Joint effort for rehabilitation

May 15 was an important day in the lives of 23 students at Sprucedale School and White Oaks Village. After ten weeks of training, they received their plaques and certificates in basic dog handling.

Sprucedale School and White Oaks Village are two child care centres operated by the Ontario Ministry of Correctional Services in Hagersville, Ont.

In May 1973, the Hamilton Kennel Club began a ten-week program with 12 students at the school. Because of the response and interest shown by the students, the Hamilton K-Nine Obedience Club was invited to participate and the program was enlarged. To date the clubs have graduated 50 students.

Course content includes: basic handling skills, conformation, obedience, tracking, history of the breeds, first aid, how to select a puppy and first hand experience at a dog show or obedience trial. To graduate from the course, a student must put his dog through the fundamental handling routines and write an essay on the breed he is handling.

When the student leaves the school, he looks at a dog with a different attitude because of his new knowledge and skills. Many will become active members of kennel clubs.

Exposing our students to the "world of dogs" has proven to be a positive factor in their rehabilitation and helped them find positive ways to use their leisure time.

We at Sprucedale and White Oaks are most appreciative of the work the kennel clubs are doing and look forward to the next program in the Fall.—**Orville Cotts, Recreation Director**

Dogs In Canada

Tryna, Canada's first Iceland Dog, seen at seven months old.

Canada's first Iceland dog

Canada's first Iceland Dog arrived as the result of an article on the breed published in the October, 1973 issue of *Dogs In Canada*. Her name is Tryna. The eight-month-old pup belongs to Mrs. Ann King of Utopia, Ont. Two other breeders are currently negotiating for puppies.

Mrs. King is working to found an Iceland Dog club and to have the breed registered with the CKC. She and Ms. Anne Bishop, 469 Palmerston Blvd., Toronto, offer information to anyone interested in this ancient and charming breed.

The cover story this month will be as brief as has been the show and breeding career of Karabella Kennels, that is, if you consider five or six years in the business as "brief". (The "old timers" seem to consider anything less than about 25 years as being "brief"!) Nevertheless, in our short sojourn in the show ring, without the aid of professional handlers and the like, and showing only dogs that we have ourselves bred (apart from a few, of course—there having to have been a beginning), we have

New high in entries

CHARLOTTETOWN, P.E.I. — This year the Abegweit Kennel Club shows, held June 22 and 23, drew the largest entries in this club's eight-year show-giving history. Dogs representing 70 breeds came from 15 states of the U.S.A., the Maritimes, Quebec and Ontario with entries of 262 and 264 at the Saturday and Sunday shows respectively.

Judged by mainland totals, these figures might not seem remarkable. But when one considers that the Abegweit shows are not part of a circuit and that the island is not exactly easy to reach by car, these entries must be considered substantial and represent a healthy increase over former years.

ake visiting exhibitors feel wel-me and at ease. The show nue, the University of Prince ward Island rink, was a large, mfortable building with excel-nt acoustics. There was ample, pervised parking and good-sized dging rings and grooming areas. contrast to other shows, the lding boasted a clean cement or, kept that way by a busy pair clean-up boys, both sons of club mbers. Formerly, it was rned, the shows were held in a lding without such an amenity d the picturesque red P.E.I. y underfoot did nothing to prove the appearance of white at and furnishings.

Overall quality of the dogs in mpetition was excellent and top wards were strongly contested. the Saturday show, Mr. Walter ody's BIS winner was the Irish tter Ch. (Can. & Am.) Draherin achelor Boy, handled by his ner T. G. Threlkeld of Halifax. Sunday, Mr. Hans Brunotte dging. BIS went to the locally ned Whippet, Ch. (Can., Am. & x Sirhan Sweet Expectations , also owner-handled by Mrs. Miller.

A feature held in conjunction h the Saturday shows which ated considerable spectator erest was the Whippet races. d to be a "first" for Canada, e races were sponsored by The ippet Club of Eastern Canada d drew an entry of 21. Overall nner was Ch. Stony Meadows ida while the puppy winner s What Chance O'Woodsmoke, dogs owned by Mrs. Miller.

An interesting aside to these nts is that the dogs which cov-ed the ground the fastest med quite superior in confor-ation to the "also-rans". Even he gallop the old saying "if it's t right, it moves right" ears to hold true.

Another unofficial class that s said to set a Maritime record for the Puppy Sweepstakes ged by Malcolm MacDonald. s event drew a total of 71 pup-s.

The club, with a membership of did a bang-up job of presenting 1974 shows, the only dog event ored by Abegweit during the r. The trophy table, in charge Arlene Hood, was greatly ived. For each Best of Breed re was an "island mug" and group firsts and puppies both there were handsome elec-clocks. Mrs. Hood said that re is a great interest in the e among island businessmen that there is a waiting list of e wishing to donate "General ass" prizes.

Other features of the Abegweit ow which deserve comment the entry fees, the catalogue admission charges. All three still down at a sensible level. ow, the club manages to do re than break even. The cata-e is one of the best printing to come along in some time—per stock, printed in clear, easy-to-read type. And there were personal touches that helped lift the shows above the ordinary. There was an official hostess, Mrs. Nancy Canham, the club's "Mrs. Hospitality" who was on hand to answer questions and help visitors with any problems they might have concerning accommodation. There were youngsters who circulated among the exhibitors with trays heaped with bags of homemade fudge. And there was the superb stewarding of Art Tremain, working two rings simultaneously. Aided by a good P.A. system, Mr. Tremain managed to get the right dogs at ringside, on time and in the correct order.

According to islanders, the end of June is the time of year when P.E.I. is at its best. The red-green patchwork of the farmland, edged with darker green windbreaks and laced together with red clay lanes tells the visitor that the folks who live here love their province. Every square foot seems to be in use. And there are the beaches. Never more than 15 minutes away by car, mile after mile of clean sand stretches as far as the eye can see, mercifully still unblemished by hot dog stands and neon signs. It is a bird-watcher's bonanza. It is gently rolling, curving roads bordered with wild pink-to-purple lupins in full bloom. It is a treasure of Canadian history. And it is one beautiful place to go to a dog show.

Protection needed

Everyone who engages in a sporting activity assumes some degree of risk. From the strenuous body contact sports to the gentler games such as golf, there is always the chance that somebody could get hurt—a participant, an official or a spectator. This applies even at dog shows. Dog bites are not uncommon, especially in the ring.

Recently a judge was so severely bitten by a dog under examination that, it is reported, it will be some time before this person will be released from hospital.

Due to the unfortunate incident this dog will not be permitted in competition again because the judge-biting took place in the U.S.A. and the American Kennel Club takes a very hard line with this sort of thing.

And well they might. So might CKC. To a large degree temperament is inherited. Fear biting and aggressive behaviour do not develop overnight and the owner who claims that "this is the first time he's ever tried to bite anyone" probably is not being strictly truthful. Furthermore, why anyone would want to earn a title on an unstable dog and thereafter use it for breeding purposes is difficult to understand. Certainly it is not for the betterment of a breed. Yet it seems to be happening all the time. Heaven help the judges whose job it is to examine the bad actors!

Some breed Standards, such as that of the Doberman Pinscher, do protect the judge by listing "viciousness" as a disqualification. A requirement that could account for the fact that, as one dog show spectator remarked: "Dobes certainly seem to have good temperaments these days". Maybe this is too broad a generalization but the Dobes seen in the show ring do seem to be well under control. Wouldn't it be great if the same could be said of every breed?

A general "viciousness disqualification" would go a long way to bring this about. Circumstances might justify going along with the law that says: "A dog is allowed one bite". But a repeater should never be given another chance. Granted, every judge has the right to dismiss any dog that is an obvious menace. But dogs don't always give a warning. Judges deserve a bit more protection than a sixth sense that tells them to be on guard and the ability to get out of the way in a hurry.

Kids and pets

If you're wondering what the small fry think about the pet population, here are some comments from grade schoolers reprinted from the May issue of "Pets/supplies/marketing." One youngster expresses his views on pets in the home: "Nobody should try to take care of too many pets all at the same time. First, he should learn how to take care of just one real good.—" And on pet overpopulation there is this: "The number of pets in the country today is more for saying than believing." And: "Every person will have at least one pet a hundred years from now. Just wait and see."

Dogs running at large came in for some comment. Here's the way one tad would take care of this problem: "Oughtn't Congress to pass a law that everybody goes to a pet store and gets a harness for walking dogs? Are they thinking about it? If not, I make a motion." But if this ever became the law there's one junior who is in for a problem: "Harness is easier to say than to figure out how to put it on a dog."

Some bypassed all this and went directly to the heart of things and wrote about grooming and health care. Here's a testimonial for you: "Grooming powder is a well known pet store product few people ever heard of." And on health products one youngster wrote: "Many questions have been aroused in my mind about what medicines we should keep on hand for pets. The main trouble with medicines is they give more questions than answers." And our researchers will have to go along with this one: "Even better ways to keep pets healthy are soon to be found. Where they are to be found is in the future tense."

The car's an oven

It came on the first warm day of the dog show season. The awful announcement over the P. A. system that was to be repeated, time and time again throughout the summer: "Would the owner of a station wagon, license number 1234, please go to your car. Your dog is in trouble."

It wasn't always the same dog, of course. Sometimes it was a Lab, or a Doberman, or a Boxer—any breed—but always the message was the same "the dog was in trouble." And every dog lover that heard the announcement sent up a silent prayer that the owner would get to the car in time. And they were filled with an instant loathing for anyone who would leave an animal, unattended, in a closed vehicle on a hot summer afternoon. Whoever it was certainly wasn't a dog lover. An owner, an exhibitor, a breeder perhaps, but not a dog lover. And they felt helpless and angry knowing the agony the dog must be going through to have attracted the attention of the humane passer-by and move him to seek out the P. A. announcer.

Why do people do it?

"He'll be all right," said an owner leaving his dog "there's a breeze blowing through."

At 90 degrees in the shade the amount of breeze blowing through the one inch the windows were left open was not enough to keep the car from becoming oven hot. Within an hour the call went out for the show veterinarian. Within two hours the dog was dead.

Why do people do it?

Discrimination?

Are Basset Hounds being discriminated against? Can it possibly be coincidence that our breed has been selected more often than any other in the group to go under the substitute judge in the past year?

This is a very difficult breed to assess, as is evidenced by the number of Bassets with serious faults and disqualification factors that have received winners ribbons.

On the positive side there have been a few judges who have withheld ribbons or placed these dogs as second place. These judges have my highest regard.

With entries lagging and registration soaring, our breed needs all the help it can get from knowledgeable judges and show giving clubs, not substitutes! *Roxanna Bowman, St. Catharines, Ont.*

Kuvasz news a welcome addition

A most welcome addition to Breednotes is the Kuvasz news sent in by Dorothy Grosart of the famed Tall Grass Kennels, famed because the lovely Kuvasz seen in the Walt Disney film "The Troubles of Hercules" was none other than their Ch. Tall Grass Kleine Schwester. Famed too because while in a rare breed they have finished many champions with group placings. Famed because while Dorothy and her husband do not "blow their own trumpets" and are the last to say they are experts, those of us who know them know how diligently they search Europe for top quality stock.

I am sure all Kuvasz owners and also those of us who just admire the breed will welcome news on a regular basis from the pen of Dorothy Grosart. *Mrs. Barbara Dominski, Toronto, Ont.*

Working test for show and field

I have been reading with great interest the comments in your Letters column regarding show champions working in the field.

For the last three years The Golden Retriever Club of Manitoba has been doing some major work in this area.

In order to promote the idea that there should be a working test for retrievers which have won their show championship, we set up a Working Certificate Test based on British and American formats. Mrs. Joan Tudor of England and the late Dr. Duncan Croll judged our first test held in conjunction with the Mid Canada Dog Show in May, 1972.

A year later our test was revised and re-run with Louis Turenne and Wayne Lewis officiating. On completion, the entrants advised us that the formula was very acceptable and encouraged us to continue in '74.

The W.C. has been designed with the idea that any dog with the natural abilities of the retrieving breeds can pass with the minimum of training. Since there is no contest, the dog may receive only a pass or fail on the essentials of each exercise.

Once set up, the test is simple to exercise and does not require a vast amount of time and effort on the part of the organizers. The G.R.C.M. feels that once a dog completes this test successfully the owner can be certain his dog is able to work under field conditions and will pass on to its progeny the natural instincts of a retriever. With roughly 50% of all entrants passing the test, we think the W.C. is neither a giveaway nor an impossible goal, a fair test for those dogs which may never see the real action. *C. A. Jenkins, Westwin, Man.*

Mastiff CD

Mrs. Betty McHugh did indeed do a good job in compiling the 1973 obedience titles by breed. However, she did miss our Mastiff, Ch. Heidridge's Tigger, who obtained her Companion Dog title on October 6, 1973. *J. D. Russell, Winnipeg, Man.*

Clubs should provide education

It is really great belonging to a club that not only teaches conformation and obedience but every month puts on an educational seminar or program. This better education for members leads to better bred and trained dogs which is what we all want.

How well I know how novices can be left dangling on their own without the proper education and coaching so desperately needed. This can't happen at the Seaway Kennel Club. Not a meeting goes by without something being discussed which leads to the betterment of our dogs. It is nice to have a top show dog, come first in your obedience trials and breed puppies but without the proper education you are nowhere and could prove to be a hindrance to the improvement of your breed. *LaRee DeLucas, St. Anns, Ont.*

Takes exception

I have just received a copy of the magazine *Canine Classics* which appears to be the advertising media of the Professional Handlers Association of Canada. An article appears to which, as a working member of a show giving club, I feel I must take exception.

Hiding behind the title of PHAC I find three individuals who have set themselves up as judge and jury to tear apart the efforts of so many of us who try to hold successful shows. I was personally at only three of the shows that were so heartlessly attacked in the issue, so will counter comment on these three only.

Starting with the Kent K. C. (Chatham, Ont.). These shows

been extremely successful, to say the least! The very first puppy born at Karabella Kennels has become a multiple group and Best in Show winner. Several others have many group placements to their credit, innumerable Bests of Breed; as puppies, many puppy groups were won, and several sweepstakes as well. Yes, we have been very successful, and perhaps you could say, very lucky! But things were not so rosy in the beginning—we too had our rough times, as many others have had and are having now. . . . many of our friends will recall our beginnings in 1968 and the subsequent showing of our first bitch—very amateurishly, but persistently, up to her championship. Specialing continued thereafter for many months against tremendous odds, only to collect dozens of pretty green and white ribbons, which we were then and are still now, very proud of. We didn't give up and all this time we were learning more and more about this strange but fascinating world of breeding, grooming and showing dogs! By the time our first Lhasa, Ch. Karabella Ming Toy Le-Wun was two years old, we were hooked! The next step obviously was to breed her. A select top-winning American stud was chosen—the bitch was delivered to him—then came days of waiting and anxiety but that was the last we were to see of our beloved "Ming" . . . she died before returning to us—of indeterminable causes! We were broken—our world was shattered—we were back to where we had started. However, another bitch we had acquired simultaneously was slowly working her way into our hearts. Nameless she remained, until at age 6½ months she entered the showring, soon emerging as Ch. Ypsilanti's Charmer of Oji Hu, but affectionately known as "No-Name"—the foundation bitch of Karabella Kennels—"Karabella" in honour of our first dear departed.

Now the tides seem to have changed—we were on an upward swing! We shall always be grateful to Sharon Binkowski of Ann Arbor, Mich., for allowing us to breed to her magnificent homebred—Ch. (Can. & Am.) Arborhill's Rapso-Dieh, a multiple American and Canadian Best in Show winner and one of the finest dogs in Lhasadom. Several litters were bred, raised and shown to their championships, one after another. We were really addicted but we seemed to be doing something right! As our experience and knowledge increased, we realized that the bloodlines we had adopted were producing for us an extremely stylish dog with tremendous eye-catching appeal. We had great length of neck, short-backed "cobby" bodies, high set tails, tremendous rear movement and drive, lovely heads, and abundant length and density of coat of the correct texture. (Growing coat has never been a problem at Karabella! Keeping this fantastic coat is, however, another matter—the only secret being regular grooming). We feel fortunate that as comparative newcomers to Lhasa breeding and with our American-based bloodlines, we were not drawn into breeding "terrier-type" Lhasas with typical terrier characteristics, i.e., terrier fronts, scissors bites, terrier-type muzzles, etc., to name a few, now that we have been moved to our rightful place in Canadian Dogdom from the Terrier Group to the Non-Sporting Group. Unfortunately however, our dogs still do have their faults! We still do not seem to be able to produce the ideal Lhasa Apso! We will continue to try, nevertheless and we will continue to show our best efforts in the dog ring—after overcoming a certain obstacle!

Lhasas do certainly seem to be leaving a pronounced impact on Canadan dogdom and perhaps to the dismay of many other breeders! Scanning quickly through the show results, I note that Lhasas won seven Best in Shows and 46 Group 1sts (not to mention countless group placements) in 1973! We are very proud that our homebred Ch. Karabella Gem-Pa Chi Se-Pon won one of those Best in Shows and eight of those Group 1sts last year.

Credit must be given where credit is due and we owe our success to a great many people who helped us along the way, established breeders, handlers and countless other dog fanciers who encouraged us when the odds were down and guided us the best they could with their knowledge and experience. Of course, it also took a lot of hard work on our part but when you captured that ribbon, rosette or trophy, well, you knew it was worth it! A very special thanks is extended to the following judges (in abc order) who have made our efforts in the dog world a truly satisfying experience: Mr. Herman Cox, Mr. Irving Diamond, the late Mr. Mark Gordon, Mr. Harvey Gratton, Mr. Rutledge Gilliland, Mr. T. E. Gundersen, the late Mr. Thomas Joel, Mr. Roy Montague, Mr. Louis Murr, Mr. Glen Stephens, Mr. Stan Whitmore, and many others.

As a word of advice to the newcomer to the world of showing dogs—re-read this little epistle and try to read between the lines. It can be very satisfying and it can be very heartbreaking. Remember, when you are losing, everyone is your friend and on your side but when you start winning . . . well, you take it from there.

have grown out of their original building. Facilities in the adjoining arena were a trifle awkward but a lot bigger. The grooming area was a bit of a tight squeeze but, with the majority, good sportsmanship prevailed and we were able to get our dogs to and from the large rings which were kept as clean as at any other shows.

Most of the arena's concessions are on a permanent rental basis to the concessionaire and the show giving clubs have no control over the food that is served, so why criticize?

Forest Hill (London, Ont.) had a very good venue but it was terribly cold and damp. One had to go outside and walk from one end of the double curling rink to the other to get from the grooming area to ringside. It was only when it started to rain that the inside doors were opened to allow us through. This I understand was the responsibility of the rink management and beyond the control of the F.C.K.C.

Food at Forest City, the judge and jury say, was poor. I thought it was excellent. In the mornings a complete breakfast buffet was served and at lunch, another buffet. On the Saturday our bar was opened and a comfortable lounge with T.V. was available for the show weary. If this is a poorly catered show the judge and jury must live a life of caviar and filet mignon. If this is what they expect at dog shows they are in the wrong profession.

At the Elgin County K.C. (Aylmer, Ont.) the club's first efforts, the venue was very good. Comments I heard at ringside were most favourable regarding the rings and grooming areas. The judge and jury fail to comment on cleanliness but this too was in my estimation adequately taken care of. Again the weather was against us and the wetness did track in but there is only one person who can control the weather and He is not a member of the PHAC.

I am sure that every show giving club tries its very best to present a well organized show. We know where our weak spots are and try continually to eliminate them. I should like to see the PHAC Show Reports signed by the members of the PHAC who approve the publication of these far reaching statements. By what I do "Two Directors and One non-Professional Handler/Exhibitor" make these statements that appear to be the opinion of all members of the PHAC and then publish them anonymously.—*Mae Marks, Secretary, Elgin County Kennel Club.*

WHAT CAN SHE BE?—A VETERINARIAN—by Gloria and Esther Goldreich—Lothrop, Lee & Shepherd Co.—$4.95

A book for the very young who wonder what it might be like to be a veterinarian. It is a child's eye view of one of the professions that are open to women.

The text is simply worded and has been approved for publication by the American Veterinary Medical Association. In pictorial form it tells the story of Dr. Penny, a lady veterinarian, and her work. The book is just 47 pages long and beautifully illustrated.

It would make a pleasing gift for "little folk" who might be dreaming of doctoring sick animals—someday.—**Joan Morden**

Add supplements* to Purina Dog Chow?

You can. But you don't have to.

We find that adding warm water brings out our famous Dog Chow flavor. But everything else is right in the bag. All 43 nutrients any dog needs—vitamin A to zinc oxide. So add supplements? Sure. But isn't it nice to know you don't have to?

*Purina Research Farm Fact: Eight of our brood bitches have whelped over 100 puppies each—on a diet of Purina and water only. With the exact, no-supplement program we recommend on our package, 92.8% of the 668 puppies whelped alive at our Farm last year were weaned—against a national average of around 60%.

Dog health seminar planned for Pittsburgh

To help inform dog owners of the latest data available on their pets' health and care, a dog health seminar is being organized in Pittsburgh for October 20 by a committee of dog fanciers from Pennsylvania and Ohio.

The committee, with Dr. and Mrs. Paul B. Ernst of Pittsburgh as honourary chairmen, has arranged a well-planned seminar, featuring popular speakers, to run from 9 a.m. to 4 p.m. in the Pittsburgh Hilton Hotel, Gateway Center.

All dog breeders, owners and fanciers are invited to attend the seminar sponsored by the Morris Animal Foundation which has conducted several well-attended seminars throughout the country. For details write the Foundation at 531 Guaranty Bank Bldg., Denver, Col. 80202.

Canine skin problems, emergency care and kidney diseases will be discussed by Michael Lorenz, D.V.M., an outstanding veterinary clinician and assistant professor.

Michael Fox, M.R.C.V.S., Ph. D., animal behaviourist and associate professor of psychology, Washington University, St. Louis, will discuss the behaviour of dogs and how to understand why they do what they do.

obedience

Send correspondence direct to Jake Giacomelli, 51 Wardrope St. S., Stoney Creek, Ont. Opinions expressed are the writer's and not necessarily those of the publishers or The Canadian Kennel Club.

This month we'll continue with handling errors committed by exhibitors while showing their dogs in regular obedience classes.

To handle correctly one has to concentrate on every move and gesture you make, try to be as natural as possible. It is so easy to make handling errors and not be the least bit aware of them, especially if your training school or class may have been a mediocre one. One good way to uncover some of your incorrect handling is to ask experienced obedience buffs to watch your performance in training or, better still, at an obedience trial and have them tell you what they see you are doing wrong. Each observer may have a different set of errors to report—study them all and see how they stack up against the obedience rules and regulations to help you determine if what you are doing is right or wrong. Let's continue with the handling errors:

Recall Exercise: The handling error that is the "bigee" here is the forward snap of the body and head when giving the command "Fido, come!". Sometime the head only is rocked—these are all "no-no's". When calling your dog, you may use a command or signal only—if you choose the command then *eliminate* all extra body, head and hand signals (and legs, too) and you'd be surprised how a little extra back shuffle may cause your dog to come the rest of the way.

ERRORS

The head snap alone is not always easy to eliminate; especially when you're calling your dog in a noisy arena. As you try to call your dog above the din it is easy, in an effort to speak loudly, to have the head snap creep in. This is one you have to practice at and at the same time pay special attention for any extra head movements when trying to throw your voice over the loud noises of an indoor show and training ring. Remember, it may be okay to give your commands extra loudly to overcome a noisy background—but you'd better not be too loud if sound conditions are normal or you may end up with a penalty.

Another error you see in the Recall is the handler who has his hands by his sides as he calls his dog and as his dog starts to come to him the handler suddenly moves his hands together to a central point in front of his body as if to guide his dog to a sit straight in front.

Outside of the loud recall—the other aforementioned errors may cause you a penalty that may range from minor, substantial to an outright failure, depending on whether the judge can determine whether your dog would have done the exercise at all had you not made the extra movements not permitted by the standard.

In the U.S., extra loud commands given in a relatively quiet obedience ring will undoubtedly give you a penalty.

VISUAL STANDARD

The judge must carry a mental vision of a theoretically perfect performance in each exercise and shall score each dog against this visualized standard of perfection. A handler screaming or loudly yelling at his dog to do any exercise, especially under normal sound conditions (even in Canada) is certainly not the mental picture of a theoretically perfect performance and therefore should be penalized against the visualized standard of perfection. Don't look so shocked—remember how it reads in the first paragraph on Page 27 of the July 1, 1973 C.K.C. Regulations and Standards for Obedience Trials?

"The lists of faults are not intended to be complete but minimum penalties are specified for most of the more common and serious faults. A dog which makes none of the errors listed may still fail to qualify or may be scored zero for other reasons".

Study and learn this paragraph well—it can open up a whole new ball game for you.

I believe anyone should readily see that extra loud commands, though not listed as a specific error in our Canadian rules are certainly open to a minor or substantial penalty, depending on the individual circumstance when considered in the light of the above-mentioned regulations.

POINTERS

Address correspondence on Pointers in the field to Wm. McClure, Box 15, Manotick, Ont.

FROM ONTARIO

There is good news for Shorthair fans in Ontario. The German Shorthair Pointer Club of Ontario is organizing training clinics with expert help. Secretary Mrs. Brenda Kingerley reports that Pierre Pilote, noted Shorthair owner and field trialler, is assisting with field and water work. Mr. Pilote is the owner of the well known G.S.P. Fld. Ch. Moesgaard's Pilote Trophy.

This competent dog and a number of others from the U.S. competed June 9 under judges Max Freer and Ed Rightmeyer in the CKC trial hosted by the club. Thirty-three dogs were entered. Owners of Shorthairs in Ontario can contact the secretary at Box 10, Group K, SS 3, Hamilton, Ont. L8N 2Z8 for information about upcoming events.

FROM BRITISH COLUMBIA

Ronald Watt of Armstrong, B.C., reiterates this writer's concern that the CKC "really doesn't give a hoot and a holler about (pointing dog) trials and triallers". Ron reports that "there are many discussions carried out (in B.C.) as to alternatives to CKC. One club in that province has already adopted American Field sponsorship. Others may follow". Mr. Watt goes on to say "personally I do not want to see this" and he believes we can work towards a bright future within CKC.

He also points out that our age requirement for dogs in Canadian trials is, in his opinion, strange. "Why are dogs entered in their respective stake not by their age but whether they were born on or after a specific date". "I cannot understand why my dog has a distinct advantage over possible competitors if it was born on or after the right date. If I am running a dog born on December 31, am honest and a friend is running a dog born the next day, then my friend can run his dog one full year longer in Derby stakes".

Ron proposes up to 18 months for puppies, up to 30 months for derbies and 30 plus for all age dogs.

Mr. Watt solicits comments, so here goes. The system in use is based on about 75 years of experience in dog trialing. It is based in part on the tradition in horse breeding in which one bred for foals in the early part of the year. This tradition was adopted by the American Field and subsequently by The Canadian Kennel Club in discussions held between both registries in the 1950's.

January 1 of a year is the universal date. A dog whelped January 1 to May 31 is a puppy his first Fall, a puppy the next spring, a derby the following Fall and in the Spring of his second year. A dog whelped June 1 to December 31 is a puppy the next spring, a puppy in the Fall of the next year, a derby the following Spring and in that Fall.

The American Kennel Club, always looking to complicate the continent, selected an age system based on up to 15 months for a puppy, up to 24 months for a derby and over 24 months for an all age. There has been much criticism of this system as some owners feel that 24 months is too young to end a juvenile career. Some opinion leans towards Ron's proposal which, of course, is a monthly equivalent of the current system.

The strongest case against this thinking is the possibility of confusion. With three systems on the continent, owners would have to do a lot of fast thinking to calculate when and where they could enter in CKC, AKC and FDSB trials. Also, the current possibility of trials recognized by both CKC and the Field Dog Stud Book would be weakened. For those of us who see such joint recognition as beneficial, this is a strong point. The closer systems can interlock the greater opportunity for understanding. Take note that while the FDSB is cooperative, the AKC now makes even the registration for a Canadian bred dog a feat which challenges the pocketbook and boggles the mind. On the other hand, reciprocity between CKC and FDSB if not perfect is at least rational. Dogs registered in our stud book can quite simply be registered in FDSB and under certain clear conditions CKC will accept "Field" registrations.

I would put my weight behind our current age requirements. Any other opinions would be welcomed by both Mr. Watt and myself.

FROM NEW BRUNSWICK

Harold Hatfield, Brittany and English Setter owner, judged the International Brittany Club's Shooting Dog Classic held June 8 at Sno' Fun Shooting Preserve, Evans Mills, N.Y. Harold has been invited to act as senior judge for the 1975 trial.

The growing pup; jaws and teeth

With so much ado about proper bite and the number of teeth in the Dobe, I would like to submit a few facts concerning jaws and teeth.

There is a great deal of attention being paid recently to "missing teeth" and "correct bite" and "full and proper dentition",—terms commonly used. What is often missed by some breeders but is equally important to the exhibitor is not just missing teeth but also the placement in the gums.

So far as the jaw length is concerned and as a guide to whether the incisor teeth will end up with the correct relationship between the upper and the lower sets, one should keep in mind that after the upper jaw has ceased its growth the lower jaw continues growing for a short period. One can then assume that a *slightly* overshot mouth at three months may possibly correct itself by the time the puppy is eight to nine months of age. Conversely, a *slightly* undershot mouth is very unlikely to improve and quite possibly be worse at eight months of age.

A dog should have three premolar teeth occupying the space between the large canine tooth of either side of the upper jaw and the fourth premolar, which is almost always present and is the largest of all cheek teeth. This tooth operates in unison with the first molar tooth of the lower jaw, which matches it in size and shape. This fourth premolar in the upper jaw is the "carnassial tooth".

The dog has 28 temporary teeth and either 42 or 44 permanent teeth.

The temporary canine teeth (tusks) appear at 3-4 weeks and all six incisors are present by the fourth or fifth week.

The permanent central and lateral incisors appear at four months.

The corner (end) incisors are changed at 4½ to five months.

The dog has 22 incisors, four canines, 16 premolars and ten molars. The teeth in the lower and upper jaw are not numerically equal.

The permanent dental formula is (or should be) on either side of the mouth.

	Incisors	Tusks	Premolars	Molars
Upper	3	1	4	2
Lower	3	1	4	3

The first, second and third premolars appear at about three to four weeks and are changed for permanent premolars between five and six months.

About the same time, the first molar (fifth cheek tooth) appears in the upper jaw. The second (sixth cheek tooth) appears in the lower jaw at approximately six to eight months but it may be missing from the upper jaw, so that this jaw carries only four premolars and one molar.

When looking at a puppy's mouth, the possession of the third molar in the bottom jaw shows that the puppy is six months or over.

The above "double talk" is what is meant by the phrase "full and proper dentition".—**Terri M. Coutts**

Is someone interested in a nice, homey, well-established kennel? Dogs have lots of room. Separate kennel for puppies with covered runs - another building for visiting ladies — all three buildings automatic gas heated.

An aviary 40' long with outdoor flights; add to this a two bedroom home with a self-contained suite in the basement on a park like garden with fish pools, rockeries, trees and flowers galore.

Herb and Jean Fletcher are semi retiring from the dog game.

JUNIOR K.C. NEWS

by NICHOLAS PHILLIPS

Congratulations are in order for Mike Loverock of the Vancouver Junior Kennel Club, winner of the George Kynoch Memorial Trophy for Best Junior Handler in British Columbia 1973. Mike was handling a Kerry Blue Terrier, Ch. Kel-Tara's Star Tracer. Six competitors were entered under judges James Bennett and Miss Cheryl Best. Mr. Bennett was very innovative as he put the handlers through their paces in an interesting and exciting competition. Miss Best kept her own score at the sidelines. Corinne Douglas of Victoria Junior Kennel Club placed second, handling her Newfoundland; Careen Fraser of Tyee placed third, handling an Irish Setter; Meg Savory of Nanaimo placed fourth, handling her Old English Sheepdog; Kevin Gearnhart of Port Alberni was fifth, handling a Keeshond; and Karen Jolly, all the way from Kamloops Junior Kennel Club, placed sixth, handling a Samoyed. The competition was hosted by the Nanaimo Junior Kennel Club on April 7.

Erin Fulton of Vancouver won Best Handler at Nanaimo the same day, in the regular competition, under judge Mrs. Jane Bennett.

Taffe Walker, also of Vancouver, won Best Handler both days of the Kiwanis Club of Kerrisdale shows, April 19 and 20.

Following are the rules for the Kel-Tara Sportsmanship Trophy. As I mentioned last month, Kel-Tara Kennels in Vancouver offered a trophy to the Best Sportsman for 1973 in all the Junior Kennel Clubs in B.C. Points were drawn up by Mrs. D. J. Roy of Kel-Tara, to be observed by the juniors in their selection of Best Sportsman for their club and I think they set an excellent example for the juniors. Rules are as follows:

1. The handler will treat his dog with respect and kindness, win or lose.

2. The handler will enter the ring with the determination to do his/her best and to top his/her own record.

3. The handler will never enter the ring expecting to win. Self-confidence, competence, and objectivity should be his/her attitude.

4. He will never do anything dishonourable toward another handler or attempt in any way to disrupt another or dog. Consideration for opponents and their dogs shall be paramount.

5. He will not run down or gossip unkindly about other competitors or their dogs.

6. He will exhibit courtesy and appreciation at all times.

7. The handler will accept wins and losses with good grace and good manners, remembering that his loss is a teammate's gain and whenever he wins another may be disappointed.

8. He will attempt to learn enough about his job by setting in his/her own head a high standard of excellence so that when he/she loses he can realistically evaluate why he has lost and when he wins he will know honestly whether he should have or not.

RANDOM THOUGHTS

Anyone interested in submitting random thoughts for this column should send them directly to Mr. James G. Reynolds, Box 3100, R.R.3, Ottawa, Ont.

The Barrie Kennel Club has, in a very friendly way, questioned the point that some clubs' show dates should be curtailed to allow new clubs an opportunity at shows of their own. I'm glad to have an opportunity to expand on this a little. Over the last few years there have been clubs seeking dates which they have had trouble in getting. On the whole our governing body has been successful in sorting this out, recognizing that not all shows can be held in the balmy months of summer. My concern is that the situation "like Topsy" just continues to grow and that soon action will have to be taken. The kind of action implied by the proposed new dog show rules which could permit the question to be resolved by cut-throat competition by clubs is to my mind totally unsatisfactory. I can see no reasonable alternative but that KCK begin to limit the number of shows held by one club. Since I belong to two clubs which this would affect I do not find it a pleasant prospect. I'm sure that a Board of Directors which attempts it will find it unpleasant and indeed the directors may find their personal commitments to clubs in jeopardy. Nevertheless, it is the job of a Director rate to proceed in the best interest of the CKC as a whole and not subjugate important policy to personal commitments and interests.

Dog training good therapy

TORONTO—When Canadian Dog Show Service held its latest obedience class graduation July 10, the event became a twin bill success.

The locale was the recreation room of the Lakeshore Psychiatric Hospital; the audience consisted mainly of patients and visitors numbering nearly 200. Hospital executives were elated. A dance or other form of program might attract a total of 40 patients, they stated.

Four of the patients were invited to come on stage and "handled" some of the dogs with a little bit of help. The audience selected first, second, third and fourth winners, who were presented with small trophies. They politely handed them back, barely believing the awards were theirs to keep. One man was so overjoyed he had to leave—he couldn't contain his tears. There was a lovely corsage for the oldest resident lady in the audience. "I want to keep this forever," she told emcee Bob-John Ellieff. And in her heart and mind, no doubt she will.

The event was anticipated for some time by the patients. In the therapy classes signs and posters were made. While refreshments were being served it was discovered quite a number of the residents loved dogs. Now the CDSS and hospital officials are endeavouring to set up a therapy class for such patients.

CDSS training class wins were roundly applauded by the class members. First was Sanda Hunter with her Saluki; second, Lynda Kocman, American Cocker Spaniel puppy; third, Ann Benedet and fourth, Janice Kershaw, both with Cavalier King Charles Spaniels.

Heartiest applause and awards for the most improved student went to Adele Hammond with her Old English Sheepdog, who apparently had given Adele a proper pack of problems and after six weeks of training with 24 other novices, proved purely angelic.

Good support aids Timmins sanction match

Mrs. H. Pugh, CKC president and CKC director Ed Dixon were met at Timmins Airport April 27 by Paulette Sullivan, president of the Timmins All Breed Kennel Club, Shean Sullivan and Yvonne van Wyk, club secretary.

At an open meeting in the Timmins Community centre, Mr. Dixon expanded on the aims and objectives of The Canadian Kennel Club, followed by a question and answer period with Mrs. Pugh and Mr. Dixon answering many interesting points.

April 28 dawned bright and cheerful for the Timmins All Breed Kennel Club's first sanction match. Judges Mrs. Pugh and Mr. Dixon did an excellent job of judging the northern dogs. Great support came from surrounding areas such as Sudbury, North Bay, Temagami, Kapuskasing, Cochrane, Iroquois Falls and Fraserdale. Several professional handlers were present and total entry of exhibitors and spectators was over 800.

Some local winners were: Paulette Sullivan, Group 1 Irish Setter; Yvonne van Wyk, first in open class (female) with her English Setter; Howard Yee, Best of Breed Labrador Retriever, Mike Boucher, Best of Breed Chesapeake Bay Retriever; Vincent Alexander, Best of Breed Bouvier; James Taylor, Best of Breed Collie; Michel Briand, BB German Shepherd; Bill Oerton, BB Old English Sheepdog; Vincent Alexander, BB Siberian Husky; James Loucks, BB St. Bernard; Ida Fyfe, Best Puppy St. Bernard; Sherri Joley, BB and Group 1st Miniature Schnauzer; Elsie Honey, BOS Pomeranian; Bill

L. to r. Judge Ed Dixon selected the Afghan. Endeavours Commander Bullwinkle, as Best in Show. Owners are Wendy and Richard Paquette of Azilda, Ont.

Following the show, restaurateur Howard Yee entertained judges and Club executives, among them Mr. Dixon and CKC President Mrs. Hilda Pugh.

Record entry at Northern Interior Show

Held May 26, the 107 sanction show entry was a record for the club.

Judges were Mrs. Sally Hudson-Bremner, Surrey, B.C., conformation; G. Brian Hobson, Prince George, obedience; Mrs. Ann Neff, Prince George, junior handling.

Held in the Prince George Curling Club, Best in Show was a Samoyed owned by Mr. and Mrs. D. Jacobson, Prince George; Best Canadian Bred in Show, Irish Wolfhound owned by Mr. and Mrs. E. M. Jenkins, Prince George; Best Canadian Bred Puppy in Show, Yorkshire Terrier, Mrs. Margaret Hamilton, Prince George; Group I, Irish Setter, Herb Austad, Fraser Lake, B.C.; Group II, Wolfhound, as above; Group III, Samoyed, as above; Group IV, West Highland White Terrier, owned by Mrs. B. Rommel, Prince George; Group V, Yorkshire Terrier, as above; Group VI, Boston Terrier, owned by Mrs. Margaret Schweda, Prince George; Obedience, Top Dog in Trial, German Shepherd, owned by Bart Hollinger, with a score of 189; Junior Handling: Best Junior Handler, ages 6-12, Joanne MacKenzie, with a Dachshund; Best Senior Handler, ages 13-16, Norman Byrne, Fraser Lake.

PROPOSED NEW STANDARD FOR THE DALMATIAN

A proposed new standard for the Dalmatian is published hereunder. This proposed new standard will be considered by the Board of Directors of The Canadian Kennel Club. Persons and clubs having an interest in the proposed standard are invited to submit their comments for the consideration of the Breed Standards Committee and the Board of Directors, all such letters to be addressed to: The Canadian Kennel Club, 111 Eglinton Ave. E., Toronto, Ontario. M4P 1H9, so as to be received not later than October 31, 1974. When writing please refer to file 7R 10.

PROPOSED NEW STANDARD FOR THE DALMATIAN

1. **ORIGIN AND PURPOSE**— The Dalmatian is thought to be of Central European or Mediterranean origin and is known at least from the middle ages. Because of its affinity for horses and capacity to travel great distances at a steady pace it came to be used as a dog to run with and guard coaches and was known as a stable dog. Even later, the Dalmatian became popular as a dog to travel with and guard horse drawn fire fighting equipment especially in the United States of America.
2. **GENERAL APPEARANCE**—The Dalmatian should be a well balanced, strong, muscular and active dog, free from coarseness and lumber: capable of great endurance and speed compatible to its purpose.
3. **TEMPERAMENT**—A lively, active dog of good demeanour.
4. **SIZE**—Overall balance is of prime importance and the height of dogs ideally is 22-24 inches, bitches 21-23 inches.
5. **COAT AND COLOUR**—The coat should be short dense and fine, slightly glossy neither woolly nor silky. The color and markings are most important. There are two acceptable colors: white with black spots and white with liver spots. The ground color should be pure white. Black spots should be as deep and rich as possible. Liver spots should be of a color closer to chocolate than to tan or yellow. The spots should not intermingle, but be as round and well defined as possible, the more distinct the better, in size they should be from that of a dime to half a dollar. The spots on the face, head, ears, legs, tail and extremities should be smaller than those on the body.
6. **HEAD**—Should be of a fair length exhibiting a moderate amount of stop, and not in one straight line from the nose to the occiput bone.
   (a) SKULL—Flat, rather broad between the ears and moderately well defined at the temple. It should be entirely free from permanent wrinkle.
   (b) Muzzle—Should be long and powerful, never "snipey" the lips clean, fitting the jaws moderately close.
   (c) NOSE—In the black spotted dogs, should always be black; in the liver spotted dogs always brown.
   (d) MOUTH—The teeth should meet in a scissors bite. The incisors of the lower jaw touch very lightly the bottom of the inner surface of the upper incisors.
   (e) EYES—Should be set moderately well apart, and of medium size, round bright and sparkling, with an intelligent expression, their color greatly depends on the markings of the dog. In the black-spotted dogs, the eyes should be dark (black or brown) in the liver-spotted dogs they should be lighter (amber or brown). Blue or partly blue eyes are undesirable and should be penalized. The rim around the eyes in the black-spotted dogs should be black; brown in the liver-spotted dogs. No dog should have flesh-colored eye rims.
   (f) EARS—Should be set on rather high, of moderate size, rather wide at the base and gradually tapering to a rounded point. They should be carried close to the head, be thin and fine in texture, and always spotted, the more profusely the better. Solid black or liver is undesireable.
   (7) NECK—The neck should be fairly long, nicely arched, light and tapering and entirely free from throatiness.
8. **FOREQUARTERS**—
   (a) SHOULDER—Should be well laid, not straight, and should be clean and muscular denoting speed. It should be laid flat against the body.
   (b) LEG—The forelegs should be perfectly straight, strong and heavy in bone; elbows close to the body.
   (c) PASTERNS—Pasterns should be straight.
   (d) FEET—Forefeet should be compact, with well arched toes, and tough elastic pads. Nails in the black-spotted dogs should be black or white; or a nail may be both black and white; in the liver-spotted dogs, brown or white, or a nail may be both brown and white.
9. **BODY**
   (a) TOPLINE—Should be level and may arch slightly over the loin.
   (b) CHEST—Should not be too wide, but very deep and capacious, ribs moderately well sprung, never rounded like barrel hoops (which would indicate want of speed)
   (c) LOIN—Should be strong and muscular.
10. **HINDQUARTERS**
   (a) UPPER THIGH AND LOWER THIGH—muscles should be clean, powerful and well defined.
   (b) HOCKS—should be well let down.
   (c) STIFLE—Should be moderately well bent.
   (d) FEET—as for the forefeet.
11. **TAIL**
   The tail should reach the hock, being strong at the base and gradually tapering towards the end, free from

RETRIEVERS
CHESAPEAKE BAY)

Nancy Wotherspoon, Box 252, Morinville, Alta.–On January 25 several members of the Canadian Chesapeake Club met in Edmonton and decided to re-build the club on a national basis. In endeavouring to do this we supported Chesapeake Bay Retrievers in conformation, obedience and field trials and we published a bi-monthly newsletter which reports wins and other Chesapeake news including ads.

On March 12, president Belyea chaired a formal meeting at which the following executive was elected: president, Vic Lakusta; vice president (conformation and obedience) Jim Kilgannon; vice president (field trials) Bob Johnston; secretary/treasurer, Nancy Wotherspoon; directors, Mary Anne Kilgannon, Sandy Pirie, Jim Case, Kurt Schmidt, Wayne Powell.

In the following months handling sessions, boosters and trials were held and the club has grown considerably.

SETTERS (IRISH)

Lilly Morris, 466 California, Windsor, Ont. N9B 2Y9–The Irish Setter Club of America held its second annual National Specialty show June 14-16 in Pontiac, Mich., with a total entry of 443.

Judges were Mr. Leslie C. Jones (dogs) and Mrs. Leslie C. Jones (bitches). Both judges are from Wendover Kennels, England. Inter-sex competition was judged by the respected breeder/judge George E. Brodie Jr. who judged the Irish Setter Club of Canada's first independent specialty show in 1973. WD was Ch. Renegade of Lenair owned by the Lairdlords of Mississauga, Ont. and BW was McCamon's Red Burgundy owned by Mr. and Mrs. Korpan of Saskatoon. There was only one Canadian setter at the show last year and perhaps comments made in this column at that time served to elicit a response in the form of a larger Canadian entry. Other Canadian entries were Erinmore Sparkling Cinnamon, first BBE dog, owned by Ann and Noreen English of Milton, Ont., and Argo Lane Red Heritage, first Novice dog, owned by Miss Margie English.

Mr. Brodie selected as his BB, Ch. Thenderin William Muldoon owned by Thenderin Kennels and Mrs. Rogers. BOS was Ch. Bayberry Sonnet owned by Sidney L. Green. This lovely bitch is the daughter of the bitch that went BB at the Irish Setter Club of Canada specialty show in 1973, Ch. Tirbeg Bayberry Sundown, and is owned by the author and William Brooks. Best in Sweepstakes, judged by Bob Bridell of Atlanta, was Thistledholm Kachina Doll owned by Mr. and Mrs. Tom Anderson.

Last year there were three Irishmen at this show; this year were represented by about 12 Irishmen whose entries did exceptionally well, coming away with the dog and bitch points. This year the I.S.C.A.'s third annual National Specialty show will be held in June in Atlanta.

Jean Kinghorn, 55 Falconer Dr., Unit 3, Streetsville, Ont.–The Irish Setter Club of Canada's second independent specialty was held June 2 in St. George, Ont.

The show began with the sweepstakes judged by Mrs. H. Von Hobbs, Merrillville, Ind. Specialty judging was handled by Mr. H. Story of Halifax. This was a taxing job as our entry totalled close to 100. BB was Ch. (Can. & Am.) Dunholm's Finn McCool.

BEARDED COLLIES

Carol Gold, 39 Claxton Blvd., Toronto 10, Ont.—The Bearded Collie Club of Canada held its annual general meeting June 15 at the home of Judy and Mort Berman, Kingston, Ont. Executive for 1974/75 are: president, Miss Carol Gold; vice president, Mrs. Christine Wilson; secretary, Mrs. Alice Clark; treasurer, Norm Berman, directors, Mrs. Audrey Benbow and Mrs. Jean Jagersma.

Find myself answering a lot of questions about eye colour lately. The Standard requires that the eyes "tone with the coat in colour". So a black or slate Beardie ("slate" is what you call a grey Beardie who has faded to grey from black, as opposed to a blue Beardie who is born blue-grey) should have brown eyes and the darker the coat, the darker the eyes should be. But what about this fading syndrome in your breed where the dog is a different shade every month? Well, the eyes should be too. The eyes do change shade to match the coat; as the coat lightens, the eyes lighten and vice versa, although the eyes don't change to the degree the coat does. A brown Beardie has eyes the colour of well brewed tea when the coat is darker, weak tea when the coat is lighter. A blue Beardie has sort of hazel eyes, a nice mixture of grey, brown and yellow. A blue Beardie is also allowed to have one or two blue eyes and only born blue can have blue eyes! Blue eyes are absolutely wrong in any other colour. How do you tell if a Beardie is a blue or a faded black? Look closely at his nose. A blue Beardie will always have a steel blue cast to his nose instead of pure black. And while blue eyes in a blue Beardie are not a fault, they are not preferred as the blue eye rather destroys expression. Fawn Beardies have yellow eyes.

Another item that's come up lately is obedience training. Please train your Beardies. It's a shame to see so many could-be-nice ones come into the ring pulling ahead, hanging behind, galloping, leaping, leaning as they go round the ring. Your dog should move in harmony with you, on a loose lead and whether he stands naturally and baits (which I prefer) or is set up and holds his pose, he should present a picture to the judge of a dog at his best advantage and should allow the judge to go over him without fuss.

Having worked with a number of Beardies of my own and as class trainer for many more, I heartily recommend the methods used and taught by Margaret and Milo Pearsall as ideal for Beardies. Get their book, *The Pearsall Guide to Successful Dog Training*. It's available from *Dogs In Canada*.

There should be no problem with confusing your dog with the different requirements of obedience and conformation rings. It would be a pretty stupid Beardie who couldn't spot the differences in procedure, preparation, attitude of his handler and events in the ring—but if you're worried, then use a different command or signal for conformation gaiting as opposed to obedience heeling and for posing or baiting as opposed to

just the stand. Some people recommend using different leads and collars for the two fields but unless you're using some awful chain collar (which will hurt your dog's coat) and a thick heavy lead it isn't necessary. (Pearsall suggests light nylon collars and cotton webbing leads which save the coat and don't weigh down the neck, among other benefits.)

BOXERS

Larah McGriskin, R.R. 3, Bowmanville, Ont. L1C 3A0—Ch. (Can. & Am.) Aracrest's Amnesty went BB at Kalamazoo, Mich., May 26 after going BB and fourth in group the day before at Grand Rapids, Mich. June 6 at the Tree Towns Boxer specialty, Tree Towns, Ill., "Amnesty" was BB under judge Mr. R. Ligon from Grangerland, Tex. This Boxer is owner/handled.

Aracrest's Courier of Hollylane, bred by myself, is owned by Dr. and Mrs. Eileen McClintock, Topeka, Kan. "Courier" has completed his American title and his litter sister, Aracrest's Velvet Sensation, owned by me, has both her majors in the U.S.

Am. Ch. Aracrest's Rocking Annie has now completed her Brazilian championship.

Ch. Aracrest's Fashion Impact, litter sister to "Amnesty", also completed her American championship this year.

BRIARDS

Miss Jan Charbonneau, 680 Ramsay Lake Rd., S. S. 1, Box 7, Sudbury, Ont.—Just as important as colour requirements is the texture of the Briard coat. It should be the consistency of goat hair, hard and dry (making a dry rasping sound when rubbed between the fingers). This texture must be present over the entire dog. The leg coat should be as harsh as the coat on the mantle. Loss of coat texture on certain parts of the animal is not desirable. The coat must lie flat, falling naturally in long, slightly waving locks. Hair that is soft fleecy, woolly or curly is to be rejected. These faulty coats retain the humidity, dirt and mud and in drying the coat mats and knots. These coats collect burrs and seeds which hold tight, whereas they slide from the dry correct coat. The undercoat is fine and tight all over the body and must be the same colour as the outer coat. The minimum length allowed for coat is 2⅞". Briards may be either termed as short coated or long coated. This is particularly evidenced in France and Holland, where the Briard is still used as a sheepdog. The short coated Briard carries a coat of approximately four inches. This coat is far more suitable for those animals still tending herds as there is no excess coat to hamper movement, at the same time less coat for the shepherd to attend to. The more glamorous long coat, which can be up to ten inches or more, is mainly seen in the show ring.

Turning to Briard activities in Canada, congratulations are in order for Pa'Chicks Interlude, a flashy tawny puppy, owned by Alice Clark. This youngster went second in a class of 26 entries in puppy sweepstakes for Junior Puppy Bitches at the Ottawa Kennel Club show this May. Quite the win for such a rare breed.

It is with great sadness that I learned about the sudden death of Am. Ch. Pythias chez Phydeau, owned by Ken and Cece Collins, a spectacular dog with a sensational show record and one of four Briards in North America to capture the Working Group honour. "Hugo" will be sadly missed by all Briarders.

COLLIES/SHELTIES

Ariel Sleeth, well-known breeder, judge, horsewoman and farm owner reports on the cross-country activities of these breeds. Send your news items to her direct, Sovereign Kennels, R.R. 6, Kingston, Ont.—This month Marilyn Leverette will share with us some of her impressions of the dogs she saw during her visit to England. Although the purpose of Mrs. Leverette's visit was not primarily a doggie one, she did manage to see many English Collies and to enjoy a visit with Miss Margaret Osborne.

"Miss Osborne gave me a tour of her kennels, at which time I met the Collies, Shelties and her newest addition, Briards. I noted nice stops and backskulls and smooth movement among the Collies. Although not in coat, I must say that they did not look as sparsely covered as mine do. Their coats in full bloom must be very impressive. I liked their temperament very much, some showing a little wariness but soon being quite friendly.

"Miss Osborne's newest interest is Briards and the ones she has are lovely. I was quite impressed with their natural rather than the docked ears we so often see here. They are quite a new breed in England and Miss Osborne had bred one of two litters whelped in England.

"Something that some of you may be interested in is a method of correcting prick ears. The ear is cleaned inside (I used hydrogen peroxide) and allowed to dry. Then a strip of tape (surgical or elastoplast) is applied vertically up the inside of the ear with about one inch of tape projecting from the tip. Make the inch of tape into a roll, fold the ear and stick the roll on the tape inside the ear. I sometimes add a second separate roll of tape below the first for added retention. Tape can also be wrapped around the outside of the folded ear. I have found that this method has worked where others haven't.

"It was during my visit to Rainpark and Mrs. Jean Layzell that I saw quite a difference between Canadian and English Collies. The Collies there were quite a bit smaller and lighter with a somewhat round eye.

"I was very impressed with the general attitude toward dogs in England. It was marvelous to see dogs allowed in the village shops and pubs either sitting at their master's side or obediently waiting by the door. Most were trained well enough to be off lead. I do not believe that I saw one dog running loose during the entire trip."

Diane Strong and Brian Fitzpatrick of Toronto, Ont., saw their Alfenloch Counterpoise win first in Jr. Puppy Class, over 20 puppies, in Pittsburg, Pa., at the Collie Club of America National Specialty.

From Richmond, B.C.
Mrs. Frances Clark (Hi Hope Kennels) has been commissioned by an American publisher to write a book on the Canadian Shetland Sheepdog . . . past and present. It is most important that Mrs. Clark be given pictures of some of the major dogs well back in our breed's Canadian history. If anyone has anything they wish to contribute, please contact Mrs. Clark at 1006 No. 5 Rd., Richmond, B.C.

From Guelph, Ont.
Sandy and Dave Brown (Bontein Collies) are making plans to move to Illinois around August. The Browns are responsible for the Collie "streakers" around Ontario. At least your days of problems registering the smooth-rough breedings will be a thing of the past.

From Lambeth, Ont.
News of a move for the Randalls (Sheldon Kennels) to Mount Brydges, Ont.

From Toronto
The Progressive Canine Research Association is holding their next symposium November 16 at Humber College, with two speakers Dr. V. deKleer and Dr. Zawitz, titled "How Your Dog's Head Bone is Connected To His Tail Bone".

From Laval, Que.
Dorothy Fountain (Kerrera Kennels) is spending a month in England. I am hopeful that we will receive a full report of Shelties today in England when she returns.

GERMAN SHEPHERDS

The German Shepherd Dog Club of Canada (Hamilton, Ont., branch) executive is: branch chairman, Alex McCrory; vice chairman, John Winder; secretary/treasurer, Mary Stewart; membership chairman, Harold Weatheral. Total membership of the Hamilton branch is 42. A booster show August 4 will be sponsored in Barrie, Ont., and a Canadian specialty show at the Holiday Inn, Oakville, Ont., September 21.

KUVASZOK

Mrs. T. Grosart, R.R. 1, Bolton, Ont. There are challenges to be faced by those concerned with a rare breed. Having acquired an excellent bitch, there is the difficulty of finding a mate that is a good representative of the breed, has a desirable temperament and is free from hereditary defects. This involves careful search and much study of pedigrees. Neither economics or expediency must interfere with the ultimate good of the breed.

There is often a struggle between finance and honesty. One may purchase or import a promising puppy at considerable sacrifice only to find that the grown animal has some serious defect. No Kuvasz that we have seen yet is perfect.

Since there is little literature available, the breeder receives many questions from prospective owners. Such questions must be answered objectively. Love and enthusiasm for the Kuvasz must not make us into salesmen.

New owners must be carefully scrutinized. Can these people provide food and veterinary care for a large dog? Will they be loving but firm? This endearing white teddy bear will grow into a large guard dog. He will be highly intelligent and deeply affectionate and an asset to the right home. However, should he be spoiled and allowed to roam wherever he wills, he will give the whole breed a poor name. Finding the right show or companion home is not only a blessing for the dog, it is a contribution to the welfare of the breed.

The sponsor of a rare breed such as the Kuvasz should endeavour to extend a helping hand to less experienced breeders. Those who have another language al

AIREDALE TERRIERS

The King's Herald, the Airedale Club of Canada newsletter, contains a letter from Marion Ruggles. "I was lucky enough to attend the South of England Airedale show. I never saw so many beautiful bitches in my life. On the whole they were a stronger group than the dogs. I noticed the colour has improved over the years since the last show I attended.

"One of the highlights of my recent trip to England was attending the South of England Terrier Championship show held the end of March.

"I had been following the various shows in *Our Dogs* weekly magazine and I was anxious to see many whom I knew by reputation only. Arthur Lodge was there with the dog he owns, Eng. Ch. Cordwell Derring Do, with Mr. A. Jones. He has been doing a great deal of winning. He is a beautiful dog with a lovely head, big ribs, with strong bone and a great coat. His young son, out of Katinka of Kenmair, and not yet a year old, has been following in his father's footsteps. He won three first at the show. Jack and Mollie Harmsworth arrived with Bengal Bisquit who has the beautiful head and neck for which that kennel is noted. She is short in back with excellent bone and big quarters. She came second to Jokyl Castafiore.

"I encourage anyone going to England to realize just how welcome they make you feel and what an inspiration it is to see such terrific Airedales."

Plans for the 1974 specialty show are completed; date is August 4. It is to be held in Barrie, Ont. Judging this year's event is Mrs. Whitmore with the first Derby sweepstakes held by the A.K.C. being judged by Miss Mary Curran. Through the kindness of some of the members four perpetual trophies will be offered. There will be a parade of champions.

FOX TERRIERS (WIRE)

IRISH TERRIERS

From Kay Anson and Carol Cooper of Doewood Irish Terrier Kennels Reg. comes this month's news. "On May 4 we attended the W.E.L.K.S. show, considered second to Crufts. The size of the show was a bit overwhelming and it was not possible to watch many breeds. There was an entry of 24 Irish Terriers which was considered disappointing. The judge was Mrs. Edna Howard Jones, owner of the Breezy Kennels. The dogs and bitches in all but one of the classes were of good all-round quality. The dog CC winner, Carolmac Saddletramp, was beautiful.

"We were very interested to note that the dogs were shown more naturally and not constantly set up. In the final judging of a class the handlers were encouraged to let their dogs spark each other and show naturally.

"Other Irish we went to see were Mrs. C. S. Jackson's Eng. Ch. Breezy Garland, a very lovely bitch, and some of her puppies. We also spent a whole day at the Breezy Kennels with Mrs. Edna Howard Jones going over her dogs. To be able to go over so many dogs with someone who has bred Irish for years and who also judges them was a terrific learning experience and a real privilege.

"Before we left England we were invited to become members of the Irish Terrier Association and were happy to accept so now we will get their news bulletin and be able to keep in closer touch with other breeders."

KERRY BLUE TERRIERS

At the recent K.B.T.C.E. show Barbara Meeker saw Eng. Ch. Underbridge Ulema, the oldest Kerry in the show at ten years, win second in the veteran class and receive special commendation for coat and colour.

Rownham's Aquamarine completed her championship and won BIS over 62 Kerries. Then over to Paris to watch the judging at the five day Exposition Mondiale of the F.C.I., with Miss Irene Perry, daughter of Jud Perry, well-known for his Kearncack Kerry Kennels in Massachusetts. The disparity in size of the Kerries shown was commented upon, as were the radically different procedures permitted by the continentals. Terriers are shown in Group 3 in France, Miniature Schnauzers are classified as Group 2 and are shown with the Standards and the Giants of the breed.

SEALYHAM TERRIERS

From the book by Rowland Johns, *Our Friend The Sealyham*, comes some interesting grooming ideas. "Dry-cleaning methods can be used for the Sealyham. Boracic powder well rubbed into the coat and then brushed out will rid the hair of much dirt and is a safe way of cleaning the Sealyham in very cold weather. Baked flour or sawdust can be used; be sure it is all brushed out afterwards and a vacuum cleaner can be used with great success for this purpose. Boracic powder or whiting can be dusted on the Sealyham's coat before the stripping and plucking in order to help the fingers to grip the hairs. Should the fingers become greasy they can be dipped in boracic powder."

CAVALIER KING CHARLES SPANIELS

Mr. E. Benedetti, Ballinafad, Ont. N0B 1H0—In May, my family travelled to Memphis for their shows June 1 and 2.

Although the Cavaliers are in the miscellaneous class and thus were not in the judging for BB, a trophy had been donated so a best was selected and the trophy went to Azorese Bo-Son owned by George and Phyliss Quinn.

Our daughter got first in the Novice Senior Class for Junior Showmanship. Denise then competed with three others for a scholarship but did not win. There was an audience of 1,000 including some of the top executive of the AKC. We hope they will recognize the Cavalier in the States.

MALTESE

Mrs. Barbara Ratledge, 614 140-6 Ave. S.W., Calgary, Alta. T2P 0P5—On the day before the show, bathe your Lhasa. Trim the toenails so they don't spread the pads apart. Check the teeth to see they are clean. Check out your grooming equipment and have it all together.

Upon arrival at the show building, or show grounds, pick up your numbers and catalogue, checking to make certain that your numbers are correct and that the date from your entry form has been properly transcribed. Arrive at the show in time to put the final grooming touches to your dog. Watch for your class. Calling the dogs to ringside is a courtesy. It is up to you to get yourself to ringside on time.

Once in the ring and while waiting for the class to begin, glance at your dog to see he has not assumed a grotesque position. If he is in the correct position don't fuss with him. Don't stop showing your dog once you are in the ring, keep working on your dog while the judge is examining the other dogs for a good judge frequently looks back at the dogs he has already gone over. When asked to gait your dog, do so in a straight line according to the judge's directions. If the dog becomes unruly, stop and start gaiting again. A good judge has patience and tries to lessen the nervousness of a new exhibitor. The Lhasa should be walked at a natural pace and at the end of your gaiting pattern bring him to a halt in front of the judge so that he is standing poised.

With your eyes on your dog, glance up occasionally to see what the judge is doing. Make sure he can see the numbers on your arm bands.

Once the judge writes down his placings in his book he will not, under normal circumstances, change them. A class is not considered judged until the results have been written down by the judge. Keep your dog poised. It is a good idea to keep your dog looking his best all the time he is in the ring as, among the spectators, there may be another judge who could be judging you in the near future. Let the spectators and other breeders go away with a good impression of your dog.

Do not leave the area of the showring until your breed has been completely judged. You may be needed and you are wasting the judge's time and holding up the show if the ring stewards have to go and find you.

In looking at dogs which are doing a lot of winning or at dogs that have beaten your dog, don't always be looking for faults. Look for and be able to recognize the good points.

Always be courteous to your judge. You as an exhibitor can choose your judge—he can't pick the exhibitors.

back talk

By JOAN MORDEN

'Zev' is my baby. I've got to stay around and watch it grow", says Mr. W. K. Buckley, 84-year-old Toronto pharmacist and manufacturer.

When the sales of a well-known product increase by almost 50 percent in a single year, that's news. And when that product is one that was specifically developed to treat ailing dogs, such as "Zev" was, that's dog news. Which is why I prevailed on the courtesy of Mr. W. K. Buckley to learn the story behind this product's skyrocketing success.

W. K. Buckley is an active 84-year-old who founded the Toronto company that bears his name. He keeps regular daily office hours, still loves to fish and visits the racetrack at every opportunity. By profession he is a pharmacist who owned and operated his own drug store close to St. Michael's Hospital in the heart of Toronto for 19 years. And it was during this time that his concern with the "common cold" led him to develop the formula for "Buckley's Mixture", a cough remedy which has become world famous. In a way the "mixture" was the forerunner of the veterinary product we know as "Zev".

Mr. Buckley has always loved animals and, by his own count, has owned an estimated 60 dogs. Many of these were Boston Terriers, a popular city pet but quite susceptible to upper respiratory problems. Mr. Buckley was struck by the fact that there was no simple, easily obtainable product on the market which provided cough relief for dogs. So he set about developing one. When he was satisfied that his combination of herbal ingredients would do the job for which it was intended, he put it on the market and called it "Zev" after a famous Kentucky Derby winner. The remedy was also said to bring comfort to horses suffering from the "heaves", an equine form of emphysema. And it was because of its rapid acceptance by the racing fraternity that "Zev's" other benefits came to light, almost by accident.

One stable on the west coast kept ordering extraordinarily large amounts of the product. So much so that Mr. Buckley decided to make it his business to find out just what was happening to all that "Zev". When this stable shipped horses east for the racing season, Mr. Buckley went to the track and introduced himself to the owner. "I'm the 'medicine man' you buy all that 'Zev' from," he began.

"Great product" agreed the horse man, "just one thing wrong with it—you've got it labelled wrong. You should call it a conditioner. A cough remedy, if you like. But the thing it does best is condition".

And so the story unfolded. Initially this owner had given "Zev" as a cough remedy. But it was found that the horses that were on "Zev" appeared to be in much better condition than those that were not. Subsequently their winning records proved this to be a fact. So every horse in the stable was put on a "Zev" conditioning program—hence the big orders from the west.

Naturally Mr. Buckley was delighted with this beneficial side effect of his product. And, after he was satisfied he could substantiate the claim, "Zev" was promoted as a conditioner. He says God alone knows exactly how the herbs do their job but reasons that 90 percent of the causes of poor condition in horses and dogs begins with intestinal problems. "Zev", he claims cleans out all the debilitating "bugs" so that an animal may obtain full nutritional value from its regular feed. He says he can identify "Zev" conditioned animals—horses and dogs—simply by the superior appearance of their coats and their general well-being. The product contains no narcotics, antibiotics or steroids to interfere with natural processes or cause distressing side effects. It is merely a combination of herbs, many of which animals in their wild state might hunt out for themselves to correct internal upsets.

MANUFACTURING

"Zev" is manufactured under strict quality control, as are all the products in the Buckley line. Each of the ingredients in the "Zev" formula, except Canada Balsam which is obtained domestically, is imported and so must be chemically checked to make sure it meets the specifications laid down by federal food and drug legislation.

Random samples from each batch are analyzed electronically to test the accuracy of the mixture. "Wonderful machine", said Mr. Buckley, reverently lifting the cover of a sophisticated piece of hardware that showed a maze of dials and screens, "it cost $5000!" "How does it work?" "Haven't the faintest idea", he admitted "I'm just a pharmacist. But they know all about it", he assured me, indicating the two chemical engineers who were at work in the lab-

registrar's FORUM

M. G. KIRKPATRICK

Due to increased activity and new projects at your Registration Division, no Forum appeared last month. The Registration Division is engrossed, at the present time, in many new projects which will, hopefully, streamline the operations and eventually provide even better service to you. Both the Eglinton Avenue Office and the Registration Division has also been involved in finalizing plans for a physical move in the very near future, and when everything is completed a formal announcement will be made.

ADDRESSES ON APPLICATIONS

When submitting applications (of any type) please remember to include your complete address. Many applicants omit the street number and/or the street. Your address should include any applicable apartment or townhouse number. Also, PLEASE INCLUDE YOUR POSTAL CODE! If these items are missing on your applications, it could cause you a delay as our records must be checked to obtain this information.

INCORRECT LITTER KITS

If you discover an error on a litter kit (litter registration certificate and partially completed individual applications), *both* the litter certificate and the partially completed individual applications must be returned for correction. This is necessary as the information on both the litter registration and the individual applications are taken from the same source. If the error was made by the Registration Division, the corrections will be made at no charge, of course. If, however, it was an error on your part, we will require the fee for a new certificate (the partially completed individual applications are included in that charge).

EXTENDED PEDIGREES

When submitting extended pedigrees (three generations) along with an application to register a foreign born dog, please remember that we require registration numbers for all dogs in that pedigree. If you should receive a foreign pedigree that does not include all the registration numbers, it will be necessary for you to write that club for those missing numbers.

AMERICAN STUD DOGS

There are special procedures to follow when utilizing the services of an American stud dog. If the sire of one of your litters is owned by a resident of the United States, that sire must be registered with the American Kennel Club in the name of the person who certifies the service, on your litter application. In addition, it is necessary to obtain certification on your litter application from the American Kennel Club. You should submit The Canadian Kennel Club litter application to the American Kennel Club and they, after ascertaining that the sire's ownership is correct, will certify the application. This application must then be submitted to The Canadian Kennel Club accompanied by an American Kennel Club certified three generation pedigree upon that sire.

Please direct your questions and/or comments of a *general* nature to:

(Marked "Registrar's Forum")

Dû aux occupations croissantes et aux nouveaux projets à la Division des Enregistrements, le Forum n'a pu apparaître le mois dernier. La Division des Enregistrements est, en ce moment, entièrement occupée avec plusiers nouveaux projets lesquels moderniseront les opérations et espérons même qu'ils vous fourniront un service encore meilleur. Le Siège Social et la Division des Enregistrements ont aussi été impliqués dans des plans pour mettre à point un futur déménagement des bureaux et une annonce formelle sera faite lorsque le tout sera terminé.

ADRESSES SUR LES DEMANDES D'ENREGISTREMENT

Lorsque des demandes d'enregistrement, de tout genre, sont soumises, veuillez ne pas oublier d'inclure votre adresse complète. Plusieurs requérants oublient le numéro de la rue et/ou même la rue. Votre adresse devrait inclure tout numéro d'appartement s'il y a lieu. Aussi, VEUILLEZ INCLURE VOTRE CODE POSTAL! Si ces détails ne sont pas inscrits sur vos demandes d'enregistrement, cela vous causera un délai puisque nos dossiers doivent être vérifiés afin d'obtenir ces renseignements.

TROUSSES D'UNE PORTEE INEXACTES

Si vous notez une erreur sur une trousse d'une portée (certificat d'enregistrement d'une portée et demandes d'enregistrement partiellement complétées pour les chiots), le *tout* doit être retourné pour rectification. Ceci est nécessaire car les renseignements sur le certificat de la portée et sur les demandes d'enregistrement proviennent de la même source. Si l'erreur fut comise par la Division des Enregistrements, les rectifications seront faites gratuitement, bien entendu. Si, toutefois, c'était une erreur de votre part, nous exigerons le tarif pour un nouveau certificat (les demandes d'enregistrement partiellement complétées pour les chiots sont incluses dans ce tarif).

PEDIGREE PROLONGE

Lorsqu'un pédigree prolongé (trois générations) est soumis avec une demande d'enregistrement pour chien importé, veuillez ne pas oublier que nous exigeons les numéros d'enregistrement de tous les chiens inscrits sur ce pédigree. Si vous recevez un pédigree lequel ne comprend pas tous les numéros d'enregistrement, il vous sera nécessaire d'écrire à ce club pour obtenir les numéros manquants.

CHIENS AMERICAINS POUR ACCOUPLEMENT

Il y a des règles de procédure spéciales à suivre lorsque les services d'un chien Américain, pour accouplement, sont employés. Si le père d'une de vos portées est la propriété d'un résident des Etats-Unis, ce père doit être enregistré à l'American Kennel Club au nom de la personne qui a certifié le service, sur la demande d'enregistrement de la portée. En plus, il est nécessaire d'obtenir certification de l'American Kennel Club sur la demande d'enregistrement de la portée. Vous devriez soumettre la demande d'enregistrement de la portée du Cercle Canadien du Chenil à L'American Kennel Club et, après avoir constaté que la propriété du père est exacte, ils certifieront la demande d'enregistrement. Cette demande devra alors être soumise au Cercle Canadien du Chenil accompagnée d'un pédigree de trois générations émis par l'American Kennel Club pour le père.

Veuillez diriger tous commentaires *généraux* et/ou questions à:

Crackdown on appalling boarding conditions

The National Canine Defence League is determined to eliminate a loophole in English law that allows some kennel owners to board dogs under appalling conditions.

Only those people who run boarding kennels as their main business require kennel inspections. Breeding kennel owners are unlicensed and thus free to keep dogs under any conditions. Such kennels are often filthy and over-crowded without staff to keep them clean and up to an adequate standard.

An amendment to the Boarding Establishments Act will make inspections applicable to all who board dogs "overnight and for gain".

SCRAPBOOK

August

Wear a Sardonyx or for thee
No conjugal felicity.
The August born without
this stone
'Tis said must live unloved
and lone.

Heaven goes by favour; if it went by merit, you would stay out and your dog would go in.—*Mark Twain*

A dog is the only thing on this earth that loves you more than he loves himself.—*Josh Billings*

The more I see of the representatives of people, the more I admire my dogs.—*Lamartine*

To his dog, every man is Napoleon; hence the constant popularity of dogs.—*Aldous Huxley*

"GOOD HEAVENS, ONE HAM SANDWICH WON'T SPOIL HIS APPETITE FOR DINNER."

'Buck' lives again for children

Remember Buck in Jack London's "Call of the Wild"? Buck's most recent reincarnation on film in Toronto neighbourhood theatres outfold by far all previous attempts by major Hollywood producers with outstanding stars of the time. Not that this fourth attempt is getting kudoes from reviewers—far from it. But Buck (actually a whole kennel full of handsome German Shepherds trained in Norway, it is reported) transcends the film and even Charlton Heston who plays the hero's beloved dogmaster, John Thornton.

A Toronto *Star* film reviewer states children were heard weeping during the scene in which Buck is beaten up by a bully.

We have not two hearts—one for the animals, the other for man. In the cruelty toward the former and the cruelty toward the latter, there is no other difference than in the victim.—*Lamartine*

We must never be weary in well-doing and there can be no doubt our cause is worthy of our very best efforts to rid our country of this great curse of vivisection of which I fear the bulk of our population is ignorant and even if they knew it they would not trouble themselves, or do anything about it.—*Dr. Burnet*

Dog Show Streak

A woman "streaked" the 87th all breed dog show at Stone Mountain, Ga., right in the middle of the judging for the Best In Show!

It is a bad bargain where nobody gains.

Prisoner at the Bar

A man stood up at the Judgment seat,
And the scroll of his sins was read,
The verdict given, the sentence passed,
To the gates of Hell he was led.
When in through the window there swiftly flew
A witness they had not heard,
So they called him back to the dock to hear
The words of a little bird.
A tiny robin who perched at ease
On the Judge's marble chair,
"I have something to say in the case," said he,
"Of the man who's standing there."
"When I lived in the world I was caught and caged
For passers-by to see.
That man came in and bought me,
He saved me and set me free."
A terrier dog leaped into the court:
"When I lived in the world of men,
That man he stole and saved me
From a vivisector's den."
Then in there trotted a splendid horse,
And stood by the prisoner's side,
"This man was a friend to me," he said,
"In the world before I died."
"For I was a worn out cab horse once,
And doomed to the knacker's fate,
He bought me and gave me a happy home
In a field on his great estate."
Then a beautiful Persian cat came in
And on his shoulder sprang.
She rubbed her fur against his cheek,
And her voice through the Court House rang.
"One winter's night I was starving and lost
Alone in a London Square,
He picked me up and carried me home,
And gave me a welcome there."
The Judge rose up and said to the man
"Go up to the Golden Gates,
They will fling them wide, and there receive
The merit that you awaits.
"Mercy you showed to your humble friends,
And great the reward you gain,
So enter in, you are purged from sin
By those you have saved from pain."

Profile of youth

SANDI PIERCE

While the labour market is being flooded with students looking for summer jobs there is one young lady who doesn't have to worry about such things. Her name is Sandi Pierce, a 16-year-old who will never have to go looking for work, at least as far as dog people are concerned—they come looking for her. Sandi is an achiever who already has proved her skill as a dog trainer and handler's assistant.

Ed Dixon tells us that Sandi trained and conditioned most of his good dachshunds—Johann, Joker, Jessica et al. Ed simply let Sandi take his dogs home with her and return them to him when they were ready for specialling. Sandi handled many of Ed's dogs to their championships and also won five Best Brace in Show with them, four in Canada and one in the U.S.

These days she is doing an equally great job with Max Magder's Whippets. Last season she conditioned, trained and showed three Whippet puppies to their titles, taking one from the Junior Puppy class to Best Canadian Bred Puppy in Show.

All this dog activity is in addition to Sandi's high school work. Her daily routine is enough to make the most "eager beaver" sit up and take notice. She is up at six and out on her ten-speed bike exercising dogs by six thirty. Then it's off to school where she is editor of the school paper, a member of the student council and an active participant in sports. After school she hustles home to more dog work and prepares the evening meal for her family. Then, after dinner, it's into the books to keep up her Grade A average.

Sandi's mother says that there is a family agreement that if school grades begin to slip, the dogs will have to take second place.

So far there's been nothing to worry about here. This year Sandi completed Grade 12 with straight A's and intends to maintain this average next year. She has her eye on an Ontario scholarship and plans to go to Carlton College in Ottawa where she will study journalism.

After graduation—who knows? Writing and dogs, that's for sure. It's just the order of things Sandi isn't certain of. She may become a professional dog person who writes about dogs as a hobby or it could be the other way around. Whichever it is, Sandi Pierce is a youngster worth watching. She has talent, tenacity and she's getting the training. In any field this is one unbeatable combination.

back talk

from page 19

oratory busily checking the purity of a new shipment of glycerine.

Further along in the plant the air was redolent of menthol and camphor. "It would be pretty hard to catch a cold in here", I ventured. Mr. Buckley agreed that this was so. The only cold he can remember around the factory occurred when the air conditioner was turned on and one of the employees caught a "humdinger".

Bottling of "Zev" was in progress. We watched the operation as uniformed female employees, their hair tidied into safety nets, rhythmically labelled, filed, wrapped and packed eight-ounce bottles of "Zev" into lot-coded boxes.

The plant employs about 30 people, most of them women. The atmosphere was congenial as Mr. Buckley greeted employees by name. I asked him about labour problems. "Don't have any", he replied "they seem to like working here. Our big headache is supplies. Raw materials, cartons, everything in the paper line—they are our worries today".

Certainly orders don't seem to be hard to come by. But there are still some that are puzzlers. Mr. Buckley showed me the file card from a comparatively recent account. This was of the veterinary division of a provincial department of agriculture. It showed that this division had bought a total of 176 gallons of "Zev" over the past 15 months. "Don't know how it's all being used, but I'm going to find out", said Mr. Buckley.

He says that 15 years ago when "Zev" first came on the market there was some resistance to the product from the veterinary profession but that more and more "Zev" is gaining acceptance and being recommended. And the list of satisfied users is legion. In his office Mr. Buckley has a 25 drawer letter file literally filled with unsolicited testimonials from satisfied customers praising the value of "Zev" as a conditioner of all manner of living creatures from cage birds to livestock and, of course, horses and dogs.

THE FUTURE

The one thing that is farthest from Mr. Buckley's mind is retirement. "Zev" is my baby and I'm going to stay around and watch it grow", he says of the product that he claims is the fastest growing item in the veterinary line. Part of its success, he believes, is due to the new general awareness of the curative powers of "natural" products. And he predicts that his company's trend in new products will concentrate on veterinary items.

At an age when most men are content to sit back and let others take the risks, W. K. Buckley is getting set for a new challenge. One product, still in the planning stage, could be a boon to kennel operators in the safe control of external parasites. Like "Zev" he could have another winner.

But he's not doing so well at the track this year, he smilingly complained. "I must be getting old. I used to be able to pick them".

NOSTALGIA

by LORNA JACKSON
R.R. 1, Sebright, Ont. L0K 1W0

Time does change things in our dog game but is it for the best? How do today's dogs stack up with those of times past? We can look back with nostalgia at our old champions, our great handlers and our honoured judges. Let this look be a learning experience as well. Can the standards we obtain meet the written Standard of yesterday? Is it true that "those were the days"? This monthly series of pictures and articles should be an informative glimpse at Canadian dog history; one to let us relive the past with pleasure and to motivate us towards breeding better dogs in the future.

This month we have some field trial pictures for you. Some of the field devotees pictured here were active in the show ring as well; Freda James, Andrew Dunn, Lyla Lymburner. The English Springer Spaniel Club of Canada 2nd annual specialty show under CKC rules was held on the estate of W. "Percy" Gudgeon, June, 1948 at Bronte, Ont. Percy also owned the winning Afghan, Astra Hamid of Five Mile, Mich. Fred Jackson, owner of the famous BIS-winning Springer, Ch. Frejax Royal Salute; Bob Walgate, Buffalo, N.Y., Lyla Lymburner, Port Colborne, Ont.; Charlie Ogg and William Rimmer of Guelph, Ont.; Dan Lerch, London, Fred Stickel, Welland, Ont., and Fred Hadley were all in there pitching. Some of the winning dogs at that time were Dunoon Donna, Dunoon The Dude, Dignity FreJax Recorderson and Int. Ch. Quantock Beauty.

Looking back, there were many good Borzoi breeders in the 1940's —William Eccles and Frank Allen Melnikoff of Toronto, Mrs. Madge Cluxton, "Wildair", Guelph; Mr. and Mrs. A. F. Cooper, Toronto, O'Dolina F. V. de Kuyper, also of Toronto and Mrs. Kennedy.

NOTES: Picture No. 3 in the February, 1974 "Nostalgia" showed the Afghan Hound, Ch. Raja El Myia. Owned by Dr. Ellen Brown, Rajah was out of a litter of four, the first litter of Afghans to be born in Canada. Dam was the famous Scottish import, Ch. Pic of Chaman, bred by Mrs. Molly Sharpe of Dumphries, Scotland, and imported in whelp by Mrs. Mary Matchett.

Picture No. 5, March issue, brings a letter from Mrs. Allie Smuck who says the picture was taken around 1954, not 1940 as reported, although that was the date on the back of the picture. More information on Ch. Willow-Acres Patti, she was sired by the son of the great Helensdale ace, Eng. Ch. Hallinwood Skylon; dam, Ch. Minaimonee Eugenie, bred by Pop Staples and owned by Allie Smuck.

Mr. Henry Nicholson, Hunting editor for *Rod and Gun* magazine for more than 30 years, sent in these pictures of Springer Spaniels, Nos. 1, 2 and 3. 1., The Ladies' Handling class, 1954, taken at Freda James' Show, 1954. 2., At the Freda James show, 1954, l. to r.: Lyla Lymburner, unknown, Morley Fisher, and another unknown. 3., The 1955 field trials of the Springer Spaniel Club of Canada. Many of you will remember Andrew Dunn of Dunoon Kennels, Port Credit, Ont., who was also very active in the show ring. About this time he had just imported two good Springers from Gt. Britain—FT Ch. Brackenbank Tell Tale and FT Ch. Pierpointer Porter. L. to r.: Mr. Dunn, Mr. and Mrs. Herbert Routley, Peterborough, Ont., and Mr. and Mrs. John Blanoch of Michigan, U.S.A.

Mrs. Harry Draper is shown with one of her winning Yorkies, perhaps the most constant Yorkie winners in the ring. Harry and his wife bred and exhibited some of the most fabulously coated dogs under the kennel name of Walkley in Holland Landing, just north of Toronto. At one time little stools were used (note in picture) to show the long flowing coats to best advantage. Other toy exhibitors felt this was an unfair advantage, so the CKC ruled stools out. I feel this picture would be taken somewhere in the 1930's. It was submitted by Patricia Row of Britt, Ont.

This beautiful team of young Borzois had just won the National Costume Contest, a class very popular and colourful, indicating either the work or the origin of the breed. Three of the dogs were top contenders for the group wherever shown. L. to r., Ch. Nikita O'Dolina, Int. Ch. Beloff O'Dolina, Int. Ch. Strelka O'Dolina and Ch. Nalya O'Dolina, all owned by Mr. and Mrs. A. F. Cooper of Toronto. These photographs were taken around 1937-38. Handler is Lorna Jackson. The dogs at the time were about a year old.

Bermuda goes completely to the dogs.

Q. I understand that pregnancy following a misalliance can be prevented by an injection given by a veterinarian. What drug is given, and what is its action. Will this affect any future pregnancies?

A. The termination of an unwanted pregnancy shortly after mating is a common procedure. The administration of estrog hormones prevents pregn either by causing spasm o oviducts, thus inhibiting the sage of the ova (egg) into uterus, or by causing an incr in mobility of the uterus. causes the ova to be expelled of the cervix. In addition to the injection causes the ute environment to become unsuit for further development of ova.

For optimum results, the t ment should be instituted w 36 hours of mating, although cessful treatment has reported up to five days after ing.

The major disadvantage to procedure is an acute meti (infection of the uterus) occasionally develop if the b happens to be bred again. Th significant if the bitch is a va ble breeding female. In m cases the uterus is under the in ence of another hormone, pro terone, when treatment is adm istered. Thus, the estrogenic mones may cause dilation of cervix to allow entry of bacte which become readily establis in the uterus.

Q. Is distemper-hepatitis vacc ever given as treatment for ca distemper? If so, when?

A. Modified distemper-hepati vaccine is never used in the tre ment for distemper in dogs. the time the clinical signs of temper are seen, antibod against the virus are already c culating in the blood stream. It likely that any additional virus the form of vaccine, would quickly neutralized by the cir lating antibodies.

Q. We have a young male wh we would like to use at stud, ho ever he seems to suffer from lack of libido. What are possib causes of this, and how may he helped?

A. Lack of libido can be the res of obesity, lack of exercise, m nutrition, poor health and con tion, but most frequently it is d to a strange environment or inexperienced male. Experime tally, it has been demonstrat that male dogs will only mate wi certain females and show no int est in other females in heat. Th is known as "Preferential Ma ing". If the male is young, he m be very nervous and may show interest in the female and a fe young males will not breed follo ing attempts to breed an aggre sive female who would not perm mating. For this reason, you males should first be used bitches who have had a few litte and are known to accept ma without any difficulty. The bi may have to be forcibly restrai during mating but it is preferab to allow breeding to take pla unassisted if possible.

Rachel Suttan and her English Springer Spaniels. In the background are strips of newsprint with pawprints of Rachel's dogs.

Instructor Mrs. Casey Gardiner explains how the vertebral column is constructed, using a dog skeleton. Listening intently from left to right are Audrey Bailey, Cairn Terriers; Carol Wilson, German Shepherds and Shirley Hunter, breeder of Old English Sheepdogs. This is a Level 2 class.

Busy measuring the structure of the head of her Springer Spaniel is Rachel Suttan. Assisting her, Robert Chapman. Background: Scott Powel (bending over), Labrador Retrievers; and Douglas Windsor, breeder of Golden Retrievers.

This is a class in Level 3 in which instructor Dr. Brian Brandenburg D.V.M. of the University of Guelph, is shown dissecting muscles and tendons of a dog. Watching with interest are students. Right to left Mrs. Dorothea Daniell-Jenkins, Kennels of the Rouge, West Highland White Terriers; Esther Donnison, Collies; Gregg Carrigan, Golden Retrievers; Marie Horne, Golden Retrievers and Bruce Johnston, Irish Setters.

Courses on purebred dogs

Community Colleges filling the need

One cold, bright Sunday afternoon late last winter, on the patio in the inner courtyard of Humber College, Toronto, a number of students met to help each other complete some of the required projects for level 2; part of a course offered by Humber College called "Purebred Dogs—A Hobby or a Profession". Each student had one dog in his possession chosen to be his or her subject, one set of children's finger paints in four colours, and a roll of 8 mm movie film. Their instructor arrived burdened down with a large roll of white newsprint and a movie camera.

The paper was unrolled and stretched in 40 foot lengths. Each dog in turn had his feet painted a different colour and was trotted down a length of paper. After paw printing, the dogs were then photographed being gaited at a trot by their owners. Equipped with this material and teaching aids available through the course they were attending, each of the students would be able, in the next few weeks in class, to analyze his dog's gait and structure against the theoretically perfect specimen of his breed.

The importance of continuing education is a subject that we have all been made aware of through our Community Colleges. Education is never finished, it is a continuing experience. This is true with respect to the dog game, whether it is your hobby or profession. Now more than ever it is essential to keep in step with the times, by acquiring new and upgrading present skills whatever your specialty is in the field of dogs.

For the first time, courses are being offered through a few Community Colleges in major centres in Southern Ontario for people interested in dogs. Titled, "Purebred Dogs—A Hobby or Profession", the course is offered in four levels, of 12 or 14 lectures (according to the College) of three hours each.

Level one lectures cover such aspects as history, socialization with man, genetics, breeding and management, movement and exercise and the laws governing the keeping of dogs. This level will be very interesting and helpful to anyone who only desires a little more concrete and interesting knowledge about his/her pets. It is most important for the person who wishes to become a serious breeder and it provides uniform basic knowledge for the established breeder.

In Level 2, the student learns to see and feel the dog standing still and in motion. Teaching aids such as measuring tools, a dog skeleton and motion pictures are made available. A beginning is made to develop a physical and mental picture of the dog in motion.

Level 3 deals with muscular action in relation to the skeletal structure. Inherited and environmental effects on muscle performance are discussed. Mental control of muscular action is mentioned. Action of muscles and tendons as related to deviations in gait are covered.

Level 4 introduces deviations from the normal structure taught in Level 2. It is explained how the changes or deviations of the bone lengths and angles alter the overall picture of the dog and the resultant gait. Balanced gait is discussed and deviations from the normal balance are pointed out. Mental and physical state of both the dog and the owner are emphasized.

Post graduate courses are now being prepared for the student who has completed all four levels. These will include handling and showing dogs, obedience training and handling and judging, kennel management, judging and grading dogs and much more.

Classes will be commencing in late September or early October in the following Community Colleges: Humber, Toronto; Mohawk, Hamilton; Fanshawe, London; Conestoga, Guelph; Loyalist, Belleville; Durham, Oshawa and colleges in Windsor and Sudbury.
