Purina cites three more canine heroes

Three more courageous canines have been made members of the Purina Animal Hall of Fame. The fifth annual awards were made September 5 at the Hot Stove Lounge, Maple Leaf Gardens, Toronto. The owners were presented with inscribed portraits and the Hall of Fame Citation. Duplicates of the Citation portraits are hung in the corporate offices of Purina. The dogs received the equivalent of a year's supply of pet food.

Scarborough, Ont.
Wallace Connolly saved Jackie's life when he refused to have the part-Manchester terrier put to sleep when the small dog was partially paralyzed following a fight with a much larger dog. Connolly sought continued medical treatment from a veterinarian, and Jackie eventually recovered.

Two years later, the dog repaid the debt seven times over, when he was responsible for saving the lives of Mr. and Mrs. Connolly and their five children in a fire. He is seen here with Lee Ann Connolly, 17.

CH. DI-MAR'S WEE ALOHA
O.T. CH. DI-MAR'S WEE ZELDA

THIS MONTH'S COVER DOGS

This month we are proud to present two cover dogs, the Miniature Smooth Dachshund, Ch. Di-Mar's Wee Aloha, and the Miniature Smooth Dachshund, O.T. Ch. Di-Mar's Wee Zelda.

Wee Aloha finished her championship in four straight shows within seven days, undefeated in the breed, at the tender age of ten months.

First time in the ring she was awarded Winners and Best of Breed under noted judge Mr. Alva Rosenberg, Wilton, Conn., who spoke very highly of her, and completed her championship the same week under judges Mr. Phil Marsh, Tampa, Florida; Mrs. Yan Paul, Willowdale, Ont.; and Mr. E.B. Reid, Mesa, Arizona. She has since been shown in a limited way, taking the breed over well known Specials and placing in the Group. We thank the judges who recognized her quality.

O.T. Ch. Di-Mar's Wee Zelda, trained by Mrs. Trixie Reynolds, is the first Miniature Dachshund, any coat, to be awarded a Utility degree in obedience in Canada. Congratulations to her owners Ken and Trixie Reynolds. Wee Zelda, better known to her friends as Twinkle, is now working towards her tracking degree.

We also congratulate the Reynolds on the C.D. degree on Di-Mar's Odele and Donnerswald Kennels on the championship of Leading Lady of Donnerswald, sired by Di-Mar's Wee Ichabod.

Di-Mar has bred Miniature Dachshunds for over 19 years, and produced countless champions, and enjoys a fine record of Group placing.

Because of the many duties as a Director of The Canadian Kennel Club, our breeding and showing has been very limited for the past seven years. We do have two new litters, sired by the well known winner Ch. Di-Mar's Wee Gemini, out of Di-Mar's Wee Tranquility, litter sister to Ch. Di-Mar's Wee Tornado and Ch. Di-Mar's Wee Shouma, our cover dog last year, who is out of our English import, Ch. Shouma of Montreux.

Four champions are at stud, and visiting bitches are met at Montreal International Airport.

Cranbrook's 4th sanction match great success

CRANBROOK, B.C.—Sixty dogs and 300 spectators made the Cranbrook club's '72 sanction match a great success. Judges were Elmer Grieve, Groups 1, 2 and 6; Mrs. Joyce Doyle of Idaho, Groups 3, 4 and 5 while Charles Frances judged Puppy Sweepstakes and Junior handlers. A German Short-haired Pointer, owned and handled by Cliff Barley of Cranbrook, took the Sporting group while an Afghan owned by Stew Alor and Art Ladd of Spokane, Wash., took the Hound group. Wayne Haddad, of Cranbrook, saw his Saint Bernard capture the Working group and Charlie Willis, also of Cranbrook, won the Terrier group with his Scottie. The Yorkshire Terrier owned by Mrs. F. McKee walked off with the Non-Sporting win. BIS was awarded to the Scottish Terrier while a Saint Bernard owned by the Haddads took BP in Show. Puppy Sweepstakes was won by a Yorkie owned by Kathy Townsend with second prize going to Mr. G. Straath's German Shorthaired Pointer. Terry Woodruff was top Junior Handler and Senior Handler was won by Miss Anne McConnell of Cranbrook. Best over-all Junior Handler was also won by Terry Woodruff.

Litter from Royal Alliance not pedigreed

One of Queen Elizabeth II's Welsh Corgis recently had a litter of seven puppies sired by Princess Margaret's Dachshund. The breeding was not a misalliance but was planned by the owners, according to an item in *Our Corgi World*. The thought was raised by some Britishers that the pups were pedigreed since their full parentage is known. It was resolved by A. L. Binney, Secretary of the Kennel Club. "They are not eligible for registration," he said. "The Dachshund was evolved to chase badgers down holes and the Corgi to round up cattle. If anyone loses a herd of cattle down a badger hole, these will be just the dogs to get them out."

'72 Mid Canada show has more, more, more

by ALAN JENKINS

In theatrical parlance - and a good dog show is definitely a part of show biz — the 1972 edition of the Mid Canada dog show was bigger and better than ever, with an all star cast. There were more dogs, more exhibitors, more judges, more spectators and the whole production was more colorfully and impressively presented.

During the official opening ceremonies, complete with the famous Pipe Band from Thunder Bay in full Highland regalia, a city councillor presented, on behalf of the Mayor, the City of Winnipeg's Community Service Award to Dr. R. Gordon Mitchell, chairman of the Mid Canada Dog Association, in recognition of the contribution they have made in representing the community, at its best, to the rest of the country.

The exhibitors came from all over Canada and the United States; from as far East as the Maritimes and Connecticut, west as British Columbia and California and south as Alabama, Mississippi and Texas. And the quality of dogs they brought to exhibit, plus the calibre of dog now being shown in this area, was the subject of admiring and pleased comment from the many judges present.

The judges, too, came from all over; Don Foster from St. Catharines, Ont., Richard Hensel

Highest scoring dog in trial all three days was the Miniature Poodle, Sir Beauregard of Kingsberry, owned by H. and Mrs. James D. Jackson of Minnesota.

from Colombus, Ohio; Edna Joel from Toronto; Kurt Mueller from Manitowoc, Wisc; Megan and Robert Nutbeem from Newfoundland; Eleanor Pawson from Regina; Anthony Stamm from Kalamazoo, Mich; Joan Tudor from Surrey, England; Hollis Wilson from Amhurst, Wisc; and, from Winnipeg, Eda Mitchell, George Taylor and Gordon Ashcroft.

The Red River Terrier Association Specialty Show was held on Saturday and judged by Mr. R. Hensel of Colombus, Ohio. Best Terrier award was won by a Kerry Blue, Ch. Bluestone Ready Raider, owned by Mr. Laurie Diamond, a dedicated dog fancier and assistant chairman of the Mid Canada Dog Show Committee.

The one year old Golden Retriever Club of Manitoba held their first Specialty Show also on Saturday, and a rip snorting success it was! Mrs. Joan Tudor was invited to Canada (her first visit to this country) to judge the show which was won by Mr. and Mrs. R. A. Olson's handsome male, Camrose Moriarity.

The breed booster shows are on the increase. There were more than ever this year and they are bringing about an interesting development. From last year's booster shows three new breed clubs have been formed; the Labrador Retriever Club of Manitoba, the Norwegian Elkhound Club and the Basset Hound Club. More such clubs are expected to be formed following the excellent entries in the booster shows this year.

MID CANADIANA

Two outstanding exhibitions were presented for the entertainment and edification of the large audiences. On Saturday, the Manitoba Sled Dog Club staged a demonstration of working sled dogs and their equipment. They explained how to harness the dogs and the various uses of their equipment.

On Saturday and Sunday the German Shepherd Dog Club, as they did last year, presented their Drill Team and Obedience Display and showed us all superb examples of dogs and trainers working in harmony—with precision team work, ladder climbing, high jumps and all manner of crowd-appealing exploits....last winter the Siberian Husky people became enthusiastically involved with sledding and staged a number of hotly contested events over the season. The Golden Retriever Club has been holding retrieving sessions and field training classes and during Mid Canada week Mrs. Joan Tudor also judged a working certificate trial for the members, early Sunday morning. The Golden people graciously allowed members of the newly formed Labrador Retriever Club of Manitoba to run their dogs, unofficially, at the same time....the Mid Canada Committee are eager to encourage all breed owners to get working certificates for their show dogs wherever this is possible. It is their dream that some day soon Mid Canada will be able to stage a week long event which will incorporate working certificate trials for many breeds with only those dogs entered in the conformation shows eligible to compete.

Winnipeg Councillor Florence Pierce presenting Mid Canada Chairman Dr. R. Gordon Mitchell with City of Winnipeg Community Service award.

Judges and dignitaries being welcomed by Dr. Gordon Mitchell during opening ceremonies.

Admittedly, Working Certificate trials are not in the same league with field trials but this is a giant step in the right direction and it is to be hoped that the committee's dream comes true...the judges' reception on Saturday night was a real success. Highlight of the occasion was the surprise party for May and George Lammiman who were presented with a beautiful gift of crystal stemware and an enormous multi-candled cake, on the occasion of their 25th wedding anniversary...Megan Nutbeem is the sister of Frank Moores, the Premier of Newfoundland, and Anthony Stamm is a State Senator for the State of Michigan. Despite these political overtones it can confidently be surmised that, dog show people being so myopically wrapped up in their own thing, the subject of politics was never broached by anyone to anyone at any time....the specialty and booster shows produced some very beautiful trophy di different themes. The Setter trophies were cry played on deep blue vel drapery. The Doberman trophies were all coppe pictures, made by a gift ber of their club....the ri ards and many of the turned up in the eveni group judging, in forma and dinner jackets—it's see that, now, not only are well groomed.

Friday's BIS the Keeshond, Ch. Reydorp Blast Off, handled by John Heartz, owned by Mrs. C. D. Beesley. Judge, Robert Nutbeem; presenting "The Bay" trophy is Barry Agnew.

BCBP in Show, Saturday and Sunday, was Terrier, Mr. Wiggins, handled by owner Pau shown here with judge Kurt Mueller and Sh retary Mrs. M. Lammiman.

BIS on Saturday was the Scottie, Ch. Firebrand's Bookmaker, handled by owner John Sheehan. Judge, Kurt Mueller.

Mrs. Edna Joel chose the Golden Retriever, Chimo, as her BIS on Sunday. This dog, hand owner Hugh D. Sutherland, came all the wa Senior Puppy Class. Centre is Mrs. Joan Tudor English judge of this breed.

Fish hook removal method

"Sooner or later you are going to be called upon to remove a fishhook from a companion, stranger, or possibly yourself," says *Sports Afield*, outlining the "snatch out" method of fish hook removal.

This new procedure is described as less painful than cutting the hook out, and with less worry about infection. First, remove the hook from the lure, if possible. Second, make a foot-long loop of fish line. It should test 30 pounds. If the line tests 15 pounds, make a double loop; if it tests ten pounds, make a triple loop. Third, place the loop around the back of your hand and bring it out between the thumb and forefinger. Fit the loop snugly around the bend of the hook. Fourth, push downward and outward on the buried barb of the hook. The moment this pressure is applied, snatch out the hook with a vigorous jerk of the loop. Only a tiny hole will remain in the skin. Fifth, apply antiseptic salve and a bandage.

Do not try this method hook is buried near an large blood vessel. In thes es, prompt medical attent necessary. Although "snatc is intended for human u might be that the compan even the stranger is canine.

Maybe she's just dog tired

It seemed so thoroughly English for a judge to write in her show critique that the reason why she did not put a particular dog up was because, in her opinion, he was show-weary and nee rest for a while. But give little thought. In the scram put one's dog in top place fair to force the unnatural life on him all season long" in the final analysis, is it perhaps, self-defeating?

One can call to mind dogs that were real flyers fo or two seasons and then si faded from view when should just have been reac their true show potential. they pushed into show-wear and finally downright rebel It is something to think about

CORRECTION

The caption in the Blue Book advertisement for Ch. Wisherwoods Wee Jock (page 40, July 1972 *Dogs in Canada*), owned by Miss Jean Westwood of Victoria, B.C., incorrectly identified the judge shown in the photograph as Mr. Don Fitzgerald. It should have read Mr. Vic Williams.

People

"DROP-IN": That is the name of the CBC television show which on November 6 bases a half hour of footage on the Harbour Beem kennels of **Megan and Bob Nutbeem**, Harbour Grace, Nfld. The film is based on the noted kennels of Newfoundlands, the dogs and family. As times of showing vary across Canada, please check your local listing.

HOBBYIST: Mrs. Chris Wells of Scarborough, Ont., has a hobby which may well develop into a business. Owner of five Toy Poodles, she began making outfits for them and has since expanded to nylon net snoods for Afghans, show suits, sweaters, hats, bonnets and raincoats. Several veterinarians have approved the practicality of her work. For "difficult times" she has created "Sure Do's", sequin covered, washable mini-panties which she sprays with No-Mate. "If they have to be utilitarian, they might as well be pretty," says Mrs. Wells. Her address is 7 Lockie Ave.

IMPORT: While on vacation with the noted trainer **Billy Wunderlich, H.V.P. (Bumpy) Lewis** attended field trials at Fargo, N.D., and Sioux Falls in S.D. While there he purchased a Labrador, won an Open All Age stake and trophy for best amateur handling. Mr. Wunderlich, who judged the Indoor Retriever Trials at the Canadian National Sportsmen's Show several years ago, has a 100-acre farm with lake where he trains and boards up to 125 dogs and keeps a herd of 100 Black Angus cattle. He trains exclusively for **Mrs. Lambert** (of Lambert Pharmaceuticals).

ONE TO WATCH: Sixteen-year-old **Joanne Sorfleet** of Ottawa, now in Grade XII, has the makings of a fine handler. A gift of a brown Miniature Poodle became a family of four brown puppies sired by Ch. Kizilay's Kubla Khan on "Labor Day", 1966. Three years later Fifie produced three more brown puppies, sired by Ch. (Can. & Am.) Tophill Topflite. Joanne showed Bellefleet Guinevere until she was 14 months old. Since her family permitted only two dogs, she sold Jenni to buy Genevo's Chandra of Bellefleet from **Mrs. Margaret Auns**, also of Ottawa. From May 1971 on Joanne and "Tammy" have won steadily, with the former gaining recognition in Junior Handling competition as well as adult. Last October Joanne purchased a male puppy and has hopes for him as an adult. Joanne's more recent personal triumph was as Best Junior Handler at Brockville August 20. She does all her own trimming and showing, covering the expenses of her Bellefleet kennels by pet clipping. Her chief ambition is to become a veterinarian. This young handler appears in Recent Winner, this issue.

TWO FROM ENGLAND: Bob-John Ellieff and John Dean, Heilandglen Kennels, Toronto, have imported and are delighted with their Miniature Poodle, Beritas Bindi, purchased from Myster House, England. Myster Marcus will arrive shortly. These Poodles have an outstanding show background. Sire of Beritas Bindi is Ch. Beritas Ronlyn's Rockafella; her dam is Montmartre Martianne. Sire of Marcus is Mickey Funn of Montfleuri, who went Reserve BIS at Windsor, England, with 7,000 dogs competing and two weeks later went BIS at Peterborough, England, which was attended by 100,000 exhibitors and spectators and drew an entry of 5,800 dogs. His dam is Beritas Beach Girl.

RECUPERATING: Bud Flanagan, Manderley Kennels, Brooklin, Ont., who suffered a stroke in April, is getting back into the swing of things again. Among activities at Manderley: the tearing down of their home of many years and rebuilding of a new house on the site . . . Canadian Kennel Club Director **George Kennedy** of Oakville, Ont., recovering after a session in the Trafalgar Hospital.

TRAVELLERS: Barbara Dominski, Toronto (Glentadbar Scottish Terriers) and family, to Florida where they visited **Louise Ellsworth,** (Ellscot Scottish Terriers) but had to cut short visits to other kennels and the Greater Miami Scottish Terrier Club meeting due to illness of one of the children.

ily of **Adam Luft,** Calgary, Alta., Schipperke breeder under the prefix Adsam. Well-known in obedience circles as well, he was preceded by his brother **Sam,** whose death was reported in the August issue of *Dogs in Canada*.

FORTUNE FOR DOGS. After years of litigation 81 stray dogs have inherited approximately $14 million from the estate of their late mistress, **Eleanor Ritchey,** Fort Lauderdale, Fla., heiress to the Quaker State Refining Corp. When she passed away October 14, 1968, Miss Ritchey left her then $4.5 million estate to 150 stray dogs. Relatives not participating in the proceeds contested the will. Meantime 69 of the dogs have died. Miss Ritchey had cared for muts to pedigrees. They now live in a modern clinic on a 180-acre ranch near Deerfield Beach, Fla. Cost of dogs' food and housing, approximately $17,000 annually with an additional $12,000 yearly for weekly medical checkups and treatment. Propogation is discouraged by separate male and female quarters, but accidental offspring would be eligible for benefits from the estate. When all have succumbed, the estate is to be passed on to the Auburn Research Foundation, Auburn University, Alabama, for study of small animals diseases.

MIXED BREEDS INVITED: Obedience training enthusiast and downright hardworker **Mrs. Grace Probert,** Willowdale, Ont., who has done so much for training of pure-bred dogs, has launched yet another program—the founding of Canadian Canis School which mixed breeds as well as unregisterable pure-breds are invited to attend. Classes are being held at the Richvale Lions Club. Sirius, brightest of all the fixed stars in the heavens, will be the emblem of the new school.

Dog care clinics

This year dog fanciers approach the winter slowdown in a changing atmosphere. So much hostility is being directed against dogs, their owners and the nuisances they commit that it seems a good time for local clubs to give some serious thought to better dog-community relations. It could be a very rewarding way to spend those idle weeks.

Obedience classes, of course, promote better canine citizenship. But these sessions reach only a small segment of the dog-owning population.

Another, and equally worthwhile project is the "dog care clinic", a class of instruction in routine dog care conducted by club members and open to all interested dog owners. Please note that *all* means exactly that—crossbreds need care and attention too.

Whenever such classes have been held, it is reported, the response to them has been excellent. Such classes are a good way for the public and local club members to get to know one another better, they benefit both the dogs and their owners but, best of all from the club treasurer's point of view, they are a good will gesture that costs nothing more than a little of the club members' time and effort. The rewards more than justify this expenditure.

Air pollutants

One of the most interesting theories to be advanced in some time appeared in the science column of an overseas dog magazine. The columnist, a veterinarian, suggested that one explanation for the apparently spontaneous occurrence of some physical disabilities in dogs could be related to air pollution.

As an example, he cited the case of one breed which, with no previous history of the malady, is now being afflicted with progressive retinal atrophy, PRA. In his country, several such cases have been reported and he states that the situation has mystified geneticists.

The writer bases his theory on the fact that the inheritance in other species, including man, can be adversely affected by prolonged or extreme exposure to air pollutants. For example, according to a California study reported in the press some time ago, car exhaust fumes were indicated as one pollutant known to alter genes in man. This being the case, it seems reasonable to assume that dogs, too, could be similarly affected.

The writer has a point when he also suggests that this is one area of research worth exploring and should be given top priority.

We see it as another good reason why dog breeders should keep complete and accurate health records on their stock. Who knows—someday the data you save could help to save your breed.

The Collie

God looked down to earth,
from his heaven;
Saw a child, with his Collie at play;
The dog watching over the baby,
Ever watchful, lest he stray away;
God thought "Such a faithful creature",
I'll give powers to his kind alone;
A mind, so alert ever watchful,
Of the loved ones to whom he belongs.
A nature so kind and loving,
In his presence life's worries are gone.
He has a way, of making you feel,
Things will be all right before long,
God's masterpiece—The Collie,
Keep us mindful of his worth,
Help us keep him as God intended,
A bit of Heaven on earth.

Still Missing—have you seen her? Chihuahua, female, born September, 1971. White with black patches (tan cheeks), last seen wearing a red collar. May yet have a tiny scar on right side of her head. You would have to look hard to find it. Lost July 21, 1972 at Clear Lake, Man. Last seen reportedly at F. 3 tent site. Deeply missed by her family and friends. A reward is offered for her return. Anyone knowing the whereabouts of this little dog please call collect 807-825-3892, Mrs. Jean Pinkerton (owner), Terrace Bay, Ont. or get in touch with the writer—*Joy Spearman, Miamigo Kennels Reg'd., 26 Ida St., Dauphin, Man.*

Heartfelt thanks
So many people helped us at the Barrie show when our camper bus caught fire that we would like to use this medium to thank them all. Those whose names we know have been thanked personally but there were so many who were strangers to us and this is the only way we have of expressing our sincerest thanks. To the men who literally tore the back off the bus to rescue our puppy; to the lady who worked on him and gave him oxygen; to those who offered us shelter and bedding; to all those who donated to the fund set up for us; and especially to the Barrie Kennel Club for all their help and their generous donation—thank you so much.—*Alfred and June Hurst, Oshawa, Ont.*

Dog license monies for animal experimentation
Our New York State is proposing a new dog-licensing law which makes me heartsick. It proposes to use license money to experiment on dogs in laboratories. I am violently opposed to this. I think all dog lovers should unite in refusing to buy licenses at all under these circumstances.

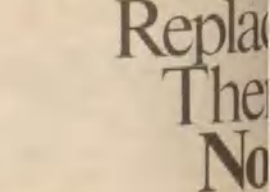

When I think of the thousands of dogs being tortured in laboratories, I cannot sleep at night. Dogs trust you so. They even lick the hand that tortures them.

Would you please read the enclosed, and if you agree with it, say a word about it in your magazine?

Somebody, somewhere, somehow has got to help these dogs. They cannot speak for themselves.—*Mrs. Genevieve Crossfield, 108 Fairmount Ave., Salamenca, N.Y. 14779.*

Nutrition is combination of many ingredients

To the dog, nutrition is his very life, for nutrition concerns nutrients and what these nutrients do for the body in relation to growth, maintenance, reproduction, lactation, and general well-being.

Food furnishes fuel to provide energy for all the body's activities: it supplies the structural materials for growth and repair of all the tissues, and provides the substances which serve to maintain the body's regulating systems and the physical-chemical conditions within the tissues and body fluids. The nutrients required to fulfill these needs are: (1) Water, as a medium in which all of the chemical reactions take place, and for lubrication; (2) Carbohydrates for energy; (3) Fat for energy, as a carrier for fat-soluble vitamins, and as a source of essential fatty acids; (4) Proteins for muscle and organ tissue growth and replacement, and to build enzymes and hormones; (5) Vitamins to regulate the vast number of reactions constantly going on in the body; (6) Minerals to build and replace bones and teeth, for enzyme functions, and to firm up the soft tissues. These are the nutrients of the diet and they are needed in a continuous supply each day, in the proper balance, for optimum health.

OPTIMUM NUTRITION has been described as the supply of all elements necessary for the dog's entire bodily functions. A dog secures this from a complete food supply which provides all the nutrients needed by his body and, most important, in the proper ratio to each other, to enable him to receive the maximum benefit from his diet.

WATER

Since the concentration of water approaches 70% of the body weight of an adult dog, it is obvious that the normal dog must have free access to water to maintain fluid balance. The higher the protein content of food, the more water required to dilute the urea resulting from protein metabolism. Dogs will spontaneously maintain the proper water balance if they have water available.

CARBOHYDRATES

Carbohydrates are complex chemical structures. They include starches, sugars and celluloses. The dog is not known to have any specific requirements for carbohydrates but they have an important role as a source of calories. It is well known that dogs can efficiently use large amounts of carbohydrates in balanced diets.

FATS

Fats, like carbohydrates, are also a good source of calories. Fats are complex substances made up of carbon, hydrogen and oxygen. There are two sources of fats: fats from animals, such as lard, butter and beef tallow and fats from vegetables such as corn and/or soybean oil. Fats are required for health and for greater palatability of foods.

A diet too low in fat can bring about a dull, dry, unthrifty haircoat in a dog and furthermore be tied up with poor skin or dermatitis. Another reason why fat must be adequate in the diet is because some vitamins are incapable of being utilized if fat is not present.

PROTEINS

Protein is a complex chemical substance that is made up of amino acids in combination with carbon, nitrogen, hydrogen and oxygen. Some of these amino acids cannot be synthesized within the body at a rate fast enough for tissue development. These are termed "essential".

If one of these essential amino acids is present at less than its optimum level, the others can be utilized only to the extent of the one that is in short supply. The amino acid make-up is responsible for the quality of a protein. The essential amino acids are histidine, leucine, isoleucine, lysine, phenylalanine, methionine, threonine, tryptophan, valine, and arginine.

VITAMINS

Although vitamins in themselves do not contribute to the energy supply of the body, they facilitate certain processes of the metabolism. They are concerned with keeping a balance between the anabolic (constructive) and catabolic (destructive) changes in the cells, and they help to resist disease.

Vitamins may be divided conveniently into fat-soluble and water-soluble groups. The fat-soluble vitamins are: A, D, E and K. The water-soluble vitamins are: thiamin (B1), riboflavin (B2), niacin, vitamin B12, pantothenic acid, biotin, folic acid, choline, inositol, and ascorbic acid (vitamin C) and pyridoxine (B6).

It is well to remember that a diet over-supplemented with vitamins to the point where the vitamin level is so high that it becomes toxic can be actually poisonous to the dog.

MINERALS

The NRC has placed 12 minerals on its list of nutritional requirements. Each feeding of a proper diet should supply the dog with magnesium, manganese, calcium, iron, phosphorous, copper, cobalt, iodine, potassium, sodium chloride and zinc. All of these minerals are needed in minute amounts with possible exceptions of calcium and phosphorous. The proper balance of these two is probably the best documented of all the minerals. A ratio of 1.2 parts calcium to one part phosphorous is thought to be optimum for these minerals. When we have a diet for a dog with a calcium and phosphorous ratio that is not close to this proportion, it is going to directly affect the dog's utilization of these two elements. A good example of a poor ratio of calcium to phosphorous is muscle meat which has an approximate ratio of one part calcium to 20 parts of phosphorous. Studies have shown that dogs fed on all-meat diets do develop skeletal problems. The bone actually becomes resorbed.—**Submitted by P. Brown, Breeders Choice**

Going from 43 to 41 nutrients* is one way for us to save money.

And lose customers.

So at Purina we never will. You and your dog can depend on that. But if someday science discovers a 44th—presently "unknown"—nutrient helpful to dogs, we'll add it to the 43 already in Purina Dog Chow. You can depend on that, too!

*Purina Research Farm Fact: Last year, we conducted more than 135 growth, breeding and maintenance tests to insure the completeness and palatability of Dog Chow. Each ingredient we use is checked against rigid specifications—as is the finished product itself. Result? A consistent, quality food nutritionally unsurpassed by any other.

Obedience

Send correspondence direct to Jake Giacomelli, 51 Wardrope St. S., Stoney Creek, Ont.

I'll be glad when the cool training weather starts again. Somehow, in the hot and often humid months of July and August I seem to lose complete interest in training, and can tell by his actions that my dog does too. However, as the weather gets a little cooler he is forever nudging me and simultaneously giving out with those short, little "whines" as if to say "Come on, this is boring! Let's go out and do something," which in the not too distant future I shall comply with, as the urge to become active again grows within.

It's surprising how, as the years in judging obedience trials slip by, you'd think that by now everything that could happen in obedience has happened and you are ready for any eventuality. Well, I've come to the conclusion that this "status quo" may never be reached—there is always something new.

At an outdoor trial in the States a few months back, a couple of dogs had relieved themselves at two different locations, thereby playing havoc with the heeling pattern space that was left to me. Both of these dogs received non-qualifying scores for their efforts. By now I'm starting to get a little edgy—one more piddle or the reverse and I'm in deep trouble. I just wouldn't be able to find a spot upwind, away from these distracting odors within the confines of my ring.

As my good fortune was holding up, true to form a third dog on a halt while heeling appeared to start squatting. In my anxiety I exclaimed to the handler, "quick!—Get him out of the ring, and have him do it outside——I've no fouling room left." The slightly bewildered handler shouted "Fido, no," and started to lead the dog to the ring exit. After what appeared to be an eternity the dog just wouldn't relieve itself anywhere, so I finally called the handler and the rather indignant dog, at this point, (so I thought) back into the ring to resume the exercise.

Had the dog fouled outside the ring there was no question in my mind I would have failed him, because his intent (so I thought) to do it in the ring was there and I merely wanted to save my ring from additional aromas.

Doubts assailed my mind—was it really going to relieve itself?—or was it just making a queer looking sit because of a prickly weed stem sticking into its bottom, or did all the excitement I initiated banish forever any feelings the dog may have had at that time for nature's calling.

One thing I knew for certain—I couldn't fail this team for a relieving that never occurred. I remember saying to the handler, "Well, that's one on the house. You really can't be failed for something that never happened."—decided from that moment on I would never make any motion to interrupt a dog while relieving itself—simply would have to wait until the *bitter end*.

Didn't realize how soon this decision would be put to the test. About two dogs later another canine friend decided to grace my ring with additional waste matter. This time I waited to the stinking end. The feeling was growing within me that the dogs that were being brought into my obedience ring (after a quick scent of the surrounding area) thought they were in the local exercise ring.

Indoor rings can be cleaned and deodorized fairly well but outdoor rings seem most difficult; especially if there is good thick grass underfoot.

Have been seriously giving some thought to carrying a few triple-folded pieces of stiff plastic sheets in my suit pocket in order to have a quick pooper scooper to slip under a dog's going end so as to perhaps help save my ring from complete disaster.

Forgive me if I've belabored the point, but thought you might enjoy the humor of my predicament. The Italians have a good axiom for such happenings—it goes like this—"Che, sera, sera"——What will be, will be! Blotting paper, anyone!

In the Field

POINTERS

Address correspondence on Pointers in the field to Wm. McClure, Box 15, Manotick, Ont.

Taking your puppy afield for his first hunting season presents some special challenges to your capacities for self discipline.

This month, if your pointing dog is in his first or even second season, please don't shoot birds over or rather around him that he hasn't pointed. The temptation is great to bag some game but must be resisted if the training you have done with your dog is not to be spoiled. What you really want to do is to reinforce his pointing instinct by rewarding a solid point on a bird with a clean kill which he can retrieve. Killing a bird over a young dog which he has not handled may reinforce behavior that you will live to regret. If the dog accidentally or "by purpose" flushes a bird in these October woods and you kill it (the bird not the dog) "ole Zeke" may conclude in his wisdom that his task is to get 'em airborne. Have you ever tried to teach a dog to point after he has given it up? This kind of training problem provides fodder for all the pen and paper trainers in North America but believe me sportsmen, it is not as easy as they make it sound.

On the positive side I can urge you to enjoy October by watching your dog. While watching him, try your best not to think of the heavy bag of game you are about to make. Clear your mind of the generous thoughts you keep having about how brilliant everyone is at your office.

Instead, concentrate on what your dog is doing. After you have mastered the art of thinking about what he is doing right now, you are ready to teach yourself a further discipline. Now October sportsman, you may if inclined, start to wonder what your dog is about to do. "Future Shock" is really lessened if you have some idea of what the probabilities are. This can be fun, but is also a discipline for you. Glancing ahead of where the dog is working, you see a woodscorner containing an old apple tree, two small hawthorn trees and wild grape vines covered with fruit. Just in front of this idyllic scene winds a small brook. Your young dog has not yet had enough experience to put together the messages from sight and smell of such an autumnal wonder. The grapes, apples and haws are the Thanksgiving dinner for Mr. Grouse. Your task here is to quietly caution your dog as to the impending action. In addition, as your young pointer approaches the fence corner you must watch him and not clutch your fowling piece in wild anticipation of heavy game bags.

By offering command reinforcement to his stylish point on the three grouse under the grape vines you add to his training and experience. Your quiet words of caution just before he winded the birds have left "old Zeke" with the haunting thought that just maybe you know where the birds are. Like all good pedagogues you should never do anything that

Heroes —*from page 1*

January, the family were fast asleep when Jackie started barking and pawing at the bed of 18-year-old Wallace Connolly, Jr., and woke him just in time to get everyone safely out of the house. Moments later, the family stood in the snow and saw their home completely destroyed by the fire which had started in the basement from faulty wiring.

Scamp,
Gravenhurst, Ont.

Scamp, a five-year-old female farm dog, mostly German Shepherd, has been inducted into the Purina Animal Hall of Fame in recognition of her intelligence and devotion to her owner, Jack Ruttan, whose hip was broken when his tractor crashed down a steep 40-foot embankment on a lonely farm road. The clifflike area was so heavily wooded, neither he nor the tractor were visible from the road.

Scamp, the farmer's constant shadow, tried to attract attention when Mr. Ruttan's brother Albert drove down the hilly road leading to the farm. Unsuccessful at first, she returned to the injured farmer to lie beside him and keep him warm. Some hours later the brother again drove along the road, and Scamp again went into a frenzy of barking and refused to let him pass. Her strange behavior moved him to investigate and he followed her down the embankment. At the bottom he found his brother Jack, amid the broken trees beside the smashed tractor.

Jack Ruttan recovered from the accident after months in hospital but his injuries still prevent him from working the farm. And he knows that he undoubtedly owes his life to Scamp.

Trooper,
Wellington, Ont.

Coincidence played a major part in the drama in which Trooper is credited with saving the life of Prince Edward County Warden Ross Benway, when fire completely destroyed his farmhouse at Hillier.

Trooper belongs to Ross Benway's friend, Daryle Boyce. Mr. Benway had taken Trooper to the farm with him for the winter to give the dog more open space in which to run. Part Walker Hound, part Redbone, the rangy four-year-old hound had been an inseparable companion at hunting camp.

On the night of March 13, instead of sleeping outdoors in his kennel as usual, Trooper chose to sleep on a mat inside the farmhouse. But at 2 a.m., he jumped onto Ross Benway's bed clawing and howling until the man awoke, suffering from smoke inhalation. He heard the crackle of flames raging through the house, and threw Trooper through the nearest window, to the ground ten feet below. He was blown through the window himself as the fire exploded into the bedroom. The entire house was burned to the ground.

MEETING of THE BOARD OF DIRECTORS

The regular meeting of the Board of Directors of the Canadian Kennel Club was held Saturday, July 15th., 1972 in the Board Room of the Canadian Kennel Club's Offices, 111 Eglinton Avenue, East, Toronto 12, Ontario.

Present at the meeting were:

Mrs. Anita Chapman, Dr. R. D. Crawford, William Dawson, Mrs. Irving Diamond, E. R. Dixon, George H. S. Kennedy, Mrs. Evelyn Kenny, Dr. M. I. McArthur, Mrs. Hilda F. Pugh, and Mrs. Marian Wait.

Chairman: Mrs. Hilda F. Pugh, President.

Following is a resume of items of broad interest brought before the Board at that date.

REGISTRATION DIVISION:

The President, as Chairman of the Registration Division Committee, made report to the Board of recommendations submitted by the Management Consultant Team of the Canada Department of Agriculture, with regard to registration procedures, and, of the working relationship that was established between Mr. S. Bosloy of the C.D.A. and the Registration Division Committee during the survey.

The Board then entered into an in depth discussion of the Report submitted by the Registration Division Committee together with the draft of recommended registration procedures as prepared by Mr. Bosloy.

The Report of the Registration Division Committee was accepted for immediate adoption and, at the same time, it was unanimously agreed that a letter would be addressed to Mr. F. E. Payne, Director of the Livestock Division, C.D.A. expressing the Board's appreciation for the excellence of Mr. Bosloy's Report, for the speed and consideration with which it was prepared and submitted, and for the courtesies which Mr. Bosloy had extended to the Registration Division Committee.

Mr. N. F. Brown, Executive Manager, referred the Board to the draft of a proposed new system of registration circulated to Directors in June at Board request. The system, conceived some years ago, was of necessity set aside due to the position of the Club throughout almost all of 1971. The Executive Manager further reported that a copy of this proposal had been supplied to the Management Consultant early in the survey and there was indication that to some extent this material had been helpful in the preparation of the new system.

A letter from Mr. Ted Gundersen, for many years the Club's Registrar in the Canadian National Livestock Records, was read concerning the subject of Civil, Military

PROPOSED NEW STANDARD FOR THE DALMATIAN

A proposed new standard for the Dalmatian is published here-under. This proposed new standard will be considered by the Board of Directors of The Canadian Kennel Club. Persons and clubs having an interest in the proposed standard are invited to submit their comments for the consideration of the Breed Standards Committee and the Board of Directors, all such letters to be addressed to: The Secretary, The Canadian Kennel Club, 111 Eglinton Ave. E., Toronto 12, Ontario, so as to be received not later than December 31, 1972. When writing please refer to file 7 R 10.

1. ORIGIN AND PURPOSE—The Dalmatian is thought to be of Central European or Mediterranean origin and is known at least from the middle ages. Because of its affinity for horses and capacity to travel great distances at a steady pace, it came to be used as a dog to run with and guard coaches and was known as a stable dog. Even later, the Dalmatian became popular as a dog to travel with and guard horse drawn fire fighting equipment especially in the United States of America.

2. GENERAL APPEARANCE—The Dalmatian should be a well balanced, strong, muscular and active dog, free from coarseness and lumber; capable of great endurance and speed compatible with its purpose.

3. TEMPERAMENT—A lively, active dog of good demeanour.

4. SIZE—Overall balance is of prime importance and the height of dogs ideally is 22 - 24 inches, bitches 21 - 23 inches.

5. COAT AND COLOUR—The coat should be short, hard, dense and fine, sleek and glossy in appearance, but neither woolly nor silky. The colour and markings are most important. There are two acceptable colours: white with black spots and white with liver spots. The ground colour should be pure white. Black spots should be as deep and rich as possible. Liver spots should be of a colour closer to chocolate than to tan or yellow. The spots should not intermingle, but be as round and well defined as possible, the more distinct the better; in size they should be from that of a dime to a half dollar. The spots on the face, head, ears, legs, tail and extremities should be smaller than those on the body.

6. HEAD—Should be of a fair length exhibiting a moderate amount of stop, and not in one straight line from the nose to the occiput bone.

a) SKULL—Flat, rather broad between the ears and moderately well defined at the temple. It should be entirely free from wrinkle.
b) MUZZLE—Should be long and powerful, never "snipey"; the lips clean, fitting the jaws moderately close.
c) NOSE—In the black-spotted dogs, should always be black; in the liver-spotted dogs, always brown.
d) MOUTH—The teeth should meet in a scissors bite. The incisors of the lower jaw should touch very lightly the bottom of the inner surface of the upper incisors.
e) EYES—Should be set moderately well apart, and of medium size, round, bright and sparkling, with an intelligent expression, their colour greatly depending on the markings of the dog. In the black-spotted dogs, the eyes should be dark (black or brown); in the liver-spotted dogs, they should be lighter (amber or light brown). Blue or partly blue eyes are undesirable and should be penalised.
The rim around the eyes in the black-spotted dogs should be black; brown in the liver-spotted dogs. No dog should have flesh-coloured eye rims.
f) EARS—Should be set on rather high, of moderate size, rather wide at the base and gradually tapering to a rounded point. They should be carried close to the head, be thin and fine in texture, and always spotted, the more profusely the better. Solid black or liver is undesirable.

7. NECK—The neck should be fairly long, nicely arched, light and tapering and entirely free from throatiness.

8. FOREQUARTERS

a) SHOULDER—Should be well-laid, not straight, and should be clean and muscular denoting speed. It should be laid flat against the body.
b) LEG—The forelegs should be perfectly straight, strong and heavy in bone; elbows close to the body.
c) PASTERNS—Pasterns should be straight.
d) FEET—Forefeet should be compact, with well-arched toes, and tough elastic pads. Nails in the black-spotted dogs should be black or white; or a nail may be both black and white; in the liver-spotted dogs, brown or white; or a nail may be both brown and white.

9. BODY

a) TOPLINE—Should be level and may arch slightly over the loin.
b) CHEST—Should not be too wide, but very deep and capacious, ribs moderately well sprung, never rounded like barrel hoops (which would indicate want of speed).
c) LOIN—Should be strong and muscular.

10. HINDQUARTERS

a) UPPER THIGH AND LOWER THIGH muscles should be clean, powerful and well defined.
b) HOCKS—Should be well let down.
c) STIFLE—Should be moderately well bent.
d) FEET—As for the forefeet.

11. TAIL—The tail should reach the hock, being strong at the base and gradually tapering towards the end, free from coarseness. It should not be set on too low down and should be carried with a slight upwards curve but never curled. It should preferably be spotted.

12. GAIT—The Dalmatian should have great freedom of movement; a smooth, powerful, rhythmic stride and action with a good reach and drive. Viewed from behind, the hind legs should track the fore with no indication of the body moving at an angle to the point of direction. A short stride and/or a paddling action are incorrect.

13. FAULTS

Partly flesh coloured nose.
Cow hocks.
Flat feet.
Incompletely coloured eyerims.
Any eye colour other than black, brown or amber.

14. DISQUALIFICATIONS—Patches, a patch is defined as a solid sharply defined mass of black or liver that is appreciably larger than any other of the markings on the dog. Several spots that are so adjacent that they actually touch one another at their edges do not constitute a patch.
Tri-colours.
Any colour other than liver and white,
or black and white
Undershot or more than 1/8" overshot bite.

and Religious titles (e.g. Dr., Colonel, etc.) being shown on certificates.

Mr. Gundersen's letter was referred to the Semi-Annual Meeting at which time the Board is scheduled to consider this matter.

STAFF STRUCTURE:

Dr. M. I. McArthur, Chairman of the Committee on Staff Restructuring, made a progress report to the Board in which he advised that his Committee was awaiting legal opinion with regard to certain of the proposals developed in Committee.

MEETINGS OF THE BOARD:

The Executive Manager reported that Members of the Board had been provided with copies of a Notice of Motion having to do with the recommendation to hold meetings of the Board in 1972 and 1973 at places elsewhere in Canada other than Toronto.

Since matters of policy were involved, the Secretary was instructed to refer the subject to the Semi-Annual Meeting of the Board.

The date of the next regular meeting of the Board was set for August 16th., 1972.

PROFESSIONAL HANDLERS:

The Executive Manager reported that a letter had been received from Mrs. D. Fabian, Recording Secretary of the Professional Handlers Association of Canada, outlining certain changes in the composition of the Association's Board of Governors and Board of Directors.

A second letter was read, directed to the Board by the Solicitors for the Canadian Professional Dog Handlers Association, advising that the Association had obtained Letters Patent from the Minister of Consumer and Corporate Affairs on May 12, 1972.

The Board referred the subject to its Semi-Annual Meeting.

DOG SHOW COUNCIL:

The Executive Manager reported to the Board that, at the request of Mr. Ed Dixon, Council Chairman, copies of the Minutes of a meeting of the Council held June 19, 1972, had been distributed to all Members of the Board.

Mr. Brown then read several letters written by Directors in relation to the Council Minutes and referring to sections of the Minutes dealing with application for permit forms to be utilized in connection with foreign Judges, and, on the subject of languages spoken by foreign Judges.

The Minutes of the Dog Show Council were received and request made that the foregoing letters be referred to the Semi-Annual Meeting.

SHOW DATES:

The Board was informed that Board approval had been previously granted to the Belleville and District Kennel Club to hold Championship Shows and Licensed Obedience Trials on October 28 and 29, 1972. The Executive Manager further advised that more recently the same Club had applied for permission to hold a Championship Show on October 27, 1972. Board approval was granted the request.

The Executive Manager informed the Board that the Head Office receives many telephone calls from exhibitors seeking information as to the telephone numbers of Show Secretaries.

Mr. Brown then went on to recommend that this information be required from Clubs applying for dates and that it be published in Dogs in Canada in the list of "coming events".

During the discussion which followed it was suggested that a Club holding a Championship Show be required to publish the telephone number of the Show Secretary in its Premium List in order that exhibitors wishing to obtain entry forms or other information could establish contact; in addition, the Premium List to disclose the address to which telegram entries may be addressed (to overcome the situations where a rural route address is given).

A motion incorporating the foregoing items was made and passed by the Board.

The Board then considered an application from the Pine Ridge Obedience & Kennel Club for permission to hold two Championship Shows and two Licensed Obedience Trials on March 31, and April 1, 1973, viewed against the fact that the Annual General Meeting of The Canadian Kennel Club is scheduled for March 31, 1973.

Approval of the Board was granted to the application.

Discussion then turned to the principle of joint consultation between the Provincial Director, or Directors, of the Province in which a Show is held and the Director or Directors of the Province or Provinces adjacent thereto with regard to the granting of priority rights.

It was then passed unanimously by the Board that the 1973 Show Dates and five year priority rights for Saskatchewan be subject to the approval of the Saskatchewan Director after consultation with the Alberta and Manitoba Directors.

JUDGES:

The Executive Manager read a letter dated June 28, 1972 from Mr. Ed Dixon, Chairman of the Dog Show Council which advised that the Council had directed the Chairman to place before the Board a recommendation that the current policy having to do with the issuance of Judging Permits be altered to the extent that in a determination of the number of breeds that a person may apply for, all six breeds of Dachshunds will be treated as one breed and, similarly in the case of Poodles, Chihuahuas and Collies.

The Secretary was instructed to place Mr. Dixon's letter on the agenda of the next Semi-Annual Meeting of the Board.

A report of a Dog Show Representative addressed to Mrs. I. Diamond, Chairman of Chapter 7 Committee was read in which it appeared that a Judge had been approved for a Judging assignment in August, 1972 although, reportedly, the Judge in question had handled dogs for others since July 1st, 1971.

The Executive Manager advised the Board that contact had been made in the matter with the Judge concerned.

SANCTION MATCHES:

Mr. Ed Dixon, Chairman of the Dog Show Council, reported that since the previous meeting of the Board the Council had considered comments made at that meeting of the Board regarding the Council's first submission of a proposed set of Sanction Match Rules and that thereafter the Council had despatched to each Member of the Board its final draft.

The proposed new rules were referred to the Semi-Annual Meeting of the Board.

Board attention was then directed to the matter of processing applications for Sanction Match dates submitted by Clubs in Ontario and reference was made to recommendations in the matter as prepared by the Dog Show Council and distributed previously to all Board Members.

The Council's recommendations were that the following policies would apply to Sanction Matches in Ontario from December 1, 1972 to March 15, 1973:

(1) that the Executive Manager be empowered to immediately deal with applications for Sanction Matches in Ontario for the months of December, 1972, and January, February, and to March 15, 1973, on a first come—first served basis.

(2) simultaneous Sanction Matches in Ontario may be approved providing that there are not less than 100 air miles between the locations of such matches.

(3) a Sanction Match may be held on the same date as a Championship Show provided there are not less than 200 air miles between such events.

The Board approved the foregoing recommendations of the Dog Show Council.

PROFESSIONAL SUPERINTENDENTS AND PROFESSIONAL SECRETARIES:

The Executive Manager reported that pursuant to Board direction, a legal opinion had been obtained from the Club's Solicitor with regard to proposed policies having to do with Professional Superintendents and Secretaries, and went on to read the Solicitor's letter.

The Board then referred the matter to its Semi-Annual Meeting.

INTERIM FINANCIAL STATEMENTS:

The Executive Manager reported that in his capacity as Treasurer, he would shortly be preparing financial statements for the first six months of 1972; however, in the meantime he wished to report that as a consequence of the continuing improvement in the Club's financial position, the Club was able to place a substantial sum on term deposit with our chartered bank.

BREED STANDARDS:

Two reports of the Breed Standards Committee were brought before the Board by the Executive Manager, one of which carried a recommendation that letters of appreciation be addressed to the Kennel Club (England) and the Federation Cynologique Internationale, and the A.K.C. for their replies to requests for information required by the Committee.

Such letters of appreciation were approved for implementation by the Board and the Reports of the Breed Standards Committee referred to the Semi-Annual Meeting of the Board.

KENNEL NAMES:

The May and June, 1972, reports of the Kennel Names Committee were brought before the Board and received acceptance.

REGISTRATION COMMITTEE:

The Executive Manager placed before the Board three reports of the Registration Committee.

The Reports, while covering a range of topics, made specific recommendations in the area of difficulties reported by the Registrar in the processing of applications for individual registration involving dogs in multiple shipments to Canada whereby such cases would be handled within the discretion of the Committee. The Committee received full concurrence of the Board with the recommendations made.

COMPLAINTS:

Report was made by the Executive Manager of receipt of payment of a fine ($235) by a Club which, in violation of the C.K.C. Rules, had allowed the judging of more than 175 dogs by each of two Judges in one day, and for commencing judging earlier than stated in the premium list.

Board attention was then directed to a recommendation by the Complaints Committee that a fine be levied against a show giving Club in connection with a multiplicity of errors in the Premium List which the Club had issued for its Championship Shows and Licensed Obedience Trials.

The Board concurred with the recommendation of the Complaints Committee.

REPORT OF THE EXECUTIVE MANAGER:

The Executive Manager reported to the Board that after 30 years of loyal and valuable service, the Club's bookkeeper would retire in December of this year and that in accordance with previous Board approval, preliminary steps were being taken with the Club's Auditor toward computerization of the accounting records at the Club's Head Office.

The Executive Manager's Report was accepted as a Progress Report.

APPOINTMENTS FOR 1972:

The Executive Manager made reference to the new By-Law (Article 13, Section 15) that allows for the creation of a Finance Committee within the Club's structure and advised that nominations to the Committee by Directors were still open.

The Board directed that all Board Members be polled for the names of additional candidates to the Committee.

MEMBERSHIP MATTERS:

Board consideration, was then given to Membership Lists No. 11 to No. 14 inclusive, copies having been previously mailed to all Members of the Board.

Discussion centred on several individual applications where allegation had been made of failure to supply Certificates of Registration in connection with sales of pure-bred dogs and, if such were the case, would preclude entry into the C.K.C. Membership; however, Board review disclosed that the matters referred to had been satisfactorily resolved and the parties concerned were admitted to Membership.

PREMIUM LISTS:

The Executive Manager read a letter from a Member of the Board seeking rulings on the following questions:

(1) Can a Club, if so stated in a Premium List, refuse to take telegraph entries.

(2) Can a Club, if so stated in a Premium List, with one Judge officiating over the whole group, start the Judging with the last breed and finish with the first breed, (i.e., start the Sporting Group with Weimaraners and finish with Pointers?)

(3) Can the winner of a Breed by Exhibitor Class be handled when competing for Winners by a handler not related to the breeder?

(4) Does an entry form which is correct in every way except that the address of the owner is missing, be deemed as incorrect?

In the first question, the Board ruled that an exhibitor is entitled to make entries by telegraph; on the remaining questions the ruling in each case given was in the affirmative.

FIELD TRIAL COUNCIL FOR POINTING BREEDS:

Mrs. Hilda F. Pugh, as Chairman of the Field Trial Council, made report to the Board of a meeting held in June and that recommendations arising out of that meeting would be made to the Board shortly; in addition, Mrs. Pugh advised that the Board would be approached at the Semi-Annual Meeting to consider a partial underwriting of the costs involved in bringing all Members of the Council to Toronto for a meeting of that council, a step which Mrs. Pugh expressed the hope would be possible in connection with other councils before very long.

FIELD TRIAL COUNCIL FOR SPANIELS:

The Executive Manager reported that a meeting of the Council had been held July 12, 1972, and copies of the Minutes of that meeting had been prepared for distribution to this meeting of the Board. Mr. Brown requested that the Board deal at this meeting with proposals having to do with a proposed National Stake for Spaniels and the eligibility of dogs to compete in that Stake.

The Board concurred with the Council's recommendation re the National Championship Stake for Spaniels in 1972 as it applies to their application for date and qualifying dogs.

The Board then treated the balance of the Report as information pending anticipated later recommendations on the part of the Council.

DOG FOODS:

The Executive Manager reported that the Secretary was endeavouring to obtain information concerning Federal legislation as it applies to the production of pet foods in Canada, and pending a further report to the Board read a letter dated July 11, 1972 which the Secretary had received from the Meat Inspection Division, Health of Animals Branch, Canada Department of Agriculture.

The Board then received as information the letter from the Department pending a further report to the Board.

PUBLIC RELATIONS:

The President stated that there was a great deal of attention given in the local press to proposals that dogs be barred from parks, one reporter even suggesting that except under unusual circumstances, ownership of dogs be prohibited, and asked the Board to give some thought to steps which the C.K.C. may undertake to overcome this unfavourable publicity and, if necessary, take a very positive position in the event that any legislation may develop which would be considered inimical to the interests of breeders and owners of purebred dogs.

IMPORTANT NOTICE
SUBJECT: Registration of imported dogs

On March 3rd, 1969, the following addition to the By-laws of The Canadian Kennel Club received the approval of the Minister of Agriculture for Canada and became effective on that date:

If an imported dog was part of a single shipment which included two or more dogs of the same breed and sex, then notwithstanding the provisions of these By-laws the dogs included in the shipment are not eligible for registration in the Club's records unless:

(1) before each dog was exported to Canada it was tattoo marked in accordance with the provisions of Article XXVII of these By-laws;

(2) the record of such tattoo markings appears on the certificate of registration (or export certificate) issued by a recognized Kennel Club or Stud Book in the country from which the dogs were exported to Canada;

...ASENJIS

...obert W. Cole, 1336 Lexington ...., Ottawa, Ont.—When is a ...ack tan and white not a black ...n and white? Answer—when it ...s lost its melon pips. We in ...nada have divergent views re...rding Tri-color Basenjis. Many ...el that so long as a Basenji has ...e three specified colors present ...qualifies as a "tri". I believe ...ere is much more involved than ...at. My concern is the gradual ...terioration of distinct markings ...bright color.

The Canadian Standard at this ...me is identical to the Ameri-can. When the British revised it in 1954 we went along with the further AKC changes adopted in the same year. We will probably go along with any change revisions, amplifications or clarifications presently being considered. We have no choice or desire to do otherwise. With the exception of a few, Canadians seem apathetic when it comes to the inadequate Basenji Standard.

To substantiate my belief that a true tri-color Basenji has a lustrous black coat with sharply defined tan markings on cheeks, lips, lower jaw, throat, twin melon pips above the eyes and trim on fore and hind limbs as well as vent region I would like to draw comparisons with similiar breeds. If we were only concerned with two colors—black and tan—conflicting views would be minimal. However, the third color should not lessen the requirement for specific areas to be color constant.

Breeds with Standards involving black and tan markings such as the Doberman, Miniature Pinscher, Dachshund, Rottweiler and Black and Tan Coonhound are most emphatic and specific in describing the areas where tan is to be found. Other hounds which include white, such as the Basset and Beagle, place no importance on the area distribution of the three colors resulting in some (to the Basenji) weird assemblages of color.

This type of Basset and Beagle coloring qualifies as our Basenji Standard now reads but I am sure Basenji fanciers have no desire to see such an admixture, or balance will eventually be lost. Where would you draw the line? By specifically stating the requirement leaving much less to chance, breeding will be truer, the color purer.

Although tempted to suggest that the Standard only states a preference for one over the other in the manner that some Standards do in connection with the preference for brindle, I know that due to the additional "markings" involvement as well as color this would, in the final analysis, be detrimental to the breed. That Basenjis are found today in Africa without melon pips as a natural variety is not considered justification. Brindles are also to be seen and brindle is a proven dominant but I would not suggest its inclusion. Tris without pips are no less beautiful than with. It is not a matter of personal preference of one for the other that is involved, it is the realization that danger of color deterioration will result from the former.

Britain is responsible for the heights the breed has attained. Our debt to her is great, but in regard to black tan and white their breed club is in error. That the British Kennel Club has been convinced otherwise does not make it so as time will prove, if my belief is the one accepted by those who have the responsibility of revising the Standard.

Tabulation of *Kennel Review* indicates, according to Michael Millan, that Int. Ch. Millan's Fashion Hint is Top Producer for the second consecutive year. In 1971 Fashion Hint was awarded the Stud Dog award and Sire of Merit award. At the age of 6½ years, Fashion Hint has sired over 25 American champions and his grand total is reaching 70 including all countries. This great Canadian dog was bred and is owned by Mr. Millan of Thornhill, Ont.

BEARDED COLLIES

Carol Gold, 39 Claxton Blvd., Toronto 10, Ont.—On August 29, Bearded Collie enthusiasts and their dogs gathered in Stouffville, just north of Toronto, for the long-awaited Bearded Collie Club of Canada match. Judging was Miss Margaret Osborne, from England, noted authority on Collies and Shetland Sheepdogs and long-time championship show judge of Bearded Collies. She judged Beardies at Cruft's this year and is on the selected specialist judge list of the English Bearded Collie Club.

Although Miss Osborn's tight schedule had necessitated holding the match on a weekday evening, entries came from as far as Nova Scotia, Chicago and Minneapolis, to obtain expert evaluation of their dogs. Well over 30 Beardies were present.

The light fades fast in late August, so there wasn't time for in-ring critiques, but Miss Osborne taped her evaluations and will be sending written critiques of every entry for publication in the Bearded Collie Club of Canada newsletter. After the judging, when everyone had settled down to eat and socialize by artifical light, Miss Osborne was happy to answer questions and analyse dogs individually.

Her judging was very consistent and she seemed always to be looking for a good-moving dog showing a clear outline not obscured by over-abundant coat. In general, she said the Beardies in Canada seem to be on the right track in type and quality.

However, she did give a brief comment on her Best of Breed bitch, Ch. Wishanger Marsh Pimpernel CD and Best Opposite, Raggmopp First Chance, who interestingly enough is a son of the winner. The bitch, in Miss Osborne's opinion, is a beautifully balanced Beardie with exactly the correct long body, moving very well, sound and showing the right amount of daylight under the body. In choosing between dog and bitch, she felt the bitch had the edge in balance.

Our Canadian judges, unfamiliar as they are with Bearded Collies, must have been doing their homework because Miss Osborn's choice, Ch. Wishanger Marsh Pimpernel CD, is also Canada's top-winning Beardie.

Classes were divided by age and sex only, champions competing with the rest. The largest entries were in the Senior Puppy (9-12 months) and Adult Over 2 Years classes. Placings in these classes were as follows: Senior Puppy Male: (1) Raggmopp Bellarmine, CD. (2) Ch. Colbara Blue Benjamin. (3) Raggmopp The Bad Boy. (4) Beagold Mr. Kelly. Adult Male: (1) Raggmopp First Chance. (2) Cynpeg's Huckleberry. (3) Ch. Bronze Javelin of Tambora. (4) Ch. Raggmopp First Lieutenant. Senior Puppy Female: (1) Rushmoor Grey Mist. (2) Ch. Raggmopp Brass Farthing. (3) Colbara Black Paddywinks. (4) Raggmopp Bright Snow. Adult Female: (1) Ch. Wishanger Marsh Pimpernel CD. (2) Raggmopp First Lady. (3) Ch. Raggmopp First Impression. (4) Tarskavaig Black Maria.

The club presented Margaret Osborne with a lovely piece of Blue Mountain pottery and their thanks for her time and consideration.

As our kennel is situated on the farm, it has been amusing to note

Breed Notes —from page 11

the reaction to the "other animals" close by. The office also serves my husband and his interest in breeding registered Polled Herefords. The entrance to the kennel is flanked by two large paddocks, one used for either the horses or cows with very young calves. The other controls the young bulls raised at Sovereign. This, coupled with a picture in the kennel office of our top bull handled by Bobby Hull (he was bred by Bobby Hull from his top Masterpiece line), caused one U. S. visitor to remark that there seemed to be a lot of bull at Sovereign.

During the visits with fanciers from near and far, it seems that one subject is foremost in everyone's mind—how to breed the good ones. Everyone is looking for a formula and although I did not fully realize it at the time, we do have a formula and furthermore, it works. It is no deep dark secret and it will produce success but only great success if the user has the artist's eye to recognize animal form and evaluate it correctly.

So here is our simplified formula for successful breeding.

First, develop an eye for line, balance, type—a knowledge and understanding of the standard.

CONCENTRATE THE GOOD QUALITIES OR ASSETS AND DIVERSIFY THE FAULTS. This is the most important sentence in this column. Read it over and keep it in mind when you are selecting new stock or retaining puppies from your breeding program to continue your line with.

All dogs have faults, just don't allow all of your dogs to have the same faults or you have established a line that will be remembered for these faults rather than diversified virtues. This is working in reverse and the end result will be the reverse of success.

The qualities of the dogs are the materials you will use to build your line. Insist on the trait you wish most to establish in ALL of your stock, whether it be great heads, balance, coat, type, soundness—the choice is yours and this is what makes breeding dogs so creative. This is also the reason a line is so valuable as we all choose different qualities to concentrate on. When one line becomes strong and dependable in an important area it may be used by others to strengthen and complement theirs.

Some very worthy individual may excell in head and neck but have poor shoulder angulation giving poor front action—so be it. But don't have the same fault in all of your stock or you will have that so bred in that you will become known for your faulty fronts more so than the quality you are hoping to establish.

I feel the quality that should be concentrated on is the one most difficult to achieve and hold on to. In our breed this is truly the beautiful Collie and Sheltie head, the flat skulls and smooth muzzles, the oblique dark eyes and the exquisite expression. Without these features the Collie or Sheltie lacks "type", so value the individuals possessing these features highly.

BEWARE OF THE "CURRENT FAULT" is the second most important bit of information in our capsule breeding formula. Really crack down on it in your breeding program because it is only a matter of time before the judges are going to be sick of seeing it in the ring and react accordingly in their placings.

This was brought home to me very strongly recently while judging a Sheltie specialty in Columbus, Ohio. Sheltie fronts were faulty in varying degrees in the majority of the entries. In an entry of 80, it was only the Veterans class that had superb movement and what a joy they were to see. This was probably a strong reason for the Best of Breed at a specialty show with 148 entries to go to a 14 year old veteran, Ch. Mori-Brook's Country Squire.

The question of type versus soundness will never be debated satisfactorily to the finish. Obviously we want both. It is for you alone to decide what is most important to you at the moment but in following my capsule breeding program, the good qualities you concentrate on must be the hard-to-get qualities or they will be lost to you forever, regardless of the current fads in judging.

At the Forum the question "do you consider soundness of more importance than type and beauty?" was asked of four judges. I thought you might be interested to read their remarks.

Don Combee. No, I feel that there should be a blending of both. A Sheltie should be beautiful and when a dog enters the ring, this beauty should be the first thing one sees. Then if it is sound and moves well so much the better. However, I would not put up a dog, no matter how beautiful, that has a severe soundness problem, such as a badly cow hocked rear or a terrible front. Nor would I put up a dog that is absolutely perfect front and rear and has no type or balance. I maintain there should be a blending of both beauty and soundness.

Albert Lubin: Yes, I definitely do consider soundness of the utmost importance. We have a working breed and an unsound dog simply cannot do the job for which these animals were bred.

Dr. Richard Greathouse: I consider soundness and type and beauty of equal importance. A Sheltie with soundness and no type and beauty is no good and vice-versa—a Sheltie with type and beauty and no soundness is no good. An exception, perhaps, is for breeding programs where upgrading of either one which is lacking would improve matters. In a breeding program I would first breed for type and beauty and try my best to get soundness to go with it.

Lynn Anderson: I consider soundness to be equal with type and beauty. You cannot be excited about a sound but untypy or "common" Sheltie with major head, ear or expression faults. Conversely, an extremely beautifully headed Sheltie that falls apart under his coat and when he starts to move, cannot be exonerated on just head type alone.

When asked, "do you consider over-all balance of more importance than excellence of parts?", all judges responded yes.

****Newsy Notes****

From Manotick, Ont

Mrs. Edith Wheeler (Calreen Kennels Reg'd.) sends news of an interesting export to Italy. Three Collie pups now have new homes with an international Collie judge and breeder from Florence, Italy. One boy and two girls were shipped the second week in August and arrived safe, sound and full of bounce at their new home.

From Montreal, Que.

The Canadian Collie and Shetland Sheepdog Association was honored to have Miss Margaret Osborne, British Collie, Sheltie and Briard breeder, world wide judge and author of "The Popular Collie" and "The Popular Shetland Sheepdog" judge a fun match for these breeds on September 2.

From Kingston, Ont.

We are pleased here at Sovereign, to mention our new import-blue Sheltie bitch, Am. Ch. Banchory Silver Sashay from Mrs. Donna Olson. She is in whelp to Ch. (Can. & Am.) Cherden Sock It To 'Em. Also imported from Kismet Kennels in Texas—a gorgeous sable bitch sired by Ch. (Can. & Am.) Banchory High Born, Kismet Born to Go Far.

From Delaware, Ont.

Mrs. E. Francissen writes that the Dominion Collie and Shetland Sheepdog Association (London and District Branch) are holding a special Collie and Sheltie fun match, at the Devonshire Mall in Windsor, Ont., on October 29. Entries will be taken at 12 noon to 1.30 p.m. Collies will be judged by Mrs. Elizabeth Zurn and Shelties by Mrs. Doreen Randall.

BULL TERRIERS

Bouquets to The Bull Terrier Fanciers of Canada for their smoothly conducted area competition. Breeders openly and courageously (yes, it takes courage) assessed the strengths and weaknesses of their BT's. The occasion provided an excellent opportunity for all those interested in judging this breed to learn, first-hand, just what the breeders want in their dogs and how they interpret the standard. It would be nice to think that other breed clubs will follow this example.

New members of the club include Mr. and Mrs. Gordon Smith, Thunder Bay, Ont., Mr. ane Mrs. Wayne Gadky, Brooklin, Ont., Mr. and Mrs. Milton Cameron, Montreal.

The Thornhill Farmers Market will be the scene of a sanction match in January. The club will also work closely with members of the Ontario Bull Terrier Club at the breed specialty in conjunction with the Metropolitan KC in November.

CAIRN TERRIERS

Mrs. Betty Hyslop's Ch. (Can. & Am.) Tammy of Mistyfell topped them all by becoming No. 1 Cairn Terrier in all systems in United States during 1971. Ch. (Can. & Am.) Cairndania Brigrey's Berry-Red was No. 2 in the Phillips and *Kennel Review* systems and was also No. 8 in the all female competition. Her Ch. (Can. & Am.) Vinovium Errol Flynn was No. 4 in the Cairns in all systems for 1971. Thus Cairndania can boast three dogs in the Top Ten in the U. S. for 1971.

And more. In the Cairn Terrier Club of America Annual Specials Cairndania has the most points in the Group Placements and the most points for Best of Breed wins last year, plus most points for the Puppy Dog and Puppy Females, plus second for points for Best of Winners.

Jim and Kay McFarlane of Badenoch Cairn note, spent Labor Day weekend in Kentucky with longtime Cairn exhibitors, Mr. and Mrs. Carl E. Brewer of Louisville. At the Lexington, Mid Kentucky and Louisville shows the McFarlanes' Ch. (Can. & Am.) Cannycairns Fergus went BB and Group 3rd in the first and second shows. His daughter, Ch. Badenoch Fersil's Coleen, picked up her first four points, going W, BW and BOS at Lexington. W and BOS at Louisville and RW at Mid Kentucky.

SMOOTH FOX TERRIERS

Under Judge J. W. Masley, Quissex Goldie Hawn, bred by Phyllis Gratton, Truro, N. S., went BOS for four points at the Greater St. Louis Fox Terrier specialty show. Goldie is sired by Ch. Happy Boy ex Ch. (Can. & Am.) Hewshott January, imported.

Quissex Stirrup Cup has just returned to his owner, Harvey M. Gratton, following a successful campaign in U. S. A. While there he picked up his American title and dated nine American dogs.

WIRE-HAIRED FOX TERRIERS

When Mrs. Peter Jarvi, (Alderby Hobby Kennel) Aldergrove, B.C., went to the Prince George show in July she decided to take obedience-trained Ch. St. Erme Gay Girl, (imp.) and selected a young male ("overdue for leash training and an escape artist") as a travelling companion.

Result? Ceci turned out to be a born showman, went Best Puppy in Group under each of three judges, BB, 4th in Group and BCBP in Show!

(Canadian show wins, normally not noted in these columns, are mentioned here simply because of the remarkable winning of a mere "companion" on the trip.) Ed.

KERRY BLUE TERRIERS

Knut Egeberg, Maidstone, Ont., reports that his new young female, Kerrywoods Expectation, started her career by passing specials to go WB, BW and BOS for a 4-point major, finishing her U. S. title undefeated. She is a double grandaughter of his mult-Int. Ch. Carholme Charles, who has now broken the all-time world record for a Kerry stud, having sired 45 champions. The previous record was held by the late Mrs. Eileen McEachren's Ch. Tailteann's Widan II.

At Rochester, Mich., Mr. Egeberg showed Music's Angelique to a group at a sanction show—her first time out. He also showed his young English import, Binate Ringside Rosana, at the Breeders Registry Match at Belleville., Mich., to win the group and Best in Match over several hundred dogs.

He has purchased another English dog, Eng. Ch. Cranmore Shine Cullion who had six CC's and several BIS in England. He now has 13 points and one major in the U. S. Another purchase is the Eng. Ch. Binate Kennick Midas (sire of Rosana) who has six CC's and is a BIS winner. This year he won at both the big Windsor (England) show and The Golden Jubilee Specialty held by the Kerry Blue Terrier Club of England.

Mr. Egeberg, who came to Canada from Norway six years ago, has reduced his kennel to seven dogs, including his ten-year-old Int. Ch. Lochla Lochlainnaigh Ascendant, the only surviving Kerry of the four he brought to Canada. In his 29-year career with dogs, he has shown more than 160 to their championships in 11 different countries.

MINIATURE SCHNAUZERS

"I love *Dogs in Canada*," writes Mrs. Rene Cowden of North Bay, Ont., and always read the Terrier columns because I have two Miniature Schnauzers.

"Miniature Schnauzers are absolutely fearless. Where we live there is a lot of dense woodland we can walk miles without seeing anyone. We often see deer, skunk and partridges; my little female often catches partridges, she is a great bird dog. She doesn't kill them, only corners them—we never kill them either—we always call to her to let them go.

Recently my husband was in the hills picking berries and the dogs were playing nearby. Suddenly there was a tremendous lot of noise, the dogs were barking and there were other sounds he couldn't determine. He went to investigate and found that the two little dogs had treed a bear cub and was it ever mad! It weighed around 300 lbs. and mother by was its mother (minimum 500 lbs.) and two other cubs each weighing around 300 lbs.

"Stan decided the best action was a retreat as dignified and

Jean Simmonds, Sheltie Specialist, U.S. — Best of Winners, U.S., 5-pt. major with an entry of 69 Shelties! "One of the nicest pups I've seen in years."

Tom Coen, owner of Peter Pumpkin — "One of Peter's very best."

Sheba achieved her championship by 8 mos. and a U.S. 5-pt. major at 7-1/2 mos., always breeder-owner-handled. We believe the first Canadian-bred Sheltie bitch to do this.

As you can see, she is absolutely feminine, with overall balance (the key to correct Sheltie type), an exquisite head and eye, topped off with elegance. She is just 14-5/8".

We are justly proud of her.

WEST HIGHLAND WHITE TERRIERS

Albert and Barbara Rix of Kingston, Ont., recently imported from England Devon Leda, a four-month-old daughter of the 1971 champion sire Whitebriar Jonfair, owned by Mr. J. W. Hodson. "She is quite an extrovert and seems to have taken the flip over the ocean in her stride."

YORKSHIRE TERRIERS

Wendy Anne Desaubies, 5559 Waverly Ave., La Jolla, Calif. 92037— Let's Call a Spade a Spade. Peke breeders, would you call a long legged, straight fronted, long nosed, small eyed dog a Peke? Maltese breeders, would you call a black and white coarse coated dog a Maltese? I. G. breeders, would you call a level backed short nosed bow legged long coated dog an I. G.? I think not. Then why are black woolly coated dogs with smutty grey and beige face and leg furnishings called Yorkshire Terriers?

The time has come the walrus said, to speak of many things! Each breed has its distinguishing features. The Yorkie standard says "Colour of hair on body and richness of tan on head and legs are of prime importance in adult dogs, to which the following colour requirements apply: Blue is dark steel blue, not a silver blue and not mingled with fawn, bronzy or black hairs. Tan, all tan hair is darker at the roots than in the middle, shading still lighter at the tips. There should be no sooty or black hairs intermingled with any of the tan."

I first started raising Yorkies 15 years ago in England where this breed originated some 100 years ago in the County of Yorkshire. I was brain-washed (thank goodness) into believing that the black woolly coated dog was so highly undesirable that it should not be bred from and should never go in the ring and represent the breed. In the seven years I attended shows in England I do not recall a black dog finishing its championship. Unfortunately, I cannot say the same thing about American Yorkies. Why have some breeders here taken it upon themselves to breed and show black dogs when it is so contrary to the Standard and in doing so have taken away the characteristics of prime importance in the breed? I don't know the answer to this question but I do know that unless something is done about this gross error now, the Yorkshire Terrier as we know it according to the Standard is in great danger. Where the danger lies is in the fact black is dominant.

At Crufts this year Ch. Deebees Beebee owned by Mrs. Beach went BB and later took the Toy Group. The breed judge Daphne Rossiter wrote in her critique, "If like myself you saw her standing proudly on the red carpet shining Blue and Gold it would have done all Yorkie breeders good." I wonder how many judges could write the same critique for BB winners in America! The Yorkie is in a mess in America today and if breeders will not correct these severe faults then judges should take a stand and recognize the faults of the breed and judge accordingly. I am not saying every Blue and Gold dog is perfect. We have many aspects of the Yorkie to consider when breeding and judging but each breed has important characteristics which define the breed. Blue and Gold silky coat is of prime importance in the Yorkie. Our Standard reads..."Quality texture and quantity of coat are of prime importance, hair is glossy and silky in texture." The black dogs have lots of quantity of coat as can be observed from ringside. This goes hand in hand with the black gene usually but quality and texture go out the door along with color. The black dog's coat has no shine and feels warm and woolly to the touch. It tends to stick straight out from the body instead of hanging down flat to the body and feeling cool and silky to the touch as does a blue dog. Occasionally we see a blue dog with a woolly coat, this is unusual and also undesirable.

The black gene is dominant and blue recessive hence the reason we see so many blacks in the ring due to indiscriminate breeding. A few breeders who have shown black dogs in the past because in their own words "We could win with them because of the heavy coats" have stood back, taken a good look at the breed and said "We were wrong." They are now trying within their breeding programs to produce only blue silky-coated dogs. This will be a hard fight due to the dominance of the black gene but surely our only goal in breeding dogs is for the betterment of the breed, not to destroy its major characteristic because it's "easier" to ignore the problem.

It is my personal opinion as a breeder and judge of Yorkies that unless a Yorkie has broken blue down the parting (not breaking) it should not represent the breed in the ring. Our Standard is a little confusing as it states color of Prime Importance in the Adult Dog. A true silky-coated blue and gold bred dog usually breaks blue down the parting around four to six months of age, sometimes a little later but judges should not have to search underneath the coat to look for blue breaking. If a dog is late breaking color then why not hold it back from the show ring until it has broken the correct color? If the dog is a true blue the wait will not be very long and this will eliminate black dogs being finished before adulthood holding championship status with a dominant fault.

Breeders and judges dismiss undershot jaws from their breeding programs and the ribbons because this severe fault is dominant and contrary to the Standard. Then why are black dogs surviving when they are dominant and contrary to the Standard? Because breeders and judges are allowing this catastrophe to continue. We cannot totally blame the judges as they are often faced with little alternative when the rings are almost full of black dogs. But they do have one alternative which is rarely if ever put into practice, they can withhold a ribbon. This takes guts and firm conviction and I think breeders and need both to help sort ou very severe problem we ar ing in the Yorkshire Terr day. *—reprinted from Kenn zette*

would convince your pupil that such is not so.

The other thing to remember this month is that when your young dog and birds are running and flying every which way a serenity on your part seems to permit a more rapid return to sanity. From experience, I can assure readers that when madness prevails adding to it by a psychotic episode does not seem to improve the situation. I can assure readers that screaming after a young dog that has just flushed and chased a covey of birds makes me very ashamed but except in rare instances my bull-headed canine companions are not at all upset by my shrill exclamation.

Instead, I commend to your attention an attitude of resignation to the insanity of the moment. In 15 years I have found nothing that beats just standing there like a Supreme Court Judge muttering quietly "shame on you". In due course your pupil will return from the transgression and you may resume his education in whatever way appeals. It is very important that punishment be meted out when you are calm.

Last but far from least, enjoy October and encourage your dog to do so. For the first season or two help him to learn and reward a good effort with your praise and affection. For the majority of dogs and owners this is the best of all advice. Therein lies one of the great secrets of dog training. If your canine partner can be shown clearly that certain acts are much praised, he will, by and large, try to repeat them. In my experience there are even times when you should love a canine sinner. Maybe this is too much to ask if he is your first dog and this is your first October to but I have had a long asso with a few sinners who ju the hell of it commit the outrageous acts, return for due, roll over on their bac await their fate. If all of th been observed by a very kn and sharp-tongued, self- dog trainer companion usually verbally scold the If we are alone we keep su crets in the family.

'Maybe' behavior chan

Does castration change undesirable behavior in male dogs? The question was asked by *Modern Veterinary Practice* of 11 veterinarians, almost all of whom agreed that castration changes undesirable sexual behavior such as leg-riding and chasing after bitches in season. However, the panel was divided as to whether or not castration changes other types of undesirable behavior, aggressiveness in particular. Some noted definite improvement in overly aggressive male dogs after castration while others said castration had little or no effect in curbing this behavior. There was some agreement that castration is most effective when performed at an early age an in many cases obedience tr is equally or more effect bringing about improved b ior. Two respondents comm that owners were advised c tion should be considered o an attempt to improve und ble behavior and not a gu teed solution to the problem.

Ancient Canaan breed gets new start

SUZAN HOROVITCH

This ancient breed, threatened with extinction in its own land, has had a new start on life since the first one arrived in North America seven years ago. Mrs. Berkowitz imported the first four Canaans in 1965. Since then, the number has grown to approximately 170 dogs—three of which are in Canada. The first two went to Manitoba and Ontario in 1970, and the third to Alberta in November, 1971.

The history of the breed is exciting and to us, amazing. The Kelef Kanani, as the Ancient Hebrews called them, existed well over 3,000 years ago. The Canaan's usefulness to man has never faltered. He was the guard and cattle dog of the Hebrews and a dog of this breed is thought to have followed the trail of Moses. They were plentiful in the region until the dispersement of the Jews by the Romans. At this time, some of the breed retreated into the Negev Desert, then a natural resevoir for Israeli wildlife. To avoid extinction through war and famine, some reverted to wild status, others became camp dogs of Bedouin tribes and still others were guard dogs for the Druze sect on Mt. Carmel.

Nat. Ch. Toro Me Isfijal, bred by Druse religious tribe.

Thus, pockets of the breed existed throughout Israel when Dr. Rudolphina Menzel moved from Vienna to Palestine in 1934. She had studied under Professor Hauck in Vienna, who is one of the world's foremost authorities on the origin of dogs. Dr. Menzel was asked by the Israelis to develop a dog for guarding the isolated Jewis settlements and to supervise the build up of war dogs for fighting in the anticipated War of Independence. It was obvious the young nation had a natural resource in its untamed wild dogs; only the best could have survived the hardships of its native land.

A national dog-catching effort was launched by Dr. Menzel and her team. The first re-domesticated dog, Dugma (meaning model, sample, or example), was caught in 1935 on the Zebulon Coast Plain. Within two weeks he was ready to accept training.

The dogs caught were given aptitude tests and were introduced into the line of duty best suited to them. Only the quality dogs were retained and used for breeding. The Canaans proved highly intelligent and easily trainable and served as sentry dogs, messengers, landmine locators, Red Cross helpers and war dogs. A Canaan female was one of the two dogs which helped solve the problem of landmine location.

After the War of Independence in 1948, Dr. Menzel dedicated her time to helping the blind and founded the Israel Institute for Orientation and Mobility of the Blind near Haifa. By this time there was a foundation stock of kennel-raised Canaans and many were trained to guide the blind. Today in Israel they guard her borders and factories, homes and children, herd her cattle and guide her blind.

Besides the fact that these dogs have many of the characteristics many people desire in pets—medium size, intelligent, alert and gentle nature around children—there are several other reasons for importing them to North America. The first is to provide a medium-sized dog for the blind. In Israel they have been found well suited for guiding children and the elderly; also, to save this ancient breed from extinction—at present there is only one major breeder of Canaans in Israel.

It is a hardy breed, adapts easily to apartment living, needs little grooming and adjusts to any climate. They have a strong desire to please, are child loving and protective.

They range between 18½" to 22½" at the shoulder and weigh between 35 and 55 lbs. The majority are white with black or brown markings but some are all black or various shades of brown. The eyes should be slanting and dark, the tail plumed and carried over the back. The ears may be at varying degrees of attention but prick ears are desired. The head must be well proportioned and noble. The feet round and cat-like.

Puppies range in price from $150.00-$250.00 depending on quality.

The Canaans can be shown in all countries operating under the rules of the FCI including Mexico and have been recognized by the British Kennel Club. They have not yet received recognition in the United States or Canada. The Canaan Club is actively working towards ultimate recognition of the breed into the Working Group in both countries.

The Canaan Club of America was founded in 1965 and keeps the stud book for all Canaans in America. Further information on the breed can be obtained from the Club Secretary, Judy Ardine, 12568 Lakefield Dr., R. R. No. 1, St. Charles, Mich. 48655, or Suzan Horovitch, Southalta Kennels, Barnwell, Alta.

BACK TALK

by JOAN MORDEN

"Surprise critiques could be a useful addition," says Mrs. Doris Wilson, judge, Oakville, Ont.

Looking back it seems that the interview for this month's Back Talk really began 12 years ago. At that time Doris Wilson and I drove together to Buffalo, N. Y., to take part in a television show. And then, as now, Doris' outspoken views on her chosen hobby, dogs, reflected her lifetime philosophy that it is the dog, not the dollar, that counts. In those days she spoke as a successful breeder-exhibitor. Today she speaks more objectively from the point of view of the judge, but her thinking remains the same.

As one might surmise, it was neither Doris nor myself that was to be the special guest on this TV show but her German Shepherd Dog, Willie, Ch. Beau Ridge Chinook, who had been the Burlington and District Kennel Club's top-winning dog that year. Those were the days before *Dogs in Canada's* official "Top Dog" awards had been established. Nevertheless, in answer to the customs' inspector's enquiry, my non-objective friend Doris declared that "Willie" was "the best dog in Canada". Maybe she took in a bit too much territory but Willie's show record had certainly earned him a place up among the top ones.

Success in a popular breed is never easy. And it was a slow upward climb for the Yorkshire-born girl who owned her first German Shepherd in 1926. She has never been without a Shepherd since that time and today is down to two retainers, ages five and nine. Her show beginnings might be termed a bit dicey. The first dog she showed got her off to an inauspicious start by biting the hand that judged him. Undaunted, she persevered and became a breeder par excellence. Under the kennel prefix Beau Ridge, Doris amassed an enviable breeding record of never less than four champions per litter. She recalls that from two litters of her breeding 11 dogs earned their championship titles.

Such results more than justified her policy of "breeding the best to the best" and to heck with the expense. Doris says that she would not breed simply to produce puppies for the pet market and hers were always in great demand. But she tried, to the limit of her ability, to improve the breed. She says that once, when money was scarce, she worked most of the summer picking fruit in order to raise extra cash so that her bitch could be serviced by one of the breed's top studs.

Because of her vast knowledge of the breed I asked Doris which dog she thought had done the most for German Shepherds on this continent. She credits American Grand Victor Ch. (Can. & Am.) Bill von Kliestwig with this distinction. Back of all the top ones, Doris says, "Bill" can be found in the pedigree. She says he had great breeding behind him, was a good dog himself of excellent temperament and passed these qualities on to his offspring. "Bill", says Doris, sired more American and Canadian Grand Victors and Victrixes than any other German Shepherd.

Doris herself owned and bred many outstanding winners in addition to "Willie" of the TV show. There was a son of Utz Von Haus Schutting, a German Sieger; a son of Int. Ch. Ary of Del Park who won Best in Show at Hamilton and his sister who won the German Shepherd Dog specialty. But the dog that holds the softest spot in her heart was her beloved Ch. Beau Ridge Davey Crockett, a half-brother of Willie who almost died before his show career really got started. Doris thinks that every breeder, once during his career, gets a great one. For her, "Davey" was it. But first he had his troubles.

Davey was the victim of a freak accident. He caught and partly ate a rat that had been poisoned with warfarin, with the expected result. The drug, which causes internal bleeding, began its lethal work on Davey. But an early, accurate diagnosis, multiple transfusions and expert attention worked their miracle. After a prolonged convalescence Davey recovered but it was many more months before he returned to show condition. Doris says that subsequently he was shown five time in two years and in these ring appearances won four specialties and one Best in Show.

I well recall a German Shepherd specialty of the mid-sixties held in Ottawa at which Doris handled "Davey" herself. Handling duties were generally delegated to Mrs. Shirley DeBoer who, in Doris' opinion, has no equal as a Shepherd handler. But this day Doris was on her own, most of the way that is. The show was held in conjunction with The Canadian Save The Children Fund shows out of doors and the day was hot and sunny. After gaiting "Davey" through to Winners and then on to Best of Winners, poor Doris was just about all in. Her son Fred was at ringside watching and when it came for yet another gallop around the ring for Best of Breed competition, Doris handed the dog over to Fred saying: "I've had it - you take him." Fred, who had never set foot in a dog show ring in his life, manfully took over and handled "Davey" to win the specialty as Doris cheered with all the strength she could muster.

This rather exhausting experience pointed up the fact that if Doris was to continue to participate in dog shows it had better be in some area less demanding than gaiting Shepherds. So she began to ease off on breeding and showing and turned her attention to judging. Doris is now qualified to judge all the breeds in Group 3 and is proceeding on the permit system to become accredited in Group 6, Afghans and Basenjis.

She is a highly regarded judge of the working breeds who regularly attracts large entries and a win under Doris carries considerable prestige. She places great emphasis on correct movement and she believes that sound structure takes precedence over a dog with an exquisite head and little else. She says that her final assessment of a dog is often based on the answer to: "Could this dog perform the work for which it was bred?" If her answer is in the affirmative, the dog wins. She is pleased to note that every dog that she has put up, even at sanction shows, has gone on to complete its championship.

Doris is an asset on any club's judging panel in other ways as well. She bounces through her assignments with a great deal of humor. Thorough and reliable at the same time she is a "fun" judge to show under, one who will always give a puppy a fair chance.

On her favorite breed, the German Shepherd, Doris thinks that nowadays breeders may be trying a little too hard and over-breeding in an attempt to come up with a flyer. With a few notable exceptions, she thinks that the breed has less quality overall than in former years. But con-

G.S.P. Club of Ontario's Spring Field Trial

May 21, the day of the trial, was the first really warm day of the year and the afternoon sun took its toll among some nice dogs which tired prematurely. Field Trial Chairman Tom Brown and his committee had complete control at all times: the dogs were on the line without delay, the birds were plentiful and strong flyers, the horses the best anywhere and the refreshment tent was always ready with delicious food. Judges Helmut Brosi and Len Williams considered the overall quality of the dogs was very good with the puppy stake entries the best.

BARK-TRAINING COLLAR

Barking is good and absolutely necessary. But excessive barking is simply a nuisance. Neighbor relations can be strained to the breaking point resulting in legal action or possible harm to the barking dog.

Tri-Tronics Inc., manufacturers of Electronic Animal-Training Products, recognized this problem and set out to solve it in a way that was both effective and humane. The result is the Bark-Training-Collar.

It works automatically by picking up the vibrations from the sound of the bark and at that very instant creates a startling sensation. The dog learns by association. He will curb his excessive barking habit immediately. The collar may remain on the dog as long as necessary. Occasional training periods may be desirable from time to time to reinforce the learning process. Completely safe — yet the most effective bark-training aid ever developed.

The tiny Bark-Training unit is about the size of a half-dollar coin and weighs four ounces. Model BTS (small size) adjusts 8" to 12". Model BTL (large size) adjusts 12" to 18". For extra-large sizes, a Collar Extender may be purchased for $3.00 which adds up to 12" to collar length.

The Bark-Training Collar carries a 90 day warranty against defects in materials, workmanship and long-life energy cell.

Price $42.95 . . . For normal delivery, add $1.50 for handling and postage.

SCRAPBOOK

Something New In Worms

Roundworm, whipworm and hookworm are all too familiar terms in the dog world, but one Irish Wolfhound owner reports having a bookworm, according to the Gaines Dog Research Center. It seems the dog started up the stairs one evening with a book in his mouth, looking as if he was preparing to read in bed. The title of the book—"How to Survive in the Wilderness."

"WE CAME TO HUNT, REMEMBER?"

Purina dog whelping calendar

Bitch bred on date indicated by large figure will be due to whelp on date shown in black immediately below. Name of bitch may be written over numerals for convenience in recording breeding date. Dates based on normal 63-day gestation period. Two or three day variations are not unusual.

I am the voice of the voiceless;
Through me the dumb shall speak,
Till the deaf world's ear be made to hear
The cry of the wordless weak.
From street, from cage and kennel,
From jungle and stall, the wail
Of my tortured kin proclaims the sin
Of the mighty against the frail

For love is the true religion,
And love is the law sublime;
And all what is wrought where love is not,
Will die at the touch of time.
And Science, the great Revealer,
Must flame his torch at the Source;
And keep it bright with the holy light
Or his feel shall fail on the course.

For he who would trample kindness
And mercy into the dust—
He has missed the trail and his quest will fail;
He is not the guide to trust.
Oh shame on the mother of mortals
Who have not stopped to teach
Of the sorrow that lies in the dear, dumb eyes,
The sorrow that has no speech.
Oh, never a brute in the forest
And never a snake in the fen,
Or ravening bird, starvation stirred,
Has hunted his prey like men.
For hunger, and fear and passion
Alone drive beasts to slay,
But wonderful man, the crown of the Plan,
Tortures and kills, FOR PLAY.

He goes well fed from his table;
He kisses his child and wife;
Then he haunts a wood till he orphans a brood,
Or robs a deer of its life.
He aims at a spark in the azure;
Winged love that has flown at a call;
It reels down to die and he lets it lie;
His pleasure was seeing it fall.

The same force formed the sparrow
That fashioned Man, the King;
The God of the whole gave a spark of soul
To each furred and feathered thing.
And I am my brother's keeper
And I will fight his fight,
And speak the word for beast and bird,
Till the world shall set things right.

BARK-A-WORD

Jo Ouellet

HOW TO DO IT The trick is to find the hidden word. To do so you'll have to first locate all the listed words. You'll find these words in the grill spelled out horizontally, vertically, or diagonally either forwards or backwards. Once located, you encircle each letter of the word in the grill then cross it off the list. Don't blot out any letter because it might be also involved in another word going in another direction. Just encircle each one. When you've located all the listed words in the grill you'll be left with the given number of letters as indicated for the solution. This will be your BARK-A-WORD.

KAL KAN PET OF THE WEEK

Lady Wants A Home

A bright and gentle 10-month-old part-collie, Lady weighs 20 pounds and is light brown with a white chest. Lady is obedient and loving and will make a good children's pet.

She will be spayed free of charge before she goes home.

If you want Lady, call the Toronto Humane Society, 922-3148. (She'll go to the first eligible home, but we have lots more like her available for adoption).

This ad appears instead of product advertising by Kal Kan Dog Foods because we love dogs as much as you do.

Help support Tag Day, September 30.

Kal Kan Helps Toronto Humane Society

Kal Kan Dog Foods are running a schedule of advertisements in the *Sun* and the *Star* promoting the adoption of pets through the Toronto Humane Society. As illustrated here, the advertisements, prepared in conjunction with the THS Publicity Committee, appear as a service instead of product advertising "because we love dogs as much as you do." The series commenced in August and will appear every Friday through to December, 1972.

The Most Valuable Thing in the World

"What is the most valuable thing in the world?" A school teacher is said to have set the question to her class. She asked them to bring in their own examples.

Only three brought samples next day. The first, a little boy, brought a lump of coal because it gave heat, and meals could be cooked by it.

The second little boy brought money, because with it you can buy almost anything and go almost anywhere.

The third child, a little girl, brought in a young bird because she thought the most valuable thing is life.

But she had barely finished speaking with the little girl, when the bird dropped dead in her hand, and the girl started to cry bitterly.

Suddenly it dawned on the teacher's mind, those were the tears of loving-kindness—perhaps the most valuable thing in the world.

Acting President Dr. H. N. Taube makes presentation of coffee set to Mrs. Grace Probert.

Past President George T. Walsh, QC, presents gift of copper plate of the Canadian provinces to Wynne Strickland Carson.

The guest of honor receives a plaque engraved "QTCA honors Ed. O'Brien (Mr. Obedience Himself) with this plaque, in memory of 'those were the days'."

Queen City clinic marvellous

If on-the-scene requests from the over 50 Canadian and American participants to be invited to the next Queen City Training Associates obedience clinic are an indication, success is again guaranteed. The Wynne Strickland Carson obedience clinic held July 29 and 30 at the Bayview Arena, Willowdale, Ont., was an unqualified success. The $50 charge was surely the greatest value ever, including a "get-acquainted" party on the Friday evening, and apart from the training itself, delicious breakfasts and hearty luncheons. The Friday night reception was handsomely done, with huge posters of dog portraits, patio tables and umbrellas, and a magnificent buffet—all home cooking. Piece de resistance was a huge cake centered with the replica of a German Shepherd, designed for the occasion by Mrs. Probert.

Mrs. Carson presents Dr. Taube and John Gilbert with the Breeders Trophy, as co-owners of Halla, outstanding German Shepherd in obedience.

Glen Johnson of Windsor, Ont., with Avenger, is presented with a special Obedience Award of Recognition, honoring trainer and dog. Avenger has earned the degrees of Ch. (OT), Can. UD, TDX, Am. CDTX and legs toward his utility title.

Mrs. Mary Walsh presents Mr. Ross Carson with a gift of welcome.

L. to R: Mrs. Mary Walsh, Mr. Carson, Wynne Strickland Carson, Mrs. Grace Probert, Mr. George T. Walsh, Q.C., Mrs. Taube and Dr. H. N. Taube.

Back Talk —from page 16

cerning the allegation that Canadian dog show rules make for cheap champions, she believes that every dog of every breed should have to defeat at least one dog in order to earn a point.

She also believes that if more ribbons were withheld because of lack of merit there would be a noticeable improvement in the dogs that are seen in the show ring. Personally, she refuses to award a winner's ribbon to any dog she thinks is unworthy of becoming a champion. She would favor the periodic retesting of judges and thinks that a "surprise critique" would have its advantages. A judge's critique on every breed, Doris thinks, would be much too time consuming but she thinks that if a judge was told to write critiques on a few breeds picked at random from among those he was judging, it would have the general effect of keeping everyone more alert.

A dog show lover, she naturally does not think there are too many being held nowadays. She enjoys them all but says that she prefers an unbenched show. And she thinks that today's exhibitors don't know how lucky they are. They may even be missing a lot of the fun of former dog shows although during depression years they didn't seem very funny at the time. In those days, Doris says, no one thought of motels or private transportation. A carful of exhibitors would pool resources, drive together to the shows and hope to heaven that the tires were good enough to get them safely there and back. If they weren't, everyone was in trouble together. And if the show lasted for more than one day, exhibitors slept on the benches with their dogs and the grooming gear.

She also thinks that breeders may be going slightly overboard on the hip dysplasia question and destroying good animals for insufficient reason. She sees no point in breeding dogs that may have good hips and not another single redeeming feature. She believes that H. D. can be caused in various ways and until we understand more about the causes, she agrees with Dr. Gerry Schnell when he advises "cool it".

This kind of advice is easy for Doris to take. She is against disposing of dogs for any reason except to release them from pain and suffering. All the dogs she has owned have lived out their days with her. Her present Shepherds will do the same and, like all the others, finally succumb to old age.

The Wilson menage currently boasts, in addition to the Shepherds, three horses, an Afghan and a Whippet, Doris' constant companion.

On the day of our visit the Whippet was banished from the living room and it was then that I learned that a long, arching neck is an asset not only when catching rabbits on the run. It gives its owner the strange ability to be in two rooms at the same time. The Whippet was sitting in the hall but his head was well into the living-room, bright eyes watching his mistress' every move and mutely pleading for admittance of the rest of him. The look was just too much. He made it.

The Afghan, glowing under a freshly groomed coat, belongs to Doris' granddaughter Beverly, 13, who, with her younger sister Katy, have added yet another dimension to Doris' enjoyment of dogs. Both youngsters are frequent winners in junior showmanship competitions, both hope to apprentice as handlers and both plan on studying to become veterinarians. Doris says she hopes she'll be around to see it all come to pass.

Meantime she has a great many plans of her own concerning dogs. She is working towards becoming an all-rounder and continuing with her various club activities. She is a member of the Oakville and District K. C., a past director of The German Shepherd Dog Club of Canada and last year was named president of the Metropolitan K. C. Fan Club.

This is a rather unique position. When Doris enthuses she talks in superlatives - loud, clear and often. And she was so impressed and so vocal in praise of Metropolitan's first two shows that the club members decided to show their appreciation. So they created a fan club, named Doris its president and at their reception last year presented her with a scroll to prove that they liked her too. This is a pretty general feeling about the lady—liking her that is. Ask anyone who knows her. In fact, ask me.

Upstart contender upsets champ in annual Gaines - CNE dog swim

TORONTO — A new Grand champion paddled to an upset victory in the Lightweight Division of the Gaines Lake Ontario Dog Swim at the Canadian National Exhibition waterfront, Sunday, August 20.

Taffy, a mongrel owned by Dave Faulkner of Scarborough, defeated eight times Grand Champion Tippy, the speedy terrier owned by Ross Melluish of Etobicoke, by half a second. Taffy completed the 300 yard course in 2.22.5.

Grand Champion in the Heavyweight class was previous 1971 winner Heidi, owned by John Martin of Weston. Heidi, a German Short-haired Pointer, completed the course in 2.07.5. In second place, Candy, a Labrador Retriever owned by Robert Whitley of West Hill, in 2.10.0. A total of 87 dogs entered this 34th annual Gaines Swim.

Lightweight Grand Champion Taffy on the left, with owners Mr. and Mrs. David Faulkner of Scarborough, Ont. and daughter Susan. At right is Pepper, winner of the Lightweight Open Class.

Owners encouraging their dogs during the German Shepherd class race.

Heavyweight Grand Champion Heidi, owned by John Martin of Weston, Ont. On the left, presenting the Gaines trophy, is Wayne Campfield, Manager, Gaines Professional Plan. Right, Sam Shefsky, associate referee of the swim.
