SEE COVER STORY

Big food for small puppies

Growing puppies need almost 3 times more energy per pound than fully mature dogs. That's why Purina created Puppy Chow, a new special formula food that meets a normal puppy's high nutritional need. Vital statistics: 27% protein, 9% fat, delivering approximately 2,200 calories per pound, plus all the required vitamins and minerals.

Puppy Chow is made in the shape of tiny milk bottles with holes in their centres for maximum absorption of the milky sauce which is made when water is added. These puppy-size pieces make for easy eating and digesting. Puppies love the exceptional flavour and texture. Tested and proved to be a favourite at the Purina Dog Centre where puppies of many breeds showed sound weight gain and growth from weaning through their first year.

Try Purina Puppy Chow—The Special Formula Puppy Food.

FEBRUARY, 70. VOL. 60 NO. 5. APEX PUBLISHERS AND PUBLICITY LIMITED

cover story

Ch. (Can. & Am.) Kirnel's Topaz Medallion completed his Canadian Championship at 15 months of age, then moved with his owner Margery C. May to California. There he was accepted by Mitchell T. Wooten Jr., well known handler, who campaigned him to his American Championship and many outstanding wins; including Best of Breed at the Westminster Kennel Club Show in New York, February, 1969. He concluded his show career in October 1969 with a Group First and many other Group Placements. Medallion has a lovely disposition, rich tan and dark steel blue coat.

The following three dogs were sired by Medallion, of which we are very proud.

Ch. (Can., Am. & Mex.) Highland's Dinner Jacket, bred and owned by Mrs. De Forest Simmons; guest of Peggy May while shown through his American and Mexican titles. He wasted no time in acquiring his American and Mexican Championships by Mr. Wooten. His trademark is his gorgeous face, rich tan, dark steel blue coat and compact body.

Ch. (Can. & Am.) Blue Magic Flash of Highland, followed Dinner Jacket to California and quickly finished her American Championship, distinguishing herself by going Winners Bitch in a Class of 36 Bitches (Open) and also Best of Winners at the Yorkshire Terrier Specialty Show, held at Beverley Hills, June 1968. "Magpie" was bred and owned by Mrs. Simmons, and, she states, is one of the nicest dogs she has bred. Her gorgeous son and daughter will be shown later on this year.

Ch. (Can. & Am.) Topaz McKenna's Gold, who recently finished, at Tulore, California, his American Championship.

There were four new championships (American) in Margery C. May's "Topaz Kennel Reg'd" in West Los Angeles, in 1969. Outstanding among them is Ch. (Can. & Am.) Starfire Mitey Model, who finished his Canadian title in October 1969 by going Best in Show at the Exclusive International Toy Club Specialty.

"Highland Kennel Reg'd" are noted for their rich tan, steel blue and dark steel blue thick coats. Breeding for 21 years and making 50 Champions from Highland Stock. Bloodlines were founded from top strains from England, Scotland, Ireland and bloodlines from France.

There were three Champions made during 1969 and

TO THE EDITOR

CHIHUAHUAS IN OBEDIENCE

. . . would appreciate hearing from anyone who has or had a Chihuahua in Obedience trials. My own Ch. Chi E! Su Mistahsinee has now won his CD and CDX with little trouble. He is always complimented in the ring on his eager performance. I have been very pleased with him and even though he is now working on his UD I find that the training has not "dampened his spirits" or damaged his performance in the conformation ring at all. I know there are some other Chihuahuas being trained, so let's hear about them!

SUSAN FINLAY AILSBY

University Hospital Post Office, Saskatoon, Sask.

ABOUT MR. MUSS-ARNOLT

. . . I read with great interest "American Kennel Club's Collection of Art" (November issue, **Dogs in Canada**) and was very much surprised to learn that the American Kennel Club has no record concerning Mr. Muss-Arnolt.

I first met him when he judged the New Brunswick KC show in Saint John, N.B., in September, 1921. He was then in his 60's, was born in Germany and was a very well-known artist of his time.

Mr. Muss-Arnolt was an American Kennel Club judge. He was a correspondent for several dog periodicals now out of print. I am quite certain that he was a member of the Press Club and he also had a nice kennel of Pointers in the late 1880's mentioned in the "Dog Book" by James Watson.

GERALD G. McCARTHY

105 Queen St., Saint John, N.B.

PLEASE HELP

. . . I would like to ask the assistance of your readers in locating my male German Shepherd, Prince, who disappeared from his kennel October 19, 1969. He is a sable grey with tan markings; height, 26", weight, 110 lbs.; age, seven years. His tattoo number is FGH It in the right flank and it can be clearly read.

I have reason to believe that he may be out of the Thunder Bay area (formerly Port Arthur and Fort William). The picture enclosed was taken shortly before his disappearance.

This dog is valuable and also a family pet and his return or any information concerning his whereabouts would mean a great deal to those who care for him.

REGINA MACKOWIAK

88 Walkover St., Postal Station "P",

Hospik Kennels, Reg., R. 1, Wyoming, Ont.

TAXATION AND RED TAPE

. . . Recently I had a call from the retail sales tax branch, and the following may interest all readers, though primarily it is concerned with the Ontario breeders.

Apparently, the Ontario Treasury picked out the Ontario breeders and advised their branches about the breeders in their areas who in turn are requesting the breeders to apply for vendor permits.

I realize that there are breeders who operate their kennel as a business, but there must be other breeders like myself, who raise and keep dogs solely as a hobby and for their personal pleasure, and while dogs and puppies are sold, this is in my opinion not a business transaction involving a product or commodity, but a transfer of ownership — a very personal sale of a very personal belonging, and the onus should be on the buyer to pay the sales tax. I cannot see why I should have to use my leisure time to file records and collect taxes for the Ontario Government.

Unfortunately I have not been able to get very much information from the local retail sales tax branch and I wonder if any of the readers is an "expert" by any chance and might have information that might help breeders such as myself.

Also, since The Canadian Kennel Club is incorporated under the Livestock Pedigree Act, does that make pure-bred dogs livestock and should they not be exempt as such?

It is indeed unfortunate that in a democratic society our personal lives and activities have to be entangled and strangled by more and more red tape and government regulations.

OSCAR F. SCHOLZ

Thunder Bay, Ont.

MORE DOGS MISSING IN THUNDER BAY AREA

. . . On January 7 my two Irish Setter imports, Draherin Bolero (Ero) which I co-own with Draheren Kennels and a female, Candia Constance (Conni) which I co-own with Sally O. Betts of Candia Kennels, disappeared from our yard (someone came into the yard and released them from their kennel). As there have been no positive reports of them since the Friday following the day they disappeared I can only assume they are being held by someone in the city or else have been picked up and are trying to be sold in another part of the country.

All authorities have been notified as have school children, garbage men, etc. I am now trying to buy some time on local television with the hope they are still in the city.

Both dogs are young, just over a year. Ero has a tattoo THS-162 on his left ear and a cowlick up his nose. Conni has no identifying marks, but she goes about 26" at the shoulder. Her coat is scraggly as she has just lost her coat and she is excellently angulated.

A reward is offered for both these dogs. I miss them so very much.

DON PARSONS

415 So. Marks St., Fort William, Ont.

BREEDING BLACKS TO WIN

. . . My breed is Pugs and am interested in breeding one or two blacks capable of winning in shows . . . most blacks lose to the fawns because of poor wrinkling of face and faint rustiness in the color. . .

My present foundation female is mostly fawn for several generations. But she has the eyes. One judge said of her, "she has the most beautiful eyes I've seen in a Pug for a long time." She was bred to a dog whose dam was the daughter of a fawn sire from black line going back several generations to the top line of English blacks; going still further back, all black Champion line, the dam herself fawn, and fawns on her dam's side, the first fawn, on the sire's side was a fawn dam from black and fawn parents. In the litter was a beautiful silver female with black points. She was almost black when born; in fact I thought I had a black puppy. She has turned a beautiful clear silver grey (not smutty) almost the color of a blue persian cat with jet black markings. She is very showy, small, but perfectly formed, a lovely head, her mother's big dark eyes, but only average wrinkling. The sire had good wrinkles, the dam's average.

I sold the little female pup fairly cheap on condition she is shown and returned for breeding on getting her title, as I have recently acquired a young male I want to campaign and can't afford at the time to campaign both. My male is half brother to the sire of the female pup, out of the same dam by a different sire. The female pup's paternal grandsire is also her dam's great grandsire, and all fawns. The young male I have shifts up the black line one generation and he has a few blacks in his full pedigree on his sire's side, but back in the fourth generation. The blacks in his dam's line are the same as the blacks in the female pup's sire's dam's line, but his skin color is light, the female pup's is dark under the pale silver coat. Now this male has a huge, massive head, exceptionally well-wrinkled face, big loose folds of skin you can take up in handfuls, even at six months. He's got a mature look about him, well-proportioned body and exceptional front. When the female pup is bred to him I get the best female pup from the litter, doubling up the black strain, then I want to breed this female pup back to her sire, tripling the strain of black and doubling up on the sire's magnificent head and wrinkles. The eyes on the dog are good, big and round, dark, but not as good as the mother of the little silver pup, or the pup herself.

How am I doing? What are my chances of getting a good black pup with jet black coat, the eyes of the female side of the family and great head and wrinkles of the males of the family. Beautiful soft coat comes from the males, too.

I am considering importing a black in the future, maybe next Fall or Spring, of the same famous black English strain of the male's grandsire from England, the Rydens strain, but as yet don't know if I should get a male or female. Any suggestions here?

I'm determined to get a black that will win at shows and would appreciate any hint or tips on producing another Archibald. Pug breeders all know who I refer to. The grandsire of my dog's grandsire is double grandson of Archie, going back away to about the '50's. Archie sired seven black champion sons and daughters and had other sons and daughters that produced many champion blacks too. One notable was the great stud dog, Rydens Puggy Pug Chippo Champs. Another non-champion son, Sam of Rydens, sired five Champion blacks. Several of Archie's daughters, champion or not, produced champion black offspring. Archie was a superb little dog, shiny jet black, who passed his great qualities down and down the line to grandchildren, great grandchildren. Whether black, silver or fawn his descendants are among the top winning Pugs of today in England, Canada and the United States. There never was a Pug that equalled his superb show and stud record, fawn or black. Mighty Jim beat perhaps Archie's show record, but not his stud record, for while Jim was a great stud as well as show dog, one must consider it takes a superb black to beat a fawn for BB and Archie and his sons and daughter (black) did just that consistently. I still say he was the greatest little Pug that ever lived. He was quality that produced quality.

(MRS.) MARGE JAROCKI

2146 Robinson St., Regina, Sask.

TRIBUTE TO TED WILLIAMS

. . . It is with great sorrow that in writing my first letter to an editor it is to announce the death of one of dogdom's senior and best-known breeders.

On December 30, 1969, after an illness of two months' duration my father, Ed Williams, Ted, as he was known to many dog lovers on both sides of the border, passed away in his 75th year.

Ted's association with dogs began at his birth. He served his apprenticeship with dogs in his father's terrier kennels in his native England.

He emigrated to Canada in 1912 and in 1914 went overseas to France in the Canadian Army where he served for four years. On his return to Canada he bought his first English Bulldog and started to breed and exhibit that breed, using the kennel name of Hulme. He imported many Bulldogs from England — Parkholme Barrister and Son of Smutt, to name two. During the '30's he prepared and handled all breeds professionally.

Twenty-two years ago he bought his first Boxer and Seamwill Kennels was born. Ted imported Boxers from some of America's finest kennels and bloodlines, and thus was established the basis of many kennels in this area of Canada.

For many years he judged all breeds from coast to coast in Canada. Ted was a controversial figure in the dog world and could not be influenced in his decisions. He was honest and forthright and most important, he loved dogs. He was an asset to the dog world and had very few peers.

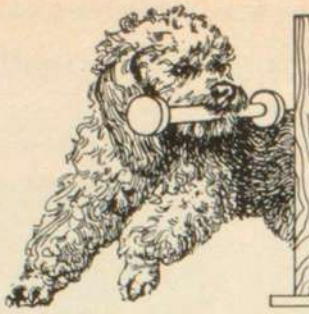
IMPORTANT NOTICE

It has been brought to our attention on several occasions that copies of DOGS IN CANADA have not been received as early as they should have.

Despite the fact that your publishers exert every effort to print and mail the issues in good time, we have absolutely no control once they are out of our hands and in the hands of the post office, over the time of arrival.

"MISLEADING" ADVERTISING

The publishers of *Dogs in Canada* do not assume any responsibility for statements made by breeders in their advertising in this magazine. The onus of responsibility is on the advertiser to refrain from making misleading statements. Should statements made by breeders in their advertisements be proved false and/or misleading, the publishers reserve the right to reject future advertising from such breeders.



TRIALS AND TRIBULATIONS

BY JAKE GIACOMELLI

I'll be glad when the Trials start up again! It seems that at the start of each new year I run a little dry on happenings in Obedience to talk about. When I'm stuck, however, I can always fall back to writing up on a particular exercise in one of the Obedience Classes.

Well! I'm stuck this month! So I think I'll cover an exercise! How about the Broad Jump? As simple as this exercise appears to be, it's amazing how many problems new trainees have or can create for themselves while trying to teach their dogs this exercise; especially so if there's no knowledgeable trainer to guide them through the pitfalls or problems that often arise.

Like all the other exercises, if taken in simple easy stages the problems never arise, and your dog learns to do it very easily. Before we start, I shall assume that you have a complete set of Broad Jumps according to the specifications as outlined in the Regulations & Standards for Obedience Trials. Proper equipment is most important for easier teaching.

STEP NO. 1

Have your dog on his regular training collar attached to your six-foot heeling and training lead.

If you're training a small dog use *one* broad jump board (the smallest one) — if training a large dog use two boards (the largest ones) and place them about two inches apart, *no more.* Please keep in mind we're not interested in distance at the moment, mainly in proper form and also to avoid creating problems.

I cannot stress enough the importance of starting correctly, and also in not rushing your dog into more difficult stages too soon before he has learned each preceding step perfectly.

Place your broad jump in the area you intend to do your training (preferably free of distractions during the early teaching stages.)

With your dog heeling beside you commence your approach to the jump, and then, when you are about 6′ or 8′ away from the jump break into a gentle jog or run, and when about 3′ from the jump say "Fido" (or whatever his name is) to get his attention, then just before you are about to jump this small hurdle, give the command "Over" in a clear and distinct voice. At this point you and the dog should be taking the jump together.

If your dog has taken the jump with you, make a terrific fuss over him — praise him to the high heavens. He may not be sure what's happened to warrant all this praise, but one thing he does know — he can stand more of the same treatment.

Now turn around and go to the jump from the opposite side and go through the approach, jump and *praise* procedure, as outlined above.

At this phase of teaching it's not too important whether you jump the broad jump board from the low to the high side or from the high to the low side. We merely wish to teach the dog to learn to jump in a lateral direction.

As you approach the jump each time, allow the dog to heel freely beside you on a loose lead, thereby allowing him the freedom to take the jump easily on his own as you go over together. If, however, your dog is inclined to step on one of the boards each time you go over, do this. On your third approach as you give the command "Over" and you and your dog are just about to take the jump, give a quick sharp upward snap of the lead to help him clear the jump, then immediately praise him to cover up effects of the correction.

Do not scold your dog in these early stages for stepping on the jump — scolding in the early stages before he has learned what is required of him has a very negative effect and only retards his progress. Repetition and quick sharp correction, instantly followed by ecstatic praise will work wonders.

You *do not* go beyond this part of the training until the dog is taking the jump clearly with you each time you do it.

When your dog is taking the jump clearly each time (and within three days this should be an accomplished fact) commence sidestepping the jump as you give the command "Over" and allow the dog to go over on his own, praise him as you come together again after the jump.

Practice this for about five to ten minutes each night for a week, at the completion of which your dog should be doing it easily and happily.

Remember, no increase of distance — I'll tell you when next month. Easy does it is the answer. □

Jake Giacomelli, 51 Wardrope St. S., Stoney Creek, Ont. is much in demand as an Obedience judge. His wealth of experience in this phase of dogdom, combined with his sense of humor, ensure a lively series.

Telephone (Area Code 617) 775-2905

THE CANADIAN NATIONAL SPORTSMEN'S SHOW IS A NON-PROFIT ORGANIZATION.
ALL PROCEEDS ARE DEVOTED TO THE PRESERVATION OF CANADA'S NATURAL RESOURCES.

NOTICE

From time to time our attention is drawn to the practice of some breeders who, when advertising or otherwise offering dogs for sale, indicate in some way that the purchaser of a dog sold as pure-bred will be required to make a higher, or additional, payment in order to be furnished with a certificate of registration. Such persons should note that the price at which a dog is sold, or the purpose for which a dog was purchased, has no bearing whatever on the obligation of the seller to supply the purchaser with a certificate of registration issued by The Canadian Kennel Club for a dog sold as pure-bred.

The Live Stock Pedigree Act, a federal statute, requires that when a person sells a dog as pure-bred, or contracts to sell a dog as pure-bred, he must furnish, or agree to furnish, a certificate of registration, together with fully-recorded transfer of ownership to the buyer.

Article XXXI, Section 3 of the By-laws of The Canadian Kennel Club reads as follows:

> "A member may be suspended or expelled, or a non-member deprived of the privileges of the Club, if it is proven to the satisfaction of the Board that when selling, or otherwise disposing of a dog for a consideration (monetary or otherwise), the person disposing of the dog has asked or required the new owner to make any form of payment specifically for the purpose of being furnished with a certificate or registration."

To avoid possible prosecution under the Live Stock Pedigree Act and/or possible disciplinary action by The Canadian Kennel Club, members and others engaged in the selling of dogs as pure-bred are cautioned to refrain from the practice of quoting two selling prices for the dogs, one "with papers", the other "without papers", or to in any other way indicate that an additional payment is required for a certificate of registration.

This notice is published by an order of the Board of Directors of The Canadian Kennel Club.

POINTING BREEDS
IN THE FIELD

Several years ago while sitting on the tail gate of a friend's station wagon at a field trial, a keen competitor gave me the following advice, "You are crazy to hunt that bitch of yours. Get yourself a plug for hunting. Make a trial dog out of your good one. You will make a Field Champion out of her."

This autumn while sitting on the tail gate of a friend's station wagon parked in the brush off an old logging road we admired 16 woodcock, one grouse and my bitch who had enjoyed the hunt, the point and the retrieve of the game. She is greying in the muzzle, has had a lot of fun, and given me more than any man deserves. A dozen other men have gunned over her and will long be able to recall for my sentiment some of the moments which will live as long as our memories. These moments I find occur often in field trials but don't last as long in the minds of men. Maybe it's the competitive aspect of trials that dulls the memory. Possibly the gallery doesn't see as well as the friend with the gun as we close in on a point.

There is no doubt that any owner who has a good hunting dog could if he wished make a Field Champion by hard work, money and a singular devotion to the goal. It is even possible for some not so good hunting dogs to accomplish the coveted title given perseverance on the part of the owner.

Some of the famous dogs of the past have been made by perseverance, and the capacity of the owner to never lose sight of the goal. This should not detract from their achievement but instead place it in some perspective of time, competition and economics. Nevertheless, the results of field trials can be trusted in the long run. The gentle lies of men with guns in the autumn are less reliable but more fun.

I did not take the advice at that field trial when my dog was young. Nor would I take it now with her grandchildren. For me a pointing dog means more than papering a wall with ribbons. Maybe I am growing closer in attitude to what a European sportsman asked at another trial in the past. "Where are all the kennels where everyone knew fine hunting dogs were bred? Why have we lost the strains that would provide the sportsman with his hunting dog of a lifetime?"

In late October I was shooting with a good friend and ardent trialer. His dogs are beautifully trained and gave us fine sport. In that day we lost two downed birds as retrieving was not the order of the day. Most trials do not permit birds to be shot and retrieved even for "Versatile Breeds" and never for pointers and setters. It is argued by some that any dog can be force broken to retrieve so it is not necessary to demonstrate this capacity. I have no experience with force breaking. Maybe its fun! I recall losing a wounded bird in 1961.

Nor do I have much experience hunting with plugs. I have owned and bred some. I hope more by accident than design.

One was a fine dog with which to bag birds that you found for her. She was an accomplished pointer, would back a stump and retrieve fairly well once in a while. She disliked water, didn't really trust people, placed six times in field trials and liked to be driven around in the shooting wagon. As long as you put her in a field where there were birds she would show you their exact location. Is that what you want to hunt with? Why should we hunt with second or third stringers and field trial with the top of the line?

At a dog show one time a competitor advised that if my dog had not been hunted he would not be so angular, would not single track and his coat would be nicer as the removal of burrs means some feathering comes out too. Being younger and bolder I launched into a discourse on the "Dual Dog". A swell soliloquy it was too, but neither of us were the wiser for its eloquence. Dog shows are a sport unto themselves and are quite unrelated to woodcock shooting and burr picking.

For fear of retreat into the smug majority of silent hunters let it be said that when in the ring or birdfield do as the Romans do. Take your hunting dog to shows and pit him against the multitude of cocking spaniels and setters from England and Ireland that have been powdered and primped to play their game. Enter your hunting dog in field trials. Lose a lot and win a little. Above all be sure you and your pals really think he is a good one. In shooting over him you may not make him a Champion of Field or Bench. You will, to be sure, have lots to remember in the years to come. Ribbons fade when old Memories improve. □

Wm. McClure breeds Brittany Spaniels, is active in trial activities in Canada and the U.S. He is a member of the Brittany Spaniel Club of Upper New York. Correspondence should be directed to him at Box 15, Manotick, Ont.

MAKE HIM THE SOFTEST TOUCH IN TOWN

WITH BORDEN mirra-coat

Borden Mirra-Coat will help make your dog the softest touch in town, because it contains those essential nutrients your dog needs for healthy, pliable skin and a soft coat. In fact, it works so well it may make the coats of wire-haired breeds **too** soft and silky.

Mirra-Coat is a carefully prepared blend of vitamins, polyunsaturated fatty acids, plus other nutrients essential to good coat condition. Sprinkled over the daily ration, Mirra-Coat will even help stimulate the regrowth of hair over thin or bare spots. As an added benefit, Mirra-Coat has a high palatability to make even finicky eaters enjoy mealtime!

Make your dog the softest touch in town today — call your veterinarian, pet shop, or pet supply dealer for Borden Mirra-Coat. It comes in handy, 1-pound tins, or the new 20-lb. cardboard drum.

Available in handy 1 pound tins. Ask your vet or local pet supply dealer about Mirra-Coat, or contact:

DAVIS & LAWRENCE COMPANY (CANADA) LIMITED

THESE FINE PRODUCTS ARE FAMOUS THE WORLD OVER!

Sole Distributor for Canada:

HUNTER BRAND MFG. LIMITED

95 St. Zotique St. West
Montreal, P.Q.

VETZYME
VITAMIN-RICH YEAST TABLETS

The unsurpassed tonic and conditioner. Protects dogs from many common skin troubles and nervous affections caused by B-vitamin deficient diets. Vetzyme-conditioned dogs are 'Tops' at all Shows too. Sizes: 60 tabs, 120, 600, 2000, 5000, 10,000 tabs. Powder Form — 13¾ oz, 3 lbs, 7 lbs, 13 lbs.

KENADEX
CONCENTRATED EXTRACT

A nourishing food supplement—especially for in-whelp bitches and puppies. Supplies vitamins A and D, fats and protein. Stimulates appetite, aids growth and builds up resistance to disease. Sizes: 3 oz, 7½ oz, 15 oz, 6 lbs.

VETZYME
DRY FOAM SHAMPOO

The best way to shampoo dog during the cold winter months.

CREAM SHAMPOO
IDEAL FOR POODLES

This shampoo has a gentle cleansing action. It is pleasantly perfumed. Give your dog the appearance of a "Champion". Sizes: 4½ oz, 13 oz, 160 oz, 5 gallons.

STRESS THE BALANCED BLEND OF CALCIUM PHOSPHORUS AND OTHER ESSENTIAL MINERALS

Prevents mineral deficiencies. Especially 'Valuable' throughout reproduction, lactation and growth. Sizes: 3 oz, 10 oz, 4 lbs, 7 lbs, 14 lbs.

JDS DOG SHAMPOO

JDS has a gentle cleansing action that is right for *all* types of coat. It guards the natural oils that preserve the hair and it has valuable antiseptic and insecticidal properties. Sizes: 4½ oz, 13 oz, 160 oz, 5 gallons.

ZEMOL
OINTMENT

A most effective remedy for eczema and similar skin troubles, cuts, scratches and minor wounds. Always keep Zemol handy just in case.

ALSO:

"Kitzyme for cats"
"P.Y.M. for birds"
"Phillips fish foods"
"Rabzyme for rabbits and small mammals".

New Dog Journal

A new national dog magazine, simply called *Dogs*, will make its appearance in May of this year on newsstands in the United States. Herm David, a member of the Dog Writers' Association of America and an active writer on doggy matters, is the editor. Herm informs *Dogs in Canada* that one of the objects of the magazine will be to upgrade conditions under which puppies are purveyed to the public and will beam in on some of the retail outlets that care little for health and treatment of the stock they sell.

Longer Quarantine

The strict quarantine period in England for dogs and cats has been extended from six to eight months. Dogs, cats and other feline animals in confinement under the previous six-month waiting period are now being held for an additional two months.

Second Highest Westminster Entry

Despite the fact that entries to the 94th consecutive annual Westminster Kennel Club Dog Show are required to have at least one major point rating to its credit or be a champion and puppies are excluded, this year's entry totals 2,618 dogs of 121 breeds and varieties. This is the largest entry since the 1945 Westminster which drew 2,653 dogs. Fifty-three judges will assess the great show, in which Poodles lead, with an entry of 147 of the three varieties. Miss Anna Katherine Nicholas of White Plains, N.Y., is the Best in Show judge.

Poodles Still Most Popular

Top dog on the popularity list in the United States is still the Poodle, according to a year-end survey by the makers of Ken-L Ration dog food. Remarkably, in this day of apartment-living, the St. Bernard is gaining most rapidly of all. The Saint showed a 28 per cent increase at last report and appears well on the way to cracking

the top ten bracket in 1970.

Next on the way up, the Miniature Schnauzer, to the mixed emotions of breeders, is also climbing. Just 11 years ago this breed ranked 18th in popularity. During 1969 he moved to fifth, displacing the Chihuahua.

While official figures are not quite finalized, the German Shepherd stands second and the Dachshund third. Chihuahuas are now in sixth place. The Pekingese and Collie are challengers for the seventh and eighth places, while the Labrador appears ninth and the Cocker Spaniel again in tenth.

Closing in on the "top ten" are the Basset Hound, St. Bernard, Irish Setter, Shetland Sheepdog, Pomeranian and Doberman following in that order.

Deodorant for Pets

Lovable as they are, some breeds do have an obvious scent. Lambert-Kay has just released a cologne-deodorant called Pet Duet, which has a pleasant, clean-smelling scent. It comes in 5½ ounce aerosol cans and, assures the manufacturer, is safe for direct application to pets.

Another new product, also an aerosol, is called Descent. It's a new and safe de-scenting agent compounded of over 40 ingredients to make it effective against a variety of pet odors, states Lambert-Kay. "Eliminates odors from cat boxes, cages and eliminates skunk odors". If you wish further information write the company at 3628 Crenshaw Blvd., Los Angeles, Calif.

THE OBEDIENCE COUNCIL
of The Canadian Kennel Club extends greetings and best wishes for 1970 — with appreciation to the Obedience representatives, judges and devotees of the sport — for their assistance and unfailing interest during the past two years.

Abe Zvonkin, Mrs. Mary Southcott, Mrs. Betty McHugh, Jake Giacomelli, Mrs. Hilda Pugh.

Thank you! Merci!

I am deeply appreciative of the countless members who went out of their way to support me in the recent election, to all who voted me to the position of President and all who were concerned enough to vote . . .

I am confident that through our common interest we can work closely together for the great good of Canadian dogdom.

(Mrs.) Hilda Pugh

My sincere thanks to the members of The Canadian Kennel Club who showed their interest in the affairs of Canadian dogdom by voting and particularly those who played a part in electing me to serve as 2nd Vice-President.

William (Bill) Dawson

My sincere thanks to the New Brunswick-Prince Edward Island Canadian Kennel Club members who supported me as a candidate for Director in the recent club election. The strong showing of confidence in a new and untried candidate, as indicated by the closeness of the total vote polled, is greatly appreciated.

Congratulations to the successful incumbent, Mrs. Wait, on her re-election and best wishes for her new term of office.

May we now work together in friendly co-operation and support of our elected representative toward the best interests of our club and zone.

CANINE BREED IMPROVEMENT: selection and relationship

Part 9— The selection differential

by LEE FORD, Ph.D.
Genetics Consultant Service
Rt. 1, Box 230, Butler, Ind. 46721

DEFINITION

■ According to Falconer, the selection differential is the difference between the mean of the selected animals and the mean of the population to which they belong. We have briefly discussed it earlier, but now wish to go into a bit more detail.

PROGRESS

Progress by selection depends on the characteristics and the selection differential. This depends on the percentage of the population used in the breeding program, to some extent, and on the size also of the population from which the breeding animals were chosen.

Plans for a selective breeding study must include how to get the maximum results in the shortest time, and what points to give priority.

RATE OF PROGRESS

In animal selection, it was pointed out by Dickerson and Hazel that one rate of advance per unit of time was more important than the rate per generation. This criterion was the one we used in our own research program. The decision had to be made regarding how many litters were possible per year, and the mating of what parents would be used to produce the best results towards the ideal standard. More litters would increase both the selection differential and the interval between generations. The question was at what point would the best selection advance be made? The decision was based on what was possible financially, and the amount of time and energy available for the program.

THE EFFECT OF ONE LITTER

When selecting within litters, more than one litter does not increase the effective size of the sample from each breeding animal selected. It only reduces the percentage selected from the total population. For example, if two were selected from two litters of six each, this would not be equal to selecting two out of 12. Falconer has shown that it makes little difference if one or two litters were raised in selection for weight in mice. How do we interpret this for the complexity of characteristics in a total breed improvement selection program?

LIMITATION

What is the limit of selection? The limit of the power of selection is when all the genic variability in the population has been freed, and all desirable alleles are completely fixed in the population. You have learned enough by now to know that this is highly unlikely to occur, as too many other forces are at work including polygenes. True, you can possibly reach the selection limit for one pair of alleles (pair of genes at the same locus on homologous chromosomes), but even that depends on high heritability.

SELECTION PRESSURE

Selection pressure effectiveness is related directly to the reproductive rate of the population being studied. If all members of the population are used for breeding in order to maintain the population size, then the selection pressure is zero, and there will be no progress beyond that of natural selection. For example, Lerner prepared a table of the relation between reproductive rate and intensity of selection in poultry. Following is a brief quotation from that table, which also applies to dogs.

Quotation: If .01 of animals are used for breeding each generation, and the average number of offspring per animal is 100, the selection differential in standard deviations is 2.67. If the proportion of animals used for breeding in each generation is .05, and the average number of offspring per animal is 20, then the selection differential in standard deviations is 2.06. If the proportion used is .50, average offspring is 2.00, then selection differential in standard deviations is .80. If the proportion of animals used is 1.00, and average number of offspring is 1.00, then selection differential is zero.

POPULATION SIZE

The above refers to a population of constant size. Of course, if a constant reproduction rate is used, then an increase in size of the population results in a reduction in intensity selection. An increased intensity selection would result if the size of the population were reduced.

GENE FREQUENCY

As we have shown in earlier articles of this series, even with a strong selection pressure, the fixing of desired genes and total elimination of bad genes is a long term process. Also, when the frequency of the desired gene in the population has become about as high as possible, then the reproductive rate will no longer act or affect the further progress. For example, early in the breeding program it may be necessary to use both AA and Aa animals for breeding. Later on, with a decrease in gene frequency of the undesired a alleles, only AA animals may possibly be chosen. Thus progress in fixing the genes in the population can be controlled to some extent by intelligent use of genetic concepts.

HERITABILITY

Generally speaking, incomplete heritability will result in a decrease of expected gains no matter what selection pressure is applied to the population. Gains usually are the result of the degree of heritability existing in the trait(s) desired. Never forget that any trait is the result of the heredity plus the environment and the interaction of the two.

A BARRIER

Do not forget also that the dog breeder must select whole animals for his breeding program. He can not pick part of one, part of another. The whole dog, male or female, is used. Thus the barrier to immediate success in breeding is the fact that the breeder must select for more than one trait. The more traits involved, the more difficult the selection. When the dog breeder not only wishes to select for the whole breed standard characteristics, but imposes (as we did in our program) additional stiff requirements as those for a guide dog for children on top of all else, he has a difficult task indeed. Hence the problem of how intense the selection for any one trait shall be.

REFERENCES

By this time the reader will no doubt wish to get into the genetic literature in relation to selection and genetics. We herewith append a short book list which is not intended to be all inclusive, but is intended to open the door for the reader to many happy hours of concentration and thought. These books will lead to many others, and as you read you will learn much. The field of animal breeding is challenging, and we wish all of you the very best of luck. Remember, one of the biggest assets of the practical breeder is chance, just another way of saying luck.

Some Aspects of Canine Behavior

by MICHAEL FOX, Ph.D., B.Vet.Med., M.R.C.V.S.

Second part of a paper presented by Dr. Fox at the 1969 Gaines seminar held in Toronto. Conclusion is scheduled for publication in next month's issue.

■ As a puppy gets older, he explores more and more. In an arena with various exciting stimuli, a flashing red light, a toy pup, a mirror, a rat in a cage, the five week old puppy doesn't explore very much. At eight weeks he's running around and exploring more. At 12 and 16 weeks, he's doing even more; the situation is most arousing. With 15 minutes of activity at each age, for the same puppy, he explored more and more. When we put another littermate in for the first time at 12 weeks of age, he didn't explore at all. He went into a corner of the arena, urinated and defecated, shivered, and seemed to go to sleep, a kind of hypnotic or tonic immobility reaction; he wouldn't explore. The same thing happened at 16 weeks; the first time out of their nice big kennel, where they had lots of human contact, puppies would stay in the corner of the arena and would not explore. We could leave the kennel door open for these puppies, and they would stay inside after 12 weeks. We had produced, experimentally, the "kennelosis" syndrome — we just had a bunch of institutionalized dogs. We proved definitely that if puppies are taken out to explore things just for 15 minutes at five and eight weeks of age, at 12 weeks they will explore everything. But if they are not taken out into a broader environment, into the outside world, until 12 weeks of age, they can be totally institutionalized and very, very hard to bring out of themselves, especially if they are naturally timid.

TIMID DOG

A timid dog who is afraid of any novel stimulus, anything new, will crawl under the kitchen sink and stay there; he doesn't therefore have experiences and he doesn't learn much. He grows up in self-deprived environment as an emotionally unstable thing that withdraws from anything new and exciting. Here we experimentally deprived animals from such experience. Consider this, that human children don't go to school until about five years of age; they don't get much stimulation until then. Learning abilities and the drive to explore are based on increments of prior experience.

If you take in a little bit of experience when you're young, a few weeks later you want more stimulation, and more and more. If you don't have this stimulation early in life, a few years later you have a very low requirement for stimulation. This is what we found in puppies.

We have problems with dogs sent to quarantine in England. People may visit their puppies on weekends during the six month quarantine so that they are well socialized. When they come out of quarantine, some are overcome with a massive fear response of everything new outside. Some timid dogs are ruined for the rest of their lives by this deprivation. You have to use tranquilizers and very careful handling to bring them out of this syndrome.

There is a point to this socialization. Fine, you've had the puppies running around with lots of f r e e d o m, well socialized, and you put them back into the kennels to mature, say at four months of age. At six months they are still friendly towards people, but you find that one or two are shy; they have regressed. They are no longer friendly and don't want to come out of their kennel. The innately more timid dogs, after adequate socialization and experience in a rich environment, can still regress, if they do not receive continued handling, stimulation and environmental experiences.

ISOLATION BEHAVIOR PATTERNS

Dogs raised experimentally in isolation develop rather bizarre behavior patterns. They will pace in circles, and whirl like a dervish; they are very afraid and antisocial. You can stick needles into them and they don't seem to respond to pain at all. Some dogs are more affected than others, indicating some innate nervous typology or genetic susceptibility. Fox Terriers, when placed in isolation until 16 weeks of age, come hopping out of their cages and are hardly fazed a bit, because they are outgoing, spunky little dogs. Beagles, which are innately more timid, just freeze. They go into all kinds of bizarre patterns; their brain waves are distorted, e x c e s s i v e l y aroused. A normal Beagle from a particular strain shows an u n u s u a l reaction called tonic immobility or catatonia (or hypnosis, if you like). You can turn the animal on its side and press down gently, then gently release it, and the animal will remain in that rigid position for several minutes. You can do this with lobsters and rabbits and so on; it is very common in some animals. It is rare in the dog, but is the particular nervous characteristic of this strain.

It would be wise, in your own interest, to do a few behavior tests, as well as just looking at the nice coats and eyes of your dogs. How stable are their temperaments? How do they react under different conditions? Check how you raise the dogs, too. Get school children in during the weekend to romp with the dogs, and socialize, and don't get them over-attached to you. Many women raise dogs, and dogs do become over-attached to women. These dogs make very inferior pets, especially when they grow up and become aggressive towards men or children, because they haven't been around them before. A lot of this is not genetically determined, but is because of lack of experience early in life.

A monkey raised in isolation has nothing to hold onto. Normally, he'll cling to the mother, but in isolation he has nothing else, so he will hold onto himself. Behavior becomes self-directed, to the extent that when he is put with other monkeys later, he can't communicate; he is locked up in himself. He has difficulty in breeding because he is disoriented. He is rather aggressive and afraid of his own species. Imagine this in a domesticated dog who is an innately very timid animal, who doesn't provide himself with any outside stimulation. He is locked inside himself because of his type of nervous system, and overreacts to any new stimulus. To avoid getting overstimulated he seeks a simple environment under your skirt or behind the kitchen sink. This syndrome in the monkey resembles autism, the autistic syndrome in the human infant. Some children for one reason or another (cold, affectionless parents or some neurological disease) become locked up inside themselves and can't communicate.

They show many stereotyped behavior patterns, self-clutching, rocking to and fro as the monkey will do. Severe behavioral pathology, based on some early experience, some early trauma, lack of affection, lack of atten-

continued overleaf

SOME ASPECTS OF CANINE BEHAVIOR

(Continued)

tion, and lack of general environmental stimulation, can be extremely difficult to eradicate.

INDIVIDUAL RECOGNITION

Dogs do respond to models of other dogs; this really surprised me. A young puppy will approach a model or painting of another dog. When they are very young they go to the inguinal area for milk, because the inguinal teats usually continue to produce milk longest. Puppies will run over and check the milk bar. They'll even approach the face and anal regions of the model as they get older, and we see that they normally go to the face of other dogs and also sniff the anal area: this anal region is where important scent glands are, and are possibly used for individual recognition. Adults also go to the inguinal area. When a puppy is touched in this area, he remains quite still. He may be running around happily; you just touch him there and he will stop. Why does he remain still? Because from birth onward, he cannot urinate by himself and the dam stimulates him, and cleans up all the urine and feces at first and in so doing touches the inguinal area. Even when the puppies are quite old, when they can e l i m i n a t e by themselves, the mother will still come over and clean them, and they remain quite still.

This pattern we see in adult dogs, too. One dog circles another and then pushes at the inguinal fold of the other with his nose. He is not primarily going to sniff the genitals of the other dog; he'll do it to a female too, or two females will do it to each other. This is the equivalent of canine handshaking. One will offer his inguinal area as you would offer your hand, and usually the more dominant, aggressive dog will push his nose into the inguinal area. This approach might have been derived from getting food from the mother; we're not sure. We do know that remaining still when the area is touched derives from remaining still when the mother cleans the puppy. This persists as a social response in dogs and in other canids (wolves, coyotes, and grey foxes), too.

At a dog show, everyone is touching the dogs around the inguinal area, not only to position the hind legs, but just to keep the dog quiet. Dogs are inhibited with this inguinal contact. I tried this with my own dog and he often will roll over. My wolves will approach me, and they arch their backs in a funny way and bring the hips around and present the inguinal region, and they often will urinate submissively. Apropos of the eye contact mentioned earlier *(January issue)*, a submissive dog avoids eye contact. If you really stare him down, he will flop over on his side, and present his inguinal area, then urinate for you, most submissively.

At a dog show, most people are not aware of the behavioral importance of this inguinal contact, they just do it because it works well in inhibiting the dog. But if you try to handle an aggressive dog in the inguinal region, especially a dog on his own territory, he will not usually allow it. He will attack you very rapidly. Another way we have found of dominating more aggressive dogs is to muzzle them, or to shake the scruff of the neck. These are the areas where they normally attach each other. However, you have to have a pretty friendly dog to allow inguinal contact to be made, either by a human being or by another dog.

In grey foxes, after they have been fighting, as an appeasement gesture or a special social signal, they will raise the hind leg to each other. My adults do it to me from a distance when they see me coming. They cock their one hind leg up, not to urinate, but as a more extreme signal comparable to the response you see in the dog. We've dealt with an interesting bit of animal behavior derived from maternal care. In a little coyote running at home, this inguinal response was so potent that he'd get hooked up on a table leg and just freeze there. At about four weeks, coyotes would do this, responding to a non-specific stimulus; later it became specific, whenever they touched each other there, or when I touched them they would respond, but when they brushed against the table leg, they didn't get hooked up any more.

I see similar behavior in puppies, but it is not so intense.

PRENATAL INFLUENCE

In the fetal puppy, with connection to the mother by the placenta, certain hormones, corticosteroids, may get across from the mother and affect the developing fetus. This has been proven in rats and mice. If you make a rat very emotionally disturbed d u r i n g pregnancy, her offspring will be more emotional. Take a pregnant rat which is pretty wild and handle her, gentle her, make her docile, and her offspring will be more docile. These are remarkable findings! As a result of hormones you can have prenatal influence on the offspring's behavior. The practical implications of this have not yet been proven in the dog, but is a placental mammal, so the mechanism may undoubtedly work. You should avoid undue stress, especially during the last three weeks of pregnancy in a bitch. Putting her in strange whelping quarters where she is afraid or alone, might affect the puppies. By cross-fostering the offspring onto non-handled rats, it was conclusively proved that the influences were indeed prenatal.

Post-natal transfer of behavior is important. If the bitch gets hysterical every time strangers come in and she treads all over her puppies and they get squashed, when they see people coming they'll eventually retreat and become afraid of people; it's simple conditioning. To avoid such post-natal transfer, you have to wean early; you can wean a puppy effectively at three weeks of age. It is fairly trite advice, but many people don't do it.

In summary, we have reviewed briefly a few behavioral patterns in dogs, and shown their evolution in various wild canids. I've thrown out some practical information on the socialization process in the domesticated dog, based on rigorous research.

(Conclusion to appear in March)

Osteochondritis dissecans as cause of shoulder lameness

Sudden fore limb lameness in the juvenile dog of the larger breeds may be a manifestation of osteochondritis dissecans, an increasingly diagnosed condition of the shoulder joint.

The disease has been reported as occurring most frequently in large and giant breeds between the ages of five and 12 months, a time at which the skeletal system is most susceptible to injury. A typical history of lameness after strenuous exercise or sudden stops in front of fences, and in connection with training or jumping is common.

The symptoms of lameness, refusal to use the affected limb, painful resistance to full extension of the fore limb and atrophy of the shoulder muscles are common findings. These symptoms are the result of an injury to the subchrondral bone and cartilage of the shoulder joint. Pathologically, these lesions are seen as a bone necrosis of the central portion of the humeral articular surface with discoid plaques of cartilage at the site of injury.

A diagnosis of osteochrondritis dissecans is most often made by the clinical symptoms of shoulder lameness after strenuous exercise. Radiographic diagnosis is helpful in severe or long standing cases, but in the acute stage lesions may not be apparent radiographically.

Fortunately, most dogs afflicted with osteochondritis dissecans will make a functional recovery with rest and restricted exercise. Some veterinarians have used intra-articular injections of steroids to shorten the recovery period. More persistent cases of the disease may require surgical intervention to remove the bony lesion or pieces of detached cartilage within the joint capsule.

Although osteochondritis dissecans is more prevalent in some breeds and in some lines than others, breeders, trainers and large dog fanciers can help prevent this condition by exercising judgment in the amount of exercise a juvenile is allowed during this critical period of his development.

TEETH ARE FOR BITING

Groups 1 and 2

by H. MALCOLM STEPHENS
Drawings by Margaret Armstrong

■ If one were to make the general statement that all gundogs and hounds have the same or very similar mouths, it is most unlikely that any dog person would disagree. With this premise it is reasonable to expect that the breed Standards for the 46 breeds in these two groups would contain very similar words to describe the teeth and bite of these breeds. Such is not the case. Fourteen breeds have no mention either of bite or teeth in their Standards. These dogs definitely have teeth which are essential to the purpose for which the breeds were originally developed.

Let us look at what some of the Standards for the remaining 32 breeds have to say about both teeth and bite. Those familiar with the Dachshund Standard are aware that it says everything three times so for the sake of brevity we will skip the Dachshund with its scissors bite and strong canines.

The most complicated statement about teeth is to be found in the Afghan Standard which says:
". . . . *the underjaw showing great strength, the jaws long and punishing; the mouth level, meaning that the teeth from the upper and lower jaw match evenly, neither overshot nor undershot. This is a difficult mouth to breed. A scissors bite is even more punishing and can be more easily bred into a dog than a level mouth, and a dog having a scissors bite, where the lower teeth slip inside and rest against the teeth of the upper jaw, should not be penalized*".

Teeth in all of the foregoing quote relates only to the incisors or six front teeth top and bottom. No mention is made of the other 30 teeth in the adult dog. The use of the word LEVEL in this Standard as in all the breed Standards in Groups 1 and 2 refers to the upper incisors meeting the lower incisors in opposition. This contrasts with the use of the same word in some Standards in other groups to mean level in a transverse direction. (e.g. Chow).

The English Springer Standard avoids this confusion by using the word EVEN in the same sense as the Afghan uses the word LEVEL. Life would be much more simple if all breed Standards used the one word for one thing and the other word for the other.

Quite clear, if somewhat verbose, wordings are to be found in the Standards for the German Shorthaired Pointer, the American Cocker, the English Springer, the Weimaraner and the Afghan. The best of these is the American Cocker which says:
"The teeth should be sound and regular and set at right angles to their respective jaws. The relation of the upper teeth to the lower should be that of a scissors, with the inner surface of the upper in contact with the outer surface of the lower when the jaws are closed."

This description brings in soundness and provides the teeth shall be regular (even). It also provides that they shall be at right angles to the jaws (i.e. not twisted). Again the words seem to be restricted to the incisors but may include the canines in the provision that they shall be at right angles to the jaw. Twisted canines appear from time to time in certain lines. On occasions when the lower jaw is short the dog will compensate for this by inclining the lower incisors forward as does the pig. This is the meaning of the term pig-jaw.

The Weimaraner Standard adds the provision that complete dentition is greatly to be desired. Breed Standards in most if not all of the English speaking countries are for the most part very casual about this. In contrast the Osterreicher Kynologenverband Unsere Hunde, the governing kennel club in Austria, has a rule that no dog shall receive an award at a show unless he has complete dentition. When missing teeth occur, the most frequent are the first two premolars in the lower jaw. In view of the frequency of this occurrence, should we not have a rule similar to that which the Austrians seem to find satisfactory?

For complete confusion we suggest the comments about teeth in the Standard for the Novia Scotia Duck Tolling Retriever, which says:
"Lower side teeth fit inside upper side teeth".

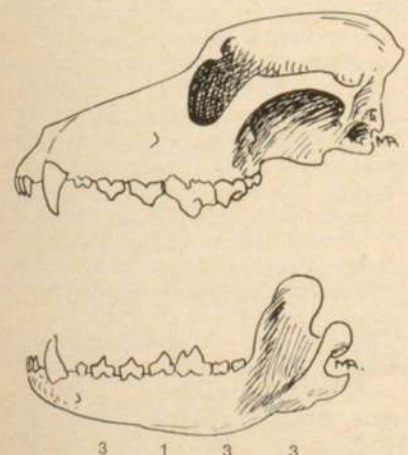
Since most dogs have scissors bites, on first reading one might assume that this is another way of asking for a scissors bite. This assumption is helped by the origin of the breed in a maritime community where the upper deck is above the lower deck. If, when reading, the eye fastens on the word side in the above quotation then we have the lower molars and premolars coming inside the upper molars and premolars and the poor dog cannot chew his meat.

Several of the Standards name overshot or undershot jaws as a fault. The Whippet Standard goes one step farther and provides that undershot jaws shall be a disqualification. The Basset Standard used the term UNDERHUNG for undershot.

WHAT ARE TEETH AND HOW ARE THEY LOCATED IN THE JAWS OF THE NORMAL DOG THAT ALL OF THE ABOVE CONFUSION SHALL HAVE ARISEN?

Teeth are highly specialized structures which serve as weapons of offense and defense. Their soundness is essential to the well-being of the unpampered dog. They also serve for the procuring, cutting and crushing of food. Each tooth has three parts. The crown is the exposed part which protrudes above the gums and is covered with shiny white enamel. The Vizsla Standard is one of the few to mention the necessity for this enamel. The neck is

continued overleaf



$2 \times (I\frac{3}{3} + C\frac{1}{1} + P\frac{3}{4} + M\frac{3}{3}) = 42$
COMPLETE DENTITION — UPPER AND LOWER JAWS

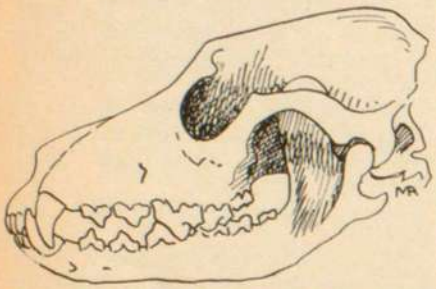
C — OVERSHOT BITE

B — UNDERSHOT BITE
D — LEVEL or EVEN BITE

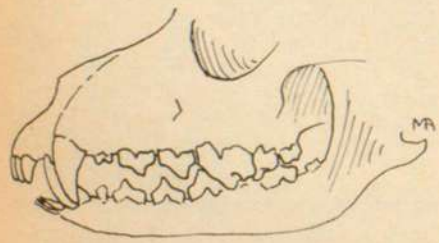
TEETH ARE FOR BITING *(Continued)*

a slight constriction of the tooth located at the gum line, where the enamel ends. The root is the portion below the gum and for the most part is embedded in that portion of the jaw known as the alveolar process. Many teeth have more than one root. Once



MISSING PREMOLAR — Only first upper and lower premolars are shown as missing. In some dogs, the first two or three premolars may be missing.

the teeth in the dog are fully erupted they cease growing. Because of the increased use and greater dependence on teeth which comes about through growth, two sets are necessary. The first set is fully erupted and functioning early in the second month after birth. These are known as the deciduous or puppy teeth. They are 28 in number in contrast with the 42 in the adult dog. As the dog grows the jaws become longer and larger and the small deciduous teeth cease to be adequate. They are shed and immediately replaced by the permanent or adult teeth. In the case of the canines the permanent teeth frequently appear before the puppy teeth are shed. This may provide a problem and the persistent puppy teeth may have to be removed. As the jaws continue to grow additional permanent teeth are added to both the upper and lower jaw to the rear of the



PIG JAW — Note how the lower incisors are inclined forward to approximate a scissors bite.

teeth which have appeared earlier, two on each side of the upper jaw and three on each side of the lower jaw.

The teeth of the dog can be indicated by the dental formula

$$2 \times \left(I\frac{3}{3}\ C\frac{1}{1}\ P\frac{3}{4}\ M\frac{3}{3}\right) = 42.$$

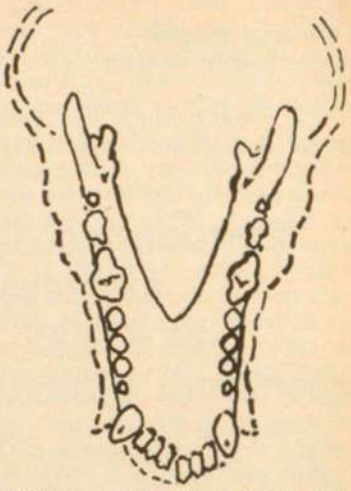
The puppy or deciduous teeth can be described with the dental formula

$$2 \times \left(DI\frac{3}{3}\ DC\frac{1}{1}\ DP\frac{3}{3}\right) = 28.$$

This is a device for writing that the teeth on each side of the mouth consist of three incisors upper and lower for a total of six top and bottom or twelve in all. These are followed by a single canine tooth upper and lower on each side. Next come three premolars on the top and four premolars on the bottom. This same device can be used to describe the dentition in any animal.

If one looks at the illustration of the side teeth or cheek teeth it is quite noticeable how the premolars and molars in the upper jaw meet the spaces between the similar teeth in the lower jaw. This enables the dog to tear his meat into chunks for easy swallowing. A dog eats by bolting his food and does not need to chew each bite several times before swallowing. Looking at the same illustration the largest cheek tooth in the upper jaw is the fourth premolar while the largest in the lower is the first molar. An additional point of interest in the same illustration is the great curve in the root of the canine. Every breeder should be aware of the shape of this tooth. When the puppy canine fails to drop after the adult tooth emerges it frequently can be persuaded to come out by pushing it to the rear along the line of the jaw. If it fails to come with a moderate push the pup should be taken to your veterinarian who should have a suitable instrument for removing the puppy tooth by very simple surgery.

The other illustrations show overshot and undershot jaws. These are self explanatory. The illustration of a pig jaw is worthy of attention. Here the lower jaw is short and the incisors meet in what might be called a scissors bite by virtue of stretching forward to touch the inner edges of the upper incisors. This is not a good mouth in any breed. The illustration showing uneven incisors represents a condition fre-



WRY MOUTH — Looking at lower jaw from above, notice right side of jaw is shorter than the left. This causes incisors to turn to right as does the canine. Because of the smaller bone structure on the right there may also be some upward tipping. Result is twisted or wry lower jaw. Dotted lines indicate position of upper jaw.

quently found. The wry mouth results from a twist in the lower jaw bone rather than teeth of unequal size or shape.

On some future occasion we hope to discuss the teeth in the breeds in some other groups. □

From Hockey to Dogs

Connie Blake describes how this happened at the Kitchener-Waterloo KC shows

Photos by Willey & Clarke

■ Go, Rangers, Go!! This was the sound emitting from the Kitchener Memorial Auditorium as late as 11:00 p.m. on November 14, 1969. Only the tardiest of the usual Friday night Ranger hockey fans were aware of the tremendous bustle of activity that began almost as soon as the buzzer sounded to end the third period!

The busy-ness of saws and hammers echoed through the caverns of the mountainous rafters, far from the distant floor where men were working with a fury to remove the ice, boarding and glass, and set up the benching that tomorrow would hold the 842 dogs that would be settled here for the next two days.

The Kitchener-Waterloo Kennel Club is proud of its facilities for its Annual Championship Dog Shows. Our Auditorium is unquestionably the finest home of any dog show in Ontario (if not Canada!) . . . But Madison Square Garden she's not! . . . and on November 15 and 16, this magnificent building was groaning. Never did we dream of an entry of 706 dogs on Saturday and 725 on Sunday! Now . . . where to put them? Our benching committee worked many hours with blueprints, pencils, and erasers and finally came up with a plan but when the exhibitors began to arrive on the morning of the 15th, they were still working frantically to finish the new section of benching which had been built in the last few days to hold the extra dogs.

We made it! All dogs were benched and, although some of the large dogs were a little short of space, complaints were few. Our exhibitors were wonderfully cooperative and an air of excitement and friendliness pervaded.

To all our exhibitors goes our sin-

NOTICE

SUBJECT: AMENDMENTS TO THE BY-LAWS OF THE CANADIAN KENNEL CLUB

The following amendments to the By-laws of The Canadian Kennel Club received the approval of the Minister of Agriculture for Canada on December 10, 1969, and became effective on that date.

Subsection (1) of Section 1 of Article VII of the By-laws is rescinded and the following has been substituted therefor:

(1) ORDINARY MEMBERS -- Ordinary members shall be those persons, exhibitions, fair associations, partnerships, or companies incorporated under Dominion or Provincial charter and resident in Canada, and who have been associate members in the three years immediately prior to the payment of the ordinary membership fee. A formal application for ordinary membership is not required. Notwithstanding the provisions of these By-laws, an ordinary member in good standing as at the time of the enactment of this section shall be eligible to continue as an ordinary member.

Section 3 of Article VII of the By-laws is rescinded and the following has been substituted therefor:

3. APPLICATION FOR ASSOCIATE or NON-RESIDENT MEMBERSHIP. An application for associate or non-resident membership shall be in writing and in such form as the Board may from time to time prescribe and be signed by the applicant and in the case of a partnership or company the applicant shall specify the authorized representative of such partnership or company. Any privileges accorded an applicant for associate or non-resident membership, pending consideration of the application, shall not obligate the Board to approve the application, and any privileges so accorded may be revoked by the Board in the event the application is not approved.

NOTICE

The following person, having complied with the requirements of The Canadian Kennel Club, is eligible to judge at licensed obedience trials held under C.K.C. rules, the Class listed after his name:

WARD, Howard, R.R. #1, Mount Hope, Ont.
Novice, Open, Utility.

The following person, having complied with the requirements of The Canadian Kennel Club, is eligible to judge at ONE licensed obedience trial held under C.K.C. rules, the Classes listed after her name:

SAUNDERS, Mrs. Barbara, 542 Barnaby St., Hamilton 31, Ont.
Novice, Open, Utility.

NOTICE

Applications for priority rights on dates have been received from the clubs noted hereunder. Any club or association wishing to register an objection to any of these applications may write direct to: The Secretary, The Canadian Kennel Club, 1173 Bay St., Toronto 5, Ont. Objections must reach the Club not later than March 31, 1970.

The regular meeting of the Board of Directors of The Canadian Kennel Club which commenced on November 26, 1969, reconvened in the Club's offices, 1173 Bay Street, Toronto, Ontario, on Thursday, December 11, 1969, at 10.15 a.m.

Present at this reconvened meeting (except where otherwise indicated): Robert L. Blyth, Walter Brown, Fred A. Carter, Donald H. Duff, Mrs. Hilda F. Pugh, Dr. F. George Walker.

Chairman (except where otherwise indicated): Walter Brown.
President

was intended to provide a ready means of identification when dogs, previously unknown to the importer, are exported to Canada.

Moved by Mr. Blyth, seconded by Mr. Duff:

"THAT, in this case, as the four dogs are already registered with The Kennel Club (England) and are owned by the person bringing them to Canada, tattooing prior to export is not necessary."

FOR THE MOTION: All present except Mr. Carter (absent), Dr. Walker (absent). Motion carried.

9 A 13. **OFFICE PREMISES**

REPORT: The Secretary reported that the signing officers of the Club had signed, on behalf of the Club, a document providing for the inclusion in the Club's lease on its present head office premises, a demolition clause whereby Manufacturers Life Insurance Co., lessors of the premises, may give the Club six months notice to vacate the premises, and in return a cheque for $50,000 had been received and deposited in the Club's bank account at the Bloor and Bay Sts. branch of the Bank of Montreal.

During a discussion which followed it was agreed that:

(1) on the agenda of the first meeting of the new Board the Secretary would report this receipt of the $50,000 in order that the Board may then decide whether this money should be invested, or placed in an interest-bearing bank account, or be held for future temporary use when the Secretary tables an analysis of future cash requirements;

(2) when, as previously decided, the $50,000 is included in the statement of the Surplus Account, in the financial statements for 1969, there would be an indication that this had been reserved towards future costs of housing the Club's office.

Moved by Mr. Duff, seconded by Mrs. Pugh:

"THAT, we endeavour to reduce the bank loan as far as possible before the end of December."

FOR THE MOTION: All present except Mr. Brown (abstained), Mr. Carter (absent), Dr. Walker (absent). Motion carried.

11 D 70. **INTERPRETATIONS**

SUBJECT: A letter (dated November 23rd) from the Burlington Kennel & Obedience Club seeking guidance as to the responsibility of show-giving clubs in implementing the new Dog Show Rule which provides that any person whose handler's license is under suspension in any country is not eligible, during the period of such suspension, to handle at championship shows held under C.K.C. rules, a dog owned by another person or persons.

It was agreed that it is not the responsibility of the show-giving club to implement this rule; rather it is the responsibility of the owner of a dog, when turning his dog over to a handler, to ensure that the handler is not a person ineligible to handle dogs according to this rule.

7 R 25. **REGISTRATION COMMITTEE**

A report on decision reached by the Registration Committee.

Moved by Mr. Blyth, seconded by Mr. Duff:

"THAT, the report of the Registration Committee be received and incorporated in the minutes of this meeting."

FOR THE MOTION: All present except Mr. Carter (absent), Dr. Walker (absent). Motion carried.

11 D 1. **JUDGES**

SUBJECT: A letter from Mrs. Antonia Greenwood, who had established eligibility to judge an entire Group at one championship show, requesting that arrangements be made for her to take written and oral examinations under the old system, for an additional Group.

A discussion followed on the question of whether or not the Board intended, when adopting a new system which came into effect on July 1, 1969, that the old system would only apply to those who had already submitted an application which had not yet been fully processed.

Moved by Mr. Blyth, seconded by Mr. Duff:

"THAT, we poll the current Board and the Secretary place a report on the poll before the annual meeting of the Board in order that it may then rule on an interpretation of section 5 of the policies and requirements under the present system."

FOR THE MOTION: All present except Mr. Carter (absent), Dr. Walker (absent). Motion carried.

*****

SUBJECT: The application of the Ontario County Kennel Club for approval of Mr. Stanley Dangerfield, England, to judge all breeds in Groups #2 and #4 at its championship show to be held on June 13, 1970, and the same Club's application for approval of Mr. Dangerfield to judge all breeds in Groups #5 and #6 at its championship show to be held on June 14, 1970.

Moved by Mrs. Pugh, seconded by Mr. Duff:

"THAT, without prejudice to any future policy which the Board may approve, Mr. Stanley Dangerfield be approved to judge all breeds in Groups #2 and #4 at the Ontario County Kennel Club championship show to be held on June 13, 1970, and all breeds in Groups #5 and #6 at the same Club's championship show on June 14, 1970."

FOR THE MOTION: All present except Mr. Blyth (against), Mr. Carter (absent), Dr. Walker (absent). Motion carried.

— Luncheon recess

The meeting resumed after the luncheon recess with the President in the Chair, and the following members of the Board present: Robert L. Blyth, Fred A. Carter, Donald H. Duff, Mrs. Hilda F. Pugh, Dr. F. George Walker.

5 F 3. **PROJECT CANDOR**

— Mr. Eric Gale, Project Manager, entered the meeting.

REPORT: Dr. F. George Walker, Chairman of the Project Candor Committee:

(1) reported that new applications for registration of litter forms had been printed, one side being in English, the reverse side in French;

(2) reported that the statistical data furnished members of the Board as to applications which had been processed included statistics on the certificates issued for "Exports", figures which Dr. Walker pointed out included applications processed for dogs being registered by residents of the United States;

(3) reported that a very considerable [illegible]

(5) reported that members of the Board had been provided with a copy of the minutes of a meeting held on November 25th by the Project Candor Committee;
(6) drew attention to the Committee's recommendation that a petty cash operating fund in the amount of $250 be established;
(7) drew attention to that section of the report reading "The Project Manager reported that the 'de-bugging' of the computer system was proceeding according to plan and that the target date for completion of January 1, 1970 was still realistic";
(8) reported that Miss May McClymont, the Club's acting Registrar at the Live Stock Records office, had been of tremendous help at the registration office; however, she would be returning to Ottawa on December 12th.

During a discussion which followed it was pointed out that a few members make it a practice to send a substantial deposit to the registration office against which they draw when they submit applications without accompanying fees, and it was suggested that these members should be furnished with a statement showing the standing of their accounts.
Moved by Mr. Duff, seconded by Mr. Carter:
"THAT, a form letter be employed and be addressed to each member with a deposit account, informing him of his credit balance as at the time of the take-over from the Canadian National Live Stock Records."
FOR THE MOTION: All present. Motion carried.
Moved by Dr. Walker, seconded by Mr. Blyth:
"THAT, a petty cash operating fund of $250 in the name of the Registrar be provided by the Secretary-Treasurer."
FOR THE MOTION: All present. Motion carried.
Moved by Mr. Blyth, seconded by Mr. Duff:
"THAT, the Committee's report be received as progress."
FOR THE MOTION: All present. Motion carried.

*****

The Secretary read a letter (dated December 3rd) from Mr. David S. Robertson, Kamloops, B.C. regarding the delays in issuing certificates for dogs on which he had submitted applications. It was agreed that the letter would be referred to the Project Manager, who would reply to Mr. Robertson's letter.

Dr. Walker suggested, and it was agreed, that the matter of an honorarium to Miss McClymont would be placed on the agenda of the annual meeting of the Board.

— Mr. Gale left the meeting.

12 OB 11. INTERPRETATIONS
SUBJECT: A letter (dated December 5th) from the North York Obedience Club inquiring whether it is permissible for equipment used in obedience jumps to be identified by the name (or initials) of the club owning the equipment, and numerals indicating sets, if the club owns more than one set.

It was agreed that there is no objection to practice sets of equipment being identified in some inconspicuous spot that cannot be observed by the general public, but there must not be any marking on sets used at licensed trials other than those markings allowed by the Obedience Trial Regulations and Standards.

5 F 3. PROJECT CANDOR
SUBJECT: A letter (dated December 10th) from the Club's solicitor, who:
(1) reported that on December 9th he had been informed that it was the intention of Mr. Sless to abandon the motion for an interim injunction restraining The Canadian Kennel Club, its officers and directors from transferring the records of pedigree from the Canadian National Live Stock Records office in Ottawa to Toronto;
(2) reported that the motion came on for hearing before the Honourable Mr. Justice Stark on December 10th;
(3) enclosed copy of an order he had prepared that would be entered if approved by the plaintiff's solicitors, the order being for a dismissal of the action with costs payable by the plaintiff to the defendant after taxation thereof;
(4) reported that there had been a suggestion made to him that the plaintiff would be prepared to settle the question of costs at this stage without the necessity of a formal taxation of the bill of costs which could not be completed until some time in April;
(5) provided details of probable costs.

Moved by Dr. Walker, seconded by Mr. Blyth:
"THAT, Mr. Watson be authorized to settle for the highest figure obtainable the question of costs without the necessity of a formal taxation of bill of costs."
FOR THE MOTION: All present. Motion carried.

11 D 25 DATES
SUBJECT:
(1) The Secretary reported that on November 5th approval was granted the application of the German Shepherd Dog Club of B.C. to hold a specialty show on May 9, 1970.
(2) The Secretary reported that on November 21st applications were received from the Vancouver Island Dog Fanciers' Association seeking permission to hold championship shows on May 8th and 9th, 1970.
(3) The Secretary read a letter (dated November 18th) from the Show Secretary of the Vancouver Island Dog Fanciers' Association.

Moved by Mr. Carter, seconded by Dr. Walker:
"THAT, in view of the fact that the application from the German Shepherd Dog Club of B.C. was received considerably earlier than the application from the Vancouver Island Dog Fanciers' Association, the approval granted the application of the German Shepherd Dog Club of B.C. stand as granted, and that it be suggested to the Vancouver Island Dog Fanciers' Association that it consult with the German Shepherd Dog Club of B.C. about the possibility of the Specialty Show being held in conjunction with their proposed show."
FOR THE MOTION: All present except Mr. Brown (absent). Motion carried.
— Mr. Blyth in the Chair

11 D 1. JUDGES
SUBJECT: A night letter from the Conception Bay Kennel Club of Newfoundland inquiring whether Mr. Stanley Dangerfield is eligible to judge all breeds at a championship show held under C.K.C. rules.

Mr. Duff reported that this information was sought in order that the Club in question may proceed with selection of judges for shows to be held in 1970.
Moved by Dr. Walker, seconded by Mrs. Pugh:
"THAT, without prejudice to any future policy which may be set, the Conception Bay Kennel Club be informed that approval will be granted Mr. Stanley Dangerfield to judge all breeds at one of their forthcoming shows to be held in 1970."
FOR THE MOTION. All present. Motion carried.
— The President in the Chair

IMPORTANT NOTICE

SUBJECT: Registration of imported dogs

On March 3rd, 1969, the following addition to the By-laws of The Canadian Kennel Club received the approval of the Minister of Agriculture for Canada and became effective on that date:

If an imported dog was part of a single shipment which included two or more dogs of the same breed and sex, then notwithstanding the provisions of these By-laws the dogs included in the shipment are not eligible for registration in the Club's records unless:

(1) before each dog was exported to Canada it was tattoo marked in accordance with the provisions of Article XXVII of these By-laws;

(2) the record of such tattoo markings appears on the certificate of registration (or export certificate) issued by a recognized Kennel Club or Stud Book in the country from which the dogs were exported to Canada;

(3) each dog in the shipment was accompanied by its certificate of registration or export certificate.

11 D 25. DATES
REPORT: The Secretary's report that:
(1) on November 12th approval had been granted the applications of the Cape Breton Kennel Club to hold championship shows on August 29th and 30th, 1970;
(2) on November 19th applications had been received from the New Brunswick Kennel Club to hold championship shows on August 30th-31st, September 1st-2nd, 1970;
(3) the following dates had already been granted to the New Brunswick Kennel Club: April 4th-5th, and November 7th-8th, 1970.

Moved by Dr. Walker, seconded by Mr. Blyth:
"THAT, the New Brunswick Kennel Club be informed that its application for permission to hold a championship show on August 30, 1970 is not approved, but that it be granted approval on its applications to hold championship shows on August 31st, September 1st and 2nd."
FOR THE MOTION: All present. Motion carried.

It was agreed that the Secretary would advise the New Brunswick Kennel Club that the Cape Breton Kennel Club, by prior application, has been granted the dates of August 29th and 30th, and would also advise that the dates of September 5th and 7th are held by the Conception Bay Kennel Club on a priority basis.

*****

SUBJECT: The Secretary reported that letters had been received from a number of clubs commenting on or criticising the action of the Board in permitting simultaneous championship shows in 1970 at Kars, Ontario, and Windsor, Ontario.

It was agreed that these letters would be referred to the annual meeting of the Board at which time the letters could be considered when the Board considers the possibility of setting a policy regarding the distance between simultaneous championship shows or trials.

14 G 27. LICENSING OF DOGS AND KENNELS
SUBJECT: A letter (dated November 6th) from the Club's solicitor reporting on the results of his representations regarding the enactment of legislation dealing with the issuance of kennel licenses in the Township of Vaughan (Ontario), and the solicitor's detailed statement of account (totalling $381.50) in respect of his services and costs in implementing the instructions of the Board.
Moved by Mrs. Pugh, seconded by Mr. Duff:
"THAT, the solicitor's account be paid."
FOR THE MOTION: All present. Motion carried.

13 FT 29. FIELD TRIALS FOR BEAGLES
SUBJECT: The applications of the York County Beagle Club seeking permission to hold licensed field trials for Beagles on August 29th and 30th, 1970, and September 19th and 20th, 1970, and an accompanying letter (dated December 8th) seeking permission to hold these trials "for small Pack on Cotton-tail Rabbits"

The Secretary reported that although such trials are now provided for in the United States, the current rules of the Club provide for pack trials on hare, and he had suggested to those who had discussed the matters with him that those interested in small pack trials submit their proposals for the consideration of the Field Trial Council for Beagles and ultimately for the Board of Directors.
Moved by Mr. Blyth, seconded by Mrs. Pugh:
"THAT, the York County Beagle Club be informed that approval cannot be granted at this time for the holding of a licensed trial for small pack on cottontail rabbits, nor can such approval be granted unless and until such time as the Field Trial Rules for Beagle field trials have been amended to provide for this type of trial; however, if submissions are received here with a view to proposing changes in the rules along that line, these will be referred to the Field Trial Council for Beagles for its consideration and report to the Board."
FOR THE MOTION: All present. Motion carried.

9 A 14. REPORT OF EXECUTIVE MANAGER
SUBJECT: The Executive Manager sought the Board's instruction with regard to Christmas bonuses in respect of the staff in the Registration Division.
Moved by Mrs. Pugh, seconded by Mr. Blyth:
"THAT, our policy with regard to Christmas bonuses apply to those members of the Registration Division staff who are now considered permanent employees."
FOR THE MOTION: All present except Mr. Duff (absent). Motion carried.

ADJOURNMENT
At 5:25 p.m. this meeting of the Board adjourned.

BIS Saturday, the Standard Poodle Ch. Monfret Shadracha.

Denzil's Mister Successful was just that both days, going BCB in Show. Pictured here with Judge Mrs. Jean Fletcher.

Pronk Von Der Eringsburg took BIS on Sunday under Mrs. Fletcher.

cere appreciation. You made our show the classic success that it was! We thank you!

Our judges did two BIG days work and our hats are off to them! From British Columbia we welcomed Mr. Ken Rickman, Mrs. Ena Stewart and Mrs. Jean Fletcher who came to our rescue when our scheduled judge, Mr. Ken Given, was taken suddenly ill. Miss Marjorie Siebern came to us from New York and Mrs. Yan Paul of Willowdale judged the Puppy Sweepstake.

Judge Ken Rickman selected Runwyre Resurrected as BCBP in Show, handled by owner Mrs. Pamela Running.

On Saturday Mr. Rickman did all Specials and awarded Best In Show to the Standard Poodle, Ch. Monfret Shadracha, owned by Mr. Donald O'Brien. Best Canadian Bred went to American Cocker Denzil's Mister Successful owned by Mr. D. W. Thorpe and Best Canadian Bred Puppy was the Wire Fox Terrier, Runwyre Resurrected, owned by Pamela Running.

On Sunday Mrs. Jean Fletcher judged all Specials. Best In Show went to German Shepherd Pronk Von Der Eringsburg owned by Harry and Tilly Watson. Best Canadian Bred again went to Mr. Thorpe's Cocker Denzil's Mister Successful and Best Canadian Bred Puppy was won by the Miniature Longhaired Dachshund Vondixoner Stardach Jody, owned by Mr. and Mrs. F. Gordon Hooper.

Mrs. Yan Paul had the formidable task of judging the 110 puppies entered in the Puppy Sweepstake and Mrs. Joey Nattrass judged the Junior Handlers and gave the kids many helpful pointers on the handling of show dogs.

There was a record attendance of close to 4,000 spectators during the two days of the show, all of whom were thrilled at the opportunity to view 90 different breeds of pure-bred dogs being brushed, braided, powdered, perfumed, chalked, clipped and combed; then asked to show the spirit and animation of a winner; stand sweetly while the judge feels, pokes and prods; and through it all display the calm and friendly temperament that all our true aristocrats have — but are seldom given credit for. The public was amazed!!

The Kitchener-Waterloo Kennel Club is well on with plans for our 1970 show. Our slate of judges is almost complete and we promise you good ones! Our Show Committee, under the guidance of master-mind Doug Schwoob, is working on new and better ideas to make ours Canada's finest and most enjoyable All-Breed Championship Dog Show! □

Breeder's Responsibility in Selling Puppies

Currently there is considerable debate relative to the soundness of hip joints and the sale of puppies. This matter should be approached in a realistic and practical manner, state the authors of "Canine Hip Dysplasia and How to Control It", publication of the Orthopedic Foundation for Animals, Inc., P.O. Box 8251, Philadelphia, Pa. 19101 ($5.00 per copy).

At the age when most puppies are sold, no one can foretell whether they will turn out normal or dysplastic. The responsibilities of the breeder toward the pup he has sold revolve around the terms of the sale and the purpose for which the dog is purchased, the authors hold.

"1. When a young dog is sought as a pet or companion, the breeder is responsible for furnishing a healthy dog that will fill this need. Unless the dog becomes ill with an infectious disease that becomes evident within a few days after purchase, the terms of the sale are usually final. Faulty conformation, disposition or appearance of the hip joints that could not be judged at the time of sale should not constitute cause for complaint at a later date unless these qualities were guaranteed at the time of the sale."

"2. When a young dog is purchased as a show, training or breeding prospect, the breeder is responsible for furnishing a dog that is healthy and that will fulfill these conditions.

"Unless the dog becomes ill with an infectious disease that becomes evident within a few days after purchase, the terms of the sale are usually final. Unless the terms of the agreement call for added responsibility on the part of the breeder, the prospective buyer and the breeder have the privilege of negotiating any agreement they may decide upon regarding the dog's ability to train and win on the bench or in field trials, suitability for breeding, and quality of the hip joints. The failure of the dog to train or develop as the buyer had hoped is not a responsibility of the breeder unless such a specific agreement was made at the time of purchase."

THE WHIPPET

as described by a long-time fan

Forty-five years a Whippet fancier and still enamoured of the breed! Andrew T. Dalby, Bronoak Kennels, Oakville, Ont., dropped into the office of Dogs in Canada recently. His reminiscences do not pretend to cover all the names in the Whippet game but do give a colorful background for this game little speedster.

■ It was through Larry Young with whom I worked in Winnipeg that I became interested in Whippets. Used to go with him to Whippet races where one of the racing club enthusiasts was Lieut.-Col. Nevin, an English officer who played a big part in the development of the Whippet in Winnipeg, not only in racing but producing working and show Whippets. He imported a number of fine dogs from England, trying to obtain a good show dog that could run. He did. One was Scout of Oxen, out of the Lion of Redding line; later on Eng. Ch. Taffy's Pride. Taffy was handled by George Kynoch. This was the dog that shook the dog world by going Best in Show several times — Whippets had never done much before in the show ring.

Larry (whose brother James' Strathcona Kennel stands out in the Whippet world on this continent, as a breeder and founder member of the first Canadian Whippet Club in Vancouver in 1906) had Strathcona Liz. He bred Strathcona Liz to Scout of Oxen and got a bitch which he bred to Taffy's Pride. In 1925 I reserved two pups of this breeding and got two males. One went to its Championship in 1926 handled by George Kynoch and was Best Whippet in Show at the Moose Jaw KC show in 1926; it's the oldest trophy I have.

About 42 years ago a number of Montreal breeders used to race their dogs in New York. There was Mr. Halliday who imported Victory Epinard and Victory Tranquil from England. At that time I was raising a family and money was scarce. So I offered him a trade of one of my male pups for a female of this breeding. I got a bitch called Victoria Lady Manna. When I took her out of the crate I nearly died: she had a little curled tail carried on her back. I bred her to my dog and got some pups. Later when I went to Calgary I had to dispose of my dogs altogether. After five years in the army I went to Vancouver, where Whippets remained popular from early days.

At the present time I have eight Whippets. One of the original group had to be put down because of an eye infection. Though she showed very little herself, she had a fine litter of five puppies. Of these, three earned their Championship and my top stud dog today came from that first litter — out of Urray Merry Mite. Just a few weeks ago the Western Gazehound Club sent me a beautiful trophy, which is given annually to the outstanding brood bitch of the year. It was awarded to my little Merry Mite because in 1968 three of her progeny won their titles in the show ring. Two of them I have; the other belongs to a young man in Oakville.

Speaking of Whippet people, James Young's daughter, Christine Cormony, whose kennel name is Strathoak, is one of the foremost authorities in the United States and has written a number of books. She judged Whippets and Greyhounds at the Gazehound Club Show in Vancouver in August of last year (a record entry of 54 Whippets. Just about two years ago George Kynoch thought 23 was a great number).

In my opinion Mr. Don Langdon is "Mr. Whippet" in Ontario. The Langdons live at Caledon, Ont. Jim and Lorna Hale of Woodstock own the sire to whom I bred my little bitch that had such good results. In Oshawa there are Terrance Taft and Alan Pepper who have bred Whippets for a few years, and Afghans as well. And in Burlington there are Mr. and Mrs. Bob Taylor, breeders of Poodles as well as Whippets; Bob is President of the Whippet Fanciers Club and I'm Vice-President. In Quebec there are Luc Boileau and Joan Kyle; they're fine people, great competitors, the kind of people you can compete with and when they beat you, you don't feel upset about it.

Textile workers brought Whippets from England to Massachusetts at the turn of the century. Called the "poor man's race horse" they were originally developed mainly by coal miners who worked on shifts, had little money, lived in small homes and got pleasure out of racing their dogs. Conformation didn't much matter, as long as they could run. At one time there was a tremendous variation in the breed. Some of the early racing records mention their weights were between eight and 30 lbs. A handicapping system took care of this.

After the first World War Freeman Ford of Pasadena, Calif., who had a track and kennel, aroused great interest. James Young was manager. Racing became very popular, but this contributed to its downfall, because the Whippet, being small, could be watched by only a few people. They would go 200 yards (their best distance) in 12 seconds. This then gave rise to Greyhound racing, because they were better suited to a 440 yard track and could be better seen.

Since World War II there has been a revival of Whippet racing. The Whippet is not only appreciated for his ability to run 35-40 miles per hour, but for his lovely quiet temperament (wonderful with children) and the fact that they can run considerably farther than the 200 yards we once considered their limit.

Considering the size of Whippets over the years, I find they are generally larger now. Breeders tried to get a larger dog because formerly they were too small to be clearly visible. Another thing. Originally the breed was a rabbit chasing dog in England where rabbits are small. Here the jack rabbits are bigger and grow, I have heard, as heavy as 16 pounds in Texas. So the Standard in the United States is about 2" taller than in England. Our dogs are judged by the American Standard, and if you import from England you receive a smaller dog, which can be unfortunate in judging on this continent.

There's a greater uniformity of type today than in the middle '20's. In 1902 they were first recognized by the English Kennel Club as a separate breed. Formerly they were known as the "snap dog", due to their method of snapping a rabbit on the back of the neck. In doing this, they are put off balance, rolling on their shoulder while breaking the rabbit's neck.

In Winnipeg rag racing was popular. Two men worked with each dog and they ran in lanes. The "slipper" would hold the dog at his appointed place according to his handicap. He would earlier have been teased with a white rag. The receiver would stand at the end of the lane. When he began yelling and waving a similar white cloth the slipper, who had been holding the dog in place, would lift his hands straight up in the air and the racer would be off to a flying start. Any dog that jumped a lane would be disqualified. The competitors always wore muzzles to prevent fights.

A number of events were held at the beautiful home of Lieut.-Col. Nevin in Fort Rouge, Man., where he had an informal track. From time to time 30 to 40 dogs would compete.

Years ago in the middle '20's there was Whippet racing at the Old Woodbine track (now Greenwood) in Toronto. I was surprised to learn from contacts that they had what they called rough-coated Whippets, which have been mentioned in English records. But I don't think they were ever officially recognized as a breed.

As far as racing done in our club, we have an electric lure. Occasionally we have picnics and race just for fun.

If you'd like to join us in having a great deal of pleasure in racing a grand little dog, drop me a note at 2430 Hixon St., Oakville, Ont. □

BREED NOTES

Please send in brief items pertaining to your breed: Canadian dogs in American competition, imports, formation of new clubs, items of interest about various breeds you may find in your reading, results of Sanction and Puppy Matches which are not reported in the CKC section. NOT ACCEPTABLE: material that appears in The Canadian Kennel Club "buff colored" section: results of Championship and Specialty Shows and trials, new Champions, Obedience titles. Mention of new litters, studs etc. belongs in the advertising columns.

The German Short-haired Pointer Club of Ontario

Don Elliott

Twenty-three GSP competed in the club Sanction Trial at Ilderton, Ont., November 23. The use of the grounds was donated by a well-known field trialer, Jim Eadie of London, Ont. Field trial chairman Horst Roesler worked hard to get this trial organized. It was a pleasure to judge with Chuck Possett.

AMATEUR GUN DOG: six entries

(1) Ruffy's Belle, owner-handler Cliff Dirk. Belle ran a nice forward race and in the birdfield pointed, the bird moved and she showed excellent manner throughout.

(2) Moesgaard's George, owner handler Jim Eadie. George ran the best race of the stake but on a call back, made an error on his bird work.

(3) Dandys Judy (list not given) owner-handler Max Freer. Judy, a nice-moving Irish Setter, could have placed higher but did not make a proper retrieve.

(4) Mitzy, owner-handler, D. McDonald.

OPEN PUPPY: ten entries

The placed dogs in this stake were ones to look for in the future.

(1) Maribeth's Alexis (Meg) owner-handler C. Wouter. Alexis ran hard and had a find on a pheasant and also a quail.

(2) Ruffy's Ace Karslea Autumn (Beta), owner-handler C. Petersen. Beta ran like a mature Derby — a real nice pup.

(3) Wildwood's Jake, owner-handler Bill Chown. Only 7½ months old, shows great promise.

(4) Heidi, owner-handler John Martin.

OPEN DERBY: three entries

(1) Maribeth Ami, owner, Jack Haggis, handler D. Smith. Ami ran hard and wide, with one find.

(2) Ginger Moesgaard's Dandy Ulysses, owner-handler Ken Fisher. Ginger ran the widest race in this stake but her pattern was erratic.

(3) Ef Fex Fiennie, owner, J. Roesler; handler, Horst Roesler. Fiennie, quite young for this stake, ran nicely.

OPEN GUN DOG: four entries (all placements withheld)

"Our Fall field trial was a success, due to help received from the London District German Shorthaired Pointer Club and some of our club members. Orchids to the judges for a job well done. We did have fun, including the dogs, but we missed you, Mr. Shorthair owner who could not make it to our trial. The Spring Trial will be held near Toronto; hope to see you there," notes the Secretary.

Golden Retriever News

by B. G. R.

Another new addition to Trials is Mary and Bob Campbell's Moondust of Yeo, recently imported from the Kennels of Mrs. Sawtell in England. Bob says "she snaps up pigeons like she had been doing it all her life" and she's only five months old!

The Top Ontario dog in the Qualifying licensed stake this year is Charlie Merrem's "Cindy", Krooked Kreek Cindy 3rd. Cindy won two qualifying stakes very early in the season to "bump" her into the Open Stake which she has completed with amazing regularity.

We were very saddened to learn of the death of two good trial Goldens in 1969. Dave Knight's Twin Pines Golden Knight, who had bone cancer and Barry Taylor's Stubbledown Teena who was put down because of poor health. "Copper," a promising up-and-coming young dog, and "Teena", a veteran of many trials, will be missed by all Golden fanciers. There just aren't that many good trial Goldens.

Bob Campbell is currently negotiating for a male from Torch Flynn's "Tigatho" Kennels in Connecticut, and Dave Knight is trying out a young bitch from Mark Seguin's Seg-Mar Kennels. It was Mark was started me on what is now 11 years of raising, or trying to raise, good trial Goldens.

While I am up to date on most Golden accomplishments in the States, I do not know how Canadian Goldens are doing in the Provinces other than Ontario. Anyone interested in keeping me posted on Field Trials, Conformation, Obedience or just plain Golden talk? I'd love to hear from you, especially from the West Coast where they are doing so well. Are there any Goldens in the Prairie Provinces or the Maritimes?

Labrador Owners Club

Sandy Briggs,
R.R. 1, Markham, Ont.

The following is a list of the dogs who won the club's trophies for 1969:

The Hicks trophy, awarded to the top all-round dog of the year. Runner-up was Ch. Wimberway's Evermerry CDX, and the winner was Ch. (Can. & Am.) & OT Ch. Wimberway's Wateaki, Am. CD, owned by Sandy Briggs.

The Red Dawn trophy (for the dog who has its championship and wins its CD with the highest scores). Runner-up was Ch. Wimberway's Evermerry CDX (J. Brethet) and the winner was Ch. Black Team Made of Wimberway, CD, owned by Jim Babcock of Ottawa.

The Wiley trophy for the top breed winner was won by Monica Briggs' Ch. Wimberway's Odin. Runner-up was Greg Sephton's Ch. Wimberway's Friendly Freddy.

The Briggs trophy for the top puppy winner in shows was also won by Odin, and the runner-up was Jill Hanson-Lester's Ch. Wimberway's Orsino of Daffon.

The Mandalwood trophy for the dog winning his CD with the highest scores was won by John Iwanchyschyn's Wimberway's Neptune's Gold. The runner-up was Jack Brethet's Ch. Wimberway's Evermerry CDX.

The Worthing trophy for the dog winning his CDX with the highest scores was won by Bill Neville with Dinah's Golden Regent CDX. Runner-up was Carol Brethet's OT Ch. Amanda of Jodonga, Am. CD.

The Utility trophy for the dog winning its UD title with the highest scores was won by Carol Brethet's OT Ch. Amanda of Jodonga, Am. CD.

The Croft trophy for the top Open All Age stake field dog was won by Sandy Briggs' Wateaki. Runner-up was Charlie Bishop's Duxbak Dinahmite 2nd, who also won the Wimberway trophy for the top Qualifying stake dog.

The Pine Knot trophy for the top Junior stake dog was won by Charlie Bishop's late Duxbak Zipper. Runner-up was Randy Lefleur with Wimberway's Norseman, CD, who also earned the Sha-Mar trophy for the top Puppy stake. Runner-up was Sandy Briggs' Wimberway's Merry Spark.

The Labrador Owners Club trophy, awarded to the winner of the annual Specialty show, was won by Monica Briggs' Odin who won the Specialty show in September at the Don Mills arena.

On November 23 the club held its first open field training trial at the Cold Creek Conservation Area. On hand was a camera crew from CBC who took pictures and talked at length to field trialers throughout the day. At 11 p.m., following the newscast on Channel 6 TV, films and pictures of the trial were broadcast.

The club will be holding field training trials at the Cold Creek Conservation Area on the fourth Sundays of the months of January, February, possibly March, and April. Non-members are welcome to come and bring their dogs. There is a building there where one can buy hot dogs and hot drinks as well as sit comfortably to thaw out if the weather is bad. Starting times for the

trials is 10 a.m. A small entry fee is charged for each dog. Four stakes are held: Open, Qualifying, Junior, and Puppy. If your dog has never been to a trial and you want to start, this is the best place to do so.

At the recent Mohawk Valley show in Schenectady, N.Y., on November 8, WB and BOS for two points was Can. Ch. Wimberway's Otter, owned by Sandy Briggs.

On the recent Bermuda show circuit, November 11-15, there were several Canadians showing their dogs and some completed titles on their dogs in either obedience or show. In the Sporting group there were two Canadian Labradors (Sandy Briggs' Ch. (Can. & Am.) Sunnybrae Ben Y Vrackie, CD and Monica Briggs' Ch. Wimberway's Odin, and Anne Snelling's English Springer Spaniel, Ch. Oaktrees Lancashire Poacher. The Labradors did very well, Vrackie taking RWB the first day, then BB both of the last shows and going on to Group 4th under Percy Roberts on the last day. Odin took 3rd, then 2nd Open and RWD, and on the last day took Winners and BOS for three points.

B.C. Cocker News

Mrs. Barbara Garcia
Wagtime Cockers, Box 16,
Pitt Meadows, B.C.

The show season is over here on the West Coast and many club members will be kept busy during the winter, polishing up their trophies and ribbons. Many Cockers crossed the finish line throughout the year, but as yet no confirmation from the CKC has been received. The awards committee will be very busy counting up points for the top winning Cockers (English and American).

Our Specialty Show this year will be held on Vancouver Island. There are 11 hard-working members on the Island who have been begging the Mainlanders to let them have a chance to put on the annual show. At the present time the only information about the date is some time in September 1970.

ENGLISH COCKER NEWS

Mrs. Pat Power of West Vancouver, reports that her Ch. Willowbrook's Druscilla CD had a lovely litter of five which included an orange roan girl, after about four years of hoping for this elusive color.

Down across the border, at the Whidbey Island KC, Monroe, Wash., Ch. (Can. & Am.) Willowbrook's George Blue, owned by Mrs. Peter Bennett, was BB over an entry of nine English Cockers. Ch. Ranzfel Kelly Blue, owned by Mrs. Barbara Lott, was WD for a 2 point win.

I would like to mention the Washington State Cocker Club and compliment the members on their good work. The club has sponsored two Eye Clinics in the Seattle area this past year, with Dr. William Yakely of Spokane, Wash., examining over 150 dogs at each clinic. Dr. Yakely was in charge of the Cataract Research Program at the University of Washington, at Pullman. He is now in private practice, but is continuing his research. As a result, other clinics are being planned in other parts of the country. Two of the B.C. members and their dogs have attended both clinics and have found the results of the examination very enlightening. A breeder can't possibly realize the heartbreak and disappointment until seeing tiny puppies with their eyes barely open, nearly blind with cataracts in one or both eyes. Dr. Yakely and the Northwest breeders are trying to determine how and why these cataracts are passed on from one generation to another. Pedigrees of the examined dogs are submitted to the University and are being studied.

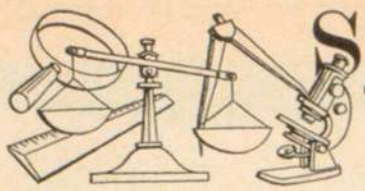
Any Cocker breeder who has a dog with cataracts, or has had one in past years is invited to forward the pedigree to Washington State University, Pullman, Wash. 99163, attention Department of Veterinary Medicine.

Donations have been made by the B.C. Cocker Club to help further this effort. Such contributions may be made to Cocker Spaniel Fancier's Research Fund, c/o Houghton Branch, Seattle-First National Bank, P.O. Box 597, Kirkland, Wash. 98033.

At the present time our B.C. club is making arrangements to have Dr. Yakely hold a clinic here in the early spring. Let us hope that somewhere in the not too distant future there will be an answer to this heartbreaking problem. If all people concerned will either participate or donate, this may be achieved soon.

Young Cocker Export Stars in Danish Shows

"We have just heard from Mrs. Jytte Bjorn in Denmark that Keljeagers



STANDARDS QUIZZ

Standards Quizz No. 83. Compiled by H. Malcolm Stephens. Object is to match the first set of numbers (which relate to various parts of the dog) with the second set of numbers (which describe that part of the dog). For example: 13 - 1 Lower arm — straight. Scoring: 21 - 23 correct — you could be judging. 18 - 20 correct — you should start thinking about judging. 15 - 17 correct — good if you are in another breed. Less than 15 — you must be in another breed. Answers on page 11.

Buff Stuff, a young blonde male American Cocker Spaniel exported to her last year, has just made his Danish Championship in three shows, one of them a Best in Show over 700 dogs. She also reports that he has two legs toward his Swedish Championship", writes Jean M. Palmer, Keljeager Kennels, Oak Ridges, Ont. "Apparently he has gone Best of Breed every time shown and they average an entry of ten to 12 per show.

"Buffy is by our own Keljeager's Debonaire. Although Beau's own show career never reached the dizzy heights of BIS (he had many Group placings) his offspring is out and winning. This makes Champion No. 6 for him, with two more pointed.

"Buffy went out to join Int. Ch. Keljeagers Miss Globe Trotter. "Tweedy" was bred to Ch. Stonehedge Mark Y Well and from this litter three were finished in Denmark. Mrs. Bjorn is now eagerly watching Buffy's first litter."

American Cocker Notes

Liz Willis
Box 252, R.R. 1, Orleans, Ont.

As the bears hibernate, so seemeth do the Cockerites during the long winter months, so news is somewhat sparce.

Soon we hope to have a summary of the National Spaniel Specialty held in New York City the first weekend in January. The way we hear it Canadian Cocker breeders will be there in force.

Marg and Dennis Mountney are very proud of their newly crowned Am. Ch. Dankrist I'm a Tiger who gathered many of his points from the Puppy Classes and was piloted all the way by Terry Stacey. Tiger is now home preparing for the Spring Canadian scene.

Plans are now well underway for the June 7 Golden Triangle C.S.C. Specialty. All committees are going full steam ahead. Look for new and different innovations at this Specialty for American and English Cockers and we will look for you!

Please, let's have a little more news, new imports, exports, American show or Sanction wins — anything at all that pertains to Cockers.

HOUND GROUP

Afghan

CANADIAN AFGHAN WINS IN EASTERN U.S. Ch. Kophi's Mystic Sir Artic, "The White Boy", defeated over 80 Afghans at the Colonial Afghan Specialty Show held in Boston on December 13 in conjunction with the Eastern Dog Club Show. Breeder-judge, Lt. Col. Wally Pede, awarded Artic WM and BW for a 5 point major.

Artic also went BW at the Boardwalk show in Atlantic City November 30 under Judge Mrs. Winnifred Heckman for a 3 point major. The following weekend at the Philadelphia KC show, Breeder-judge Herman Felton gave him a RW award. The Open Male class

at that show was made up of 15 dogs, and Judge Felton placed Artic's brother, Ch. Kophi's Mystic Sir Tashii, right behind in the number three spot. Tashii is owned and shown by Nancy Leuba of Alexandria, Va.

Having also taken a BW at the recent Syracuse show, Artic goes into the 1970 season with both majors and 11 points. He is handled in the United States by Parker Harris and in Canada by his breeder-owners, Greta and Myles Phillips.

KOPHI AFGHAN GOES TO TEXAS

Kophi's Duchess of Nepenthe, a black masked red daughter of Ch. (Can., Am. & Eng. Aryana Shalym) has been exported to Dallas, Texas where she has joined the household of Kay and Dennis Splane. Mr. Splane is Vice-President of the Afghan Hound Club of Dallas.

Bred by Greta Phillips, Duchess' mother is Kophi's Princess Clea (a Tzaama daughter) and she will be a year old on February 19. While still in Canada, Duchess did pick up a few nice puppy wins and two points towards her Canadian title. The Splanes hope to bring her back to Canadian shows as well as campaign her in the United States.

Her sire, Ch. Aryana Shalym, now has Champion offspring in the three countries in which he himself holds titles. His second daughter recently finished her English title, and his son, Ti Rik, completed his American title. All this in addition to his Canadian Champion progeny. Aryana Shalym was England's top winning Afghan when he was imported by Kophi, and he is certainly following in the footsteps of his late, great sire, the incomparable Eng. Ch. Horningsea Khanabad Suveraj.

AFGHANS MOVE TO CASTLE!

Back in 1854 when William McKenzie King built his large house in Oakville, Ont., now known as King's Castle, he little imagined the patter of aristocratic Afghan feet echoing in the halls! However, this now historic and thoroughly modernized home with its beautiful 3½ acres of gardens is now the home of the Kophi Afghans. The four-storey, 65-foot high home, overlooking the Oakville Golf Club, boasts a 75′ x 30′ addition once used as a home for antique cars, complete with terrazzo floors and heating systems. This part of the building is now being converted in deluxe quarters for the four-footed aristocrats, complete with red carpeting. A Spanish motif is planned, using white brick, black marbled arborite and white pens.

AFGHAN CLUB EXECUTIVE

The 1970 executive of the Afghan Hound Club is as follows: President, Mr. Bruce Ball; Vice-President, Dr. Dave Marsh; Secretary, Mrs. Carol Braae; Treasurer, Mrs. Geoff Clark; Directors: Mr. John McIlloney, Mrs. Greta Phillips, Mrs. Heather Alexander, Miss Vera Hampton and Mrs. Anna Keefe.

WORKING GROUP

In Tribute to "Mike"

Mrs. J. W. Beedell
Battersea, Ont.

Ch. Hidlj's Maico, OT. Ch., recently passed away one day short of the age of eight. He was owned by Mr. and Mrs. J. Sorensen, Sorlar, Regd., Richmond, B.C.

Before "Mike" was a year old he had his first leg towards his CD, his CDX at two and at four was ready for his UD. He gained his Championship title and his first leg on the UD the same day. "With that win he was given the Western Patrol award," writes Mrs. Sorensen, "being the first dog ever to receive it." They are pictured on that exciting day. He completed his UD in two straight trials. "In doing so he became the first Boxer in Canada to hold a bench and obedience Championship. He was later trained for tracking as well."

This exceptional Boxer won the Boxer Club of Canada Obedience Dog of the Year twice, the Western Canada Boxer Club's regional award four times consecutively. One of his puppies, Sor Lar's Jacqueline K, CD earned her CD in three straight trials before she was a year old. Another daughter, Sor Lar's Jody of Mike, recently completed her CD — three generations of Boxers who have excelled in Obedience.

Boxer Club Executive

The following have been elected to the executive of The Boxer Club of Canada: President, Ben deBoer; Vice-President, Stan Whitmore; Treasurer, Mrs. B. Gardner; Secretary, Mrs. N. Heron; Show Chairman, B. Laing.

Western Hospitality

Walter Pinsker
454 Glenholme Ave., Coquitlam, B.C.

Last November my family and I moved with our two Boxers from Toronto to Vancouver and shortly thereafter were informed of a Boxer Puppy Match.

We arrived at the Queen's Park Arena in New Westminster on December 6 as strangers. However, members of the Western Canada Boxer Club rectified this matter by showing an interest in us and our puppy and later recommended to enter her also at the All-Breed Sanction Show which was held the same evening.

The Puppy Match was judged by a long-time Boxer breeder, Ross Caldwell, who did an excellent job of judging, giving ample time and opportunity to beginners and newcomers to exhibit their dogs. Mr. Caldwell honored us by giving our puppy Best Boxer in Match.

Shortly thereafter the judging of Group Three under noted American judge Mrs. Adde Speziale started and again our puppy was honored by winning the Group.

By this time the whole family was on "cloud nine" and we certainly were no longer strangers.

At about 11:30 p.m. Mrs. Hilda Balshaw, who has been an authority on dogs for many years, started to judge Best in Show and awarded our little Concerto top honors by giving her BIS.

We feel that the above-mentioned accomplishment is quite a triumph for our four-month-old female, Scher-Khoun Autumn Concerto.

I would like to take this opportunity to extend my sincere thanks and gratitude to the judges and fellow exhibitors for their consideration and hospitality. However, I cannot overlook giving credit and thanks to our good friends Mr. and Mrs. B. B. DeBoer who bred this outstanding puppy and therefore made it possible for us to enjoy a most pleasant and unforgettable evening in our new home, Vancouver, B.C.

Collie and Sheltie News

Mrs. Ariel Sleeth
R.R. 6, Kingston, Ont.

We are more than knee deep in snow at this time and yesterday there was a 21" downfall not far from us.

Do you remember last year I raved about snowmobile suits being the ideal clothing for doing winter doggy chores in? Also you may remember, at that time, we had no snowmobile. Well now I would like to sing the praises of snowmobiles as being the ideal means of transportation to and from the kennel and stable in winter months. After the first one, we found we had to have two, a his and hers, and it sure beats trudging through impossible snow drifts. Even some of our dogs enjoy their ride back to the house to visit.

The wet snow and accompanying cold weather brings another Collie-Sheltie problem to the foreground.

SUNNYCREST KENNELS

SHELTIES AT STUD

CH. SUNNYCREST BLACK TOPPER, 14½" tri-color son of **Can. & Am. Ch. Morribrooks Icecapade, CD.** Topper was '68 Specialty winner, placed in the Top Ten in Canada '68 and '69. He has a Group placement, 13 BOB in '69, also at time of publication the leading sire with four of his offspring finishing in '69. The sire of 6 Champions. Fee $65.00.

CH. SUNNYCREST BLUE CHIPS, 15¼" Blue Merle grandson of **Ch. Heir Apparent of Karelane.** He has a Group placement, placed in the Top Ten Shelties in Canada in '68. He is a really sound dog with an excellent gait. He is siring lovely blue merle puppies with the correct silvery blue merle coloring. Fee $50.00.

Inset is a head study of our 14½" orange sable son of **Ch. Diamonds Robert Bruce.** He is a really sound dog, excelling in extremely good head qualities with that sweet Sheltie expression. He will be shown in the coming season.

Try one of these studs for that future show prospect.

More requests for help with ears are made to the breeder than any other problem. Undoubtedly cold weather stiffens the ear, causing it to stand higher.

There are some ears that no amount of care will help but you will not know which ones until you have tried. Size of the ear is not a deciding factor. Some of the best ears we have had have been on the small side. Int. Ch. Sovereign Dougie's Choice had a small, naturally tipped ear that was never pricked a day of his life whether after swimming, riding in a convertible or during the most severe cold weather. Dependable ears of this type are hard to come by and well worth breeding for.

I have found, in many dogs, the ear to be a barometer of his health and environment. While working to correct the ear fault, check the dog for worm infestation, general condition and fly or insect bites. Also take into consideration whether or not he is out in wet weather or kennel mates are chewing (playfully) on his ears.

Next is determining what is normal in the young puppy when selecting "good ears". A great deal will depend on bloodlines and a working knowledge of the lines you are using. I like to see the tip well over at an early age but definitely facing forward. Often the ears that look perfect at two months will be problem ears at eight months. Do not make the mistake, however, of ignoring a good quality puppy because of prick ears without first checking out possible reasons mentioned in previous paragraph. All may be well at three months.

In the young puppy, from weaning to 2½ months, I prefer glycerine for the high ear. Gently massage the inside and outside of the ear more than halfway down. Glycerine is absorbed and softens the leather as well as applying some weight. This treatment can be repeated daily or as often as convenient until results appear.

I do not worry about the low ear in the age group we are discussing *unless* it has shown no indication of facing forward.

With the ears that stay to the side and show no lift, we remove all excess hair, clipping carefully as close as possible and trimming around the edges. The ear is then gently washed with a mild soap and warm water and thoroughly dried. This will have removed the natural oil and some weight and perhaps will be enough to lighten the work of the muscle. Every other day wipe the ear on both sides with rubbing alcohol. If this is not enough to correct the problem by the time he is three months you must be prepared to spend a great deal of effort on this type of ear.

Next month we will tackle the "problem stage" from three to 14 months.

* * * **Newsy Notes** * * *

From Montreal, Quebec

When Mr. and Mrs. Michael Hill returned to Canada from New Zealand with their Sheltie import, Riverhill Readybrek, they may very well have left a record behind. With the wins of his progeny in N.Z. Riverhill Readybrek is well in the running for top Sheltie sire in N.Z. for 1969.

There is a new star in the home of Pat Murray. About a year ago the National Film Board used "Piper" for a walk-on part in a movie they were making. "Piper" was required to run out of the open door of a house and when running across the street get hit by a car; (this is done in two parts with stop action). Recently she learned that this film "Don't Let the Angels Fall" has been entered in the Cannes Film Festival.

Let us all share your news and helpful hints.

Here Comes the Judge

Norman Biggin
Reprinted courtesy
The Doberman Quarterly

Most of us readers own, or would like to own, or did own a Doberman Pinscher, and I suppose the reason for our preference will vary from person to person. Some of us might even have forgotten why we originally chose this breed.

Of all the factors which influenced our choice, I am sure that the elements which enable us to distinguish one breed from another must have played a great part in our thinking at the time we made our choice. The Doberman must have fitted some mental image or specification.

Ch. (Am. & Can.) Biggin Hill's Alrich, pictured with internationally known judge Mr. Wm. Kendrick.

If we can admit the truth in this then we must surely admit and recognize that the particular elements or characteristics which enable us to distinguish one breed from another have to play a very important part in the description or evaluation of any dog.

Without the existence of a description of the distinguishing characteristics we would not have our present variety of pure-bred dogs. There would, in fact, not even be a need for pure-bred dogs. If we cannot recognize the importance of the distinguishing characteristics in any dog description then we cannot recognize the need for the existence of something different than a mongrel.

We do have pure-bred dogs however, and we do have descriptions and specifications which enable us to differentiate one breed from another. The descriptions and specifications did not come by accident — they came by design; the object being to produce a dog capable of performing a certain specific function in life. There is a purpose for every breed of dog on earth and it is safe to say that in almost every case the original purpose was not for the show ring.

Dogs, and the need for different types of dogs, came long before the dog show. The show ring is simply supposed to tell us how well we have done in our attempt to produce a dog which will fulfill its required purpose in accordance with some prescribed description.

We all know this prescribed description to which I refer is a Standard which came into being by a group of breed experts getting together to determine how best to describe the ideal dog in their particular breed and, in many cases, to determine the relative degree of importance of each distinguishing characteristic.

When the Standard has been approved and accepted by the AKC, it takes on a different meaning. Before it is accepted it simply reflects the views of a group of people. After acceptance it becomes the official firm specific guideline which must be worked to by all who want to play in the AKC show game.

It means that if you want to breed dogs to show under AKC rules, and if you want to receive awards from the AKC which will lead to AKC champion certificates you are under a very serious obligation to try to breed dogs that will satisfy the Standard in all elements, and I stress — *all* — elements. Not just in elegance or dark eyes, but in substance, correct height, movement, head and so forth. Don't make excuses for the faults you are producing — do not try to convince others that your faults are not really faults, but make a very sincere effort to try to improve upon them in your breeding program.

Study the Standard and try to follow it.

It follows that anyone who would like to judge dogs in the AKC game must learn the Standard from back to front and judge dogs according to its descriptions. The judge should not overlook any element. He may use his own judgment to interpret the Standard in areas which are not clearly and precisely defined, to weigh the faults against the good points. If you want to breed dogs and judge dogs to a different Standard than that published by the AKC then start your own dog show game.

STANDARDS QUIZZ

Standards Quizz No. 84. Compiled by H. Malcolm Stephens. Object is to match the first set of numbers (which relate to various parts of the dog) with the second set of numbers (which describe that part of the dog). For example: 8 - 1 Nose — black. Scoring: 16 - 18 correct — you could be judging. 14 - 15 correct — you should start thinking about judging. 12 - 13 correct — good if you are in another breed. Less than 12 — you must be in another breed. Answers on page 6.

11. heavy, straight, hard, not woolly or silky, of good length and very dense
12. one half length of skull
13. pendant, heavily feathered
14. well feathered, carried well over back in a screw
15. golden, honey, dark grizzle, slate, smoke, parti-color, black, white or brown
16. from point of shoulders to buttocks longer than height at withers
17. dark brown, neither very large and full nor very small and sunk
18. narrow, falling away behind the eyes in a marked degree, not quite flat, heavy furnishings

---

I am sure we have all heard such remarks as: "A dog does not move on its head," or "A dog can see just as well with a light eye as dark one," or "A couple of missing teeth don't mean anything." This type of remark is made by people who will spend more time trying to justify the faults in their dog than they would in trying to find a way to correct them in future breeding programs.

These remarks in particular concern one of the important distinguishing characteristics namely, the head. The head is very important and it is very well described in our Standard. It may be looked upon as the index or hallmark of the breed and its facial expression may give us some kind of an idea as to what is going on inside the head. The shape and size of the head has a great bearing on how well the dog can bite, and on what kind of biting it can do, and one of the original purposes of the Doberman was to be able to bite well and fast.

Another important distinguishing characteristic is size and it is probably the most flagrantly violated deviation of all. I have heard more people try to justify oversize than any other fault. I have heard such remarks as: "I don't care about the size of the dog as long as it can move," and "I pay little attention to size, I look for soundness," and "I put balance before height." I have heard people at ring-side say: "That is a beautiful, well-balanced dog, but he is too small." (When speaking of a dog which is of ideal height as described by the Standard in a ringfull of oversize Dobermans.)

I have heard judges say that they go for soundness and movement and then step into the ring to put up the biggest dog they can find over much sounder and better moving, ideally sized dogs.

When I see a judge not place a sound, beautiful moving Doberman of ideal size and then say for a reason that the dog was too small, it makes my blood boil — he is faulting the dog for the one element in which the dog is absolutely perfect.

This kind of judge does not know the Standard or he does not believe in it or he has no eye for the size of a dog.

There are people who advertise their dogs as being 29½″ tall, or 28½, or even over 30″. I wonder what the same people would think if they found someone advertising light eyes or loose shoulders or missing teeth? The people who advertise oversize are advertising a fault — a deviation from the Standard. I have heard people proudly boast that their dog is 29½″ tall.

Does this mean that they also do not believe in the Standard or that they are trying to set up their own Standard? Does it mean that they are trying to convince people that the Standard should not be worked to and that the Standard is wrong, and their dog is right, or is it that they just don't know what the Standard calls for?

Our breed is very clearly described in our Standard as having the appearance of a dog of good middle size with a height range from 24″ to 28″. Bitches are required to be no smaller than 24″ and no taller than 26″ with the ideal being about 25½″. Males are required to be no smaller than 26″ and no taller than 28″, the ideal being about 27″.

This is not a matter for interpretation — it is very clearly described.

We have proof that the majority of people in this fancy agree with the height range of 24 to 28″ as specified in the Standard because just recently a group of experts were called together by the DPCA to revise the Standard.

This committee of experts recommended that the height for bitches should remain between 24 and 26″ and that the ideal should remain at 25½″. The committee also recommended that the height range in males should remain between 26 and 28″ but that the ideal should be about 27½″. This recommendation was voted upon by the membership of the DPCA and accepted by a majority vote. It should be noted however that this Standard revision has not yet been accepted by the AKC and is, therefore, not yet a part of the AKC dog show game.

When the Doberman was first invented or designed there was a void in the medium-sized breed group. There was a need for a dog like the Doberman that would be fast, agile and reasonably easy to handle with good biting power and which would not eat its owner out of house and home.

There is still a need for this kind of dog. The Doberman still belongs in the middle size group. If we do not care about size, and if we follow the philosophy of "the bigger the better" and breed for bigger dogs, and judge for bigger dogs, we will simply have added another breed to the giant size group and we will have created once more the void in the middle size group which existed a hundred years ago.

Dogs, in general, fall into four major size categories such as, giant size, medium size, small size and toy size. Many of the giant size breeds have minimum height requirements but no maximum. The Great Dane, for instance, starts at 28″ and the Mastiff has a minimum height requirement of 27½″. Surely we do not want our beautifully agile Dobermans to move up into this unwieldly size group.

Most of the middle size dogs in the working group have minimum and maximum or ideal size requirements. Every breed of dog in the working

group has clearly defined height requirements specified in the AKC Standards. They are important; there is a reason for them or they would not be there. Let us recognize them and accept them.

If we want larger or smaller dogs, there is a great variety of all kinds of sizes to choose from. Let us not try to make the Doberman into something which he should not be.

Temperament is not really as much of a distinguishing characteristic as some of the others because it is not as easily seen but it is very important just the same. It is one of the original required characteristics for which the Doberman was produced.

Our Standard states that the Doberman must be energetic, watchful, determined, alert, fearless, loyal, obedient and reflect great nobility. It states that it shall not be shy or vicious and it describes the method of measurement.

The Doberman was developed for guard work as we all know, and for this he must have a stable, fearless temperament. If he is shy he will bite when he should not and will run when he should bite. This stems from fear and should not be confused with being reserved. If he is vicious he will probably bite all the time without discretion and among his victims might be included his master, but, even so, a vicious dog is probably more preferred than a fear biter because he is more predictable. With a fear biter we never know what he will do.

Good temperament will be found in a Doberman who will attack on command and stop on command, that is of course, when he has been trained. He will sense danger and be ready to defend at all times. He will be able to discriminate and keep his head in all situations.

Temperament was the first requirement. Body, size, teeth, power, etc. were all developed to help the mind of the dog to do what its instinct and training told it, it had to do.

Temperament, form, power, substance, agility, size, head, teeth, bite, etc. all go together to make our beloved Doberman Pinscher. Any weakness or compromise in any of these elements will prevent our breed from being able to fulfill its true purpose in life.

Newfoundland Notes

Beth Sellars
410 Keewatin Ave., Toronto 12, Ont.

We have a new executive for our Club: President, Don Purdy; 1st Vice-President, Tom Harrison; 2nd Vice-President, Elizabeth Sellars; Secretary, Natalie Elias; Assistant Secretary, Juliette Basterfield; Treasurer, Sandy Latimer; Public Relations, Marg Willmott; Junior Representative, Deborah Cochrane; with Mrs. Kitty Drury as our Newfoundland Club of America Liason.

No, I haven't listed the Directors yet. First, I want to tell you a little of our exciting plans in that area. The club originated in the Toronto area in October, 1963 but interest and activity has sprouted and grown so much that regional interest groups are now being formed. Sure, we've got growing pains; but we are truly not just a local club but can take pride in the fact that we stretch from coast to coast. Newly elected directors, operating within and receiving assistance from the main body, have tremendous plans to "first work directly to improve the Newfoundland and to spend all effort to an awareness of Canada's own breed."

To find out more about plans in your particular area, contact: in Newfoundland, Mrs. Megan Nutbeem, Harbourbeem Kennels Reg'd., Harbour Grace, Nfld., or Mr. Hal Duffet of Terra Nova Kennels, Marine Drive, St, John's, Nfld. In Nova Scotia contact Mrs. Ronald Day, P.O. Box 622, Truro, Nova Scotia. Mrs. D. G. Fowler, is at R.R. 2, Postal Stn. B., Saint John, N.B. Mr. H. Multhaupt, 2095 Rue Calvados, St. Bruno de Montarville, Que. Mr. W. D. Hendershot. 363 Robin Ave., Beaconsfield, Que.; Mr. John Hueton, 26 Willow Ave., Westmount 217, Que. If you are located in the Prairie Provinces contact Mr. Ronald G. Young, 3008 Lancaster Way, Calgary 10, Alta. Mrs. Nona Navin of Cassiar Asbestos Mines Ltd., Cassiar, B.C., and Mr. Wm. F. Cochrane, Dory-O Kennels Reg'd., 11780 - 82nd Ave., North Surrey, B.C., speak for that area.

Ontario lists Mrs. Joyce MacKenzie, Lewis Hird, Dr. R. L. Bojankiewicz, Mr. Arne Berg, Mr. David Mills, Rolf Luchner, Mrs. May Palmer, Mrs. Madeline Kearsey and Dr. O. T. Randell.

I hope all of these people will be letting me know of their progress, as well as their problems, and I can pass on the Newf News to all interested readers.

A warm thought for Mike Davis, who took over when so badly needed. While Mike was President there was the almost traditional Booster show at Sportsmen's. Our very first Specialty Show boasted of 33 entries. Ch. (Can. & Am.) Dryad's Domino, owned by Mrs. Mae Freeland, was top dog that day. Ottawa was host to a successful Booster show (and party too, I hear). It wasn't all tail-wagging though. Kitty said good-bye to Golly; tears were shed over Domino; and John Hueton lost one of his favorites. But with all the ups and downs we keep on pulling the load, or rollicking about, in the spirit so superbly demonstrated by our fine dogs.

Canadian Old English Successful at Record Show

Ch. Rivermist Feather Merchant, (Friendly) owned by Dr. and Mrs. J. G. Carter of Some Buddy Kennels, Okotoks, Alta., took BW and a 5 point major at the Old English Sheepdog Specialty Show at the Boardwalk Show in Atlantic City.

This was the largest entry ever at one show of Old English in America (136), reports Dr. Carter. The day before at Patterson, N.J., his first American show, he took BW and a 4 point major. Friendly is the proud father of 13 puppies from his first litter. Several are now in American show homes in such far flung places as Casselberry, Fla., Phoenix, Ariz., Atoll, Mich. and Vancouver, B.C.

Pembroke Welsh Corgi Association

Mrs. Margaret Antenbring was elected President of this active Corgi club at the annual meeting held at the home of Mr. and Mrs. William Herger in Burnaby, B.C. Mrs. Leslie Belfit is 1st Vice-President; Mrs. Sheilah Roberts, 2nd Vice-President; Mrs. Doris Huggins, Secretary and Mrs. Lilian Timmins became an Honorary Member.

Reports Publicity Officer Gwen Locke: At the executive meeting held at the home of the President in North Vancouver it was decided to proceed with the Third Annual Specialty on June 27 at Coquitlam with a separate ring during the day of the Lions Gate KC All-Breed Show. Directors for various areas were discussed and the following asked to represent: Prairies, Mrs. Jean Cobb; Ontario, Mrs. Rosalie Harvie; Quebec, Mrs. Gwen Locke; Maritimes, Dr. Alison Mowbray.

Mr. Wally Bouthillier was asked to serve as Show Chairman for the 1970 Specialty and Mr. Rod Heartz to be Annual Awards Chairman. Mr. J. E. J. Parkinson of the well-known "Parmel" prefix of England has accepted an invitation to judge.

TERRIER GROUP

Let's Talk About Terriers

Barbara G. Pirrie
58 Wolfrey Ave., Toronto 6, Ont.

Well, they say that "no news is good news", but I'm afraid it's a bit disastrous if you're writing a column. We really do go from the sublime to the ridiculous, don't we?

Sorry about that chiefs! No ye olde newsbagge — no instant curealls, in fact without this delightful tale from the Bull Terrier newsletter, no nothin!

SQUELCHED!

A famous English judge, a Yorkshire man, was approached at a show by an exhibitor who felt his dog hadn't received his just due. He said he felt his dog should have received an award because he had "a wonderful pedigree".

"If tha' tak my advice, lad," said the veteran judge, "the next toime ther' goes to show, thou'll tak thy dog's pedigree wi thee, and leave dog at 'ome."

TOY GROUP

Papillon Notes

In Canada, through the tireless efforts of less than a half dozen conscientious and discriminating breeders, the Papillon is fast making a recognized place for itself in the Toy Group. Although it is still considered to be a rare breed, many prospective buyers have been attracted to the breed by the pert intelligence they display when on show, both in the kennel and in the home.

During the past three years, Canadian Papillons have continually taken group placings in both Canadian and American shows and several have done very well in Bermuda and Mexico. American breeders are now beginning to look to Canada for future breeding stock and Canadian dogs have stood first in Stud Dog classes at the Specialty Show of the Papillon Club of America in the United States.

It should also be mentioned that several breeders have been very successful in Obedience competition, a rather remarkable feat for such a small dog.

Recently in Mexico City, Ch. Wynfield's Petit Voyageur, owned by Mrs. Rosa Ionson, Wynfield Kennels, Georgetown, Ont., was awarded his fourth Championship and also the Federation Cynologique Internationale (F.C.I.) Certificate. This is the equivalent to a European Championship and is just one example of what our Canadian Papillon breeders have accomplished.

Yorkie Imports to the West

Mr. and Mrs. E. Chrustawka of "Checkmate" in Edmonton, Alta., have recently imported a female Yorkshire Terrier puppy from the Chantmarle Kennels of Mary Hayes in England. Chantmarle's Fancy Work, "a lovely bitch of correct color and deep tan" joins Ch. Nelmila Smokey Dollar at Checkmate and will be campaigned this spring and summer. Her sister, Chantmarle's Fancy Free, has been sent to Ruth Kozak in Vancouver and will also be shown.

Yorkshire Terrier Club of Canada

Yorkies now have their own club. The following are at the helm: Mrs. De Forest Simmons, Toronto, President; Mrs. Virginia Fredric, Niagara Falls, N.Y., 1st Vice-President, Show Chairman and Trophy Secretary; Mrs. Gladys Horts, Niagara Falls, 2nd Vice-President; Mrs. Shirley Berquist, Social Convener. Directors are Mrs. Margery M. May, West Los Angeles, Calif.; Mrs. Jeannie Martin, Port Credit, Ont.; Mrs. Doreen Hubbard, St. Lambert, Que.; Mrs. Marjorie

Irvine, Toronto; Mrs. Beryl Smith, Manotick, Ont. and Mrs. Barbara Kovacks, Cheektowaga, N.Y.

The young club has quite an international flavor.

NON-SPORTING GROUP

1969 — the year of the Chow

John C. Frederick Peddie, Publicity, Chow Chow Fanciers of Canada

Throughout the 1969 show season the spot light seemed to be focused consistently on the Chow Chow, for in the past year Chows have won more than in any other previous show season.

We, of the Chow Chow Fanciers of Canada, are justly proud of all our members who appeared under the lights last year. More of our members have achieved a Group 1st, and our puppies have captured more Puppy Groups and BCBP in Shows than ever before on both the West Coast and in Ontario.

At the Burlington and District KC show in September, it was an historic day as of the Chow entry, the two puppy dogs entered, both had attained the BCBP in Show award, and the four specials had each received a Group 1st, and two of them had attained the most coveted award of BIS, a remarkable achievement for any breed.

Our Specialty in October again saw history made, as to our knowledge we have never had two black Chows awarded WD and WB. The specialty was won by a consistent winner, Ch. Foo H'Sing's Fu Tu.

Two brother Chows tripled a win this year by taking Group 1st and BCBP in Group. Ch. Foo H'Sing's Fu Tu, and his half brother Ch. Foo H'Sing's Mister Linn Wu (subj. to CKC confirmation) did this remarkable feat three times last year.

Happy "Bar Mitzvah"

"Buda", one-year-old Chow Chow, was treated to a wow of a birthday party. Owners Herb Williams and Fred Peddie, Toronto, decided that "Now that he's one year old he's no longer a pup. He enters into the adult community of his canine family. Ch. Foo H'Sing's Mister Linn Wu has won, according to friend Joey Nattrass, "a record number of puppy wins for the Chow Chow breed". At the Greenwood KC show last October he went in the ring 12 times "and won everything he went in for".

The Poodle in the 70's

Mrs. I. E. Munro
Tweed, Ont.

Breeders help to create life. They can create a thing of beauty and joy or a living hell for some luckless animal.

Never before in the history of dogs have so many people in an affluent society made so much money from a breed, as from the Poodle. Unfortunately, when the dollar signs appear, so do the unscrupulous persons who ravage a breed, then move on to the next money-making project.

In the United States the "milltype" Poodle has so flooded the market the saturation point for all Poodle sales is approaching. In New York, the Sunday papers carry two full pages of pet ads, most of these being sold through "pet shop buying" litter lots. Answering an ad, expecting to find a reputable kennel, to find a "milltype" one instead in depressing condition, was shocking to say the least. It was impossible to count the number of Poodles in this kennel in the hour available — and nearly impossible to get a head count per cage due to overcrowding. The number of kennels like this in the States and Canada would be impossible to estimate. If the prediction is correct that Toronto in the next decade will be a metropolitan area of over three million, we can expect more and more "milltype" operations in all breeds to soar; not only in this area, but throughout Canada.

The shame of it all is that the original stock used by this type of breeder came from well known and reputable kennels. Remember, the people who exploit a breed have to get their breeding stock somewhere. And now is the time for breeders to worry — not in 1980 when it may be too late.

Canadian Wins Stateside

Canadian Miniature Poodles made their presence felt at the Eastern Dog Club Show held December 13 in Boston, Mass., reports Heather P. R. Drope, 6224 Quinpool Rd., Halifax, N.S.

From Halifax, the J. H. O'Flaherty's owner-bred eight-month-old Miniature Poodles, Algina's Gorgeous George, received 1st in the Puppy Dog Class and his litter brother went 2nd. The pair then went on to win Best Brace in Breed and 1st Brace in the Group over a brace of American Champion Bostons. They are sired by Am. Ch. Montfleuri Fennel of Burdisesal ex Ch. Gina's Prima Donna of Antrim.

Heather Drope's homebred Ch. Dubonnet Tom Collins, CD, earned his second leg on his American CD by scoring 191 in the Novice "B" classes.

Another Canadian winner was Ch. Kakshos Andre de la Fontaine, who went BW. He is sired by Am. Ch. Montmarte Matisse ex Ch. Asanta de la Fontaine, owned by Mrs. E. M. (Bobby) Ellis and breeder-agent is Mrs. Beth Smith of Rothesay, N.B.

Is This A Record?

Has any Standard Poodle topped this? Ch. Bibelot's Samantha Bewitched produced a litter of 14 pups December 17. The proud poppa is Int. Ch. Monfret Figaro. The exhausted nursemaids are Susan Fraser and Gloria Kyle, Toronto. □

PANNOVIA POODLES REG'D
STANDARDS

We've done it again! Another all brown litter, 4 males, 4 females, whelped Jan. 5, 1970. Sire: **CAN. CH. CHINOOK'S CAESAR THE GREAT, C.D.** (brn) dam: **BARBAROSSA'S CLEOPATRA O'BIBELOT, C.D.** (brn).

These pups are even nicer than the last litter (if that's possible). This is a repeat breeding that produced Pannovia's Bronze Adonis who is now being shown by his new owners. Break up a dull winter and come up and see our beauties; we'd love the company. There are some great show prospects here in a not too common color — BROWN.

DOGS & PEOPLE

Award: The Chakka Award was presented for the second year at the Christmas Party of the New Brunswick KC, Inc., Saint John, N.B. This trophy is donated by Samoyed breeders **Mr. and Mrs. C. Beesley** for the top-winning New Brunswick-owned and Canadian-Bred dog for the year, in competition covering some 40 shows.

The 1969 trophy went to the BIS-winning Whippet, Ch. Winterfold's Touch of Gold, owned by **Mr. and Mrs. Freeman J. Perry,** who are pictured with **Dr. John Wait.** Dr. Wait made the presentation on behalf of his wife **Marian,** who is custodian of the trophy but at the time was hospitalized. Mr. Perry is a newcomer to the judging world. Last year's winner, the Labrador Retriever, Ch. High-On Wrappingdale, owned by **Mr. and Mrs. Ernest Smith,** Fredericton, was the runner-up.

Greetings came to this office from across the continent. Enjoying them in a post-season quiet moment, we acknowledge with thanks and appreciation. They included messages from **Jack** and **Eileen Stewart, Mrs. Hilda Pugh, Bob and Enid Osborne, Mary and Mac Stephens, Joyce and Phil Prosser, Pat Tripp, Floyd and Ariel Sleeth,** photographer **Evelyn Hunter,** cartoonist **Jim Janeway and "Fluffy", Frank E. Jones, Barb and Ross Pirrie** and family, **Ruth and Red Lane, Hudson and Billie Kalloch, Dorothea Daniell-Jenkins, Ken and Bobbie Ellis and family, Betty and Fred Carter, Sarah and Irving Diamond, Braxton and Ruth Sawyer,** whose card depicted an early dog show illustrating the arrival of **"Idstone"** with his Irish Setters and the **Rev. Macdona** with his "Tell" and presumably the noted Mastiff, "Crown Prince"; **Dr. Jim Corbin, Allan Cliffe, Dennis and Casey Gardiner, Lorna Jackson, Betty and Alex Dickson, Ron and Anita Chapman and family, Evelyn, Charles and Andy McCullough, Gladys Pike, Wayne Campfield, Fran and Marion Maher, Rita Mayer** and so many others. Some of the cards bore color photographs of the family dogs. **Mrs. Nona Navin** sent a photograph of the wilderness which is now home to her, near the Yukon border. **Aaenchen and Tony Antonelli** with their own cleverly designed card. And Publisher **George Foley's** traditional green and red satin rosette bearing a Christmas prayer in gold lettering — a real treasure.

Smashin' fashion: When London, England shops produced a sartorial sensation by way of a maxi camel's hair coat for dogs and their mistresses mid-January, a great many British barked back. Said a spokesman for England's century-old RSPCA: "This is the kind of fashion in which the feelings of dogs are being ignored." Dogs, protested animal psychologists, "object to being dressed up." If all dog owners in Britain chose to protest or protect all at one time, they could bark a great sound. Of the pets owned by 20 million Britons, 5 million are dogs and another 5 million are cats.

First class accommodation aboard a trans-Atlantic luxury ship, superb cuisine, personal attention and the fare is only $50. If you are a dog, that is. Travel industry statistics show a marked increase in canine travel, due in part to today's high standard of living, unwillingness of owners to part with their pets and the new regard shipping owners are showing for pets. The accommodation is usually on the top deck, the same general area as the most expensive cabins, regardless of the status of the owner's accommodation. Personal care on board the *United States* is exemplified by the attention of kennel attendant **Al Euvrad.** From his experience German Shepherds, among other breeds, are susceptible to seasickness. He keeps one eye on the barometer and at first sign of heavy weather prescribes a reduction in food and water.

At the time it was said in fun. Greyhound racing was so much a part of the life of **Greta Pegg** of Doncaster, England her husband jokingly remarked that one day her ashes would be scattered on the track. It all came true. On a Saturday in mid-January a two-minute silence was observed during an ash-scattering ceremony at the tracks. Mrs. Pegg had died at the age of 63.

The great escape: A Vancouver man, trying to escape capture during what appeared to be a burglary attempt was chased by a dog on guard at a metal plating company. In his excitement he jumped into one of six big barrels. Five contained water, the one he entered held potassium cyanide. Police found him badly burned and nearly dead.

Toronto Humane Society to the rescue: A pet owner wrote "Action Line" in the *Toronto Telegram* that her dog had undergone two complicated and costly operations and was able to get about with his fractured legs in casts. After paying costs of the surgery and hospitalization she could not spare the money for the necessary cage to restrict the dog's actions. The Humane Society has loaned her one.

Montreal's Mayor Jean Drapeau has a new watchdog, a young Bullmastiff, who at the time of writing weighed about 90 pounds, but will undoubtedly add more weight. Last September the mayor's home was severely damaged by the explosion of a terrorist bomb.

Travellers: Mrs. Irving (Sarah) Diamond (Di-Mar), Town of Kirkland, Que., has returned from England where she attended the funeral of her father who passed away at the age of 85 . . . **Mrs. Marian Wait** (Island View), Saint John West, N.B. left on a cruise following a session in hospital.

Recuperating: Mrs. Bud (Hannie) Flanagan (Manderley), Brooklin, Ont., following sudden surgery New Year's Eve. Somehow Bud, apart from caring for Hannie, running the kennels and doing his own daily work, has found time to act in two plays . . . Collie breeder **Susan Hames** was rushed to hospital but is on the road to recovery . . . Miniature Schnauzer fancier **Chuck Carter,** Toronto, recovering from a sudden illness . . . **"Lady" Charlotte Walker,** Toronto, Canada's grande dame of dogdom, who celebrated her 100th birthday nearly a year ago, is in the Northwestern Hospital, Toronto.

In Memoriam

Long known in the field of Boxers and Terriers, **Ed Williams** passed away in late December. He had bred Boxers only latterly and had sold his kennels on Hwy. 7 ouside of Toronto. Some of his cabinet making skill was turned toward excellent wooden dog crates. At one time he also operated a pet shop on Yonge St. Mr. Williams was a contemporary of the late **Ted Ward, Jack Fry** and **Mr. and Mrs. George Davies** . . . Sympathy is extended to **Dr. Ellen Brown** (Balrene), Willowdale, Ont., in the loss of her father, **Sydney Brown.** And to **Mrs. Pat Dobbie Matthews,** Napanee, Ont., well-known Obedience judge, who mourns the loss of her baby son, following an accident . . . The name of **John W. Cross, Jr.** will be familiar to regular followers of the Westminster Kennel Club show. Mr. Cross had relinquished the chairmanship of the famous dog show after the 1968 event to become Senior Vice-President of the American Kennel Club. In the long history of Westminster he was chairman of 20 shows and was particularly active in encouraging Junior Showmanship. At one time he was a leading breeder of Bullmastiffs, and owned many other breeds.

Tell us about your kennel problems.

Gaines experts on kennel management, canine health and nutrition invite you to consult them whenever you have a problem.

RUNNING A KENNEL—and making it pay—is rough. For instance: How can you keep feeding costs down and still provide your dogs with a complete diet? Do you know how to build a professional whelping pen that doesn't cost a fortune? How can you advertise your kennel inexpensively? What goes into an efficient bookkeeping system? Do you know the best methods for sanitizing and disinfecting your kennels? How will you handle skin diseases, worms, dental problems, orphaned puppies?

Active members of the *Gaines Professional Service Plan* get answers to these, and many other questions, free. They simply write to Gaines.

You could have the same service working for you.

If you run a kennel of three or more dogs, you can join the Gaines Professional Service Plan. Besides free counselling, you get many other benefits.

As a member, you can buy any of the Gaines foods at reduced prices—Gaines Meal, Rally, Top Choice, Gravy Train and Gaines-burgers. Each is nutritionally complete. Each can produce a difference in canine health that you can actually see.

For more information on the Gaines Professional Service Plan, write to: **Mr. W. W. Campfield, Director, Gaines Professional Service Centre, Box 4019, Terminal A, Toronto, Ont.**
