, rounded rather than peaked or angular.

The forehead (head in front of the eyes) approximately the same length as the skull, and in harmony as to width and general character. Looking down on the head the muzzle to appear to be about one-half the width of the skull. As the skull rises from the forehead it makes a brow or "stop", divided by a groove or fluting between the eyes. This groove continues upward and gradually disappears as it reaches the middle of the forehead. The amount of "stop" can best be described as moderate. It must not be a pronounced feature as in the Clumber spaniel. Rather

it is a subtle rise where the muzzle blends into the upper head, further emphasized by the groove and by the position and shape of the eyebrows which should be well-developed. The stop, eyebrow and the chiseling of the bony structure around the eye sockets contribute to the Springer's beautiful and characteristic expression.

Viewed in profile the top line of the skull and the muzzle lie in two approximately parallel planes. The nasal bone should be straight, with no inclination downward toward the tip of the nose which gives a down-faced look so undesirable in this breed. Neither should the nasal bone be concave resulting in a "dish-faced" profile; nor convex giving the dog a "Roman nose".

The jaws to be of sufficient length to allow the dog to carry game easily; fairly square, lean, strong, and even, (neither undershot nor overshot). The upper lip to come down full and rather square to cover the line of the lower jaw, but lips not to be pendulous nor exaggerated. The nostrils, well opened and broad, liver color or black depending on the color of the coat. Flesh-colored ("Dudley noses") or spotted ("butterfly noses") are undesirable. The cheeks to be flat, (not rounded, full or thick) with nice chiseling under the eyes.

To be penalized: Oval, pointed or heavy skull. Cheeks prominently rounded, thick and protruding. Too much or too little stop. Over heavy muzzle. Muzzle too short, too thin, too narrow. Pendulous slobbering lips. Under- or over-shot jaws - a very serious fault, to be heavily penalized.

TEETH - The teeth should be strong, clean, not too small; and when the mouth is closed the teeth should meet in an even bite or a close scissors bite (the lower incisors touching the inside of the upper incisors).

To be penalized: Any deviation from above description. One or two teeth slightly out of line not to be considered a serious fault, but irregularities due to faulty jaw formation to be severely penalized.

EYES - More than any other feature the eyes contribute to the Springer's appeal. Color, placement, size influence expression and attractiveness. The eyes to be of medium size, neither small, round, full and prominent, nor bold and hard in expression. Set rather well apart and fairly deep in their sockets. The color of the iris to harmonize with the color of the coat, preferably a good dark hazel in the liver dogs and black or deep brown in the black and white specimens. The expression to be alert, kindly, trusting. The lids, tight with little or no hair showing.

To be penalized: Eyes yellow or brassy in color or noticeably lighter than the coat. Sharp expression indicating unfriendly or suspicious nature. Loose droopy lids. Prominent haw (the third eyelid or membrane in the inside corner of the eye).

EARS - The correct ear set is on a level with the line of the eye; on the side of the skull and not too far back. The flaps to be long and fairly wide, hanging close to the cheeks, with no tendency to stand up or out. The leather, thin, approximately long enough to reach the tip of the nose.

To be penalized: Short round ears. Ears set too high or too low or too far back on the head.

NECK - The neck to be moderately long, muscular, slightly arched at the crest gradually blending into sloping shoulders. Not noticeably upright nor coming into the body at an abrupt angle.

To be penalized: Short neck, often the sequence to steep shoulders. Concave neck, sometimes called ewe neck or upside down neck (the opposite of arched). Excessive throatiness.

BODY - The body to be well coupled, strong, compact; the chest deep but not so wide or round as to interfere with the action of the front legs; the brisket sufficiently developed to reach to the level of the elbows. The ribs fairly long, springing gradually to the middle of the body then tapering as they approach the end of the ribbed section. The back (section between the withers and loin) to be straight and strong, with no tendency to dip or roach. The loins to be strong, short; a slight arch over loins and hip bones. Hips nicely rounded, blending smoothly into hindlegs. The resulting topline slopes very gently from withers to tail - the line from withers to back descending without a sharp drop; the back practically level; arch over hips somewhat lower than the withers; croup sloping gently to base of tail; tail carried to follow the natural line of the body. The bottom line, starting on a level with the elbows, to continue backward with almost no up curve until reaching the end of the ribbed section, then a more noticeable up-curve to the flank, but not enough to make the dog appear small waisted or "tucked up".

To be penalized: Body too shallow, indicating lack of brisket. Ribs too flat sometimes due to immaturity. Ribs too round, (barrel-shaped) hampering the gait. Sway-back, (dip in back) indicating weakness or lack of muscular development, particularly to be seen when dog is in action and viewed from the side. Roach back (too much arch over loin and extending forward into middle section). Croup falling away too sharply; or croup too high - unsightly fault, detrimental to outline and good movement. Topline sloping sharply, indicating steep withers (straight shoulder placement) and a too low tail-set.

TAIL - The Springer's tail is an index both to his temperament and his conformation. Merry tail action is characteristic. The proper set is somewhat low following the natural line of the croup. The carriage should be nearly horizontal, slightly elevated when dog is excited. Carried straight up is untypical of the breed. The tail should not be docked too short and should be well fringed with wavy feather. It is legitimate to shape and shorten the feathering but enough should be left to blend with the dog's other furnishings.

To be penalized: Tail habitually upright. Tail set too high or too low. Clamped down tail (indicating timidity or undependable temperament, even less to be desired than the tail carried too gayly).

FOREQUARTERS - Efficient movement in front calls for proper shoulders. The blades sloping back to form an angle with the forearm of approximately 90 degrees which permits the dog to swing his forelegs forward in an easy manner. Shoulders (fairly close together at the tips) to lie flat and mold smoothly into the contour of the body. The forelegs to be straight with the same degree of size to the foot. The bone, strong, slightly flattened, not too heavy or round. The knee, straight, almost flat; the pasterns short, strong; elbows close to the body with free action from the shoulders.

To be penalized: Shoulders set at a steep angle limiting the stride. Loaded shoulders (the blades standing out from the body by overdevelopment of the muscles). Loose elbows, crooked legs, bone too light or too coarse and heavy. Weak pasterns that let down the feet at a pronounced angle.

HINDQUARTERS - The Springer should be shown in hard muscular condition, well developed in hips and thighs and the whole rear assembly should suggest strength and driving power. The hip joints to be set rather wide apart and the hips nicely rounded. The thighs broad and muscular; the stifle joint strong and moderately bent. The hock joint somewhat rounded, not small and sharp in contour, and moderately angulated. Leg from hock joint to foot pad, short and strong with good bone structure. When viewed from the rear the hocks to be parallel whether the dog is standing or in motion.

To be penalized: too little or too much angulation. Narrow, undeveloped thighs. Hocks too short or too long (a proportion of 1/3 the distance from hip joint to foot is ideal). Flabby muscles. Weakness of joints.

FEET - The feet to be round, or slightly oval, compact, well arched medium size with thick pads, well feathered between the toes. Excess hair to be removed to show the natural shape and size of the foot.

To be penalized: Thin, open or splayed feet (flat with spreading toes). Hare foot (long, rather narrow foot).

MOVEMENT - In judging the Springer there should be emphasis on proper movement which is the final test of a dog's conformation and soundness. Pre-requisite to good movement is balance of the front and rear assemblies. The two must match in angulation and muscular development if the gait is to be smooth and effortless. Good shoulders laid back at an angle that permits a long stride are just as essential as the excellent rear quarters that provide the driving power. When viewed from the front the dog's legs should appear to swing forward in a free and easy manner, with no tendency for the feet to cross over or interfere with each other. Viewed from the rear the hocks should drive well under the body following on a line with the forelegs, the rear legs parallel, neither too widely nor too closely spaced. Seen from the side the Springer should exhibit a good long forward stride, without high-stepping or wasted motion.

To be penalized: Short choppy stride, mincing steps with up and down movement, hopping. Moving with forefeet wide, giving roll or swing to body. Weaving or crossing of fore or hind feet. Cow hocks - hocks turning in toward each other.

In judging the English Springer Spaniel the over-all picture is a primary consideration. It is urged that the judge look for type which includes general appearance, outline and temperament and also for soundness especially as seen when the dog is in motion.

Inasmuch as the dog with a smooth easy gait must be reasonably sound and well balanced he is to be highly regarded in the show-ring, however, not to the extent of forgiving him for not looking like an English Springer Spaniel. A quite untypical dog, leggy, foreign in head and expression, may move well. But he should not be placed over a good all-round specimen that has a minor fault in movement. It should be remembered that the English Springer Spaniel is first and foremost a sporting dog of the spaniel family and he must look and behave and move in character.

SPANIEL (ENGLISH TOY)

CHANGE IN STANDARD

Change heading "Color" to "Colors of the Two Varieties" and delete the present two paragraphs following "Color", substituting in their place:

KING CHARLES AND RUBY

The King Charles and Ruby types which comprise one show variety are solid colored dogs. The King Charles are black and tan (considered a solid color), the black rich and glossy with deep mahogany tan marks over the eyes and on the muzzle, chest and legs. The presence of a few white hairs intermixed with the black on the chest is to be faulted, but a white patch on the chest or white appearing elsewhere disqualifies. The Ruby is a rich chestnut red and is whole colored. The presence of a few white hairs intermixed with the red on the chest is to be faulted, but a white patch on the chest or white appearing elsewhere disqualifies.

BLenheim AND PRINCE CHARLES

The Blenheim and Prince Charles types which comprise the other show variety are broken colored dogs. The Blenheim is red and white. The ground color is a pearly white which has bright red chestnut or ruby red markings evenly distributed in large patches. The ears and cheeks should be red, with a blaze of white extending from the nose up the forehead and ending between the ears in a crescentic curve. In the center of the blaze at the top of the forehead, there should be a clear "spot" of red, the size of a dime. The Prince Charles, a tri-colored dog, is white, black and tan. The ground color is a pearly white. The black consists of markings which should be evenly distributed in large patches. The tan appears as spots over the eyes, on the muzzle, chest and legs; the ears and vent should also be lined with tan. The Prince Charles has no "spot" that being a particular feature of the Blenheim.

SPANIEL (FIELD)

CHANGE IN STANDARD

Delete the paragraph following the heading "Color" substituting in its place:

"Black, liver, golden liver, mahogany red, or roan; or any one of these colors with tan over the eyes and on the cheeks, feet and pasterns. Other colors, such as black and white, liver and white, red or orange and white, while not disqualifying, will be considered less desirable since the Field Spaniel should be clearly distinguished from the Springer Spaniel."

SPANIEL (SUSSEX)

CHANGE IN STANDARD

Delete the last three sentences and the editor's note in the paragraph following the heading "Legs and Feet", substituting in their place:

"The hind legs should not appear to be shorter than the forelegs, nor be too much bent at the hocks. They should be well feathered above the hocks, but should not have much hair below that point. The hind legs are short from the hock to the ground, and wide apart."

SHIH TZU

GENERAL APPEARANCE

Very active, lively and alert, with a distinctly arrogant carriage. The Shih Tzu is not a toy dog.

HEAD AND SKULL

Head broad, round and wide between the eyes, shock headed, with hair falling well over the eyes; good beard and whiskers; the hair growing upwards on the nose gives a distinctly chrysanthemum-like effect. Muzzle square, short, but not wrinkled like a Pekingese, flat and hairy.

EYES

Large, dark and round but not prominent.

EARS

Large and carried drooping; so heavily coated that they appear to blend with the hair of the neck.

MOUTH

Level or slightly underhung - overshot jaws undesirable.

FOREQUARTERS

Legs short straight and muscular. The legs should look massive on account of the wealth of hair.

BODY

Body between withers and root of tail should be considerably longer than the height of withers; well ribbed up.

HINDQUARTERS

Legs short, straight and muscular. The legs should look massive on account of the wealth of hair.

FEET

Should be big with hair between the pads. The feet should look massive on account of the wealth of hair.

TAIL

Heavily coated and curled well over back; set on high.

COAT

Long and dense, but not curly; looks harsher than it feels to the touch.

COLOUR

All colours; but a white blaze on the forehead and white tip to tail are highly prized. Dogs with liver markings may have liver noses and lighter eyes.

WEIGHT AND SIZE

About 11 inches at the withers, but considerable variation from this standard is permissible, provided other proportions are correct and true to type.

STAFFORDSHIRE BULL TERRIER

CHARACTERISTICS

From the past history of the Staffordshire Bull Terrier, the modern dog draws his character of indomitable courage, high intelligence and tenacity. This coupled with his affection for his friends, and children in particular; his off-duty quietness and trustworthy stability, makes him the foremost all-purpose dog.

GENERAL APPEARANCE

The Staffordshire Bull Terrier is a smooth coated dog. He should be of great strength for his size and although muscular, should be active and agile.

HEAD AND SKULL

Short, deep through, broad skull, very pronounced cheek muscles, distinct stop, short foreface, black nose.

EYES

Dark preferable but may bear some relation to coat colour. Round, of medium size, and set to look straight ahead.

EARS

Rose or half-pricked and not large. Full drop or prick to be penalized.

MOUTH

The mouth should be level, i.e., the incisors of the bottom jaw should fit closely inside the incisors of the top jaw, and the lips should be tight and clean. The badly undershot or overshot mouth to be heavily penalized.

NECK

Muscular, rather short, clean in outline and gradually widening towards the shoulders.

FOREQUARTERS

Legs straight and well-boned, set rather wide apart, without looseness at the shoulders, and showing no weakness at the pasterns, from which point the feet turn out a little.

BODY

The body should be close-coupled, with a level topline, wide front, deep brisket, well-sprung ribs and rather light in the loins.

HINDQUARTERS

The hindquarters should be well muscled, hocks let down with stifles well bent. Legs should be parallel when viewed from behind.

FEET

The feet should be well padded, strong and of medium size.

TAIL

The tail should be of medium length, low set, tapering to a point and carried rather low. It should not curl much and may be likened, to an old-fashioned pump handle.

COAT

Smooth, short and close to the skin.

COLOUR

Red, fawn, white, black or blue, or any of these colours with white. Any shade of brindle or any shade of brindle with white. Black-and-Tan or liver-colour not to be encouraged.

WEIGHT AND SIZE

Weight: Dogs, 28 lbs. to 38 lbs. Bitches, 24 lbs. to 34 lbs. Height (at shoulder), 14 to 16 inches, these heights being related to the weights.

FAULTS

To be penalized in accordance with the severity of the fault: - Light eyes or pink eye-rims. Tail too long or badly curled. Non-conformation to the limits of weight or height. Full drop and prick ears. Under-shot or overshot mouths. The following faults should debar a dog from winning any prize: - Pink (Dudley) nose. Badly undershot or overshot mouth. Badly undershot - where the lower jaw protrudes to such an extent that the incisors of the lower jaw do not touch those of the upper jaw. Badly overshot - where the upper jaw protrudes to such an extent that the incisors of the upper jaw do not touch those of the lower jaw.

VIZSLA

GENERAL APPEARANCE

A distinguished and robust breed, but light weight, slim waisted, gait decided and supple.

SKULL

In the upper part of skull the head is refined, covered with strong muscles that leave a depression the length of the middle line between the eyes, the forehead continues into the frontal-nasal part by a moderate crease.

EARS

The ears are thin, proportionately long, covered with a very fine skin, placed low on the skull and fall against the sides of the head, with rounded tips.

EYES

Neither deep set, nor prominent, the balls of the eyes are circled with the eyelids, well set that they show no whites, the irises are of a shade corresponding to the light or dark shading of the hair, (the light yellow ones are not desirable for this breed).

MUZZLE

In comparison to the skull, the muzzle is a little longer than the forehead, and seen from either side is not of a tapered shape but well squared, the nostrils are slightly open. (A black or slate grey nose is a defect). It should be dark brown, but a skin coloured one is not to be rejected. The lips and the folds of the face are moderately developed and cover the mouth completely, the jaws are solidly developed, the gums are strong and set with well developed teeth strong and white as porcelain and perfectly set with no teeth under or over shot.

NECK

Moderately long, well muscled, nobly arched and shaping larger at the body end, with no dewlaps showing. The skin is sleek and smooth.

TRUNK

Well muscled and well proportioned.

BACK

Wide and straight, moderately arched, muscular and short.

LOINS

Short, wide, well muscled, moderately arched.

SHOULDERS

Well laid back, not steep, fitting close to the body, muscular.

RUMP

Wide and rather long, starting at the height of the back and sloping gradually towards the tail.

TAIL

Thick at the root, slimming out slightly to the extremity, the cropping of the last section is done in the first week after birth.

CHEST

Deep, long and proportionately wide descending to the elbows, (a barrel chest or a too narrow one constitutes a serious defect).

BELLY

Slightly tucked up.

FORELEGS

Bones straight and well covered with muscles, strongly developed to support the body like the columns of a building. The elbows are parallel to the body, neither turned in or outward.

HINDLEGS

Hindquarters are straight, if seen from the rear, thighs full and muscular. A too bent stifle is worse than a straight one.

FEET

The toes well formed and shaped like a cat's, (a hare foot is objectionable), the nails should be slate grey, short and strong, the pads should be strong, (badly placed dewclaws are considered a defect).

QUALITY AND COLOUR OF COAT

The coat is short, neither hard nor fluffy. Should be close fitting to the body, thick, without woolly under coat. It should be short and sleek. The coat is waterproof and protects against the weather. An animal with too fine coat and not thickly furred (like a mouscoat) should be excluded from future breeding.

The colour comprises all the shades of gold but the darker shades are preferable, (coffee colour and dark brown or any mixed shade is a serious defect) but small white spots on chest or feet are not considered defects, but should be eliminated in future breedings.

NOTICE

SUBJECT: Stud books for the years 1950 and 1951 (Volumes #54 and #55).

Recently published (as a single volume) and now available are Volumes #54 and #55 of The Canadian Kennel Club's series of Stud Books. This volume provides the usual information about those dogs, registered individually in the Club's records in 1950 and 1951, which: (a) have been recorded as the sire or dam of a dog registered in the Club's records; or (b) have been exported from Canada; or (c) had earned a title as a result of awards at championship shows, licensed obedience trials, or licensed field trials held under the Rules of the Club. The price of this combined volume is \$1.00 to a member of the Club. Orders for the Volume should be addressed to The Canadian Kennel Club, 667 Yonge Street, Toronto 5, Ont. and must be accompanied by payment.

NOTICE

SUBJECT: Proposed new breed standards.

NOTICE is hereby given that at its semi-annual meeting in August, the Board of Directors of The Canadian Kennel Club will consider whether it should approve, and declare effective in Canada, proposed new breed standards for

the Boxer
the Bullmastiff
the Irish Setter.

These proposed new standards are again published hereunder.

All persons and organizations interested are invited to submit to the Secretary, The Canadian Kennel Club, 667 Yonge Street, Toronto, Ontario, his, her, or their comments on these proposed new standards, but must, in each instance, set forth his, her or their reasons for being interested. All comments must reach the Secretary not later than June 15th, 1961.

PROPOSED NEW STANDARD FOR THE BOXER

The Boxer is a medium-sized, sturdy dog, of square build, with short back, strong limbs and short tight-fitting coat. His musculature, well developed, should be clean, hard and appear smooth (not bulky) under taut skin. His movements should denote energy. The gait although firm is elastic (springy), the stride free and ground-covering, the carriage proud and noble. Developed to serve the multiple purposes of guard, working and escort-dog, he must combine elegance with substance and ample power, not alone for beauty but to insure the speed, dexterity and jumping ability essential to arduous hike, riding expedition, police or military duty. Only a body whose individual parts are built to withstand the most strenuous efforts, assembled as a complete and harmonious whole, can respond to these combined demands. Therefore, to be at his highest efficiency he must never be plump or heavy and, while equipped for great speed, he must never be racy.

The head imparts to the Boxer a unique individual stamp peculiar to him alone. It must be in perfect proportion to his body, never small in comparison to the over-all picture. His muzzle is his most distinctive feature and the greatest value is to be placed on its being of correct form and in absolute proper proportion to the skull.

In judging the Boxer, the first thing to be considered is general appearance, then balance; the relation of substance to elegance and of the desired proportions of the individual parts of the body to each other.

Consideration is to be given to an attractive color. After which the individual parts are to be examined for their correct constructions and their functions. Special attention is to be devoted to the head.

Faults: Head not typical, plump bull-doggy appearance, light bone, lack of balance, bad condition, deficiency in nobility.

Head: The beauty of the head depends upon the harmonious proportion between the muzzle and the skull. The muzzle should always appear powerful, never small in its relationship to the skull. The head should be clean, not showing deep wrinkles. Folds will normally appear upon the forehead when the ears are erect, and they are always indicated from the lower edge of the stop running downward on both sides of the muzzle. The dark mask is confined to the muzzle and is in distinct contrast to the color of the head. Any extension of the mask to the skull, other than dark shading around the eyes, creates a somber undesirable expression. The muzzle is powerfully developed in length, width and depth. It is not pointed, narrow, short or shallow. Its shape is influenced first through the formation of both jawbones, second through the placement of teeth, and third through the texture of the lips.

The two jawbones do not terminate in the usual scissor-bite, instead the lower jaw protrudes moderately beyond the upper and bends slightly upward. The Boxer is normally under-shot. The upper jaw is broad where attached to the skull and maintains this breadth except for a very slight tapering to the front. The lower jaw incisor teeth are in a straight line. In the upper jaw they are slightly rounded.

The middle incisors should not project. This formation creates frontal width in both jaws and results in the canine teeth being widely separated from each other. The upper corner incisors should fit snugly back of the lower canine teeth, the pre-molars, anterior palatine formen (a technical term pertaining to the placing of teeth) and molars fitting in the most normal possible manner, creating a sound, powerful bite.

The lips complete the formation of the muzzle. The upper lip is thick and padded, filling out the frontal space formed by the projection of the lower jaw and it is supported by the jaw's fangs. Therefore, these fangs must stand far apart and be of good length so that the front surface of the muzzle shall become broad and squarish and, when viewed from the side, form a rounded angle with the top line of the muzzle. The lower edge of the upper lip rests on the edge of the lower lip. The repandous (bent upward) part of the under-jaw with the lower lip (sometimes called the chin) must not rise above the front of the upper lip, but much less may it disappear under it. It must be perceptible when viewed from the front as well as the side, without protruding and bending upward in the manner of the English Bulldog. The Boxer must not show his teeth or his tongue when his mouth is closed. Excessive flews are not desirable.

The top of the skull is slightly arched, not rotund, or flat nor noticeably broad, and the occiput must not be too pronounced. The forehead forms a distinct stop with the top line of the muzzle, which must not be forced back into the forehead like that of a Bulldog. It should not slant up, nor down (down-faced).

nor be dishd. The tip of the nose lies somewhat higher than the root of the muzzle. The forehead shows a suggestion of furrow which, however, must never be too deep, especially between the eyes. Corresponding with the powerful set of teeth, the cheeks are accordingly well developed, without protruding from the head with too bulky an appearance, preferably they should taper into the muzzle in a slight, graceful curve. The ears are cut rather long, well trimmed and carried erect. The dark brown eyes, not too small, not protruding, nor deep-set, disclose an alert and intelligent expression, and must never appear gloomy, threatening or piercing; they should be encircled by dark hair. The nose is broad and black, very slightly turned up; the nostrils are broad with the naso-labial line running between them.

Faults: Lack of nobility and expression, somber face, unserviceable bite, Pinscher or Bulldog head, badly trimmed ears, visible conjunctiva (haw), drivelling, showing teeth or tongue, light so-called "Bird of Prey" eyes. Sloping top line of muzzle, too pointed or too light a bite (snipey).

Neck: Round, of ample length, not too short; strong and muscular and clean throughout, without dewlap, with a distinctly marked nape and an elegant arch running down to the back.

Faults: Dewlap.

Body: Body is square. Measured in profile, a horizontal line from the front of the forehead to the rear projection of the upper thigh should equal a vertical line dropped from the top of the withers to the ground.

Chest and Front Leg Measurements: The brisket is deep, reaching down to the elbows; the depth of the body at the lowest point of the brisket amounts to half the height of the dog at the withers. The ribs, extending far to the rear, are well arched but not barrel-shaped. The loins are short and muscular; the lower stomach line, lightly tucked up, blending into a graceful curve to the rear. The shoulders are long and sloping, close lying and not excessively covered with muscle. The upper arm is long, closely approaching a right angle to the shoulder blade. The forelegs when seen from the front, must be straight, stand parallel to each other, and have strong, firmly joined bones. Chest of fair width, and forechest well defined. The elbows must not press too closely to the chest wall nor stand off visibly from it. The forearm is straight, long and firmly muscled.

The pastern (knee) joint of the foreleg is clearly defined but not distended. The pastern is short, slightly slanting, but standing almost perpendicular to the ground. Feet compact, turning neither in nor out, with tightly arched toes and hard soles (cats paws).

Faults: Too broad and low in front, loose shoulders, chest hanging between the shoulders, hare's feet, hollow flanks, hanging stomach, turned feet, tied-in elbows.

Back: The withers should be clearly defined, the whole back short, straight and very muscular.

Faults: Roach back, sway back, thin lean back, long narrow loins, weak union with croup.

Hindquarters: In balance with forequarters; strongly muscled. The thighs broad and curved, the breech musculature strongly developed. The croup very slightly sloped, broad. Tail attachment high, rather than low. Tail clipped, carried upward. The pelvis should be long and especially broad in females. Upper and lower thigh long, leg well angulated. In standing position, the leg below the hock joint should be practically perpendicular to the ground (a slight slope is permissible). Viewed from behind the hind legs are straight. The hocks (metatarsus) clean, strong and short, supported by powerful rear pads with hock joint clean-cut and clearly defined. The rear toes just a little longer than the front toes, but similar in all other respects.

Faults: Falling off or too rounded or narrow croup, low-set tail, higher in back than in front; steep, stiff or too slightly angulated hindquarters, light thighs, cow hocks, bowlegs and crooked legs, rear dewclaws, soft hocks, narrow heel, tottering, waddling gait, hare feet, hindquarters too far under or too far behind.

Height: Males, . . . 22 inches to 24 inches at the withers
Females, . . . 21 inches to 23 inches at the withers

Males should not go under 22 inches and females should not go over 23 inches.

Coat: Short, shiny, lying smooth and tight to the body.

Color: The colors are fawn and brindle. Fawn in various shades from light yellow to dark deer red. The brindle variety should have clearly defined black stripes on fawn background. White markings in fawn and brindle dogs are not to be rejected; in fact, they are often very attractive in appearance. The black mask is absolutely required. When white occurs on the muzzle it should be edged by remnants of the black mask. Black toenails are preferred but not essential. Even distribution of head markings is desirable.

Character: The character of the Boxer is of the greatest importance and demands the most solicitous attention. He should be alert and fearless; willing to make friends, but not necessarily effusive.

Faults: Shyness—A dog should be considered shy if he shrinks away from a friendly approach or displays timidity when approached from the rear, or displays cowardice over sudden and unusual noises.

Viciousness: A dog should be considered vicious that attempts to attack either his handler or the judge. Belligerency towards other dogs should not be considered viciousness.

Disqualifications: Boxers with white or black ground color, or entirely white or black or any color other than fawn or brindle. (White markings are allowed but must not exceed one-third (1/3) of the ground color).

PROPOSED NEW STANDARD FOR THE BULLMASTIFF

General Appearance:—That of a symmetrical animal, showing great strength; powerfully built but active. The dog is fearless yet docile, has endurance and alertness. The foundation breeding was 60% Mastiff and 40% Bulldog.

Head:—Skull large, with a fair amount of wrinkle when alert; broad, with cheeks well developed. Forehead flat. Muzzle broad and deep; its length, in comparison with that of the entire head, approximately as 1 is to 3. Lack of forehead with nostrils set on top of muzzle is a reversion to the Bulldog and is very undesirable. Nose black with nostrils large and broad. Flews not too pendulous, stop moderate, and the mouth (bite) preferably level or slightly undershot. Canine teeth large and set wide apart. A dark muzzle is preferable. Eyes dark and of medium size. Ears v-shaped and carried close to the cheeks, set on wide and high, level with occiput and cheeks, giving a square appearance to the skull; darker in color than the body and medium in size. Neck slightly arched, of moderate length, very muscular, and almost equal in circumference to the skull.

Body:—Compact. Chest wide and deep, with ribs well sprung and well set down between the forelegs. **Forequarters:**—Shoulders muscular but not loaded, and slightly sloping. Forelegs straight, well boned and set well apart; elbows square. Pasterns straight, feet of medium size, with round toes well arched. Pads thick and tough, nails black. **Back:** short, giving the impression of a well balanced dog. **Loins:** wide, muscular and slightly arched, with fair depth of flank. **Hindquarters:** broad and muscular with well developed second thigh denoting power, but not cumbersome. Moderate angulation at hocks. Cow hocks and splay feet are bad faults. Tail set on high, strong at the root and tapering to the hocks. It may be straight or curved, but never carried hound fashion.

Coat:—Short and dense, giving good weather protection. **Color:**—Red, fawn or brindle. Except for a very small white spot on the chest, white marking is considered a fault.

Size:—Dogs, 25 to 27 inches at the shoulder, and 110 to 130 pounds weight. Bitches, 24 to 26 inches at the shoulder, and 100 to 120 pounds weight. Other things being equal, the heavier dog is favored.

PROPOSED NEW STANDARD FOR THE SETTER (IRISH)

GENERAL APPEARANCE: The Irish Setter is an active, aristocratic bird-dog, rich red in color, substantial yet elegant in build. Standing over two feet tall at the shoulder, the dog has a straight, fine, glossy coat, longer on

ears, chest, tail and back of legs. Afield he is a swift-moving hunter; at home, a sweet-natured, trainable companion. His is a rollicking personality.

HEAD: Long and lean, its length at least double the width between the ears. The brow is raised, showing a distinct stop midway between the tip of nose and the well-defined occiput (rear point of skull). Thus the nearly level line from occiput to brow is set a little above, and parallel to, the straight and equal line from eye to nose. The skull is oval when viewed from above or front; very slightly domed when viewed in profile. Beauty of head is emphasized by delicate chiseling along the muzzle, around and below the eyes, and along the cheeks. Muzzle moderately deep, nostrils wide, jaws of nearly equal length. Upper lips fairly square but not pendulous, the underline of the jaws being almost parallel with the top line of the muzzle. The teeth meet in a scissors bite in which the upper incisors fit closely over the lower, or they may meet evenly. **Nose:** Black or chocolate. **Eyes:** Somewhat almond-shaped, of medium size, placed rather well apart; neither deep-set nor bulging. **Color:** dark to medium brown. Expression soft yet alert. **Ears:** Set well back and low, not above level of eye. Leather thin, hanging in a neat fold close to the head, and nearly long enough to reach the nose.

NECK: Moderately long, strong but not thick, and slightly arched; free from throatiness, and fitting smoothly into the shoulders.

BODY: Sufficiently long to permit a straight and free stride. Shoulder blades long, wide, sloping well back, fairly close together at the top, and joined in front to long upper arms angled to bring the elbows slightly rearward along the brisket. Chest deep, reaching approximately to the elbows; rather narrow in front. Ribs well sprung. Loins of moderate length, muscular and slightly arched. Top line of body from withers to tail slopes slightly downward without sharp drop at the croup. Hindquarters should be wide and powerful with broad, well-developed thighs. **Legs and Feet:** All legs sturdy, with plenty of bone, and strong, nearly straight pasterns. Feet rather small, very firm, toes arched and close. Forelegs straight and sinewy, the elbows moving freely. Hind legs long and muscular from hip to hock, short and nearly perpendicular from hock to ground; well angulated at stifle and hock joints, which, like the elbows, incline neither in nor out. **Tail:** Strong at root, tapering to fine point, about long enough to reach the hock. Carriage straight or curving slightly upward, nearly level with the back.

COAT: Short and fine on head, forelegs and tips of ears; on all other parts, of moderate length and flat. Feathering long and silky on ears; on back of forelegs and thighs long and fine, with a pleasing fringe of hair on belly and brisket extending onto the chest. Feet well feathered between the toes. Fringe on tail moderately long and tapering. All coat and feathering as straight and free as possible from curl or wave.

COLOR: Mahogany or rich chestnut red, with no trace of black. A small amount of white on chest, throat, or toes, or a narrow centered streak on skull, is not to be penalized.

SIZE: There is no disqualification as to size. The make and fit of all parts and their overall balance in the animal are rated more important. Twenty-seven inches at the withers with a show weight of about seventy pounds is considered ideal for a dog; the bitch twenty-five inches, sixty pounds. Variance beyond an inch up or down to be discouraged.

GAIT: At the trot the gait is big, very lively, graceful and efficient. The head is held high. The hindquarters drive smoothly and with great power. The forelegs reach well ahead as if to pull in the ground, without giving the appearance of a hackney gait. The dog runs as he stands: straight. Seen from the front or rear, the forelegs, as well as the hind legs below the hock joint, move perpendicularly to the ground, with some tendency towards a single track as speed increases. But a crossing or weaving of the legs, front or back, is objectionable.

BALANCE: At his best the lines of the Irish Setter so satisfy in overall balance that artists have termed him the most beautiful of all dogs. The correct specimen always exhibits balance whether standing or in motion. Each part of the dog flows and fits smoothly into its neighboring parts without calling attention to itself.

ORDER YOUR BOOKS THROUGH "DOGS IN CANADA MAGAZINE"

Simply send your order in with your remittance (plus 25c to cover cost of handling and mailing) to Dogs in Canada Magazine, Suite 301, 1173 Bay Street, Toronto 5, Canada. Absolutely no C.O.D. Orders accepted.

Prices are subject to change.

CANCELLATIONS

The awards of 1st in the Junior Puppy Class and Best Canadian Bred Puppy in the Breed at The Poodle Advancement Association show held on March 14th, 1961 to the Poodle (Toy), ORRA MADCAP (listed) have been cancelled as this dog was not 6 months of age on the day of the show.

The win of Best Canadian bred in the breed made by the Bull Terrier, CH. CHARLWOOD ROMAN HOLIDAY (465046) at the Canadian National Sportsmen's show held on March 15th, 1961 has been cancelled on the grounds that this dog is not a Canadian-bred dog according to our present Dog Show Rules.

perspective on the PUG

by FILOMENA DOHERTY, owner of the famous Pugville Kennels at Bernardsville, N.J., one of the world's foremost Pug breeders, notably of the greatest winning Pug in history. Born in Italy, Mrs. Doherty is also prominent in the nursing field.

The Pug, a remarkable combination of sturdiness, intelligence, beauty and gentleness, is a breed for those who love and appreciate the unusual. It is not a breed to be over-produced and cheapened. Pugs have been pets of royalty and aristocracy over the centuries and still are, to this day.

What do we have in a Pug? We have a good chunky and solid dog, able to hold his own with the larger breeds. He delights to romp around in the cold, loves to frolic in the snow and also enjoys the leisurely life in the summer time. Bear in mind, however, that the Pug with his short nose and blunt muzzle does not take too kindly to extreme heat.

If Mr. Pug runs around in the snow, let him run to his heart's content but do not let him stand around with a wet coat and tummy. Take him indoors when he is through playing and rub him dry. In summer, do not let him run around in the sun although the Pug is usually intelligent enough to limit his own exercise if suitable shade is provided for him. In extreme heat, let him lie quietly and be sure that fresh water is available for him at all times.

I doubt if there is any dog easier to feed than the Pug. If he is healthy and all is normal, his diet is simple. Plenty of meat is absolutely essential. We usually give one meal of fresh chopped raw beef and another of moderately cooked chopped beef daily. To both these meals we add a little salt. To the cooked meat we add some good meal or fine kibble, a powdered vitamin and mineral supplement and for variety we add either beef kidney, heart, tripe or small amount of liver. Milk and eggs are also an excellent item of diet. I have not found it necessary to add vegetables to the Pug's diet and they seem to thrive

very well on meat, meal and the supplement.

If, for economy, horse meat is used, be sure to add some suet or other good fat as horse meat is too lean and the coats need fat in the diet.

There is no breed of dog easier to whelp, raise and maintain. The whelping is easy because the pelvic bones of a Pug are wide and the large head can easily pass through. Of course there are exceptions to all rules. I have bred Pugs since 1948 and have had occasion to resort to a Caesarian birth only three times. On two of those occasions, the puppy was lying transversely and of course could not be expelled. The whelping should not be left entirely to the mother. Because of their short, blunt faces, it is a little difficult for the Pug to open the sac easily and to sever the cord. The puppy may be injured in the process. At this kennel, we never allow the mother Pug to be left unattended at any time after she shows signs of impending labor. Space does not permit me to go into the details of whelping and care of the puppies.

With a good start in life, Pug puppies are sturdy little characters but must have reasonable care. At the age of about three weeks, we have our veterinarian start them on their temporary inoculations. Because our dogs go to dog shows frequently, we find that this is a necessary precaution and has been very rewarding. We also start these little ones on a diet of finely chopped lean beef at this age. It gives them an excellent start in life.

Portrait above left, is of world's winningest Pug: Am., Can., Cuba and Bermuda Ch. Pugville's Mighty Jim. Below: Pug enthusiast, the Duchess of Windsor is shown with Mrs. Doherty and Ch. Pugville's Imperial Imp II which she purchased from Pugville Kennels.

papillon

A frustrating and endearing characteristic of the Papillon is that he can out-think his owner; he'll howl before he's chastised.

The Papillon is one of the most rewarding and companionable of toy dogs. Combining the attributes of lively affection and friendliness, intelligence, fearlessness and hardiness, it appeals to men, women, and children alike, and is equally adaptable to and happy in country life, town house or apartment.

Papillons do not suffer particularly from extremes of either hot or cold weather, and do not need coddling in winter; they do not easily contract disease; they readily imagine themselves as guards or hunters and then, after strenuous but apparently effortless exercise, they relax completely as true lap-dogs.

The bitches usually whelp easily and make excellent mothers. A number have attained their U.D. titles and recently the "Obedience Dog of the Year" in the U.S. was a Papillon.

They are resourceful beyond imagination, as shown by these incidents related by Marvel E. Anderson in *Popular Dogs*:

A little female which has lived a sheltered life in a kennel, was taken to the veterinarian's to have her puppies but, by accident got out of his office into a field. Her owner, upon finding that the dog was not with the veterinarian, hurried to search the neighborhood where the dog had last been seen this cold January day. After many worried hours of a fruitless search, a sudden joyous cry — a smothered whimper and there was the "lost" mother appearing for aid. (She knew instinctively she needed her owner's help and had seen her approach.) The owner followed to part some low evergreens next to a nearby house. Lying under the boughs in a carefully-made bed of dry leaves a proud Papillon mother had put her new litter. This small dog's intelligence and instinct had kept her and her puppies safe until help came.

A Papillon had been taken regularly to a veterinarian for care. The time came for her to whelp but there was no one at home to be with her. Undaunted and confident, she set out alone to find help in her hour of need. She went straight to the best possible place — the veterinarian's office — where she was promptly and safely delivered of her puppies.

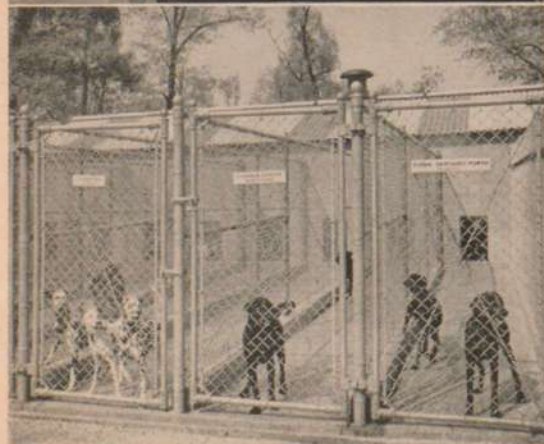

GAINES

DOG RESEARCH CENTER

As a research and educational institution catering to the needs of dog breeders, kennel owners, veterinarians and the dog-owning public, the Gaines Dog Research Center, whose Canadian branch is located at 44 Eglinton Avenue West, Toronto 12, Ontario, has won a unique and unparalleled position in the dog realm.

Since its founding in 1944 by the Gaines Division of General Foods Corporation, the Center's efforts have been directed toward ever-increasing services in the interests of the professional field and dogs in general. A main function is to collect and interpret the newest developments in all areas of dog care and distribute these findings to kennel owners and other interested groups. To this end, one of its principle publications is Gaines Dog Research Progress, a quarterly journal distributed without charge to dog breeders — and a special issue for veterinarians — in which important, independent studies on nutrition, breeding, disease, etc., are presented in digest form. Material carried at various times is based upon work done at the Gaines Research Kennels in Kankakee, Illinois, where there are some 112 purebred dogs, representing 24 different breeds.

Above: front entrance of the Gaines Research Kennels located in wooded section of Kankakee, Ill. Left, above: Little Judy Boatman inspects Vesta, the world's first transparent dog. Created for the Gaines Dog Research Center by the Deutsches Gesundheits Museum, Cologne, Germany, the unique dog is modeled after a Great Dane, with every detail, including the skeleton, teeth, muscular system and internal organs faithfully reproduced in plastic. Left, below: Some of the dogs in the Gaines kennels runways.

DOGS and PEOPLE

An activity in which the Center takes particular pride is its development and sponsorship of an annual veterinary symposium on *The Newer Knowledge About Dogs*, which celebrated its tenth anniversary last year. At this meeting, attended by deans of many of America's veterinary schools and colleges and veterinary practitioners, papers are presented by leading researchers and scientists. These papers are subsequently published by the Center and made available to veterinarians and veterinary school and college libraries. Another result of the Center's desire to further the aims of research was its gift of the disease-free colony kennel to the Cornell Laboratory for Diseases of Dogs at Ithaca, N.Y.

The Center has what is probably the largest dog film library in the world. The films . . . they range widely in subject matter with all in sound and many in colour . . . are available on free loan to kennel clubs and other organized dog groups. Its film of the 1960 Westminster Dog Show in Madison Square Gardens, New York, received the Dog Writers' Association of America's award as the best dog film of the year. The Center's *Friend of a Friend* film, depicting a day in the life of a veterinarian, has been showered with extraordinary plaudits.

Two recent additions to the film library are "A Forum on Dog Nutrition", an on-the-scene taped discussion by Dr. Robert W. Kirk of Cornell University, and Hovey Burgess, Research Director for Gaines Dog Foods, and *Anatomy of the Dog*, with Dr. Frank R. Booth, dog breeder and judge and Executive Secretary of the American Animal Hospital Association, appearing as narrator.

In the field of anatomy, "Vesta", the transparent dog (a life-size plastic recreation of a Great Dane, made for the Center in Cologne, Germany) did her bit. She not only displayed her wonders but, through her electronic "voice" equipment, explained the physiological functions of the dog's body at veterinary meetings and in natural history museums in many parts of the country. Having completed her extensive travels "Vesta" is now permanently established in the University of Illinois College of Veterinary Medicine.

Each year the Center answers hundreds of questions on training, grooming, breeding, kennel management, in fact, almost every conceivable dog topic, except those of a veterinary nature. Questions involving the veterinary profession are either channeled to the Center's Veterinary Consultant or to some other proper authority.

Among the many free publications offered to breeders and kennel owners by the Center through the Professional Service Plan is *Welcoming Your Puppy*, ideal for giving to puppy buyers . . . pedigree blanks which include a health record section for recording vaccinations, etc. . . . and special research papers. Of the latter, one that is popular with both novice and veteran breeders is *Special Care of the Brood Bitch and Puppies*. ■

Travellers: Mrs. Dorothea Daniel-Jenkins, Rouge Hills, Ont. and Mrs. Hans Brunotte, Caistor Centre, Ont., to attend shows in Texas and Chicago. To Florida: Tom Armitage of Peterborough and Mr. and Mrs. Dubney of Montreal. . . . Among the many Canadians at the Chicago International Show, long distance spectator was Mr. Jake Irving, CKC Director, from Vancouver.

Died: Mrs. Helen Webb, a longtime member of The Bulldog Club of Central Canada, who has been living in the United States the past number of years. She had suffered a lengthy illness. . . . Mrs. Jean Butler, Toronto, a daughter of Mrs. Ellen Brown and sister of Mr. Norman Brown, executive secretary of The Canadian Kennel Club. Mrs. Butler formerly showed Schipperkes with her mother. . . . Mrs. William Katzenmier, one of the earliest members of The Dachshund Club of Canada, suddenly, during a visit in England. . . . Sympathy goes to the family and friends. Also to Mr. Stan Whitmore who proved a real trouper when he carried out his judging assignment at the Canadian National Sportsmen's Show March 17, having first buried his father. Mr. Whitmore, Sr., who had a special fondness for terrier breeds, for a number of years accompanied Stan and Eve to the shows. . . . Sympathy also to Mrs. Spencer Weller on the loss of her mother.

These members of the Thunder Bay Dog Training Club (Port Arthur, Ont.), were featured in a television show recently. L. to r: Kerry Blue owned by J. W. Haggerty; Poodle owned by Mrs. Holmberg; Mrs. Koski's German Shepherd and Mrs. Berst's Dalmatian.

Fire recently destroyed the new kennels of Mr. and Mrs. Andy Nantais, Troy, Ont. Mrs. Nantais (Agnes) was able to rescue her Toy breeds, but could not get through to her Cocker Spaniel, seven Huskies and two Beagles. Mrs. Nantais is active in Burlington & District KC activities. Sincere sympathy in this heart-breaking loss.

Recovering from illness: Mrs. Lily Turner, St. Catharines, Ont., a longtime Dachshund breeder who, through land requirements in the vicinity of the Welland Canal Skyway Bridge, has had to give up her kennels.

Returned from the Northland: Mrs. Bunty Dunlop, Burlington, Ont., after a winter of sled-dog racing.

Additions to families: Congratulations to these Brantford Ont. Obedience en-

thusiasts: Mr. and Mrs. Albert McPherson, Mr. and Mrs. Arthur Finkbeiner, and Mr. and Mrs. John Sweeney.

Arthur Keymer, of Precision Cameras Ltd., Montreal, well-known distributor of photographic equipment, suggests a new idea for a hotel. Accompanying him to a meeting with Editor Elizabeth Dunn in the Queen Elizabeth Roof was his Pekingese, Trixie of Elsdon, sister of the famous Can. and Am. Ch. Bingo of Elsdon. When Trixie was refused hospitality in this portion of the hotel she was forced to spend some time in the checkroom, where she was an immediate hit with other guests. Suggests Arthur: Let's build a hotel for dogs where people, if on their best behavior, may be allowed.

Only Canadian artist whose work was shown in the recent exhibit of the Society of Animal Artists in the Burr Galleries, New York, was Patricia J. Detmold, Ste. Sophie de Lacorne, Que., whose fine dog and bird portraits are known to many readers. Her painting, "English Setter and Partridge" (*Dogs cover, September 1959*) was the only one of 11 pictures chosen by the jury in February during the Westminster Show. It was entered at this art show and was therefore absent from the Toronto display.

Mrs. O. Dewsbury, (Dewsa Kennels) Locust Hill, Ont., has just imported a two-year-old Bulldog, Mariseni Shane, bred to Major and Mrs. G. D. Lewis' Eng. Ch. Blockbuster Best Bitter. She has just shipped, via jet plane, a male Borzoi puppy, Dewsa Prince Radziwell, to Santa Barbara, Calif. "Prince" had grown so much since the date of his purchase he had to have a special crate made to accommodate him on his flight to his new owners.

Taking time out from a theatrical engagement, Wycliffe Victoria of Acadia, ten-month-old black Standard Poodle puppy recently went WB for four points and BOS under Judge Percy Roberts at the Seattle KC show. She had been playing nightly for two weeks with the North Vancouver Community Players in *The Boy Friend*. Owner Jean Lyle put in a substitute for her on the final night of the play, whisked her off to a successful performance in the ring.

Confined to Sunnybrook Hospital, Toronto, at the time of writing is William McDermont, former CKC director and well-known judge. Long-time Collie and Sheltie breeder George Getty of Quarrybrae Kennels, Toronto, has made a remarkable recovery and is once more busy in his kennels. Writes Mrs. Getty: "George wishes to thank his many friends who were so kind in sending their many cards, fruit and kind wishes . . . It really is surprising how many friends you have who are in dogs."

What handsome young man was seer flagging down a train at Port Hope, Ont. in the wee hours of a recent Sunday morning following a dog show!

RECENT SHOW WINNERS

Ch. Konigshausen the Crusader, Am. and Can. C.D. is shown winning the breed under Judge Derek Rayne of California at the Victoria City KC Show in March. The next day this outstanding Doberman took Best Canadian Working. He is owned by Fred B. Smith of Vancouver and handled by Pam Reid. Bred by Konigshausen Kennels.

The Beagle, Pizza, was Highest Scoring Dog in the March 5 Obedience Trial held at Oshawa with a score of 198. A fine hunter, he went first in the Open B class. Owners are Jean and Jake Giacomelli, Stoney Creek, Ont.

Best Canadian Bred Puppy in Breed at the German Shepherd Dog Booster Show at the Canadian National Sportsmen's Show March 18 was White Hart's Dark Angel, owned and bred by Mr. and Mrs. G. Gerigs, Pickering, Ont. Above win was repeated at the German Shepherd Dog Club, Greater Ottawa, Specialty March 25 under Judge Margaret Megahan.

Show here is Ch. Schaufelein's Humoresque who won fourth BIS at the recent 94th Alberta KC show in Calgary under Judge Vic Williams. He now has won seven BCB in Show and the Working Group 18 times. Owned and handled by Mr. J. C. Anderson, Calgary; bred by Mr. and Mrs. R. Purdy of Cheltenham, Ont.

Can. and Am. Ch. Rannoch-Dune Deputy, West Highland White Terrier, is shown winning the Terrier Group under Judge Derek Rayne of California at Victoria, B.C. March 10. Presenting the trophy is Mrs. James Garnett. Handler is Gene Hahnen. The following day he went 4th in Group and 2nd in Group in the Terrier Specialty. Owned by Mr. and Mrs. Eric Cox, Victoria.

The outstanding Miniature Schnauzer, Ch. Handful's Blue Teal, took BB at the Sportsmen's Show March 15, BB and 4th in Group March 17. He also won BB and placed 3rd in Group at both the Sarnia Show April 16 and Kawartha KC, Peterboro, Show April 22. Owned by Miss Dorothy Johnson, Toronto, he is handled by Mrs. D. T. Weir.

Terri's Jody's Boy went first in Open Dog and Reserve Winner at the Boxer Club of Canada Specialty Show, March 18. He is shown here with Judge Dr. Dan Gordon and Handler Lorna Jackson. Later Junior Handler Mary Boris showed him in Children's Handling with great success. Owners are Mr. and Mrs. Imre Szekely, Toronto.

Ch. Corgana Courtesan, Pembroke Welsh Corgi, is shown going 2nd in Working Group, BCB in Working Group at the Victoria City KC show March 10 under Judge Derek Rayne. Bred and owned by Mr. and Mrs. A. Huggins, "Corgana" West Vancouver, B.C. Handled by Christine Mullin.

RECENT SHOW WINNERS

Half sister to Ch. Corgana Courtesan, (also pictured on this page) Corgana Fascination went BCBP in show at 7½ months at the Victoria City KC Show March 10 under the same judge. Owned and handled by P. M. P. Wilkins of Vancouver.

Moving lithely under the handling of Joey Purdy, The Doberman Ch. Schaufelein's Silk Tassel went BB at the Sportsmen's Show, March 18 under Judge Virgil Johnson. Owned and bred by Mr. and Mrs. Ron Purdy, Cheltenham, Ont.

BIS under Judge Thomas Joel at the St. Catharines Show April 8 was the Doberman Pinscher, Ch. Schaufelein's Blackberry Brandy, marking his second BIS and third BCBIS. Flash: Another BIS the following weekend at Sarnia under Judge Lawrence Garvie; Group win under Judge Ed Williams. The day before at Chatham he took BB and 3rd in Group under Judge Peter Smith.

The Australian Terrier, Pinedale's Tambo of Pleasant Pastures, won 1st American Bred and BOS to BB at the Westminster KC show in February. This lively red was handled by Charles Deer for Nell and Milton Fox of Point Pleasant, N.J.

The Great Dane, Celeste of Vi-Dane, an American import, made her bow at the Shearwater KC first winter point show February 25, picking up points toward her championship with a BW under Judge Roy Montague. Owner is Mrs. Agnes E. Misener, Woodlawn, near Dartmouth, N.S.

At the Victoria City KC Show on March 11, Am. and Can. Ch. Sylvester's Cream Puff took the Toy Group under Judge T. E. Gundersen. He made his American championship with three five-point majors, completing it in February at the Seattle Show under Judge Anton Korbelt. He is owned and handled by Pam Reid of Vancouver.

If you would like your winning dog in this column, cost for a one-column cut, including cut-line is \$6.00; a two column cut \$12.00. Copy to appear in outline: name of dog, kennel and owner, win, show and judge. Absolutely no advertising copy may be included, PAYABLE IN ADVANCE. Note: Best in Show photographs are published without charge.

HOLIDAYING WITH YOUR DOG

If hotels or motels refuse to accept travellers with dogs, it's usually because previous owners have been inconsiderate.

SUPPOSE you decide to take him along. Your first step should be to place a \$10 bill in an envelope and put it in a safe place, according to authorities at the Purina Dog Care Center, St. Louis. This is to serve as a deposit to leave with hotel and motel owners to guarantee your faith in the good manners of your dog. You ask the manager to hold the deposit until you leave, at which time you'll be happy to have him make an inspection of the quarters you've occupied.

If your dog has been through an Obedience training class, take your certificate of graduation along, or assure the manager that your dog is Obedience-trained and reliable.

Remember, anytime a hotel or motel refuses to accept dogs it is usually the result of some thoughtless or irresponsible act on the part of a previous guest.

You owe it to yourself and other travellers to be considerate. When you have a dog along, it is usually much handier for you to stay at a motel. However, more hotels than motels will permit dogs in the rooms. Be careful not to let your dog relieve himself in the lobby or on the pavement in front. To avoid this, walk your dog to an alley or vacant lot or take him to the curb before you enter the building.

While some hotels won't permit dogs in the rooms, their garages will usually accept them. Your dog will be in a warm, dry place with an attendant to watch out for him. Have your car parked against a wall so that it won't have to be moved. You can then lock it, though leaving windows partly down for ventilation, but not enough for the dog to climb out.

After you've checked in, ask the motel

proprietor to show you a place where you can exercise your dog without disturbing people. He'll be grateful enough for your thoughtfulness and will gladly show you.

Take along a square of old blanket or his sleeping pad. This is to be your dog's bed wherever you spend the night. After you've shown it to him a couple of times he'll understand and will more than likely consider it his place. If he sleeps in the car, he'll recognize it as his temporary home. Neither the hotel nor motel people will be happy about your dog sleeping on the beds (no matter what his usual privilege). They'll be pleased to see you bringing his bedding.

Be sure to take the dog's own bowl which can be used as his water dish first, then for mixing his food. He will have an added feeling of security from using his regular bowl.

WHO SHOULD HANDLE?

by Kurt Unkelbach

There was more agreement than disagreement in the scheduled debate on "Who Should Handle — Amateur or Pro?" at the Dog Fanciers Luncheon Club meeting at Lüchow's Restaurant in New York City in March. Blanche Reeg, probably America's most famous amateur handler, shared the speaking honors with veteran pro handler Nate Levine.

Both agreed that three months was the proper age for starting show ring training and that a few minutes a day, or short of "boredom", was about all a puppy could be expected to take. They differed in two training areas: Mrs. Reeg advised firm leash training to "keep the head up and no nonsense", while Mr. Levine stated that the leash should be treated more informally in the beginning. And Mrs. Reeg felt that kennel dogs made better show dogs, while Mr. Levine claimed it depended upon the individual dog's personality.

In general, Mrs. Reeg felt that it's the amateur who gets the most fun out of

showing, and admitted that there's no fun quite like winning. She considers showing ones homebreds a necessity for the successful breeder, if he intends to sell. Mr. Levine admitted that the pro handler has his headaches, mostly with owners and that there are and have been amateurs who could compete on equal terms with the professionals. Amateurs are least successful with terriers, he suggested, perhaps as a compliment to Mrs. Reeg, who gained her fame with Scotties.

Both expressed worries over where the future handlers of terriers will come from. The young professionals aren't too anxious to serve an apprentice period of learning in such facets as grooming and conditioning.

An entirely unexpected aspect of the meeting took place when both speakers announced their retirement from the handling field. Mrs. Reeg stated that she would remain active in the dog game as "encourager to other amateur handlers, young and old", and Mr. Levine revealed that he was bowing out of handling to become a licensed judge.

Some 125 dog lovers were on hand to enjoy the luncheon and hear the two dog show world veterans. These DFLC meetings are held on the 3rd Wednesday of each month at Lüchow's in New York City, and anyone with an interest in dogs is welcome. The club is unofficial, in that it has no officers, no regular members, and no dues. A nominal charge is made for the lunch.

POODLE CRITIQUE / continued

element of balance, but with the greatest pleasure gave Tamhurst Falstaff Best Opposite, and in the end, Best Canadian Bred Dog In Show.

Puppies in Toys and Standards were not spectacular, but in Miniatures there was a most wonderful lot of youngsters extremely hard to judge, which speaks well for the future of Canadian Miniatures. Best Canadian Bred Puppy In Show, The White Witch of Antoine, was a lovely youngster.

Old Home Week Features Dog Shows

Fredericton, New Brunswick's elm shaded Capital City, is going to the dogs early in July when it launches its first Old Home Week — a fun-filled event with an international flavor.

One of the top features of Old Home Week will be four days of dog shows. Dogs of all breeds from many parts of Canada and the United States will be shown.

Festivities will start officially on Monday, July 10, and close July 16. The dog shows will be on Wednesday, Thursday, Friday and Saturday, July 12-15.

Here is the lineup for the dog shows: July 12 — Two Obedience Trials, River Valley Obedience and Field Trial Club. July 13 — Fredericton Kennel Club all-breed championship show. July 14 — Fredericton Kennel Club all-breed championship show. July 15 — New Brunswick Ladies Kennel Club all-championship show.

Persons making the trip to Fredericton's Old Home Week primarily to show dogs or to take in the shows will enjoy a host of other activities at the same time. It might be well to plan on spending the week in Fredericton, named "Canada's City of the Year" for 1961.

There will be an international beauty contest; international horse show; international regatta; international handicrafts show; trade fair; building products show; nightly dancing; a stage show that runs for three nights; three days of harness racing; track and field meet; swim meets; doll and tricycle parades; a giant street parade with many floats; a great outdoor chicken barbecue at which thousands will be served; fireworks; a big midway; and many other events.

Beauties from all of the Maritime Provinces and the New England States will compete in the International Beauty Contest for the honor of being named Miss Atlantic. It is expected that 50 or more will be entered. Talent will play a big part in the selection of an Old Home Week queen, for 50 of the possible 100 points will be awarded for talent.

More than 100 horses are expected to take part in the International Horse Show, to be held in the new Coliseum, for three days and three nights. Even more outboard boats, standard models and racing jobs, are expected for the Fredericton Boat Club's International Regatta.

The Fredericton Boat Club boasts one of the most modern marinas in Eastern Canada and its clubhouse, perched on the bank of the mighty St. John River, is a beauty to behold. Fredericton is also well served by Atherton's Marina in the midtown area.

In addition to the events in connection with Old Home Week, there are many other sights that should be seen by the visitor to Fredericton.

These include the University of New Brunswick, the historic Christ Cathedral, and the magnificent new Beaverbrook Art Gallery, one of the finest in Canada.

An International Art Exhibition — the Lady Dunn International Exhibition for Amateur Artists — will be open at the Beaverbrook Art Gallery during Old Home Week. Lady Dunn has offered a prize of \$1,000 for the winner of this exhibition. Lord Beaverbrook has offered in addition \$1,000 for runners-up prizes.

Full details for Fredericton's Old Home Week, including arrangements for accommodations, can be obtained by writing to: Publicity Chairman, Old Home Week, Board of Trade, Fredericton, N.B.

MARITIME MEMO

At the recent Sportsman's show Maritimers were well in evidence. *Joan Thomas* had a really terrific run with her home-bred Ch. Chihuahua "Cream Puff"; doing very nicely with home-bred Newfoundland Ch. "Kim" were *Andy and Joyce MacKenzie*. Attending minus dogs and children were *Valerie and Andrew McMillin* who were presented with Boxer Club awards for Breeder of 1960 and Top Producing Bitch. *Rita and Vic Martinson* took a flying visit to the KENL Awards dinner prior to these shows, to receive for the second time the trophy for Top Dog in the East, this time with a home-bred Borzoi, Ch. *Alicides of Tyree*—son of their Ch. *Kuban Kuzma*, CD who won the same trophy in 1958.

New imports include two Pugs by the *Buss's* (Saga-waga Kennels); from England via U.S. comes *Hazelbridge Sophie*; direct from U.S. — *Locksley Hall's Showdown*. *Tom and Agnes Threlkeld* came home from a holiday with Irish Setter

bitch, Am. Ch. *Redbarn Reflection* — this is *Tom's* girl, "emphatically"! Returned from Florida holiday are *Pearl and Edison MacNeill* of Penhorn. Wonderful but all too short visit to Puerto Rico was had by *Ann Turner* and daughter *Robin* of Montagnais Poodles, while *Tony's* ship made a brief visit there. Visiting Chicago and the "International" are *Joan Thomas* and "Cream Puff". Early next month will see *Aileen May* and family heading south to Florida and Mexico with trailer in tow.

Word has been received from *Tom Turnbull* in Winnipeg, one-time Shearwater KC executive member, that he has acquired the BIS Boxer, Ch. *Valmax Musketeer* from "*Joe*" and *Mary Turgeon*, now in Montreal. News of a son born to *Roy and Helen Robinson* late in March — congratulations to all.

German Shepherd breeders in Nova Scotia are already active in their new club for their breed (*Dogs April*), and

by VALERIE H. McMILLIN
Topsail Blvd., Dartmouth, N.S.

are all set to hold a specialty show in July. They have also plans to commence classes for Obedience under the very capable direction of *Mrs. Mary Arent* with two courses — one exclusively for GSD's and the other for all remaining breeds whose owners are interested. On the subject of Obedience it was good to see *Lillian Smith* of Fredericton at the Sportsman's shows, busy with pen and paper completing her apprenticeship as an Obedience judge — hope to hear she's soon on the roster of Trial Judges.

Regret to learn that the Miramichi KC are unable to hold a show this year. As many of the members were personnel based at RCAF, Chatham, it was inevitable that their stay in the area would be controlled by postings — there have been so many of these that there are not enough left to run a show — a great pity indeed.

Another New Obedience Club

With the interest in Obedience rising steadily from both the participation and spectator standpoint, it follows new clubs will spring up. Latest is the North York Obedience Club. A dream of Obedience enthusiast *Grace E. Probert*, it will serve the Willowdale area in the north section of Toronto.

This new venture will need interest and support in order to thrive. Ready to welcome members are *Miss Probert*, 249 Finch Ave. W., Willowdale, (BA 5-6989) or *Miss Peggy Thompson*, 16 Sabrina Drive, Weston (CH 6-2928). Schedules for meetings and classes were not available at time of writing.

THE PET SERIES

*Inexpensive but Authentic
Time-Savers for Breeders*

Special Bulk Offer

Breeders may now avail themselves of these attractive little books containing authentic and helpful information for the new owner.

Many progressive breeders now give a PET book with each puppy sold — assures puppy of more knowledgeable care, saves time answering questions.

29 leading breeds now covered, many newly revised.

CLUB NOTES

IMPORTANT: Club Notes are for the purpose of reporting activities and plans of Breed, Group and other specialty organizations. There are certain news items which cannot be considered as "club notes", but rather as advertising material. Names of judges may be used only if the club's show advertisement appears in DOGS IN CANADA. Wins of dogs which will be or have been reported in The Canadian Kennel Club "Show and Trial Results" cannot appear in these columns. Make your club notes meaty and interesting. 300 WORDS IS THE LIMIT.

Aurora & District KC, Inc.

by Marion Hurst

R.R. #1, King, Ont.

Our monthly meeting was held on April 4 at our president's home. First of all, a correction in our February notes regarding our Best in Show trophy. This should have read: "We would especially like to thank Mrs. Lydia Howden (not Miss Pat Howden) who again is so generously giving us our 'Best in Show'." My apologies for this error.

Our activities have been confined entirely to getting ready for our show on May 27 at the Bradford Arena. Don't forget entries must be in by May 13.

We were pleased to hear from one of our former members, Mrs. Roberta Jenkins, who is having one long holiday in Spain. By all accounts it seems a good place in which to live. She is keeping well informed of "dog" activities through *Dogs in Canada*.

We had a pleasant evening and hope to see all again at the next meeting, usual place on May 2.

The All Terrier Club of Canada

by Eileen M. Stewart

R.R. #2, Aurora, Ont.

Our March meeting was held on Thursday, April 13, at the National Cash Register Building.

Our Education Committee is keenly planning some very interesting programs. Some of these sessions will be held in conjunction with our regular meetings and others will be held separately at member's homes in a more informal atmosphere where discussion parties can ensue, which time does not always permit following a regular meeting.

Mrs. Lowe of Bradford, breeder of Australian Terriers and Wire-Haired Terriers, was unanimously accepted to membership at this meeting.

Mrs. Muriel Kaye, 1961 President of the West Highland Terrier Club, has declined the nomination made in her absence to be responsible for our Good and Welfare department. Mrs. Kay McFarlane was nominated to take over this duty.

Mrs. Elsie Betts was recently the recipient of a breeder of Best of Breed rosette, the result of a win by one of her Kerrys which was sold and who now has its home in the United States. Mrs. Betts expressed her extreme pleasure at receiving this and we, also, think it a very nice gesture. This is an idea we would like to incorporate into our own Terrier Specialty for perhaps Best in Show and Best Puppy in Show. Too often the credit due the breeder of a winner is completely obscured by the publicity given to the current owner.

Mrs. D. T. Weir has very generously offered her home as the locale of our after-the-show dinner and social evening. Please send in your reservations with your show entries.

A number of our club members have had extremely good wins at American Shows this year and we would like to congratulate them all.

Basset Club of Canada

by Ann MacBeth

11 Fernwood Heights, Scarborough, Ont.

"All Ears" is the appropriate new title for the bulletin issued by this club.

Two Bassets, Scotts Othello of Royal View and Scotts Hamlet of Royal View, appeared on the Pets series over Television Station CFTO, Channel 9, Toronto on March 25. Owners are Mr. and Mrs. Eugene Scott.

Mrs. Pat Fisher has accepted our invitation to speak at our April 29 meeting at the Estaminet, Burlington, Ont. The date, September 23, has been approved for our Specialty

Show to be held in conjunction with the Burlington & District KC show on that date.

Brantford Obedience Club

by Bob Neel

84 Emily St., Brantford, Ont.

We are being kept busy these days with our training class of 28 dogs graduating on April 16 to be followed the next Sunday, April 23, by our annual Obedience Trial. Mrs. June Alksnis, our Trial Secretary, is working very hard in getting the premium lists sent out.

Our President, Mr. Albert McPherson, was glad to welcome the team from The German Shepherd Club of Toronto when they competed against us for the Brantford Obedience Challenge Trophy. Competition was keen but we were fortunate to retain the trophy. We had a party at the home of our club secretary, Mrs. Gerald Charters, after the match and a good time was had by all.

Like all our fellow Obedience club members, we look forward to better weather to enable us to get some work done out of doors and be prepared for all the coming trials.

Congratulations are in order for three of our club families, the Albert McPhersons, the Arthur Finkbeiners and the John Sweeneys; who all have a brand new baby.

B.C. Gun Dog Club

by Mrs. Clare Milani

6009 Dumbries St., Vancouver 15, B.C.

A panel discussion on the judging of dogs was scheduled for the April 13 meeting. Panelists were Mr. Keith Coughlan, Mr. Ben Furrie and Mr. Ken Gibson.

Members were interested to see the film on Labradors and Pointers on the show "Tides and Trials" with Ted Peck of Channel 8, Vancouver, on April 27.

At the CKC Sanction-Trial held March 5, top winners were: Puppy Stake: 1, Spunky Creek Lady, owned by J. Hall. 2, Springbank Betty of Love's, V. L. Love, handled by Roger Love. 3, Milani's Vinci Venus, A. D. Milani. 4, Kim, E. Odegaard. Derby Stake: 1, LeAcres Freida v. Terbox, Harold Johnson. 2, Milani's Vinci Volli, A. D. Milani. 3, Kim, R. Lowden. 4, LeAcres Pepi v. Terbox, E. Paone. Open All Age: 1, Heidi, W. Chaston. 2, LeAcres Freida v. Terbox, H. Johnson. 3, Prince, G. Moore. 4, Bwoy, P. Worobey.

Pointing Breed Sanction Trial, March 26: Puppy Stake: 1, Spunky Creek Lady, J. C. Hall. 2, Prince, George Moore. 3, Chris, Ken Gibson. 4, Peg O'My Heart, R. Denner. Derby Stake: 1, Kim, R. Lowden. 2, Do-Mart's Dido, H. Dawson. 3, LeAcres Freida v. Terbox. 4, Timmy, A. Carlson. No Open All Age Stake held.

Retriever Trial, CKC Sanction, March 11 and 12. Puppy Stake: 1, Gayrock's Smiddy Bole, Mrs. Helen Smyth, handled by Jack Smyth. 2, Teal of Bardonda, Jack MacKay. 3, Sugar Foot, Joe Maraw. 4, Cowman's Fair Trial, Cliff Cowman. Junior Stake: 1, Joey of Country Club, Pat Cramond. 2, Phantom Sprig of Olrega, Arthur MacFarlane, handled by Audrey MacFarlane. 3, Captain of Lomac, Rudy Deering, handled by Pete McClellan. 4, Mossbank's North Shore Express, Chas. Canning, handled by Jack Smyth. Open All Age Stake: 1, PT Ch. Jet of Spook, Gordon Lendemer. 2, Moose of Lomas, P. G. McClellan. 3, PT Ch. Craigend Rock, Jack Smyth. No 4th placing.

The Boston Terrier Club of Hamilton

by Donald D. Newton, DVM

R.R. #1, Ancaster, Ont.

The officers for the above organization for 1961 are: President, Mr. W. Moore; Vice-President, Mr. F. Nuttall; Secretary, Dr. D.

Newton; Treasurer, Mrs. J. Cosgrove; Show Secretary, Mrs. W. Carr.

The club plans to expand its membership in the coming year. Regular meetings are held at 16 Market St., Hamilton on the second Tuesday of the month. Anyone interested in joining should contact the secretary.

Burlington and District Kennel Club by Joan Morden

572 Cedar Ave., Burlington, Ont.

Our Burlington Juniors were very much in evidence at our Obedience graduation held March 19. Of 19 dogs entered in CD, eight earned qualifying scores. Douglas Wade, age 10, and his Sheltie won the trophy for highest score with 190. Mrs. Audrey Langford, who judged the graduation, praised the Juniors for the confidence they showed in their dogs. A new series of classes is now under way with President Phyll Smith in charge of training. Handlers' classes are also being given. Both of these are held in Nelson Township Hall on Sunday afternoons. A new series of stewards classes is also being held Tuesday evenings in Lankester Lodge.

We were happy to welcome Bunty Dunlop back from her season of sled dog racing and enjoyed her report of the winter's activities. Club members report many nice wins at point shows both here and in the U.S.A.

At present club activity is centred around our upcoming Double Obedience Trial and Obedience Clinic. Fred Lowe, Obedience Chairman, and his committee are doing everything to make this trial another huge success.

As a very special treat members who attended the April meeting heard guest speaker Dr. W. E. Shute of Port Credit give an illustrated talk on the bone construction of the dog. Dr. Shute's talk was followed by a lively question and answer period. He has promised to return to speak to our club—soon, we hope.

Readers will be saddened to learn of the tragic fire which gutted the newly-erected kennel of Agnes and Andy Nantais, at Troy, Ont. Agnes was able to save her Toy breeds but the fire of unknown origin claimed seven Huskie, two Beagles and one Cocker.

Calgary Kennel & Obedience Club by Diane Keats

2 Tipton Place, Calgary, Alta.

At the annual general meeting the following officers were elected for 1961: President, Mr. F. Jones; First Vice-President, Mrs. G. White; Second Vice-President, Mr. M. Gratto; Secretary, Mrs. S. Craig; Treasurer, Mrs. M. Gratto; Director, Mrs. G. Nicholson, Mrs. P. Eggenberger, Miss A. Hammond and Mr. H. Folmer. The financial statement was read by the outgoing Treasurer, showing quite an improvement for 1960 over the previous year's operations.

Hopes are running high for great success in our Spring Championship Shows and Trials, as the Miniature Dachshund Club are holding a Specialty Show and the Western Division of the Canadian Samoyed Club is having a Booster Show in conjunction with ours. We only hope our building will accommodate everyone. At the termination of the business portion of the meeting, color slides of Afghan Hounds and Salukis were shown by Mr. and Mrs. J. Wass and Mr. E. Grieve. Later Miss Hammond gave a short commentary in conjunction with her color slides of some of her dogs at home, as well as some she took last year at a large outdoor Eastern American show.

As a matter of curiosity, at the 1960 Alberta Shows and Trials results listed in

Dogs in Canada were checked and tabulated, with the following results: out of 16 all breed shows, entries in CKOC's shows stood first, second, fourth and fifth; and in the 12 obedience trials, CKOC's entries were first, second, third and fifth. As the club is only five years old, coming into existence in 1956, we feel rather proud of this record.

Graduation night for the first session of the Obedience school saw 28 dogs successful in the beginner's classes. Top dog in the adult section was Shanna, a German Shepherd handled by Miss Pat Harling, and top score in the children's class was Ure, a black Standard Poodle handled by Miss Jan Leuschner. The following week saw the second session commence with a registration of about 50 dogs in the various classes.

New arrivals in Calgary during the past year have included a male and female Giant Schnauzer, owned by one of our members, Mr. W. Schreuder. Next came a Dandie Dinmont Terrier. Late last fall a Standard Schnauzer (believed to be the first in Western Canada) arrived from England. His name is Dondeau's What-A-Boy, and his sire is Ch. Dondeau Wotan of Langwood (more than once Best of Breed at Crufts). Last, but certainly not least, is Glenora Van Den Berglaan, a wire-haired Belgian Sheep Dog owned by another of our members, Mr. H. Folmer. Nora arrived about a month ago from the Netherlands and we believe she is the first of this variety in Canada. Late in May a male of the same breed will be arriving to enter another Calgary home.

The Canadian Samoyed Club by Wally Freeman Oro Station, Ont.

Two big events have come and gone, one being the very successful Booster Show of March 18 and the other being the publication of the Samoyed Issue of *Dogs In Canada*, which to the best of our knowledge is another first for the breed, in that we know of no other instance where a national publication of the stature of *Dogs in Canada*, has ever designated one of their issues as a Samoyed Issue.

Before this is read, another first will have taken place, this being the first time in Canada a Championship Specialty Show for Samoyeds has been held as an independent show, and this is just what happened when the 3rd. Annual Specialty was held on April 23. Still another Samoyed first, is the first Samoyed Booster ever held in Western Canada which is to be held with the Calgary Kennel and Obedience Club at Calgary on May 6. This is a project of the Prairie Provinces Division of our club and under the direction of our Director, Mrs. Joyce K. Worsnop, Group Box 11, Silver Springs, Calgary, Alta. We urge every Samoyed owner in that area to make sure this is the success it should be.

The election of officers for 1962 will have been completed before you read this, but at this time we do not have the complete returns, which will appear in the April bulletin of the club. However, we can tell you that the following have been elected by acclamation: President, Mr. Gordon R. MacDonald, Oak Ridges, Ont.; 1st. Vice-President, Mr. Ian C. Miller, R.R. 2, Aurora, Ont.; 2nd. Vice-President, Wally Freeman, Oro Station, Ont.; Treasurer, Mr. Harvey Worsnop, R.R. 2, Gormley, Ont.; Secretary, Mrs. Edith L. Freeman, Oro Station. Director for Quebec and Maritimes, Miss Marguerite A. Tolley, 61 Gables Court, Beaconsfield West, Que. and Director for Prairie Provinces, Mrs. Joyce K. Worsnop.

See you at the Specialty.

The Chow-Chow Fanciers Club of Canada

by F. P. A. Odenkirchen
R.R. #3, Woodbridge, Ont.

One of the subjects brought to the attention of the board of directors at the February meeting was the fact that too few subjects of interest for pet owners were discussed through a lecture and general discussion. As our aim is to encourage and help every Chow owner, we created an educational committee which asked every member present what he or she would like to be discussed and see to it that proper people are found to give a lecture on the subject. The first subject, grooming the dog and preparing him for show, was well discussed and shown by our capable Chairman, Mrs. J. Nattrass, at her home. She did a very thorough job, starting with all instruments and materials needed, the grooming itself as practised on one of her champion bitches and ending with the show equipment like leads, collars, chains, disinfectants. Many a so-called experienced breeder could pick up some new ideas or viewpoints and it certainly was an eye-opener for all pet-owners. It showed that many of us are not aware of the fact that some pet owners would like to see subjects discussed which some of us assume everybody knows.

This newly-formed club is now open for membership against a fee of one dollar a year for senior members and fifty cents for junior members. We invite all interested Chow owners or enthusiasts to join us in the promotion of our breed.

The Dachshund Club of Canada by Ernie Lindsay

Willow Cove (Sub. P.O.), Burlington, Ont.

Our April meeting was held one week prior to Easter weekend, on March 26, at the home of Mr. and Mrs. Wm. Barnes of Sarnia, with Vice-President Mrs. Barnes taking the chair, and very good attendance.

Plans have been completed for our Annual Puppy Fun Match to be held at the Lindsays on June 25, with Pat Fisher doing the judging, and explaining why one is placed over another. Classes from two to 12 months in all six breeds; only small prizes but plenty of them. Everyone bringing along their picnic basket, and all their puppies. This is an event that has been growing with enthusiasm each year, and especially educational to all novice breeders and fanciers.

Our honorary members, Lily and Fred Turner, have sold all their Dachshunds, and home, the new Sky-way Bridge over the Welland Canal taking in their property. Lily is the oldest breeder of Dachsies in Canada, and it seems hard for me to imagine them not having at least one as a pet. Lily is in the hospital at present time. We all hope to see you out and around again soon Lily.

We received the shocking and sad news of Mrs. William Katzenmiller's death, (one of our first Club Members), who passed away very suddenly while visiting her sister in England. Our sincerest sympathy to William and family.

Our next meeting is to be held at the home of Mr. and Mrs. Jos. Chatfield, 110 Oak St., London, Ont., on June 4.

full to capacity with a number of qualified trainers and apprentice trainers working the various classes. The enthusiastic turnout for Novice from our beginner graduates exceeded our expectations. Spring fever, I suppose.

Some of our members who participated in the Portage La Prairie Sanction Show did very well. Another happy person is Mr. Palmer with his nine-month Labrador who, having just completed his beginners' training, winning his class, went out March 26 to place third in the Gun Club Puppy Stakes.

Ruby MacGregor, our Class Secretary, is sporting a beautiful soft grey sweater which she had hand spun and knitted from the undercoat shed by her Keeshond, "Roy". Now "Sally" is getting the comb and paper bag treatment—and me with a Doberman!

At the graduation of our recent classes our club honoured Monica Torrence, Jean McLellan and Ruby MacGregor with a gift for their service and hard work on behalf of the club.

With a trophy dance the end of April we hope to be offering a superior display of trophies for competition at the summer trials. Here's a gem for all the young fanciers:

Ardent dog fanciers, a young couple had always had their home over-run with canines. When a baby arrived everybody wondered how the infant would get along with all the four-footed pets. A friend inquired: "Does the baby talk yet?" "Not yet" the mother said, "but he's learning how to bark."

**The German Shepherd Dog Breeders
Association Inc.
by Anne Gerigs
Pickering, Ont.**

I am pleased to report that our club has been well represented at recent shows; not only well represented but our members have been doing very well for themselves. Let's hope Lady Luck stays with us all season.

Congratulations to Peggy Armitage whose "Buttons" now has her CD.

Our April meeting held at the home of George and Iris Gerigs brought out a good number of our members.

It was reported by our trophy chairman, Bruce Allen, that the fund for our June Specialty Show is coming along very well, (but not so well that we would turn down your donation). If you wish to make one, contact Bruce at Whitehall 2-1346.

For further information regarding this, "Show of shows" see our ad elsewhere in this issue of Dogs.

During this last month we purchased a duplicating machine. This of course will be a great help to our Secretary and show committee.

It was reported to us that a local township council has voted to discriminate against German Shepherds in the amount of their license fees. Our club, in conjunction with several other clubs in this area, has sent a letter of protest to their reeve.

It was also decided at this meeting that our handling classes would again be held this year. These were very successful last year and it is hoped they will be well attended this time.

Our deepest sympathy to Mary and Spencer Weller on the death of Mary's mother.

All our members have their fingers crossed. We have hopes of obedience training facilities in the very near future. For further information re this please call our training master, Bob Savink.

That's all for this month. See you at the shows.

**The German Shepherd Dog Club
of Alberta
by Lutz Keller
R.R. #4, Calgary, Alta.**

After much discussion among the fanciers of our breed it was decided to incorporate a German Shepherd Specialty club in our area. The first general meeting of our club was held at the home of Mr. and Mrs. Litchfield. A thank you to the Litchfields, who opened their home for all preliminary meetings. The year's officers were elected as follows: President, Mr. D. D. Litchfield; Vice-President, Mr. H. W. Keller; Secretary-Treasurer, Miss Thelma Volker; and Directors, Mr. E. A. Moore, Mr. H. Carels, Mr. E. Corbett, Mr. G. S.

Kuss and P. Procee. After much debate the club's constitution has been submitted to Toronto for approval.

Our second meeting was a great success with many new members present. A training report revealed an active program with training classes being held three times weekly. Having procured a specialty judge, through a recommendation from Mr. Grant Mann, the plans for a specialty show have been drawn up and premium lists will soon be available.

Many thanks to the German Shepherd Dog Club of Canada for the help given pertaining to the constitution. We would like to take this opportunity to invite correspondence from any person or organization interested in breeding, training and improvement of the German Shepherd Dog.

**The German Shepherd Dog Club
of Canada
by Mrs. Pat Savink
R.R. #1, Pickering, Ont.**

The March general meeting was held on the day following our Booster Show and the agenda was a full one which included the annual awards for members whose dogs achieved Obedience and/or conformation titles during the previous year. In all, 16 certificates were awarded: 11 CD, one CDX, one UD, and three Tracking. Although space does not permit a detailed list in this column special congratulations must go to Natalie Maydanski who received seven certificates, won the Mitzi Frohle trophy (awarded to the dog having both his championship and UD) and tied with Hanna Schmoeker for the Benjamin Trophy which is awarded for the highest average score in the Novice Class.

The highlight of the meeting was our guest speaker, Mr. Reg. Cleveland, who had judged our Booster Show the preceeding day. Mr. Cleveland spoke at length on the progress which has already been made in our breed in this country and of plans for its further improvement.

As usual our Obedience committee and trainers are hard at work with another Obedience training class well underway and seeing to the many last minute details for our Obedience Trial May 7 at Fort York Armouries. Large ring, excellent judge, spacious and quiet surroundings all adding up to another top notch trial.

Congratulations are in order for the Challenge Team of the Brantford Obedience who defeated our team in the first challenge match.

The location for our Fourth Annual Puppy Match will move to Burlington and be held in conjunction with the Burlington Obedience Trials, June 11, thus giving the opportunity of two shows in one day.

We have been most fortunate this year in obtaining the well-known Mr. John Seiler to judge the puppies in three classes (each sex) Junior, Intermediate and Senior (up to 18 months). This, coupled with a large outdoor ring and fine trophies will make June 11 one date you will not want to miss. Be sure your name is on our mailing list.

We were all deeply saddened to hear of the untimely passing of Jo Taschner's Ch. and 1955 Grand Victor Vali v. Seighaus. He was Jo's constant companion; a fine dog and always a perfect gentleman. He will be greatly missed but always remembered by all who knew him.

Flash!! "Shepherd Shorts", our monthly publication devoted to the promotion and improvement of the German Shepherd Dog, is now available to non-members. If you would like to be added to our mailing list contact Gordon Garrett, Goodwood P.O., Ontario. ULster 2-6665.

**Halifax Kennel Club Inc.
by T. Threlkeld**

19 Romans Ave., Halifax, N.S.

The monthly meeting was held at the Women's Council House on March 27 with Mr. S. DeWolfe presiding. This year the club officers are Mr. S. DeWolfe, President; Dr. K. R. Ainslie, Vice-President; Mrs. D. H. Duff, Secretary; Mrs. Mary Day, Treasurer.

Reports were received on the annual banquet and dance held at Morris Lodge on St. Patrick's evening. The event was thoroughly enjoyed by all who attended. One of the highlights was the judging of the model dogs used at the place settings, the entire "show"

being judged by the well-known all-breed judge, Mr. Harry Story.

Arrangements were finalized for the Spring Sanction Match to be held on April 29. Plans were made for the two summer shows to be held in June.

It has been decided to show films at some of our monthly meetings and so to take advantage of some of the many films made available to clubs by the CKC and the dog food manufacturers.

We wish both our retired President and Mrs. M. Andrews a happy trip to England and a good time during their year's stay.

Hamilton Kennel Club

by Mrs. Maude Cooper

14 Proctor Blvd., Hamilton, Ont.

Our monthly meeting, held March 28, had a bit of an air of celebration as we were most happy (albeit a bit "puffed up") over the winning, on March 21, of the Burlington & District Kennel Club Challenge Trophy (offered yearly, a win being based on knowledge of dog show and Obedience trial rules). The event took place at Oakville, our host being the Oakville & District Kennel Club, who won the trophy last year. Our thanks to the Oakville Club for a most enjoyable evening.

Attendance and interest in our monthly meetings seems to be growing and this month we were again pleased to welcome two new members. With such an enthusiastic group, we look forward to lots of helpers for our June 24 championship dog show, again to be held at Burlington and hope to put on an even "bigger and better show".

After our business session, a most pleasing event took place in the presentation of a ring to our President, George Lawless, in appreciation from the members for his continued interest and help in our club and its activities. The presentation was made by another of our valued members, Vice-President Mrs. Harry Coles.

Rounding out the evening, a little competition (on dog show knowledge) was held among the members—three members tied for top position, and we resorted to a "draw" to decide the finalist. Result was that lucky Perc Marshall took home the lamp offered as a prize.

The Hub City Kennel Club of Saskatoon

A smooth-haired Dachshund, Wunderbar's Brian, owned and handled by Mrs. E. G. Hawes of Saskatoon, went BIS at the Hub City Kennel Club's annual parlor show March 28. The show, which drew an entry of 60 dogs and was judged by Mrs. Nellie Peters, highlighted the club's late winter program.

Group winners were: Sporting: German Short-haired Pointer, owned and handled by Mr. K. Otte, Prince Albert; Hound: Mrs. Hawes' Dachshund; Working: Samoyed, owned and handled by Mrs. Elsie Rohner, Saskatoon; Terrier: Cairn, handled by Tom Lewis, Saskatoon; Toy, Chihuahua, owned and handled by Miss Shirley Orr, Saskatoon; Non-sporting, Miniature Poodle, owned and handled by C. Livingstone, Rosetown.

Mrs. Thelma Hawes was ring steward and E. R. Pettingale, club President, presented the trophies. Mrs. Jack D. Houston convened the event, assisted by Mrs. J. L. Robertson, Mrs. E. G. Hawes, and Mrs. T. Hawes.

Graduation exercises for the club's winter Obedience training class were held March 26 with top honors awarded to Miss Bertha Turcotte and her Boxer, "Sandy." Mr. W. E. Howell and his Sheltie, "Blackie", captured second place and Mrs. Arlene Hiller and her Samoyed, "Lady", scored third. Other graduates included: Mrs. Mary Beth Crerar, Chihuahua; Mrs. Alice Don, Dachshund; Jonathon Gerrard, Labrador Retriever; Mr. Frank Glynn, Dachshund; Mr. William Katarynych, Dachshund; Mr. I. Pockett, German Shepherd; Mr. Vincent Redmond, Labrador Retriever; Mrs. E. R. Pettingale, class trainer, presented the winning trophy and medallions and Leslie C. Coleman, director of training, judged the competition.

Spring obedience training class will begin April 9 and continue for ten weeks.

With the club's annual shows scheduled for May 29 and 30, a feature of pre-show activity in Saskatoon during May will be a series of classes for amateur handlers sponsored by the Hub City Kennel Club and directed by Lloyd Heimbecker. The classes will teach

all aspects of ring procedure and will be run in conjunction with the weekly members' Obedience classes.

The Irish Setter Club of Canada

by John H. S. McCallum

12 Hillside Ave., Dundas, Ont.

At the Canadian National Sportsmen's Dog Show attractive benching was provided for 15 Irishmen and the very tasteful decorations enabled the club to win the Sportsmen's prize for the most attractive benching in the show. This marks the fourth consecutive year that the Irish Setter Club of Canada has been awarded this much-coveted prize.

The club is pleased to announce that the 1960 Obedience Award has been won by Ch. Bayknol Athes Patricia CD, owned by J. F. Strachan of Edmonton, Alta. Both our congratulations and sympathy go out to Mr. Strachan, who has suffered greatly with the recent loss of his Ch. Tremonia Shane of Gaye and King.

One of our newer members, Raymond McCormack of Ancaster, did an excellent job in preparing his Irish Setter, "Lance" (Challenger's Irish Lancer) for the graduation of the Hamilton Obedience Club's Winter Obedience Training Session, held in Ancaster March 23. "Lance", (who is only ten months old) placed first in the Novice Class with a total score of 196 points out of 200. Twenty-six dogs were entered in the trial.

Club members have participated in many other activities over the past two months. These have included "strategy" meetings, work nights and unofficial socials. On March 8, eight club members braved the ferocity of a late winter storm to visit the Ontario Veterinary College Open House at Guelph. All who attended were most impressed with the facilities of the College and the exhibits.

If you have not made a donation to the trophy fund, you may do so by sending your contribution to Mrs. R. E. Allen, Trophy Convener, The Irish Setter Club of Canada, 327 Wilson St., Ancaster, Ont.

The Island Terrier Club

by Mrs. E. A. Leedham

1565 Austin Rd., Coquitlam, New Westminster, B.C.

This month's important event was the All Terrier Specialty which was held March 13. We had a record entry of 58 Terriers which was very encouraging for the hardworking Specialty Committee. It was a very wet day with heavy rain all day but it was warm and dry in the Hall and everyone was in good spirits in spite of the fact that there was a two-hour delay in starting the Terriers. Best Terrier was the Scottie, Can. and Am. Ch. Canties Ace, owned by Mr. and Mrs. G. Shillinglaw. Best Canadian-Bred was the Manchester Terrier, Monta Vista Sharon, owned by Mrs. J. Hamilton and Best Canadian Bred Puppy was the West Highland White Terrier, Sallydean Bengo, owned by W. G. Essex.

The first live model night was held Wednesday, March 15 and was a great success. Dogs brought for discussion were Cairn, Air-dale and Border Terriers. Mrs. June Watson, who is the only breeder of Borders here, had a lot of interesting articles on her breed, which was a help as it is a relatively new breed to many people. We feel it is most interesting to learn more about the different breeds of terriers and the next such meeting is planned for April 19. Breeds for discussion will be the Kerry Blue, Smooth and Wire Fox Terriers.

K-9 Training School

by Art Surette

79 Murray St., Brantford, Ont.

Our classes, having continued throughout the winter months, have proved successful again with a very satisfying graduation.

Twelve dogs competed in the "Open" and "Novice" classes and very high scores were made on both counts.

It was gratifying to see so many dogs fulfil their training. Mr. C. C. Burton of Stratford was the judge, assisted by his wife and did an excellent job. Later he commented on the wonderful performance.

To this point, it was quite a thrill to note that the work done in the past few weeks was showing good results. But there

were other events to come. "Terry", owned by yours truly, but on a show of tricks which have to be seen to be appreciated. In the evening, another surprise: Mr. George Tabner and Mr. Ted Haggis of Byron and London respectively, belonging to the English Springer Spaniel Association, gave a very interesting talk and presented a film of field training of springers and cockers. The film was taken by Mr. Haggis at the American National Field Trials. We wish to thank George and Ted for their interest in us as a new club and appreciate the fact that they take time to help along a new group.

The Kawartha Kennel Club

by Mrs. Rhodena Sheepway
R.R. 2, Oakwood, Ont.

The Kawartha Kennel Club met on Tuesday, April 4 at the South End Fire Hall in Peterborough. Dr. Alan McDougall was in charge of the meeting in the absence of our President, Tom Armitage, who is enjoying a vacation in Florida.

Following the business meeting we had the pleasure of welcoming Dr. George Fisher as our speaker for the evening. Dr. Fisher has just recently joined the Quaker Oats Company in connection with their Ken-L-Ration department. He will be travelling all across Canada speaking to veterinarian groups on nutrition. Our meeting was his first assignment in his new venture and he proved himself to be a very able and interesting speaker. We wish him every success and hope he will find time to visit us again.

Kitchener-Waterloo Kennel Club

by Kay Rudow

127 Roxborough Ave., Kitchener, Ont.

Our March meeting was well attended. First on the agenda this month, new members. We are pleased to welcome into the club, Miss Janet Beins, Mrs. Alvis Gillrie, Mr. Douglas Gole, Mr. and Mrs. P. Thomson and Mr. and Mrs. A. Gills.

Show preparations are still progressing, with lots of hard work from our show committee.

Our training classes are going very well with basic and advance training. Mrs. Alice Simpson was our speaker for the evening. She gave us a report on the Westminster Dog Show held in New York, which she and her father, Mr. Marriott, attended.

Maritime Toy Dog Club

"N.B." Division

by Robert B. Laskey

The March meeting of this club met in the home of our diligent member Florence Green. The President, Roy H. Colwell, informed those attending that our efficient Treasurer, Althea Fraser, a Federal employee, is being transferred to Fort Smith, near Great Slave Lake, a far cry from the lovely city of Fredericton and her ain folk. It is a two year stint, we will miss her!

The Show Committee reported that Gerald G. McCarthy was invited to judge and accepted by them, for their Specialty show, August 17. His assignment has been ap-

proved of by the CKC. Mr. McCarthy is a judge of wide experience, one who merits the support of all Maritime Toy dog exhibitors.

Our Toy dog breeder-members brought early honors this season to the Maritimes. At the Eastern Dog Club, February show Boston, Canmore Kennels, Can. and Am. Ch. Crown Princess Julie Jargon's award was BOS to the best Pom, Eng. and Am. Ch. Pixietown Serenade of Hadley. Serenade was best Toy dog and BIS. It was Julie's third success at Boston.

Pius Sullivan, also of Fredericton, breeder of good Pekingese, had a field day at the winter show of the Shearwater K.C., Dartmouth, in late February. His homebred, Kim-Wee-Kee, son of Ch. Rikki of Calartha was awarded BB, Best Toy dog and Best Canadian Bred Puppy in Show. Another Toy dog member, Mrs. D. H. Duff, Armdale, N.S., had the highest honor winning BIS with her nice Pom, Ch. Roguelands Warrior Chief, his second BIS.

Exhibitors of the little dogs will have ample opportunity here to show off their best. Five summer shows are scheduled for Fredericton Old Home Week and in August, three, July 13, 14, 15 and two, August 14 and 15. These, with the spring shows already underway, will total 11 shows for New Brunswick as of this date.

For this banner season, nine Canadians are engaged and two Americans to adjudicate for this "61" festival of shows.

Miniature Schnauzer Club of Canada

by VeNorma D. MacKendrick

"Boxerly",

2038 Lake Shore East, Oakville, Ont.

Although the membership seemed to have been affected by an Easter holiday of the English-type week-end (you know, off on Thursday and back by Choosday night!), we did have a quorum for our recent meeting.

After routine business, there was a mild discussion regarding proposed changes in our Constitution in order to facilitate the holding of Shows in the future. Of course, there was an "hindsight hash" of the Dog Shows that were held in conjunction with the Sportsmen's Show. In retrospect, the problems most manifest were, 'too cold, too long, too-far-to-the-car, and, as is always the final outcome of a Show, 'not too bad after all! Following a sip-n-sup session, everyone went off to home kennels to get future champions ready for the next 'Big Shew'.

Mountain City Obedience Club

by Mrs. Blanche Walton

7750 Ave Du Mail, Ville D'Anjou,
Montreal 5, Quebec

Our recent activities have been confined to serious training involving the lessons learned at the Milo Pearsall Clinic held in February.

Members of MCOC have been giving demonstrations of dog Obedience training at quite a few places during the months of February and March. These have been enjoyed by everyone who has been present.

typical of our outstanding breeding stock.

Our annual club competition takes place
on April 11 and this is an affair usually
enjoyed by a good turnout of members, with
prizes and trophies awarded.

We are glad to welcome Mr. and Mrs. Dub-
ney and Bruce back from a lengthy stay in
Florida. Bruce was able to get his American
CD whilst residing in Florida.

A number of our dogs will be entered in the
Obedience Show at the Town of Mount Royal
Arena at the end of April and we hope to
report new legs and perhaps titles in our next
issue.

Work has been going on all winter by our
Senneville Trial Committee and the date is not
far off now. We hope to have a record entry
for our three trials this year, at the end of
May. Hope to see you there.

Niagara Pen Retriever Training Club

March was a very active month for most
club members—the Sportsman's Show—month-
ly training trial—and warmer weather found
the members becoming involved in serious
Field Training. Many of our members partici-
pated in the Field Trial Classes held at the
Sportsman's Show. It was a pleasure to note
that on the final night, of the seven dogs
called back for the last series six belonged to
members of our Club. Bill Hutchinson was the
winner for the second consecutive year, with
FT. Ch. Van Wagner's Kernel. Congratulations
Hutch.

Our special thanks go to Mr. Alex Forbes
for allowing us to hold our March 19 Trial
at the Hespeler Gun Club. The grounds pro-
vided ideal cover for all stakes and the facili-
ties of the Club House proved to be an excel-
lent source of revenue.

It is certainly encouraging to note that we
have 91 paid-up members. This compares to
31 members at this time last year.

In order for a new member to quickly learn
the rudiments of this wonderful hobby of Field
Training, he should take an active interest in
the various functions of our club. Judging
with a more experienced member in a Train-
ing Trial is a wonderful opportunity to
learn just what to look for. Throwing birds
and firing the gun also gives one an excellent
vantage point to note the good and bad quali-
ties of various dogs at their work.

Our club is growing to such an extent that
our monthly Field Marshal is not able to con-
tact all members. We would, therefore, suggest
that any member willing to help, give his
name to the Marshal at any of the coming
trials. Let the Marshal know just what func-
tion you would like to perform and maybe it
will be your reward to become the owner of
the next Field Trial Champion.

Winner of the Open Stake, March 19 Trial
under judges Wm. Hutchinson and Grant
Charlton was FT Ch. Rathrippen's Black Star
(Tarzan) black male Labrador owned by F.
Dartnall.

Nanaimo Kennel Club by Katharine Scott

Cedar P.O., Vancouver Island, B.C.

A record number of members attended our
club's annual general meeting this year, a
satisfactory indication of the growth of the
Club, and the real interest that members are
taking in its business, as well as in its

Our Aim is Quality

R.R. #1 Inglewood, Ont.

(Phone Victoria 688)

activities. We divide the credit for the development of the past year between the stimulating effect of our first point show and licensed trials last July, and the constant interest of the very popular Obedience training classes.

In 1961 officers elected at the annual meeting were: President, George Tuson; Vice-President, Nigel Scott; Secretary, Mrs. Irene McLean; Treasurer, Don McLean. Three directors elected for one term were: Mrs. Jessie Hill, Howard Tyrrell and Norman Kulai. Last year's President, Henry Herwig, was unable to stand for office as he expects to leave this district shortly. He and Mrs. Herwig, who has been our Show Secretary, are among the club's oldest and most hard-working members and will be greatly missed here.

Our first function of 1961, a combined Sanction Show and Club Trials, drew a large entry from all points on Vancouver Island and justified our optimism in renting a building large enough to take three full-size rings. We are fortunate in our geographical position here, being in about the middle of the most populous part of the Island and also at the point nearest to Vancouver and the mainland. Exhibitors, please note—we are not hard to reach! All our efforts are of course now bent towards the success of our point shows and trials on July 3 and 4 and we all look forward to meeting old friends and making lots of new ones then.

Northern Alberta Canine Association

by Mrs. W. A. Soeters

3413 - 120A Ave., Edmonton, Alta.

The regular March meeting again welcomed some new people to our membership. Our show catalogue was discussed and every member promised to work on their quota of bringing in at least three advertisements. Their efforts deserve praise, showing a higher profit than ever before and an attractive catalogue we can be justly proud of.

Presentation of Championship Plaques to members who finished Champions in the past year has been planned for the month of April.

Our President called another meeting, to work out the last details of the Show and establish our Show Committee.

The Club's Obedience training classes are running smoothly as usual and have brought forth much interest among our new members. Plans are shaping up for the coffee party to be held after this month's Monday evening class and the "1960 Madison Square Garden Show" film will be shown.

Members acquiring dogs for the shows and breeding purposes are: Betty Branchflower, who is pleased with her newly imported fawn Boxer female, El Reys Sh-Bang, a granddaughter of the famous Ch. Bangaway. Bill and Mini Soeters recently purchased two Standard Smooth Dachshunds, Dugan of Denali (Ch. Lance of Heying-Teckel grandson) and Lolli of Denali (Ch. Falcon of H.T. granddaughter).

By the time this issue goes to press, our shows and trial, April 8 and 9, will be a thing of the past but at present we are so thrilled that 201 entries will be competing, surpassing all our recent shows, a sure indication of the continual growth of interest in dogs in Alberta.

The Obedience Association (Ont.)

London Branch

by Gordon J. Brackett

259 Greenwood Ave., London, Ont.

The next few weeks will be busy ones but when it's all over we hope we will have sparked an interest in the "Obedience Sport" in Western Ontario dog owners.

As a promotion, an "Adopt-a-Dog" week is being held at London's new Eaton's Mall. Each day Obedience training will be demonstrated in co-operation with our local SPCA. The following week our drill team will appear nightly as a feature attraction at the Western Sports Fair.

We have been aware for some time now that advertising training classes is not sufficient. You have to take your program where the public gathers. We hope these activities will help some of the newer Obedience clubs who are having difficulty rousing public interest in their program.

All **Shetland Sheepdog** breeders and lovers alike will be deeply sorry to hear of the retirement from breeding of Mr. and Mrs. R. D. Smuck, Willow Acres Kennels. No one has done more for the breed — 21 years of love, study, hard work and integrity has made the Willow Acres Shelties what they are today . . . 'Tops in the breed'. We do hope that this decision is not final.

The best Willow Acres bloodlines are still available in Canada for the continued improvement of the breed.

My kennel proudly presents 'AT STUD'

(Sooke 472-3036)

Last month a carload of members journeyed to Hamilton to attend the Obedience Association (Ontario) meeting, main topic of the evening being the planning of the Association's annual convention to be held June 4 at the Ancaster Agricultural Grounds. Having attended last year's convention (and thoroughly enjoying it) may we recommend you come out and see what it's all about. Tentative plans are to hold a Sanction Match and open forums on such topics as Exhibiting, Judging, Training, and others.

"Bonnie", our TV ham, has completed her television series and is now ready for the circuit. Many thanks to Lou Short (CFPL-TV) for making this program possible. The Story of Bonnie, CFPL's Noon Hour Club for the past three months, showed Bonnie taking her Companion Dog training and teaching Lou's audience how to take care of their pets and it has done much to further Obedience in this area and made "Bon" a popular celebrity around town.

Hope our regular reporter will be back on the job next month after time out for a new addition to her "millionaire family".

Oshawa Obedience Association

by Peggy Boorman

22 Frank St., Oshawa, Ont.

Our training classes, in the very capable hands of trainers Betty McHugh and Karel Vogel, are working hard to get a Demonstration Team to be available for the High School demonstration and any other groups or organizations interested in "dogs".

Besides the demonstration team our head trainers are busy with the regular training classes.

April 5 was graduation night for another ten-week course and we wish to thank most sincerely Mr. W. C. Diamond and Mrs. Diamond of Hamilton for coming down to Oshawa to judge our Graduation Class.

The understanding, kindness and genuine encouragement given to each handler by judges such as Mr. Diamond and the many other judges who have favored us with their capable handling of our beginners in Obedience is a credit to them and their organizations. Many thanks Mr. and Mrs. Diamond.

Our next training classes start on April 12 at United Steelworkers Hall in Oshawa.

Congratulations to the following dogs and handlers who received qualifying scores in our last graduation.

Novice "A": Mrs. A. Chalmers, Miniature Poodle, Lee, 188½; Mr. R. King, Miniature Poodle, Fi Fi, 174; Miss M. Mills, Kerry Blue, 170.

Novice "B": Mr. D. Gardiner, Kerry Blue, Abigail, 194½, and Kerry Blue, Menace, 191½; Mrs. T. Grosart, Kuvacz, Tasha, 179½.

Advanced: Miss U. Floeter, Kerry Blue, Maverick, 197½; Mr. R. Kraglon, German Shepherd, Sheena, 193.

We would like to express our thanks to Dorothy Grosart for giving us an interesting talk on the Hungarian Kuvacz and helping us to get to know some of the qualities and origin of this beautiful but little known breed.

Congratulations and thanks to our trainers Betty McHugh and Karel Vogel and their assistants for the completion of another successful training class.

ROSEHILL KENNELS Hespeler, Ont.

At our next monthly meeting Mrs. Barb
Scott will talk about the Standard Poodle.

Ottawa Kennel Club by Wilhelmina Bales

158 Russell Ave., Ottawa 2, Ont.

The regular monthly meeting was held on
March 16 in the board room of the Ottawa
Humane Society. The President, Mrs Neill
Malcolm was in the chair. There was a good
attendance despite the fact that a number
of "key" members were off to Toronto to
attend the Sportmen's Dog Shows (they
did well there). After reports of com-
mittees and a brief business meeting, the
members were entertained delightfully by Mr.
Jim Woods, representative of Ralston Purina,
assisted by Ray Lavigne of Ritchie Feed and
Seed Co., who gave a showing of sound-color
movies.

The film "Obedience Training for Your Dog"
was particularly interesting; also received en-
thusiastically was the film "Dog's Best Friend"
which covered a tour of the Ralston Purina
plant and was most enlightening on the tre-
mendous amount of work and research going
on in the laboratories there in the interests
of the dog population. Mr. Woods also donated
a number of door prizes which created a lot of
fun while a draw was made.

The third and last Sanction Show of the
season was held on Easter Saturday, April 1
and was again a successful and happy oc-
casion. The judges at this show were Mrs.
D. Lovett, Betty Hills, Lorne Moore and
E. B. (Tim) Reid.

Noted: Dennis Hayes on an excellent T.V.
appearance with his Labrador "Stormy" on
CBOT "Time Out", Thursday, March 30.

Perth County Kennel Club by Ellen Hall

2 McNab St., Stratford, Ont.

The club held the March meeting in the
club room at the Department of Agriculture
office, Albert St., Monday evening, March
20. The meeting was presided over by Dr.
A. H. Brightwell.

Our President, Mr. Howard Nicol, resigned
on account of other commitments and Dr.
A. H. Brightwell was again elected to this
office for the balance of the year.

Further extensive plans were made for our
annual dog show to be held in the Classic
City Arena, Stratford, Ont., on May 22, with
discussions including trophies and other show
topics.

The Progressive Kennel Club Inc. by Gertrude W. Drew

120 Ranleigh Ave., Toronto, Ont.

There was a very good crowd at the April
meeting. The President, Mr. C. Stevens, was
in the chair. The reports were read by the
various officers and three new members were
accepted by the meeting.

There being no particular business to trans-
act, the meeting became an open forum with
such subjects as breed Standards, kennel
licenses and dog catchers coming in for con-
siderable discussion. It was very interesting
to hear the views of the members and I think
it is a good thing for all concerned to hold
such discussions. It would be helpful to have

meetings with some sort of organized program
along these lines with the subjects selected
according to popular vote.

The members are working in preparation
for the June show. Trophy Secretary Mrs.
Whitmore reported trophies coming in very
nicely.

Those wishing entry forms or information
on the June show, please contact Mrs. Martha
Stevens, 1698 Gerrard St. East, Toronto. HO.
1-5139.

The Provincial Irish Setter Club

by Gertrude W. Drew

120 Ranleigh Ave., Toronto, Ont.

Demonstrations on a live model featured
the program for the March meeting. There
was a fine attendance and plenty of business
to cover. The Vice-President, Mr. Al Lake,
was in the chair and with the cooperation of
the members the agenda was soon cleared up.

The distribution of the draw books was at-
tended to by the Secretary, Mrs. Mary Lake.
This year our prizes are different and extremely
good, thanks to kind friends who are in-
terested in seeing this club continue their fine
work for Irish Setters in this province.

For those who like to take a chance on a
draw, the following are the prizes offered:
1st, 14 carat gold lady's wristwatch set with
diamonds; 2nd, set of giant serving tables;
3rd, double bed blanket. Tickets may be had
from any of our members.

It was decided to hold our members' match
and picnic at Boyd Park, Woodbridge, Ont.
June 18. This park is ideal for the occasion,
there being loads of room for dogs, cars, people
and children. There are endless attractions for
the younger folks with swimming if the weath-
er is warm enough.

We were sorry to learn from Mr. Reg.
Houston of Omeme that one of his dogs was
killed on the highway. It seems the gate to his
run had shifted with a recent heavy wind
and the dogs knocked it open. Fortunately
only one got on the roadway.

This sad incident brings to mind the tragedy
of the wandering dog. Year after year pur-
chasers of new dogs are warned of this danger
but the slaughter seems to go on. Not only
does this happen to our breed but to every
other breed.

This club strongly advises the buyer to avail
himself of the defences necessary to protect
his pet. The initial cost of a suitable en-
closure is comparatively small and pays divi-
dends far in excess of the outlay. It would
cut down considerably the loss of dog life as
well as breed loss and financial loss. It is
estimated that more dogs lose their life due to
accidents on highways than through sickness.
The majority of dogs killed are under two
years of age.

Word comes from Mart Kenney Jr., who has
been in B.C. for a few years, that he may
be coming back to Ontario. Mart has been
suffering from an ailment aggravated by the
damp climate and his doctors advise the
change. Says Mart: "if I get back to Ontario
I'll be right in there pitching for our good
old breed". He has a couple of Irish Setters
now.

If the weather continues fine we will be
able to begin our training classes the end of
April or early in May. Also there will be a
trimming session in May.

**St. Catharines and District Kennel
and Obedience Club**
by Don Foster

131 Bunting Rd., St. Catharines, Ont.
Sunday, March 12, marked the graduation
of our regular training class at Lincoln Park
Community Centre. Diplomas were awarded
and the top three dogs received trophies. Top
honors went to Mr. Ted Hill's German Shep-
herd. Second was Mrs. Barbara Boccinfuso's
Chesapeake and third was Miss Margaret
Hunt's Beagle. The class was judged by Mr.
Vern Jackson.

Our monthly meeting saw a nice turnout
of members. Show business took up most of
the agenda and lots of loose ends were tucked
in place. It was reported that entries looked
encouraging and as this article is being read,
St. Catharines will have had its first All-
Breed Championship Show in over a decade.
Trophy Chairman, Mr. Ken Sorenson thanked
members of the club for their work and
generosity in helping make a very attractive
premium list.

Obedience Chairman Vern Jackson reports
that in addition to our regular trophies for
our coming double trial on May 21, there
will be cash prizes of \$10 for highest scoring
dog in each trial and \$15 for high score of
the day.

An interesting highlight of our meeting was
a Shamrock from the Emerald Isle which was
raffled off by our Social Convenor Mrs. Anne
O'Malley. Lucky winner was Mr. Ted Hill.

Mr. Frank Gay, ably assisted by Mr. Harry
Watson with Mr. George Jerman as moderator,
conducted a class in how not to show a dog.
Members were then shown the proper way to
set up their own dogs.

Scarborough Kennel Club
by Joyce Holdham

"Ardyce", Dunbarton P.O., Ont.

We have had two very pleasant and also
educational meetings February and March.

Mrs. Yan Paul of Su Yan Kennels Toronto,
very kindly attended one meeting and gave
us a most enlightening talk on how dogs
are judged and how to make the best of one's
dog when showing. We sincerely hope Mrs.
Paul will give us more hints in the near
future.

We are busy with plans for our show to be
held September 24 at the Don Mills Arena.
Several clubs are holding Boosters in con-
junction with it, among them: the Toy Dog
Breeders, Bulldog, Beagle and Boxer clubs.

Here's wishing all members of the club a
successful summer at the shows — and all the
good weather possible.

The Scottish Terrier Club of Canada
by Mrs. Harry Fraser

The monthly meeting of the club was held
at the home of Mr. Steve Titus on March 27
with a full attendance of all officers.

Plans were discussed for a point show, and
a sanction show, as well as a garden party
in June.

Accounts were presented of various items
towards financial support to three other dog
clubs, and the Treasurer arranged to forward
cheques forthwith.

A very deep interest has been noted in the
shows of late by an increased entry of terriers,
which augurs well for the future of the terrier
breeds. We hope all those interested in ter-
riers will support our club in its work, and
anyone interested in our work should contact
the Secretary, Mr. James Armit, 1571 Glover
Ave., Ottawa 1, Ont.

Skyway Obedience Club
by Dorothy Walker

Group Box 215, R.R. 5, Hamilton, Ont.

The monthly general meeting was held
March 11. Mr. Don Peall, our President, was
absent to attend the Ontario Obedience As-
sociation meeting. The acting President for
the meeting was Mr. Jack Walker.

Our Training Chairman reported that our
graduation for this set of classes will be held
March 19, judged by Mrs. Freda Walls.

Our Trophy Chairman reported that he had
received donations for our club for the trophy

fund at the Burlington Sanction Show. We are also very grateful for donations received from various people at dog shows and trials.

A social evening was held at the home of Mr. and Mrs. John McGee, 122 Ferndale Ave., for club members and their friends. There were 42 present and everyone had a wonderful time. Mr. and Mrs. McGee's granddaughter, Betty Ann Forrest, did a Highland dance and the Irish Washer Woman dance very capably.

A demonstration was held at St. Paul's United Church in Burlington, Ont. It was a St. Patrick's celebration with 70 boys and girls age 11 to 14. There were also eight dogs and their handlers and four members conducting a question and answer period on the training and care of their pets. The children were very interested.

Congratulations to Miss Mary Moyer and her Poodle, Star, who received her CD at the Poodle Advancement Show in Toronto March 14.

Our graduation night, March 19, was a big success. Mrs. Patricia Dabner with her Beagle, Tammy, scored 196 and a trophy for Highest Scoring Dog in her class. Mr. Wayne Dawdy and his Cocker Spaniel scored 193½ and a trophy for Highest Scoring dog in his class. Mr. V. Claermont with his German Shepherd, Duke, scored 199½ and a trophy for Highest Scoring Dog in his class for the evening. A gift was presented to Mrs. Walls with many thanks from the club for a job well done.

Sudbury & District Kennel Club by Bonnie Swain

Northern Ontario will be bustin' its hospitality buttons this year, not only entertaining retriever and spaniel handlers during the annual Field Trials, but also welcoming all comers to our second annual Obedience Trials. The Sudbury and District Kennel Club has been a going concern for some ten years now, and handlers from Canada and the United States are well aware of the excellent Field Trials run by this club each year.

Last year for the first time our club ran a small but highly successful Obedience Trial, thanks to the hard work of Norm Polmateer and his committee. This year the Obedience Committee under its new Chairman, Wilson Nuttall, is running two Obedience Classes — Novice with Marion Irwin instructing and Advanced with Norm Polmateer instructing, and has plans well advanced for the 1961 Trial. Orest Andrews, Chairman of the Retriever Committee, needs very little introduction to Retriever people and Maurice Martin, Chairman of the Spaniel Committee, is fast becoming known at all the Ontario Spaniel Trials.

The club boasts a strong executive this year with Bert McClelland as President; Robin Swain, Vice-President and Bill Watt returned for his second term as Secretary-Treasurer. Harold Bruce has been given the task of originating a sanctioned Bench Show if at all possible in 1961. It looks like the biggest year yet for Sudbury so remember, — you can't beat the North for the best in hospitality, entertainment and Dog Trials. See you in Sudbury.

The Toy Dog Breeders' Association of Canada

by Joyce Holdham

"Ardyce", Liverpool Rd., Dunbarton
P.O., Ont.

A good showing of Toys was made at our Booster Show on Saturday, March 18, held in conjunction with the Sportsmen's Show and we gained several new members. The Dow Trophy was awarded to Mrs. F. M. Peacock of Burlington, by Mr. James McIntosh.

There was no award of our Memorial Trophy this year, as no TDBA member was placed in the first four in the Group. Mrs. Hagerman won a prize in our raffle and Mrs. Holdham another.

The club presented a birthday gift of a housecoat to Mrs. Charlotte Walker, who is the oldest member of the Kennel Club and was 92 years old on March 23 — a wonderful lady who still handles her own Pomeranians at the shows. We all hope the coming year will be a happy one for her.

As show season is now upon us again, we hope all members will make every effort to attend our remaining monthly meetings.

ONE HUNDRED AND ONE DALMATIANS

This is the first full-length cartoon motion picture produced by Walt Disney and is the most colorful to date. Some 300 artists worked for three years producing this \$4 million masterpiece. Speaking of color, more than 1,000 different hues are involved, including 100 new shades evolved by Disney's secret process. And spots! The 101 Dalmatians required a total of 6½ million.

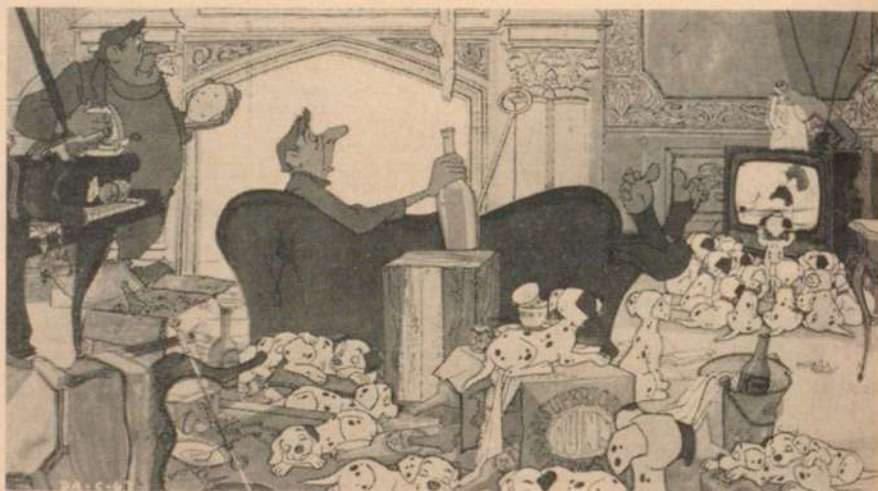

It's love at first sight all around. There was a double wedding ceremony: Roger and Anita, Pongo and Perdita. The newlyweds live happily under one roof now; loneliness is a thing of the past. Pongo is delighted with his decision and strategy.

Roger is a bachelor and songwriter happy in his bachelorhood. His Dalmatian Pongo, however, is bored and decides it is time for them to settle down.

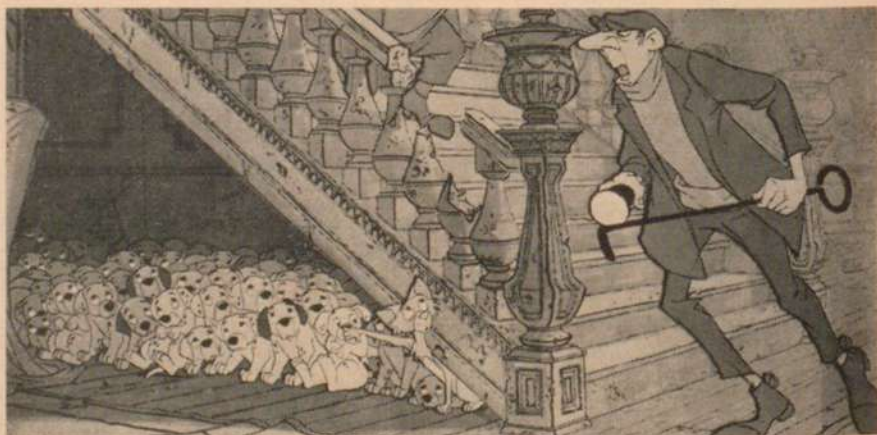

Before long there is the pitter patter of tiny feet. Perdita has given birth to 15 beautiful puppies. Pongo is the proudest of fathers as he joins his family in watching their favorite television "Western".

Cruella enlists the aid of two underworld thugs to break into Roger's home and dognap the puppies. The theft is sensational. Even Scotland Yard sends some of its specialists. But all human attempts fail. The Dal parents turn for aid to the dogs of London via the "twilight bark" (animal SOS). The message reaches a horse known as the Captain, a shaggy dog who answers to Colonel and his aide, Sergeant Tibbs (a fast cat).

Evil, however, comes in the person of Cruella de Vil, a former schoolmate of Anita, whose passion is to have a Dalmatian fur coat. When Cruella is rebuffed in her attempt to buy the puppies, she vows to get them one way or another, immediately.

Sergeant Tibbs finds the puppies and scores of other Dalmatians imprisoned in the remote De Vil estate. The word is sent back to Pongo and Perdita and a daring rescue of all the captive dogs is accomplished. So what had started out to be a sad Christmas Eve became a celebration. Roger sells his first song, buys the estate and the large family, now numbering 101 Dalmatians, settle down on their Dalmatian Plantation.

THE TOY MANCHESTER / continued

was from this first "good one" that our present line is derived. It was for this reason and the fact that breeders will not conform, "use an old Standard bitch with a Toy male to get their best Toys" that the American Kennel Club put the two breeds in one classification, Manchester, Toy and Standards, awarding variety instead of breed.

Shortly afterward The Canadian Kennel Club threw the question open to its members to follow suit but obeyed the wishes of the Standard breeders who do not want it. So the two breeds are distinct in Canada, the Standard a terrier and the Toy in its own grouping.

There is no perfect dog as there is no perfect man but human nature being what it is, it always tries to better. So in breeding a Standard has been set that fanciers keep striving to meet. A Toy with the characteristics of the Standard in proper proportion, but including small narrow erect ears. The smaller the animal the more desirable, but not at the expense of soundness. It should have

BEST OF VARIETY

It's a Dog's Life

Laddie, a purebred Border Collie, saved the life of a two-year-old child in Wadena Sask., last November by stopping a train. The child had wandered away from home accompanied by Laddie, his boon companion, and they headed to the nearby railway track. Apparently the child decided to have a rest and sat down between the rails. After a while the dog sensed danger in the form of an approaching train and though normally he would have run away, he stood his ground and barked furiously. The engineer was unable to see the child with the dog standing guard in front of him but, feeling something amiss, he pulled up the train which fortunately was already slowing down to approach the station and he alighted from the engine. There he found the little boy, quite unconcerned. He removed the child from the track, gave Laddie a word of appreciation and a pat and moved the train on into the station where, evidently, he told the story.

The Saskatoon SPCA, unable to find any official award for an act of devotion and heroism by a dog, sent a small medal, suitably inscribed, to Laddie in care of his owners, of which, we understand, they are very proud.

Mrs. Munro Murray,
President,
Saskatoon SPCA

Five Dollars will be paid to the sender of an authentic anecdote selected each month to appear in this department. Items, which must not exceed 150 words, may tell of an heroic action, an hilarious incident concerning your dog, or describe an incident where a dog used real ingenuity to solve a problem. Items submitted cannot be returned unless accompanied by a stamped self-addressed return envelope. Address, "It's A Dog's Life", Dogs in Canada Magazine, 1173 Bay St., Toronto, Ont.

FOR JUNIORS ONLY / continued

March 18, where we accepted all new applications. We also talked about a proposed trip to the Buffalo Zoo if we could get transportation.

Our last March meeting was held March 25 at 9.00 a.m., the new time, as it used to be 11.00 a.m. At this meeting the members brought their dogs for training.

By Karen Lyr.

Burlington and District Kennel Club

Junior meetings continue to attract more members. Membership now totals 50. Plans are underway for a club trip to the Buffalo Zoo.

An enquiry has been received from Edmonton concerning the organization of a Junior Kennel Club in that city.

The success of two Junior members, Douglas Wade and David Gregory in Obedience and handling has spurred members' already-keen interest in these activities. We expect, and hope, to see many juniors actively engaged at coming shows and trials.

At Calgary

Top scorer in the Children's class of the Calgary Kennel and Obedience Club competition held recently was Ure, a black Standard Poodle handled by Miss Jan Leuschner.

Did you know that the publishers of this magazine offer subscriptions to *Dogs in Canada* as trophies for Junior Hand-

Pervinal Winner

Betty Lou Ham of Holyoke, Mass., receives the Pervinal trophy presented by the Professional Handlers Association to the winner of the Junior Showmanship Competition at the 1961 Westminster Kennel Club Dog Show. The award, sponsored by the U.S. Vitamin and Pharmaceutical Corporation of Canada, Ltd., is given in memory of Leonard Brumby, L. to r., Gene H. Pitisan, special Pervinal representative for U.S. Vitamin; Miss Ham and Judge Anne H. Rogers of Mahopac, N.Y., Miss Ham's Irish Setter is named Irish Imp. O'Dandy.

Do you know of any unusually interesting activities of boys and girls and their dogs? Do you know of any recent cases of heroism or rescues made by teen-agers and their dogs? If so please write this department.

DOGS IN THE NEWS

In London Mrs. Arnold Bingley was granted a divorce on grounds of cruelty following her testimony that her husband insisted on taking their dog to bed with him. Not only that, he moved to another room, with the dog, when she voiced her objection.

Dog and man share man's most vital enemy — disease of the heart. University of Pennsylvania veterinarians, studying 3,000 dogs, found 290 with reliable signs of heart disease, while 322 others showed suspected disease.

Nine Beagle puppies are attending a special course at Hollins College for girls given by a professor of psychology according to Gaines Dog Research Center.

Tich, a mongrel heroine and survivor of three World War II campaigns, lived to be 18 years old.

Note for Boxer breeders: 78% of the Boxers in Portland, Ore., are fawn in color and 21% are brindle.

1961 TOWSER TRAVEL AID

This compact, 48-page directory lists over 6,000 hotels and motels throughout the country which accept guests with pets. In addition to the listings, "Touring With Towser" offers suggestions on what to take along for your dog, lists regulations in state and national parks, requirements for entering Canada and Mexico as well as particular states and other useful information. Suggestions for dog and dog-owner etiquette are also included.

A copy of the booklet may be obtained by sending 25 cents in coin or stamps (to cover first class postage and handling) to the Gaines Dog Research Center, c/o Gaines, General Foods Ltd., 44 Eglinton West, Toronto, Ont.

THE FLEA

Nations may rise and fall, tyrants rant and ruin, new inventions become obsolete. But the diminutive flea remains a challenge to man and beast. Jonathan Swift wrote more than 200 years ago:

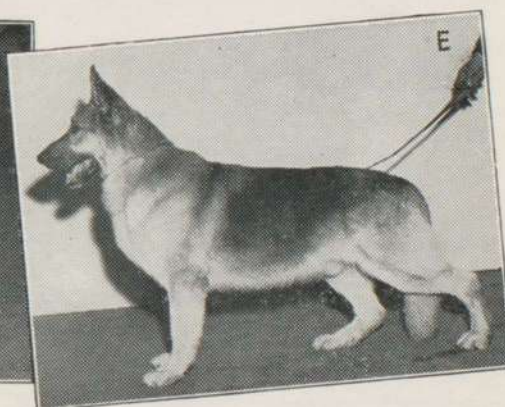

*So, naturalists observe, a flea
Hath smaller fleas that on him prey;
And these have smaller still to bite
'em;
And so proceed ad infinitum.*

How would one know what to bid for a dog bed once owned by Marie Antoinette? A niche a chien specially made for her brought \$15,375 in a recent Paris auction sale.

GAINES

for years famous for nutrition, is now improved with a
NEW, MEATIER TASTE APPEAL

New, improved Gaines Meal is easier for a dog to eat . . . the pieces are the right bite size, larger than before but not too large . . . it doesn't mush in the bowl and it tastes meatier. You can see the difference, the larger size, the meatier colour. These improvements were introduced after months of kennel testing at Gaines Research Kennels. Try it in your own kennels and the reaction of your dogs will convince you that the palatability of Gaines Meal has been greatly improved.

"I feed Gaines Dog Meal exclusively. It keeps my dog in excellent health and show condition. Gaines' new palatability makes it better than ever."
Mrs. R. A. Lennox,
Homestead Kennels,
Willowdale, Ont.

Uniform Nourishment

This is the key to the excellent feeding results you get with Gaines. By developing a unique homogenization process, Gaines Research Kennels came up with the answer to the problem of a higher standard of dog nutrition. Each crunchy nugget of Gaines contains uniform amounts of every food element dogs are known to need; now it's in a form that's even more readily absorbed, more palatable and easier to feed.

Gaines Dog Research Progress
